Deswell Announces Third Quarter 2014 Results

- Company Announces Third Quarter Cash Dividend of \$0.05 Per Share -

FOR IMMEDIATE RELEASE

MACAO (Feb 25, 2014) - Deswell Industries, Inc. (Nasdaq: DSWL) today announced its financial results for the fiscal third quarter ended December 31, 2013.

Net sales for the third quarter ended December 31, 2013 were \$10.7 million, a decrease of 22.1% compared to net sales of \$13.7 million for the same quarter ended December 31, 2012. Net sales decreased by 18.5% to \$5.2 million in the Company's plastic segment and decreased by 25.2% to \$5.5 million in the electronic and metallic segment. The operating loss in the third quarter was \$1.3 million, compared to an operating loss of \$0.7 million for the same quarter of fiscal 2013.

Total gross margin decreased to 10.5% in the third quarter ended December 31, 2013 compared to 11.7% in the same quarter last year. Gross profit margin in the plastic segment increased to 15.5% of net sales for the third quarter of fiscal 2014 compared to 10.9% of net sales for the same quarter of last fiscal year. The increase in gross profit and margin in the plastic segment was mainly due to the decrease in raw materials cost in total and as a percentage of sales. Gross profit margin in the electronic and metallic segment decreased to 5.9% of net sales for the third quarter ended December 31, 2013 compared to 12.5% of net sales for the year-ago quarter. The decrease in gross profit and margin in the electronic and metallic segment was mainly attributed to increase in labor costs, resulting from a higher labor rate, offsetting the decrease in headcount.

The Company reported a net loss of \$1.4 million for the third quarter ended December 31, 2013 compared to net loss of \$0.2 million for the quarter ended December 31, 2012. Deswell reported a basic and diluted loss per share of (\$0.09) for the third quarter of fiscal 2014 (based on 16,262,000 and 16,266,000 weighted average shares outstanding, respectively), compared to a basic and diluted loss per share of (\$0.01) (based on 16,698,000 and 16,717,000 weighted average shares outstanding, respectively), for the quarter ended December 31, 2012.

Net sales for the nine months ended December 31, 2013 were \$33.7 million, a decrease of 24.3%, compared to sales of \$44.6 million for the corresponding period in fiscal 2013. Operating loss for the nine months ended December 31, 2013 was \$4.3 million, compared to operating loss of \$1.0 million for the first nine months of fiscal 2013. The Company reported a net loss of \$4.4 million in the first nine months of fiscal 2014, compared to net income of \$8,000 for the nine months ended December 31, 2012. Deswell reported basic and diluted net loss per share of (\$0.27) for the first nine months of fiscal 2014, (based on 16,229,000 and 16,256,000 weighted average share outstanding, respectively), compared to basic and diluted income per share of \$0.0005 (based on 16,482,000 and 16,559,000 weighted average shares outstanding, respectively), for the prior corresponding period.

The Company's financial position remained strong at the end of the third quarter of fiscal year 2014, with \$23.0 million in cash and cash equivalents at December 31, 2013 compared to \$28.4 million at December 31, 2012. Working capital totaled \$52.5 million as of December 31, 2013, versus \$58.3 million as of March 31, 2013. Furthermore, the Company has no long-term or short-term borrowings as of December 31, 2013.

Mr. Edward So, Chief Executive Officer, commented, "Despite the challenges of the current economic environment, our efforts are focused on bolstering sales and marketing, particularly in the United States. A top priority for the Company is to streamline operational efficiency, particularly by increasing automation in the production process. We

are additionally strengthening our Research & Development capabilities and diversifying into alternate market segments that align well with our core competencies. Our balance sheet remains strong with approximately \$23 million in cash and no short or long term debt.”

Third Quarter Dividends

The Company also announced that on February 25, 2014 its board of directors declared a cash dividend of \$0.05 per share for the fiscal third quarter ended December 31, 2013. The dividend will be payable on March 28, 2014 to shareholders of record as of March 10, 2014.

Forward-Looking Statements

Statements in this press release that are "forward-looking statements" are based on current expectations and assumptions that are subject to risks and uncertainties. For example, our statements regarding our expected growth in sales from the electronic and metallic division in the coming year and our efforts to reduce overhead costs in our plastic division are forward-looking statements. Actual results could differ materially because of the following factors, among others, which may cause revenues and income to fall short of anticipated levels or our overhead expenses to increase: our dependence on a few major customers; vigorous competition forcing product price reductions or discounts; the timing and amount of significant orders from our relatively few significant customers; continuing increases in resin prices that cannot be passed on to customers; unexpected production delays; obsolete inventory or product returns; losses resulting from fraudulent activity of our customers or employees; labor shortages that increase labor and costs; changes in the mix of product products we manufacture and sell; adverse currency fluctuations in the renminbi and Hong Kong dollar when translated to US dollars; potential new accounting pronouncements; and the effects of travel restrictions and quarantines associated with major health problems, such as the Severe Acute Respiratory Syndrome, on general economic activity.

For further information regarding risks and uncertainties associated with the Company’s business, please refer to the “Risk Factors” section of Company’s Annual Report on Form 20-F, copies of which may be obtained from the Website maintained by the Securities and Exchange Commission at <http://www.sec.gov>.

All information in this release is made as of the date of this press release. Deswell undertakes no duty to update any forward-looking statement to conform the statement to actual results or changes in Deswell’s expectations.

The weighted average number of common shares outstanding is adjusted to include the number of additional common shares that would have been outstanding if the potentially dilutive common shares had been issued. In computing the dilutive effect of potential common shares, the average stock price for the period is used in determining the number of treasury shares assumed to be purchased with the proceeds from the exercise of options.

MANAGEMENT DISCUSSION AND ANALYSIS OF FINANCIAL
CONDITION AND RESULTS OF OPERATIONS

Results of Operations

General

The Company's revenues are derived from the manufacture and sale of (i) injection-molded plastic parts and components, (ii) electronic products and subassemblies and (iii) metallic parts and components and distribution sales of audio equipment. Quarter Ended December 31, 2013 Compared to Quarter Ended December 31, 2012

Net Sales - The Company's net sales for the quarter ended December 31, 2013 were \$10,724,000, a decrease of \$3,042,000, or 22.1%, as compared to the corresponding period in fiscal 2013. The decrease in sales was mainly related to the decrease in sales of \$1,182,000 in our plastic segment and of \$1,860,000 in our electronic and metallic segment. These represent decreases of 18.5% and 25.2% respectively, as compared with the net sales from these segments in the corresponding period of the prior fiscal year.

The decrease in net sales in our plastic segment was mainly due to a decrease in orders from existing customers of \$2,161,000 mainly for printing, telephone and office equipment and baby cutlery products, offsetting an increase in orders from other existing customers of \$979,000, mainly for medical products and tooling equipment. The decrease of net sales in the electronic and metallic segment was largely due to a decrease in orders of \$2,387,000 from existing customers for professional audio equipment, home entertainment and vending machine products, offsetting an increase of \$529,000 in sales for professional audio equipment with other existing customers.

Gross Profit - The gross profit for the quarter ended December 31, 2013 was \$1,127,000, representing a gross profit margin of 10.5%. This compares with the overall gross profit and gross profit margin of \$1,616,000 or 11.7% for the quarter ended December 31, 2012.

Gross profit in the plastic segment increased by \$111,000 to \$803,000 or 15.5% of net sales, for the quarter ended December 31, 2013, as compared to \$692,000 or 10.9% of net sales, for the quarter ended December 31, 2012. The increase in gross margin in the plastic segment was mainly attributed to the combined effect of a decrease in raw materials costs, offsetting an increase in labor cost as a percentage of sales, resulting from overtime allowances, as compared to the same quarter in the prior year.

Gross profit in the electronic and metallic segment decreased by \$600,000 to \$324,000, or 5.9% of net sales, for the quarter ended December 31, 2013, as compared to \$924,000 or 12.5% of net sales, for the same period of the last fiscal year. The decrease in gross margin was mainly attributed to an increase in labor costs resulting from overtime allowances, as compared to the same quarter of last fiscal year.

Selling, General and Administrative Expenses – SG&A expenses for the quarter ended December 31, 2013 were \$2,609,000, as compared to \$2,403,000 for the corresponding period of last year. As a percentage of sales, the SG&A expenses were 24.3% for the quarter ended December 31, 2013, as compared to 17.5% for the same quarter of last fiscal year.

The SG&A expenses in the plastic segment increased by \$21,000 to \$1,582,000, or 30.5% of net sales, for the quarter ended December 31, 2013, as compared to \$1,561,000, or 24.5% of net sales for the corresponding period in fiscal 2013. The increase in SG&A expenses was due to increase of \$44,000 in staff costs, and of \$44,000 in local government taxes and registration charges, offsetting by the decrease of \$33,000 in selling expenses and of \$32,000 in depreciation expense, as compared with the year-ago quarter.

SG&A expenses in the electronic and metallic segment increased by \$185,000 to \$1,027,000, or 18.6% of net sales for the quarter ended December 31, 2013, compared to \$842,000, or 11.4% of net sales for the corresponding period in fiscal 2013. The increase in SG&A expenses for the quarter ended December 31, 2013 was mainly due to the increase of \$140,000 in staff cost and welfare as well as of \$67,000 in legal and professional fees, offsetting the decrease of \$21,000 in selling expenses, as compared with the corresponding quarter in the prior fiscal year.

Other income - Other income was \$134,000 for the quarter ended December 31, 2013, as compared to other income of \$130,000 for the quarter ended December 31, 2012.

On a segment basis, other income attributable to the plastic segment was \$80,000 as compared to other income of \$92,000 for the same quarter last year. The decrease in other income for the quarter ended December 31, 2013 was mainly due to an exchange gain of \$77,000 and a reversal of the provision of \$15,000 for doubtful receivables, as compared to an exchange gain of \$70,000 and a reversal of provision for doubtful receivables of \$31,000 in the corresponding year-ago quarter.

Other income attributable to the electronic and metallic segment was \$54,000 for the quarter ended December 31, 2013, as compared to other income of \$38,000 for the year-ago quarter. The increase in other income for the quarter ended December 31, 2013 was mainly due to an increase of \$28,000 in exchange gain and of \$14,000 in gain on disposal of fixed assets, offsetting a decrease of \$27,000 in materials sales and other income, as compared to the corresponding quarter of the prior fiscal year.

Operating loss - Operating loss was \$1,348,000 for the quarter ended December 31, 2013, as compared with operating loss of \$657,000 for the corresponding quarter in the prior fiscal year.

On a segment basis, the operating loss in the plastic division was \$699,000 or negative 13.5% of net sales in the quarter ended December 31, 2013 compared to an operating loss of \$777,000 or negative 12.2% of net sales in the corresponding period of fiscal 2013. The decrease in operating loss in the plastic division was mainly due to an increase in gross margin as described above.

Operating loss in the electronic and metallic segment was \$649,000, or negative 11.7% of net sales in the quarter ended December 31, 2013 compared to operating income of \$120,000 or 1.6% of net sales in the corresponding period of fiscal 2013. The increase in operating loss in the electronic and metallic segment was mainly due to a decrease in gross margin and an increase in SG&A expense as described above.

Non-operating income – Non-operating income was \$134,000 for the quarter ended December 31, 2013 as compared to non-operating income of \$496,000 for the year-ago quarter. The decrease in non-operating income is mainly attributable to a decrease of \$136,000 in income from securities investments and a realized gain of \$360,000 from disposal of marketable securities, offsetting the increase of \$32,000 in interest income and of \$72,000 in rental income, as compared to the year-ago quarter.

Income Taxes – Income tax for the quarter ended December 31, 2013 was comprised of an income tax expense of \$180,000 and a deferred tax provision of \$27,000, as compared to an income tax expense of \$44,000 and a deferred tax provision of \$16,000 in the corresponding quarter of the prior fiscal year.

On a segment basis, there was an income tax expense of \$15,000 and a deferred tax provision of \$27,000 in the plastic segment for the quarter ended December 31, 2013, as compared to an income tax expense of \$23,000 and a deferred tax provision of \$16,000 in the year-ago quarter. The income tax of the electronic and metallic segment for the quarter ended December 31, 2013 was comprised of an income tax expense of \$165,000, as compared to an income tax expense of \$21,000 in the corresponding quarter of fiscal 2013.

Net Loss – The Company had a net loss of \$1,421,000 for the quarter ended December 31, 2013 as compared to net loss of \$221,000 for the quarter ended December 31, 2012. Net loss for the quarter ended December 31, 2013 represented negative 13.3 % of net sales, compared to negative 1.6 % of net sales in the same quarter of the prior fiscal year.

Net loss for the plastic segment for the quarter ended December 31, 2013 totaled \$628,000, as compared to a net loss of \$322,000 for the corresponding quarter in fiscal 2013. The increase in net loss was mainly the result of a decrease in non-operating income for the quarter as described above.

Net loss for the electronic and metallic segment for the quarter ended December 31, 2013 was \$793,000, as compared to net income of \$101,000 for the corresponding quarter in fiscal 2013. The increase in net loss in the electronic and metallic segment was primarily the result of lower gross margin as well as an increase in SG&A expense as described above.

Nine Months Ended December 31, 2013 Compared to Nine Months Ended December 31, 2012

Net Sales - The Company's net sales for the nine months ended December 31, 2013 were \$33,713,000, a decrease of \$10,844,000 or 24.3% as compared to \$44,557,000 in the corresponding period in fiscal 2013. The decrease was related to a decrease in sales revenues of \$5,338,000 in our plastic segment and \$5,506,000 in our electronic and metallic segment, as compared with the respective net sales from these segments in the corresponding period of the prior fiscal year.

The revenue decrease in the plastic segment was due to a decrease in sales orders from existing customers reflecting the continuous uncertain global economic conditions.
