Fulton Financial Affiliates

401(k) Savings Plan and Trust

Lancaster, Pennsylvania

We have audited the accompanying statements of net assets available for plan benefits of Fulton Financial Affiliates 401(k) Savings Plan and Trust as of December 31, 2002 and 2001 and the related statements of changes in net assets available for plan benefits for the years then ended. These financial statements are the responsibility of the plan s management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for plan benefits of Fulton Financial Affiliates 401(k) Savings Plan and Trust as of December 31, 2002 and 2001 and the changes in its net assets available for plan benefits for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of Assets Held for Investment Purposes is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan s management. The supplemental schedule has been subjected to the auditing procedures applied in the audit of the basic financial statements for the year ended December 31, 2002 and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

NOTES TO FINANCIAL STATEMENTS

Note 1. Plan Description

The following description of the Fulton Financial Affiliates 401(k) Savings Plan and Trust (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

- A. General** The Plan is a defined contribution plan which covers eligible employees of merged bank subsidiaries that participate in the company's Defined Benefit Plan. The Plan is essentially closed to new participants with new employees entering the company's Profit Sharing Plan upon meeting the conditions of eligibility. The Plan was established in 1991 and provides for retirement, death and disability benefits. It is subject to the Employee Retirement Income Security Act of 1974 (ERISA), as amended.
- B. Contributions** Eligible employees may elect to make contributions up to a maximum dollar amount prescribed by law, with the Employer contributing, at its discretion, a percentage of the employee's salary deferral contribution, to be determined each year (the Employer match). A 3% match was contributed in 2002 and 2001.
- C. Participant Accounts** Each participant's account is credited with the participant's contribution, the Employer Match and an allocation of plan earnings. Allocations are based on participant account balances, as defined. Forfeitures, if any, shall be used to reduce the Employer matching contribution. In 2002 and 2001, \$17,081 and \$0, respectively, were used to reduce the employer matching contribution.
- D. Vesting** Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the remainder of the accounts is based on years of service. Generally, participants become 100 percent vested after the completion of three years of credited service, reaching normal retirement age, or upon death or disability.
- E. Payment of Benefits** Upon termination of service due to death, disability, or retirement at normal retirement age, as defined by the Plan, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account. The Plan also permits early retirement at age 60 through 64, with 5 or more years of service. Benefit payments are distributed in one of the following forms: a joint and survivor annuity, a lump-sum payment or payments over a period designated by the participant in cash installments.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The accounting records of the Plan are maintained on an accrual basis. Interest and dividend income is recognized when earned, and benefits are recognized when paid.

Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of net assets and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of contributions, earnings, expenses and benefit payments during the reporting period. Actual results could differ from those estimates.

Income Valuation

Investments are stated at aggregate market value. Securities which are traded on a national securities exchange are valued at the last reported sales price on the last business day of the year. The Plan's investments in mutual funds and common trust funds are valued at the aggregate of the quoted market prices of the underlying securities.

Purchases and sales of securities are reflected on a trade-date basis. The unrealized difference in market value from one year to the next and realized gains and losses are recognized as net appreciation (depreciation) in fair value of investments in the accompanying statements of changes in net assets available for benefits.
