Matsushita Breaks Ground at New Industrial Park in China

Hangzhou now production center for its Home Appliances Group

Osaka, Japan Matsushita Electric Industrial Co., Ltd., best known for its Panasonic brand products, today announced it will build a new 270,000 square-meter industrial park in the Hangzhou Economic & Technological Development Area (Xia Sha), Zhejiang Province. The industrial park initiative will strategically position the Hangzhou area as the production hub of its Home Appliances Group in China. Senior officials from Zhejiang Province and Hangzhou City will oversee the ground-breaking ceremony for the Matsushita Hangzhou Industrial Park today on the site.

The company will build two factories in the new industrial park: Panasonic Home Appliances (Hangzhou) Co., Ltd. will manufacture air conditioning compressors and electronic home appliances while Panasonic Home Appliances (Hangzhou) Precision Machining Co., Ltd. will precision-process compressor components. Both companies were locally incorporated on September 29 and April 28, 2004, respectively. Matsushita plans to relocate Panasonic Home Appliances Washing Machine (Hangzhou) Co., Ltd., now operating in Hangzhou City, to the Park, developing the company into a leading washing machine factory in the world by lifting its annual production capacity to 2.5 million units in the short haul.

The total investment will be 1.9 billion yuan (about 27 billion yen)¹. The factories will be in operation by October 2005.

With the efficient industrial infrastructure and human resources, Matsushita focuses on Hangzhou area as the key to the future growth of its home appliances business in China. The area hosts many of the Home Appliances Group's production bases for gas cookers, rice cookers and vacuum cleaners among others. To respond to China's growing market, Matsushita will continue to build and expand new and existing facilities in the area. Panasonic Home Appliances (Hangzhou) (Export Processing Zone) Co., Ltd.,

Edgar Filing: MATSUSHITA ELECTRIC INDUSTRIAL CO LTD - Form 6-K

located in the Hangzhou Export Processing Zone, will reinforce the company's global supply site as it starts producing vacuum cleaners for Europe. The company will also look into the possible establishment of a product development center in the site.

Table of Contents

- 2 -

Matsushita is expanding its business in China as it considers the market a growth engine for its home appliances business around the world. In Japan, the company has been winning customers' support by developing ecology and environment-sensitive products and proposing new lifestyles. Making Hangzhou area the core of its home appliances operation in China, Matsushita will develop products for China based on the same corporate commitment to the environment. Matsushita is also committed to providing superior value-added quality products that are designed to integrate appropriately into Chinese culture and daily life.

The Home Appliances Group, headquartered in Toyonaka City, Osaka, is comprised of the four companies: Matsushita Home Appliances Company, Matsushita Refrigeration Company, Matsushita Housing Equipment & Systems Corporation, and Matsushita Food Service System Company.

Outline of the New Companies:

Panasonic Home Appliances (Hangzhou) Co., Ltd.

President: Kazuhiko Kuroki
Location: Xia Sha, Hangzhou Economic & Technological Development Area, Zhejiang Province
Capital: 760 million yuan (10.7 billion yen)¹
Equity: 100% owned by Matsushita Electric (China) Co., Ltd.
Foundation: September 29, 2004
Operations: Manufacturing and marketing of electric home appliances and air conditioning compressors

Panasonic Home Appliances (Hangzhou) Precision Machining Co. Ltd.

President: Kazuhiko Kuroki
Location: Xia Sha, Hangzhou Economic & Technological Development Area, Zhejiang Province
Capital: 200 million yuan (2.8 billion yen)¹
Equity: 100% owned by Matsushita Electric (China) Co., Ltd.
Foundation: April 28, 2004
Operations: Precision processing of components for air conditioning compressors

Production: Scheduled to commence in October 2005 (for the two companies)
Production volume²: 1.8 billion yuan (26 billion yen¹, for 2006)
Number of employees²: 2,600 (for 2006)
Lot area²: 146,000 square meters
Floor space²: 53,000 square meters

¹ Exchange rate: 1 yuan = 14.1 yen

ANNOUNCEMENT OF FINANCIAL RESULTS

(Note: Dollar amounts for the most recent period have been translated for convenience at the rate of U.S.\$1.00 = 111 yen.)

MATSUSHITA REPORTS SECOND QUARTER AND FIRST HALF RESULTS

- Earnings exceed previous forecast -

Osaka, Japan, October 28, 2004 Matsushita Electric Industrial Co., Ltd. (Matsushita [NYSE symbol: MC]) today reported its consolidated financial results for the second quarter and first half, and non-consolidated (parent company alone) results for the first half, ended September 30, 2004, of the current fiscal year, ending March 31, 2005 (fiscal 2005).

Table of Contents

- 2 -

Consolidated Second-quarter Results¹

Consolidated group sales for the second quarter increased 18% to 2,216.5 billion yen (U.S.\$19.97 billion), from 1,876.1 billion yen in the same three-month period a year ago. Of the total, domestic sales increased 35% to 1,150.1 billion yen (\$10.36 billion). Overseas sales also improved, up 4% to 1,066.4 billion yen (\$9.61 billion). Excluding the effects of currency translation, overseas sales increased 8% from a year ago on a local currency basis².

During the second quarter, the domestic economy in Japan showed moderate recovery in consumer spending, as well as increases in both exports and capital investment by corporations, although concerns arose regarding inventory adjustments that began in some areas of the electronic components industry and rising materials costs, including crude oil prices. Overseas, the U.S. economy showed modest progress, mainly a result of proactive monetary and low-interest rate policies. Meanwhile, the economy in China also continued high growth, despite government policies to curb excessive capital expenditure.

In fiscal 2005, the first year of Matsushita's three-year Leap Ahead 21 plan, the company implemented initiatives relating to product competitiveness, enhanced profitability and strengthened overseas businesses, all aimed at achieving global excellence and sustainable growth. Regarding product competitiveness, Matsushita is focusing management resources into growth areas, while developing a new line of competitive V-products that incorporate proprietary black-box technologies, universal design concepts and environmentally friendly features. To enhance profitability, the company is accelerating business restructuring initiatives that will improve productivity. Matsushita is also focusing efforts on the reduction of inventories and overall costs. To strengthen overseas businesses, Matsushita will continue to promote simultaneous global product introductions to meet rising worldwide demand for digital products for consumer use. Finally, through collaboration activities with Matsushita Electric Works, Ltd. (MEW), the new Matsushita Group will provide customers all over the world with solutions for comfortable living based on the concepts of security and brand loyalty, as well as providing products that are easy to use and inspiring.

-
1. On April 1, 2004, Matsushita acquired a controlling interest in Matsushita Electric Works, Ltd. (MEW). As a result, MEW, PanaHome Corporation (PanaHome) and their respective subsidiaries became consolidated subsidiaries of the company. Just as in the previously-announced first quarter results, the current second quarter and first half consolidated results include the results of these subsidiaries on a full consolidated basis. For more information, see Notes 6 and 8 of Notes to consolidated financial statements on pages 17 and 18.
 2. Sales on a local currency basis is not a measure conforming with U.S. GAAP. However, the company believes that this measure is useful to investors in promoting understanding of the company's business conditions by excluding the influence of foreign currency exchange rate fluctuations.

Table of Contents

- 3 -

Regarding earnings, negative factors such as a strong yen, rising raw materials costs and intensified global price competition were more than offset by sales increases, as well as cost reductions and other positive factors. As a result, operating profit³ increased to 112.9 billion yen (\$1.02 billion), up 89% compared with 59.6 billion yen in the same three-month period a year ago. In other income (deductions), the company recorded a 4.0 billion yen (\$36 million) gain from the transfer by one of the company's subsidiaries of the substitutional portion of the Employees Pension Funds (EPF) to the Government⁴, and incurred restructuring charges of 44.3 billion yen (\$399 million), including expenses associated with the implementation of early retirement programs at certain of the company's domestic subsidiaries. These, and other factors, resulted in a 77% increase in income before income taxes to 56.8 billion yen (\$512 million), from 32.1 billion yen in last year's second quarter. Net income for the second quarter totaled 23.4 billion yen (\$210 million), up 14% from 20.4 billion yen in the same quarter of the previous year.

This resulted in a net income per common share of 10.10 yen (\$0.09) on a diluted basis in the second quarter, versus 8.68 yen on the same basis a year ago.

Consolidated First-half Results

Combining the second quarter results with those of the first quarter, consolidated group sales for the first fiscal half ended September 30, 2004 increased 19% to 4,318.5 billion yen (\$38.91 billion), compared with 3,639.7 billion yen in the same six-month period a year ago. Domestic sales increased 31% to 2,202.9 billion yen (\$19.85 billion), while overseas sales were up 8% to 2,115.6 billion yen (\$19.06 billion). Excluding the effects of currency translation, overseas sales increased 12% from a year ago on a local currency basis.

For reasons similar to those given for second quarter results, the company's operating profit for the first fiscal half increased 96% to 156.3 billion yen (\$1.41 billion), from 79.6 billion yen in the comparable period a year ago.

3. For information about operating profit, see Note 2 of Notes to consolidated financial statements on page 17.

4. For information about the transfer of the substitutional portion of the EPF to the Government, see Note 5 of Notes to consolidated financial statements on page 17.

Table of Contents

- 4 -

Income before income taxes for the six-month period more than doubled (up 140%) to 137.3 billion yen (\$1.24 billion), compared with 57.3 billion yen a year ago. In other income (deductions), the company incurred restructuring charges of 48.2 billion yen, while recording a 31.5 billion yen gain from the transfer of the substitutional portion of the EPF to the Government. Net income was also up, increasing 143% to 56.2 billion yen (\$506 million), as compared with 23.1 billion yen in the first half of the previous year. The company's net income per common share was 24.26 yen (\$0.22) on a diluted basis, versus 9.83 yen in the first half of last year.

Consolidated First-half Sales Breakdown by Product Category

Effective April 1, 2004, the company reclassified its previous five product categories (AVC Networks, Home Appliances, Components and Devices, JVC, and Other) into six new product categories to reflect the consolidation of MEW, PanaHome and their respective subsidiaries¹. The six new product categories are: AVC Networks, Home Appliances, Components and Devices, MEW and PanaHome, JVC, and Other.

An unusually hot summer in Japan, rising demand for digital audiovisual (AV) products and consumer demand related to the Athens Olympics contributed to steady sales gains in digital AV products, including V-products, as well as Home Appliances, and Components and Devices. The consolidation of MEI and PanaHome is also a factor for the increase in consolidated sales. The company's first-half consolidated sales by reclassified product category, as compared with prior year amounts, are summarized as follows:

AVC Networks

AVC Networks sales increased 1% to 1,746.0 billion yen (\$15.73 billion), from 1,726.5 billion yen in the same six-month period a year ago. Within this category, sales of video and audio equipment increased 9%, due mainly to strong sales of digital AV products, such as flat-panel TVs and digital cameras, which were more than sufficient to offset sales declines in audio equipment.

Sales of information and communications equipment were down 4% from the previous year's first half. Although increased sales were recorded for PCs and automotive electronics, sluggish sales in cellular phones, fixed-line telephones and facsimile machines led to an overall decline.

Table of Contents

- 5 -

Home Appliances

Sales of Home Appliances increased 4% to 609.4 billion yen (\$5.49 billion), compared with 586.2 billion yen in the previous year's first half. Within this category, products such as air conditioners and compressors recorded sales gains, due mainly to an unusually hot summer in Japan. Sales of washing machines and ventilating fans also increased.

Components and Devices

Sales of Components and Devices were up 4% to 582.5 billion yen (\$5.25 billion), compared with 562.7 billion yen in the first half of the previous year. Although sales of electric motors and batteries decreased from the same period a year ago, sales of semiconductors and general components increased steadily.

MEW and PanaHome

Sales of MEW and PanaHome (MEW, PanaHome and their respective subsidiaries) totaled 711.6 billion yen (\$6.41 billion).

JVC

Sales for JVC (Victor Company of Japan, Ltd. and its subsidiaries) totaled 354.2 billion yen (\$3.19 billion), down 12% from 403.7 billion yen in the first half of the previous year. Whereas sales of AV equipment increased in the Japanese domestic market, overseas sales, particularly in the Americas, declined from the same period a year ago. Sales decreases were also recorded in software.

Other

Sales for Other were down 13% to 314.8 billion yen (\$2.84 billion), from 360.6 billion yen a year ago. Strong sales were achieved for factory automation (FA) equipment and industrial-use equipment. However, the reclassification of MEW products (those traditionally sold through the parent company) into a new product category (MEW and PanaHome) resulted in overall lower sales.

Table of Contents

- 6 -

Consolidated Financial Condition

Net cash provided by operating activities in the fiscal 2005 first half amounted to 146.5 billion yen (\$1.32 billion). This was attributable to improved net income and an increase in depreciation, despite increased inventories caused by seasonal factors. Net cash used in investing activities amounted to 26.8 billion yen (\$0.24 billion). This was attributable mainly to capital expenditures of 134.6 billion yen in manufacturing facilities for priority business areas such as semiconductors, despite an increase in cash flows due to the consolidation of MEW and PanaHome. Net cash used in financing activities was 157.4 billion yen (\$1.42 billion). Major factors included a repurchase of the company's common stock and the transfer of certain employee deposits and advances to external institutions. All these activities resulted in cash and cash equivalents of 1,253.6 billion yen (\$11.29 billion) at the end of the fiscal 2005 first half.

The company's consolidated total assets as of September 30, 2004 increased 967.3 billion yen as compared with the end of the last fiscal year (March 31, 2004), to 8,405.4 billion yen (\$75.72 billion). The increase was mainly due to the consolidation of MEW and PanaHome. Stockholders' equity increased 153.0 billion yen, as compared with the end of the last fiscal year (March 31, 2004), to 3,604.6 billion yen (\$32.47 billion) as of September 30, 2004. This increase was due to an increase in retained earnings and a decrease in accumulated other comprehensive loss, owing to the return to the Government of the substitutional portion of the EPF that resulted in a decrease in minimum pension liability adjustments, despite an increase in treasury stock on continued repurchases of the company's own shares.

Non-Consolidated (Parent Company Alone) First Half Results⁵

First-half parent-alone sales increased 6% to 2,071.3 billion yen, from 1,958.9 billion yen in the same six-month period a year ago. Sales increases were recorded in all product categories.

Regarding parent-alone earnings, operating profit totaled 59.7 billion yen, up 288% from 15.4 billion yen a year ago. This increase was realized mainly by sales gains and various cost reduction initiatives. Recurring profit also increased 27% to 68.1 billion yen, from 53.7 billion yen in the previous first half. In addition to operating profit, factors affecting recurring profit included dividend income and provisions for losses on investments. Parent-alone net income increased, up 10% to 50.4 billion yen, from 45.9 billion yen in the first half of last year, despite restructuring charges of 11.5 billion yen.

5. Non-consolidated (parent company alone) results are in conformity with Japanese generally accepted accounting principles.

Table of Contents

- 7 -

Interim Dividend

The Board of Directors of the company voted today to distribute an interim (semiannual) cash dividend of 7.50 yen per common share to shareholders of record on September 30, 2004, payable November 30, 2004. This dividend rate is changed from the interim dividend of last year (6.25 yen), based on a new policy for profit distribution to shareholders (see page 26).

Year-end Dividend

The Board of Directors of the company also voted today in favor of a plan to propose a year-end cash dividend of 7.50 yen per common share (payable to shareholders of record on March 31, 2005) subject to approval at the company's ordinary general meeting of shareholders to be held in June 2005. If implemented, total dividends for fiscal 2005, including the aforementioned interim dividend of 7.50 yen per common share, will be 15.00 yen per common share (see page 26).

Outlook for the Full Fiscal Year 2005

Regarding the business environment for the second half of fiscal 2005, the company currently expects to encounter severe conditions, such as wide-spreading concern for slower economic growth in Japan and the United States, ever intensifying global price competition, and increasing oil prices. Considering these conditions, Matsushita, as of today, has not changed its previous forecast for the full fiscal year 2005, announced on April 28, 2004. At that time, the company forecasted fiscal 2005 sales on a consolidated basis to increase by about 18%, compared to fiscal 2004, to approximately 8,800 billion yen. The operating profit outlook is also unchanged from April 28, 2004, at which time the company forecasted fiscal 2005 operating profit to increase by about 43% from fiscal 2004 to approximately 280 billion yen, with consolidated income before income taxes⁶ anticipated to rise to approximately 230 billion yen, up 35% from fiscal 2004. Net income was expected to improve to approximately 63 billion yen, an increase of 49% from the previous fiscal year. This forecast also remains unchanged.

6. Other income (deductions) affecting the forecast of income before income taxes consists of other income expected to amount to 25 billion yen, and restructuring charges forecasted at 75 billion yen.

Table of Contents

- 8 -

Similarly, on a parent company alone basis, Matsushita did not alter its forecast made on April 28, 2004. At that time, sales in fiscal 2005 were expected to decrease by 2%, compared to fiscal 2004, to approximately 4,020 billion yen. Recurring profit was projected to increase 1% from fiscal 2004 to approximately 106 billion yen, and net income was forecast to increase 21% from fiscal 2004 to approximately 72 billion yen.

The company will review these forecasts again, and make any announcement regarding a revision at the time of the announcement of fiscal 2005 third quarter results.

Matsushita Electric Industrial Co., Ltd., best known for its Panasonic brand products, is one of the world's leading manufacturers of electronic and electric products for consumer, business and industrial use. Matsushita's shares are listed on the Tokyo, Osaka, Nagoya, New York, Euronext Amsterdam, and Frankfurt stock exchanges. Disclaimer Regarding Forward-Looking Statements

This press release includes forward-looking statements (within the meaning of Section 27A of the U.S. Securities Act of 1933 and Section 21E of the U.S. Securities Exchange Act of 1934) about Matsushita and its Group companies (the Matsushita Group). To the extent that statements in this press release do not relate to historical or current facts, they constitute forward-looking statements. These forward-looking statements are based on the current assumptions and beliefs of the Matsushita Group in light of the information currently available to them, and involve known and unknown risks, uncertainties and other factors. Such risks, uncertainties and other factors may cause the Matsushita Group's actual results, performance, achievements or financial position to be materially different from any future results, performance, achievements or financial position expressed or implied by these forward-looking statements. Matsushita undertakes no obligation to publicly update any forward-looking statements after the date of this press release. Investors are advised to consult any further disclosures by Matsushita in its subsequent filings with the U.S. Securities and Exchange Commission pursuant to the Securities Exchange Act of 1934.

The risks, uncertainties and other factors referred to above include, but are not limited to, economic conditions, particularly consumer spending and corporate capital expenditures in the United States, Europe, Japan and other Asian countries; volatility in demand for electronic equipment and components from business and industrial customers, as well as consumers in many product and geographical markets; currency rate fluctuations, notably between the yen, the U.S. dollar, the euro, Asian currencies and other currencies in which the Matsushita Group operates businesses, or in which assets and liabilities of the Matsushita Group are denominated; the ability of the Matsushita Group to respond to rapid technological changes and changing consumer preferences with timely and cost-effective introductions of new products in markets that are highly competitive in terms of both price and technology; the ability of the Matsushita Group to realize expected benefits of various restructuring activities in its business and organization; the ability of the Matsushita Group to achieve its business objectives through joint ventures and other collaborative agreements with other companies; the ability of the Matsushita Group to maintain competitive strength in many product and geographical areas; current and potential, direct and indirect restrictions imposed by other countries over trade, manufacturing, labor and operations; and fluctuations in market prices of securities and other assets in which the Matsushita Group has holdings; as well as future changes or revisions to accounting policies or accounting rules.

Table of Contents

- 17 -

Notes to consolidated financial statements:

1. The company's consolidated financial statements are prepared in conformity with U.S. generally accepted accounting principles.
2. In order to be consistent with generally accepted financial reporting practices in Japan, operating profit is presented as net sales less cost of sales and selling, general and administrative expenses. The company believes that this is useful to investors in comparing the company's financial results with those of other Japanese companies. Please refer to the accompanying consolidated statement of income and Note 4 for U.S. GAAP reconciliation.
3. Comprehensive income was reported as a gain of 191,419 million yen (\$1,724 million) for the first half ended September 30, 2004, a gain of 29,635 million yen for the first half ended September 30, 2003, and a gain of 348,285 million yen for the year ended March 31, 2004. Comprehensive income includes net income and increases (decreases) in cumulative translation adjustments, unrealized holding gains (losses) of available-for-sale securities, unrealized gains (losses) of certain derivative instruments and minimum pension liability adjustments.
4. Restructuring charges in Other income (deductions) of the consolidated statement of income for the first half ended September 30, 2004 includes expenses associated with the implementation of early retirement programs at certain domestic companies. Under U.S. generally accepted accounting principles, these charges are included as part of operating profit in the statement of income.
5. Certain of the company's subsidiaries obtained approvals from Japan's Ministry of Health, Labour and Welfare for exemption from the past benefit obligation with respect to the portion of the Employees Pension Funds that certain of the company's subsidiaries operated for the Government (the so-called substitutional portion), and transferred the substitutional portion to the Government in the first half ended September 30, 2004. The gain of 31,509 million yen (\$284 million) from the transfer of the substitutional portion of the Japanese Welfare Pension Insurance is reported as other income in the consolidated statement of income.
6. On April 1, 2004, the company acquired 19.2% of the issued common shares of MEW through a tender offer, of which the company had a 31.8% equity ownership until then, to obtain its controlling interest. This acquisition also resulted in another acquisition of controlling interest of PanaHome because both the company and MEW have 27% equity ownership. The acquired assets and assumed liabilities on April 1, 2004 are as shown below. As a result, the total assets at the beginning of the period increased 1,043,282 million yen, the balance that deducts 343,844 million yen, the company's new basis of investment in MEW and PanaHome upon the acquisition of additional shares, from 1,387,126 million yen, the total assets acquired.

Table of Contents

- 18 -

7. The company and most of its domestic subsidiaries maintain defined benefit pension plans such as Point-based benefits system and Cash balance pension plans. Several of its domestic subsidiaries have lump-sum payment plans, while several overseas subsidiaries also maintain defined benefit pension plans.
8. The company's business segments are classified according to a business domain-based management system, which focuses on global consolidated management by each business domain, in order to ensure consistency of its internal management structure and disclosure. MEW, PanaHome and their respective subsidiaries became consolidated subsidiaries of the company on April 1, 2004. Accordingly, a new segment, MEW and PanaHome, has been added to the company's business segment classifications from this fiscal year (fiscal 2005).

Principal internal divisional companies or units and subsidiaries operating in respective segments are as follows:

AVC Networks:

Panasonic AVC Networks Company, Panasonic Communications Co., Ltd.,

Panasonic Mobile Communications Co., Ltd., Panasonic Automotive Systems Company,

Panasonic System Solutions Company, Matsushita Kotobuki Electronics Industries, Ltd.

Home Appliances:

Home Appliances Group, Healthcare Business Company, Lighting Company,

Matsushita Ecology Systems Co., Ltd.

Components and Devices:

Semiconductor Company, Matsushita Battery Industrial Co., Ltd.,

Matsushita Electronic Components Co., Ltd., Motor Company

Significant Accounting Policies:

1. Basis of Presentation of Consolidated Financial Statements

The company's consolidated financial statements are prepared in conformity with U.S. generally accepted accounting principles.

2. Inventories

Finished goods and work in process are stated at the lower of cost (average) or market. Raw materials are stated at cost, principally on a first-in, first-out basis, not in excess of current replacement cost.

3. Marketable Securities

The company accounts for debt and equity securities in accordance with Statement of Financial Accounting Standards (SFAS) No.115, Accounting for Certain Investments in Debt and Equity Securities.

4. Property, Plant and Equipment, and Depreciation

Property, plant and equipment is stated at cost. Depreciation is computed primarily using the declining balance method.

5. Leases

The company accounts for leases in accordance with SFAS No. 13, Accounting for Leases.

6. Income Taxes

Income taxes are accounted under the asset and liability method. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the fiscal year that includes the enactment date.

7. Retirement and Severance Benefits

The company accounts for retirement and severance benefits in accordance with SFAS No. 87, Employer's Accounting for Pensions. The transfer of the substitutional portion of Japanese Welfare Pension Insurance is accounted in accordance with the Emerging Issues Task Force (EITF) Issue 03-2, Accounting for the Transfer to the Japanese Government of the Substitutional Portion of Employee Pension Fund Liabilities.

8. Derivative Financial Instruments

The company accounts for derivative financial instruments in accordance with SFAS No. 133, Accounting for Derivative Instruments and Hedging Activities.

Notes to parent-alone financial statements:

1. In accordance with the Regulations concerning Corporate Financial Statements under the Japanese Commercial Code, amounts less than 1 million yen have been omitted in the accompanying parent-alone financial statements. The sum of the subtotals may differ from the actual total.
2. Similarly, in the description on page 6 and 7 regarding parent-alone results and in parent-alone sales breakdown above, amounts less than one-tenth of a billion yen are truncated.

Edgar Filing: MATSUSHITA ELECTRIC INDUSTRIAL CO LTD - Form 6-K

3. Non-recurring profit for the first half ended September 30, 2004 includes 5,045 million yen related to the sale of securities. Non-recurring loss for the first half ended September 30, 2004 includes 11,509 million yen for business restructuring expenses such as losses associated with the employment structural reform of several domestic businesses.

4. From this fiscal year (fiscal 2005), the company changed its sales categories to five new categories: AVC Networks, Home Appliances, Components and Devices, MEW Products, and Other, in line with the reclassification made the consolidated sales breakdown upon the consolidation of MEW. Accordingly, sales of several MEW products which were previously included in the Other category have been transferred to the new MEW Products category.

Management Policy

(1) Basic Policy for Corporate Management

Since its establishment, Matsushita has operated its business under its basic management philosophy, which sets forth that the mission of a business enterprise is Contributing to the progress and development of society and the well-being of people through its business activities, thereby enhancing the quality of life throughout the world. Matsushita, as a public entity, is committed to its relationship with all stakeholders.

(2) Basic Policy for Providing Return to Shareholders

Matsushita has steered management operations recognizing the importance of profit return to shareholders since the company's establishment. Historically, Matsushita has distributed dividends at a stable level to its shareholders, however, concurrently with the implementation of its mid-term growth strategy, Matsushita aims for providing return to shareholders, taking into consideration the results of operations, in order to further implement shareholder-oriented management.

In particular, Matsushita will provide return to shareholders through dividend payments and own share repurchases, upon careful consideration of consolidated free cash flows*.

1) Dividends:

From the perspective of return on the capital investment made by shareholders, Matsushita will, in principle, distribute profits to shareholders based on its consolidated business performance. Matsushita aims for promoting stable and continuous growth of return to shareholders, while at the same time taking into consideration various factors including mid-term business performance, capital expenditures requirements and the company's financial condition.

2) Own share repurchases:

Matsushita will implement shareholder-oriented management by enhancing shareholder value per share through a reduction, in effect, of the number of issued and outstanding shares. This will be accomplished by repurchasing the company's own shares with surplus cash flows. Concurrently, Matsushita aims to enhance its business value by utilizing treasury stock for various business strategies.

Edgar Filing: MATSUSHITA ELECTRIC INDUSTRIAL CO LTD - Form 6-K

Based upon the new policy described above, Matsushita increased an interim (semiannual) cash dividend per common share for the current fiscal year from 6.25 yen to 7.50 yen to shareholders of record on September 30, 2004, payable November 30, 2004, and also revised the year-end cash dividend forecast upward from 6.25 yen to 7.50 yen per common share (payable to shareholders of record on March 31, 2005) subject to approval at the company's ordinary general meeting of shareholders to be held in June 2005.

If implemented, total dividends for fiscal 2005, including the aforementioned interim dividend of 7.50 yen per common share, will be 15.00 yen per common share.

*Matsushita defines free cash flows as the sum of net cash provided by operating activities and net cash used in investing activities.

Table of Contents

- 27 -

(3) Company's Policy on Reduction of the Share Trading Unit Size

The amendments to the Japanese Commercial Code that took effect in October 2001 allow listed companies to reduce the number of shares per unit for trading (share trading unit) on stock markets in Japan. Matsushita has looked into a possibility of exercising this eased restriction, but as of today, the company believes it is too early to do so.

Recognizing the importance of increased participation in capital markets by individual investors, Matsushita, over the years, has implemented various measures with individual shareholders in mind. Some of these include enhancement of the company's investor relations website, more detailed business reports and improved general shareholder meeting arrangements. Although Matsushita is aware that a reduction in the trading unit size is an effective method for broadening its individual shareholder base, the company would incur significant costs in doing so. Meanwhile the potential benefits of such a measure have yet to be verified. Matsushita would consider a possible change in the trading unit size only at such time as the aforementioned advantages and benefits could be verified.

(4) Corporate Management Strategies and Challenges

Matsushita aims to become one of the top-class global companies in 2010, by pursuing the management objectives of contributing to the realization of a ubiquitous networking society and coexistence with the environment, thus providing its customers with valued products and services.

To this end, the company established the mid-term (three-year) management plan "Leap Ahead 21," and began implementing initiatives to materialize sustainable growth. From fiscal 2005, the first year of the plan, through fiscal 2007, Matsushita is implementing various measures to "secure its growth track" as follows:

<Principal Initiatives for Fiscal 2005>

1. V-products

For fiscal 2005, Matsushita plans to launch 71 new V-products on a group-wide basis. It targets approximately 1.5 trillion yen in sales of these products, surpassing the previous year's result. During the first half of fiscal 2005, sales of flat panel TVs, digital cameras and air conditioners, among others, recorded strong sales of about 600 billion yen as a total for V-products. Matsushita intends to continuously develop these new V-products with emphasis on the application of proprietary "black-box" technologies, universal design and eco-friendly innovations, and expand the markets for these products globally, with an aim to form solid pillars of growth.

Table of Contents

- 28 -

2. R&D and Intellectual Property Rights Strategies

Matsushita will concentrate its management resources on strategically important development themes, in line with the company's ten-year technology vision as the core of its corporate-wide R&D strategy. Specifically, the company will step up the development of such products as next-generation system LSIs, networkable electronic home appliances and fuel cell co-generation systems. With respect to intellectual property rights, Matsushita will further strengthen its competitive edge, by more globally establishing its patent rights, along with effective utilization thereof, for fundamental networking technologies to support a ubiquitous networking society, and standards for such products as DVD-related products.

3. Overseas Strategy

Matsushita will continue its ongoing initiatives to strengthen overseas operations as a corporate growth engine. In particular, Matsushita will further promote the simultaneous global product introduction of new strategic products. In China, as a priority region, the company will construct the Matsushita Hangzhou Industrial Park in Zhejiang Province, which the company positions as the strategically important production hub for its home appliances business in the country. By expanding and building up production bases, the company will strive to achieve approximately 1 trillion yen in total production in China in fiscal 2006, and target to achieve sales of about 1 trillion yen in fiscal 2007.

4. Strengthening the Company's Financial Structure

Matsushita will enhance its earnings capability and financial structure, by thoroughly conducting rationalization of materials purchasing costs and inventories reduction, as well as through other initiatives, including a cost and expense reduction project initiated in fiscal 2004.

5. Collaboration with Matsushita Electric Works, Ltd. (MEW)

Through the comprehensive collaboration that Matsushita started with MEW in fiscal 2005, the two companies seek to enhance corporate value for the new Matsushita Group with an optimum management structure being developed from a customer viewpoint. By combining each company's management resources under a unified brand/management strategy, the two companies aim to achieve synergy effects, offering solutions for comfortable living, to create greater growth opportunities and increased productivity, thus envisioning a leap towards a globally excellent enterprise. Matsushita and MEW agreed to integrate the electrical supplies, building materials and equipment, and home appliances businesses of the two, based upon the fundamental goal of making the best use of each company's strength in overlapping areas in R&D, manufacturing and sales. Matsushita's Panasonic Center and MEW's Shiodome Showroom were renovated to be the main corporate communications facilities for the new Matsushita Group. The two showrooms were remodeled and reopened in the new names of Panasonic Center Tokyo and National Center Tokyo where customers can see and feel Progress and Excitement first hand.

Table of Contents

- 29 -

(5) Corporate Governance, Concept and Initiatives

1. A New Structure that Enables Enhanced Governance

Based on its basic philosophy of contributing to society as a public entity, Matsushita over the years has been committed to the enhancement of its corporate governance. As such, it was one of the first Japanese companies to invite outside directors on its Board of Directors and also established an Advisory Board comprised of distinguished outside leaders.

In fiscal 2004, Matsushita implemented drastic reforms to establish an optimum management and governance structure tailored to the Group's new business domain-based organizational structure. Under the new structure, Matsushita has empowered each of the business domain companies by delegating authority in order to thoroughly implement their autonomously responsible management. At the same time, an Executive Officer System, for execution of business at various domestic and overseas Group companies, was introduced, also facilitating the development of optimum corporate strategies that integrate the Group's comprehensive strengths. In addition, Matsushita realigned the role and structure of the Board of Directors to conduct swift and strategic decision-making, as well as optimum monitoring, on group-wide matters. Specifically, the Board of Directors can now concentrate on corporate strategies and supervision of business domain companies, as opposed to Executive Officers, who have responsibilities relating to day-to-day operations. Taking into consideration the diversified scope of Matsushita's business operations, the company has, however, opted to maintain a system where Executive Officers, who are most familiar with the specifics of respective operations, take an active part in the Board of Directors. Through these reforms, the Board of Directors itself has been reduced in number, with terms shortened to one year.

While also strengthening the company's existing Corporate Auditors System, in order to augment internal auditing functions in business domain companies, Matsushita assigned full-time Auditors at each internal divisional company and, furthermore, inaugurated the Group Auditors Meeting to enhance their collaboration with the corporate auditors at Matsushita subsidiaries.

Table of Contents

- 30 -

2. Establishment of Internal Control Structure over Financial Reporting and Corporate Disclosure

Since last year, Matsushita worked on documenting the appropriate systems and procedures in operations from the control environment up to actual internal control activities, and appointed internal auditing managers in each of the business domain companies, who will check on how requisites are observed (or the effectiveness of internal controls) under the overall supervision of the Corporate Internal Auditing Group, both in order to ensure the reliability of the company's financial reporting. In fiscal 2005, the company will reinforce its internal controls by implementing self-assessment (self-check), in addition to regular internal auditing, at all organizational units throughout the Matsushita Group.

Furthermore, in order to ensure and enhance the transparency and accountability of its business, the company has also established the Internal Control and Disclosure Committee with which it has been checking the propriety of statements and descriptions in the company's annual reports, while confirming that of procedures regarding disclosure controls.

Table of Contents

- 31 -

3. Compliance, etc.

In 1992, the company established the Code of Conduct for Directors, Executives, Corporate Auditors and employees, which was further amended in 1998. In addition, the company newly established the Code of Ethics for Directors and Executive Officers, with which it encourages its Directors on the Board and Executive Officers to fully comply with the code to show good examples to employees. It also compiled an in-company handbook called the Corporate Compliance Guide as a concise guidebook plainly explaining the laws and ordinances to be observed in day-to-day operations, and delivered it to all personnel at the manager level or above, while also providing training seminars. Furthermore, in December 2003, the company conducted monitoring of corporate business ethics for employees of major domestic and overseas companies of the Matsushita Group, to check the actual observation status of the company's code of conduct and business ethics and compliance, thus making efforts toward the identification and solution of possible problems.

Disclaimer Regarding Forward-Looking Statements

This press release includes forward-looking statements (within the meaning of Section 27A of the U.S. Securities Act of 1933 and Section 21E of the U.S. Securities Exchange Act of 1934) about Matsushita and its Group companies (the Matsushita Group). To the extent that statements in this press release do not relate to historical or current facts, they constitute forward-looking statements. These forward-looking statements are based on the current assumptions and beliefs of the Matsushita Group in light of the information currently available to it, and involve known and unknown risks, uncertainties and other factors. Such risks, uncertainties and other factors may cause the Matsushita Group's actual results, performance, achievements or financial position to be materially different from any future results, performance, achievements or financial position expressed or implied by these forward-looking statements. Matsushita undertakes no obligation to publicly update any forward-looking statements after the date of this press release. Investors are advised to consult any further disclosures by Matsushita in its subsequent filings with the U.S. Securities and Exchange Commission pursuant to the Securities Exchange Act of 1934.

The risks, uncertainties and other factors referred to above include, but are not limited to, economic conditions, particularly consumer spending and corporate capital expenditures in the United States, Europe, Japan and other Asian countries; volatility in demand for electronic equipment and components from business and industrial customers, as well as consumers in many product and geographical markets; currency rate fluctuations, notably between the yen, the U.S. dollar, the euro, Asian currencies and other currencies in which the Matsushita Group operates businesses, or in which assets and liabilities of the Matsushita Group are denominated; the ability of the Matsushita Group to respond to rapid technological changes and changing consumer preferences with timely and cost-effective introductions of new products in markets that are highly competitive in terms of both price and technology; the ability of the Matsushita Group to achieve its business objectives through joint ventures and other collaborative agreements with other companies; the ability of the Matsushita Group to maintain competitive strength in many product and geographical areas; current and potential, direct and indirect restrictions imposed by other countries over trade, manufacturing, labor and operations; and fluctuations in market prices of securities and other assets in which the Matsushita Group has holdings; as well as future changes or revisions to accounting policies or accounting rules.

Matsushita Announces New Policy for Providing Return to Shareholders,

and Increase of Interim Dividends for Fiscal 2005

Together with Revision of Year-end Dividend Forecast

Osaka, Japan, October 28, 2004 Matsushita Electric Industrial Co., Ltd. (Matsushita [NYSE symbol: MC]), best known for its Panasonic brand, today announced that its Board of Directors decided to adopt a new policy for providing return to its shareholders and, based upon the policy, to increase the interim dividend per share for the current fiscal year and revise upward the year-end dividend forecast.

Details are as follows:

1. **Background**

Matsushita will take all necessary measures to complete structural reforms by the end of the current fiscal year, and is accelerating the growth strategy of the new Matsushita Group to achieve its new mid-term management plan, Leap Ahead 21. Historically, Matsushita has distributed dividends at a stable level to its shareholders, however, concurrently with the implementation of its mid-term growth strategy, Matsushita aims for providing return to shareholders, taking into consideration the results of operations, in order to further implement shareholder-oriented management.

2. **New Policy for Providing Return to Shareholders**

Edgar Filing: MATSUSHITA ELECTRIC INDUSTRIAL CO LTD - Form 6-K

Matsushita aims to maximize corporate value by enhancing its reputation in capital markets through the steady growth of its mid-term business performance and return of profits to shareholders, based on its consolidated business performance.

In particular, Matsushita will provide return to shareholders through dividend payments and own share repurchases, upon careful consideration of consolidated free cash flows*.

Table of Contents

- 2 -

1) Dividends:

From the perspective of return on the capital investment made by shareholders, Matsushita will, in principle, distribute profits to shareholders based on its consolidated business performance. Matsushita aims for promoting stable and continuous growth of return to shareholders, while at the same time taking into consideration various factors including mid-term business performance, capital expenditures requirements and the company's financial condition.

2) Own share repurchases:

Matsushita will implement shareholder-oriented management by enhancing shareholder value per share through a reduction, in effect, of the number of issued and outstanding shares. This will be accomplished by repurchasing the company's own shares with surplus cash flows. Concurrently, Matsushita aims to enhance its business value by utilizing treasury stock for various business strategies.

3. Dividends for the Fiscal Year Ending March 2005 (Fiscal 2005)

Based upon the new policy described above, Matsushita increased the interim dividend per share for the current year payable to shareholders of record on September 30, 2004, and also revised the year-end dividend forecast upward, payable to shareholders of record on March 31, 2005, subject to approval at the company's ordinary general meeting of shareholders to be held in June 2005, as follows:

	Interim Dividend	Year-end Dividend	Total Amount of Dividends
	per Share	per Share	per Share
	per Share	per Share	for the Fiscal Year
Previous forecast	6.25 yen	6.25 yen	12.50 yen
Revised amount (Reference)	7.50 yen	7.50 yen	15.00 yen
Dividends for the previous fiscal year	6.25 yen	7.75 yen (Including 1.50 yen Commemorative dividend)	14.00 yen (Including 1.50 yen Commemorative dividend)

(Reference) Information concerning share repurchases

1) The following details were resolved at the Board of Directors meeting held on August 27, 2004:

Class of shares: Common stock

Aggregate number of repurchasable shares: Up to 80 million shares

Aggregate repurchase amount: Up to 100 billion yen

Period of repurchase: Between August 30, 2004 and late March 2005

- 2) Cumulative total of shares repurchased since the August 27, 2004 Board of Directors resolution through today:

Aggregate number of shares repurchased: 19,904,000 shares

Aggregate repurchase amount: 29,998,265,000 yen

- 3) The number of shares issued and treasury stock as of September 30, 2004:

Total number of shares issued (excluding treasury stock): 2,304,526,376 shares

Treasury stock: 148,527,121 shares

Table of Contents

Matsushita to Close MT Picture Display Corporation of America (New York)

Osaka, Japan, October 28, 2004 Matsushita Electric Industrial Co., Ltd. - MEI (NYSE symbol: MC), best known for its Panasonic brand, today announced plans to discontinue operations at MT Picture Display Corporation of America (New York) - MTPDA(NY) in December 2004, after which it will begin closing/liquidation procedures. MTPDA(NY) is a subsidiary of Matsushita Toshiba Picture Display Co., Ltd. - MTPD, which is a joint venture of MEI and Toshiba Corporation.

MTPDA(NY) which manufactures cathode ray tubes (CRTs) for TV s above 30 inches in the North American market has faced severe price and market erosion due to the increasing popularity of flat-panel TVs and declines in demand as a result of price competitive imports, mainly from Asia. This closing is a part of the company s global restructuring initiatives in the CRT business. In the future, CRTs for the North American market will be supplied by other manufacturing locations in order to establish an optimum CRT manufacturing structure.

MTPDA(NY) was originally established in 1985 by Toshiba Corporation as a manufacturing base for CRTs. The company subsequently became a subsidiary of MTPD upon its establishment in April 2003. MTPDA(NY) specialized in the manufacture of CRTs above 30 inches, supplying some 950,000 units annually to the North American market.

Hitachi, Toshiba and Matsushita

Conclude Agreement for Establishment of TV LCD Panel Joint

Venture, IPS Alpha Technology

Tokyo, October 29, 2004 Hitachi, Ltd. (NYSE:HIT / TSE: 6501, Hitachi), Toshiba Corporation (TSE: 6502, Toshiba), Matsushita Electric Industrial Co., Ltd. (NYSE: MC / TSE: 6752, Matsushita) and wholly owned Hitachi subsidiary Hitachi Displays, Ltd. (Hitachi Displays) today officially concluded a joint venture agreement to establish a company to manufacture and sell LCD panels for flat panel TVs. This agreement follows a basic agreement signed on August 31 this year.

The joint venture, to be called IPS Alpha Technology, Ltd. (IPS Alpha), is scheduled to commence operations on January 1, 2005. President of Hitachi Displays, Mr. Fumiaki Yonai, will serve concurrently as president of IPS Alpha.

Table of Contents

- 2 -

*1 IPS Alpha will manufacture LCD panels using Hitachi Displays' world-leading IPS mode system technology. Close collaboration with IPS Alpha is expected to achieve synergies in the production of finished products at Hitachi, Toshiba and Matsushita, allowing them to achieve LCD TVs that are even more competitive in terms of performance and price.

*2 IPS Mode System Technology

In-Plane-Switching (IPS) mode system is a type of TFT LCD display technology. IPS is distinguished by a wide 170-degree viewing angle, both horizontally and vertically, along with minimal gray-scale inversion and viewing-angle dependency, reproducing lifelike images, which is made possible because the liquid crystal molecules can rotate while remaining parallel to the substrate when a voltage is applied, yielding perfect orientation of the crystals. The advanced super (AS)-IPS mode system for use in televisions, large-screen monitors and other applications achieves an approximate 30% improvement in the aperture ratio over conventional IPS technology. Furthermore, AS-IPS realizes a higher level of brightness and reproduces colors more realistically thanks to high-purity color filters and other proprietary technologies.

Outline of IPS Alpha

1. Company name:	IPS Alpha Technology, Ltd.
2. President:	Fumiaki Yonai
3. Commencement of operations:	January 1, 2005
4. Projected capital:	60-70 billion yen
5. Ownership :	Hitachi Displays 30-35 billion yen (50%); Toshiba 15 billion yen (21-25%); Matsushita 15 billion yen (21-25%); other companies 0-5 billion yen (0-8% projected)
6. Location:	Mobara, Chiba Prefecture, Japan
7. Business:	Manufacture, design, sales and related maintenance and services of amorphous TFT LCD panels
8. Capital investment:	Approx. 110 billion yen
9. Products:	Amorphous TFT LCD panels for TVs 23-inches and above
10. Production capacity:	Equivalent of 2.5 million 32-inch units per year (Maximum output scheduled to be realized in second half of fiscal 2008)

(Paragraphs marked *1 and *2 and Items 4. and below in the above outline are based on the prior news release issued on August 31, 2004, titled "Hitachi, Toshiba and Matsushita Agree to Establish a TV LCD Panel Joint Venture. ")
