Edgar Filing: ASURE SOFTWARE INC - Form 10-K

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or 15(d) of the Act. Yes No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 ("Exchange Act") during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark if disclosure of delinquent filings pursuant to Item 405 of Regulation S-K (§ 229.405 of this chapter) is not contained herein, and will not be contained, to the best of the registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer or a non-accelerated filer, as defined in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

The aggregate market value of the 2,450,706 shares of the registrant's Common Stock held by non-affiliates on June 30, 2011 was approximately \$7,082,540. For purposes of this computation all officers, directors and 5% beneficial owners of the registrant are deemed to be affiliates. Such determination should not be deemed an admission that such officers, directors and beneficial owners are, in fact, affiliates of the registrant.

At March 23, 2012 there were 3,090,665 shares of the registrant's Common Stock, \$.01 par value, issued and outstanding.

DOCUMENTS INCORPORATED BY REFERENCE

Portions of the registrant's definitive Proxy Statement relating to its 2012 Annual Meeting of Shareholders are incorporated by reference into Part III of this Annual Report on Form 10-K where indicated. Such Proxy Statement, or an amendment to this report containing the Items comprising Part III, will be filed with the U.S. Securities and Exchange Commission within 120 days after the end of the fiscal year to which this report relates.

(Dollar amounts in thousands, except per share data or otherwise noted)

ITEM 1. BUSINESS

GENERAL

Asure Software, Inc. ("Asure" or the "Company") a Delaware corporation, is a provider of web-based workforce management solutions that enable organizations to manage their office environment as well as their human resource and payroll processes effectively and efficiently. The Company was incorporated in 1985 and has principal executive offices located at 110 Wild Basin Road, Austin, Texas 78746. The Company telephone number is (512) 437-2700 and the Company website is www.asuresoftware.com. The Company does not intend for information contained on its website to be part of this Annual Report on Form 10-K (the "Report"). Asure makes available free of charge, on or through its website, its annual report on Form 10-K, its quarterly reports on Form 10-Q, its current reports on Form 8-K, and amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Exchange Act, as soon as reasonably practicable after the Company electronically files such material or furnishes it to the Securities and Exchange Commission.

In September 2007, the Company announced its name change to "Asure Software" to reflect the Company's focus on its software business for its future growth. As a software and services provider, in October 2007, Asure purchased iSarla Inc., a Delaware corporation and application service provider that offers on-demand software solutions. As a result of the iEmployee acquisition, the Company currently offers two main product lines in its software and services business: NetSimplicity and iEmployee. Asure's NetSimplicity product line provides simple and affordable solutions to common office administration problems. NetSimplicity's flagship product, Meeting Room Manager, automates the entire facility scheduling process: reserving rooms, requesting equipment, ordering food, sending invitations, reporting on the meeting environment and more. Asure's iEmployee product line helps simplify the HR process and improves employee productivity by managing and communicating human resources, employee benefits and payroll information. iEmployee's web-based solutions include Time & Attendance, Timesheets, Human Resource Benefits, Expenses and others. Additional business information is contained elsewhere in this Report, including under Item 7 of Part II (Management's Discussion and Analysis of Financial Condition and Results of Operations).

On January 29, 2009, Asure's Board announced its plan to take the Company private. Due to concerns including the loss of liquidity and reduced requirements for regular financial reporting and disclosure, a group of shareholders led by Red Oak Fund, LP ("Red Oak") opposed the Go-Private effort. As shareholder vote counts substantiated that a majority of shareholders also opposed the go-private effort, the Board canceled the special meeting and withdrew its proposal to go private. Subsequently, Red Oak nominated a slate of board directors, and such slate was elected to replace Asure's prior Board during the Company's annual shareholders' meeting on August 28, 2009.

On October 1, 2011, the Company, through ADI Software, LLC, a wholly owned subsidiary of the Company ("Purchaser"), purchased substantially all of the assets and assumed certain liabilities of ADI Time, LLC ("Seller") relating to its time and attendance software and management services business, pursuant to an Asset Purchase Agreement ("APA") by and among the Company, Purchaser and Seller. The APA contains certain customary representations, warranties, indemnities and covenants of the Company, Purchaser and Seller.

The purchase price for the assets consisted of \$6,000 in cash and a promissory note of the Purchaser ("Purchaser Note") in the aggregate principal amount of \$1,095. The Purchaser Note bears interest at an annual rate of 0.16%, will mature on October 1, 2014, and is guaranteed by the Company. The Purchaser may offset any indemnification payments owed by the Seller under the APA against up to \$1 million under the Purchaser Note. The cash portion of the purchase price was funded with the Company's cash on hand and proceeds from the Credit Agreement and the Subordinated

Notes.

On December 14, 2011, the Company, through Asure Legiant, LLC, a wholly owned subsidiary of the Company (“Purchaser”), purchased substantially all of the assets and assumed certain liabilities of WG Ross Corp., d/b/a Legiant (“Seller”), relating to its cloud computing time and attendance software and management services pursuant to an Asset Purchase Agreement (“APA”) by and among the Company, Purchaser, Seller and, with respect to Section 6.6 only, ADI Software, LLC, a wholly owned subsidiary of the Company. The APA contains certain customary representations, warranties, indemnities and covenants of the Company, Purchaser and Seller.

The purchase price for the assets was \$4,000, consisting of \$1,511 in cash and three subordinated promissory notes of the Purchaser in the aggregate principal amount of \$2,489, as adjusted pursuant to the terms of the APA. One of the promissory notes is for an aggregate principal amount of \$250, bears interest at an annual rate of 0.20%, and will mature on February 1, 2012. The second promissory note is for an aggregate principal amount of \$478, bears interest at an annual rate of 5.00%, and will mature on October 1, 2014. The third promissory note is for an aggregate principal amount of \$1,761, bears interest at an annual rate of 0.20%, and will mature on October 1, 2014. The Purchaser may offset any indemnification payments owed by the Seller under the APA against up to \$1 million under the third promissory note. All three promissory notes are guaranteed by the Company and are subordinated to the Company’s bank financing. The cash portion of the purchase price was funded with the Company’s cash on hand and proceeds from the Company’s bank financing.

Table of Contents

According to the Nasdaq Capital Markets Rule 5550 (b) on Continue Listing Standards for Primary Equity Securities, the Company failed to meet the minimum stockholders' equity requirement of \$2,500 as of December 31, 2011. The Company's stockholders' equity as of December 31, 2011 was \$2,064. The Company did not meet this requirement primarily due to the mark-to-market impact of the derivative liability associated with the subordinated convertible notes outstanding. Subsequent to December 31, 2011, the terms of the subordinated convertible notes were amended to eliminate the embedded derivative features resulting in a settlement or extinguishment of the derivative liability. The Company estimates that the impact of this transaction will result in the Company exceeding the minimum stockholders' equity requirement as of March 31, 2012. The Company has informed Nasdaq's MarketWatch department regarding this matter.

PRODUCTS AND SERVICES

Asure Software, Inc. is a provider of cloud based workplace management solutions that enable organizations to manage their office environment and human resource processes effectively and efficiently. Asure Software offers two main product lines which provide workspace management solutions and workforce management solutions. These services are delivered to customers under the "SaaS" model, which is software as a service offered on a subscription basis. In recent years, this has come to be referred to as a "cloud based" solution.

Asure Software's workspace management solution (Netsimplicity) automates the scheduling of a facility, including reserving rooms, requesting equipment, ordering food, sending invitations, and reporting on the meeting environment. This solution includes a Microsoft Outlook add-on which provides additional scheduling tools that Outlook is unable to provide. The software can be accessed from a browser, Microsoft Outlook, mobile devices, or from LCD panels that Asure provides. Asure Software is a Microsoft Gold Certified Partner, which means that solution team "is the top level of Microsoft solutions partners and have access to the tools and support they need to help them stand out in the marketplace." The Company believes that this certification is a testament to the quality of Asure Software's workspace management solution.

Asure Software's workforce management product line simplifies HR processes and improves productivity by managing and communicating human resource information, employee benefits and payroll information. This solution set includes Time & Labor Management, Timesheets, Expenses, Accrual Management and other features which further enable HR Management teams with full featured workforce management solutions. The software products associated with this product line include iEmployee, ADI Time and Legiant.

Asure Software also has a proprietary line of time clocks and mobile applications which complement the workforce management software product set. The time clocks provide bar code, proximity and biometric inputs options which give options to best fit the client environmental needs. The Company believes these technology additions continue to improve the its ability to provide HR management solutions to all employees through every communication medium.

To help expand and grow the company, Asure Software recently acquired ADI Time and Legiant who are leading providers of cloud computing time and attendance solutions. These acquisitions provided the company with a complementary client base in manufacturing, healthcare, retail and distribution industries among others.

Following these acquisitions, Asure Software's workforce management and workplace management solutions have approximately 1,550 and 1,000 customers, respectively. The Company has a base of multinationals that it services, including such companies as Microsoft, McDonalds, and Nike, Inc.

Support and professional services are other key elements of Asure's software and services business. As an extension of its perpetual software product offerings, Asure offers its customers maintenance and support contracts that provide ready access to qualified support staff, software patches and upgrades to the Company's software products, all without

any additional cost to the customer. At the customer's request, the Company provides installation of and training on its products, add-on software customization, and other professional services

PRODUCT DEVELOPMENT

The technology industry is characterized by continuing improvements in technology, resulting in the frequent introduction of new products, short product life cycles, changes in customer needs and continual improvement in product performance characteristics. To be successful, Asure strives to be cost-effective and timely in enhancing its current software applications, developing new innovative software solutions that address the increasingly sophisticated and varied needs of an evolving range of customers, and anticipating technological advances and evolving industry standards and practices. Asure's strategy is to deliver the right technology to its customer base in order to realize efficiencies in the workplace.

Table of Contents

Asure Software's development teams are located in Warwick, Rhode Island and Austin, Texas, and are staffed with software developers, quality assurance engineers and support specialists who work closely with the Company's customers and the Company's sales and marketing teams to build products based on market requirements and customer feedback. The product roadmaps are developed based on inputs from customers, competitive comparisons, and relevant technology innovations.

The Company's research and development strategy is to continue to enhance the functionality of its software and hardware products through new releases and new feature developments. Asure will also continue to evaluate opportunities for developing new software so that organizations may further streamline and automate the tasks associated with administering their businesses. The Company seeks to simultaneously allow organizations to improve their productivity while reducing the costs associated with those business tasks.

Despite the Company's best efforts, there can be no assurance that Asure will complete its existing and future development efforts or that its new and enhanced software products will adequately meet the requirements of the marketplace and achieve market acceptance. Additionally, Asure may experience difficulties that could delay or prevent the successful development or introduction of new or enhanced software products. In the case of acquiring new or complementary software products or technologies, the Company may not be able to integrate the acquisitions into its current product lines. Furthermore, despite extensive testing, errors may be found in the Company's new software products or releases after shipment, resulting in a diversion of development resources, increased service costs, loss of revenue and/or delay in market acceptance.

SALES AND DISTRIBUTION

Asure's software products and services are sold through a direct and channel (partner) model, which enables the Company to sell its software solutions in an efficient, cost-effective manner. Prospective customer visits the Company's websites in order to gather the needed product information, and can optionally register for webcasts, product demonstrations, white papers and other pertinent product information. At that point, the prospective customer provides contact information via the website and a sales representative follows up to provide further information and conclude the sale. These leads are tracked and tied directly into the Company's marketing and tracking programs for lead generation. In addition to this direct, inside sales model, the Company supplements these efforts with its partner programs described below. By working with these partners, the Company expands the reach of its direct sales force and gains access to key opportunities in major market segments worldwide. The Company has two distinct levels of partners in its Partner Program: Reseller Partners and Referral Partners.

Reseller Partners. Reseller Partners are companies that represent the Company globally, as well as before the Federal government and with companies that offer complementary products to either the workspace management product line or the workforce product line. Reseller Partners commit to a minimum level of business per year with the Company and receive a channel discount for that commitment. The Company's Reseller Partners outside the United States include Novera in Australia which represents the workspace product line. The Company also has several Reseller Partners that represent the software in the Federal government space. Resellers of the Company's workforce product line include Oasis Outsourcing in the United States, a large provider of human resource outsourcing solutions.

Referral Partners. Referral Partners provide the Company with the name and particular information about a customer and its needs as a sales lead. If the Company accepts the sales lead, the Company registers it for a particular Referral Partner. If the Company makes a sale as a direct result of such a lead, the Company will pay the Referral Partner a sales lead referral fee. Currently, the Company has a number of Referral Partners including PolyVision Corp./Steelcase and e-Innovative Solutions for the workspace product line and several smaller firms for workspace Time & Attendance product. These Referral Partners do not represent more than 10% of the Company's revenue.

COMPETITION

Asure's workspace management line of scheduling software products has a competitive advantage in the marketplace by being able to automate business processes that are otherwise typically performed manually or with the assistance of general-purpose office software tools such as Microsoft Outlook®, Exchange® or Excel®. Meeting Room Manager competes with other scheduling software applications offered by companies such as PeopleCube, Dean Evans and Associates, and Emergingsoft. The principal competitive advantages of Meeting Room Manager with respect to these other products include Meeting Room Manager's broad product capabilities, Software-as-a-Service ("SaaS) delivery model, more customizable user interface, and price.

Table of Contents

Asure's workforce management line of time and attendance and human resource software has a competitive advantage in the marketplace by being able to serve organizations looking for specific point-solutions as well as organizations looking for an integrated suite of solutions. By being able to compete tactically with point-solutions and strategically with an integrated suite of solutions, Asure can serve the needs of a broad spectrum of companies. While Asure has the advantage of flexibility, ease-of-use, Software-as-a-Service ("SaaS) delivery model, affordability and speed of delivery, the Company faces certain challenges with various types of competitors:

- Vendors with face-to-face sales contact. In this highly relationship-based sales process, vendors with a field-based sales team who meets and consults with prospects have an advantage. iEmployee does not have a field-based approach to sales but focuses instead on high-touch marketing campaigns and leveraging relationships with channel partners to build relationships with prospects.
- National payroll processors with loss-leader products. Large brand and market share vendors (like ADP, Inc.) can offer equivalent point solutions at little or no cost to prospects when in a competitive engagement because these loss leader products become inconsequential next to their core business offerings.
- Single application vendors. Vendors that offer similar point-solutions like Time & Attendance, Employee/Manager Self-Service, Paystubs, etc. can be perceived as better meeting an immediate and specific need.

Since the market for the Company's products and services is subject to rapid technological change and since there are relatively low barriers to entry in the workplace management software market, the Company may encounter new entrants or competition from vendors in some or all aspects of its two product lines. Competition from these potential market entrants may take many forms. Some of the Company's competitors, both current and future, may have greater financial, technical and marketing resources than the Company and therefore, may be able to respond quicker to new or emerging technologies and changes in customer requirements. As a result, they may compete more effectively on price and other terms. Additionally, those competitors may devote greater resources in developing products or in promoting and selling their products to achieve greater market acceptance. Asure is actively taking measures to effectively address its competitive challenges. However, there can be no assurance that the Company will be able to achieve or maintain a competitive advantage with respect to any of the competitive factors.

MARKETING

Asure Software's marketing plan incorporates both corporate marketing and marketing communications (marcomm). Marketing communications activities feed into lead generation for the sales team by providing appropriate messaging for all sales campaigns and prospecting, while corporate marketing activities drive consistent brand messaging throughout the organization. The tenants of this marketing plan are aligned with the central goals of aligning lead generation with sales objectives, building a brand presence, developing and delivering consistent messaging around all product lines, and integrating scalable programs for partner execution. The integrated elements of these tenants include a mix of demand generation, public relations, print media, trade shows, and other corporate communications activities to ensure a consistent and accurate flow of information to and from prospects, customers and other key stakeholders.

The consistent growth of the customer base relies on the development and implementation of a comprehensive integrated marketing plan. Although the Company's customers include many Fortune 500 companies and that base continues to grow, the marketing plan is primarily aimed at reaching small and medium-sized businesses and divisions of enterprise organizations throughout the United States, Europe and Asia/Pacific. The Company targets these prospects by utilizing search engine marketing including search engine optimization, pay per click advertising and social media, as well as other competitive tools such as industry peer analysis and vertical integration targeting. Additional marketing strategies include outbound e-mail marketing, lead nurturing, targeted trade shows and industry focused print advertising.

TRADEMARKS

The Company has registered Asure Software® as a federal trademark with the U.S. Patent and Trademark Office (the “USPTO”). The Company’s other trademarks include Face Time Clock®, Legiant Timecard®, and ADI Time®”, which are federally registered with the USPTO, and iEmployee™, Netsimplicity™, AsureForce™, AsureSpace™, ADI™ and Leg Express™, which are common law trademarks. The Company has pending applications at the USPTO to federally register the marks AsureForce and Asure Space.”

Table of Contents

EMPLOYEES

As of March 15, 2012, the Company had a total of 66 employees in the following departments:

FUNCTION	NUMBER OF EMPLOYEES
Research and development	12
Sales and marketing	17
Customer service and technical support	19
Finance, human resources and administration	18
Total	66

The size and composition of Asure's workforce is continually evaluated and adjusted. The Company also occasionally hires contractors to support its sales and marketing, information technology and administrative functions. None of the Company's employees are represented by a collective bargaining agreement. Asure has not experienced any work stoppages and considers its relations with its employees to be good. Additionally, Asure augments its workforce capacity in 'research and development' and 'Customer service and technical support' by contracting for services through third parties.

The future performance of the Company depends largely on its ability to continually and effectively attract, train, retain, motivate and manage highly qualified and experienced technical, sales, marketing and managerial personnel. Asure's future development and growth depend on the efforts of key management personnel and technical employees. Asure uses incentives, including competitive compensation and stock option plans to attract and retain well-qualified employees. However, there can be no assurance that the Company will continue to attract and retain personnel with the requisite capabilities and experience. The loss of one or more of Asure's key management or technical personnel could have a material and adverse effect on its business and operating results.

EXECUTIVE OFFICERS OF THE COMPANY

CHIEF EXECUTIVE OFFICER: Patrick Goepel, age 50, was elected to the Company's Board of Directors at its August 28, 2009 Annual Meeting of Shareholders. Mr. Goepel was subsequently appointed as Interim Chief Executive Officer on September 15, 2009 and became Chief Executive Officer of the Company as of January 1, 2010. Prior to his appointment, Mr. Goepel served as Chief Operating Officer of Patersons Global Payroll. Previously, he was the President and Chief Executive Officer of Fidelity Investment's Human Resource Services Division from 2006 to 2008, President and Chief Executive Officer of Advantec from 2005 - 2006 and Executive Vice President of Business Development and US Operations at Ceridian from 1994 - 2005. A former board member of iEmployee, Mr. Goepel currently serves on the board of directors of Allover Media, APPD Investments, and Safeguardworld International.

CHIEF OPERATING OFFICER: Steven Rodriguez, age 45, joined Asure Software as Chief Operating Officer in June 2011. From February through May 2011, the Company retained Mr. Rodriguez as a fee-based consultant to evaluate and make recommendations related to the Company's sales and marketing strategies and processes. Before joining the Company, Mr. Rodriguez, served as the Principal for HCS, a consulting company he founded. Prior to that, Mr. Rodriguez served from March of 2008 to November of 2009 as the Executive Vice President and Officer at Perquest, a national workforce management company. Previously, Mr. Rodriguez served as Senior Vice President of Sales & Sales Operations from May 2001 to November 2007 at Ceridian Corporation, a human resource services company. Mr. Rodriguez also served from May 2000 to May 2001 as the Regional Director for Epicor Software. Prior to Epicor, Mr. Rodriguez was Vice President of Sales at Automatic Data Processing (ADP), Inc., a provider of payroll and benefits administration solutions, from May 1990 to May 2000. Mr. Rodriguez holds a Bachelors of Business

Administration from the University of Oklahoma.

CHIEF FINANCIAL OFFICER: David Scoglio, age 35, joined Asure Software as Vice President and Chief Financial Officer in January 2010. Before joining Asure, Mr. Scoglio held a variety of positions at Fidelity Investments from 1998 to 2009, and most recently held the position of Senior Director of Finance with Fidelity's Human Resource Services division. David holds a Master's of Science in Finance from Boston College and a Bachelor of Science in Finance from Bentley University.

7

Table of Contents

VICE PRESIDENT OF SALES: Mike Kinney, age 43, joined Asure Software in May 2011 as the Vice President of Sales; Mr. Kinney brings over sixteen years of sales and marketing experience in the human capital management business services industry with expertise in SAAS and hardware solutions. Prior to Asure Software Mr. Kinney was a Regional Vice President for the HR Payroll Division of Ceridian Corporation where he was utilized by the CEO to lead multiple regions from 2006-2010; primarily to rebuild market presence and drive Top-line revenue. Previously, Mr. Kinney held Regional Vice President Leadership positions in the Recruiting Process Outsourcing (RPO) Industry where he was responsible for sales, operations, and fulfillment of talent management solutions [KFORCE 2005-2006 and Creative Financial Staffing (CFS) 2001-2005]. Mr. Kinney holds a BA in Political Science with a concentration in Economics at the University of Texas at Austin.

ITEM 1A. RISK FACTORS

The Company is a smaller reporting company as defined by Rule 12b-2 of the Exchange Act and is not required to provide the information required under this item.

ITEM 2. PROPERTIES

On April 28, 2010, Asure Software, Inc. (the “Company”), entered into an Amendment to the Building Lease originally dated January 6, 1998 (the “Lease”) between Asure Software and WB One & Two, LTD (“Landlord”). Pursuant to the terms of the amended Lease and related amendments, the Landlord agreed to reduce the square footage leased by the Company from 137 square feet to approximately 9 square feet in the building located at 110 Wild Basin Road. In addition, the current gross monthly rent of \$299 was reduced to \$20. In exchange for the rent and square footage reduction, the Company agreed to a onetime payment of \$1,500 and to forgo approximately \$159 of monthly subtenant income it received from the excess space under the current lease. Additionally, the Company forfeited its rights to any potential future net profits interest in the lease. The Company took a one time charge related to the lease modification of approximately \$1,200 in its second quarter of 2010.

On December 14, 2011, as part of the acquisition of Legiant, the Company assumed the lease of Legiant for approximately 4 square feet of space located at 108 Wild Basin Road (the “Legiant Lease”). The monthly rent related to the Legiant Lease was \$7 and the Company assumed the \$5 security deposit. On January 12, 2012, the Company entered into the Sixth Amendment to Lease with the Landlord (“Sixth Amendment”). The Sixth Amendment expanded the Company’s premises by approximately 4 square feet to a total of approximately 11 square feet. The Sixth Amendment also terminated the Legiant Lease effective on February 1, 2012 (the “Expansion Date”). From the Expansion Date to April 1, 2013, the Company will continue to pay the \$20 in Asure monthly rent plus approximately \$5 in monthly rent for the expansion space. On April 1, 2013, the monthly rent converts to \$8 plus the Company’s pro rata share of building expenses and real estate taxes. The Sixth Amendment also extended the term of the Lease to December 31, 2015.

The Company also leases 5 square feet in Warwick, Rhode Island and small office suites in Minneapolis, Minnesota, and New York, New York primarily used for remote employees and executive meeting space respectively. In the first quarter of 2012, the Company closed its smaller offices in Mumbai, India and Vancouver, British Columbia and moved duties and responsibilities to both existing and new personal in its offices in Austin, TX and Warwick, RI.

Management believes that the leased properties described above are adequate to meet Asure's current operational requirements and can accommodate further physical expansion of office space as needed

ITEM 3. LEGAL PROCEEDINGS

Asure was the defendant or plaintiff in various actions that arose in the normal course of business, none of the pending legal proceedings to which the Company is a party are material to the Company.

PART II

(Amounts in thousands, except per share data or otherwise noted)

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS, AND ISSUER PURCHASES OF EQUITY SECURITIES

MARKET INFORMATION

The common stock of the Company is currently trading in the NASDAQ Capital Market System under the symbol "ASUR". The following table sets forth the high and low sales prices for the Company's common stock for each full quarter of 2011 and 2010:

	CALENDAR YEAR 2011		CALENDAR YEAR 2010	
	HIGH	LOW	HIGH	LOW
1st Quarter	\$ 3.17	\$ 2.43	\$ 2.82	\$ 2.19
2nd Quarter	\$ 3.20	\$ 2.25	\$ 2.81	\$ 2.17
3rd Quarter	\$ 3.90	\$ 2.27	\$ 2.64	\$ 2.11
4th Quarter	\$ 7.06	\$ 2.99	\$ 3.15	\$ 2.21

DIVIDENDS

The Company has not paid cash dividends on its common stock during fiscal years 2011 and 2010, and presently intends to continue a policy of retaining earnings for reinvestment in its business, rather than paying cash dividends.

HOLDERS

As of March 20, 2012, there were approximately 964 stockholders of record of the Company's common stock.

SECURITIES AUTHORIZED FOR ISSUANCE UNDER EQUITY COMPENSATION PLANS

See "Equity Compensation Plan Information" under Item 12 of Part III of this Report (Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters).

RECENT SALES OF UNREGISTERED SECURITIES

On September 30, 2011, the Company entered into a Securities Purchase Agreement (the "9% Note Purchase Agreement") relating to the sale of \$1,500 aggregate principal amount of the Company's 9% subordinated convertible notes ("9% Notes") in a private placement to accredited investors. The 9% Notes will pay interest on each of March 31, June 30, September 30 and December 31, beginning on December 31, 2011, at a rate of 9% per year. The 9% Note will mature on September 30, 2014. The 9% Note is secured by all of the assets of the Company and is subordinated to the Company's obligations to the Bank and the 15% Notes.

Table of Contents

Beginning 12 months from the date of issuance, the holder may convert the 9% Notes into shares of the Company's common stock at a conversion price of \$5.00 per share. The conversion price will be adjusted for certain events, such as stock dividends and stock splits. Additionally, if the Company subsequently issues common stock at a price below the then current conversion price, the conversion price will be reset to the greater of \$3.27 per share (the closing price of the Company's Common Stock on September 30, 2011) or such lower price. In the event that a holder of a 9% Note elects to convert the 9% Note into equity, and the Company determines that such conversion would jeopardize the Company's tax benefits under Section 382 of the Internal Revenue Code, the Company may elect to prepay any or all of such 9% Notes prior to conversion, subject to certain limitations at a purchase price equal to the product of the number of shares into which the 9% Note is convertible and the volume weighted average closing price during the 20 day trading period beginning on the 10th day before the conversion notice is received by the Company multiplied by the Premium Rate. The Premium Rate is 1.1 if a holder notifies the Company of an intention to convert their 9% Note into equity prior to the date that is 90 days before the maturity date and 1.5 if such notification is made within 90 days of the maturity date. The 9% Notes also contain customary terms of default.

On March 10, 2012, the Company amended and restated each of the Convertible Notes (the "A&R Convertible Notes") and amended and restated the Registration Rights Agreement (the "Amended and Restated Registration Rights Agreement").

The changes made to the Convertible Notes and the Registration Rights Agreement, resulted in a change of accounting treatment of the derivatives. Effective on March 10, 2012, the derivatives will no longer be required to be accounted for on a separate basis. Therefore, the Company will no longer be required to re-measure the value of the derivatives after the amendment date and will write-off the fair value of the derivative after the amendment. The Company estimates that it will recognize approximately \$42,000 in additional non-cash expense to re-measure the A&R Convertible Notes and approximately \$220,000 in one time cash expense related to consideration expected to be paid to holders of the Convertible Notes for agreeing to the terms of the A&R Convertible Notes. These expenses will be offset by a one time non-cash gain of approximately \$672,000 associated with the writing-off of the derivative due to the adopted amendment.

The Company has received conversion elections and/or indication of intent to convert from holders representing \$1,150 of the total \$1,500 of principal amount of notes. These conversions resulted in the company recognizing a one time non-cash charge of approximately \$1,898 and an equal increase in the Company's equity for the value of approximately \$230,000 shares issued based on an estimated share price of \$8.25. This expense was offset by a one time non-cash gain of \$970 related to the extinguishment of the debt owed to the holders upon conversion.

The estimated net effect of the above transactions on the Company's financial statements in the quarter ending March 31, 2012 is an increase in one time expenses of approximately \$518 and a net increase in shareholder's equity of approximately \$1,585. In the event that the estimated share price is not \$8.25 or holders representing an amount other than \$1,150,000 elect to convert, the non cash charges, non cash gains and impact on the Company's financial statement will be different from that set forth above.

ISSUER PURCHASES OF EQUITY SECURITIES

None.

ITEM 6. SELECTED FINANCIAL DATA

The Company is a smaller reporting company as defined by Rule 12-b-2 of the Exchange Act and is not required to provide the information required under this item.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

On March 27, 2012, the Board of Directors authorized a 3 for 2 stock split, in the form of a 50% stock dividend., The company's common stock will split on a three-for-two basis for shareholders of record on April 23, 2012. Shares resulting from the split are expected to be distributed on April 30, 2012. Share and per share information in this Annual Report does not reflect the impact of this proposed 3 for 2 split.

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

Certain statements in this Report represent forward-looking statements. These statements involve known and unknown risks, uncertainties and other factors that may cause actual results of operations, levels of activity, economic performance, financial condition or achievements to be materially different from future results of operations, levels of activity, economic performance, financial condition or achievements as expressed or implied by such forward-looking statements.

Asure has attempted to identify these forward-looking statements with the words “believes,” “estimates,” “plans,” “expects,” “anticipates,” “may,” “could” and other similar expressions. Although these forward-looking statements reflect management’s current plans and expectations, which are believed to be reasonable as of the filing date of this Report, they inherently are subject to certain risks and uncertainties. Additionally, Asure is under no obligation to update any of the forward-looking statements after the date of this Form 10-K to conform such statements to actual results.

RESULTS OF OPERATIONS

The following table sets forth, for the fiscal periods indicated, the percentage of total revenues represented by certain items in Asure’s Consolidated Statements of Operations:

	Twelve Months Ended December 31, 2011	Twelve Months Ended December 31, 2010
Revenues	100.0%	100.0%
Gross Margin	79.1	77.5
SG&A	56.7	56.7
R&D	15.3	14.4
Loss on Lease Amendment	-	12.0
Litigation Settlement	-	-
Impairment of Assets	-	-
Amortization of Intangible Assets	6.2	6.0
Total Operating Expenses	78.2	89.2
Interest, Mark to Market & Original Issue Discount	(5.3)	-
Other Income, Net	(6.1)	0.2
Net Loss	(5.9)%	(11.3)%

Overview

During the period ended December 31, 2010, the Company focused on its core software business through reducing unnecessary expenses and growing and maintaining its customer base and thus growing revenue. Outside of its core software business, Asure accomplished three major goals. First, on April 28, 2010, Asure Software, Inc. (the “Company”), entered into an Amendment to the Building Lease originally dated January 6, 1998 (the “Lease”) between Asure Software and WB One & Two, LTD (“Landlord”). Pursuant to the terms of the amended Lease and related amendments, the Landlord agreed to reduce the square footage leased by the Company from 137,530 square feet to approximately 9,000 square feet. In addition, the current monthly rent of \$299 was reduced to \$20. In exchange for the rent and square footage reduction, the Company agreed to a one time payment of \$1,500 and to forgo approximately \$159 of monthly sub-tenant income it received from the excess space under the current

lease. Additionally, the Company forfeited its rights to any potential future net profits interest in the lease. The Company took a one time charge related to the lease modification of approximately \$1,200 in its second quarter of 2010. This transaction saved the company approximately \$120 per month in excess real estate cash flow going forward. Secondly, Asure sold off the last active remnants of its intellectual property business. Thirdly, the Company ensured NASDAQ compliance through a reverse 10 for 1 stock split in November 2009.

Table of Contents

On May 3, 2010, the Company and Ceridian Corporation (“Ceridian”), a reseller of the Company’s iEmployee products, entered into an agreement by which joint customers of the Company and Ceridian were given until July 31, 2010 to choose either to (i) contract directly with the Company to continue using our goods and services, or (ii) continue using Ceridian’s offerings that may not include the Company’s products and services. The Company was able to retain substantially all of the monthly revenue associated with the former Ceridian customers.

Under the continued guidance and direction of its new directors and Chief Executive Officer, Asure will continue to implement its corporate strategy for growing its software and services business. However, uncertainties and challenges remain and there can be no assurances that Asure can successfully grow its revenues or achieve profitability and positive cash flows during calendar year 2012.

On October 1, 2011, the Company, through ADI Software, LLC, a wholly owned subsidiary of the Company (“Purchaser”), purchased substantially all of the assets and assumed certain liabilities of ADI Time, LLC (“Seller”) relating to its time and attendance software and management services business, pursuant to an Asset Purchase Agreement (“APA”) by and among the Company, Purchaser and Seller. The APA contains certain customary representations, warranties, indemnities and covenants of the Company, Purchaser and Seller.

The purchase price for the assets consisted of \$6,000 in cash and a promissory note of the Purchaser (“Purchaser Note”) in the aggregate principal amount of \$1,095. The Purchaser Note bears interest at an annual rate of 0.16%, will mature on October 1, 2014, and is guaranteed by the Company. The Purchaser may offset any indemnification payments owed by the Seller under the APA against up to \$1 million under the Purchaser Note. The cash portion of the purchase price was funded with the Company’s cash on hand and proceeds from the Credit Agreement and the Subordinated Notes.

On December 14, 2011, the Company, through Asure Legiant, LLC, a wholly owned subsidiary of the Company (“Purchaser”), purchased substantially all of the assets and assumed certain liabilities of WG Ross Corp., d/b/a Legiant (“Seller”), relating to its cloud computing time and attendance software and management services pursuant to an Asset Purchase Agreement (“APA”) by and among the Company, Purchaser, Seller and, with respect to Section 6.6 only, ADI Software, LLC, a wholly owned subsidiary of the Company. The APA contains certain customary representations, warranties, indemnities and covenants of the Company, Purchaser and Seller.

The purchase price for the assets was \$4,000, consisting of approximately \$1,511 in cash and three subordinated promissory notes of the Purchaser in the aggregate principal amount of approximately \$2,489, as adjusted pursuant to the terms of the APA. One of the promissory notes is for an aggregate principal amount of \$250, bears interest at an annual rate of 0.20%, and will mature on February 1, 2012. The second promissory note is for an aggregate principal amount of \$478, bears interest at an annual rate of 5.00%, and will mature on October 1, 2014. The third promissory note is for an aggregate principal amount of approximately \$1,761, bears interest at an annual rate of 0.20%, and will mature on October 1, 2014. The Purchaser may offset any indemnification payments owed by the Seller under the APA against up to \$1 million under the third promissory note. All three promissory notes are guaranteed by the Company and are subordinated to the Company’s bank financing. The cash portion of the purchase price was funded with the Company’s cash on hand and proceeds from the Company’s bank financing.

Revenues

Consolidated revenues were \$10.9 million for the year ended December, 31 2011 and \$10.0 million for the year ended December 31, 2010. The increase was \$0.9 million, or 9%. Consolidated revenues represent the combined revenues of the Company and its subsidiaries, including sales of the Company’s scheduling software, time and attendance and human resource software, complementary hardware devices to enhance its software products, software maintenance and support services, installation and training services and other professional services.

During the year ended December 31, 2011, the \$0.9 million increase in total revenues is due primarily the acquisitions of ADI Time and Legiant in the fourth quarter of 2011, \$1.4 million, and offset by a net reduction in Asure's core business of (\$0.4 million). The net reduction in Asure's core businesses was driven by lower perpetual software licenses revenues, (\$0.6) million in the NetSimplicity product line driven by management's strategy to prioritize sales of its software subscriptions (SaaS or cloud-based) revenues. Hardware product revenue also declined, (\$0.3) million, as a result of the company's continued focus on building recurring, vs. onetime, revenue streams. Both recurring revenue streams, maintenance and software subscription revenues, increased over the previous year by \$0.2 million.

Table of Contents

The \$1.4 million increase in acquisition revenue broke down as follows: \$450 in software subscription revenue; \$439 in hardware revenue; \$168 in onetime software license revenue; \$206 in maintenance revenue and \$54 in professional services revenue.

During year ended December 31, 2011, software subscription revenues for Asure's core businesses increased by \$0.2 million. iEmployee's, ADI Time's, and Legiant's time and attendance and human resource software, as well as the Company's Meeting Room Manager On Demand software, are delivered to customers under the "SaaS" model, which is software as a service offered on a subscription basis. In recent times, this type of software subscription has become known as "cloud-based" software subscriptions in addition to being referred to as a "SaaS" model. When purchasing any of Asure's cloud-based software solutions, customers do not need to install or maintain the software on their own servers. Additionally, purchasing an annual subscription may not require as stringent approval requirements as purchasing a perpetual license. Thus, purchasing our products on a subscription basis is becoming more appealing to customers as they try to meet operational goals while reducing capital expenditures. NetSimplicity's Meeting Room Manager cloud-based software subscription revenue increased \$0.4 million or 55% while iEmployee software subscription revenue decreasing by \$0.2 million, or 5%. NetSimplicity software subscription increases were driven by new sales and the accretive nature of recurring subscription revenue. Increased sales drove the monthly base of NetSimplicity software subscription revenue up 11% at the end of 2011 compared to the run rate present in December 2010. iEmployee's decline of (\$0.2) million was driven by the onetime settlement revenue recognized in the first seven months of 2010 from Ceridian Corp. due to the dissolution of a reseller arrangement between Asure and Ceridian Corp as outlined in the company's Form 8-K on May 3, 2010.

During 2011, software license (NetSimplicity) revenues decreased by \$0.6 million. The Company continues to focus efforts on the repetitive nature of its Meeting Room Manager On Demand software subscription product as an alternative to the one time nature of its perpetual, in-house software solution. These factors contributed to the decrease in NetSimplicity revenues of \$0.2 million. ADI Time and Legiant divisions contributed \$215 and \$32 respectively to software license revenue in the fourth quarter of 2011. While the Company focuses its efforts on obtaining software subscription revenue from its direct customers, as opposed to one time perpetual, in house software, ADI Time's resellers are currently actively marketing both solutions. ADI perpetual revenue from resellers amounted to \$129 of its \$160 in revenue for the year ending December 31, 2011.

During 2011, hardware revenues decreased by \$0.3 million for Asure's core business. This decrease was driven by NetSimplicity's LCD panel revenue which decreased by \$0.3 million due to a shift away from a onetime revenue focus.

During 2011, Asure's core business maintenance revenue increased by \$251. Contributing to this increase was new onetime license sales, and aggressive focus on both retaining and winning back maintenance customers. The Company now has an employee dedicated to customer renewals and expects to drive higher retention of current maintenance revenue to offset the fact that the Company is not actively selling this onetime license revenue to new customers in 2012. Additionally, Asure has proactively added, and continues to enforce, an auto-renew provision (absent sufficient notice) to its annual maintenance contracts in an effort to retain customers in the NetSimplicity product line specifically. The Company will be working to implement similar provisions for its acquired businesses in 2012.

Although the Company's sales have been concentrated in certain industries, including corporate, education, healthcare, governmental, legal and non-profit, Asure's total customer base is widely spread across industries. Geographically, Asure sells its products worldwide, but sales are largely concentrated in the United States and Canada. Additionally, Asure has a distribution partner in Australia. For the year ended December 31, 2011, Asure continued to target small and medium businesses and divisions of enterprises in these same industries. As the overall workforce management solutions market continues to experience significant growth related to SaaS products, Asure will continue to focus on

sales of its Meeting Room Manager On Demand and iEmployee SaaS products, including NetSimplicity's Meeting Room Manager On Demand as an alternative to its perpetual in-house software solution in 2012.

In addition to continuing to develop its workforce management solutions and release new software updates and enhancements, the Company is actively exploring other opportunities to acquire additional products or technologies to complement its current software and services. In 2011, the Company acquired ADI Time and Legiant to enhance both its channel delivery capabilities and its time and labor management technology.

Table of Contents

Gross Margin

Consolidated gross margins were \$8.7 million in 2011 and \$7.8 million in 2010, an increase of \$0.9 million, or 11%. Consolidated gross margin percentages were 79.1% for 2011 and 77.5% for 2010.

The cost of sales relates primarily to compensation and related consulting expenses, hardware expenses and the amortization of the Company's purchased software development costs. These expenses represented approximately 78% and 81% of the total cost of sales for the years ended December 31, 2011 and 2010, respectively. These expenses were flat, at \$1.8 million, year over year. Reductions of \$0.4 million in Asure's core business due to lower hardware expenses of \$228 were offset by incremental acquisition cost of sales of \$356 in these expense categories. The Company includes intangible amortization related to developed technology within cost of sales.

During 2012 Asure expects to continue proactively managing its cost of sales by maximizing efficiencies throughout the Company.

Selling, General and Administrative

Selling, general and administrative ("SG&A") expenses were \$6.2 million in 2011 and \$5.7 million in 2010, an increase of \$.5 million, or 9%. SG&A expenses were 56.7% and 56.7% of total revenues for the years ended December 31, 2011 and 2010, respectively.

Of this \$0.5 million increase, approximately \$261 was related to the acquisitions of ADI Time and Legiant in the fourth quarter of 2011 and \$262 was related to Asure's core businesses. Additionally, increased headcount related expenses, \$261, was driven by increased sales expenses due to the Company's efforts to quickly ramp up a sales team to support growth with a third party provider. Travel and professional services, largely due to the firm's acquisitions of ADI Time and Legiant, amounted to increases of \$90 and \$50 respectively. Offsetting these increases were decreases due to the 2010 Loss on Lease Amendment and depreciation expense of \$96 and \$86 respectively.

Legal expenses and professional services related expenses related to acquisitions are expected to be approximately \$0.2 million in 2012. Significant additional legal expenses and/or professional services related expenses may be incurred in the future during prospective due diligence if the company were to decide to engage in additional merger or acquisition related activity

Research and Development

Research and development ("R&D") expenses were \$1.7 million in 2011 and \$1.4 million in 2010, an increase of \$232 or 16.1%. R&D expenses were 15.3% and 14.4% of total revenues for the years ended December 31, 2011 and 2010, respectively.

The increase was primarily driven by the acquisitions of ADI Time and Legiant in the fourth quarter, \$264.

During the year ended December 31, 2011, Asure improved products and technologies through organic improvements and through acquired intellectual property. The workforce product line continued to innovate by adding mobile solutions, world class SaaS hosting infrastructure and a proprietary time clock product set. The proprietary time clock product set includes multiple models which incorporate keypad and touch screen user interfaces, as well as proximity card, bar code card, and biometric data input. The workforce software product lines continued to evolve through quarterly feature releases and monthly maintenance releases. These product releases continued to serve client requests, and maintain a technological edge with competition.

During the year ended December 31, 2011, Asure continued to develop the workspace product line and released enhancements to the Microsoft Outlook Plug-in, Web and Interactive LCD interfaces. Technology advances allowed the company to release new interface versions to the product including Socialview and a mobile product. These interface improvements allow clients to access the products through multiple hardware and physical locations.

Table of Contents

Asure's development efforts for future releases and enhancements are driven by feedback received from its existing and potential customers and by gauging marketing trends. Management believes it has the appropriate development team to design and further improve its workforce management solutions.

Loss on Lease Amendment

On April 28, 2010 the Company entered into an Amendment to its current building lease with Wild Basin. Pursuant to the terms of the amended Lease, the Landlord agreed to reduce the square footage leased by the Company from 137,000 square feet to 9,000 square feet for the lease's remaining three years. In addition, the monthly rent of \$299 was reduced to \$20 beginning April 1, 2010. In exchange for the rent and square footage reduction, the Company made a onetime payment of \$1,500 and agreed to forgo approximately \$159 of monthly sub-tenant income it received from the excess space under the prior lease. Additionally, the Company forfeited its rights to any potential future net profits interest in the lease. The approximately \$1,200 loss, in 2010, consists of the following expenses; a \$1,500 lease termination fee, the write-off of \$186 of subtenant lease hold improvements and \$45 in transaction costs. These expenses were offset by the reversal of the following liabilities; \$254 of leasehold advances; \$235 of leasehold impairments and \$39 of other net liabilities.

Amortization of intangible assets

Amortization expenses were \$0.7 million and \$0.6 million in 2011 and 2010, respectively. Amortization expenses were 6.2% and 6.0% of total revenues in 2011 and 2010, respectively. Upon acquiring the iEmployee business in October 2007, Asure recorded several intangible assets, which are being amortized over their estimated useful lives. The amortization expenses during the years ended December 31, 2010 relate entirely to these acquired intangible assets (see Note 5, in the accompanying financial statements), while the amortization expenses in 2011 relate as well to the acquisitions of ADI Time and Legiant in the fourth quarter of 2011.

Other Income and loss

Other loss was \$668 in 2011, and other income was \$20 in 2010. During 2011, the \$668 was driven by embedded derivative accounting manifested as mark to market of \$561 on the conversion option associated with the convertible debt and original issue discount amortization of \$19. Additionally, non-cash interest expense (original issue discount) of \$23 was related to the fair valuation of seller promissory notes from both the ADI and Legiant acquisitions in the fourth quarter of 2011. Interest expense in 2011, excluding the market to market and OID noted above, increased by \$95 over 2010, driven primarily by \$101 of acquisition related debt interest expense. Due to the global market economic environment during 2011, the Company incurred a \$74 foreign exchange rate gain, related to its exposure to the Indian Rupee and the Canadian dollar, a \$128 increase from 2010 loss of \$54. In 2010 Asure sold its 1,312,014 shares of Common Stock in VTEL, resulting in a \$130 gain. This gain was offset by interest expense and foreign exchange rate gain of \$74 and loss of \$54 respectively.

Income Taxes

At December 31, 2011, the Company had federal net operating loss carryforwards of approximately \$119.3 million, R&D credit carryforwards of approximately \$4.7 million and alternative minimum tax credit carryforwards of approximately \$0.2 million. The net operating loss and R&D credit carryforwards will expire in varying amounts from 2012 through 2032, if not utilized. Minimum tax credit carryforwards carry forward indefinitely.

Utilization of the net operating losses and credit carryforwards may be subject to a substantial annual limitation due to the "change in ownership" provisions of the Internal Revenue Code of 1986. The annual limitation may result in the expiration of net operating losses before utilization.

Table of Contents

Due to the uncertainty surrounding the timing of realizing the benefits of its favorable tax attributes in future tax returns, the Company has placed a valuation allowance against its net deferred tax asset, exclusive of goodwill. During the year ended December 31, 2011, the valuation allowance decreased by approximately \$11.4 million due primarily to operations, including expirations of tax carryforwards. Approximately \$8.3 million of the valuation allowance relates to tax benefits for stock option deductions included in the net operating loss carryforward which, when realized, will be allocated directly to contributed capital to the extent the benefits exceed amounts attributable to book deferred compensation expense.

Undistributed earnings of the Company's foreign subsidiaries are considered permanently reinvested and, accordingly, no provision for U.S. federal or state income taxes has been provided thereon.

Net Loss

Net loss was \$0.65 million and \$1.10 million in 2011 and 2010, respectively. The decrease in net loss was \$0.5 million, or 43 %. Net loss as a percentage of total revenues was 5.9% and 11.3% in 2011 and 2010, respectively.

Liquidity and Capital Resources

	For the year ended December 31,	
	2011	2010
	(in thousands)	
Working capital (deficit)	\$ (4,315)	\$ (320)
Cash, cash equivalents and short-term investments	1,067	1,070
Cash provided by/(used in) operating activities	3,353	(939)
Cash (used in) investing activities	(10,496)	(141)
Cash provided by/(used in) financing activities	7,231	(158)

Working capital was (\$4.3) million at December 31, 2011, a decrease of \$4.0 million from \$(320) at December 31, 2010. The decrease was due to an increase of \$0.5 million in the line of credit and an increase of \$0.4 million in note payable; each due to our 2011 acquisitions. In addition, deferred revenue increased \$3.0 million in 2011 compared to 2010.

Cash provided by operating activities was \$3,353 in the year ending December 31, 2011 and was \$0.93 million in the year ending December 31, 2010. The \$3.4 million of cash provided by operating activities during the year ended December 31, 2011 was primarily driven by growth in deferred revenue of \$1.5 million, non-cash depreciation and amortization of \$1.0 million and an increase in accounts payable of \$0.4 million. The \$0.9 million used during the year ended December 31, 2010 was due primarily to \$1.1 million in net loss which was driven by the one-time amendment to the Company's building lease with WB One & Two, Ltd.

Cash used in investing activities for the year ending December 31, 2011 was \$10.4 million. Components of this \$10.4 million include the acquisitions of ADI Time and Legiant of \$10.4 million and purchases of property and equipment of \$0.2 million. Cash used in investing activities was \$141 for the year ending December 31, 2010 due to net purchases of property and equipment. Asure's current operations are not capital intensive, however management does anticipate approximately \$0.4 to \$0.7 million in capital expenditures to both upgrade our cloud infrastructure and position it for growth during the next calendar year in 2012.

Table of Contents

Cash provided by financing activities of \$7.2 million was driven by debt raised for the acquisitions of ADI and Legiant during the year ended December 31, 2011. Cash used in financing activities was \$158 for the year ending December 31, 2010 related to the repurchase of treasury stock for \$110 and payments on capital leases of \$48. Management believes it currently has sufficient cash and short-term investments on hand to fund its operations during the next twelve months and beyond without needing to obtain long-term financing.

Pursuant to Asure's stock repurchase plan, the Company is allowed to repurchase up to 300,000 shares (adjusted for the 10 to 1 reverse stock split) of the Company's common stock. During the year ended December 31, 2010 Asure repurchased 43,364 shares of common stock for \$110. In total, Asure has repurchased 256,107 shares for approximately \$5.0 million over the life of the plan. These shares are held in Treasury. The Company did not purchase any stock under this plan during the year ending December 31, 2011. Management will periodically assess repurchasing additional shares, depending on the Company's cash position, market conditions and other factors.

As of December 31, 2011, Asure's principal source of liquidity consisted of approximately \$1,067 of current cash and cash equivalents as well as future cash generated from operations. The Company believes that it has and/or will generate sufficient cash for its short and long term needs including any required debt payments. The Company is continuing to reduce expenses and thus may utilize its cash balances in the short-term to reduce long-term costs. The Company expects that it will be able to generate positive cash flows from operating activities in the next calendar year as well.

Management is focused on growing its existing software operations and looking to make strategic acquisitions in the near future. Any acquisitions will be funded with cash on the balance sheet, cash from operations, debt raised and/or through the issuance of equity.

There is no assurance that the Company will be able to grow its cash balances or limit its cash consumption and thus maintain sufficient cash balances, and it is possible that the Company's future business demands may lead to cash utilization at levels greater than recently experienced. Management believes that the Company has sufficient capital and liquidity to fund and cultivate the growth of its current and future operations for the next 12 months and thereafter. However, due to uncertainties related to the timing and costs of these efforts, Asure may need to raise additional capital in the future. There is no assurance that the Company will be able to raise additional capital if and when it is needed.

CRITICAL ACCOUNTING POLICIES

The Company's consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles and include the accounts of Asure's wholly owned subsidiaries. All significant intercompany transactions and balances have been eliminated in the consolidation. Preparation of the consolidated financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of the assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. These estimates are subjective in nature and involve judgments that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at fiscal year end and the reported amounts of revenues and expenses during the fiscal year. The more significant estimates made by management include the valuation allowance for the gross deferred tax asset, contingency legal reserves, lease impairment, useful lives of fixed assets, the determination of the fair value of its long-lived assets, and the fair value of assets acquired and liabilities assumed during the iEmployee acquisition. The Company bases its estimates on historical experience and on various other assumptions that are believed to be reasonable under the given circumstances. These estimates could be materially different under different conditions and assumptions. Additionally, the actual amounts could differ from the estimates made. Management periodically evaluates estimates used in the preparation of the financial statements

for continued reasonableness. Appropriate adjustments, if any, to the estimates used are made prospectively based upon such periodic evaluation.

Management believes the following represent Asure's critical accounting policies:

Revenue Recognition

The Company recognizes revenue when persuasive evidence of an arrangement exists, delivery has occurred, the fee is fixed or determinable and collectability is probable. The Company recognizes software revenue in accordance with FASB ASC 985-605, Revenue Recognition – (FASB ASC 985-605). The Company's revenues consists of software license, software subscription and service fees. Revenue from the software element is earned through the licensing or right to use the Company's software and from the sale of specific software products. Service fee income is earned through the sale of maintenance and technical support, training and installation. Revenue from the sale of hardware devices is recognized upon shipment of the hardware. Asure also sells multiple elements within a single sale.

Table of Contents

Since the Company currently offers software both as a perpetual license and as software as a service, revenue recognition varies based on which of these forms of software the customer purchases.

When the Company sells software licenses in a multiple element arrangement and vendor-specific objective evidence (“VSOE”) of fair value is available for the undelivered element, sales revenue is generally recognized on the date the product is shipped, using the residual method, with a portion of revenue recorded as deferred (unearned) due to the applicable undelivered elements. VSOE of fair value for the maintenance, training and installation services are based on the prices charged for the maintenance and services when sold separately. Undelivered elements for our multiple element arrangements with a customer are generally restricted to post contract support, training and install. The amount of revenue allocated to these undelivered elements is based on the VSOE of fair value for those undelivered elements. Deferred revenue due to undelivered elements is recognized ratably on a straight-line basis over the service period (typically one year) or when the service is completed. When VSOE of fair value is not available for the undelivered element of a multiple element arrangement, sales revenue is generally recognized ratably, on a straight-line basis over the service period of the undelivered element. The Company’s training and installation services are not essential to the functionality of the Company’s products as such services can be provided by a third party or the customers themselves.

The Company also sells software subscriptions and may at times sell related setup, implementation and professional services in the same arrangement. Setup and implementation services typically occur at start of the software subscription period, while certain professional services may not occur until several months later depending on the nature of the services and the customer requirements. Prior to January 1, 2010, the Company recognized the total contract value of software subscriptions and related services ratably as a single unit of accounting over the contract term, beginning when the customer was able to utilize the software. Subsequent to the adoption of the updated FASB ASC 605, the Company accounts each of these elements as separate accounting units. The Company allocates the value of the arrangement to each unit of accounting based on vendor specific objective evidence of selling price, when it exists, third-party evidence of selling prices for like services or estimated selling price. Software subscription service revenues are recognized pro-rata over the life of the software subscription contract, while the related setup, implementation or professional services revenues are recognized upon completion. The result of the adoption is an immaterial acceleration of setup, implementation and professional service revenues related to software subscription transactions

The Company does not recognize revenue for agreements with rights of return, refundable fees, cancellation rights or acceptance clauses until such rights of return, refund or cancellation have expired or acceptance has occurred. The Company’s arrangements with resellers do not allow for any rights of return.

Deferred revenue includes amounts received from customers in excess of revenue recognized, and is comprised of deferred maintenance, service and other revenue. Deferred revenues are recognized in the Consolidated Statements of Operations when the service is completed and over the terms of the arrangements, primarily ranging from one to three years.

Intangible Assets and Goodwill

The Company records the assets acquired and liabilities assumed in business combinations at their respective fair values at the date of acquisition, with any excess purchase price recorded as goodwill. Valuation of intangible assets and in-process research and development entails significant estimates and assumptions including, but not limited to, estimating future cash flows from product sales, developing appropriate discount rates, estimating probability rates for the continuation of customer relationships and renewal of customer contracts, and approximating the useful lives of the intangible assets acquired. U.S. GAAP requires that intangible assets other than goodwill with an indefinite life should not be amortized until their life is determined to be finite, and all other intangible assets must be amortized

over their useful lives. The Company is currently amortizing its acquired intangible assets with definite lives over periods ranging from one to nine years.

Impairment of Intangible Assets and Long-Lived Assets

In accordance with FASB ASC 350, Asure reviews and evaluates its long-lived assets for impairment whenever events or changes in circumstances indicate that their net book value may not be recoverable. When such factors and circumstances exist, including those noted above, the Company compares the assets' carrying amounts against the estimated undiscounted cash flows to be generated by those assets over their estimated useful lives. If the carrying amounts are greater than the undiscounted cash flows, the fair values of those assets are estimated by discounting the projected cash flows. Any excess of the carrying amounts over the fair values are recorded as impairments in that fiscal period.

Table of Contents

On May 3, 2010, the Company and Ceridian Corporation (“Ceridian”), a reseller of the Company’s iEmployee products, entered into an agreement by which joint customers of the Company and Ceridian were given until July 31, 2010 to choose either to (i) contract directly with the Company to continue using our goods and services, or (ii) continue using Ceridian’s offerings that may not include the Company’s products and services. Depending on the number of customers that contracted with Asure and the related pricing, the cash flows associated with the Ceridian customers may vary from historical levels. Thus the Company tested the Ceridian customer relationships intangible asset for impairment in accordance with FASB ASC 350. The Company compared the asset’s carrying amount against the estimated undiscounted cash flows to be generated from the customers that contracted with Asure over the estimated useful life of the intangible asset. The undiscounted cash flows from the intangible asset exceeded the carrying value of the intangible asset and thus no impairment was required.

Recent Accounting Pronouncements

In October 2009, the FASB updated FASB ASC 605, Revenue Recognition (FASB ASC 605) to address how to determine whether an arrangement involving multiple deliverables contains more than one unit of accounting and how the arrangement consideration should be measured and allocated to the separate units of accounting. This guidance eliminates the residual method and replaces it with the “relative selling price” method when allocating revenue in a multiple deliverable arrangement. The selling price for each deliverable shall be determined using vendor specific objective evidence of selling price, if it exists, otherwise third-party evidence of selling price shall be used. If neither exists for a deliverable, the vendor shall use its best estimate of the selling price for that deliverable. After adoption, this guidance will also require expanded qualitative and quantitative disclosures. The updated FASB ASC 605 is effective for the Company’s revenue arrangements entered into or materially modified in fiscal years beginning on or after June 15, 2010, with early adoption permitted. The Company adopted the updated FASB ASC 605 on January 1, 2010 on a prospective basis for any new contracts entered into after the date of adoption. The adoptions of this ASC update did not have a material impact to its condensed consolidated statement of operations for the three and nine months ended September 30, 2010 and 2009. However, the Company cannot predict whether the impact of this update will have a material impact in future quarters due to potential changes in products and product mix. Prior to the adoption of the updated FASB ASC 605, the Company accounted for its software subscriptions and related setup, implementation and professional services as a single accounting unit. Thus all revenues associated with such an arrangement were recognized pro-rata over the life of the software subscription service contract. Subsequent to the adoption of the updated FASB ASC 605, the Company accounts for each of these elements as separate accounting units. Thus the software subscription service revenue is recognized pro-rata over the life of the software subscription contract, while the related setup and implementation revenues are recognized upon completion. The result of the adoption is an immaterial acceleration of setup and implementation revenues related to software subscriptions.

On May 12, 2011, the FASB issued ASU 2011-04 (Topic 220): Fair Value Measurement. The new guidance creates a uniform framework for applying fair value measurement principles. It eliminates differences between GAAP and International Financial Reporting Standards issued by the International Accounting Standards Board. New disclosures required by the guidance include: quantitative information about the significant unobservable inputs used for Level 3 measurements; a qualitative discussion about the sensitivity of recurring Level 3 measurements to changes in the unobservable inputs disclosed, including the interrelationship between inputs; and a description of the company's valuation processes. This guidance is effective for interim and annual periods beginning after December 15, 2011, and all amendments will be applied prospectively with any changes in measurements recognized in income in the period of adoption. The Company is currently evaluating the impact of this standard on the financial statements and related disclosures, but is not expected to be material to the Company’s consolidated financial statements.

On June 17, 2011, the FASB issued ASU 2011-05 (Topic 820): Comprehensive Income. The new guidance amends disclosure requirements for the presentation of comprehensive income. The amended guidance eliminates the option to present components of other comprehensive income (“OCI”) as part of the statement of changes in shareholders'

equity. All changes in OCI will be presented either in a single continuous statement of comprehensive income or in two separate but consecutive financial statements. The guidance does not change the items that must be reported in OCI. This guidance is effective for fiscal years and interim reporting periods within those years beginning after December 15, 2011 with early adoption permitted. The adoption of this guidance will not impact the Company's consolidated financial position, results of operations or cash flows and will only impact the presentation of OCI in the consolidated financial statements.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company is a smaller reporting company as defined by Rule 12b-2 under the Exchange Act and is not required to provide the information required under this item.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

The financial statements and supplementary data required by this Item 8 are listed in Items 15 (1) and (2) of Part III of this Report (Exhibits, Financial Statement Schedules).

Table of Contents

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

ITEM 9A. CONTROLS AND PROCEDURES

Evaluation of Disclosure Control and Procedures

Based on an evaluation under the supervision and with the participation of the Company's management, the Company's principal executive officer and principal financial officer have concluded that the Company's disclosure controls and procedures as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act were effective as of December 31, 2011 to provide reasonable assurance that information required to be disclosed by the Company in reports that it files or submits under the Exchange Act is (i) recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission rules and forms and (ii) accumulated and communicated to the Company's management, including its principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

Management's Report on Internal Control over Financial Reporting

The Company's management is responsible for establishing and maintaining adequate internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act. Management conducted an evaluation of the effectiveness of the Company's internal control over financial reporting based on the criteria set forth in Internal Control – Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO"). Based on the Company's assessment, management has concluded that its internal control over financial reporting was effective as of December 31, 2011 to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements in accordance with U.S. generally accepted accounting principles.

This annual report does not include an attestation report of the Company's independent registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by the Company's independent registered public accounting firm pursuant to the rules of the Securities and Exchange Commission that permit the Company to provide only management's reporting in this annual report.

ITEM 9B. OTHER INFORMATION

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Shareholders of Asure Software, Inc.

We have audited the accompanying consolidated balance sheets of Asure Software, Inc. as of December 31, 2011 and 2010, and the related consolidated statements of operations, changes in stockholders' equity, and cash flows for each of the two years in the period ended December 31, 2011. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Company's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Asure Software, Inc. at December 31, 2011 and 2010, and the consolidated results of its operations and its cash flows for each of the two years in the period ended December 31, 2011, in conformity with U.S. generally accepted accounting principles.
