2015 FULL YEAR RESULTS

CONSISTENT PROFITABLE GROWTH IN VOLATILE MARKETS

Full year highlights

- Turnover increased by 10% to €53.3 billion including a positive currency impact of 5.9%
- Underlying sales growth 4.1%, ahead of our markets, with volume up 2.1% and price up 1.9%
 - Emerging markets underlying sales growth 7.1% with volume up 2.7% and price up 4.3%
 - Core operating margin at 14.8% up 30bps
- Core operating profit up 12%, operating profit down 5.8% reflecting profits on disposals in 2014
- Free cash flow of €4.8 billion, up €1.7 billion including €0.8 billion of tax on disposal profits in 2014
- Core earnings per share up 14% at current exchange rates, up 11% at constant exchange rates

Paul Polman: Chief Executive Officer statement

“Despite a challenging year with slower global economic growth, intensifying geopolitical instability, and high currency and commodity volatility we have again grown ahead of our markets, driven by our innovations and increased support behind our brands. The 2015 results further demonstrate the progress we have made in transforming Unilever into a more resilient business, capable of consistently delivering competitive underlying sales growth, margin expansion and strong cash flow.

This consistency of performance shows that our focus to build Unilever for the long term is paying off. We are starting to see the results from sharpened category strategies that guide increased investment in our brands, our infrastructure and our people as well as extensions into attractive new markets like Prestige Personal Care.

We are preparing ourselves for tougher market conditions and high volatility in 2016, as world events in recent weeks have highlighted. Therefore it is vital that we drive agility and cost discipline across our business. We are further strengthening our innovation funnel while shortening innovation cycle times, stepping up our digital capabilities and rolling out a global zero based budgeting programme. Our priorities continue to be volume-driven growth ahead of our markets, steady improvement in core operating margin and strong cash flow.”

FULL YEAR OPERATIONAL REVIEW: CATEGORIES

(unaudited)	Fourth Quarter 2015				Full Year 2015				Change in core operating margin bps
	Turnover	USG	UVG	UPG	Turnover	USG	UVG	UPG	
	€bn	%	%	%	€bn	%	%	%	
Unilever Total	12.9	4.9	1.9	2.9	53.3	4.1	2.1	1.9	30
Personal Care	5.1	4.1	2.3	1.7	20.1	4.1	2.3	1.8	20
Foods	3.4	1.7	(0.3)	2.1	12.9	1.5	0.8	0.8	(40)
Home Care	2.5	8.0	4.8	3.1	10.2	5.9	4.0	1.9	130
Refreshment	1.9	8.8	1.5	7.2	10.1	5.4	1.5	3.9	60

Our markets: Consumer demand remained fragile and volume growth was barely positive in the markets in which we operate. Many emerging markets continued to be weak, particularly those dependent on oil and other commodity exports and those where currency devaluation is pushing up the cost of living for our consumers. Market growth in developed markets was negligible.

Unilever overall performance: In 2015 underlying sales growth improved to 4.1% driven by a step-up in volume growth. All categories delivered progress against their strategic priorities: Personal Care and Foods achieved improved growth while maintaining strong profitability and cash flow. Home Care and Refreshment improved margin and cash flow while continuing to grow competitively. Emerging markets grew by 7.1% with an increased contribution from volume. Developed markets were flat with good volume growth in Europe being offset by continued price deflation.

Gross margin improved by 80bps to 42.2% driven by margin-accretive innovation, pricing and continued delivery from our savings programmes, which more than offset currency-related cost increases in emerging markets. Brand and marketing investment was up 20bps. Overheads increased by 30bps as adverse currency translation impact and the lapping of gains in the prior year more than offset continued savings delivery. Core operating margin improved by 30bps to 14.8%. Core operating profit was up by €0.9 billion at €7.9 billion.

Personal Care

Growth in Personal Care, while still below historical run rates, improved from the slower growth of the previous year. This was driven by innovations that grow the core of our brands and extend into more premium segments. Deodorants benefited from the continued success of the dry spray launch in North America and the compressed formats launched into Latin America. In hair, growth was driven by the Dove Advanced Hair Series roll-out and the successful launch of Lux Luminique in Japan. The improved Dove body wash formulation, delivering superior care and better sensorial experience, performed well in skin and is now present in over 30 countries. In oral care we have extended the premium toothpaste Zendium to nine markets. We established our Prestige business with the acquisitions of Dermalogica, Murad, Kate Somerville and REN.

Core operating margin improved by 20bps driven by margin-accretive innovation. Core operating profit increased by €0.5 billion to €3.8 billion.

Foods

Savoury showed good volume-driven growth led by cooking products in emerging markets and by innovations around naturalness and health such as Knorr Mealmakers with 100% natural ingredients in Europe and fortified stock cubes which help address iron deficiency in Africa. In dressings, Hellmann's demonstrated good growth driven by a strong

performance in Latin America and by the success of new squeeze packs in Europe and North America. The Baking, Cooking & Spreads unit is repositioning the business to more attractive segments which helped us to gain market share in margarine, however sales in spreads continued to decline as we were not able to stem the sustained market contraction in developed countries.

Core operating margin was down 40bps due to increased costs including higher brand and marketing investment. Core operating profit was up by €0.1 billion at €2.4 billion.

Home Care

Home Care delivered another year of broad-based growth driven by innovations in higher margin segments, market development and the roll out of the new Omo with enhanced formulation and improved cleaning technology. Omo pre-treaters and stain removers have built further market share in Brazil. Fabric conditioners benefited from the success of Comfort intense with double-encapsulated fragrance technology that delivers long-lasting freshness. In household care we continued to scale up by rolling out improved formulations like Cif's improved 'Power and Shine' sprays for kitchens and bathrooms across Europe.

In line with our strategy, core operating margin increased by 130bps driven by improved mix, cost savings and simplification programmes. Core operating profit improved by €0.2 billion to €0.8 billion.

Refreshment

Ice cream delivered strong growth driven by margin-accretive innovations behind premium brands, such as Magnum Pink and Black variants, the Ben & Jerry's Cores range and new flavours of Breyer's Gelato. We continue to build our presence in premium gelato with the recently acquired Talenti which grew more than 40% and with Grom which we acquired in October. In leaf tea we reinvigorated the Lipton brand with an improved mix and new packaging but growth was below our markets. We extended Lipton and PG Tips further into fruit, herbal and speciality teas where we are still under-represented. We are building our presence in the premium segment by opening more T2 stores which we leverage with online sales and by launching machine-compatible tea capsules in Europe.

Core operating margin was up 60bps driven by improved mix and savings in ice cream. Core operating profit increased by €0.1 billion to €0.9 billion. In line with our strategy, the cash delivery of our ice cream business stepped up.

FULL YEAR OPERATIONAL REVIEW: GEOGRAPHICAL AREA

North America	2.2	(0.6)	(1.7)	1.1	8.8	0.1	(0.5)	0.6

Latin America	2.1	12.0	(2.5)	14.9	8.5	12.4	1.2	11.0
---------------	-----	------	-------	------	-----	------	-----	------

Asia/AMET/RUB

Growth was mixed across countries with varying contributions from volume and price. Turkey and the Philippines delivered broad-based double-digit growth. India demonstrated solid volume-driven growth with lower pricing as commodity costs eased. Volumes were down in Russia as high inflation put pressure on consumer demand but growth improved throughout the year. China recovered from the prior year trade de-stocking and Japan grew again, helped by a strong performance in hair.

Core operating margin was up 20bps with improved gross margins, partially offset by higher overheads that lapped prior year gains on property sales in India.

The Americas

Latin America delivered double-digit underlying sales growth driven by strong pricing to recover higher input costs but also modest volume growth despite challenging macro-economic conditions and with consumer incomes squeezed by higher cost of living. Our businesses demonstrated their resilience with stable volumes in Brazil and strong volume growth in Argentina, Mexico and Colombia. In North America, we grew slightly and gained share helped by good momentum behind dry spray deodorants and strong innovations in premium ice cream, which strengthened our competitive proposition in both categories, but spreads continued to decline.

Core operating margin was down 10bps due to increased brand and marketing investment.

Europe

Europe returned to growth in 2015 as good volume growth more than offset price deflation across our markets. Home Care and ice cream grew strongly ahead of our markets, but the contraction of the margarine market weighed on our Foods performance, particularly in the United Kingdom and Germany. France and Spain grew for another year while we restored growth in the Netherlands, Central and Eastern Europe and Italy.

Europe continued to be a strong contributor to Unilever's margin accretion. Core operating margin was up 90bps despite higher brand and marketing investment. This was driven by improved gross margins and lower overheads that benefited from project Half savings and pension plan changes in the Netherlands. **ADDITIONAL COMMENTARY ON THE FINANCIAL STATEMENTS – FULL YEAR**

ADDITIONAL COMMENTARY ON THE FINANCIAL STATEMENTS – FULL YEAR

Finance costs and tax

The cost of financing net borrowings in 2015 was €372 million versus €383 million in 2014. The average interest rate on net debt was lower at 3.0% versus 3.5% in 2014. Pensions financing was a charge of €121 million versus a charge of €94 million in the prior year.

The effective tax rate was 27.6%, lower than 28.2% in 2014 which was primarily impacted by business disposals. The effective tax rate on core earnings was 26.9%, up from 25.9% in 2014.

Joint ventures, associates and other income from non-current investments

Net profit from joint ventures and associates, together with other income from non-current investments, increased to €198 million versus €143 million in 2014. This reflects increased profit on disposal of associates and higher income from joint ventures.

Earnings per share

Core earnings per share increased by 14% to €1.82 for the full year, including a favourable currency impact of 3%. At constant exchange rates, core earnings per share increased by 11%, driven by underlying sales growth, improved core operating margin and the impact from purchasing the Estate shares left in trust by the first Viscount Leverhulme which was announced in May 2014. This measure excludes the impact of business disposals, acquisition and disposal related costs, impairments and other one-off items. Diluted earnings per share for the full year was down 4% to €1.72 primarily due to the €1.4 billion profit on business disposals in 2014.

Within non-core items we recorded charges totalling €136 million related to foreign exchange losses arising from remeasurements of our Venezuelan and Argentinian businesses. Our Venezuelan business has been measured at a rate of 208 bolivars per US dollar, being more reflective of the rate at which we expect to remit future dividends. Our Argentinian business has been measured at the closing rate of 13 pesos per US dollar following the relaxation of local currency controls. 2015 also included an €86 million charge for legal cases pertaining to a number of investigations by local competition regulators and €14 million relating to other one-off legal cases.

Pensions

The pension liability net of assets was reduced to €2.3 billion at the end of December 2015 versus €3.6 billion as at 31 December 2014. The decrease in the net pension liability primarily reflects the impact of higher discount rates, investment returns and the cash contributions we have made.

Free cash flow

Free cash flow delivery was particularly strong at €4.8 billion driven by the increase in core operating profit and an exceptional improvement in year-end working capital. Net capital expenditure at 3.9% of turnover was slightly lower than 2014.

Net debt

Closing net debt was €11.5 billion versus €9.9 billion as at 31 December 2014 primarily reflecting acquisitions and an adverse currency impact from the US dollar denominated debt.

Finance and liquidity

During the year the following bonds matured and were repaid: (i) Swiss francs 350 million 3.50%, (ii) US \$450 million 0.45%, and (iii) €750 million 3.375%.

On 27 January 2015 we issued €750 million 0.5% fixed rate notes due February 2022. On 28 May 2015 we issued €750 million floating rate notes due June 2018 and €500 million 1.0% fixed rate notes due June 2023. On 29 July 2015 we issued US \$500 million 2.1% fixed rate notes due 30 July 2020 and US \$ 500 million 3.1% fixed rate notes due 30 July 2025.

COMPETITION INVESTIGATIONS

As previously disclosed, along with other consumer products companies and retail customers, Unilever is involved in a number of ongoing investigations by national competition authorities. These proceedings and investigations are at various stages and concern a variety of product markets. In the second half of 2015 Unilever recognised an expense of €86 million (2014: €30 million) related to these cases, disclosed within non-core items.

Ongoing compliance with competition laws is of key importance to Unilever. It is Unilever's policy to co-operate fully with competition authorities whenever questions or issues arise. In addition, the Group continues to reinforce and enhance its internal competition law compliance programme on an ongoing basis

NON-GAAP MEASURES

In our financial reporting we use certain measures that are not recognised under IFRS or other generally accepted accounting principles (GAAP). We do this because we believe that these measures are useful to investors and other users of our financial statements in helping them to understand underlying business performance. Wherever we use such measures, we make clear that these are not intended as a substitute for recognised GAAP measures. Wherever appropriate and practical, we provide reconciliations to relevant GAAP measures. Unilever uses ‘constant rate’ ‘underlying’ and ‘core’ measures primarily for internal performance analysis and targeting purposes. The non-GAAP measures which we apply in our reporting are set out below.

Underlying sales growth (USG)

Underlying Sales Growth or “USG” refers to the increase in turnover for the period, excluding any change in turnover resulting from acquisitions, disposals and changes in currency. The impact of acquisitions and disposals is excluded from USG for a period of 12 calendar months from the applicable closing date. Turnover from acquired brands that are launched in countries where they were not previously sold is included in USG as such turnover is more attributable to our existing sales and distribution network than the acquisition itself. The reconciliation of USG to changes in the GAAP measure turnover is provided in notes 3 and 4.

Underlying volume growth (UVG)

“Underlying Volume Growth” or “UVG” is part of USG and means, for the applicable period, the increase in turnover in such period calculated as the sum of (1) the increase in turnover attributable to the volume of products sold; and (2) the increase in turnover attributable to the composition of products sold during such period. UVG therefore excludes any impact to USG due to changes in prices. The relationship between the two measures is set out in notes 3 and 4.

Free cash flow (FCF)

Within the Unilever Group, free cash flow (FCF) is defined as cash flow from operating activities, less income taxes paid, net capital expenditures and net interest payments and preference dividends paid. It does not represent residual cash flows entirely available for discretionary purposes; for example, the repayment of principal amounts borrowed is not deducted from FCF. Free cash flow reflects an additional way of viewing our liquidity that we believe is useful to investors because it represents cash flows that could be used for distribution of dividends, repayment of debt or to fund our strategic initiatives, including acquisitions, if any.

The reconciliation of FCF to net profit is as follows:

€ million (unaudited)	2015	Full Year 2014
Net profit		5,259,515
Taxation		1,961,213
Share of net profit of joint ventures/associates and other income		
from non-current investments		(198) (143)
Net finance costs		493 477
Operating profit	7,515	7,980
Depreciation, amortisation and impairment		1,370 1,432

Changes in working capital	720	8	
Pensions and similar obligations less payments	(385)	(364)	
Provisions less payments	(94)	32	
Elimination of (profits)/losses on disposals	26	(1,460)	
Non-cash charge for share-based compensation	150	188	
Other adjustments	49	38	
Cash flow from operating activities	9,351		7,854
Income tax paid	(2,021)	(2,311)	
Net capital expenditure	(2,074)	(2,045)	
Net interest and preference dividends paid	(460)	(398)	
Free cash flow	4,796		3,100
Net cash flow (used in)/from investing activities	(3,539)	(341)	
Net cash flow (used in)/from financing activities	(3,032)	(5,190)	

Core operating profit (COP), core operating margin (COM) and non-core items

COP and COM means operating profit and operating margin, respectively, before the impact of business disposals, acquisition and disposal related costs, impairments and other one-off items, which we collectively term non-core items, due to their nature and frequency of occurrence. The reconciliation of core operating profit to operating profit is as follows:

€ million (unaudited)	2015	Full Year 2014	
Operating profit	7,515	7,980	
Non-core items (see note 2)	350	(960)	
Core operating profit	7,865	7,020	
Turnover	53,272	48,436	
Operating margin (%)	14.1		16.5
Core operating margin (%)	14.8		14.5
Core EPS			

The Group also refers to core earnings per share (core EPS). In calculating core earnings, net profit attributable to shareholders' equity is adjusted to eliminate the post tax impact of non-core items. Refer to note 2 on page 12 for reconciliation of core earnings to net profit attributable to shareholders' equity.

Net debt

Net debt is defined as the excess of total financial liabilities, excluding trade payables and other current liabilities, over cash, cash equivalents and other current financial assets, excluding trade and other current receivables. It is a measure that provides valuable additional information on the summary presentation of the Group's net financial liabilities and is a measure in common use elsewhere.

The reconciliation of net debt to the GAAP measure total financial liabilities is as follows:

€ million (unaudited)	As at 31 December 2015	As at 31 December 2014
Total financial liabilities	(14,643)	(12,722)
Current financial liabilities	(4,789)	(5,536)
Non-current financial liabilities	(9,854)	(7,186)
Cash and cash equivalents as per balance sheet	2,302	2,151
Cash and cash equivalents as per cash flow statement	2,128	1,910
Add bank overdrafts deducted therein	174,241	
Other current financial assets	836	671
Net debt	(11,505)	(9,900)

CAUTIONARY STATEMENT

This announcement may contain forward-looking statements, including 'forward-looking statements' within the meaning of the United States Private Securities Litigation Reform Act of 1995. Words such as 'will', 'aim', 'expects', 'anticipates', 'intends', 'looks', 'believes', 'vision', or the negative of these terms and other similar expressions of future performance or results, and their negatives, are intended to identify such forward-looking statements. These forward-looking statements are based upon current expectations and assumptions regarding anticipated developments and other factors affecting the Unilever group (the "Group"). They are not historical facts, nor are they guarantees of future performance.

Because these forward-looking statements involve risks and uncertainties, there are important factors that could cause actual results to differ materially from those expressed or implied by these forward-looking statements. Among other risks and uncertainties, the material or principal factors which could cause actual results to differ materially are: Unilever's global brands not meeting consumer preferences; Unilever's ability to innovate and remain competitive; Unilever's investment choices in its portfolio management; inability to find sustainable solutions to support long-term growth; customer relationships; the recruitment and retention of talented employees; disruptions in our supply chain; the cost of raw materials and commodities; the production of safe and high quality products; secure and reliable IT infrastructure; successful execution of acquisitions, divestitures and business transformation projects; economic and political risks and natural disasters; financial risks; failure to meet high ethical standards; and managing regulatory, tax and legal matters. Further details of potential risks and uncertainties affecting the Group are described in the

Group's filings with the London Stock Exchange, Euronext Amsterdam and the US Securities and Exchange Commission, including in the Group's Annual Report on Form 20-F for the year ended 31 December 2014 and the Annual Report and Accounts 2014. These forward-looking statements speak only as of the date of this announcement. Except as required by any applicable law or regulation, the Group expressly disclaims any obligation or undertaking to release publicly any updates or revisions to any forward-looking statements contained herein to reflect any change in the Group's expectations with regard thereto or any change in events, conditions or circumstances on which any such statement is based.

Cash and cash equivalents at the end of the period	2,128	1,910

NOTES TO THE FINANCIAL STATEMENTS

(unaudited)

1 ACCOUNTING INFORMATION AND POLICIES

Except as set out below the accounting policies and methods of computation are consistent with the year ended 31 December 2014. The condensed preliminary financial statements are based on International Financial Reporting Standards (IFRS) as adopted by the EU and IFRS as issued by the International Accounting Standards Board.

With effect from 1 January 2015 we have implemented amendments to IAS 19 'Employee Benefits'. The impact on the Group is not material.

The condensed financial statements are shown at current exchange rates, while percentage year-on-year changes are shown at both current and constant exchange rates to facilitate comparison. The income statement on page 8, the statement of comprehensive income on page 8, the statement of changes in equity on page 9 and the cash flow statement on page 11 are translated at exchange rates current in each period. The balance sheet on page 10 is translated at period-end rates of exchange.

The condensed financial statements attached do not constitute the full financial statements within the meaning of Section 434 of the UK Companies Act 2006, which will be finalised and delivered to the Registrar of Companies in due course. Full accounts for Unilever for the year ended 31 December 2014 have been delivered to the Registrar of Companies; the auditors' reports on these accounts were unqualified and did not contain a statement under Section 498 (2) or Section 498 (3) of the UK Companies Act 2006.

2 SIGNIFICANT ITEMS WITHIN THE INCOME STATEMENT

In our income statement reporting, we disclose the total value of non-core items that arise within operating profit. These are costs and revenues relating to business disposals, acquisition and disposal related costs, impairments and other one-off items, which we collectively term non-core items, due to their nature and frequency of occurrence.
million

	Full Year	
	2015	2014
Acquisition and disposal related costs	(105)	(97)
Gain/(loss) on disposal of group companies(a)	(9)	1,392
Impairments and other one-off items(b)	(236)	(335)

Non-core items before tax	(350)	960
Tax impact of non-core items	49	(423)
Non-core items after tax	(301)	537

Attributable to:

Non-controlling interests	-	-
Shareholders' equity	301	537

(a) 2014 includes gain of €1,316 million from the disposal of the Ragu and Bertolli brands and related assets.

(b) 2015 includes foreign exchange losses resulting from remeasurement of the Venezuelan and Argentinian businesses amounting to €136 million. Also included in 2015 is €86 million charge for legal cases pertaining to a number of investigations by local competition regulators (2014: €30 million) and €14 million relating to other one-off legal cases (2014: nil). 2014 includes impairment charge of €305 million recognised on assets related to the Slim.Fast business.

The following table shows the impact of non-core items on profit attributable to shareholders.

€ million	2015	Full Year 2014	
Net profit attributable to shareholders' equity	4,909		5,171
Post tax impact of non-core items	301		(537)
Core profit attributable to shareholders' equity	5,210		4,634

2014	18.7	18.6	6.3	8.8	14.5
2015	18.9	18.2	7.6	9.4	14.8

Turnover growth is made up of distinct individual growth components namely underlying sales, currency impact, acquisitions and disposals. Turnover growth is arrived at by multiplying these individual components on a compounded basis as there is a currency impact on each of the other components. Accordingly, turnover growth is more than just the sum of the individual components.

Core operating profit represents our measure of segment profit or loss as it is the primary measure used for the purpose of making decisions about allocating resources and assessing performance of segments. Core operating margin is calculated as core operating profit divided by turnover.

5 TAXATION

The effective tax rate for the year was 27.6% compared to 28.2% in 2014. The tax rate is calculated by dividing the tax charge by pre-tax profit excluding the contribution of joint ventures and associates.

Tax effects of components of other comprehensive income were as follows:
