NMXS.com, INC. AND SUBSIDIARIES Notes to Consolidated Financial Statements

Employment agreement:

The Company entered into an employment and non-competition agreement with a stockholder to act in the capacity of President and Chief Executive Officer (CEO). The term of the employment agreement is for three years commencing on January 1, 2003. The agreement allows for a one year renewal option unless terminated by either party. Base salary is \$200,000 per annum with available additional cash compensation as defined in the agreement. The base salary shall be paid in the form of 50 shares of Series A Convertible Preferred stock of the Company payable at the end of each fiscal quarter. The CEO has the option to convert up to 25 shares of Series A Convertible Preferred stock to Common stock at a discount of 30%. Compensation under this agreement of \$15,000 is included in general and administrative expenses for the period ended September 30, 2003. The non-competition agreement commences upon the termination of the employment agreement for a period of one year. As of September 30, 2003, there was a total of \$15,000 in accrued payroll which will be eliminated upon issuance of the shares of stock.

Consulting agreement:

The Company entered into a consulting agreement with a stockholder to advise the CEO on business strategy and to formulate marketing ideas. The term of the employment agreement is for approximately five years commencing on July 1, 2003 and terminating on December 31, 2008. The shareholder will receive a total of 5,500,000 shares of the Company's \$0.001 par value common stock valued at \$330,000. As of September 30, 2003, the shareholder was paid a total of 2,250,000 shares of common stock, but he has earned only 250,000 shares and the difference of 2,000,000 shares is considered deferred compensation. During the nine months ended September 30, 2003, the Company has expensed \$15,000 in consulting fees.

NOTE G - MAJOR CUSTOMERS

During the nine month period ended September 30, 2003, one customer accounted for 30% of the Company's revenue. The Company recognized \$245,000 as revenue from barter agreements for the nine months ended September 30, 2003.

As of September 30, 2003, balances due from one customer comprised 39% of total accounts receivable.

NOTE H - REPORTABLE SEGMENTS

Edgar Filing: NMXS COM INC - Form 10QSB

Management has identified the Company's reportable segments based on separate legal entities. New Mexico Software, Inc. (NMS) derives revenues from the development and marketing proprietary internet technology-based software and Working Knowledge, Inc. (WKI) provides data maintenance services related to NMS digital asset management system. Information related to the Company's reportable segments for 2003 is as follows:

	NMS -----	WKI -----	Total -----

	=====	=====	=====

WKI revenue consists primarily of software maintenance and scanning services.

9

NMXS.com, INC. AND SUBSIDIARIES Notes to Consolidated Financial Statements

A reconciliation of the segments' operating loss to the consolidated net loss/comprehensive loss is as follows:

Segment's operating income	(\$ 520,000)
Other income (expense)	(19,000)

Consolidated net income/comprehensive income	(\$ 539,000)
	=====

Prior to acquisition of WKI, in April 2000, the Company operated within one business segment.

For the nine month period ended September 30, 2003, amortization and depreciation expense amounted to \$282,000 and \$81,000 for NMS and WKI, respectively. Also, total fixed asset additions amounted to \$6,000 and \$0 for NMS and WKI, respectively.

NOTE I - CONTINGENCIES AND OTHER LIABILITIES

Contingencies:

As of September 30, 2003, the Company had accumulated debt totaling \$55,000 in line charges with Sprint. The Company was also owed commissions in connection with its contract with Sprint as a Sprint Data Partner. The Company and Sprint have agreed in principle to apply the outstanding commissions to the debt thereby reducing the debt from \$55,000 to \$16,000. The Company expects to pay the \$16,000 over a period of 16 months starting Feb 2003. During the nine months period ended September 30, 2003, the Company has paid a total of \$8,000 to Sprint.

Edgar Filing: NMXS COM INC - Form 10QSB

As of September 30, 2003, the Company settled with Sun Microsystems, Inc. (Sun) over the terms of equipment leased from Sun whereby the Company continued to make lease payments and failed to notify Sun past the lease termination date during 2002. The Company ceased making payments in October 2002 until the matter was resolved. Sun is pursuing collection of payments it considers in arrears totaling \$78,000. The Company claims that the missed termination date is a technicality, and that it has overpaid Sun by \$50,000. On July 23, 2003, the Company settled with Sun and paid a total of \$1,000 and has returned the majority of the equipment to Sun and does not consider this to impair its ability to continue servicing its customer base.

As of September 30, 2003, the Company had settled with Eisner, LLP (Eisner) over past due accounting fees totaling \$109,000. The Company and Eisner have agreed to settle for \$20,000 and in September 2003 the Company has paid the entire amount.

As of September 30, 2003, the Company had settled with TC Albuquerque Ross Interests, LLC and TC Albuquerque Rabina Interest, LLC (Landlord) over past due office rent totaling \$29,000. The Company has agreed to issue 365,000 of the Company's \$0.001 par value common stock to cancel the outstanding balance due of \$29,000 plus \$3,500 in anticipated brokerage fees. The Company renegotiated its lease to a month-to-month arrangement at a rate of \$3,000 per month.

Outstanding Payroll Taxes:

The Company has unpaid Federal and State payroll taxes totaling \$277,371 as of September 30, 2003. No action has been taken by the Company or the Internal Revenue Service (IRS) to negotiate payment terms, and no plan for repayment has been determined by the Company. The penalties and interest associated with this liability is estimated to be in excess of 10% of the total payroll taxes due, but has not been accrued because the Company feels that until a settlement is reached with the IRS the Company cannot reasonably determine the amount due in penalties and interest.

10

NMXS.com, INC. AND SUBSIDIARIES Notes to Consolidated Financial Statements

On June 1, 2003, the Company settled with the State of New Mexico and agreed to pay \$1,000 per month of past due payroll taxes plus the current amount due. During the nine months ended September 30, 2003, the Company paid a total of \$3,000 of past due payroll taxes.

On October 17, 2003, the Company settled with the IRS and agreed to pay \$5,000 per month of past due payroll taxes plus the current amount due. During the nine months ended September 30, 2003, the Company paid a total of \$0 of past due payroll taxes. On November 1, 2003, the Company has made its first payment of \$5,000 to the IRS.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND PLAN OF OPERATIONS.

Edgar Filing: NMXS COM INC - Form 10QSB

OVERVIEW

We are a leading provider of digital asset management solutions. We provide services for content owners to better manage the digital lifecycle of intellectual property which includes digitizing, encoding, storing, managing, licensing, and distributing digital files in government, medical, entertainment, and IT markets.

Our core product, AssetWare, is an enterprise-level platform that manages digital assets or files, which is anything digital that a company or organization would consider an asset. It manages assets by creating catalogs, or groups of assets, catalog hierarchies, users, user groups, and user permissions. The assets are managed by a database that maintains both the membership of the asset in a catalog, or catalogs, and information about the asset. AssetWare's main user interface is a web browser, which makes it accessible and more intuitive to a greater number of users. AssetWare can be run on Solaris or Linux operating systems.

Our business creates software that is used by our clients on a hosted basis. This model is referred to as an Application Service Provider (ASP). Our clients use our software which we build for them, but the equipment/hosting is the property of NMS. Their fees consist of the following: development fees, monthly hosting fees, and yearly renewal fees. The one time development fee is between \$300,000 and \$500,000 and there is a renewal fee each year thereafter. The renewal fee is a percentage of the one time development fee. The hosting fees vary depending on the complexity of the site. Current customer sites generate anywhere from \$250 monthly to \$5,000 monthly. A few new contracts we have sold will generate between \$7,500 and \$15,000 per month, due mainly to the complexity of the development projects.

The second type of revenue we receive is from custom programming. Custom programming allows us to make client changes to our standard software code and include such items as tailoring the application to a client's workflow, customizing user and administrative interfaces, custom reporting, user data collection, and multi-division support. The average revenue received from custom programming varies from month to month, but in the past few years it only averaged about \$5,000 per month. This revenue source is building and in August and September we received two new contracts for \$75,000 and \$80,000, respectively, for development work. These contracts were from the U.S. Department of Energy and a large entertainment company. We expect follow on contracts to occur in the fourth quarter and first quarter of 2004.

The third revenue source consists of professional services. This includes archive scanning, customer support, and database consulting. This business has improved and recently we were awarded a multi-year commitment from a large entertainment studio to scan promotional material from their archive of 8,000 movies. In our business we do not use contracts or purchase orders. We have an agreement on price and performance issues signed by both parties. Billing is performed at the time of delivering the work. The size and scope of the scanning project is approximately 200,000

12

to 249,000 images. We had thought this business was on a downward slide. With the third quarter agreement we can report that this revenue source is going to pick up again.

The last type of revenue comes from the sale of our Digital Filing

Edgar Filing: NMXS COM INC - Form 10QSB

Cabinet software. We have recently augmented the program to provide our own branded servers with our software. In addition, there are monthly maintenance fees for hardware and a recurring yearly maintenance fee for the software upgrades. We will continue to work with OEM hardware vendors to generate revenues from this source.

Cost of services consists primarily of engineering salaries and supplies, and compensation-related expenses, as well as hardware purchases and equipment rental. General and administrative expenses consist primarily of salaries and benefits of personnel responsible for business development and operating activities, and include corporate overhead expenses. Corporate overhead expenses relate to salaries and benefits of personnel responsible for corporate activities, including acquisitions, administrative, and reporting responsibilities. We record these expenses when incurred.

CRITICAL ACCOUNTING POLICIES

The discussion and analysis of our financial condition and results of operations are based upon our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amount of assets and liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities at the date of our financial statements. Actual results may differ from these estimates under different assumptions or conditions.

Critical accounting policies are defined as those that are reflective of significant judgments and uncertainties, and potentially result in materially different results under different assumptions and conditions. We believe there are no critical accounting policies which would have a material impact on our financial presentation.

Notwithstanding the foregoing, we recognize revenue from sales of proprietary software which do not require further commitment from us upon shipment. During 2002 we shipped software under a contract with Physicians Telehealth Network ("PTN") and recognized \$500,000 in license fees from the sale. The agreement with PTN provided for the licensing of the technology for \$500,000, which amount was recorded as income during 2002. In the first quarter of 2003, certain of PTN's assets were taken over by a group of investors headed by Kurt Grossman and the initial contract we received continued with the new investor group named Doctors Telehealth Network ("DTN"). DTN has made no payments under the contract. During second quarter 2003 management determined that DTN was not going to proceed with the project and we wrote off the receivable related to it. Management does not intend to pursue the contract and has rescinded the license granted in the agreement.

Revenues. Total revenues increased 78%, or \$165,000 for the three months ended September 30, 2003, as compared to the same period in the prior year (the "comparable prior year period"). Total revenues decreased 32%, or \$484,000, for the nine months ended September 30, 2003, as compared to the comparable prior year period. Management believes the trend represented by the third quarter of this year is more indicative of future revenue generation. We are developing more customers from our distribution program with the Digital Filing Cabinet and we have initiated a strong sales program. These revenues were generated principally from the following four revenue streams:

Edgar Filing: NMXS COM INC - Form 10QSB

- * Revenues generated by software sales and maintenance increased 15,700%, or \$157,000, for the three months ended September 30, 2003, as compared to the comparable prior year period. Revenues generated by software maintenance increased 146%, or \$385,000, for the nine months ended September 30, 2003, as compared to the comparable prior year period. This increase is attributable to the fact that we are now marketing our product as an off-the-shelf product. The hosting model is less of a factor for us. Our marketing efforts are for continuing the sale of our standard products as compared with building custom products. Management believes software sales and maintenance will remain strong in the future due to an increasing number of customers requiring our services.
- * Custom programming revenue increased 132%, or \$86,000, for the three months ended September 30, 2003, as compared to the comparable prior year period. Custom programming revenue increased 102%, or \$101,000, for the nine months ended September 30, 2003, as compared to the comparable prior year period. There are some customers that purchase our standard products and require customization, and we continue to offer this service. While this could be a significant growth area for us in the future, it will depend on the customer base and their requirements for customizing our products.
- * Revenues generated by license fees increased 15%, or \$2,000, for the three months ended September 30, 2003, as compared to the comparable prior year period. Revenues generated by license fees decreased 96%, or \$894,000, for the nine months ended September 30, 2003, as compared to the comparable prior year period. Management believes that this category may not be a significant portion of future revenues. We may license our software, or parts of the software, in certain cases. However, we anticipate most revenues will be generated from software sales of our Digital Filing Cabinet package.

15

- * Revenue generated by scanning services decreased 62%, or \$83,000, for the three months ended September 30, 2003, as compared to the comparable prior year period. This type of revenue decreased 40%, or \$81,000, for the nine months ended September 30, 2003, as compared to the comparable prior year period. This part of our business is not a primary focus, although management believes it generates adequate income when scanning contracts are received. Generally, these contracts are made available to us when the promotion budgets are available for new television shows or archived shows. We are unable to predict when and to what extent these budgets will be available in the future. Therefore, management believes revenues in this category may fluctuate in the future depending on the availability of promotional funds from the studios.

We continue to rely on a small number of customers to generate our revenues. During the nine month period ended September 30, 2003, Toshiba accounted for 30% of the total revenues generated during the period. In addition, Forbes, Inc. comprised 39% of the total accounts receivable balance at September 30, 2003.

Cost of Services. Cost of services decreased 56%, or \$101,000, for the three months ended September 30, 2003, as compared to the comparable prior year period. Cost of services decreased 42%, or \$178,000, for the nine months ended September 30, 2003, as compared to the comparable prior year period. This reduction in costs of services is attributable primarily to a reduction of overhead expenses following completion of the primary

Edgar Filing: NMXS COM INC - Form 10QSB

research and development phase of our software. Cost of services as a percentage of revenues decreased to 24% for the nine months ended September 30, 2003 from 28% for the comparable prior year period. Management believes this current percentage is more indicative of the percentage of costs associated with revenues in the future, but until we have been in the active marketing phase for a longer period, management is unable to yet determine to what extent this percentage may change in the future.

General and Administrative. General and administrative expenses decreased 47%, or \$125,000, for the three months ended September 30, 2003, as compared to the comparable prior year period. General and administrative expenses decreased 38%, or \$423,000, for the nine months ended September 30, 2003, as compared to the comparable prior year period. This decrease was primarily attributable to a reduction in engineering and administrative staff, reducing our monthly lease payments for our office space in Albuquerque, and reducing our accounting and legal expenses. General and administrative expenses as a percentage of revenues were 70% for the nine months ended September 30, 2003, as compared to 76% for the comparable prior year period. Management believes this current percentage is more indicative of the percentage of general and administrative costs associated with revenues in the future. However, management believes general and administrative may increase slightly in the future if more customer support and sales persons are required to handle an increase in customers. Until we have been in the active marketing phase for a longer period, management is unable to yet determine to what extent this percentage may change in the future.

Research and Development. Research and development expenses decreased 36%, or \$16,000, for the three months ended September 30, 2003, as compared to the comparable prior year period.

16

Research and Development expenses decreased 34%, or \$47,000, for the nine months ended September 30, 2003, as compared to the comparable prior year period. This decrease was primarily due to less time required to complete product enhancements and a reduction in the number of software developers. It is also attributable to the need to develop additional product areas. Since our products are mature and now in the market, most of the research and development category will have a lesser importance in the future. In addition we will add a maintenance development category in the future.

Bad Debt. Management has determined that the account receivable from Doctors Telehealth Network generated by the sale of a software license for \$500,000 is not collectable. Therefore, management decided to write-off the receivable during the second quarter of 2003. Bad debt expenses as a percentage of revenues were 50% for the nine months ended September 30, 2003, as compared to nothing for the comparable prior year period.

Other Income (Expense). Interest expense decreased 62%, or \$8,000, for the three months ended September 30, 2003, as compared to the comparable prior year period. Interest expense decreased 30%, or \$8,000, for the nine months ended September 30, 2003, as compared to the comparable prior year period. The decrease in interest expense was attributable to retiring existing promissory notes and issuing fewer notes.

LIQUIDITY AND CAPITAL RESOURCES

As of September 30, 2003, cash and cash equivalents totaled \$70,000, representing a \$31,000 increase from the beginning of the period. This increase was attributable to cash generated from our financing activities.

Edgar Filing: NMXS COM INC - Form 10QSB

Operating Activities used net cash of \$139,000 for the nine months ended September 30, 2003, compared to \$69,000 used during the nine months in the prior year comparable period.

Our cash flow has improved significantly in that we believe we are able to meet our on-going expenses from our revenues. Nevertheless, at September 30, 2003, we had negative working capital of (\$328,000). At September 30, 2003, we also owed approximately \$277,371, without penalties and interest, for unpaid federal and state payroll taxes, although we have negotiated a settlement with the state taxing authority and an interim settlement with the IRS. At September 30, 2003, we had trade accounts payable in the amount of \$114,041, of which \$76,224 were current as of September 30, 2003, and \$37,814 were past due. The largest creditor, excluding taxing agencies, is Forbes which is owed \$25,000 which we intend to satisfy upon completion of the advertising campaign in first quarter of 2004. The remainder of the past due amounts is owed to our former counsel. We also continue to accrue the salary of our president, which, at September 30, 2003, was an aggregate of \$110,800, of which \$15,000 was accrued for the nine months ended September 30, 2003.

During the nine months ended September 30, 2003, we issued common stock or stock options for salaries and services totaling \$218,000, as compared with \$469,000 for the comparable prior year period. We anticipate that this downward trend in such compensation will continue as we are able to

17

reduce our compensation expenses and generate more revenue from operations. However, we might continue to compensate employees and consultants with equity incentives where possible and during 2003 and part of 2004 may continue to utilize equity instruments. We believe this strategy provides the ability to increase stockholder value as well as utilize cash resources more effectively. To support this strategy we may seek an increase in the number of equity securities that can be issued under our existing stock plan in order to allow management greater flexibility in its use of stock based compensation. The continued issuance of equity securities under the stock plan may result in dilution to existing shareholders.

Investing activities used \$6,000 of cash for the nine months ended September 30, 2003, as compared to \$1,000 for the comparable prior year period. The increase in the cash used for investing activities was primarily attributable to acquisition of fixed assets for replacement of computer hardware.

Financing activities provided \$176,000 in cash for the nine months ended September 30, 2003, as compared to financing activities providing \$161,000 for the comparable prior year period. The increase in cash provided by financing activities was primarily attributable to funds borrowed by us and sales of our stock. Of the cash provided by financing activities for the nine months ended September 30, 2003, \$25,000 of the total amount was attributable to a loan from First Mirage, Inc. In March 2003 we issued a promissory note for \$25,000 with an interest rate of 7%. The note was due on September 30, 2003. We negotiated an extension of the note to December 31, 2003. Also during second and third quarters we sold 135 shares of Series A preferred stock. The Series A shares are convertible into common shares at the option of the holder at the rate of 70% of the average bid price of the common stock on the conversion date, based upon the value of the Series A shares being converted which is deemed to be \$1,000 per share. During third quarter we received notification from two of the investors holding 105 of the preferred shares of their intention

Edgar Filing: NMXS COM INC - Form 10QSB

to convert their shares into 1,600,000 shares of common stock. The remaining \$28,000 was provided by net proceeds from a private stock offering of 250,000 shares of common stock to John Handley, one of our directors.

Management anticipates that our primary uses of capital in the future periods will be allocated to working capital purposes. Our business strategy is to achieve growth internally through continued sale of licenses for our AssetWare and Digital Filing Cabinet products, and maintenance of these licenses, and externally through the sale of potentially dilutive securities. We may also continue to incur debt as needed to meet our operating needs. In addition, we may be forced to issue additional equity compensation to employees and outside consultants to meet payroll and pay for needed legal and other services.

During the quarter ended September 30, 2003, we negotiated the settlement of several outstanding obligations, including the following:

- * We negotiated a reduction in the amount of space we lease at our Albuquerque, New Mexico, facilities to approximately 2,886 square feet and reduced our monthly rent payment to \$3,000. We also issued 365,000 shares of our common stock to the landlord in satisfaction of past due lease payments in the amount of \$29,352, provided

18

that we register the resale of these shares by February 2003. If we fail to register the shares, we must repay the back lease amount.

- * We settled an account payable to our former auditor. We had received invoices for approximately \$109,000 from the auditor and settled the payable for \$20,000 which we paid in September 2003.
- * We settled a dispute with Sunrise International Leasing Corporation in which it claimed that we owed approximately \$71,000 under two equipment leases. We returned the equipment and paid \$1,000 to the leasing company in settlement of this dispute.

At September 30, 2003, we had an outstanding balance of \$212,849 on an original line of credit with Los Alamos National Bank. The total amount this loan was due on October 15, 2003. Effective October 15, 2003, we negotiated a six month extension of the amount due on the line of credit by paying \$25,000 of the principal amount due and \$7,500 in interest due. The loan is now due April 15, 2004, and the principal balance due for this line of credit is \$187,776 as of October 15, 2003. Our inability to retire this debt, negotiate an extension of the payment amount and/or date, or obtain an alternative loan would likely have a material negative impact on our business, and could impair our ability to continue operations if the bank were to foreclose on the note after April 15, 2004.

Subsequent to the quarter ended September 30, 2003, we negotiated a commitment from a related party by which it expressed its intent to invest approximately \$500,000 in our company over the next approximately six months. This investment is intended to be in the form of either an acquisition of our common stock, convertible notes, and/or convertible preferred stock. The investment will be subject to certain conditions, including registration of the securities for resale, negotiation of satisfactory deal terms, and satisfactory completion of its due diligence investigation of our company. The funds will be used to pay back the delinquent taxes owed to the IRS.

FORWARD-LOOKING STATEMENTS

Edgar Filing: NMXS COM INC - Form 10QSB

This report contains statements that plan for or anticipate the future. Forward-looking statements include statements about the future of operations involving the marketing and maintenance of products which manage large volumes of media or digital material, statements about our future business plans and strategies, and most other statements that are not historical in nature. In this report forward-looking statements are generally identified by the words "anticipate," "plan," "believe," "expect," "estimate," and the like. Although management believes that any forward-looking statements it makes in this report are reasonable, because forward-looking statements involve future risks and uncertainties, there are factors that could cause actual results to differ materially from those expressed or implied. For example, a few of the uncertainties that could affect the accuracy of forward-looking statements include the following:

- * Rapid changes in technology relating to the Internet;
- * the continued growth and use of the Internet;
- * changes in government regulations;

19

- * changes in our business strategies;
- * hardware failure of a catastrophic proportion;
- * terrorist interference with the operation of the Internet or effects of terrorist activities on the economy;
- * difficulty recruiting and retaining staff of sufficient technical caliber to provide adequate and on-going customer support and product maintenance and development;
- * failure to successfully market our products through the Internet and our representatives;
- * the inability to locate sources to retire our line of credit or to obtain alternative lending sources; and
- * the inability to solve cash flow problems.

In light of the significant uncertainties inherent in the forward-looking statements made in this report, particularly in view of our early stage of operation, the inclusion of this information should not be regarded as a representation by us or any other person that our objectives and plans will be achieved.

ITEM 3. CONTROLS AND PROCEDURES

Within 90 days prior to the filing date of this report, our management conducted an evaluation, under the supervision and with the participation of our president and principal financial officer, of the effectiveness of the design and operation of our disclosure controls and procedures. Based on this evaluation, the president and principal financial officer concluded that our disclosure controls and procedures are effective. There have been no significant changes in our internal controls or in other factors that could significantly affect those controls subsequent to the date of our last evaluation.

PART II

ITEM 1. LEGAL PROCEEDINGS

On October 20, 2003, management received a written demand from Kurt Grossman for payment in full of a one year promissory note issued by us on April 23, 2002, to Mr. Grossman and his wife evidencing a loan of \$50,000 by Mr. and Mrs. Grossman to us. The demand includes payment for the principal amount of the note of \$50,000, fixed interest of \$5,000, and post default interest of \$2,665.62. Mr. Grossman has informed us that he

Edgar Filing: NMXS COM INC - Form 10QSB

intends to commence legal action if the note, plus interest, is not paid on or before October 23, 2003. As of the filing date of this report, we have not been notified of the commencement of any action, and management is attempting to settle this obligation.

In October 2003 we entered into an interim agreement with the Internal Revenue Service concerning the repayment of federal tax deposits which we failed to pay for the four operating quarters ended September 30, 2003. We have agreed to pay \$5,000 per month beginning November 1, 2003, through February 1, 2004. During this interim period the IRS has agreed to withhold the filing of a federal tax lien. Consideration of filing a lien in the future will be based upon a determination of how long it may take to pay the taxes. Also, our failure to make timely federal tax

20

deposits will default this interim agreement and necessitate the filing of the lien. Our tax returns for the unpaid quarters are being assessed by the IRS and we expect to receive an assessment notice for each period upon completion of this assessment. We estimate that these assessments will total approximately \$277,000, plus interest and penalties.

ITEM 2. CHANGES IN SECURITIES AND USE OF PROCEEDS

During the quarter ended September 30, 2003, the following securities were sold by us without registering the securities under the Securities Act:

- * In July and August 2003 we issued 105 shares of Series A Convertible Preferred Stock to two accredited investors for gross proceeds of \$105,000. We also granted registration rights for the shares of common stock into which the Series A Convertible Preferred Stock may be converted. In July and August we received notification by these investors converting their preferred shares into 1,600,000 shares of our common stock. These securities were issued without registration under the Securities Act by reason of the exemption from registration afforded by the provisions of Section 4(6) thereof, as a transaction by an issuer to accredited investors, and pursuant to the provisions of Rule 506 of Regulation D. Each of the investors acknowledged the investment nature of the securities issued and consented to the imposition of restrictive legends upon the certificates evidencing the shares. The investors did not enter into the transaction as a result of or subsequent to any advertisement, article, notice, or other communication published in any newspaper, magazine, or similar media or broadcast on television or radio, or presented at any seminar or meeting. Each investor was also afforded the opportunity to ask questions of our management and to receive answers concerning the terms and conditions of the transaction. No underwriting discounts or commissions were paid in connection with such issuance. As of the filing date of this report, the certificates representing the 1,600,000 shares had not been issued by the transfer agent.
- * In June 2003 we approved the issuance of 200,000 shares of common stock to Brockington Securities, Inc., an accredited investor, for services performed under a one year investment banking contract. These securities were issued without registration under the Securities Act by reason of the exemption from registration afforded by the provisions of Section 4(6) thereof, as a transaction by an issuer to accredited investors, and pursuant to the provisions of Rule 506 of Regulation D. Brockington acknowledged the investment nature of the securities issued and consented to the imposition of restrictive legends upon the certificates evidencing the shares. It did not enter

Edgar Filing: NMXS COM INC - Form 10QSB

into the transaction as a result of or subsequent to any advertisement, article, notice, or other communication published in any newspaper, magazine, or similar media or broadcast on television or radio, or presented at any seminar or meeting. Representatives of Brockington were also afforded the opportunity to ask questions of our management and to receive answers concerning the terms and conditions of the transaction. No underwriting discounts or commissions were paid in connection with such issuance. As of the filing date of this report, the certificates representing the 200,000 shares had not been issued by the transfer agent.

21

- * In June 2003 we granted options to John Handley, one of our directors, to purchase 500,000 shares of our common stock at \$0.06 per share. These securities were issued without registration under the Securities Act by reason of the exemption from registration afforded by the provisions of Section 4(6) thereof, as a transaction by an issuer not involving a public offering. Mr. Handley acknowledged the investment nature of the securities issued and consented to the imposition of restrictive legends upon the certificates evidencing the options. Mr. Handley did not enter into the transaction as a result of or subsequent to any advertisement, article, notice, or other communication published in any newspaper, magazine, or similar media or broadcast on television or radio, or presented at any seminar or meeting. Mr. Handley was provided access to information similar to the type of information which would be included in a prospectus and was also afforded the opportunity to ask questions of our management and to receive answers concerning the terms and conditions of the transaction. No underwriting discounts or commissions were paid in connection with such issuance.

- * In September 2003, based on an agreement agreed upon in July 2003, we issued warrants to First Mirage, Inc. to purchase 1,000,000 shares of our common stock at \$0.08 per share for a period of five years. These securities were issued without registration under the Securities Act by reason of the exemption from registration afforded by the provisions of Section 4(6) thereof, as a transaction by an issuer not involving a public offering. First Mirage acknowledged the investment nature of the securities issued and consented to the imposition of restrictive legends upon the certificates evidencing the options. First Mirage did not enter into the transaction as a result of or subsequent to any advertisement, article, notice, or other communication published in any newspaper, magazine, or similar media or broadcast on television or radio, or presented at any seminar or meeting. First Mirage was provided access to information similar to the type of information which would be included in a prospectus and was also afforded the opportunity to ask questions of our management and to receive answers concerning the terms and conditions of the transaction. No underwriting discounts or commissions were paid in connection with such issuance.

ITEM 5. OTHER INFORMATION

On August 29, 2003, we entered into a new employment agreement with Richard Govatski, our president. His previous employment agreement expired on December 31 2002. The term of the new employment agreement is for three years effective beginning effective January 1, 2003, with an automatic extension of one year if the parties do not renegotiate a new agreement prior to expiration of this one. The agreement provides for an annual base salary of \$200,000, but Mr. Govatski has agreed to forfeit all but \$20,000 of the annual base salary, which reduced amount is accrued quarterly at \$5,000 per quarter. The base salary is payable quarterly in the form of 50 shares of Series A Convertible Preferred Stock and the agreement permits him to convert up to 25 shares per quarter. The board may increase the base salary based on annual reviews. Options granted under the old employment agreement were canceled and new options to purchase up to 500,000 shares were granted. These options are fully vested and exercisable at \$.06 per share and will expire on December 31, 2007. Mr. Govatski is entitled to participate at no cost in any group health insurance plan. He is also entitled to a monthly automobile allowance of \$1,000. The agreement also contains confidentiality and non-competition provisions.

On August 29, 2003, we entered into a one-year consulting agreement dated August 21, 2003, with First Mirage, Inc. First Mirage has agreed to advise us concerning our capital structure, including valuation analysis, timing of capital events, public offering strategy, merger and acquisition strategy, and investment bank evaluation and selection; advise us in the selection and recruitment of directors and advisory board members; and advise us in the establishment of procedures and processes for board review and action. As consideration for the services we issued to First Mirage five-year Series E Warrants to purchase 1,000,000 shares of our common stock at \$.08 per share. We also agreed to register the resale of the shares underlying the warrants in the next appropriate registration statement filed by us.

In a related transaction, on August 29, 2003, First Mirage, Inc. agreed to extend the repayment of the \$25,000 note issued by us to them until December 31, 2003. First Mirage also granted to us the right to put to them shares of our common stock in a sufficient number to repay all or part of the note so long as First Mirage has had a reasonable opportunity to exercise its warrants during a period when the bid price of our common stock is at least \$.08 per share and the common stock underlying the warrants has been registered for resale.

On September 2, 2003, we entered into a consulting agreement with John Handley, one of our directors. The agreement was effective January 1, 2003 and terminates on December 31, 2003. Pursuant to the agreement, Mr. Handley has agreed to advise our officers and directors concerning business strategies, sales contracts, and business relationships. As consideration for providing such services, we have agreed to grant to Mr. Handley options to purchase 500,000 shares of our common stock at \$.06 per share.

On November 12, 2003, the board approved and ratified a new consulting agreement with Brian McGowan. This agreement replaces a prior consulting agreement with Mr. McGowan dated December 15, 2002. The original agreement provided for maximum compensation of 2,000,000 shares of common stock and was scheduled to expire on December 31 2003. We issued all 2,000,000

shares to Mr. McGowan in connection with this original agreement. Also, during third and fourth quarters of 2003, we issued 250,000 each quarter to Mr. McGowan for services rendered in settlement of outstanding obligations owed by us. The new agreement provides for total compensation of 5,500,000 shares subject to the following conditions: (i) The 2,000,000 shares issued under the old agreement and the 500,000 shares issued to him for settling the outstanding obligations will apply to the total compensation payable under the new agreement; and (ii) the remaining 3,000,000 shares under the new agreement will be issued at the rate of 250,000 per quarter for the first and second quarters of 2004, for the third quarter of 2006, and for each quarter thereafter during the initial term of the agreement. The effective date of the new agreement is July 11, 2003, and it expires on June 30, 2008. Under the new agreement, Mr. McGowan has agreed to advise our CEO on business strategy; formulate marketing ideas and plans; and introduce us to companies and individuals in various markets with regard to our business, products, and services.

In October 2003, we increased the number of shares available under our 2001 Stock Issuance Plan by 1,500,000, from a prior total of 3,400,000 to 4,900,000 shares. At November 11, 2003, we had issued a total of 3,395,642 shares under this plan, leaving us 1,504,358 for future stock grants.
