EXHIBIT 1

Business continues gradual improvement; cash flow turns positive

Tel Aviv, November 3, 2010 — Alvarion Ltd. (NASDAQ:ALVR), the world's leading provider of 4G networks in the Broadband Wireless Access (BWA) market, today announced financial results for the third quarter of 2010.

Q3 Highlights:

- Shipments of \$63 million, a 9.1% sequential increase
- Revenues of \$54.0 million, a 10.2% sequential increase
- GAAP net loss of (\$0.10) per share; non-GAAP net loss of (\$0.09) per share.

In the third quarter of 2010, total revenues were \$54.0 million, an increase of 10.2% from \$49 million in the second quarter of 2010, and a decrease of 7.5% from \$58.4 million in the third quarter of 2009.

The decline in gross margin to 31.2% from 36.1% in the second quarter of 2010 and 47.2% in the third quarter of 2009 reflected a continued high proportion of third-party equipment, including subscriber devices, in the revenue mix, as well as greater impact from large projects compared with the prior period and the same quarter in 2009.

GAAP net loss in the third quarter of 2010 was (\$6.1) million, or (\$0.10) per share. This compares to a net loss of (\$10.6) million, or (\$0.17) per share in Q2 2010, including charges of approximately \$3.6 million. GAAP net loss in the third quarter of 2009 was (\$1.0) million, or (\$0.02) per share.

Excluding the amortization of intangibles, stock based compensation, restructuring and other charges, net, on a non-GAAP basis, the company reported net loss of (\$5.4) million in the third quarter of 2010, or (\$0.09) per diluted share, compared with non-GAAP net loss of (\$6.7) million, or (\$0.11) per diluted share in the second quarter of 2010, and non-GAAP net income of \$0.2 million, or \$0.00 per diluted share in the third quarter of 2009.

Please refer to the accompanying financial table for reconciliation of GAAP financial information to non-GAAP for the third quarter of 2010 and the comparative periods.

Cash provided by operations was \$2.2 million. As of September 30, 2010, cash, cash equivalents and investments totaled \$93 million.

“We are pleased with the sequential increase in shipments and revenues from existing customers continuing to expand their networks and preparing to serve more subscribers,” said Eran Gorev, President and CEO of Alvarion. “These operators are satisfying increasing demand and implementing successful business models. We are also pleased with the progress we are making on our strategy to expand our relationship with our customers by supplying a complete turnkey solution. For example, after supplying equipment only for its initial deployment, we have now been engaged for a complete turnkey project for Linkem's second phase. In addition, we continue to make progress on a number of large projects in various regions, as evidenced by our recent deal with Barrett Xplore in Canada. On this project, we expect to begin recognizing significant revenues only in 2011. We are proud of our team's demonstrated ability to win highly-competitive deals facing world-class competition, at times even prevailing over an incumbent vendor. We are all working together to build on this success.”

Q4 2010 Guidance

Management continues to expect gradual improvement in shipments. Meanwhile, the company is not giving detailed guidance for Q4 because the timing of revenue from various projects cannot be predicted with accuracy.
