Note: EBITDA, operating profit, profit before tax and adjusted earnings per share are stated before exceptional items. Britvic is operating a 53 week year in 2004 with the additional week falling in the third quarter. Constant currency stated at 2003 exchange rates

* Not stated as no direct comparables

Strong EPS growth and solid constant currency trading performance:

Adjusted earnings per share grew by 23.5% in the third quarter and by 52.9% year to date.

In constant currency terms, Hotels third quarter turnover was up 3.5% and operating profit up 8.2%, but the weak dollar adversely affected profit in sterling terms.

As highlighted previously, the results are also affected by bonus costs in the quarter compared to the same quarter last year when bonuses were not accrued, as well as continuing weakness in certain major Continental European locations.

Edgar Filing: INTERCONTINENTAL HOTELS GROUP PLC /NEW/ - Form 6-K

October trading was strong and the full year outlook remains positive and in line with company expectations.

Ongoing progress on strategy with hotel sales on track, return of funds on schedule and refinancing of Group debt

The company is well advanced in the sale process of the Americas hotels and encouraging progress is also being made on the sale of the other hotels on the market.

Special dividend of £500m planned to be paid 17 December 2004.

New £1.6bn syndicated committed banking facility announced on 11 November 2004 to provide more flexible and certain financing with reduced costs. Tender offer launched to buy back 600m Eurobond due 2010 and announcement of the redemption of the remaining £18m sterling bonds due 2007.

Commenting on the results, David Webster, Chairman and Interim Chief Executive, InterContinental Hotels Group PLC said:

Earnings per share were well ahead in the third quarter, but trading was mixed with the Americas and Asia Pacific delivering another solid quarter of growth whilst Continental Europe experienced weak demand in certain markets. Trading in October was strong and the outlook for the full year remains positive and in line with our expectations.

Our asset disposal programme continues to progress well, and we are on track with returning funds to shareholders and improving the capital structure of the group. The search for a new CEO is well underway. We remain committed to executing our strategy and we are delivering on it.

Trading and Operating Overview: strong EPS growth and profit growth in Americas and Asia Pacific

Adjusted earnings per share up by 23.5% for the quarter driven by reduced debt, lower year-on-year tax rate and the ongoing benefit of the share buyback programme.

Hotels operating profit in sterling was flat for the quarter, against strong 2003 comparables:

Americas operating profit up 12% from \$75m to \$84m, driven by strong growth in the managed and franchised businesses as a result of strong RevPAR growth across all brands and the Candlewood brand acquisition. Sterling operating profit was down 2% from £47m to £46m in the quarter.

EMEA operating profit down 6% from £36m to £34m, with weak market demand impacting large owned and leased properties in certain locations such as Cannes, Frankfurt and Paris. The UK has continued to grow through the third quarter.

Asia Pacific operating profit up 80% from \$5m to \$9m, against a SARS impacted 2003, with InterContinental Hong Kong gaining market share and strong RevPAR growth in China.

Regional and central overheads of £25m, versus £24m in 2003. Full year total overhead forecast still flat year on year at constant currency.

As highlighted previously, these results have been impacted by the phasing of bonus costs in the quarter which were not charged in 2003, causing a quarter-on-quarter variance of approximately £10m across regional and central costs.

Room revenue delivered to IHG's hotels through IHG's reservation channels was up 19.8% to \$1.09bn in the third quarter 2004:

37.3% of total rooms revenue delivered through IHG's channels in the quarter.

Internet channel revenue growth of 36.2% in the quarter and an increase in share of web delivery through IHG's own sites to 80%; internet revenue represented 12.9% of total system revenue for IHG in the quarter.

Revenue to IHG's hotels from Priority Club Rewards members was up 12.2% to \$841m in the third quarter 2004:

Edgar Filing: INTERCONTINENTAL HOTELS GROUP PLC /NEW/ - Form 6-K

28.1% of room nights booked by Priority Club Rewards members in the quarter versus 27.6% in the same period in 2003.

At a gross level, almost 18,000 rooms (4.5% annualised growth) added to system year-to-date, offset by planned terminations in the US Holiday Inn estate and disposals, to give net growth of 599 rooms.

Global pipeline growth of 10.0% from 70,500 rooms at 30 September 2003 to 77,500 at 30 September 2004.

Previously announced payment of £51m was made into InterContinental Hotels UK pension fund in October 2004.

Improvements in key financial metrics, with annual Return on Capital Employed now up by 1.1% to 5.6% and strong pre-disposal cashflow generation of £146m in the quarter against £123m in same period of 2003.

Strategic overview: hotel sales on track, return of funds on schedule and refinancing of group debt

The company is well advanced in the sale process of the Americas hotels and encouraging progress is also being made on the sale of the other hotels on the market.

Cost savings on track.

£239m of the initial £250m share buyback announced March 2004 is now complete, with 43.9m shares repurchased at an average price per share of £5.44 as of 22 October 2004. Special dividend of £500m planned to be paid 17 December 2004; record date 10 December 2004, as stated in a shareholder circular issued 16 November 2004.

New £1.6bn syndicated banking facility announced 11 November 2004, which will provide flexible committed funding for the medium term with reduced financing costs. The facility will be used to fund, inter alia, a repurchase of the 600m Eurobond and the redemption of the outstanding £18m Eurobond due 2007.

Britvic: revenue growth of 2.2% against difficult comparables; continued investment in the business

Strong performance in the quarter given the considerably poorer summer weather experienced in 2004 versus last year. As a result of continued investment in the business, operating profit was marginally down, at £26m. During the third quarter, Britvic gained market share.

Current Trading

RevPAR growth is still predominantly occupancy-led but with some growth beginning to come from rate as expected at this stage in the recovery. There has been strong growth in individual corporate traveller volumes. October results show strong trading and the full year outlook remains positive and is in line with company expectations.

INTERCONTINENTAL HOTELS GROUP PLC

NOTES TO THE UNAUDITED QUARTERLY FINANCIAL STATEMENTS

1. Basis of preparation of pro forma financial information

Following shareholder and regulatory approval, on 15 April 2003, Six Continents PLC separated into two new groups, InterContinental Hotels Group PLC (IHG) comprising the Hotels and Soft Drinks businesses, and Mitchells & Butlers plc comprising the Retail and Standard Commercial Property Developments businesses. As a result of the Separation, Six Continents PLC became part of IHG.

The pro forma financial information for the three months and nine months to 30 September 2003 comprises the results of those companies that form IHG following the Separation, as if IHG had been in existence since 1 October 2001. The information is provided as guidance only; it is not audited and, as pro forma information, it does not give a full picture of the financial position of the Group. The key assumptions used in the preparation of the information are as follows:

- i. The pro forma information has been prepared using accounting policies consistent with those used in the historic IHG interim and year end financial statements.
- ii. Pro forma interest has been calculated to reflect the post Separation capital structure of the Group as if it had been in place at 1 October 2001, using interest rate differentials applicable under the post Separation borrowing agreements and excluding facility fee amortisation. Dividend payments have been assumed at the expected ongoing level.
- iii. The pro forma tax charge is based on a rate of tax for IHG of 25% applied to pro forma profit before taxation.
- iv. Adjustments have been made, where appropriate, to exclude any arrangements with the Mitchells & Butlers Group.
- v. Pro forma earnings per share is based on pro forma profit available for shareholders divided by 734m shares, being the issued share capital of IHG on Separation.
- vi. The pro forma Profit and Loss account and Cash Flow statement exclude all exceptional items as being non-recurring.

2. Exchange rates

The results of overseas operations have been translated into sterling at the weighted average rates of exchange for the period. In the case of the US dollar, the translation rate for the 3 months ended 30 September is £1=\$1.82 (2003, £1 = \$1.62) and for the 9 months ended 30 September is £1=\$1.82 (2003, £1 = \$1.61).

Foreign currency denominated assets and liabilities have been translated into sterling at the rates of exchange on the last day of the period. In the case of the US dollar, the translation rate is £1=\$1.80 (2003 30 September, £1 = \$1.67; 31 December, £1 = \$1.78).

8. Tax

Tax on profit on ordinary activities has been calculated using an estimated effective annual tax rate of 18% for 2004.

The exceptional tax credit for the nine months to 30 September 2004 comprises a charge of £3m (3 months to 30 September 2004, nil) on exceptional items together with a credit of £150m (3 months to 30 September 2004, £12m) which represents the release of prior year tax provisions and the recognition of a deferred tax asset in respect of capital losses.

9. Earnings per share

Basic earnings per ordinary share is calculated by dividing the profit available for shareholders for the three months to 30 September 2004 of £77m (9 months to 30 September 2004, £345m) by 703m (9 months to 30 September 2004, 719m), being the weighted average number of ordinary shares, excluding investment in own shares, in issue during the period.

Diluted earnings per ordinary share is calculated by adjusting basic earnings per ordinary share to reflect the notional exercise of the weighted average number of dilutive ordinary share options outstanding during the period. The resulting weighted average number of ordinary shares for the three months to 30 September 2004 is 712m (9 months to 30 September 2004, 727m).

Adjusted earnings per ordinary share is calculated as follows:

	2004	2004
	3 months	9 months
	ended	ended
	30 Sept	30 Sept
	pence per	pence per
	ordinary	ordinary
	share	share
Basic earnings	11.0	48.0
Exceptional items, less tax thereon	0.7	(3.1)
Exceptional tax	(1.7)	(20.9)
Adjusted earnings	10.0	24.0

Adjusted earnings per ordinary share is disclosed in order to show performance undistorted by exceptional items.
