Form 10-Q/A

December 13, 2013

UNITED STATES SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-Q/A

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2013

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

Commission File Number 1-10367

Advanced Environmental Recycling Technologies, Inc.

(Exact name of registrant as specified in its charter)

Delaware

(State or other jurisdiction of
incorporation or organization)

71-0675758

(I.R.S. Employer Identification No.)

914 N. Jefferson Street

Springdale, Arkansas

(Address of principal executive offices)

72764

(Zip Code)

(479) 756-7400

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. YES: NO:

NO:

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). YES: NO:

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer

Accelerated filer

Non-accelerated filer

Smaller reporting company

(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes
 No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date. As of June 30, 2013, the number of shares outstanding of the Registrant's Class A common stock, which is the class registered under the Securities Exchange Act of 1934, was 88,165,632 and the number of shares outstanding of the Registrant's Class B Common Stock was 1,465,530.

EXPLANATORY NOTE

We are filing this amendment on Form 10-Q/A to amend and restate the following items on our Quarterly Report on Form 10-Q for the quarter ended June 30, 2013 as originally filed with the Securities and Exchange Commission on August 7, 2013.

- Exhibits 32.1 and 32.2

The Exhibits have been updated to reflect the correct reporting period for certification by the Principal Operating Officer and the Principal Accounting Officer.

NOTES TO FINANCIAL STATEMENTS

Note 1: Unaudited Information

Advanced Environmental Recycling Technologies, Inc. (the Company or AERT) has prepared the financial statements included herein without audit, pursuant to the rules and regulations of the Securities and Exchange Commission (SEC). However, all adjustments have been made to the accompanying financial statements, which are, in the opinion of the Company's management, necessary for a fair presentation of the Company's operating results. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted pursuant to such rules and regulations, although the Company believes that the disclosures are adequate to make the information presented herein not misleading. It is recommended that these financial statements be read in conjunction with the financial statements and the notes thereto included in the Company's latest annual report on Form 10-K.

Note 2: Description of the Company

AERT, founded in 1988, develops and commercializes technologies to recycle waste polyethylene plastics and develops, manufactures, and markets value-added, green building compounds. Our primary products are composite building materials that are used in place of traditional wood or plastic products for exterior applications in building and remodeling homes and for certain other industrial or commercial building purposes. Our products are made primarily from approximately equal amounts of recycled polyethylene plastic, which has been cleaned, processed, and reformulated and waste wood fiber, which has been cleaned, sized and reprocessed utilizing our patented and proprietary technologies. Our products have been extensively tested, and are sold by leading national companies such as the BlueLinx Corporation (BlueLinx), Lowe's Companies, Inc. (Lowe's) and Therma-Tru Corporation. Our products are primarily used in renovation and remodeling by consumers, homebuilders, and contractors as an exterior environmentally responsible ("Green") building alternative for decking, railing, and trim products.

The Company currently manufactures all of its composite products at extrusion facilities in Springdale, Arkansas. The Company operates a plastic recycling, blending and storage facility in Lowell, Arkansas, where it also leases warehouses and land for inventory storage. The Company operates a new green-age plastic recycling, cleaning and reformulation facility at Watts, Oklahoma. The Company also leases a warehouse in Westville, Oklahoma for inventory storage. The Company commenced selling recycled plastics to third parties in 2013.

Extrusion operations at our Junction, Texas facility were suspended in October 2007. During the first quarter of 2012, the Company transferred the extrusion and other equipment from the Texas facility to our Arkansas and Oklahoma facilities to provide additional surge capacity and new product development.

Note 3: Statements of Cash Flows

In order to determine net cash provided by operating activities, net income has been adjusted by, among other things, changes in current assets and current liabilities, excluding changes in cash, current maturities of long-term debt and current notes payable. Those changes, shown as an (increase) decrease in current assets and an increase (decrease) in current liabilities, are as follows (in thousands):

	Six Months Ended	
	June 30, 2013	June 30, 2012
	(unaudited)	(unaudited)
Receivables	\$(431)	\$ (1,835)
Inventories	(828)	1,260
Prepaid expenses	236	-
Accounts payable - trade and related parties	246	1,160
Accrued liabilities	\$(1,538)	\$ (4,562)
	\$(2,315)	\$ (3,977)
Cash paid for interest	\$292	\$ 429

Supplemental Disclosures of Non-Cash Investing and Financing Activities (in thousands):

	Six Months Ended	
	June 30, 2013	June 30, 2012
	(unaudited)	(unaudited)
Unpaid dividends on preferred stock	690	650
Accrued interest exchanged for equity/notes	1,154	1,054
Notes payable for financing insurance policies	727	673
Related party accounts payable exchanged for sale of fixed assets	-	20
Forgiven related party loan guaranty fees	-	313

Note 4: Significant Accounting Policies

Revenue Recognition Policy

The Company recognizes revenue when the title and risk of loss have passed to the customer, there is persuasive evidence of an arrangement, shipment has occurred or services have been rendered, the sales price is determinable and collectability is reasonably assured. The Company typically recognizes revenue at the time product is shipped or when segregated and billed under a bill and hold arrangement. Sales are recorded net of discounts, rebates and returns, which were \$1.5 million and \$2.0 million for the six months ended June 30, 2013 and 2012, respectively.

Estimates of expected sales discounts are calculated by applying the appropriate sales discount rate to all unpaid invoices that are eligible for the discount. The Company's sales prices are determinable given that its sales discount rates are fixed and given the predictability with which customers take sales discounts.

Shipping and Handling

The Company records shipping fees billed to customers in net sales and records the related expenses in cost of goods sold.

Inventories

Inventories are stated at the lower of cost (first-in, first-out method) or market. Material, labor, and factory overhead necessary to produce the inventories are included at their cost. Inventories consisted of the following (in thousands):

	June 30, 2013 (unaudited)	December 31, 2012
Parts and supplies	\$ 698	\$ 648
Raw materials	4,477	3,935
Work in process	2,040	2,034
Finished goods	3,081	2,851
	\$ 10,296	\$ 9,468

Accounts Receivable

Accounts receivable are uncollateralized customer obligations due under normal trade terms generally requiring payment within thirty days from the invoice date. Trade accounts are stated at the amount management expects to collect from outstanding balances. Payments of accounts receivable are allocated to the specific invoices identified on the customers' remittance advice.

Accounts receivable are carried at original invoice amounts less an estimated reserve provided for returns and discounts based on a review of historical rates of returns and expected discounts. The carrying amount of accounts receivable is reduced, if needed, by a valuation allowance that reflects management's best estimate of the amounts that will not be collected. Management individually reviews all overdue accounts receivable balances and, based on an assessment of current creditworthiness, estimates the portion, if any, of the balance that will not be collected. Management provides for probable uncollectible amounts through a charge to earnings and a credit to an allowance account based on its assessment of the current status of the individual accounts. Balances that remain outstanding after management has used reasonable collection efforts are written off through a charge to the valuation allowance and a credit to trade accounts receivable. Recoveries of trade receivables previously written off are recorded when received.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Concentration Risk

Credit Risk

The Company's revenues are derived principally from national and regional building products distributors and BlueLinx, the Company's primary decking customer. The ChoiceDek® brand of decking products sold to BlueLinx are in turn sold exclusively to Lowe's. BlueLinx is also one of the Company's MoistureShield® decking customers. The Company extends unsecured credit to its customers. The Company's concentration in the building materials industry has the potential to impact its exposure to credit risk because changes in economic or other conditions in the construction industry may similarly affect the Company's customers. The Company derived most of its revenue from BlueLinx, its distributor of ChoiceDek® products. AERT is seeking additional distribution as a means of mitigating this risk.

Major Customers

One customer accounted for more than 50% of accounts receivable at June 30, 2013 and at December 31, 2012, respectively. The Company regularly monitors the creditworthiness of its customers and believes that it has adequately provided for exposure to potential credit losses.

7

The Company has significant customer concentration, with one customer representing approximately 70.0% of our revenue for the six months ended June 30, 2013. A loss of this customer, or a major reduction in their business, could cause a significant reduction in our liquidity. Due to a recent internal restructuring and realignment by this customer, including a strategic review of five distribution centers, our future sales could be impacted. As noted above, we are currently working to increase our distribution network, which will reduce this customer's concentration.

Cash

The Company maintains bank accounts that are insured by the Federal Deposit Insurance Corporation (FDIC) up to \$250,000. At times, cash balances may be in excess of the FDIC limit. The Company believes no significant concentrations of risk exist with respect to its cash.

Note 5: Income Taxes

As of June 30, 2013, the Company had net operating loss (NOL) carryforwards for federal income tax purposes, which are available to reduce future taxable income. If not utilized, the NOL carryforwards will expire between 2017 and 2031. In March 2011, H.I.G. AERT, LLC acquired a controlling interest in the Company, which resulted in a significant restriction on the utilization of the Company's net operating loss carryforwards. It is estimated that the utilization of future NOL carryforwards will be limited (per IRC §382) to approximately \$0.8 million per year for the next 19 years. The impact of this limitation is approximately \$27.0 million in NOL's, which will expire before the Company can use them. Subsequent to the H.I.G. reorganization, the Company has incurred \$6.9 million of net operating losses that are not subject to annual limitation. The Company may not be able to generate enough future taxable income to enable it to use its net operating loss carryforwards prior to their expiration. The Company maintains a valuation allowance to recognize its deferred tax assets only to the extent of its deferred tax liabilities. The estimated annual effective income tax rate for 2013 is 0% due to the use of net operating loss carryforwards.

Based upon a review of its income tax filing positions, the Company believes that its positions would be sustained upon an audit and does not anticipate any adjustments that would result in a material change to its financial position. Therefore, no reserves for uncertain income tax positions have been recorded. The Company recognizes interest related to income taxes as interest expense and recognizes penalties as operating expense.

The Company is subject to routine audits by various taxing jurisdictions. The recent examination by the Internal Revenue Service of the Company's 2010 federal tax return yielded changes that did not affect the tax that was reported on the return; therefore, the Service has accepted the return. The Company is no longer subject to income tax examinations by taxing authorities for years before 2009, except in the States of California and Texas, for which the 2008 tax year is still subject to examination.

Note 6: Earnings Per Share

The Company utilizes the two-class method for computing and presenting earnings per share (EPS). The Company currently has two classes of common stock (the Common Stock) and one class of cumulative participating preferred stock, Series E (the Preferred Stock). Pursuant to the Series E Designation, holders of the Series E Preferred Stock are entitled to receive per share dividends equal to 6% per annum of the stated value of \$1,000 per share of Series E Preferred Stock when declared by the Company's Board of Directors. In addition, holders of the Series E Preferred Stock are entitled to participate in any dividends declared on shares of the Company's Common Stock on an as-converted basis. Therefore, the Preferred Stock is considered a participating security requiring the two-class method for the computation and presentation of net income per share – basic.

The two-class computation method for each period segregates basic earnings per common and participating share into two categories: distributed earnings per share (i.e., the Preferred Stock stated dividend) and undistributed earnings per

share, which allocates earnings after subtracting the Preferred Stock dividend to the total of weighted average common shares outstanding plus equivalent converted common shares related to the Preferred Stock. Basic earnings per common and participating share exclude the effect of Common Stock equivalents, and are computed using the two-class computation method.

In computing diluted EPS, only potential common shares that are dilutive—those that reduce earnings per share or increase loss per share—are included. The exercise of options or conversion of convertible securities is not assumed if the result would be antidilutive, such as when a loss from continuing operations is reported. As a result, if there is a loss from continuing operations, diluted EPS would be computed in the same manner as basic EPS is computed, even if an entity has net income after adjusting for discontinued operations, an extraordinary item or the cumulative effect of an accounting change.

The following presents the two-class method for the three and six months ended June 30, 2013 and 2012:

BASIC AND DILUTED EARNINGS PER SHARE
(in thousands, except share and per share data)

	Three Months Ended		Six Months Ended	
	June 30, 2013 (unaudited)	June 30, 2012 (unaudited)	June 30, 2013 (unaudited)	June 30, 2012 (unaudited)

Total weighted average number of preferred shares	20,524	20,524	20,524	20,524

Reconciliation of the Numerator and Denominator of the basic Earnings per Share computation, presented in thousands, except share data:

	Income (Numerator)	June 30, 2013 Shares (Denominator)	Three months ended		June 30, 2012 Shares (Denominator)	Per Share Amount
			Per Share Amount	Income (Numerator)		
Basic EPS						
Net income applicable to common stock	\$ 454	89,631,162	0.01	\$ 284	89,631,162	0.00
Effect of Dilutive Securities						
Convertible preferred stock	\$ 1,575	310,534,937		\$ 925	292,581,121	
Diluted EPS						
Net income applicable to common stock plus assumed conversions	\$ 2,029	400,166,099	0.01	\$ 1,209	382,212,283	0.00
	Income (Numerator)	June 30, 2013 Shares (Denominator)	Six months ended		June 30, 2012 Shares (Denominator)	Per Share Amount
			Per Share Amount	Income (Numerator)		
Basic EPS						
Net income applicable to common stock	\$ 603	89,631,162	0.01	\$ 216	89,631,162	0.00
Effect of Dilutive Securities						
Convertible preferred stock	\$ 2,072	308,253,022		\$ 700	290,407,247	
Diluted EPS						
Net income applicable to common stock plus assumed conversions	\$ 2,675	397,884,184	0.01	\$ 916	380,038,409	0.00

Although not included in a diluted EPS calculation due to being antidilutive, the Company had potentially dilutive securities outstanding at June 30, 2012. The following schedule presents antidilutive securities.

	Three Months Ended	Six Months Ended
	June 30, 2012 (unaudited)	June 30, 2012 (unaudited)
Options	350,000	350,000

Although these financial instruments were not included due to being antidilutive for the three and six months ended June 30, 2012, such financial instruments may become dilutive and would then need to be included with future

Edgar Filing: ADVANCED ENVIRONMENTAL RECYCLING TECHNOLOGIES INC - Form 10-Q/A
calculations of diluted EPS.

10

Note 7: Line of Credit

AERT has a line of credit (Revolver Loan) agreement with AloStar Bank of Commerce (AloStar). The \$8.0 million Revolver Loan is subject to a reserve of \$1.0 million plus a maximum reserve of \$1.0 million or the actual reserve (\$0.6 million at June 30, 2013) for class action claims. Interest is assessed at the greater of (a) 1.0% and (b) the LIBOR rate as shown in the Wall Street Journal on such day for United States dollar deposits for the one month delivery of funds in an amount approximately equal to the principal amount of the Revolver Loan for which such rate is being determined plus 4% at June 30, 2013. If the LIBOR cannot be determined, the interest will be calculated using the prime lending rate plus 2%. The interest rate at June 30, 2013 was 5%. The Revolver Loan is secured by 85% of accounts receivable after a reduction for amounts owed by international customers. The Revolver Loan is also secured by 60% of the eligible inventory or 85% of the net orderly liquidation value of the inventory. The Revolver at AloStar had a \$0.0 balance at June 30, 2013. The proceeds available to draw down on the Revolver loan at June 30, 2013 were \$6.4 million.

Note 8: Related Party Transactions

Recapitalization

In 2011, the Company consummated related recapitalization transactions with H.I.G. AERT, LLC. In exchange for making approximately \$6.9 million of additional capital available to the Company that was partially used to pay down notes and accounts payable, H.I.G. was issued (i) a Series A Term Note in the aggregate principal amount of \$10 million and (ii) a Series B Senior Term Note in the aggregate principal amount of \$9 million and (iii) 20,524,149 shares of Series E convertible preferred stock, par value \$0.01 per share. As a result, H.I.G. owns approximately 80% of the outstanding common equity securities of the Company on a fully diluted, as converted basis.

The recapitalization agreements have been accounted for as a troubled debt restructuring (ASC 470-60). The Credit Agreement contains provisions requiring mandatory payments upon the Notes equal to 50% of the Company's "Excess Cash Flow" and equal to 100% of proceeds from most non-ordinary course asset dispositions, additional debt issuances or equity issuances (subject to certain exceptions in each case or as H.I.G. otherwise agrees), and contains covenant restrictions on the incurrence of additional debt, liens, leases or equity issuances (subject to certain exceptions in each case or as H.I.G. otherwise agrees).

Advisory Services

The Company entered into an Advisory Services Agreement between H.I.G. Capital, L.L.C. and the Company (the Advisory Services Agreement) on March 18, 2011 that provides for an annual monitoring fee between \$250,000 and \$500,000 (the Monitoring Fee) and reimbursement of all other out of pocket fees and expenses incurred by H.I.G. Capital, L.L.C.

Note 9: Commitments and Contingencies

AERT is involved from time to time in litigation arising from the normal course of business that is not disclosed in its filings with the SEC. In management's opinion, this litigation is not expected to materially impact the Company's results of operations or financial condition.

Note 10: Subsequent Event

On July 17, 2013, the Company experienced a fire at its Springdale North extrusion facility and a silo fire on July 25, 2013, at its Lowell facility. The facilities have been closed temporarily while the Company, local, state, and federal officials investigate. Other AERT facilities remain operational. While AERT believes it has adequate insurance, it is

possible that loss of production may affect third quarter 2013 earnings.

11

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Three Months Ended June 30, 2013 Compared to Three Months Ended June 30, 2012

The following table sets forth selected information from our statements of operations (in thousands):

	Three Months Ended		% Change	
	June 30, 2013 (unaudited)	June 30, 2012 (unaudited)		
Net sales	\$24,145	\$ 23,561	2.5	%
Cost of goods sold	18,026	17,837	1.1	%
% of net sales	74.7 %	75.7 %		
Gross margin	6,119	5,724	6.9	%
% of net sales	25.3 %	24.3 %		
Selling and administrative costs	3,028	3,458	(12.4	%)
% of net sales	12.5 %	14.7 %		
Operating income	3,091	2,266	36.4	%
% of net sales	12.8 %	9.6 %		
Other income:				
Other income	11	25	(56.0	%)
Other expenses:				
Net interest expense	(725)	(755)	(4.0	%)
Income before dividends	2,377	1,536	54.8	%
% of net sales	9.8 %	6.5 %		
Dividends on preferred stock	(348)	(327)	6.4	%
Net income applicable to common stock	\$2,029	\$ 1,209	67.8	%
% of net sales	8.4 %	5.1 %		

Net Sales

Second quarter 2013 sales were up \$0.6 million or 2.5% from second quarter 2012 due to improved economic conditions.

Cost of Goods Sold and Gross Margin

Total cost of goods sold for the second quarter of 2013 was up 1.1% from the second quarter 2012 cost, reflecting increased sales for the quarter; as a percent of net sales, gross margin improved due to reduced raw material costs, and improved manufacturing efficiencies.

Selling and Administrative Costs

Selling and administrative costs were down 12.4% for the second quarter 2013 compared to the second quarter of 2012. The decrease was due primarily to decreased payroll and related expenses, reduced advertising, and decreased professional fees.

Earnings

Operating income improved to \$3.0 million in the second quarter of 2013 from \$2.3 million in the second quarter of 2012. This increase is due to higher sales volume and improved gross margin, as well as, reduced selling and administrative expenses.

Interest costs decreased 4% compared to the second quarter of 2012 largely reflecting reduced interest rates.

Six Months Ended June 30, 2013 Compared to Six Months Ended June 30, 2012

The following table sets forth selected information from our statements of operations (in thousands):

	Six Months Ended			
	June 30,	June 30,	% Change	
	2013	2012		
	(unaudited)	(unaudited)		
Net sales	\$42,883	\$ 45,322	(5.4	%)
Cost of goods sold	31,991	35,939	(11.0	%)
% of net sales	74.6	79.3	%	
Gross margin	10,892	9,383	16.1	%
% of net sales	25.4	20.7	%	
Gain from asset disposition	(1)	(24)	(95.8	%)
Selling and administrative costs	6,095	6,390	(4.6	%)
% of net sales	14.2	14.1	%	
Operating income	4,798	3,017	59.0	%
% of net sales	11.2	6.7	%	
Other income:				
Other income	15	30	(50.0	%)
Other expenses:				
Net interest expense	(1,448)	(1,481)	(2.2	%)
Income before dividends	3,365	1,566	114.9	%
% of net sales	7.8	3.5	%	
Dividends on preferred stock	(690)	(650)	6.2	%
Net income applicable to common stock	\$2,675	\$ 916	192.0	%
% of net sales	6.2	2.0	%	

Net Sales

Sales for the six months ended June 30, 2013 were down \$2.4 million or 5.4% from the same period 2012. MoistureShield® and export sales increased in the fourth quarter of 2012 due to the Winter Buy discounts. As a result, the sales of MoistureShield® and export sales were lower in the first six months of 2013 than they were in the first six months of 2012. This decrease was offset by an increase in ChoiceDek® sales.

Cost of Goods Sold and Gross Margin

Total cost of goods sold for the first six months of 2013 was 11.0% below 2012 cost for the same period, reflecting reduced sales for the first six months and reduced product cost. The product cost reduction was primarily due to reduced raw material costs and improved manufacturing efficiencies.

Selling and Administrative Costs

Selling and administrative costs were down \$0.3 million in the first six months of 2013 compared to the first six months of 2012. The decrease was primarily due to decreased incentives compensation accrual and lower professional fees offset by higher bank amortization fees, increased recruiting, increased research and development cost, and increased franchise taxes.

Earnings

Operating income improved by \$1.8 million for the six months ended June 30, 2013 as compared to the same period in 2012. This increase reflects the reduced cost of goods sold resulting from reduced raw material costs, improved plant efficiencies, and reduced selling and administrative expense partially offset by a decrease in net sales.

Interest costs remained consistent with the six months ended June 30, 2012.

Liquidity and Capital Resources

On November 15, 2012, AERT entered into a \$15.0 million Loan and Security Agreement (the Agreement) with AloStar Bank of Commerce (AloStar), a state banking institution organized under the laws of the State of Alabama; \$8 million as a Revolver Loan and \$7.0 million as an asset-based loan (term loan).

Upon execution of the Agreement, AloStar advanced funds from the term loan in full payment of the Liberty Bank Revolving Line of Credit and the Mortgage Security Agreement. The Revolver Loan will be used to cover operating expenses as needed. At June 30, 2013, \$6.4 million was available for drawdown and \$1.2 million cash was available on deposit with AloStar.

The Company continues to improve on liquidity by increasing plant efficiencies, decreasing our overhead costs, negotiating better payment terms with vendors, reduced raw material costs, and increasing profitability within our product sector.

Cash Flows

Cash Flows from Operations

Cash provided by operations in the six months of 2013 was \$4.9 million compared to cash provided by operations of \$1.7 million in 2012. A majority of the change is due to increased net income applicable to common stock of \$1.8 million and a \$1.7 million change in current assets and current liabilities. The largest change in current assets and current liabilities was the accrued liability change of \$3.0 million primarily due to the reduction of the accrued returns associated with Lowe's inventory refresh for the first six months of 2012. Inventories for the first six months of 2013 decreased \$0.8 million from year-end 2012 as compared to a \$1.2 million increase for the same period in 2012. For the six months ended June 30, 2013, accounts receivable increased \$0.4 million from year-end 2012 as compared to an increase for the same period in 2012 of \$1.8 million, for a net change of \$1.4 million that was due to decreased sales.

The changes in our revenue and cost of raw materials significantly impact the Company's liquidity. We are in the remodeling industry that has been depressed as a result of the reduction in home prices in recent years. Our business is dependent upon the economy and we cannot accurately predict cyclical economic changes or the impact on consumer buying.

The Company has significant customer concentration, with one customer representing approximately 73.8% of our revenue. A loss of this customer, or a major reduction in their business, could cause a significant reduction in our

liquidity. We are currently working to increase our distribution network, which will reduce this customer's concentration.

Cash Flows from Investing Activities

Cash used in investing activities in the second quarter of 2013 decreased by \$1.1 million compared to the same period in 2012. This change was due to decreased capital expenditures at our Watts facility in 2013 compared to 2012.

Cash Flows from Financing Activities

Cash used in financing activities was \$3.0 million for the first six months of 2013 compared to cash used in financing activities of \$0.1 million in 2012. The change was primarily due to the pay down of the credit line and other payments on the term note to AloStar in the first six months of 2013.

Working Capital

At June 30, 2013, the Company had working capital of \$5.8 million compared to working capital of \$0.2 million at December 31, 2012. The increase in working capital was primarily due to a decrease in the line of credit and a reduction of the accrual for the class action law suit.

Buildings and Equipment

Property additions and betterments include construction costs and property purchases. The depreciation of buildings and equipment is provided on a straight-line basis over the estimated useful lives of the assets. Gains or losses on sales, or other dispositions of property, are credited or charged to income in the period incurred. Repairs and maintenance costs are charged to income in the period incurred, unless it is determined that the useful life of the respective asset has been extended.

For purposes of testing impairment, we group our long-lived assets at the same level for which there are identifiable cash flows independent of other asset groups. Currently, there is only one level of aggregation for our assets. We assess the impairment of long-lived assets, primarily consisting of property, plant, and equipment related to the extrusion and rendering of plastic materials, whenever events or circumstances indicate that the carrying value may not be recoverable. The Company believes that its property, plant, and equipment generates sufficient cash flow. Buildings and equipment are stated at cost and depreciated over the estimated useful life of each asset using the straight-line method. Estimated useful lives are: buildings — 15 to 30 years, leasehold improvements — 2 to 6 years, office equipment — 3 to 6 years, and machinery and equipment — 3 to 10 years. “Office Equipment”, as of June 30, 2013, has been combined with “Machinery and Equipment” for ease in reporting and to aid the user. We assess the impairment of long-lived assets, consisting of property, plant, and equipment, whenever events or circumstances indicate that the carrying value may not be recoverable.

Examples of such events or circumstances include:

- an asset group's inability to continue to generate income from operations and positive cash flow in future periods;
 - loss of legal ownership or title to an asset;
- significant changes in our strategic business objectives and utilization of the asset(s); and
 - the impact of significant negative industry or economic trends.

Recoverability of assets to be held and used in operations is measured by a comparison of the carrying amount of our assets to the undiscounted future net cash flows expected to be generated by the assets. The factors used to evaluate the future net cash flows, while reasonable, require a high degree of judgment and the results could vary if the actual results are materially different than the forecasts. If such assets are considered to be impaired, the impairment to be recognized is measured by the amount that the carrying amount of the assets exceeds the fair value of the assets. Assets to be disposed of are reported at the lower of the carrying amount or fair value less selling costs.

We also periodically review the lives assigned to our assets to ensure that our initial estimates do not exceed any revised estimated periods from which we expect to realize cash flows from the asset. If a change were to occur in any of the above-mentioned factors or estimates, the likelihood of a material change in our reported results would increase.

Debt

Oklahoma Energy Program Loan

On July 14, 2010, the Company entered into a loan agreement with the Oklahoma Department of Commerce (ODOC) under award number 14215 SSEP09, whereby ODOC agreed to a 15-year, \$3.0 million loan to AERT at a fixed interest rate of 3.0%. The balance on the loan at June 30, 2013 was \$2.8 million.

15

H.I.G. Long Term Debt

In 2011, the Company consummated related recapitalization transactions (the Transactions) with H.I.G. AERT, LLC, an affiliate of H.I.G. Capital L.L.C. (H.I.G.). H.I.G. exchanged secured debt in the Company for a combination of new debt and equity. In exchange for \$6.9 million of additional new capital available to the Company, H.I.G. was issued:

1. a Series A Term Note in the aggregate principal amount of \$10,000,000,
2. a Series B Senior Term Note in the aggregate principal amount of \$9,000,000 (or such lesser amount as is actually borrowed thereunder), and
3. 20,524,149 shares of Series E Convertible Preferred Stock, par value \$0.01 per share, of the Company (the Series E Preferred Stock).

As a result, H.I.G. owns approximately 80% of the outstanding common equity securities of the Company on a fully diluted, as converted basis.

The Series A Note matures on March 17, 2017 and, at the Company's option, either (i) bears cash interest at 8.0% per annum or (ii) bears cash interest at 4.0% per annum, plus a rate of interest equal to 4.0% per annum payable in kind and added to the outstanding principal amount of the Series A Note (with the latter option only being available until March 17, 2013, after which time, the Series A Note will bear cash interest at 8.0% per annum). On July 16, 2013, payment of cash interest has been waived until January 1, 2014.

The Series B Note matures on March 17, 2017 and, at the Company's option, either (i) bears cash interest at 10.0% per annum or (ii) bears cash interest at 4.0% per annum, plus a rate of interest equal 6.0% per annum payable in kind and added to the outstanding principal amount of the Series B Term Note. The Series B Note ranks equally to the Series A Note.

The Credit Agreement contains provisions requiring mandatory payments upon the Notes equal to 50% of the Company's "Excess Cash Flow" and equal to 100% of proceeds from most non-ordinary course asset dispositions, additional debt issuances or equity issuances (subject to certain exceptions in each case or as H.I.G. otherwise agrees), and contains covenant restrictions on the incurrence of additional debt, liens, leases or equity issuances.

Debt Covenants

The Company's Revolver Loan with AloStar and the Company's Credit Agreement with H.I.G. contain covenant restrictions, as defined in the respective agreements.

		June 30, 2013	Covenant	Compliance
AloStar				
Adjusted EBITDA	=	\$9.9M	=>\$5.25M	Yes
Fixed Charge Coverage Ratio	=	3.4	> 1.10:1.00	Yes
Adjusted Consolidated EBITDA / Consolidated Fixed Charges				
Capital Expenditures	=	\$1.1M	< \$4.5M	Yes
HIG:				
Adjusted EBITDA	=	\$10.1M	=>\$7.5M	Yes

Fixed Charge Coverage Ratio	=	3.6	> 1.25:1.00	Yes
Adjusted Consolidated EBITDA / Consolidated Fixed Charges				
Leverage Ratio	=	3.57	= < 3.5:1.00	No, Waived
Consolidated Indebtedness / Consolidated EBITDA				
Capital Expenditures	=	\$1.1M	< \$2.5M	Yes

On July 16, 2013, H.I.G. AERT LLC, the holder of all of the issued and outstanding shares of Series E Convertible Preferred Stock, waived the Specified Events of Default as a result of AERT failing to have achieved a Leverage Ratio of below 3.5 to 1.0 for four Fiscal Quarters, ending June 30, 2013. On July 16, 2013, H.I.G. AERT LLC waived its right to deliver a Triggering Event Redemption Notice solely as a result of the Specified Events of Default.

Uncertainties, Issues and Risks

There are many factors that could adversely affect AERT's business and results of operations. These factors include, but are not limited to, general economic conditions, decline in demand for our products, business or industry changes, government rules and regulations, environmental concerns, litigation, new products / product transition, product obsolescence, competition, acts of war, terrorism, public health issues, concentration of customer base, loss of a significant customer, availability of raw material (plastic) at a reasonable price, management's failure to execute effectively, inability to obtain adequate financing (i.e. working capital), equipment breakdowns, low stock price, and fluctuations in quarterly performance.

Forward-Looking Information

An investment in our securities involves a high degree of risk. Prior to making an investment, prospective investors should carefully consider the following factors, among others, and seek professional advice. In addition, this Form 10-Q contains certain "forward-looking statements" within the meaning of Section 27A of the Securities Act and Section 21E of the Exchange Act. Such forward-looking statements, which are often identified by words such as "believes", "anticipates", "expects", "estimates", "should", "may", "will" and similar expressions, represent our expectations or beliefs concerning future events. Numerous assumptions, risks, and uncertainties could cause actual results to differ materially from the results discussed in the forward-looking statements. Prospective purchasers of our securities should carefully consider the information contained herein or in the documents incorporated herein by reference.

The foregoing discussion contains certain estimates, predictions, projections and other forward-looking statements (within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934) that involve various risks and uncertainties. While these forward-looking statements, and any assumptions upon which they are based, are made in good faith and reflect management's current judgment regarding the direction of the business, actual results will almost always vary, sometimes materially, from any estimates, predictions, projections, or other future performance suggested herein. Some important factors (but not necessarily all factors) that could affect the sales volumes, growth strategies, future profitability and operating results, or that otherwise could cause actual results to differ materially from those expressed in any forward-looking statement include the following: market, political or other forces affecting the pricing and availability of plastics and other raw materials; accidents or other unscheduled shutdowns affecting us, our suppliers' or our customers' plants, machinery, or equipment; competition from products and services offered by other enterprises; our ability to refinance short-term indebtedness; state and federal environmental, economic, safety and other policies and regulations, any changes therein, and any legal or regulatory delays or other factors beyond our control; execution of planned capital projects; weather conditions affecting our operations or the areas in which our products are marketed; adverse rulings, judgments, or settlements in litigation or other legal matters. We undertake no obligation to publicly release the result of any revisions to any such forward-looking statements that may be made to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events.

Item 4. Controls and Procedures.

Our Chief Executive Officer, Joe G. Brooks, who is our principal executive officer, and our Chief Financial Officer, J. R. Brian Hanna, who is our principal financial and accounting officer, have reviewed and evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act)) as of June 30, 2013. Based upon this evaluation, our Chief Executive Officer and our Chief Financial Officer have concluded that, as of June 30, 2013, the end of the period covered by this report, AERT's disclosure controls and procedures are effective in recording, processing, summarizing and reporting, on a timely basis, information required to be disclosed by AERT in the reports that it files or submits under the Exchange Act and are effective in ensuring that information required to be disclosed by AERT in the reports that it files or submits under the Exchange Act is accumulated and communicated to AERT's management, including AERT's

Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

During the quarter ended June 30, 2013, there have been no changes in our internal controls over financial reporting that have materially affected, or that are reasonably likely to materially affect, our internal controls over financial reporting.
