- (i) The Company, prior to entering into negotiations and discussions with MTFG in respect of the stock-for-stock exchange ratio for the Stock-for-Stock Exchange, requested that Merrill Lynch Japan Securities Co., Ltd. **Opinion of Merrill Lynch Japan Securities Co., Ltd.**

August 26, 2004

To: Board of Directors, Diamond Computer Service Co., Ltd.  
4-7 Gobancho, Chiyoda-ku, Tokyo

Diamond Computer Service Co., Ltd. ( DCS ) and Mitsubishi Tokyo Financial Group, Inc. ( MTFG ) plan to enter into a stock-for-stock exchange agreement (the Stock-for-Stock Exchange Agreement ) dated August 26, 2004, and, based on the Stock-for-Stock Exchange Agreement, effect a stock-for-stock exchange whereby DCS will become a wholly owned subsidiary of MTFG (the Stock-for-Stock Exchange ), under which 0.00135 common shares of MTFG ( MTFG Shares ) will be allotted for each common share of DCS ( DCS Shares ) (the Stock-for-Stock Exchange Ratio ).

The following is our response to DCS 's request for our opinion on whether the Stock-for-Stock Exchange Ratio is fair to DCS 's shareholders (excluding MTFG and MTFG 's affiliates) from a financial perspective.

In giving the opinion at the end of this document, we took the following actions.

- (1) Consideration of information that we deemed necessary in forming our opinion from information found in securities reports of DCS and MTFG for the past three fiscal years and other publicly available business and financial information concerning DCS and MTFG.
- (2) Consideration of information (including financial projections) provided to us by DCS regarding the outlook for DCS and MTFG 's businesses, earnings, cash flows, assets, liabilities, business plans and other matters, the amount of cost reduction and related costs expected to arise from the Stock-for-Stock Exchange, and the timing and synergy effect (the Expected Synergy Effect ) of such cost reduction and related costs.
- (3) Discussions with the management and representatives of DCS and MTFG about the matters set out in (1) and (2) above, and the outlook and Expected Synergy Effect on the businesses, business plans and other matters of both companies before and after the Stock-for-Stock Exchange takes effect.
- (4) Analyses of movements in the market price, the trading volume and the share price multiples of DCS Shares and MTFG Shares, and comparative analyses with similar public companies that we believe are appropriate.
- (5) Consideration of the performance of DCS and MTFG, and comparative analyses with similar public companies that we believe are appropriate.
- (6) Participation in some of the discussions among the representatives, financial advisors and legal counsels of DCS and MTFG.

- (7) Consideration of the potentially foreseeable effect of the Stock-for-Stock Exchange.
- (8) Consideration of the draft of the Stock-for-Stock Exchange Agreement dated August 23, 2004.

- (9) Consideration of other financial investigations and financial analyses and other matters (including our evaluation of the overall economic, market and monetary conditions) that we considered necessary or appropriate.

We have prepared this opinion on the assumption that all information provided or otherwise made available to us, discussed with us, considered by us or on our behalf, or that is publicly available is accurate and complete and we have relied on the accuracy and completeness of such information. We have not independently verified such information, nor have we conducted any independent appraisal or valuation of any specific assets or liabilities of DCS or MTFG or had any such appraisal or valuation provided for us. We have not carried out any valuation of the solvency or fair value of DCS or MTFG based on any laws concerning bankruptcy, insolvency or any similar matters, nor have we conducted any on-site inspections of any property or facilities of DCS or MTFG. We have prepared this opinion on the assumption that information and the Expected Synergy Effect regarding financial projections provided by DCS or MTFG or discussed with us by DCS or MTFG are based on reasonable grounds, and that the projected future financial performances and the Expected Synergy Effect of DCS and MTFG reflect the best estimates and judgments available to the management of DCS or MTFG at the time of making such projections. We prepared this opinion on the condition that DCS acknowledges that the Stock-for-Stock Exchange will not be a taxable transaction for DCS, MTFG or their shareholders. Finally, we prepared this opinion on the assumption that the final version of the Stock-for-Stock Exchange Agreement will be substantially the same as the most recent version of the Stock-for-Stock Exchange Agreement (draft) that we considered.

In preparing this opinion, we naturally relied on the market, economic and other conditions that were assessable at the time of the date of this opinion, and based this opinion on the information obtained as of the date hereof. We have also prepared this opinion on the assumption that the expected benefits of the Stock-for-Stock Exchange will not be adversely affected by the enforcement of any restrictions, including any cease and desist order, change or revision, in the process of obtaining the consent or approval for the Stock-for-Stock Exchange from any necessary authorities or other parties (regardless of whether such consent or approval is stipulated in the Stock-for-Stock Exchange Agreement).

We have not been granted by DCS or its board of directors any authority to, in preparing this opinion, solicit expressions of interest from third parties with respect to acquiring all or part of DCS, nor have we conducted any such solicitation.

We are acting as DCS's financial advisor with respect to the Stock-for-Stock Exchange, and will receive fees from DCS for this service. Further, DCS agrees to indemnify us against certain liabilities that may arise from our involvement. While DCS plans on receiving an investment from Mitsubishi Research Institute, Inc. after this transaction, we have not been employed as DCS's advisor with respect to this investment and therefore have not included its effect in our evaluation of the Stock-for-Stock Exchange Ratio. We have, with respect to matters other than the Stock-for-Stock Exchange, provided financial advisory services and financing services, including funding services, to MTFG and its affiliates in the past, and will continue to do so in the future, and we have received, and will receive, fees for such services. It is also possible that in the normal course of our business we will frequently trade shares or other securities of DCS or MTFG in our own account or our clients' account, and we may at any time hold long or short positions in such securities consequently.

[Translation]

This opinion has been prepared for use by the board of directors of DCS and any other internal use by DCS. This opinion does not express our opinion on whether DCS should actually decide to effect the Stock-for-Stock Exchange, nor does it offer any recommendation of any kind to DCS's shareholders on how they should vote with respect to the Stock-for-Stock Exchange or any related matters (including whether they should exercise the right as dissenting shareholders to request DCS to repurchase their shares).

We do not express any opinion whatsoever about the price of the shares of DCS or MTFG that are traded after the Stock-for-Stock Exchange is announced or completed.

Based on and subject to the above statements, we believe that as of the date of this opinion, the Stock-for-Stock Exchange Ratio is fair to DCS's shareholders (excluding MTFG and its affiliates) from a financial perspective.

Mitsubishi Tokyo Financial Group, Inc.

Diamond Computer Service, Co. Ltd.

**Diamond Computer Service to become a wholly owned  
subsidiary of MTFG**

**Tokyo, August 26, 2004** The boards of directors of Mitsubishi Tokyo Financial Group, Inc. (MTFG; President: Nobuo Kuroyanagi) and Diamond Computer Service, Co. Ltd. (DCS; President: Akio Goto) today resolved to make DCS into a wholly owned subsidiary of MTFG by December 22, 2004 through a share exchange, subject to approval by DCS's shareholders and the relevant authorities. It was also decided that DCS will enter into a business alliance with Mitsubishi Research Institute, Inc. (MRI, President: Takeshi Yano). Details of these resolutions are as follows:

**1. Reasons for making DCS into a wholly owned subsidiary through a share exchange**

MTFG is promoting a radical restructuring of the Group's business model through a process of selection and concentration. It is therefore examining the development of a business structure that will strengthen the competitiveness of each of its businesses.

Since its establishment in 1970, DCS has developed capital and financial systems for a wide range of businesses, as well as for financial companies, and has moved into outsourcing human resource and payroll-related operations. Through its use of information technology, it enables clients to drive change through their businesses and to create new value.

Making the best use of IT is an essential part of transforming businesses. In order to respond quickly to these types of needs in its clients, MTFG aims to reorganize and optimize the organizational structure of the Group's solution businesses, aiming to broaden the solutions they provide and to stimulate value creation.

MTFG has decided to make DCS into a wholly owned subsidiary as a major first step towards this goal. At the same time, MTFG will transfer some of the IT solutions business of The Bank of Tokyo-Mitsubishi, Ltd.'s corporate clients to DCS, strengthening intra-group collaboration and further clarifying DCS's central role as the head of MTFG's IT solutions business.

Moreover, DCS will form a comprehensive alliance with MRI. This alliance will create a system that can provide total support for a range of services from management consulting for systems construction, to strategic outsourcing and operations systems reconstruction. As well as strengthening its solution creation and consulting capabilities, the alliance will create a structure through which to seamlessly provide effective IT solutions aligned with the needs of its clients.

**Exhibit B**

In specific terms, MRI will take an equity stake in DCS, a representative from MRI will serve as a director of DCS, and the two companies will form a wide-ranging business alliance based on these close investment and management connections. Additionally, the two companies will, in the future, collaborate on comprehensive business development that will include the purchase of additional equity stake in DCS by MRI.

By becoming a wholly owned subsidiary of MTFG and by strengthening its alliance with MRI, DCS will, as mentioned above, strive to play a role creating value for a wide range of clients as an IT solutions provider that can combine high-end consulting capabilities with cutting-edge IT development resources.
