CHAIRMAN'S 2003 AGM STATEMENT

At the Annual General Meeting of Spirent plc (LSE: SPT; NYSE: SPM), a leading international network technology company, held today John Weston, Chairman, made the following statement:

"Spirent's trading performance in the first quarter of 2003 has been in line with expectations against a background of continuing tough conditions in the telecoms sector, with all our operating groups profitable and cash generative.

"As part of our ongoing control of costs we have implemented further cost reductions in the Communications group which are expected to deliver annualised savings of £5.0 million at an exceptional cost of £1.0 million in cash. In addition we have exited from our under-performing optical test activities at an exceptional cost of £3.0 million, of which £2.4 million is in cash. Optical test sales were £0.7 million in the year to 31 December 2002.

"Net debt at the end of April 2003 reduced to £103.0 million, compared with £161.8 million at 31 December 2002, following completion of the divestment of our interests in WAGO, our interconnection joint venture.

"Difficult trading conditions continue to be experienced by our Communications group with many of our key customers maintaining a short term outlook in respect of the timing of capital spending and we expect this to continue throughout 2003. We believe that the longer term outlook for our products and services remains positive with future opportunities being created by the continuing strong underlying growth in data traffic and the development of next-generation networks worldwide."
