Note: EBITDA, operating profit, profit before tax and adjusted earnings per share are stated before exceptional items.

* Not stated as no direct comparables

Strong trading and operating performance:

Adjusted earnings per share grew by 86.8% to 14.2p in the first half and by 66.7% to 9.0p in the second quarter

Strong first half and second quarter trading with Hotels operating profit up 50.7% to £113m in the first half and 50.0% to £69m in the second quarter, as recovery continues in the US, the UK and Asia Pacific and cost reductions are delivered

Interim dividend raised by 6.2%, to 4.30p per share from 4.05p (interim 2003); the Board anticipates this will be approximately 30% of full year dividend

Focused strategy and execution, with announcement of additional asset disposals and further return of funds to shareholders:

Strategic focus remains to develop our brands and grow the managed and franchised business leading to better returns on capital employed

Further £1.3bn net book value portfolio of hotels, predominantly in the UK plus the InterContinental Paris, placed on market today; aiming to retain management or franchise contracts on majority of disposals. A total of £589m of hotels already on market and more than £330m of completed disposals to date which, with today's announcement, brings total announced or completed hotel disposals to more than £2.2bn since separation.

The next step in our ongoing programme is a further £750m of funds to be returned to shareholders, in addition to the current £250m, comprising a special dividend of £500m to be paid in December 2004 (with associated share consolidation) and a further share buyback of £250m. This second phase of share buyback will be undertaken once the existing £250m programme is finished (£213m has been completed as of today). A current total of £1bn of funds committed to be returned to shareholders since separation, subject to no significant adverse change in market conditions.

Commenting on current trading, Richard North, Chief Executive, InterContinental Hotels Group PLC said

This is a strong set of results reflecting improvements in operating performance coupled with recovery in key markets such as the US, UK and Hong Kong. Western Europe, and particularly Paris, remains a challenge.

The asset disposal programme is now well underway and we are stepping up our returns to shareholders with a further £750 million package. All in all we are making real progress executing the strategy we set out at separation in April 2003, transforming the company to one which is all about brands, managing and franchising. We remain positive about the future

Trading and Operating Overview: continued strong performance

Group operating profit for the first half up by 34.2%; adjusted earnings per share up 86.8% aided by (1) the reduced tax charge in 2004, (2) reduced interest charge due to lower net debt of £520m as at 30 June 2004 (from £942m as at 30 June 2003) and (3) the ongoing benefit of the share buyback programme

Hotels operating profit up 50.7% for the first half:

Americas operating profit up 10.7% from \$131m to \$145m, driven by continued strong RevPAR gains in New York and growth in franchise business; sterling operating profit down 2.4% after the impact of foreign exchange

EMEA operating profit improved from £32m to £50m, up 56.3%, driven by market share gains in the UK but also one off liquidated damages of approximately £4m from the InterContinental Barcelona contract

Asia Pacific operating profit up from \$3m to \$17m, driven by strong performance of InterContinental Hong Kong versus weak comparables. The region has now recovered to 2002 operating profit levels

First half regional and central overheads of \$108m, versus \$122m in 2003, as the planned cost savings continue to be delivered to target. Full year total overheads forecast still flat year on year at constant currency.

Room revenue delivered to hotels in our system through our reservation channels in the first half is up 26.3% from \$1.6bn to \$2.1bn:

33.6% of total rooms revenue now delivered through our channels

Internet channel revenue growth of 59% and an increase in share of web delivery through IHG's own sites to 79%; internet revenue now represents 11% of total system revenue for IHG

Revenue to our hotels from Priority Club Rewards members up 16.5% year on year from \$1.3bn to \$1.5bn:

More than 28% of system room nights now booked by Priority Club Rewards members

Edgar Filing: INTERCONTINENTAL HOTELS GROUP PLC /NEW/ - Form 6-K

Now in excess of 21 million members, the largest number in any hotel loyalty programme worldwide.

Relative RevPAR outperformance across most major markets, particularly UK, US Upper Upscale and US Express

Almost 13,000 rooms (gross) added to system globally year-to-date, offset by planned, quality-driven terminations in US Holiday Inn estate and Owned and Leased disposals, to give net growth of 2,589 rooms

Global hotel pipeline growth of 8.1% from 67,849 rooms as at 30 June 2003 to 73,324 as at 30 June 2004

Following the latest actuarial review, IHG is discussing with the UK Hotels Pension Plan Trustees a one-off contribution to the plan to be made in last quarter of 2004 of approximately £50m, effectively eliminating the current estimated deficit

Significant tax credit position still expected for full year. P&L tax charge before exceptional items expected to be 18%; exceptional tax credits of £138m recognised in the first half

Capex spending remains under tight control; full-year 2004 forecast reduced from £300m to £250m for hotels. 2005 spend expected to be below or equal to 2004, including first phase of refurbishment of the InterContinental London.

Improvement in key financial metrics with Return on Capital Employed up to 5.6% from 4.3%* and strong cashflow** generation of £125m in 6 months to 30 June 2004 versus £80m for same period in 2003

* Based on trailing 12 months; as defined in listing particulars

** Cashflow pre-disposal proceeds and return of funds

Strategic overview: focused strategy and execution, with announcement of additional asset disposals and further return of funds to shareholders:

Key priorities are to develop brands and grow managed and franchised business; clear strategic focus to drive Return on Capital Employed as we move into the next phase of IHG's ongoing transformation:

Strengthen the core business through focus on brand differentiation and system delivery

Grow managed and franchised fee-income business in key depth markets

Develop the organisation and people to drive further cost improvement

Continue the asset disposal programme

Return funds to shareholders

Continued asset disposals:

A further portfolio of hotels has been placed on the market today with a net book value of approximately £1.3bn, predominantly in the UK plus the InterContinental Paris; our intention is to retain management and franchise contracts on the majority of these hotels. Estimated 2004 EBIT of these hotels would be approximately £85m (EBITDA of £130m)

£337m of proceeds from hotels sold since separation, slightly ahead of net book value, with Holiday Inn, Preston, UK and Staybridge Suites, Eatontown, USA sold since last update on 12 July 2004

£589m of hotels actively being marketed, including the US hotels announced in July 2004

In total, more than £2.2bn of hotels currently on the market or disposed. This represents more than 50% of the net book value of IHG's property assets as at separation.

Next phase of IHG's ongoing return of funds programme announced further £750m of funds to shareholders, bringing total announced since separation to £1bn:

£213m of the £250m initial return of funds complete. 26.9 million shares were purchased as of 30 June. 39.8 million purchased to date at an average price of 534p

Special dividend of £500m, with associated share consolidation, to be paid in December 2004

Further share buyback programme will commence with up to £250m of repurchases following completion of the remaining £37m of the current programme.

Edgar Filing: INTERCONTINENTAL HOTELS GROUP PLC /NEW/ - Form 6-K

These returns are expected to be funded, in part, through disposal proceeds from the almost £1bn of assets already sold or announced as on the market. Further returns of funds are expected to be funded primarily by asset sales and will be considered in light of selective reinvestment in the business, maintaining appropriate gearing and remaining considerate of all stakeholders interests.

Britvic: revenue growth of 9.3% YTD, with profit growth of 2.6%

Britvic delivered turnover up 4.1% from £171m to £178m in the second quarter and up 9.3% from £335m to £366m for the first half, Operating profit was up from £39m to £40m for the first half but down from £31m to £30m in the second quarter. This performance is due to reinvestment in the Pepsi brand, which gained market share and investment in new Robinson brand extensions. Capital expenditure remains on track at £80m in 2004 with £39m spent to date. As already announced, an IPO of Britvic is planned to take place between 1 January 2005 and 31 December 2008 but no firm date has yet been set.

Current Trading

Trading remains strong in our key profit regions of the UK, where we are gaining significant market share, the US and Hong Kong. We continue to see strong occupancy growth across all brands led by the return of the business traveller. Room rate growth has begun in key urban locations such as London and New York, but we still do not expect broad-based rate improvement before 2005. The European market remains weak, with Paris in particular very depressed and hard to predict. Booking lead times remain short particularly in incentive and meetings business.

OPERATING REVIEW

THIS OPERATING REVIEW CONCENTRATES ON THE PERFORMANCE OF THE HOTELS AND SOFT DRINKS BUSINESSES (THE GROUP) FOR THE SIX MONTHS ENDED 30 JUNE 2004. TO ASSIST SHAREHOLDERS, UNAUDITED PROFORMA COMPARATIVES FOR THE SIX MONTHS AND THREE MONTHS ENDED 30 JUNE 2003 ARE PROVIDED.

On 15 April 2003, following shareholder and regulatory approval, Six Continents PLC separated into two new groups, InterContinental Hotels Group PLC (IHG), comprising the Hotels and Soft Drinks businesses, and Mitchells & Butlers plc (MAB), comprising the Retail and Standard Commercial Property Development businesses (the Separation).

In 2003, in order to bring its financial reporting timetable into line with other major European and US hotel companies, IHG changed its financial year end from 30 September to 31 December. The statutory financial period covered by these financial statements is therefore the six months ended 30 June 2004, with comparatives for the nine months ended 30 June 2003 and 15 months ended 31 December 2003. The comparatives include the results of MAB up until the Separation.

Managed	4	5	(20.0)%	4	5	(20.0)%
Franchised	81	75	8.0%	148	136	8.8%
	101	95	6.3%	174	158	10.1%
Regional overheads	(15)	(14)	(7.1)%	(29)	(27)	(7.4)%
Total	\$ m 86	81	6.2%	145	131	10.7%
Sterling equivalent	£ m 48	50	(4.0)%	80	82	(2.4)%

Turnover in the Americas grew by 4.2% to \$448m for the six months ended 30 June 2004. Adjusting for the effect of hotels sold, turnover growth in the remaining comparable owned and leased estate was 11.2%. Occupancy-led revenue per available room (RevPAR) growth was experienced across all brands with InterContinental and Staybridge Suites recording the highest RevPAR growth at 12.0% and 10.4% respectively.

Operating profit increased by 10.7% to \$145m as a result of revenue growth from the franchised estate. The relative strength of sterling to the US dollar resulted in a decline in sterling reported profits of 2.4%.

AMERICAS REVPAR MOVEMENT ON	Three months ended	Six months ended
PREVIOUS YEAR	30 June 2004	30 June 2004
InterContinental owned & leased (comparable)	14.3%	10.0%
Holiday Inn franchise	5.3%	5.0%
Holiday Inn Express franchise	6.3%	6.8%

RevPAR in the comparable owned and leased estate grew by 10.3% in the six months ended 30 June 2004. Growth was primarily occupancy-led as commercial demand continued to strengthen in major US centres. While several hotels achieved strong average daily rate growth, the InterContinental The Barclay New York and InterContinental San Juan in particular, this was still localised and inconsistent.

Managed RevPAR growth exhibited similar patterns to the owned and leased estate, with RevPAR growth through occupancy increases being widespread, while average daily rate increases were less consistent. Turnover in the managed estate grew partly as a result of the management contracts signed with Hospitality Properties Trust (HPT), however, operating profit from managed hotels was below the prior year due to performance payments to HPT.

All brands in the franchised estate recorded RevPAR growth in the six months, with Express RevPAR up by 6.8% and Holiday Inn up by 5.0%. System size in Express grew by 30 hotels (2.3%) during the six months, while Holiday Inn declined by eight hotels (0.7%).

Two hotels, the InterContinental Central Park South (New York) and the Holiday Inn South Bend Indiana, were sold during the period, with net proceeds received being marginally below net book value.

EUROPE, MIDDLE EAST & AFRICA (EMEA)	Three months ended			Six months ended		
	30 June 2004	30 June 2003	% change	30 June 2004	30 June 2003	% change
	£m	£m		£m	£m	
Turnover:						
Owned & leased	194	183	6.0%	367	345	6.4%
Managed	12	9	33.3%	24	16	50.0%
Franchised	8	6	33.3%	13	12	8.3%
	<u>214</u>	<u>198</u>	8.1%	<u>404</u>	<u>373</u>	8.3%
Operating profit before exceptional items:						
Owned & leased	27	18	50.0%	38	30	26.7%
Managed	7	4	75.0%	15	8	87.5%
Franchised	5	4	25.0%	9	8	12.5%
	<u>39</u>	<u>26</u>	50.0%	<u>62</u>	<u>46</u>	34.8%
Regional overheads	(5)	(7)	28.6%	(12)	(14)	14.3%
Total	<u>34</u>	<u>19</u>	78.9%	<u>50</u>	<u>32</u>	56.3%

Turnover in the EMEA region grew by £31m (8.3%) to £404m for the six months ended 30 June 2004. In addition to continued growth in the comparable owned and leased estate, turnover was boosted by the re-opened Le Grand InterContinental Paris, stability in the Middle East, and liquidated damages in the managed estate.

The improvement in turnover, combined with reduced overheads, resulted in an increase in operating profit for the six months by 56.3% to £50m.

EMEA REVPAR MOVEMENT ON	Three months ended	Six months ended
PREVIOUS YEAR (comparable)	30 June 2004	30 June 2004
InterContinental owned & leased	8.5%	4.0%
Crowne Plaza owned & leased	9.8%	7.5%
Holiday Inn UK London	27.7%	22.3%
Holiday Inn UK Regions	5.3%	6.7%

Trading in the EMEA owned and leased estate remained mixed over the period ended 30 June 2004. The Holiday Inn UK estate continued to gain market share, with London RevPAR up by 22.3% and the regions up by 6.7%. The rest of the European owned and leased estate did not display a clear pattern of improvement. Whilst the Le Grand InterContinental Paris, closed for refurbishment in the prior year, boosted revenue, the key Paris and Amsterdam markets remained soft, with average daily rates falling. In Germany, occupancy in the owned and leased estate improved, although average daily rates were generally flat.

Managed and franchised operations were more resilient during the period. Occupancy in the comparable estate in the Middle East grew during the six months by 14.2 percentage points and average daily rate by 3.7%. Liquidated damages of approximately £4m were received from the early termination of the InterContinental Barcelona management contract. Franchised revenues continued to grow with RevPAR in all brands finishing ahead of prior year for the six months ended 30 June 2004.

Eighteen hotels were added to the system during the six months ended 30 June 2004, two owned and leased, four managed and 12 franchised. Four hotels were sold in the period, with proceeds received being greater than net book value.

Total	\$ m	7	(4)	17	3	466.7%
Sterling equivalent	£ m	3	(3)	9	1	800.0%

Turnover in Asia Pacific grew by \$38m to \$116m for the six months ended 30 June 2004, as the region recovered strongly following the outbreak of SARS in March 2003. Operating profit finished the six months up by \$14m to \$17m.

The performance of the InterContinental Hong Kong has rebounded strongly after the outbreak of SARS and is now trading at pre-SARS levels with operating profit significantly ahead of the weak comparative period. The hotel has also benefited from the repositioning of its food and beverage operations, leading to a food and beverage revenue increase of 102% over the first half of 2003. The owned and leased estate in Australia continues to trade soundly, particularly in Sydney, and operating profit in the comparable Australian owned and leased estate is up by 5.9%.

The managed and franchised estates demonstrated growth as the region recovered strongly from SARS. RevPAR grew by over 50% in both China and South East Asia.

Two new managed hotels opened during the period in the key China market, while two Australian owned hotels were sold, at above net book value.

CENTRAL

Central overheads fell by £14m to £26m for the six months ended 30 June 2004 reflecting the reorganisation implemented in 2003.

It is now expected that total hotel overheads in US dollars for the 12 months ended December 2004 will be broadly level with 2003 at constant exchange rates.

	Three months ended			Six months ended		
	30 June	30 June	% change	30 June	30 June	% change
	2004	2003		2004	2003	
	£m	£m		£m	£m	
SOFT DRINKS						
Turnover	178	171	4.1%	366	335	9.3%
Operating profit before exceptional items	30	31	(3.2)%	40	39	2.6%

Britvic Soft Drinks turnover was 9.3% up on the first half of 2003, driven by volume growth of 7.7%. Both Pepsi and 7UP achieved strong volume growth, up by 12.7% and 26%, respectively. However, increased costs as a result of investment in the Pepsi brand which is gaining market share, and in Robinsons brand extensions, resulted in operating profit finishing just ahead of the first half of last year, at £40m.

ASSET DISPOSAL PROGRAMME

The asset disposal programme continues to progress in line with the Group's strategy. As of 30 June 2004, 28 hotels had been sold since the Separation in April 2003, generating net proceeds of £323m.

In addition to the £589m net book value of hotels currently on the market, including the US hotels announced in July 2004, a further £1.3bn net book value of hotels has been placed on the market in September 2004 comprising the major part of the UK portfolio and the InterContinental Paris. The £2.2bn of hotels on the market or sold represents over 50% of the net book value of IHG's properties at Separation.

EXCEPTIONAL ITEMS

Exceptional items in the six months ended 30 June 2004 amounted to £24m before interest and tax exceptionals and represented the net surplus on disposal of assets, and the change in market value of the Group's investment in FelCor Lodging Trust Inc.

INTEREST

Edgar Filing: INTERCONTINENTAL HOTELS GROUP PLC /NEW/ - Form 6-K

Net interest from ongoing activities in the six months ended 30 June 2004 amounted to £10m. Exceptional interest resulted from tax refunds and amounts paid on the termination of interest rate swaps.

TAXATION

The tax charge on ordinary activities excluding exceptional items is expected to be 18% for 2004. The equivalent effective rate for the IHG group excluding MAB was 24% for the 15 months ended 31 December 2003, following restatement in respect of

exceptional tax credits on a basis consistent with 2004. The release of provisions relating to tax matters which have been settled during the year or in respect of which the relevant statutory limitation period has expired, together with the recognition of deferred tax assets in respect of losses, has resulted in an exceptional tax credit of £138m in the period ended 30 June 2004. Net tax paid in the period ended 30 June 2004 reflected tax repayments received during the period and the impact of prior year exceptional costs.

TREASURY

Operating cash flow (Operating activities less Capital expenditure and financial investments) for the Group in the six months ended 30 June 2004 was an inflow of £213m, which was after net capital expenditure of £21m. Disposal proceeds in the six months amounted to £88m. At 30 June 2004 net debt was £520m.

The Company is currently discussing with the Trustees of the InterContinental Hotels UK Pension Plan a one-off special contribution to be made in the last quarter of 2004, approximately equal to the March 2004 FRS 17 deficit as indicated by the draft actuarial review of approximately £50m.

RETURN OF FUNDS

The Group has been carrying out its on-market share repurchase programme announced in March 2004. Of the announced £250m return of capital, 26.9 million shares had been repurchased at an average price of 512 pence by 30 June 2004.

At 9 September 2004 the total number of shares repurchased was 39.8 million at an average price of 534 pence. The Group has now announced a further return of funds to shareholders subject to no significant adverse change in market conditions. A special dividend of £500m will be paid in December 2004, with an associated share consolidation. A further £250m of share repurchases will be conducted following completion of the remaining £37m of the current programme. Further returns to shareholders will be considered in the light of future receipts from the sale of assets and consideration of all stakeholders interests.

BASIS OF PREPARATION OF PRO FORMA FINANCIAL INFORMATION

Following shareholder and regulatory approval, on 15 April 2003, Six Continents PLC separated into two new groups, InterContinental Hotels Group PLC (IHG) comprising the Hotels and Soft Drinks businesses, and Mitchells & Butlers plc comprising the Retail and Standard Commercial Property Developments businesses. As a result of the Separation, Six Continents PLC became part of IHG.

The pro forma financial information for the six months to 30 June 2003 comprises the results of those companies that form IHG following the Separation, as if IHG had been in existence since 1 October 2001. The information is provided as guidance only; it is not audited and, as pro forma information, it does not give a full picture of the financial position of the Group. The key assumptions used in the preparation of the information are as follows:

- i. The pro forma information has been prepared using accounting policies consistent with those used in the historic IHG interim and year end financial statements.
- ii. Pro forma interest has been calculated to reflect the post Separation capital structure of the Group as if it had been in place at 1 October 2001, using interest rate differentials applicable under the post Separation borrowing agreements and excluding facility fee amortisation. Dividend payments have been assumed at the expected ongoing level.
- iii. The unaudited pro forma tax charge is based on a rate of tax for IHG of 25.0% applied to unaudited pro forma profit before taxation.
- iv. Adjustments have been made, where appropriate, to exclude any arrangements with the Mitchells & Butlers Group.
- v. Pro forma earnings per share is based on pro forma profit available for shareholders divided by 734m shares, being the issued share capital of IHG on Separation.

NOTES TO THE INTERIM FINANCIAL STATEMENTS

1. Basis of preparation

The interim financial statements are for InterContinental Hotels Group PLC (the Group) for the six months ended 30 June 2004. The interim financial statements, which are unaudited, comply with relevant accounting standards under UK GAAP and should be read in conjunction with the Annual Report and Financial Statements 2003. They have been prepared using the accounting policies set out in that report on a consistent basis with that applied in 2003. The Group profit and loss account has been prepared by reference to Format 1 as set out in Schedule 4 of the Companies Act 1985. This is considered more appropriate to the Group post Separation than the format used in previous years.

The interim financial statements do not constitute statutory accounts within the meaning of section 240 of the Companies Act 1985.

The financial information for the 15 months ended 31 December 2003 has been extracted from the Group's published financial statements for that period which contain an unqualified audit report and which have been filed with the Registrar of Companies. Discontinued operations in 2003 relate to Mitchells & Butlers plc (MAB) and continuing operations relate to InterContinental Hotels Group PLC (IHG).

The period ended six months to 30 June 2004 and nine months to 30 June 2003 are regarded as distinct financial periods for accounting purposes; income and costs are recognised in the profit and loss account as they arise; tax on profit before exceptional items is charged on the basis of the expected effective tax rate for the full year for IHG.

2. Exchange rates

The results of overseas operations have been translated into sterling at the weighted average rates of exchange for the period.

In the case of the US dollar, the translation rate is £1=\$1.82 (2003 9 months, £1=\$1.60; 15 months, £1=\$1.62).

Foreign currency denominated assets and liabilities have been translated into sterling at the rates of exchange on the last day of the period.

In the case of the US dollar, the translation rate is £1=\$1.81 (2003 30 June, £1=\$1.65; 31 December, £1=\$1.78).

	26	(109)	20	(17)

Tax on profit on ordinary activities has been calculated using an estimated effective annual tax rate of 18% for 2004.

For the nine months to 30 June 2003, tax on profit on ordinary activities before exceptional items was calculated using an estimated effective annual tax rate of 31% in respect of IHG, together with the actual tax charge of MAB for the period up to 12 April 2003, resulting in a combined effective rate of 32%. The respective effective tax rates for the 15 month period were 24%* for IHG and 26%* for the combined group.

Tax relating to exceptional items (see note 5) is a charge of £3m of which £1m relates to non-operating exceptional items and £2m to exceptional interest income. In respect of 2003, tax relating to exceptional items was a credit of £60m and £64m for the periods to 30 June and 31 December respectively, of which £19m credit and £23m credit, respectively, related to non-operating exceptional items and the remainder to the premium on early settlement of debt.

Of the exceptional tax credit of £68m (see note 5) in the 15 months to 31 December 2003 (2003 9 months, £10m), £9m was included in Foreign tax (2003 9 months, nil) and £59m in UK corporation tax (2003 9 months, £10m).

* Restated to show exceptional tax credits on a basis consistent with 2004.

8. Earnings per share

Basic earnings/(loss) per ordinary share is calculated by dividing the earnings/(loss) available for shareholders of £268m profit (2003 9 months, £52m loss; 15 months, £19m profit) by 727m (2003 9 months, 732m; 15 months, 733m), being the weighted average number of ordinary shares, excluding investment in own shares, in issue during the period.

Diluted earnings per ordinary share is calculated by adjusting basic earnings per ordinary share to reflect the notional exercise of the weighted average number of dilutive ordinary share options outstanding during the period. The resulting weighted average number of ordinary shares is 735m (2003 9 months, 732m; 15 months, 733m).

Adjusted earnings per ordinary share is calculated as follows:

	2004	2003	2003
	6 months	9 months	15 months
	ended	ended	ended
	30 June	30 June	31 Dec
	pence per	pence per	pence per
	ordinary	ordinary	ordinary
	share	share	share
Basic earnings	36.9	(7.1)	2.6
Exceptional items, less tax thereon (notes 5, 7)	(3.7)	33.6	45.8
Exceptional tax (note 5)	(19.0)	(1.4)	(9.3)
Adjusted earnings	14.2	25.1	39.1

Adjusted earnings per ordinary share is disclosed in order to show performance undistorted by exceptional items.

* Restated to show exceptional tax credits on a basis consistent with 2004.

9. Net debt

	2004	2003	2003
	6 months	9 months	15 months
	ended	ended	ended
	30 June	30 June	31 Dec
	£m	£m	£m
Opening net debt	(569)	(1,177)	(1,177)

Other borrowings:			
Due within one year	(41)	(25)	(8)
Due after one year	(912)	(1,014)	(988)
	(520)	(942)	(569)

10. Contingent liabilities

At 30 June 2004, the Group had contingent liabilities of £11m (2003 31 December, £11m; 30 June, £13m), mainly comprising guarantees given in the ordinary course of business. IHG has entered into management contract arrangements in the ordinary course of business that include performance guarantees. Management does not anticipate any material funding under these arrangements.

11. Auditors review

The auditors, Ernst & Young LLP, have reported to the directors on their review of these financial statements in accordance with the guidance issued by the Auditing Practices Board. Their unqualified report will be included in the Interim Report 2004 which will be sent to shareholders.

This announcement of the interim results for the six months ended 30 June 2004 contains certain forward-looking statements as defined under US legislation (Section 21E of the Securities Exchange Act of 1934) with respect to the financial condition, results of operations and business of InterContinental Hotels Group and certain plans and objectives of the board of directors of InterContinental Hotels Group with respect thereto. Such statements include, but are not limited to, statements made in the Financial Highlights and Operating Review. These forward-looking statements can be identified by the fact that they do not relate only to historical or current facts. Forward-looking statements often use words such as anticipate, target, expect, estimate, intend, plan, goal, believe, or other words of similar meaning. These statements are based on assumptions and assessments made by InterContinental Hotels Group's management in light of their experience and their perception of historical trends, current conditions, expected future developments and other factors they believe to be appropriate.

By their nature, forward-looking statements are inherently predictive, speculative and involve risk and uncertainty. There are a number of factors that could cause actual results and developments to differ materially from those expressed in, or implied by, such forward-looking statements, including, but not limited to: events that impact domestic or international travel; levels of consumer and business spending in major economies where InterContinental Hotels Group does business; changes in consumer tastes and preferences; levels of marketing and promotional expenditure by InterContinental Hotels Group and its competitors; changes in the cost and availability of raw materials, key personnel and changes in supplier dynamics; significant fluctuations in exchange rates, interest rates and tax rates; the availability and effects of future business combinations, acquisitions or dispositions, the impact of legal and regulatory actions or developments; the impact of the European Economic and Monetary Union; the ability of InterContinental Hotels Group to maintain appropriate levels of insurance; exposures relating to franchise or management contract operations; the maintenance of InterContinental Hotels Group's IT structure, including its centralised reservation system; the development of new and emerging technologies; competition in the markets in which InterContinental Hotels Group operates; political and economic developments and currency exchange fluctuations; economic recession; management of InterContinental Hotels Group's indebtedness and capital resource requirements; material litigation against InterContinental Hotels Group; substantial trading activity in InterContinental Hotels Group shares; the reputation of InterContinental Hotels Group's brands; the level of costs associated with leased properties; and the weather.

Other factors that could affect the business and financial results are described in Item 3 Risk Factors in the Annual Report of InterContinental Hotels Group PLC on Form 20-F for the financial period ended 31 December 2003 filed with the US Securities and Exchange Commission.
