FOR IMMEDIATE RELEASE

Bharti Airtel Awarded Alvarion® New Contract for WiMAX Network to Serve Enterprise Customers in India

Tel Aviv, Israel and New Delhi, June 16, 2008 Alvarion® Ltd. (NASDAQ:ALVR), the world's leading provider of WiMAX and wireless broadband solutions, and Bharti Airtel, India's leading integrated telecom services provider, today announced that Airtel has signed a contract with Alvarion to expand its WiMAX network for business users across key cities in India. Alvarion's market-leading BreezeMAX®, platform, adapted to the special needs of India, addresses the fast-growing demand for high-quality broadband services. The network will also include Alvarion's BreezeACCESS®.

In 2006, Alvarion deployed Airtel's first WiMAX network across major cities of India for service enterprise customers. Based on their experience, Alvarion was awarded this expansion order. Airtel plans to provide additional enterprise customers the advantages of the technology by offering last mile connectivity for MPLS/VPN/Internet leased lines and other data services.

Talking about the contract, Don Price, Director Technology of Bharti Airtel said, "Our deployment with Alvarion, the largest WiMAX pure player, offers our customers long-term business success and guarantees advanced services at competitive prices. These products are specifically adapted to the technical requirements in India and offer extended coverage for leveraging the opportunities that the fast growing Indian market offers."

This strategic agreement with Airtel reinforces our commitment to the key players in India, said Avinoam Barak, President of Broadband Wireless Access division of Alvarion. We value our ongoing partnership with Airtel, a leading and innovative operator, very much. We are proud to be chosen to address the strong demand for primary broadband in one of the fastest growing economies in the world. Our early investment in the region allows us to offer highly-advanced and cost-effective solutions, tailored specifically for the local market, as part of our strategy to empower the emerging markets. This achievement proves again that our focused strategy makes us the preferred WiMAX vendor of choice and allows us to win against the other major competitors.

About Bharti Airtel Limited:

Bharti Airtel Limited, a group company of Bharti Enterprises, is India's leading integrated telecom services provider with an aggregate of over 69.15 million customers as of end of May 2008, consisting of 66.82 million mobile customers. Bharti Airtel has been rated among the best performing companies in the world in the BusinessWeek IT 100 list 2007.

Bharti Airtel is structured into three strategic business units - Mobile services, Telemedia services and Enterprise services. The mobile business provides mobile & fixed wireless services using GSM technology across 23 telecom circles. The Telemedia business provides broadband & telephone services in 94 cities and is foraying into the IPTV and DTH segments. The Enterprise business provides end-to-end telecom solutions to corporate customers and national & international long distance services to carriers. All these services are provided under the Airtel brand. Airtel's high-speed optic fibre network currently spans over 73,787 kms covering all the major cities in the country. The company has two international landing stations in Chennai that connects two submarine cable systems - i2i to Singapore and SEA-ME-WE-4 to Europe. For more information, visit www.bhartiairtel.in.

About Alvarion

Alvarion is the largest WiMAX pure player, ensuring customers' long term success with fixed and mobile solutions for the full range of frequency bands. Based on its OPEN WiMAX strategy, the company offers superior wireless broadband infrastructure and an all-IP best-of-breed ecosystem in cooperation with its strategic partners. Alvarion boasts over 200 commercial WiMAX deployments worldwide (www.alvarion.com).

This press release contains forward-looking statements within the meaning of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. These statements are based on the current expectations or beliefs of Alvarion's management and are subject to a number of factors and uncertainties that could cause actual results to differ materially from those described in the forward-looking statements. The following factors, among others, could cause actual results to differ materially from those described in the forward-looking statements: the failure of the market for WIMAX products to develop as anticipated; Alvarion's inability to capture market share in the expected growth of the WIMAX market as anticipated, due to, among other things, competitive reasons or failure to execute in our sales, marketing or manufacturing objectives; inability to further identify, develop and achieve success for new products, services and technologies; increased competition and its effect on pricing, spending, third-party relationships and revenues; as well as the inability to establish and maintain relationships with commerce, advertising, marketing, and technology providers and other risks detailed from time to time in the Company's 20-F Annual Report Risk Factors section as well as in other filings with the Securities and Exchange Commission.
