NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

Note 1 Summary of Significant Accounting Policies

Description of Business and Change in Control

Prior to December 31, 1997, Alpha Wireless Broadband, Inc in September 2004 changed its name and was formerly known as Internet Business's International, Inc. "the Company" was in the food product manufacturing business and formerly known as International Food and Beverage, Inc. In November 1998, new stockholders bought majority control from the previous Chief Executive Officer through a private transaction. Immediately thereafter, the former CEO resigned and the new stockholders assumed the executive management positions. In December 1998, after new management was in place, a decision was made to change the Company's principal line of business from manufacturing to high technology. The Company changed its name from International Food & Beverage, Inc. to Internet Business's International, Inc., and reincorporated the Company on December 8, 1998 in the state of Nevada. During April of 1999, the Company announced the opening of its first e-commerce site and engaged in the development, operation and marketing of a number of commercial web sites. The Company's subsidiaries consist of: Lending on Line (providing real estate loans and equipment leasing), Internet Service Provider (providing national Internet access dial-up service, wireless high speed Internet, and Internet web design and hosting), E. Commerce (providing Auction sites), and Direct Marketing (providing direct marketing of long distance phone service, computers with Internet access, and Internet web design hosting). The Company ceased operations during fiscal year ended June 30, 2003. During the current fiscal year, the Company started a new wireless operation through its wholly owned subsidiary Skyy-Fi, Inc a Nevada Corporation, providing access to the Internet, by installing equipment in locations such as hotels and coffee shops for use by their patrons. These locations are commonly known as Wi-Fi Hotspots

After the end of the current fiscal year, the Company, through its wholly owned subsidiary Skyy-Fi, Inc., began the installation of wireless Internet access equipment at businesses allowing their patron's access to the Internet for a fee. At the time of this report Skyy-Fi, Inc had 20 Wi-Fi locations installed.

During September 2004 the Company changed its name to Alpha Wireless Broadband, Inc.

The Company has one office in the US and fewer than 5 employees.

Basis of Presentation

The consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries. Significant inter-company balances and transactions are eliminated in consolidation.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Significant estimates include allowances for doubtful accounts and notes and mortgage loans receivable. Actual results could differ from those estimates.

Reclassifications

Certain amounts in the prior year financial statements have been reclassified to conform to the current year classification.

Cash and Cash Equivalents

The Company considers all short-term, highly liquid investments with an original maturity date of three months or less to be cash equivalents.

Property and Equipment

Property and equipment is stated at cost and depreciated using the straight-line method over the estimated useful life of the assets, which is generally three to five years for computers and computer related equipment and five to seven years

8

for other non-computer furniture and equipment. Leasehold improvements are amortized using the straight-line method over the shorter of their estimated useful lives or the term of the lease, ranging from one to five years.

Investments

Investments are stated at the lower of cost or market value.

Intangible Assets

Intangible assets consist primarily of acquired customer bases, long-term marketing agreements, goodwill, and other items. Customer bases acquired directly are valued at cost, which approximates fair value at the time of purchase. When material intangible assets, such as customer bases and goodwill are acquired in conjunction with the purchase of a company, the Company undertakes a study by an independent third party to determine the allocation of the total purchase price to the various assets acquired and the liabilities assumed. The costs assigned to intangible assets are being amortized on a straight-line basis over the estimated useful lives of the assets, which is normally 36 months. Goodwill and other intangible assets are periodically reviewed for impairment to ensure they are appropriately valued. Conditions that may indicate an impairment issue exists include an economic downturn, changes in the churn rate of subscribers or a change in the assessment of future operation. In the event that a condition is identified that may indicate an impairment issue exists, an assessment is performed using a variety of methodologies, including cash flow analysis, estimates of sales proceeds and independent appraisals.

Additional Paid-In Capital

Paid in Capital consists of stock issued for service, stock reverses, stock issued to retire debt and private capital placement.

In September 2004, stock was issued for services and debt reduction.

In June 2004 495,000,000 shares were issued for the note that the Company owed for prior year wages in the amount of $316,577.

In April 2003 the par value of the Company's stock was changed from $.01 per share to $.001 per share. The net difference of $704,462 was included in paid-in capital.

Revenue Recognition

For current Company operations, providing wireless Internet access, fees are charged either to the proprietor of the WI-Fi hotspot location or the customer using the services. The fees paid by a proprietor for services provided on a month-to-month basis are billed at the end of each month for which the service is contracted. The fees paid by customers using the wireless Internet access are paid at the time service is provided.

Advertising Expense

All advertising costs are expensed when incurred.

Concentration of Credit Risk

The Company is subject to credit risk through trade receivables. Monthly Internet access fees and web hosting are generally billed to the customer's credit card, thus reducing the credit risk. The Company routinely assesses the financial strength of significant customers and this assessment, combined with the large number and geographic diversity of its customers, limits the Company's concentration of risk with respect to trade accounts receivable.

Income Taxes

The Company accounts for income taxes under the asset and liability approach where deferred income tax assets and liabilities reflect future tax consequences, this is based on enacted tax laws, of the temporary differences between financial and tax reporting at the balance sheet date.

Earnings (Loss) per Share

Basic earnings (loss) per share is based on the weighted effects of all common shares issued and outstanding, and is calculated by dividing net income by the weighted average shares outstanding during the period. Diluted earnings (loss) per share is calculated by dividing net income by the weighted average number of common shares used in the basic earnings per share calculation plus the number of common shares that would be issued assuming conversion of all potentially dilutive common shares outstanding. Dilutive earnings (loss) per share is not presented since diluted securities have an anti-dilutive effect.

Recent Accounting Pronouncements

In December 2003, the Securities and Exchange Commission released Staff Accounting Bulletin No. 104, "Revenue Recognition" ("SAB 104"). SAB 104 clarifies existing guidance regarding revenue recognition. The Company's adoption of SAB 104 did not have an impact on its consolidated results of operations, financial position or cash flows.

In May 2003, the FASB issued SFAS No. 150, "Accounting for Certain Financial Instruments with Characteristics of Both Liabilities and Equity," ("Statement 150"). Statement 150 establishes standards for issuer classification and measurement of certain financial instruments with characteristics of both liabilities and equity. In accordance with this standard, financial instruments that embody obligations for the issuer are required to be classified as liabilities. This statement is effective for all financial instruments entered into or modified after May 31, 2003, with certain exceptions. The Company's adoption of Statement 150 did not have an impact on results of operations, financial position or cash flows.

In April 2003, the FASB issued SFAS No. 149, "Amendment of Statement 133 on Derivative Instruments and Hedging Activities," that amends and clarifies financial accounting and reporting for derivative instruments, including certain derivative instruments embedded in other contracts, and for hedging activities. This statement is effective for contracts and hedging relationships entered into or modified after June 30, 2003, with certain exceptions. The Company's adoption of SFAS No. 149 did not have an impact on financial position or results of operations or cash flows.

In January 2003, the FASB issued FASB Interpretation No. 46, "Consolidation of Variable Interest Entities," ("FIN 46"). FIN 46 requires the consolidation of variable interest entities in which an enterprise absorbs a majority of the entity's expected losses, receives a majority of the entity's expected residual returns, or both, as a result of ownership, contractual or other financial interests in the entity. FIN 46 is effective for the first quarter of 2004. The Company does not expect its adoption of FIN 46 to have an impact on consolidated results of operations, financial position or cash flows

In December 2002, the Financial Accounting Standards Board, or FASB, issued Statement of Financial Accounting Standards, or SFAS, No. 148, "Accounting for Stock-Based Compensation - Transition and Disclosure," an amendment of SFAS No. 123. SFAS No. 148 provides alternative methods of transition for a voluntary change to the fair value based method of accounting for stock-based employee compensation. In addition, SFAS No. 148 amends the disclosure requirements of SFAS No. 123 to require more prominent and more frequent disclosures in financial statements about the effects of stock-based compensation. This statement is effective for financial statements for fiscal years ending after December 15, 2002. SFAS No. 148 has not had any impact on the Company's financial statements as management uses the fair value of goods and services received to determine the number of shares to issue.

Note 2 Business Combinations

The Company's business combinations have been accounted for using the purchase method and, accordingly, the total purchase price of each acquired company was allocated to the tangible assets and liabilities and identifiable intangible assets based on their estimated fair values as of the closing date of the acquisition. The excess purchase price over the fair value is recorded as goodwill. Results of operations for the acquired companies are included prospectively from the date of acquisition.

In December 2003 the Company acquired the assets of Debit Card Marketing Company Enterprises, Inc for 60,000,000 shares of Global Debit Cash Card, Inc. a subsidiary of the Company, which included reduction of the note owed by the Company to $515,000 that was transferred as an asset to Global Debit Cash Card, Inc.

After October 1st 2003 the transaction was changed by agreement to an Asset assignment. The Company assigned certain assets of Alpha Tooling for credit of $311,639 which reduced the debt owed to DCM Enterprises, Inc from $760,000 to $448,361. The Company retained the Alpha Tooling Corporation which had assets of $42,050 (which were not assigned to DCM Enterprises, Inc.), and debt of $351,306.

These are restated based upon the change in revenue recognition. See Note 2 of the footnotes to the financial statements titled "Change in Revenue Recognition". The change only impacted the stated "Revenues" and not the "Net income".

Analysis of Financial Condition

There was no revenue for the three month periods ended September 30, 2004 and September 30, 2003. The Company ceased operations during fiscal year ended June 30, 2003. The Company's current operations started effective July 2004.

19

Selling, general and administrative expenses for the three months periods ended September 30, 2004 and 2003 respectively, were $313,657 and $275, 578. The respective expensive were due to the Company currently being in a startup phase and during the same period for 2003 the Company had just ceased operations June 30, 2003.

"Other Income" is either extraordinary income from payment in full on debt for a reduced amount (with the difference represented as income) and from the sale of fully or partially depreciated equipment where the income from the sale is greater than the amount depreciated. Since there are no expectations that furthers sales will occur and that the revenues from previous operations are dissimilar there will be no comparison of the quarters.

Other (expenses) for the three month ended September 30,2004 and 2003 respectively of ($874,428) and ($1,449,236), are primarily due the Company currently being is a startup phase during 2004 and due to the closing of the Company during 2003 which includes and the write-off of the amounts due from each segment.

OPERATING INCOME	$	(1,212,602)	$	(1,985,226)

The following discussion should be read in conjunction with the financial statements of the Company and notes thereto contained elsewhere in this report.

Results of Operations

In accordance with SFAS No. 131, "Disclosure about Segments of an Enterprise and Related Information," management had determined that there were three reportable segments, (all of which have ceased operations in the fourth quarter for fiscal year ended June 2003), based on the customers served by each segment: Full service internet service provider (ISP),which ceased operation during the fiscal year ended June 2003. The current wireless internet service business-to-consumer ("B2C") provider primarily consisted direct marketing of the Companies services and products. Such determination was based on the level at which executive management reviews the results of operations in order to make decisions regarding performance assessment and resource allocation.

Certain general expenses related to advertising and marketing, information systems, finance and administrative groups are not allocated to the operating segments and are included in "other" in the reconciliation of operating income reported below. The accounting policies of the segments are the same as those described in the summary of significant accounting policies (Note 1).

Information on reportable segments is as follows:

(1) ISP: The resultant loss for the Wi-Fi ISP segment for first quarter of fiscal year ended June 30, 2005 was ($5,917) which were expenses related to the startup of this operation. The resultant loss for the first quarter of fiscal year June 30, 2004 of ($654,395) was due to write offs of this segments assets and other cost due to relocating assets and since this segment ceased operations in the third quarter

of fiscal year ended June 2003, a segmented comparison would be meaningless.

(2) Other: For the first quarter of the fiscal years ended June 30, 2004 and 2004 respectively received $620 in revenue from a returned deposit

that was written off for fiscal year ended June 30, 2002. The revenue of $118,405 from the sale of a depreciated asset for more then its book value and was the net profit from that sale. The losses of ($874,428) and ($1,449,236) for the same respective periods stated above were due to the starting up of one operations and the closing of prior operations and relocation of offices and equipment.

Liquidity and Capital Resources

Net cash used in operating activites at the end of the first quarter of fiscal year ended June 30, 2005, decreased to ($165,526) when compared to the results for the same perioded ended 2004 of ($285,218). The Company has alternative sources of capital so the Company can expand its new Internet operations of establishing wireless Internet locations commonly referred to as Wi-Fi hotspots. This is being provide by two sources; Windsor Professional Plaza LLC which is providing capital to resolve previous Company debts, and through 1st American Factoring LLC which provides capital to expand the Companies current operations.

Capital Expenditures

Other than as set forth below, no material capital expenditures were made during the first quarter ended September 30, 2004.

The Company retained the Alpha Tooling Corporation which had assets of $42,050 (which were not assigned to DCM Enterprises, Inc.), and debt of $351,306.

In December 2003 GLCD acquired the assets of DCM for 60,000,000 shares of GLCD which included reduction of the note owed by the Company to $515,000, which was transferred as an asset to GLCD. GLCD is traded over the counter (OTC) on the Pink Sheets LLC quotation service under the symbol "GLCD".

Critical Accounting Policies

The Securities and Exchange Commission issued Financial Reporting Release No. 60, "Cautionary Advice Regarding Disclosure About Critical Accounting Policies," or FRR 60, suggesting that companies provide additional disclosure and commentary on their most critical accounting policies. The most critical accounting policies are the ones that are most important to the portrayal of a company's financial condition and operating results, and require management to make its most difficult and subjective judgments, often as a result of the need to make estimates of matters that are inherently uncertain. The Company believes that of the significant accounting policies used in the preparation of the consolidated financial statements (see Note B to the Financial Statements), the following are critical accounting policies, which may involve a higher degree of judgment, complexity and estimates. The methods, estimates and judgments The Company uses in applying these most critical accounting policies have a significant impact on the results reported in the Company's financial statements.

Off Balance sheet

The Company has not entered into any off balance sheet arrangements that have, or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, result of operations, liquidity, capital expenditure, or capital resources which would be considered material to investors.

Use of Estimates

The preparation of the consolidated financial statements are in conformity with United States generally accepted accounting principles require us to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the period. Actual results could differ from those estimates.

Stock-Based Compensation Arrangements

The Company issues shares of common stock to various individuals and entities for certain management, legal, consulting and marketing services. These issuances are valued at the fair market value of the service provided and the number of shares issued is determined, based upon the closing price of our common stock on the date of each respective transaction. These transactions are reflected as a component of general and administrative expenses in the accompanying statement of operations.

Recently Issued Accounting Pronouncements

In December 2003, the Securities and Exchange Commission released Staff Accounting Bulletin No. 104, "Revenue Recognition" (SAB 104). SAB 104 clarifies existing guidance regarding revenue recognition. The Company's adoption of SAB 104 did not have an impact on its consolidated results of operations, financial position or cash flows.

In May 2003, the FASB issued SFAS No. 150, "Accounting for Certain Financial Instruments with Characteristics of Both Liabilities and Equity," or Statement 150. Statement 150 establishes standards for issuer classification and measurement of certain financial instruments with characteristics of both liabilities and equity. In accordance with this standard, financial instruments that embody obligations for the issuer are required to be classified as liabilities. This statement is effective for all financial instruments entered into or modified after May 31, 2003, with certain exceptions. Our adoption of Statement 150 did not have an impact on our results of operations, financial position or cash flows.

In April 2003, the FASB issued SFAS No. 149, "Amendment of Statement 133 on Derivative Instruments and Hedging Activities," that amends and clarifies financial accounting and reporting for derivative instruments, including certain derivative instruments embedded in other contracts, and for hedging activities. This statement is effective for contracts and hedging relationships entered into or modified after June 30, 2003, with certain exceptions. Our adoption of SFAS No. 149 did not have an impact on our financial position or results of operations or cash flows.

In January 2003, the FASB issued FASB Interpretation No. 46, "Consolidation of Variable Interest Entities," or FIN 46. FIN 46 requires the consolidation of variable interest entities in which an enterprise absorbs a majority of the entity's expected losses, receives a majority of the entity's expected residual returns, or both, as a result of ownership, contractual or other financial interests in the entity. FIN 46 is effective for the first quarter of 2004. We do not expect the adoption of FIN 46 to have an impact on our consolidated results of operations, financial position or cash flows.

In December 2002, the Financial Accounting Standards Board, or FASB, issued Statement of Financial Accounting Standards, or SFAS, No. 148, "Accounting for Stock-Based Compensation - Transition and Disclosure," an amendment of SFAS No. 123. SFAS No. 148 provides alternative methods of transition for a voluntary change to the fair value based method of accounting for stock-based employee compensation. In addition, SFAS No. 148 amends the disclosure requirements of SFAS No. 123 to require more prominent and more frequent disclosures in financial statements about the effects of stock-based compensation. This statement is effective for financial statements for fiscal years ending after December 15, 2002. SFAS No. 148 has not had any impact on our financial statements as management uses the fair value of goods and services received to determine the number of shares to issue.

Additionally, in designing disclosure controls and procedures, our management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible disclosure controls and procedures. The design of any disclosure controls and procedures also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving it's our stated goals under all potential future conditions. The evaluation revealed certain weaknesses in disclosure controls and procedures. Based on their evaluation as of a date within 90 days prior to the filing date of this Annual Report, our Chief Executive Officer and Treasurer have concluded that, subject to the limitations noted above, and except for the weaknesses noted above, our disclosure controls and procedures were effective to ensure that material information relating to us, including our consolidated subsidiaries, is made known to them by others within those entities, particularly during the period in which this Annual Report was being prepared.

(b) Changes in internal controls. We plan to institute greater controls by adding additional staff to allow for greater third person review and verification of all transactions thereby enhancing the accuracy of all records. We are also looking to implement many of the new requirements required under the Sarbanes-Oxley Act of 2002 during the coming year. However, we believe that there were are no significant changes in our internal controls or, to our knowledge, in other factors that could significantly affect these controls subsequent to the date of their evaluation, including any corrective actions with regard to significant deficiencies and material weaknesses.
