Successful restructuring during the quarter
sets the stage for profitability

Tel Aviv, May 3, 2011 — Alvarion Ltd. (NASDAQ:ALVR), the world's leading provider of 4G networks in the Broadband Wireless Access (BWA) market today announced financial results for the first quarter of 2011.

Q1 Highlights:

- Shipments of \$42.9 million, an 11.5% sequential decrease
- Revenues of \$46.5 million, an 8.5% sequential decrease
- GAAP net loss of (\$0.23) per share; non-GAAP net loss of (\$0.10) per share.

In the first quarter of 2011, total revenues were \$46.5 million, a decrease of 8.5% from \$50.8 million in the fourth quarter of 2010, and a decrease of 10.4% from \$51.9 million in the first quarter of 2010.

GAAP net loss in the first quarter of 2011 was (\$14.5) million, or (\$0.23) per share, including restructuring and other charges of approximately \$7.1 million related mainly to employee termination expenses and vacating office space. This compares to a net loss of (\$76.9) million, or (\$1.24) per share in Q4 2010, including impairment charges of approximately \$64.5 million. GAAP net loss in the first quarter of 2010 was (\$4.9) million, or (\$0.08) per share.

Excluding the stock based compensation, restructuring and related charges as well as impairment charges, on a non-GAAP basis, the company reported a net loss of (\$6.5) million in the first quarter of 2011, or (\$0.10) per share, compared with non-GAAP net loss of (\$11.2) million, or (\$0.18) per share in the fourth quarter of 2010, and non-GAAP net loss of (\$3.7) million, or (\$0.06) per share in the first quarter of 2010.

Please refer to the accompanying financial table for reconciliation of GAAP financial information to non-GAAP for the first quarter of 2011 and the comparative periods.

Cash used in operations in the first quarter of 2011 was (\$12.6) million. As of March 31, 2011, cash, cash equivalents and investments totaled \$69.2 million.

Management Comments on Q1 2011

“During Q1 we completed a difficult but successful restructuring which lays the foundation for sustained profitability,” said Eran Gorev, president and CEO of Alvarion. “We continue to work with our valuable installed base of customers to expand and improve their networks and we see attractive, profitable new business opportunities in the 4G market going forward. In line with our strategic plan, we continue to pursue initiatives in vertical markets such as local government, education, homeland security, utilities and other vertical segments, which we view as having attractive on-going and long-term potential.

“Our backlog of orders and pipeline of business opportunities indicate that we are on track to achieve our goal of profitability from Q2 onward. That said, we also have a significant amount of business to ship before the end of the second quarter and remain vulnerable to potential delays, as we are in any quarter. We are pleased with our progress and generally confident about achieving our strategic goals.”

Other matters

On February, 11, 2010, Alvarion made a loan to a key customer in the form of subordinated convertible promissory notes. In connection with the loan, one of the customer’s subsidiaries agreed to purchase certain quantities of equipment and services from Alvarion. Based on information the company obtained about the customer’s financial condition indicating that the loan is unlikely to be repaid, the company's 2010 audited financial statements in its 2010 Annual Report on Form 20-F, will show an increase in the net loss of \$7.4 million to reflect the impairment of this asset. Thus, Alvarion’s GAAP net loss for calendar year 2010 will be revised to \$98.5 million, or (\$1.58 per share). The net loss for calendar year 2010 reported in the unaudited financial statements announced on February 2, 2011 was \$91.1 million, or (\$1.47) per share. There is no impact on Alvarion’s non-GAAP net loss for 2010. Comparative GAAP results for Q4 of 2010, included in this press release, have also been adjusted to reflect the increase in the net loss.
