REVENUE RECOGNITION

## Edgar Filing: CITY NETWORK INC - Form 10QSB

Revenue from sales of products to customers is recognized upon shipment or when title passes to customers based on the terms of the sales, and is recorded net of returns, discounts and allowances. Service income is recognized as the related services are provided pursuant to the terms of the service agreement.

### PRINCIPLES OF CONSOLIDATION

The consolidated financial statements include the accounts of City Network, Inc., and its wholly owned subsidiaries City Network Technology, Inc. and its wholly owned subsidiaries, City Network, Inc. - Taiwan, collectively referred to within as the Company. All material intercompany accounts, transactions and profits have been eliminated in consolidation.

### FINANCIAL STATEMENT PRESENTATION

Certain changes to the 2005 financial statements have been made to conform to the 2006 financial statement format.

### RISKS AND UNCERTAINTIES

The Company is subject to substantial risks from, among other things, intense competition from the providers of broadband products, services and the telecommunication industry in general, other risks associated with financing, liquidity requirements, rapidly changing customer requirements, limited operating history, and the volatility of public markets.

### CONTINGENCIES

Certain conditions may exist as of the date the financial statements are issued, which may result in a loss to the Company but which will only be resolved when one or more future events occur or fail to occur. The Company's management and legal counsel assess such contingent liabilities, and such assessment inherently involves an exercise of judgment. In assessing loss contingencies related to legal proceedings that are pending against the Company or unasserted claims that may result in such proceedings, the Company's legal counsel evaluates the perceived merits of any legal proceedings or unasserted claims as well as the perceived merits of the amount of relief sought or expected to be sought.

If the assessment of a contingency indicates that it is probable that a material loss has been incurred and the amount of the liability can be estimated, then the estimated liability would be accrued in the Company's financial statements. If the assessment indicates that a potential material loss contingency is not probable but is reasonably possible, or is probable but cannot be estimated, then the nature of the contingent liability, together with an estimate of the range of possible loss if determinable and material would be disclosed.

Loss contingencies considered to be remote by management are generally not disclosed unless they involve guarantees, in which case the guarantee would be disclosed.

## NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

### USE OF ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make certain

## Edgar Filing: CITY NETWORK INC - Form 10QSB

estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Significant estimates include collectibility of accounts receivable, accounts payable, sales returns and recoverability of long-term assets.

### ALLOWANCE FOR DOUBTFUL ACCOUNTS

The Company has made an allowance for doubtful accounts for trade receivables based on a combination of write-off history, aging analysis, and any specific known troubled accounts.

### FIXED ASSETS

Property and equipment are stated at cost less accumulated depreciation. Expenditures for major additions and improvements are capitalized and minor replacements, maintenance and repairs are charged to expense as incurred. Depreciation is provided on the straight-line method over the estimated useful lives of the assets, or the remaining term of the lease, as follows:

Furniture and Fixtures	5 years
Equipment	5 years
Computer Hardware and Software	3 years
Building and Improvements	50 years

### INTANGIBLE ASSETS

Effective July 2002, the Company adopted Statement of Financial Accounting Standards ("SFAS") No. 142, "Goodwill and Other Intangible Assets." The adoption of SFAS No. 142 required an initial impairment assessment involving a comparison of the fair value of trademarks, patents and other intangible assets to current carrying value. No impairment loss was recognized for the nine months period ended September 30, 2006. Trademarks and other intangible assets determined to have indefinite useful lives are not amortized. The Company tests such trademarks and other intangible assets with indefinite useful lives for impairment annually, or more frequently if events or circumstances indicate that an asset might be impaired. Trademarks and other intangible assets determined to have definite lives are amortized over their useful lives or the life of the trademark and other intangible asset, whichever is less.

### EXCHANGE GAIN (LOSS)

As of September 30, 2006 and 2005, the transactions of City Network, Inc. - Taiwan and City Construction were denominated in a foreign currency and are recorded in New Taiwan Dollars ("NTD"), at the rates of exchange in effect when the transactions occur. Exchange gains and losses are recognized for the different foreign exchange rates applied when the foreign currency assets and liabilities are settled.

13

## NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

### TRANSLATION ADJUSTMENT

The accounts of City Network, Inc.- Taiwan was maintained, and its financial statements were expressed, in New Taiwan Dollars (NTD). Such financial statements were translated into U.S. Dollars (USD) in accordance SFAS No. 52, "Foreign Currency Translation", with the NTD as the functional

currency. According to the Statement, all assets and liabilities were translated at the current exchange rate, stockholder's equity are translated at the historical rates and income statement items are translated at the weighted average exchange rate for the period. The resulting translation adjustments are reported under other comprehensive income in accordance with SFAS No. 130, "Reporting Comprehensive Income" as a component of shareholders' equity.

As of September 30, 2006 and December 31, 2005 the exchange rates between NTD and the USD were NTD\$1=USD\$0.03023 and NTD\$1=USD\$0.03044, respectively. The weighted-average rates of exchange between NTD and USD were NTD\$1=USD\$0.03086 and NTD\$1=USD\$0.03117 for the period (year) ended September 30, 2006 and December 31, 2005, respectively. Total translation adjustment recognized as of September 30, 2006 and December 31, 2005 is \$435,265 and \$366,384, respectively.

### FAIR VALUE OF FINANCIAL INSTRUMENTS

Our Company measures its financial assets and liabilities in accordance with generally accepted accounting principles. For certain of the Company's financial instruments, including accounts receivable (trade and related party), notes receivable and accounts payable (trade and related party), and accrued expenses, the carrying amounts approximate fair value due to their short maturities. The amounts owed for long-term debt and revolving credit facility also approximate fair value because interest rates and terms offered to the Company are at current market rates.

### STATEMENT OF CASH FLOWS

In accordance with SFAS No. 95, "Statement of Cash Flows", cash flows from the Company's operations are based upon the local currencies. As a result, amounts related to assets and liabilities reported on the statement of cash flows will not necessarily agree with changes in the corresponding balances on the balance sheet.

### CONCENTRATION OF CREDIT RISK

Financial instruments that potentially subject the Company to concentrations of credit risk are accounts receivable and other receivables arising from its normal business activities. The Company has a diversified customer base. The Company controls credit risk related to accounts receivable through credit approvals, credit limits and monitoring procedures. The Company routinely assesses the financial strength of its customers and, based upon factors surrounding the credit risk, establishes an allowance, if required, for un-collectible accounts and, as a consequence, believes that its accounts receivable credit risk exposure beyond such allowance is limited.

### INVENTORY

Inventory is valued at the lower of cost or market. Cost is determined on the weighted average method. As of September 30, 2006, inventory consisted only of finished goods.

## NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

### PRODUCT WARRANTIES

The Company estimates its warranty costs based on historical warranty claim experience and applies this estimate to the revenue stream for products

## Edgar Filing: CITY NETWORK INC - Form 10QSB

under warranty. Future costs for warranties applicable to revenue recognized in the current period are charged to cost of revenue. The warranty accrual is reviewed quarterly to verify that it properly reflects the remaining obligation based on anticipated expenditures over the balance of the obligation period. Adjustments are made when accrual warranty claim experience differs from estimate.

### LONG-TERM EQUITY INVESTMENTS

Long-term equity investments are accounted for by the equity method when the Company and its subsidiaries owns 20% or more of the investee's voting shares, or less than 20% of investee's voting shares but is able to exercise significant influence over the investee's operation and financial policies, but not more than 50%. All other long-term equity investments are accounted for by either the lower-of-cost-or-market method or cost method.

For long-term equity investments accounted for under the equity method related to investee's that are publicly listed companies, unrealized losses resulting from declines in the market value below cost are recorded as a separate component of stockholders' equity.

For long-term equity investments in non-listed companies accounted for under the cost method, investments are stated at original cost. A write-down of the investment balance to earnings is taken only if it is determined that there is a permanent decline in the investment's value. Stock dividends do not result in the recognition of investment income.

For long-term equity investments accounted for by the equity method, the investment is initially recorded at cost, then reduced by dividends and increased or decreased by investor's proportionate share of the investee's net earnings or loss.

### INCOME TAXES

Provisions for income taxes are based on taxes payable or refundable for the current year and deferred taxes on temporary differences between the amount of taxable income and pretax financial income and between the tax bases of assets and liabilities and their reported amounts in the financial statements.

Deferred tax assets and liabilities are included in the financial statements at currently enacted income tax rates applicable to the period in which the deferred tax assets and liabilities are expected to be realized or settled as prescribed in SFAS No. 109, "Accounting for Income Taxes". If the estimated future cash flows (undiscounted and without interest charges) from the use of an asset were less than the carrying value, a write-down would be recorded to reduce the related asset to its estimated fair value. There have been no such impairments to date.

### NEW ACCOUNTING PRONOUNCEMENTS

NOTE R - LEGAL PROCEEDINGS

The Company is party to certain litigation that has arisen in the normal course of its business and that of its subsidiary.

Hwa-Ching - In August 2004, a customer closed business and did not pay the remaining balance due to City Network - Taiwan on outstanding receivables in the amount of NT\$27,313,003 or US\$837,690. City Network - Taiwan has filed criminal and civil litigation against the customer for fraud. The Company has recorded a reserve against this account in the amount of \$660,538. This case is currently ongoing.

In August 2004, City Network Inc.-Taiwan filed a lawsuit against the owner of Hwa-Ching Co., as well as the following eight individuals in Taiwan, alleging fraud for closing down Hwa-Ching Co. without payment for the delivered merchandise. City Network Inc.-Taiwan sought approximately NT\$27 million or approximately US\$830,000. In January 27 2006, the court reached a verdict and found three individuals guilty of fraud and another two individual not guilty. In connection to the litigation against the other three individuals, the court has not yet reached a verdict.

In December 2004, the Company filed a lawsuit against Tain-Kang Co., a customer of Hwa-Ching Co. in Taipei District Court claiming damages owed to Hwa-Ching from Tain-Kang in the amount of approximately NT\$5,796,000 or US\$178,169 to cover the outstanding account payable owed by Hwa-Ching to the Company. In November 2005, Taipei District Court reached the judgment in favor of defendant. The Company filed appeal to Taiwan High Court. During the appeal, the Company reduced the claimed amount to NT\$3,796,000 or US\$116,689 due to Tain-Kang has provided the proof of payments of NT\$2,000,000 in the court. To date, the court has not yet reached a verdict on this case.

### NOTE R - LEGAL PROCEEDINGS (Continued)

On October 10, 2004, RPPI International Ltd. (or Rong-Dian), a vendor of the Company, filed a lawsuit against City Network Inc.-Taiwan in the Taiwan Taipei district court of Taiwan, in Taipei, Taiwan, alleging breach of contract for two different purchase agreements that City Network Inc.-Taiwan entered with them and two third parties. Rong-Dian sought the aggregate amount of approximately NT\$40.2 million or US\$1.2 million for the alleged breaches. One purchase agreement was for an order that City Network Inc.-Taiwan sold to Hwa-Ching Co. in the amount of approximately NT\$27.3 million or US\$840,000 and the other purchase agreement was for an order City Network Inc.-Taiwan sold to a separate customer of the Company in the amount of approximately NT\$12.9 million or US\$396,546.

On June 21, 2005, City Network Inc.-Taiwan entered a settlement agreement with Rong-Dian and on June 29, 2005, the district court lifted the lawsuit against us. In the June 2005 settlement agreement, City Network Inc.-Taiwan agreed to pay Rong-Dian a total of approximately NT\$40.2 million or US\$1.2 million, to cover the full amount City Network Inc.-Taiwan owed under the two purchase agreements. In August 2005, City Network Inc.-Taiwan paid Rong-Dian approximately NT\$12.9 million or US\$390,909 of the total amount owed upon receipt of such amount from our customer. City Network Inc. - Taiwan intends to pay the balance of approximately NT\$27.3 million or US\$840,000 to Rong-Dian in 54 separate checks, issued and payable by Tai-Wang Technology Co., Ltd. These checks will be in increments of NT\$500,000 or US\$15,370 and payable for 53 consecutive months, beginning on August 10, 2005 with the last and 54th payment being in the amount of NT\$813,003 or US\$24,992 instead of NT\$500,000 or US\$15,370. As of September 30, 2006, approximately NT\$5 million, or approximately US\$151,150, has been paid on this liability.

Pursuant to the June 2005 settlement agreement, City Network Inc.-Taiwan agreed to pay Rong-Dian the balance of NT\$27.3 million in monthly payments. However, as a result of its relationship with Tai-Wang and the fact that Tai-Wang is the vendor who introduced City Network Inc.-Taiwan to Rong-Dian, Tai-Wang assumed the responsibility for the payment of NT\$27.3 million or US\$827,272 to Rong-Dian. Tai-Wang wrote each monthly check in advance and thereafter provided all 54 checks to Rong-Dian. Rong-Dian will cash one check each month until it receives payment of the full NT\$27.3 million. However, as Tai-Wang has no written obligation with City Network Inc.-Taiwan to make each monthly payment, beyond an oral promise to do so, there is no assurance that each monthly check will be properly cashed by Rong-Dian. Therefore the Company continues to report the total liability to Rong-Dian. As each payment is successfully paid by Tai-Wang the Company will reduce the liability accordingly and recognize other income as the benefit provided by Tai-Wang.

Additionally, as part of the June 2005 settlement agreement, we secured our obligation that Tai-Wang would pay Rong-Dian the outstanding balance of NT\$27.3 million or US\$827,272 by giving Rong-Dian a first priority mortgage on certain property including lots 701-4 and 701-6 in Jay-hou-xiao-duan, Xi-zhi Duan, Xixhi City, Taipei County, Taiwan. The value of the first priority mortgage on the property is approximately NT\$27.3 million or US\$827,272, the aggregate amount owed to Rong-Dian. City Network Inc.-Taiwan agreed with Rong Dian that this mortgage will expire in 2010.

### NOTE R - LEGAL PROCEEDINGS (Continued)

Shanghai Bank - On January 24, 2005, Shanghai Commercial and Savings Bank

## Edgar Filing: CITY NETWORK INC - Form 10QSB

However, the Company returned the said goods because they were defective.

On November 24, 2005, the Company entered a settlement agreement with Shanghai Bank and the district court lifted the lawsuit against the Company. In the settlement agreement, the City Network Inc.- Taiwan agreed to pay Shanghai Bank a total of NT\$5,100,000 or US\$ 155,244. In December 2005, City Network, Inc.- Taiwan paid Shanghai Bank NT\$1,100,000 or US\$33,484. City Network, Inc.- Taiwan intends to pay the balance of NT\$4,000,000 or US\$121,760 to Shanghai Bank in 4 separate checks. These checks will be payable for each 2 months, beginning on February 25, 2006. As of September 30, 2006, NT\$4,100,000 or US \$123,943 has been paid on this liability.

### WORKING CAPITAL REQUIREMENTS

## Edgar Filing: CITY NETWORK INC - Form 10QSB

Our operations and short term financing do not currently meet our cash needs. We currently are engaged in discussions with a number of companies regarding strategic acquisitions or investments. Although these discussions are ongoing, there can be no assurance that any of these discussions will result in actual acquisitions or investment. Several potential investors have already shown their interest to invest in our company.

### FACTORS THAT INTERRUPT OUR OPERATIONS

Our major risk is incurring a large amount of bad debt. Our short-term and long-term liquidity may be influenced by uncollected account receivables. If the amount of bad debt is high, it will severely affect our ability to continue

30

operations. Therefore, we are taking precautions to manage this risk, such as preparing accounts receivable aging reports each week and collecting the overdue invoices. We will try to diversify our customer base and control credit risk related to accounts receivable through credit approvals, credit limits and monitoring procedures. Although we have already taken these measures, it is still possible to incur a large amount of bad debt.

Financial instruments that potentially subject us to concentrations of credit risk are cash, accounts receivable and other receivables arising from its normal business activities. We place our cash in what we believe to be credit-worthy financial institutions. We have a diversified customer base, most of which are related parties. We control credit risk related to accounts receivable through credit approvals, credit limits and monitoring procedures. We routinely assess the financial strength of its customers and, based upon factors surrounding the credit risk, establish an allowance, if required, for un-collectible accounts and, as a consequence, believe that our accounts receivable credit risk exposure beyond such allowance is limited.

**CAPITAL EXPENDITURES.** Total capital expenditures during the nine months ended September 30, 2006 were \$1,688,671 compared to \$193,310 for the nine months ended September 30, 2005.

### OFF-BALANCE SHEET ARRANGEMENTS
