Gilat s Spacenet subsidiary announces two new contract extensions

Spacenet to provide AMP-Ohio with network for critical electrical monitoring

Fazoli s chooses Spacenet for satellite broadband network services to restaurant locations nationwide

Petah Tikva, Israel, July 31, 2007 Gilat Satellite Networks Ltd. (Nasdaq: GILT) today announced that its wholly-owned subsidiary, Spacenet Inc, has been awarded two new contract extensions.

Spacenet has signed a contract extension with American Municipal Power Ohio (AMP-Ohio) to provide a high-speed VSAT data network. AMP-Ohio, a non-profit association representing member municipal electric communities in Ohio, Pennsylvania, Virginia, West Virginia and Michigan, supplies wholesale power and provides technical services to its members. The Spacenet Connexstar service provides remote control for more than 150 transmission substations and carries vital data to AMP-Ohio s SCADA network.

With its initial VSAT deployment in 2004, AMP-Ohio replaced its aging SCADA system based on leased lines with Spacenet s Connexstar satellite network. Benefits of the upgraded satellite network include: faster data transmission times between the substation and the AMP-Ohio Energy Control Center; increased network uptime; reduced telecommunications costs; fast installation and deployment; better load tracking and more accurate forecasting; and more accurate billing with real-time meter data collection.

In addition, Spacenet today announced that it has extended its enterprise network services contract with Fazoli s® Restaurants, a leading quick-service Italian restaurant chain. Based in Lexington, Kentucky, Fazoli s operates more than 300 restaurant locations nationwide.

Since 2004, Spacenet has provided Fazoli s with enterprise-grade Connexstar network services to support restaurant applications including credit/debit authorizations, point of sale polling and back-office operations. The Spacenet satellite network is being used at Fazoli s corporate-owned restaurant locations across the United States, and may in the future be made available to the chain s franchise restaurants.

These contract extensions demonstrate our focus and expertise in serving the diverse network requirements for critical applications of a wide range of organizations and enterprises, said Spacenet CEO Andreas Georghiou. We look forward to continuing the deployment of our Connexstar offering to provide dependable, advanced network solutions to support current and future business requirements.

About Spacenet®

Founded in 1981, Spacenet Inc. is a leading provider of high-performance satellite and hybrid terrestrial networking solutions for business, government and home/small office customers in the United States and worldwide. Spacenet has a longstanding tradition of industry leadership and innovation, and today serves more than 100,000 network endpoints for customers including many Fortune 500 companies and major government agencies. Spacenet's services include its custom satellite/hybrid network solutions for enterprise and government; Connexstar VSAT services for primary, backup and disaster recovery networks; and StarBand® broadband Internet by satellite. Spacenet is based in McLean, Virginia, and operates its own end-to-end services infrastructure including network management, field services and teleport facilities in McLean; Atlanta, Georgia; and Chicago, Illinois. Spacenet is a wholly owned subsidiary of Gilat Satellite Networks Ltd. (Nasdaq: GILT). Visit Spacenet at www.spacenet.com.

About Gilat Satellite Networks Ltd.

Gilat Satellite Networks Ltd. (Nasdaq: GILT) is a leading provider of products and services for satellite-based communications networks. The Company operates under three business units: (i) Gilat Network Systems, which is a provider of network systems and associated professional services to service providers and operators worldwide; (ii) Spacenet Inc., which provides managed services in North America for businesses and governments through its Connexstar service brand and for consumers through its StarBand service brand; (iii) Spacenet Rural Communications, which offers rural telephony and Internet access solutions to remote areas primarily in Latin America.

Gilat was founded in 1987 and has shipped over 670,000 Very Small Aperture Terminals (VSATs) to more than 85 countries across six continents. Gilat's headquarters is located in Petah Tikva, Israel. The Company has 16 sales and service offices worldwide. Gilat markets the SkyEdge Product Family which includes the SkyEdge Pro, SkyEdge IP, SkyEdge Call, SkyEdge DVB-RCS and SkyEdge Gateway. In addition, the Company markets numerous other legacy products.
