PART I

ITEM 1. BUSINESS

General

PartnerRe Ltd. (the Company or PartnerRe), incorporated in Bermuda on August 24, 1993, is a leading international reinsurance group. The Company provides reinsurance on a worldwide basis through its wholly owned subsidiaries, Partner Reinsurance Company Ltd. (Partner Reinsurance Company), PartnerRe SA and Partner Reinsurance Company of the U.S. (PartnerRe U.S.). Risks reinsured include, but are not limited to, property, casualty, motor, agriculture, aviation/space, catastrophe, credit/surety, engineering/energy, marine, special risk and life/annuity and health.

The Company was initially formed to capitalize on a void of capacity in the catastrophe reinsurance market following the significant devastation wrought by Hurricane Andrew in 1992 and the concurrent difficulties being faced by Lloyds of London. After raising nearly \$1 billion with its initial public offering, the Company became one of the premier catastrophe reinsurers on a global basis with acknowledged underwriting skills and disciplined risk management principles.

In 1997, recognizing the limits of a continued mono-line strategy, the Company shifted its strategic focus to execute a plan to become a leading multi-line reinsurer. Through both organic growth and strategic acquisitions, the Company moved aggressively to capitalize on the benefits of diversification both in terms of geography and business lines. On July 10, 1997, the Company completed the acquisition of PartnerRe SA, a well-established global professional reinsurer based in Paris, and on December 23, 1998, the Company completed the acquisition of Winterthur Re, further enhancing the Company's expansion strategy. On August 4, 2000, the Company concluded the sale of PartnerRe Life Insurance Company of the U.S., and its subsidiaries Republic-Vanguard Life Insurance Company, Investors Insurance Corporation and Investors Marketing Group, Inc. (collectively, PartnerRe Life U.S.), to SCOR Group.

Business Strategy

The Company's business strategy is focused on ensuring that the Company reaches its goals for appropriate profitability. Operating Return on Equity is the metric used to measure the Company's financial results, and consequently the Company has set a goal of 13% Operating Return on Equity over a reinsurance cycle. The Company has adopted the following five-point strategy:

Diversify risk across products and geographies: PartnerRe writes most lines of business in over 120 countries worldwide. The Company's geographic spread of premiums mirrors that of the global reinsurance industry. Management believes diversification is a competitive advantage, which increases return per unit of risk, provides access to reinsurance business opportunities worldwide, and reduces the overall volatility of results. The reinsurance business is cyclical, but cycles by line of business and by geography are not synchronized. Its diversification strategy positions the Company to take advantage of attractive markets anywhere in the world.

Maintain risk appetite moderately above the market: PartnerRe is in the business of assuming risk for an adequate return. The Company's products address accumulation risks, complex coverage issues and large exposures faced by clients. The Company's willingness and ability to

Edgar Filing: PARTNERRE LTD - Form 10-K

provide these coverages make PartnerRe an important reinsurer to many of the world's insurance companies. The Company's book of business is skewed toward those lines of business and market segments where it perceives greatest potential for profit. This means a high proportion of the business written by the Company is in severity lines of business such as casualty, catastrophe, specialized property and aviation, although the Company writes frequency lines of business such as motor, workers' compensation and employers' liability, which have historically provided modestly lower levels of returns.

Actively manage capital across the portfolio and over the cycle: In order to manage capital across a portfolio and over a cycle, the Company believes two things are critical: an appropriate and common measure of risk adjusted performance and the ability and willingness to redeploy capital for its most efficient and effective use, either within the business or to return to the shareholders. To achieve effective and efficient capital allocation, the Company has an intense focus on operating return on equity. This discipline and focus, supported by strong actuarial and financial analysis, allows the Company to make well-informed decisions at the underwriting and pricing level as well as with respect to the allocation of capital within its portfolio of reinsurance businesses.

Table of Contents

Add value through underwriting/transactional excellence: Transactional and underwriting excellence are achieved in three principle ways: through the quality of the Company's people, the structure they operate in, and the effectiveness of various processes and tools. Maintaining continuity and depth in the Company's management, underwriting, actuarial and financial areas is critical to this strategy. Equally as important, the Company believes, is organizing its operations around geography, lines of business, distribution or client characteristics and providing and building the right infrastructure to improve its capabilities continually in all transactional areas: underwriting, financial reporting and controls, reserving, pricing and claims.

Utilize internal financial capabilities to achieve superior return: Strong underwriting must be complemented with conservative financial management, careful reserving and superior asset management in order to achieve the Company's targeted returns. The Company is committed to maintaining a strong and transparent balance sheet and achieving superior returns by focusing on three critical financial areas: investments, reserves and capital management.

Reinsurance Operations

General

The Company provides specialized service and risk management solutions for its clients in over 120 countries around the world. Offices are located in Bermuda, Greenwich (Connecticut), Hong Kong, Mexico City, Paris, Santiago, Seoul, Singapore, Tokyo, Toronto and Zurich. The Company's reinsurance operations are carried out through three main subsidiaries, Partner Reinsurance Company in Bermuda (which also operates branches in Switzerland, Singapore, Hong Kong and Labuan), PartnerRe SA in Paris (which also operates a branch in Canada), and PartnerRe U.S. in Greenwich, Connecticut. Through these subsidiaries, the Company provides reinsurance of non-life (or property-casualty) and life risks of ceding companies (or primary insurers) through treaties or on a facultative basis, on either a proportional or non-proportional basis.

In a proportional reinsurance arrangement (also known as pro rata reinsurance, quota share reinsurance or participating reinsurance), the reinsurer shares a proportional part of the original premiums and losses of the reinsured. The reinsurer pays the ceding company a commission which is generally based on the ceding company's cost of acquiring the business being reinsured (including commissions, premium taxes, assessments and miscellaneous administrative expenses) and may also include a profit. In return, the reinsurer assumes a proportional share of the losses incurred by the cedant.

Non-proportional (or excess of loss) reinsurance indemnifies the reinsured against all or a specified portion of losses on underlying insurance policies in excess of a specified amount, which is called a level or retention. Non-proportional business is written in layers and a reinsurer or group of reinsurers accepts a band of coverage up to a specified amount. The total coverage purchased by the cedant is referred to as a program and is typically placed with predetermined reinsurers in pre-negotiated layers. Any liability exceeding the upper limit of the program reverts to the ceding company.

Facultative reinsurance (proportional or non-proportional) is the reinsurance of individual risks. The reinsurer separately rates and underwrites each risk rather than assuming all or a portion of a class of risks as in the case of treaty reinsurance.

The Company's global multi-line reinsurance business is written across several different lines. The Company monitors the performance of its underwriting operations in two segments: Non-life and Life. The Non-life segment is further broken down into three sub-segments: U.S.

Edgar Filing: PARTNERRE LTD - Form 10-K

Property and Casualty, Global (Non-U.S.) Property and Casualty and Worldwide Specialty. The Life segment includes life, health and annuity lines of business.

The U.S. and Global (Non-U.S.) Property and Casualty sub-segments include property and casualty business as well as motor business. These lines are generally written in local markets. The U.S. Property and Casualty sub-segment is comprised of property, casualty and motor risks generally originating in the United States, written by PartnerRe U.S. The Global (Non-U.S.) Property and Casualty sub-segment is comprised of property, casualty and motor business generally originating outside of the United States, written by Partner Reinsurance Company and PartnerRe SA. The Worldwide Specialty sub-segment is comprised of business that is generally considered to be specialized due to the sophisticated technical underwriting required to analyze risks, and is global in nature, inasmuch as appropriate risk management for these lines requires a globally diversified portfolio of risks.

Table of Contents

Following is a description of specific lines of business written by the Company:

Property Property business provides reinsurance coverage to insurers for property damage or business interruption losses resulting from fires, catastrophes and other perils covered in industrial and commercial property and homeowners policies and is written predominantly on a treaty proportional basis. Property reinsurance contracts are generally all risk in nature. The Company's most significant exposure is typically to losses from windstorm and earthquake, although the Company is exposed to losses from sources as diverse as freezes, riots, floods, industrial explosions, fires, hail and a number of other loss events. The Company's predominant exposure under these property coverages is to property damage. However, other risks, including business interruption and other non-property losses, may also be covered under a property reinsurance contract when arising from a covered peril. In accordance with market practice, the Company's property reinsurance treaties generally exclude certain risks such as war, nuclear, biological and chemical contamination, radiation and environmental pollution.

Casualty The Company's casualty business includes third party liability, employers liability, workers compensation and personal accident coverages written on both a proportional and non-proportional basis.

Motor The Company's motor business includes reinsurance coverages for third party liability and property damage risks arising from both passenger and commercial fleet automobile coverages written by cedants. This business is written predominantly on a proportional basis.

Agriculture The Company reinsures, on a proportional and non-proportional basis, risks such as flood, drought, hail and disease related to crops, livestock and aquaculture.

Aviation/Space The Company provides specialized reinsurance protection in airline, general aviation and space insurance business. Its space business relates to coverages for satellite assembly, launch and operation for commercial space programs.

Catastrophe The Company provides property catastrophe reinsurance protection, written primarily on a non-proportional basis, against the accumulation of losses caused by windstorm, earthquake, flood or by any other natural hazard that is covered under a comprehensive property policy. Through the use of underwriting tools based on proprietary computer models developed by the PartnerResearch team, the Company combines natural science with highly professional underwriting skills, in order to offer capacity at a price commensurate with the risk.

Credit/Surety Credit reinsurance, written primarily on a proportional basis, provides coverage to commercial credit insurers and the surety line relates primarily to bonds and other forms of security written by specialized surety insurers.

Engineering/Energy The Company provides reinsurance for engineering projects throughout the world on a proportional and non-proportional basis through treaty and facultative arrangements and provides coverage for the on-shore oil and gas industry, mining, power generation and pharmaceutical operations.

Marine The Company provides reinsurance protection and technical services relating to marine hull, cargo, transit and offshore oil and gas operations and is written mainly on a proportional basis.

Special Risk The Company provides specialized reinsurance protection for large casualty and property risks on a facultative basis. The Special Risks unit is comprised of a team of highly specialized and experienced underwriters who have the capability to understand, anticipate and provide cover for clients' future risks, as well as large specialty risks such as heavy industrial property risks and nuclear and terror exposures. In addition to its technical expertise, the Company has the capacity required and the ability to create the appropriate risk management solutions to meet the special needs of its clients.

Life, Annuity and Health Life treaties provide reinsurance coverage with respect to individual and group life and health risks to primary life insurers and pension funds. Annuity treaties provide reinsurance coverage to insurers who issue annuity contracts offering long-term retirement benefits to consumers who seek protection against outliving their financial resources. This business is written on both a proportional and non-proportional basis, primarily through treaty arrangements.

The Company's business is produced both through brokers and through direct relationships with insurance companies. In North America most business is written through brokers while in the rest of the world most business is written on a direct basis.

During the year ended December 31, 2003, the Company had one broker relationship which accounted for 10% or more of its gross premiums written. Aon Group accounted for approximately \$610 million, or 17% of total gross premiums written, which

Table of Contents

represented 20% of the gross premiums written in the U.S. Property and Casualty sub-segment, 18% of the gross premiums written in the Global (Non-U.S.) Property and Casualty sub-segment, 12% of the gross premiums written in the Worldwide Specialty sub-segment and 27% of the gross premiums written in the Life segment, respectively.

The Company's business is geographically diversified with premiums being written in over 120 countries. See Note 18 to the Consolidated Financial Statements in the 2003 Annual Report for additional disclosure of the geographic distribution of gross premiums and financial information about segments.

Underwriting, Risk Management and Retrocession

Underwriting

The Company's underwriting is conducted through specialized underwriting teams with the support of technical staff in disciplines such as actuarial, claims, legal, risk management and finance.

The Company's underwriters generally speak the local language and/or are native to their country or area of specialization. They have developed close working relationships with their ceding company counterparts through regular visits, gathering detailed information about the cedant's business and about local market conditions and practices. As part of the underwriting process, the Company also focuses on the reputation and quality of the proposed cedant, the likelihood of establishing a long-term relationship with the cedant, the geographic area in which the cedant does business and the cedant's market share, historical loss data for the cedant and, where available, historical loss data for the industry as a whole in the relevant regions, in order to compare the cedant's historical loss experience to industry averages, and to gauge the perceived financial strength of the cedant. The Company trains its underwriters extensively and strives to maintain continuity of underwriters within specific geographic markets and areas of specialty.

Underwriting Risk and Exposure Controls

Because the Company underwrites volatile lines of business such as catastrophe reinsurance, the operating results and financial condition of the Company can be adversely affected by catastrophes and other large losses that may give rise to claims under reinsurance coverages provided by the Company. The Company manages its exposure to catastrophic and other large losses by (i) attempting to limit its aggregate exposure on catastrophe reinsurance in any particular geographic zone, (ii) selective underwriting practices, (iii) diversification by geographic area and by types and classes of business, and (iv) to a certain extent by purchasing retrocessional reinsurance.

The Company generally underwrites risks with specified limits per treaty program. Like other reinsurance companies, the Company is exposed to multiple insured losses arising out of a single occurrence, whether a natural event such as windstorm, flood or earthquake, or another catastrophe. Any such catastrophic event could generate insured losses in one or many of the Company's reinsurance treaties and facultative contracts in one or more lines of business. The Company considers such event scenarios as part of its evaluation and monitoring of its aggregate exposures to catastrophic events including the property-catastrophe business. The Company reinsures a portion of the risks it underwrites in an effort to control its exposure to losses and to mitigate the effect of any single major event or the frequency of medium-sized claims. See Retrocessions .

Retrocessions

The Company uses retrocessional agreements to reduce its exposure on certain property and casualty reinsurance risks assumed. These agreements provide for recovery of a portion of losses and loss adjustment expenses from retrocessionaires. The Company also utilizes retrocessions in the life reinsurance area to manage the amount of per-event and per-life risks to which it is exposed.

The Company remains liable to the extent the retrocessionaires do not meet their obligations under retrocessional agreements, and therefore retrocessions are subject to credit risk in all cases and to aggregate loss limits in certain cases. Reinsurance losses recoverable (from retrocessionaires) are reported after allowances for uncollectible amounts. The Company holds collateral, including escrow funds, securities and letters of credit, as retrocedant under certain retrocessional agreements. Retrocessionaires are selected based on their financial condition and business practices, with stability, solvency and credit agency ratings being important criteria. Provisions are made for amounts considered potentially uncollectible. At December 31, 2003, the Company had \$188.7 million of reinsurance recoverable under such arrangements and had established an allowance for uncollectible reinsurance balances receivable and recoverable of \$16.8 million, which represented less than 2% of the balances.

Table of Contents

Claims

In addition to managing and settling reported claims and consulting with ceding companies on claims matters, the Company conducts periodic audits of specific claims and the overall claims procedures at the offices of ceding companies. The Company attempts to evaluate the ceding company's adjusting techniques and reserve adequacy and whether it follows proper claims processing procedures. The Company also provides recommendations regarding procedures and processing to the ceding company.

Within the claims department, there is a special unit which provides central supervision and management of certain long-tail liability claims, including those related to environmental and similar exposures. See *Reserves - Asbestos, Environmental and Other Exposures*.

Reserves

General

Loss reserves represent estimates of amounts an insurer or reinsurer ultimately expects to pay in the future on claims incurred at a given time based on facts and circumstances known at the time the loss reserves are established. It is possible that the total future payments may exceed or be less than such estimates. The estimates are not precise in that, among other things, they are based on predictions of future developments and estimates of future trends in claim severity, frequency and other variable factors such as inflation. During the loss settlement period, it often becomes necessary to refine and adjust the estimates of liability on a claim either upward or downward. Despite such adjustments, the ultimate future liability may exceed or be less than the revised estimates.

Significant periods of time may elapse between the occurrence of an insured loss, the reporting of the loss to the ceding company and the reinsurer and the ceding company's payment of that loss and subsequent payments to the ceding company by the reinsurer.

As part of the reserving process, insurers and reinsurers review historical data and anticipate the impact of various factors such as legislative enactments and judicial decisions that may affect potential losses from casualty claims, changes in social and political attitudes that may increase exposure to losses, mortality and morbidity trends and trends in general economic conditions. This process assumes that past experience, adjusted for the effects of current developments, is an appropriate basis for anticipating future events.

The liability for unpaid losses and loss expenses for Non-life business includes amounts determined from loss reports on individual cases and amounts for losses incurred but not reported. Such reserves are estimated by Management based upon reports received from ceding companies, supplemented by the Company's own actuarial estimates of reserves for which ceding company reports have not been received, and based on the Company's own historical experience. To the extent that the Company's own historical experience is inadequate for estimating reserves, such estimates may be actuarially determined based upon industry experience and Management's judgment. The estimates are continually reviewed and the ultimate liability may be in excess of, or less than, the amounts provided, for which any adjustments will be reflected in the periods in which they become known.

Edgar Filing: PARTNERRE LTD - Form 10-K

Liabilities for policy benefits for ordinary life and accident and health policies have been established based upon information reported by ceding companies supplemented by the Company's best actuarial estimates of mortality, morbidity, persistency and investment income, with appropriate provision for adverse deviation. Future policy benefit reserves for annuity and universal life products are carried at their accumulated values. Liabilities for policy claims and benefits include both mortality and morbidity claims in the process of settlement and claims that have been incurred but not yet reported. Interest rate assumptions used to estimate liabilities for policy benefits for life and annuity contracts range from 2.0% to 6.5%. Actual experience for a particular period may vary from assumed experience and, consequently, may affect the Company's operating results in future periods.

Note 5 to the Consolidated Financial Statements in the 2003 Annual Report provides a reconciliation of beginning and end of year balances of unpaid losses and loss expenses for the Non-life business for the years ended December 31, 2003, 2002 and 2001.

Changes in Reserves

The following table shows the development of net reserves for unpaid losses and loss expenses (Non-life business only). The table begins by showing the initial year-end net reserves (for years prior to 1997 the Company's gross and net reserves were

Table of Contents

equal as no retrocessional protection was purchased). The next portion of the table shows the re-estimated amount of the previously recorded reserves for each year based on experience as of the end of each succeeding year. The re-estimated liabilities reflect additional information regarding claims incurred prior to the end of the preceding financial year. A redundancy (or deficiency) arises when the re-estimation of reserves recorded at the end of each prior year is less (or greater) than its estimation at the preceding year-end. The redundancies (or deficiencies) reflect cumulative differences between the original estimate and the currently re-estimated liabilities. Annual changes in the estimates are reflected in the income statement for each year as the liabilities are revalued. Reserves denominated in foreign currencies are restated at each year-end s foreign exchange rates; and the resulting cumulative foreign exchange effect is shown as an adjustment to the cumulative redundancy (deficiency).

The next section of the table shows the cumulative amounts paid as of each successive year-end with respect to net reserves.

Net liability re-estimated as of December 31, 2003	\$ 26,127	\$ 40,840	\$ 16,237	\$ 883,067	\$ 2,044,481	\$ 2,448,562	\$ 2,489,601	\$ 3,310,898	\$ 3,806,231

- (1) Liability for unpaid losses and loss expenses includes, for the first time, PartnerRe SA, which the Company acquired in July 1997.
(2) Liability for unpaid losses and loss expenses includes, for the first time, Winterthur Re, which the Company acquired in December 1998.

Table of Contents

The following table summarizes the net incurred losses relating the current and prior accident years by sub-segment for the Company's Non-life operating segment (in millions of U.S. dollars)

	U.S. Property and Casualty	Global (Non-U.S.) Property and Casualty	Worldwide Specialty	Total Non-Life
Net incurred losses related to:				
Current year	\$ 556.7	\$ 636.3	\$ 850.2	\$ 2,043.2
Prior years	87.6	(10.6)	(21.5)	55.5
Total net incurred losses	\$ 644.3	\$ 625.7	\$ 828.7	\$ 2,098.7

Asbestos, Environmental and Other Exposures

The Company's reserve for unpaid losses and loss expenses as of December 31, 2003 includes \$111.0 million that represents an estimate of its net ultimate liability for asbestos and environmental claims (the gross liability for such claims was \$121.7 million). Most of the net amount relates to U.S. casualty exposures arising from business written prior to January 1, 1992 by certain companies which were at the time part of the AGF Group and are currently part of PartnerRe SA. PartnerRe SA ceased writing industrial casualty business covering risks in the United States in 1986. Ultimate values for such claims cannot be estimated using traditional reserving techniques and there are significant uncertainties in estimating the amount of the Company's potential losses for these claims. In view of the changes in the legal and tort environment that affect the development of such claims, the uncertainties inherent in valuing asbestos and environmental claims are not likely to be resolved in the near future.

The Company actively evaluates potential exposure to asbestos and environmental claims and establishes additional reserves as appropriate. The Company believes that it has made a reasonable provision for these exposures and is unaware of any specific issues which would materially affect its loss and loss expense estimates.

Management believes the Company may be exposed to Acquired Immune Deficiency Syndrome (AIDS) claims in its life portfolio. Due to strict medical confidentiality laws, the exposure of the Company to AIDS losses cannot be readily determined. However, retrocessional protection mitigates the Company's exposure to losses on life reinsurance. See Retrocessions .

There can be no assurance that the reserves established by the Company will not be adversely affected by development of other latent exposures, and further, there can be no assurance that the reserves established by the Company will be adequate.

Investments

The Company has developed specific investment objectives and guidelines for the management of its investment portfolio. These objectives and guidelines stress diversification of risk, capital preservation, market liquidity and stability of portfolio income. Beyond these fundamental

Edgar Filing: PARTNERRE LTD - Form 10-K

objectives the Company also seeks to maximize the risk adjusted return on the portfolio subject to the limitation of accepting only prudent risk. Despite the conservative focus of these objectives and guidelines, Company investments are subject to general market risk, as well as to risks inherent to particular securities. During 2002, the Company brought a significant portion of its investment portfolio, including its fixed income portfolio, under in-house management. Management of the Company's equity portfolios currently remains outsourced to external managers who execute that portion of the investment strategy pursuant to the instructions and restrictions in the investment objectives and guidelines.

The Company's investment strategy is unchanged from previous years. The Company's investment philosophy distinguishes between those assets that are matched against existing liabilities (liability funds) and those that represent shareholders' equity (capital funds). Liability funds are invested in investment grade fixed income securities and are generally matched in currency and duration to the estimated liabilities in a way that generally seeks to immunize liabilities against changes in the general level of interest rates or the relative valuation of currencies. Shareholders' equity funds are available for investment in a broadly diversified portfolio, which includes investments in common stock, longer duration fixed income and other asset classes that offer potentially higher returns.

At December 31, 2003, 66% of the Company's total investments were in U.S. dollar denominated instruments and 34% were in non-U.S. dollar denominated investments identified as liability funds (matched to corresponding liabilities or hedged to the U.S. dollar). See Item 7A Quantitative and Qualitative Disclosures About Market Risk for a discussion of the Company's currency management strategy.

Table of Contents

The Company's investment strategy, including risk constraints and guidelines, is regularly reviewed by the Finance Committee of the Board of Directors.

Competition

The Company competes with other reinsurers, some of which have greater financial, marketing and management resources than the Company, and it competes with new market entrants. Competition in the types of reinsurance that the Company underwrites is based on many factors, including the perceived financial strength of the reinsurer, pricing and other terms and conditions, services provided, ratings assigned by independent rating organizations (including A.M. Best and Standard & Poor's), speed of claims payment and reputation and experience in the line of reinsurance to be written.

The Company's competitors include independent reinsurance companies, subsidiaries or affiliates of established worldwide insurance companies and reinsurance departments of certain primary insurance companies. Management believes that the Company's major competitors are the larger European and U.S. international reinsurance companies as well as specialty reinsurers.

Management believes the Company is well positioned in terms of client services and underwriting expertise. Management believes its capitalization and strong financial ratios allow the Company to offer security to its clients. Among professional reinsurance groups, management believes the Company ranks among the world's ten largest professional reinsurers.

The Company receives claims paying ability and financial strength ratings from various agencies as follows:

Standard & Poor's AA-, Moody's Investor Service Aa3 and A.M. Best A+. In addition, the Company's Trust Preferred Shares and Series B Redeemable Preferred Shares have been rated A- and Series C Preferred Shares have been rated BBB+ by Standard & Poor's. Moody's has rated the Company's Series C Preferred Shares Baa1 and Series B Redeemable Preferred Shares and the Trust Preferred Shares A3.

Employees

The Company had 897 employees at December 31, 2003. The Company may increase its staff over time commensurate with the expansion of operations. The Company believes that its relations with its employees are good.

Regulation

Bermuda

Edgar Filing: PARTNERRE LTD - Form 10-K

The Insurance Act 1978 (as amended) and Related Regulations: The Insurance Act of 1978 of Bermuda, amendments thereto and related regulations (the Act), which regulates the business of Partner Reinsurance Company, imposes on Bermuda insurance companies solvency and liquidity standards and auditing and reporting requirements and grants to the Minister of Finance powers to supervise, investigate and intervene in the affairs of insurance companies. Partner Reinsurance Company has branches in Switzerland, Singapore, Hong Kong and Labuan and the operations of these branches are all subject to Bermuda regulations. In addition, the Singapore branch is subject to regulation by the Monetary Authority of Singapore and the Hong Kong branch is subject to regulation under both the Insurance Companies Ordinance of Hong Kong and the Companies Ordinance of Hong Kong. Under the Act, Partner Reinsurance Company has been designated as a Class 4 (non-life and life) insurer, which is the designation for the largest companies, requiring capital and surplus in excess of \$100 million.

At December 31, 2003, Partner Reinsurance Company's solvency and liquidity margins and statutory capital and surplus were well in excess of the minimum levels required by Bermuda regulations.

Switzerland

Foreign insurance entities which are effecting or carrying on exclusively reinsurance business in Switzerland are exempt from insurance supervision, provided such entities are not acting for that purpose through a Swiss subsidiary. Thus, the operations of the Swiss branch of Partner Reinsurance Company are exempt from supervision. Partner Reinsurance Company has procured a taxation ruling under which the branch is subject to Swiss tax.

France

PartnerRe SA is subject to regulation, specified principally pursuant to the French *Code des Assurances* (the French Insurance Code), and to the supervision of the *Commission de Controle des Assurances* (the CCA), an independent administrative authority. Pursuant to the requirements of the French Insurance Code, French reinsurers must present and publish their accounts according to the same principles applicable to direct insurers, subject to specified adaptations relevant to reinsurers. Information required to be provided includes quarterly reports showing (1) for the relevant 3-month period, as well as

Table of Contents

for each of the prior seven 3-month periods, (i) the number of reinsurance contracts executed, (ii) the aggregate amount of premiums received, (iii) the aggregate amount of business and administrative costs incurred, (iv) the aggregate net amount of revenues in connection with investments and cash, and (2) at the end of the relevant 3-month period, as well as at the end of the prior 3-month period, (i) the aggregate value of assets (per category of assets) supporting technical reserves and (ii) the aggregate value of other assets. In addition, reinsurers must file each year with the CCA (1) their financial statements in the form to be approved by the shareholders at the annual shareholders' meeting, (2) detailed information on the Company's business and (3) various technical disclosure statements. The CCA has authority to monitor and compel compliance by reinsurers with requirements regarding the nature, timing and content of published information and documents.

European Union

At the European Union (EU) level, European reinsurers, since 1964 (Directive 64-225 of February 25, 1964), have been granted the benefit of the freedom to provide services principle and the rights of establishment principle. Under the first principle, an EU reinsurer may underwrite reinsurance business in any EU country from its home jurisdiction, without having to open a branch or subsidiary in such country provided local authorities are notified that such activities are occurring. The notifications have been made by the relevant affiliates of the Company. Under the second principle, a European reinsurer may open branches or organize subsidiaries in any EU country in accordance with such country's domestic regulatory framework.

United States

PartnerRe U.S. Corporation and its subsidiaries PartnerRe U.S. and PartnerRe Insurance Company of New York (collectively the PartnerRe U.S. Companies) are subject to regulation under the insurance statutes and regulations of their domiciliary states, Delaware and New York, and all of those states where the PartnerRe U.S. Companies are licensed, accredited or approved to underwrite reinsurance. Currently, the PartnerRe U.S. Companies are licensed, approved or accredited reinsurers in fifty states and the District of Columbia. Regulations vary from state to state, but generally require insurance holding companies and insurers and reinsurers that are subsidiaries of holding companies to register and file with their state domiciliary regulatory authorities certain reports including the information concerning their capital structure, ownership, financial condition and general business operations. State regulatory authorities monitor compliance with, and periodically conduct examinations with respect to, state mandated standards of solvency, licensing requirements, investment limitations, restrictions on the size of risks which may be reinsured, deposits of securities for the benefit of reinsureds, methods of accounting, and reserves for unearned premiums, losses and other purposes. In general, such regulations are for the protection of reinsureds and, ultimately, their policyholders, rather than security holders of the PartnerRe U.S. Companies.

State laws also require prior notice or regulatory agency approval of changes in control of an insurer or its holding company and of certain inter-corporate transfers of assets as well as any material changes within the holding company structure. The insurance laws of the states of domicile of the PartnerRe U.S. Companies provide that no corporation or other person except an authorized insurer may acquire control of a domestic insurance or reinsurance company unless it has given notice to such company and obtained prior written approval of the particular state's chief insurance regulator. Any purchaser of 10% or more of the outstanding voting securities of PartnerRe SA (the parent company of PartnerRe U.S. Corporation) could become subject to such regulations and would be required to file certain notices and reports with the Superintendents of Insurance of New York and Delaware prior to such acquisition.

A committee of state insurance regulators developed the National Association of Insurance Commissioner's Insurance Regulatory Information System (IRIS) primarily to assist state insurance departments in executing their statutory mandates to oversee the financial condition of insurance or reinsurance companies operating in their respective states. IRIS identifies eleven industry ratios and specifies usual values for each ratio. Generally, a company will become subject to regulatory scrutiny if it falls outside the usual ranges with respect to four or more of the ratios, and regulators may then act, if the company has insufficient capital, to constrain the company's underwriting capacity. No such action has

been taken with respect to the PartnerRe U.S. Companies.

The Risk-Based Capital (RBC) for Insurers Model Act (the Model RBC Act), as it applies to property and casualty insurers and reinsurers, was adopted by the U.S. National Association of Insurance Commissioners on December 5, 1993. The Model RBC Act or similar legislation has been adopted by the majority of states in the U.S. The main purpose of the Model RBC Act is to provide a tool for insurance regulators to evaluate the capital of insurers with respect to the risks assumed by them and to determine whether there is a need for possible corrective action. U.S. insurers and reinsurers are required to report the results of their risk-based capital calculations as part of the statutory annual statements that such insurers and reinsurers file with state insurance regulatory authorities. The Model RBC Act provides for four different levels of regulatory actions with respect to annual statements, each of which may be triggered if an insurer's Total Adjusted Capital (as defined in the Model RBC Act) is less than a corresponding level of risk-based capital. The Company Action Level is triggered if an insurer's Total Adjusted Capital is less than 200% of its Authorized Control Level RBC (as defined in the Model RBC Act). At the Company Action Level, the insurer must submit a risk-based capital plan to the regulatory authority that discusses proposed corrective actions to improve its capital position. The Regulatory Action Level is triggered if an insurer's Total Adjusted Capital is less than 150%

Table of Contents

of its Authorized Control Level RBC. At the Regulatory Action Level, the regulatory authority will perform a special examination of the insurer and issue an order specifying corrective actions that must be followed. The Authorized Control Level is triggered if an insurer's Total Adjusted Capital is less than 100% of its Authorized Control Level RBC, and at that level the regulatory authority is authorized (although not mandated) to take regulatory control of the insurer. The Mandatory Control Level is triggered if an insurer's Total Adjusted Capital is less than 70% of its Authorized Control Level RBC, and at that level the regulatory authority is required to take regulatory control of the insurer. Regulatory control may lead to rehabilitation or liquidation of an insurer. At December 31, 2003, the Total Adjusted Capital of the PartnerRe U.S. companies exceeded applicable RBC levels.

Canada

PartnerRe SA is subject to local regulation for its Canadian branch business, specified principally pursuant to Part XIII of the Insurance Companies Act applicable to Foreign Property and Casualty Companies and to Foreign Life Companies. The office of the Superintendent of Financial Institutions, Canada (the Superintendent) supervises the application of the Act. The Company's Canadian branches are authorized to insure, in Canada, risks limited to the business of reinsurance and are licensed in Quebec and Ontario. The Company maintains sufficient assets, vested in trust at a Canadian financial institution approved by the Superintendent, to allow the branch to meet statutory minimum asset requirements as defined by the regulation. Statutory information required by federal and provincial insurance regulators for both P&C and Life business includes (1) a yearly business plan (P&C only), (2) quarterly and year-end returns including general information, financial statements, statutory compliance schedules and various investment, technical and other information, (3) an auditor's report, and (4) an opinion of an appointed actuary.

Taxation of the Company and its Subsidiaries

The following summary of the taxation of the Company, Partner Reinsurance Company, PartnerRe Services, PartnerRe SA and the PartnerRe U.S. Companies is based upon current law. Legislative, judicial or administrative changes may be forthcoming that could affect this summary. Certain subsidiaries, branch offices and representative offices of the Company are subject to taxation related to operations in Canada, France, Hong Kong, Japan, Luxembourg, Norway, Singapore, South Korea, Switzerland and the United States. The discussion below covers the principal locations for which the Company or its subsidiaries are subject to taxation.

Bermuda

The Company, Partner Reinsurance Company and PartnerRe Services have each received from the Minister of Finance an assurance under The Exempted Undertakings Tax Protection Act, 1966 of Bermuda, to the effect that in the event of there being enacted in Bermuda any legislation imposing tax computed on profits or income, or computed on any capital asset, gain or appreciation, or any tax in the nature of estate duty or inheritance tax, then the imposition of any such tax shall not be applicable to the Company, Partner Reinsurance Company or PartnerRe Services or to any of their operations or the shares, debentures or other obligations of the Company, Partner Reinsurance Company or PartnerRe Services until 2016. These assurances are subject to the proviso that they are not construed so as to prevent the application of any tax or duty to such persons as are ordinarily resident in Bermuda (the Company, Partner Reinsurance Company and PartnerRe Services are not currently so designated) or to prevent the application of any tax payable in accordance with the provisions of The Land Tax Act 1967 of Bermuda or otherwise payable in relation to the property leased to Partner Reinsurance Company.

United States

The PartnerRe U.S. Companies transact business in and are subject to taxation in the United States. The Company believes that it and its subsidiaries, other than the PartnerRe U.S. Companies, have operated and will continue to operate their business in a manner that will not cause them to be treated as engaged in a trade or business within the United States. On this basis, the Company does not expect that it and its subsidiaries, other than the PartnerRe U.S. Companies, will be required to pay U.S. corporate income taxes (other than withholding taxes as described below). However, because there is considerable uncertainty as to the activities which constitute being engaged in a trade or business in the United States, there can be no assurance that the IRS will not contend successfully that the Company, Partner Reinsurance Company, PartnerRe Services or PartnerRe SA is engaged in a trade or business in the United States. The maximum federal tax rate currently is 35% for a corporation's income which is effectively connected with being engaged in a trade or business in the United States. In addition, the U.S. branch profits tax of 30% is imposed each year on a corporation's earnings and profits (with certain adjustments) effectively connected with its U.S. trade or business deemed repatriated out of the United States, for a potential maximum effective federal tax rate of approximately 54% on the net business connected with a U.S. trade or business.

Foreign corporations not engaged in a trade or business in the United States are subject to U.S. income tax, effected through withholding by the payor, on certain fixed or determinable annual or periodic gains, profits and income derived from sources within the United States as enumerated in Section 881(a) of the Internal Revenue Code (such as dividends and interest on certain investments).

Table of Contents

The United States also imposes an excise tax on insurance and reinsurance premiums paid to foreign insurers or reinsurers with respect to risks located in the United States. The rate of tax applicable to reinsurance premiums paid to Partner Reinsurance Company is 1% of gross premiums.

Legislation has been introduced in the U.S. Congress intended to eliminate certain perceived tax advantages of companies (including insurance companies) that have legal domiciles outside the United States but have certain U.S. connections. While there is no currently pending legislative proposal which, if enacted, would have a material adverse effect on the Company or its subsidiaries, it is possible that broader-based legislative proposals could emerge in the future that would have an adverse impact.

France

The Company's French subsidiaries, PartnerRe Holdings SA and PartnerRe SA, carry on business in, and are subject to taxation in, France. The current statutory rate of tax on corporate profits in France is 35.43%. Payments of dividends by PartnerRe Holdings SA to the Company will be subject to withholding taxes.

Switzerland

Partner Reinsurance Company operates a branch in Switzerland which is subject to Swiss taxation, mainly on profits and capital. To the extent that net profits are generated they are taxed at a rate of approximately 25%. The branch pays capital taxes at a rate of approximately 0.4% on its imputed branch capital calculated according to the procured taxation ruling. The activities of the former PartnerRe Services branch in Switzerland were integrated in the Swiss branch of Partner Reinsurance Company effective January 1, 2000.

Where You Can Find More Information

The Company's annual report on Form 10-K, quarterly report on Form 10-Q, current reports on Form 8-K, and amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Securities Exchange Act are available free of charge through the investor information pages of its website, located at www.partnerre.com.

ITEM 2. PROPERTIES

The Company leases office space in Bermuda where the Company's principal executive offices are located. Additionally, the Company leases office space in various locations, including Paris, Greenwich (Connecticut), Toronto, Zurich, Santiago, Tokyo, Seoul, Singapore and Hong Kong.

ITEM 3. LEGAL PROCEEDINGS

Edgar Filing: PARTNERRE LTD - Form 10-K

The Company's reinsurance subsidiaries, in common with the insurance and reinsurance industry in general, are subject to litigation and arbitration in the normal course of their business operations. In addition to claims litigation, the Company and its subsidiaries are subject to lawsuits and regulatory actions in the normal course of business that do not arise from or directly relate to claims on reinsurance treaties. This category of business litigation typically involve, inter alia, allegations of underwriting errors or misconduct, employment claims or regulatory activity. While the outcome of the business litigation cannot be predicted with certainty, the Company is disputing and will continue to dispute all allegations against the Company and/or its subsidiaries that management believes are without merit.

Table of Contents

As of December 31, 2003 the Company was not a party to any material litigation or arbitration other than as part of the ordinary course of business. Whilst none of this is expected by management to have a significant adverse effect on the Company's results of operation, financial condition and liquidity for a year, it does have the potential to adversely impact the results of a quarter.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

No matters were submitted to a vote of shareholders of the Company during the fourth quarter of the fiscal year ended December 31, 2003.

PART II

ITEM 5. MARKET FOR COMPANY'S COMMON EQUITY AND RELATED STOCKHOLDER MATTERS

The information with respect to the market for the Company's common shares and related shareholder matters is contained under the caption "Shareholder Information" and in Note 14 and Note 19 to the Consolidated Financial Statements in the 2003 Annual Report and is incorporated by reference to pages 88 through 89, 98 and 106, respectively, in Exhibit 13.1 filed with this Form 10-K; and under the caption "Equity Compensation Plan Information" in the Proxy Statement and is incorporated by reference to this item.

ITEM 6. SELECTED CONSOLIDATED FINANCIAL DATA

The information with respect to selected consolidated financial data regarding the Company is contained under the caption "Selected Consolidated Financial Data" in the 2003 Annual Report and is incorporated by reference to page 21 in Exhibit 13.1 filed with this Form 10-K.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The information with respect to management's discussion and analysis of financial condition and results of operations, is contained under the caption "Management's Discussion and Analysis of Financial Condition and Results of Operations" in the 2003 Annual Report and is incorporated by reference to pages 22 through 54 in Exhibit 13.1 filed with this Form 10-K.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The information with respect to quantitative and qualitative disclosures about market risk is contained under the caption "Quantitative and Qualitative Disclosures About Market Risk" in the 2003 Annual Report and is incorporated by reference to pages 54 through 59 in Exhibit 13.1 filed with this Form 10-K.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

Edgar Filing: PARTNERRE LTD - Form 10-K

The Company's consolidated financial statements are contained in the 2003 Annual Report and are incorporated by reference to pages 60 through 101 in Exhibit 13.1 filed with this Form 10-K. Reference is made to Item 15(a) of this report for the Schedules to the Company's consolidated financial statements.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

Table of Contents

ITEM 9A. CONTROLS AND PROCEDURES

Within the 90 days prior to the date of this report, the Company carried out an evaluation, under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures, as defined in Rules 13a-14(c) and 15d-14(c) under the Securities Exchange Act of 1934, as amended. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures are reasonably designed to be effective in alerting them on a timely basis to material information relating to the Company and its subsidiaries.

There have been no significant changes in the Company's internal controls over the financial reporting identified in connection with such evaluation that occurred during the Company's fourth quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal controls over financial reporting or to the best of the Company's knowledge in other factors that could significantly affect internal controls subsequent to the date the Company carried out its evaluation.

PART III

ITEM 10. DIRECTORS AND EXECUTIVE OFFICERS OF THE COMPANY

The information with respect to directors and officers of the Company is contained under the captions "Directors and Executive Officers of the Company" and "Election of Directors" in the Proxy Statement and is incorporated herein by reference in response to this item.

CODE OF ETHICS

The information with respect to the Company's code of ethics is contained under the caption "Code of Business Conduct and Ethics" in the Proxy Statement and is incorporated herein by reference in response to this item.

AUDIT COMMITTEE

The information with respect to the Company's audit committee is contained under the caption "Audit Committee" in the Proxy Statement and is incorporated herein by reference in response to this item.

ITEM 11. EXECUTIVE COMPENSATION

The information with respect to executive compensation is contained under the caption "Executive Compensation" and "Director Compensation" in the Proxy Statement and is incorporated herein by reference in response to this item.

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS, MANAGEMENT AND DIRECTORS

The information with respect to security ownership of certain beneficial owners and management and the equity compensation plan disclosure is contained under the captions Security Ownership of Certain Beneficial Owners, Management and Directors and Equity Compensation Plan Information in the Proxy Statement and is incorporated herein by reference in response to these items.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

The information with respect to certain relationships and related transactions is contained under the caption Certain Relationships and Related Transactions in the Proxy Statement and is incorporated herein by reference in response to this item.

Table of Contents

ITEM 14. PRINCIPAL ACCOUNTANT FEES AND SERVICES

The information with respect to principal accountant fees and services is contained under the caption "Principal Accountant Fees and Services" in the Proxy Statement and is incorporated herein by reference in response to this item.

INDEPENDENT AUDITORS REPORT

To the Board of Directors and Shareholders of PartnerRe Ltd.

We have audited the consolidated financial statements of PartnerRe Ltd. and subsidiaries as of December 31, 2003 and 2002, and for each of the three years in the period ended December 31, 2003, and have issued our report thereon dated February 9, 2004 (which report expresses an unqualified opinion and includes an explanatory paragraph relating to the Company's change in method of accounting for goodwill, derivative instruments and hedging activities, Mandatorily Redeemable Preferred Securities and Trust Preferred Securities); such financial statements and report are included in your 2003 Annual Report to Shareholders and are incorporated herein by reference. Our audits also included the financial statement schedules of PartnerRe Ltd. and subsidiaries, listed in the Index at Item 15(a)2. These financial statement schedules are the responsibility of the Company's management. Our responsibility is to express an opinion based on our audits. In our opinion, such financial statement schedules, when considered in relation to the basic financial statements taken as a whole, present fairly in all material respects the information set forth therein.
