This Proxy Statement and accompanying proxy were first forwarded on or about April 6, 2005, to stockholders of record on March 23, 2005.

If the accompanying proxy is properly executed and returned or a stockholder votes his or her proxy by Internet or by telephone, the shares represented by the proxy will be voted at the Annual Meeting. If a stockholder indicates in his or her proxy a choice with respect to any matter to be acted upon, that stockholder's shares will be voted in accordance with such choice. If no choice is indicated, such shares will be voted FOR (a) the election of all of the nominees for directors listed below, (b) the amendment of the Vintage Petroleum, Inc. 1990 Stock Plan, and (c) the ratification of the appointment of the independent registered public accounting firm, and AGAINST the stockholder proposal. A stockholder giving a proxy, whether by mail, the Internet or telephone, may revoke it by giving written notice of revocation to the Secretary of the Company at any time before it is voted, by executing another valid proxy bearing a later date and delivering such proxy to the Secretary of the Company prior to or at the Annual Meeting, by a later-dated vote by Internet or the telephone, or by attending the Annual Meeting and voting in person.

Edgar Filing: VINTAGE PETROLEUM INC - Form DEF 14A

of Common Stock is entitled to one vote. There is no cumulative voting with respect to the election of directors. The presence in person or by proxy of the holders of a majority of the shares issued and outstanding at the Annual Meeting and entitled to vote will constitute a quorum for the transaction of business. Votes withheld from nominees for directors, abstentions and broker non-votes will be counted for purposes of determining whether a quorum has been reached. Votes will be tabulated by an inspector of election appointed by the Board of Directors of the Company. With regard to the election of directors, votes may be cast in favor of or withheld from each nominee; votes that are withheld will have the effect of a negative vote. Abstentions, which may be specified on all proposals except the election of directors, will have the effect of a negative vote. Under applicable Delaware law, a broker non-vote will have no effect on the outcome of the election of directors or other proposals.

PROPOSAL ONE

ELECTION OF DIRECTORS

The Restated Certificate of Incorporation (the Charter) of the Company provides that the Board of Directors of the Company (the Board of Directors) shall consist of not less than three nor more than fifteen directors, as determined from time to time by resolution of the Board of Directors. The number of directors is currently fixed at eight. The Board of Directors is divided into three classes. The terms of such classes are staggered so that only one class is elected at the annual meeting of stockholders each year for a three-year term. The term of the Class III directors, consisting of Charles C. Stephenson, Jr. and Joseph D. Mahaffey, will expire at the Annual Meeting, and the accompanying proxy solicits your vote for two Class III directors. The terms of the Class I directors and the Class II directors will expire at the annual meeting of stockholders to be held in 2006 and 2007, respectively.

In accordance with the recommendation of the Nominating and Corporate Governance Committee, the Board of Directors has nominated Charles C. Stephenson, Jr. and Joseph D. Mahaffey for re-election as directors, each to hold office until the annual meeting of stockholders in 2008 and until his successor is duly elected and qualified, or until the earlier of his death, resignation or retirement. The persons named as proxies in the accompanying proxy, who have been designated by the Board of Directors, intend to vote, unless otherwise instructed in such proxy, for the election of Messrs. Stephenson and Mahaffey. Should either of the nominees become unable for any reason to stand for election as a director of the Company, it is intended that the persons named in such proxy will vote for the election of such other person as the Nominating and Corporate Governance Committee may recommend and the Board of Directors may propose to replace such nominee. The Company knows of no reason why any of the nominees will be unavailable or unable to serve.

The affirmative vote of the holders of a majority of the shares present in person or by proxy at the Annual Meeting and entitled to vote is required for the election of directors. The Board of Directors recommends a vote FOR each of the following nominees for directors.

Corporate Governance and Board Matters

The Company is committed to having prudent corporate governance principles. The Company believes that such principles help maintain the Company's integrity in the marketplace. The Company's Corporate Governance Guidelines are available on the Company's website at <http://www.vintagepetroleum.com> and in print upon request to the Secretary of the Company, 110 West Seventh Street, Tulsa, Oklahoma 74119.

Compensation of Directors. Employee directors receive no additional compensation for service on the Board of Directors or any committee thereof. During 2004, non-employee directors received an annual retainer of \$50,000. In addition, the Chair of the Audit Committee of the Board of Directors received an annual retainer of \$5,000 and the Chair of each other committee of the Board of Directors received an annual retainer of \$3,000. Furthermore, non-employee directors received an annual grant of \$50,000 of restricted stock under the Company's 1990 Stock Plan with vesting to occur upon retirement from the Board of Directors. In December 2004, upon the recommendation of the Compensation Committee of the Board of Directors following its review of market data and other information provided by an independent compensation consultant, the Board of Directors approved an increase in non-employee director compensation. Board Independence. The Board of Directors has affirmatively determined that each of Messrs. Adams, Lawrence, Mahaffey, Maier and McNabb is an independent director under the current listing standards of the New York Stock Exchange. In doing so, the Board determined that each of Messrs. Adams, Lawrence, Mahaffey, Maier and McNabb had no material relationship with the Company (either directly or as a partner, stockholder or officer of an organization that has a relationship with the Company). To guide its determination of whether a director is independent, the Board utilized the categorical standards attached hereto as Exhibit A. Messrs. Stephenson, Abernathy and Barnes are not considered to be independent directors because of their employment as senior executives of the Company.

Meetings and Committees of the Board of Directors. During 2004, the Board of Directors held five meetings. Each director was present at 75% or more of the aggregate of the meetings of the Board of Directors and of the committees of the Board of Directors on which he served during 2004. In addition, the Board of Directors took action seven times during 2004 by unanimous written consent. Each director is encouraged to attend annual meetings of stockholders of the Company. All of the directors, other than Mr. Lawrence, attended the Company's 2004 Annual Meeting of Stockholders.

The Board of Directors has three standing committees: Audit, Compensation and Nominating and Corporate Governance. Each of the members of each of the committees qualifies as an independent director under the current listing standards of the New York Stock Exchange. All committees report on their activities to the Board of Directors.

Audit Committee. The Audit Committee is composed of Messrs. McNabb (Chairman), Lawrence, Maier and Mahaffey. Mr. Mahaffey was the Chairman through December 31, 2004. The Audit Committee operates under a written charter. This charter is available on the Company's website at

<http://www.vintagepetroleum.com> and in print upon request to the Secretary of the Company, 110 West Seventh Street, Tulsa, Oklahoma 74119. The Board of Directors has determined that it has at least one audit committee financial expert serving on the Audit Committee and that person is Mr. McNabb. The Audit Committee assists the Board of Directors in monitoring the integrity of the financial statements of the Company, the independent registered public accounting firm's qualifications and independence, the performance of the Company's internal audit function and independent registered public accounting firm, and the Company's compliance with legal and regulatory requirements. In carrying out these purposes, the Audit Committee, among other things, appoints, evaluates and approves the compensation of the Company's independent registered public accounting firm, reviews and approves the scope of the annual audit and the audit fee, pre-approves all auditing services and permitted non-audit services, annually considers the qualifications of the independent registered public accounting firm and the independence of the independent registered public accounting firm, reviews the results of internal audits, compliance with any of the Company's written policies and procedures and the adequacy of the Company's system of internal accounting controls, prepares the Audit Committee report for inclusion in the annual proxy statement, and annually reviews the Audit Committee charter and the committee's performance. The Audit Committee has also established procedures for the receipt, retention and treatment of complaints received by the Company regarding accounting, internal accounting controls or auditing matters, and the confidential, anonymous submission by employees of the Company of concerns regarding accounting or auditing matters. The Audit Committee met 10 times during 2004. The Audit Committee took action three times during 2004 by unanimous written consent.

Compensation Committee. The Compensation Committee is composed of Messrs. Adams (Chairman), McNabb and Mahaffey. Mr. McNabb was the Chairman through December 31, 2004. The Compensation Committee operates under a written charter. This charter is available on the Company's website at <http://www.vintagepetroleum.com> and in print upon request to the Secretary of the Company, 110 West Seventh Street, Tulsa, Oklahoma 74119. The Compensation Committee has overall responsibility for approving and evaluating the director and officer compensation plans, policies and programs of the Company. Specifically, among other things, the Compensation Committee annually reviews and approves corporate goals and objectives relevant to Chief Executive Officer compensation and evaluates the Chief Executive Officer's performance in light of these goals and objectives, annually reviews and approves salaries, bonuses and equity-based compensation for the Chief Executive Officer, annually reviews and makes recommendations to the Board of Directors with respect to the salaries and bonuses for the other executive officers of the Company and the compensation policies for the non-employee directors of the Company, and administers the Company's 1990 Stock Plan. The Compensation Committee met once during 2004. The Compensation Committee took action 11 times during 2004 by unanimous written consent.

Nominating and Corporate Governance Committee. The Nominating and Corporate Governance Committee is composed of Messrs. Maier (Chairman), Adams, Lawrence and McNabb. The Nominating and Corporate Governance Committee operates under a written charter. This charter is available on the Company's website at <http://www.vintagepetroleum.com> and in print upon request to the Secretary of the Company, 110 West Seventh Street, Tulsa, Oklahoma 74119. The Nominating and Corporate Governance Committee is responsible for recommending candidates to fill vacancies on the Board of Directors as such vacancies occur, as well as the slate of nominees for election as directors by stockholders at each annual meeting of stockholders. Additionally, the Nominating and Corporate Governance Committee makes recommendations to the Board of Directors regarding the composition of and changes in the size of the Board of Directors, director nominees for committees of the Board of Directors and Board corporate governance guidelines applicable to the Company. The Nominating and Corporate Governance Committee leads the Board of Directors in its annual review of the Board's performance and oversees the evaluation of management. The Nominating and Corporate Governance Committee also works with the Board of Directors to identify and evaluate potential successors to the Chief Executive Officer of the Company. The Nominating and Corporate Governance Committee met two times during 2004.

Consideration of Director Nominees. The Nominating and Corporate Governance Committee will consider director candidates submitted to it by other directors, employees and stockholders. The Committee also has the authority under its charter to retain a third-party search firm to identify candidates upon request of the Committee from time to time. A stockholder who wishes to recommend a prospective nominee for the Board should notify the Secretary of the Company or any member of the Nominating and Corporate Governance Committee in writing with the nominee's name, qualifications and whatever other supporting material the stockholder considers appropriate. As described below, the Company's Charter permits

stockholders to nominate director candidates for consideration at the Company's annual meeting of stockholders.

Once a prospective nominee has been identified, the Committee makes an initial determination as to whether to conduct a full evaluation of the candidate. The initial determination focuses on the information provided to the Committee with the recommendation of the prospective candidate and the Committee's own knowledge of the candidate, which may be supplemented by inquiries to the person making the recommendation or others. The Committee also assesses the need for additional Board members to fill vacancies or expand the size of the Board and the likelihood the candidate can satisfy the qualifications considered by the Committee for director candidates. If the Committee determines, after consultation with the Chairman of the Board and other directors as appropriate, that additional consideration is warranted, it may request a third-party search firm to gather additional information about the candidate. The Committee then evaluates the candidate against the qualifications considered by the Committee for director candidates which include an attained position of leadership in the candidate's field of endeavor, business and financial experience, demonstrated exercise of sound business judgment, expertise relevant to the Company's business, if any, and the ability to serve the interests of all stockholders. The Committee also assesses the candidate's qualifications as an independent director under the New York Stock Exchange's current listing standards. The candidate must be able to devote the time, energy and attention as may be necessary to properly discharge his or her responsibilities as a director. As part of this evaluation, one or more members of the Committee, and others as appropriate, will interview the candidate. After completing this evaluation, the Committee makes a recommendation to the full Board as to the persons who should be nominated by the Board, and the Board determines the nominees after considering the recommendation of the Committee.

The Company's Charter provides that nominations of candidates for election as directors of the Company may be made at a meeting of stockholders by or at the direction of the Board of Directors or by any stockholder entitled to vote at such meeting who complies with the advance notice procedures set forth therein. These procedures require any stockholder who intends to make a nomination for director at the meeting to deliver notice of such nomination to the Secretary of the Company not less than 45 nor more than 90 days before the meeting. The notice must contain all information about the proposed nominee as would be required to be included in a proxy statement soliciting proxies for the election of such nominee, including such nominee's written consent to serve as a director if so elected. If the Chairman of the meeting determines that a person is not nominated in accordance with the nomination procedure, such nomination will be disregarded. The Company's By-laws provide that the annual meeting of stockholders to be held each year will be on the second Tuesday in May.

Executive Sessions. The non-management directors of the Company meet at least quarterly in executive sessions. The non-management directors designated Mr. McNabb as the presiding director for 2004 and he chaired these sessions during 2004. The non-management directors have designated Mr. Lawrence to serve as presiding director for 2005.

Communications with the Board of Directors. Stockholders and other parties interested in communicating directly with the presiding director, with the non-management directors as a group, or with the Board of Directors may do so by writing to Presiding Director, Vintage Petroleum, Inc., 110 West Seventh Street, Suite 2300, Tulsa, Oklahoma 74119. The independent directors of the Company have approved a process for handling these letters received by the Company. Under this process, the General Counsel of the Company reviews all such correspondence and promptly forwards to each member of the Board of Directors, or each non-management director, as appropriate, a summary of all such correspondence and copies of all correspondence that, in the opinion of the General Counsel of the Company, deals with the function of the Board of Directors or its committees or that he otherwise determines requires the attention of the directors. Directors may at any time review a log of all such correspondence received by the Company and request copies of any such correspondence. Concerns relating to accounting, internal accounting controls or auditing matters are handled in accordance with the procedures established by the Audit Committee with respect to such matters.

Code of Conduct and Ethics. The Company has adopted both a Code of Business Conduct and Ethics for directors, officers and employees and an additional separate Code of Ethics for the Chief Executive Officer and senior financial officers. Both Codes are available on the Company's website at <http://www.vintagepetroleum.com> and in print upon request to the Secretary of the Company, 110 West Seventh Street, Tulsa, Oklahoma 74119. The Company intends to post amendments to or waivers from its

Code of Business Conduct and Ethics (to the extent applicable to executive officers and directors of the Company) and Code of Ethics for the Chief Executive Officer and senior financial officers (to the extent applicable to the Chief Executive Officer, Chief Financial Officer and Controller of the Company) on that website.

PROPOSAL TWO

APPROVAL OF AMENDMENT NUMBER 8 TO

THE VINTAGE PETROLEUM, INC. 1990 STOCK PLAN

General and Description of Proposed Amendment

Stockholder action at the Annual Meeting will be requested with respect to the approval of Amendment Number 8 (the Amendment) to the Vintage Petroleum, Inc. 1990 Stock Plan, as amended (the 1990 Plan). The sole purpose of the Amendment is to make the co-founders of the Company eligible to receive awards under the 1990 Plan. The 1990 Plan authorizes the grant of awards to key employees (including officers and directors who are employees) of the Company, as well as to non-employee directors of the Company, but the language of the 1990 Plan specifically excludes Charles C. Stephenson, Jr. and Jo Bob Hille, who were the co-founders of the Company, from eligibility to receive awards under the 1990 Plan. The Amendment deletes the language that excludes Mr. Stephenson and Mr. Hille from eligibility. Mr. Stephenson reassumed his position as President and Chief Executive Officer of the Company in February 2004. The Compensation Committee, which administers the 1990 Plan, desires to have the flexibility to be able to compensate Mr. Stephenson for his services to the Company under the 1990 Plan like the other executive officers of the Company and in a manner that is commensurate with compensation to chief executive officers of peer companies in the oil and gas industry. Mr. Hille is no longer an employee or director of the Company and, accordingly, will not receive any awards under the 1990 Plan.

A copy of the Amendment is attached hereto as Exhibit B. A copy of the 1990 Plan will be furnished by the Company to any stockholder upon written request to the Secretary of the Company, 110 West Seventh Street, Tulsa, Oklahoma 74119. The Amendment, which was approved by the Board of Directors on March 16, 2005, will not take effect unless approved by the affirmative vote of the holders of a majority of the shares of Common Stock present in person or represented by proxy at the Annual Meeting and entitled to vote.

Summary of the 1990 Plan

General. On June 1, 1990, the Board of Directors adopted, and the stockholders of the Company approved, the 1990 Plan. Since then, the Board of Directors and the stockholders of the Company have approved amendments to the 1990 Plan which increased the total number of shares of Common Stock available for issuance pursuant to awards granted under the 1990 Plan. Currently, the 1990 Plan provides that the number of shares of Common Stock that may be subject to outstanding awards from time to time under the 1990 Plan is equal to 10 percent of the total number of outstanding shares of Common Stock minus the total number of shares of Common Stock subject to outstanding awards under any other stock-based plan for employees or directors of the Company. All shares of Common Stock issuable within 60 days upon conversion or exchange of outstanding convertible or exchangeable securities of the Company that generally are publicly traded are treated as outstanding for purposes of computing the number of outstanding shares of Common Stock. (The Company does not presently have outstanding any such convertible or exchangeable securities.) The Vintage Petroleum, Inc. Non-Management Director Stock Option Plan (the Director Plan) is currently the only other stock-based plan of the Company with outstanding awards. As of March 23, 2005, there were stock options for a total of 20,000 shares outstanding under the Director Plan. As of March 23, 2005, there were issued and outstanding 66,507,302 shares of Common Stock.

The 1990 Plan provides that when computing the total number of shares of Common Stock subject to outstanding awards at any one time under the 1990 Plan, one counts the number of shares subject to outstanding options, stock appreciation rights and restricted stock or restricted stock rights awards (to the extent that the shares subject to such restricted stock or restricted stock rights awards are subject to a risk of forfeiture). However, one does not count the number of shares that have been issued upon prior exercise of options, the number of shares that were subject to previously settled stock appreciation rights and the number of shares issued under restricted stock or restricted stock rights awards for which the risk of forfeiture has

lapsed. In addition, the 1990 Plan provides that the maximum number of shares of Common Stock that may be delivered through incentive stock options under the 1990 Plan is 6,241,186.

The 1990 Plan provides that if any shares subject to an award are not issued or transferred, or cease to be issuable or transferable for any reason, such as forfeiture, termination, expiration or settlement in cash in lieu of shares, then the shares subject to the award no longer count against the number of available shares and are again available for issue, transfer or exercise pursuant to awards under the 1990 Plan. If the Company reduces the number of outstanding shares of Common Stock through repurchases, redemptions or otherwise, the 1990 Plan provides that no such reduction will impair the validity of any outstanding award or impair the status of any shares previously issued pursuant to an award or thereafter issued pursuant to a then-outstanding award.

The 1990 Plan permits the granting of awards to (a) key employees, including officers and directors who are employees, of the Company or its subsidiaries and (b) non-employee directors of the Company. The 1990 Plan contains no limitation on the number of shares that may be awarded to any participant. The stock issuable under the 1990 Plan may be authorized and unissued shares or treasury shares.

Except as discussed below, the 1990 Plan is administered by the Compensation Committee of the Board of Directors (the *Committee*). The members of the Committee are also currently eligible for awards under the 1990 Plan. The Committee is authorized to determine plan participants, the types and amount of awards to be granted and the terms, conditions and provisions of awards, prescribe forms of award agreements, interpret the 1990 Plan, establish, amend and rescind rules and regulations relating to the 1990 Plan and make all other determinations which may be necessary or advisable for the administration of the 1990 Plan. Any and all powers, authorizations and discretions granted by the 1990 Plan to the Committee are likewise exercisable at any time by the Board of Directors. The Board of Directors currently administers the 1990 Plan with respect to grants to non-employee directors of the Company. Although a determination has not been made as to the number of employees currently eligible for consideration as participants in the 1990 Plan, there are 108 employees and five non-employee directors who currently hold awards under the 1990 Plan.

Summary of Awards. The 1990 Plan permits the granting of any or all of the following types of awards: (a) stock options, (b) stock appreciation rights (*SARs*), (c) restricted stock, and (d) restricted stock rights. Generally, awards under the 1990 Plan are granted for no consideration other than prior and future services. Awards granted under the 1990 Plan may, in the discretion of the Committee, be granted alone or in addition to, in tandem with or in substitution for any other award under the 1990 Plan or other plan of the Company. Such grants can include grants of options after a decline in the market price of the Company's Common Stock in substitution for previously granted options having a higher exercise price.

Stock options granted pursuant to the 1990 Plan may, at the discretion of the Committee, be either incentive stock options (*ISOs*) (which may be granted only to employees), within the meaning of Section 422 of the Internal Revenue Code of 1986, as amended, or non-qualified stock options. The exercise price of an ISO may not be less than the fair market value of the Common Stock on the date of grant (or 110 percent of such fair market value in the case of ISOs granted to employees who possess more than 10 percent of the combined voting power of all classes of stock of the Company (a *10 percent employee*)). In the case of non-qualified stock options, the exercise price shall be as determined by the Committee in its sole discretion, except that it shall not be less than 85 percent of the fair market value of the Common Stock on the date of grant. The Company, however, has never granted any options under the 1990 Plan with an exercise price below the fair market value of the Common Stock on the date of grant. Options granted pursuant to the 1990 Plan are exercisable in whole or in part at such time or times as determined by the Committee, except that ISOs may not be exercised after the expiration of 10 years from the date granted (five years in the case of a *10 percent employee*). Generally, options may be exercised by the payment of cash, promissory notes, stock or a combination thereof, except that executive officers and directors of the Company may not pay by promissory notes.

Any SARs granted under the 1990 Plan will give the holder the right to receive cash or stock in an amount equal to the difference between the fair market value of a share of Common Stock on the date of exercise and the grant price. The grant price of an SAR is determined by the Committee but may not be less than the fair market value of a share of Common Stock on the date of grant. Methods of exercise and

settlement and other terms of SARs are determined by the Committee. The Company has never granted any SARs under the 1990 Plan.

The Committee may award restricted stock, generally consisting of shares which may not be disposed of by participants until certain restrictions established by the Committee lapse. Such restrictions may lapse in whole or in installments as the Committee determines. A participant receiving restricted stock will have all of the rights of a stockholder of the Company, including the right to vote the shares and the right to receive any dividends, unless the Committee otherwise determines. Upon termination of employment during the restriction period, restricted stock will be forfeited, subject to such exceptions, if any, as are authorized by the Committee. The Committee, in its discretion, may also issue restricted stock rights, which represent the right to receive shares of Common Stock upon vesting. The rights are considered restricted because they are subject to forfeiture and restrictions on transfer prior to vesting and the related issuance of shares. A participant receiving restricted stock rights will not be a stockholder of the Company and will not be entitled to vote or receive dividends, if any, until the rights vest, at which time the related shares will be issued to the participant.

Awards are not transferable other than by will or the laws of descent and distribution. In the event of any change affecting the shares of Common Stock by reason of any stock dividend or split, recapitalization, merger, consolidation, spin-off, combination or exchange of shares, or other corporate change or any distributions to Common Stock holders, the Committee may make such substitution or adjustment in the aggregate number or kind of shares which may be distributed under the 1990 Plan and in the number, kind and exercise, grant or purchase price of shares subject to the outstanding awards granted under the 1990 Plan, or make provisions for a cash payment relating to any award, as it deems to be appropriate in order to maintain the purpose of the original grant.

Amendment to and Termination of the 1990 Plan. The Board of Directors may amend, alter, suspend, discontinue or terminate the 1990 Plan without the consent of stockholders or participants, except that stockholder approval of such action will be sought if such approval is required by any federal or state law or regulation, or if the Board of Directors in its discretion determines that obtaining such stockholder approval is advisable. Unless earlier terminated by the Board of Directors, the 1990 Plan will terminate on May 8, 2010. Any awards outstanding at the time of such termination will remain in force in accordance with the terms of the awards and the 1990 Plan.

Change of Control. In the event of a Change of Control of the Company, all outstanding awards under the 1990 Plan, regardless of any limitations or restrictions, become fully exercisable and freed of all restrictions. In such event, with certain exceptions, participants will receive cash payments equal to the value of their outstanding awards based on the change of control price as defined in the 1990 Plan. For most purposes of the 1990 Plan, a Change of Control is deemed to have occurred: (a) upon the acquisition by any person of 20 percent or more of the Company's outstanding voting stock; (b) if individuals constituting the Board of Directors, or those nominated by at least two-thirds of such individuals or successors nominated by them, cease to constitute a majority of the Board of Directors; (c) upon stockholder approval of a merger, consolidation or similar transaction or consummation of any such transaction if stockholder approval is not required; (d) upon stockholder approval of a plan of liquidation of the Company or the sale or disposition of substantially all of the Company's assets; or (e) if the Board of Directors or a committee thereof adopts a resolution to the effect that a Change of Control has occurred.

Federal Income Tax Consequences. The Company believes that under present Federal income tax laws the following are the Federal income tax consequences generally arising with respect to awards granted under the 1990 Plan. The grant of an option or SAR will create no tax consequences for the participant or the Company. The participant will have no taxable income upon exercising an ISO (except that the alternative minimum tax may apply) and the Company will receive no deduction. Upon exercising an option other than an ISO, a participant will recognize ordinary income equal to the difference between the exercise price and the fair market value of the stock acquired on the date of exercise. Upon exercising an SAR, a participant will recognize ordinary income equal to the cash or the fair market value of the stock received on the date of exercise. In the case of the exercise of a non-qualified stock option or SAR, the Company generally will be entitled to a deduction for the amount recognized as ordinary income by the participant, unless such deduction is limited by Section 162(m) of the Internal Revenue Code. The treatment to a participant of a disposition of shares acquired upon the exercise of an SAR or option depends on how long the shares have been held and on whether such shares are acquired by exercising an ISO or by exercising an option other than an ISO.

Generally, there will be no tax consequences to the Company in connection with a disposition of shares acquired under an option except that the Company will be entitled to a deduction (and the employee will recognize ordinary income) if shares acquired under an ISO are disposed of before the applicable ISO holding periods have been satisfied.

With respect to awards granted under the 1990 Plan involving stock or stock rights that are restricted as to transferability and subject to a substantial risk of forfeiture, a participant will recognize ordinary income equal to the fair market value of the shares received at the earlier of the time at which the shares become transferable or not subject to a substantial risk of forfeiture unless, in the case of a restricted stock award, but not in the case of restricted stock rights, the participant elects to be taxed at the time of the award notwithstanding the restrictions (to minimize the tax payable in respect of the appreciation in the value of the stock from the time it is awarded until the restrictions lapse). The Company generally will be entitled to a deduction for the same amount, unless such deduction is limited by Section 162(m) of the Internal Revenue Code.

The foregoing provides only a very general description of the application of Federal income tax laws to awards under the 1990 Plan. The summary does not address the effects of foreign, state and local tax laws.

Awards Granted. As of March 23, 2005, incentive and non-qualified stock options and restricted stock and restricted stock rights for a total of 2,134,839 shares are outstanding under the 1990 Plan. All of the outstanding options were granted at the fair market value of the Common Stock on the date of grant, and expire up to 10 years after the date of grant. As of such date, there were 4,495,891 shares available for future grants of awards under the 1990 Plan. Since June 1, 1990, the date of inception of the 1990 Plan, awards for the following number of shares have been granted under the 1990 Plan to the named executive officers of the Company and specified groups: S. Craig George (former President and Chief Executive Officer), 1,236,000 shares; William C. Barnes (Executive Vice President and Chief Financial Officer), 997,200 shares; William L. Abernathy (Executive Vice President and Chief Operating Officer), 911,600 shares; Larry W. Sheppard (Senior Vice President-New Ventures), 383,950 shares; William E. Dozier (Senior Vice President Business Development), 543,800 shares; all current executive officers as a group, 4,052,920 shares; all current directors who are not executive officers as a group, 135,181 shares; and all employees, excluding executive officers, as a group, 5,891,533 shares. Mr. Stephenson (Chairman of the Board of Directors, President and Chief Executive Officer) has not been eligible to receive awards under the 1990 Plan. Future awards under the 1990 Plan are not yet determinable. The closing price for the Common Stock on the New York Stock Exchange on March 23, 2005, was \$31.52.

PROPOSAL FOUR

STOCKHOLDER PROPOSAL ON CLIMATE CHANGE REPORT

Proponents of the following stockholder proposal have stated that they intend to present the proposal at the Annual Meeting. In accordance with applicable proxy regulations, the following proposal and supporting statement, as submitted by the proponents, are set forth below. The Company is not responsible for the content of the proposal or supporting statement. The Board of Directors has recommended a vote AGAINST the proposal for the reasons set forth below.

Stockholder Proposal

The following proposal has been submitted by the Nathan Cummings Foundation, as lead proponent, and co-sponsored by the Amalgamated Bank LongView SmallCap 600 Index Fund and the Sisters of St. Joseph Charitable Fund. The address and number of shares of the Company's common stock held by each of the proponents will be provided upon oral or written request to the Company's Secretary.

CLIMATE CHANGE REPORT

WHEREAS:

The American Geophysical Union, the world's largest organization of earth, ocean and climate scientists, states it is virtually certain that greenhouse gas (GHG) emissions cause global warming and that the warming will continue.

A 2004 report by the Bush Administration's Climate Change Science Program stated that increases in human-derived GHG emissions are the only likely explanation for global warming over the past three decades.

The Environmental Protection Agency's Climate Action Report 2002, concluded that climate change poses risks to coastal communities due to sea level rise, water shortages, and increases in the heat index and heat wave frequency. Polls in 2003 and 2004 found 75-80% of Americans favor mandatory controls on GHG emissions.

Carbon regulation is growing. The Kyoto Protocol will cap GHG emissions in 30 industrialized countries beginning in 2005. At least half of U.S. states are addressing global warming through legislation, lawsuits or governors' programs.

A 2004 Conference Board report declared, "The global economy will become less carbon-intensive over time. The real questions are what the pace of the transition will be and who will be the winners and losers. [B]usinesses that ignore the debate over climate change will do so at their peril.

We believe our industry is highly exposed to climate change risk; over half of US GHG emissions are from oil and gas combustion, according to the Energy Information Administration.

Analysts at Goldman Sachs, Deloitte & Touche, Booz Allen, McKinsey, Bank of America, and WestLB Panmure have recognized the financial risks of climate change and raised concerns about companies that do not adequately disclose them.

Industry leaders like Shell, BP, ConocoPhillips, Statoil, Amerada Hess and Suncor are taking actions to reduce their exposure to climate related risks, including assuming a cost for carbon in their strategic planning, reporting and reducing their GHG emissions, engaging in emissions trading, and investing in renewable energy. BP reports that its emissions reduction activities have generated savings with an NPV of \$650 million.

According to *Oil and Gas Investor*, the industry's environmental record is hurting its ability to attract strong employees. Companies like BP claim that their proactive stance on climate change helps to recruit and retain quality employees.

RESOLVED: Shareholders request that a committee of independent directors of the Board assess how the company is responding to rising regulatory, competitive, and public pressure to significantly reduce carbon dioxide and other greenhouse gas emissions and report to shareholders (at reasonable cost and omitting proprietary information) by September 1, 2005.

SUPPORTING STATEMENT:

We believe management has a fiduciary duty to assess and disclose to shareholders all pertinent information about its response to climate change. We believe early action to reduce emissions and prepare for standards could provide competitive advantages, while inaction and opposition to emissions control efforts could expose companies to regulatory, litigation, and reputation risk.

Board of Directors Statement in Opposition

**ALTHOUGH THE COMPANY SUPPORTS AND IMPLEMENTS EFFORTS TO
REDUCE GHG EMISSIONS, THE COMPANY'S BOARD OF DIRECTORS
UNANIMOUSLY RECOMMENDS A VOTE AGAINST THIS PROPOSAL
FOR THE FOLLOWING REASONS**

Because the Company derives its benefits from the Earth's resources, the Board of Directors and management take the Company's responsibilities to the environment seriously. This includes responsibilities relating to harmful emissions. However, the Board of Directors believes that an assessment and report by a committee of independent directors would result in the incurrence of unnecessary costs and will not create added value to the stockholders.

The Company is proactive with respect to its environmental responsibilities. The Company regularly identifies and monitors compliance with applicable environmental regulations as a normal part of its operations. The Company participates as a member in trade organizations that address regulatory rulemaking in the countries in which it operates. In conducting its exploration and production operations, the Company is careful to engage skilled consultants and contractors. Together with its consultants and contractors, the Company strives to avoid environmental degradation and mitigate harm by timely addressing regulatory rulemaking, record-keeping, reporting and compliance at the national, state and local levels with respect to air emissions, soil and water conditions, and chemical and waste management. Internationally, the Company takes responsible action on environmental initiatives in all of its operations. The Board of Directors and management believe the Company's emission reduction efforts are well managed by equipping for energy efficiencies and cost-effective operations.

Ensuring continued growth of stockholder value in a socially responsible manner requires a balanced assessment of all risks and rewards that the Company faces, which necessarily includes those risks relating to environmental challenges. The Board of Directors is also mindful that the Company is already obligated to discuss with its stockholders the Company's costs of compliance with and risks posed by environmental laws. The Board of Directors believes that the Company's public disclosures and reports already adequately discuss its response to the numerous regulatory issues that it faces, including environmental issues.

Edgar Filing: VINTAGE PETROLEUM INC - Form DEF 14A

The Company intends to continue to take responsibility for assuring that it is a good steward of the environment and is complying with the laws and regulations where it does business. The Board of Directors believes that the Company is adequately protecting the interests of its stockholders and addressing the issues raised in this proposal given the nature of its operations. In addition, the Board of Directors believes the proposal would unnecessarily increase administrative burdens and costs, diverting the Company from its primary goal of building stockholder value. **Accordingly, the Company's Board of Directors recommends that you vote AGAINST the proposal.**

The affirmative vote of the holders of a majority of the shares present in person or by proxy at the Annual Meeting and entitled to vote is required for the adoption of this proposal.

- (2) The bonuses for 2003 and 2004 were awarded under the Company's Amended and Restated Discretionary Performance Bonus Program. See Report on Executive Compensation - Discretionary Performance Bonus Program. The bonuses for 2002 were awarded as discretionary bonuses.
- (3) Does not include the value of perquisites and other personal benefits because the aggregate amount of such compensation, if any, does not exceed the lesser of \$50,000 or 10 percent of the total amount of annual salary and bonus for any named individual. The amounts shown for Messrs. George, Barnes and Abernathy represent the dividends declared and paid (at the same rate as paid to stockholders) during 2004, prior to the vesting of the restricted stock awards shown in Long-Term Incentive Payouts.
- (4) Represents the dollar value of the restricted stock award based on the number of shares granted and the market value of the Company's Common Stock on the grant date. All grants of restricted stock

are made under the Company's 1990 Stock Plan. During the restricted period, dividends are paid on all restricted shares at the same rate as dividends paid to stockholders.

During 2004, Mr. Barnes received a grant for 1,500 shares of restricted stock vesting on June 7, 2005. During 2004, Mr. Abernathy received a grant for 9,400 shares of restricted stock vesting on August 3, 2005.

As of December 31, 2004, the aggregate number of shares of unvested restricted stock held by the named executive officers (excluding the performance-based restricted stock rights shown below under "Long-Term Incentive Plans-Awards in Last Fiscal Year") and the dollar value of such shares was: Mr. Barnes, 41,700 shares (\$946,173); Mr. Abernathy, 48,200 shares (\$1,093,658); Mr. Sheppard, 30,967 shares (\$702,641); and Mr. Dozier, 34,067 shares (\$772,980). The dollar values are based on the closing price of the Company's Common Stock on December 31, 2004, of \$22.69 per share.

Barnes and Abernathy each had 50,000 shares of restricted stock vest when the Company's Common Stock price closed at \$15.00 per share or higher for 45 consecutive trading days. Mr. George also had 100,000 shares of restricted stock with the same vesting condition. However, during 2004, the vesting of his 100,000 shares was accelerated in connection with the termination of his employment with the Company. These restricted stock awards were granted on July 10, 2003, and the Company's Common Stock closed at \$11.41 per share on that date.
- (6) Mr. George resigned as a director and an executive officer of the Company on February 18, 2004. See "Employment Agreements and Termination of Employment and Change in Control Arrangements."

Employment Agreements and Termination of Employment and Change in Control Arrangements

The Company has no employment agreements with any of the named executive officers of the Company.

All outstanding awards under the Vintage Petroleum, Inc. 1990 Stock Plan, regardless of any limitations or restrictions, become fully exercisable and free of all restrictions, in the event of a Change in Control of the Company, as defined in such Plan. In such event, with certain exceptions, participants will receive cash payments equal to the value of their outstanding awards based on the change of control price as defined in such Plan.

On March 3, 2004, the Company entered into a Separation Agreement with S. Craig George under which Mr. George resigned from employment with the Company and its subsidiaries effective March 10, 2004. Pursuant to such Separation Agreement, the Company made a lump sum payment to Mr. George in the amount of \$298,333, which represented (a) a severance payment equal to six months of his base salary and (b) the remaining bonus amounts due to him under the terms of the Company's Amended and Restated Discretionary Performance Bonus Program for bonuses previously granted to him for 2002 which were payable over time. The Company also extended the period in which Mr. George may exercise each of his outstanding vested stock options granted to him under the Company's 1990 Stock Plan to the end of the term (i.e., expiration date) of such option. Pursuant to the terms of the Restricted Stock Award Agreements evidencing the shares of restricted stock granted to Mr. George under the Company's 1990 Stock Plan, such shares vested in full as of the date of his resignation of employment.

On March 23, 2005, the Company entered into an Agreement and Release with William E. Dozier under which Mr. Dozier retired from the Company and its subsidiaries effective March 31, 2005. Pursuant to such Agreement, the Company made a lump sum payment to Mr. Dozier in the amount of \$83,254, which represented (a) in recognition of his past service to the Company and as consideration for the release, a payment equal to three months of his base salary, (b) the remaining bonus amount due to him under the terms of the Company's Amended and Restated Discretionary Performance Bonus Program for a bonus previously granted to him for 2002 which was payable over time, and (c) accrued vacation time. Pursuant to the terms of the Agreement and Release, the shares of restricted stock and restricted stock rights granted to Mr. Dozier under the Company's 1990 Stock Plan vested in full as of the date of his termination of employment.

Report on Executive Compensation

The Compensation Committee of the Board of Directors administers the Company's executive compensation program. During 2004, the Committee was comprised of Messrs. Adams, McNabb and Mahaffey, each of whom is an independent director of the Company.

Overall Executive Compensation Policy. The overall policy of the Company's executive compensation program is to attract, retain and reward executives who are capable of leading the Company in achieving its business objectives and strategies in a highly competitive industry. The executive compensation program basically consists of three elements: salary, awards under the Company's 1990 Stock Plan, and a discretionary

bonus program tied to annual financial and operating performance targets. The Committee retains the services of an independent international consulting firm, Hewitt Associates, to provide information regarding practices and trends in compensation programs and to review and evaluate the Company's

executive compensation program, including a comparison of the Company's program to compensation practices of peer companies in the oil and gas industry.

Section 162(m) of the Internal Revenue Code of 1986, as amended, provides that no publicly-held company shall be permitted to deduct from its income taxes compensation exceeding \$1 million paid to its chief executive officer or any of its four other highest paid executive officers unless (a) the compensation is payable solely on account of the attainment of performance goals, (b) the performance goals are determined by a compensation committee of two or more outside directors, (c) the material terms under which the compensation is paid are disclosed to and approved by the stockholders, and (d) the compensation committee certifies that the performance goals were met. It is possible that the exercises of stock options and the vesting of restricted stock and restricted stock rights awards and bonuses could result in a loss of a deduction. While the Company intends to continue to pursue a strategy of maximizing the deductibility of compensation paid to executive officers, it also intends to maintain the flexibility to take actions that it considers to be in the Company's best interest and to take into consideration factors other than deductibility.

Salary. The Committee reviews each executive officer's salary annually. The Committee believes there is necessarily some subjectivity in setting the salaries of the Company's executive officers and does not follow specific objective performance criteria when setting such salaries. In determining appropriate salary levels for 2004, the Committee primarily considered the individual's past performance, the past performance of the Company and the individual's contribution to that performance. The Committee also considered the executive's level and scope of responsibility, experience, internal equity of the Company's executive compensation program, and the compensation practices of other companies in the oil and gas industry for executives of similar responsibility. The Committee approves the salary for the Chief Executive Officer of the Company. The Board of Directors approves the salaries of the other executive officers of the Company based upon the recommendation of the Committee.

Discretionary Performance Bonus Program. The Board of Directors has adopted the Vintage Petroleum, Inc. Amended and Restated Discretionary Performance Bonus Program. The purpose of this Program is to enhance stockholder value by providing eligible employees of the Company, including executive officers, with an added incentive to achieve specific annual targets and goals. This Program also allows the Company to remain competitive with its peers in attracting and retaining qualified personnel. The targets and goals are approved by the Board of Directors. In 2004, the Company's executive officers and all other U.S. employees were eligible for cash incentive awards under this Program. Each executive officer of the Company was eligible to earn an individual award expressed as a percentage of base salary paid during the Program year. Executive officer cash incentive award opportunities varied by level of responsibility. There was no minimum incentive award. The maximum percentage of base salary payable as a cash incentive award was 75%, 105% or 150%, depending on the executive officer's position. Awards may be granted if specified Company financial and operating performance targets and individual performance levels are achieved and the Board of Directors determines to grant such bonuses. During 2004, Company financial and operating performance targets were based on the Company's production, production replacement, lease operating costs, and reserve additions through acquisitions. The individual performance levels were based on the Company's performance evaluation system. The weighting between the Company targets and the individual performance levels varied depending on the executive officer's position. Bonuses to all eligible employees are paid in full promptly after they are granted. Total bonus awards to all eligible employees for a given Program year may not exceed 2.5% of operating cash flow (as defined in the Program) of the Company. The Program provisions may be modified by the Board of Directors at any time and bonuses under the Program are at the discretion of the Board of Directors.

During 2004, the Company targets were exceeded in some instances, met in other instances and not met in some instances. As a result, the Board of Directors, upon the recommendation of the Committee, awarded bonuses under the Program to all executive officers at levels ranging from approximately 56 to 66% of bonus maximums.

Restricted Stock and Restricted Stock Rights Awards. During 2004, the Committee relied upon restricted stock and restricted stock rights awards to compensate the executive officers of the Company. The Committee believes that such awards enhance the retentive and incentive impact of equity compensation awards and advance further the Company's philosophy of employees, including executive officers, as owners. The Company is committed to the concept of executive officers as owners because it believes that it helps the Company attract and retain the very best executive officers and aligns their interests with those of the

Company's stockholders. Restricted stock awards represent shares of Common Stock. The shares are considered restricted because they are subject to forfeiture and restrictions on transfer prior to vesting, which may be tied to a specified time period or the achievement of certain performance goals. Restricted stock rights represent the right to receive shares of Common Stock upon vesting. The rights are restricted because they are subject to forfeiture and restrictions on transfer prior to vesting, which may be tied to a specified time period or achievement of certain performance goals, and the related issuance of shares.

Restricted stock and restricted stock rights awards granted to executive officers during 2004, were based on the subjective evaluation of the executive's ability to influence the Company's long-term growth and profitability and to reward outstanding past individual performance and contributions to the Company. The Committee also considered the executive's level and scope of responsibility, experience, internal equity of the Company's executive compensation program, and the compensation practices of other companies in the oil and gas industry for executives of similar responsibility. The restricted stock granted in 2004 to executive officers (10,900 shares) vests after one year. The restricted stock rights granted in 2004 to executive officers are all performance-based (i.e., the rights only vest if certain performance targets are satisfied over a three-year period). The performance targets are based upon the Company's total stockholder return as compared to the total stockholder return of each company in a peer group of companies selected by the Committee during a performance period commencing on January 1, 2004, and ending on December 31, 2006. The number of restricted stock rights earned, if any, will vary from 0% to 200% of the base level of the award depending on the Company's rank among the peer group of companies.

CEO Compensation. During 2004, Mr. George served as President and Chief Executive Officer of the Company until February 18, 2004. His base salary for 2004 was determined by the Committee in the same manner utilized by the Committee and the Board of Directors when determining salaries for the Company's other executive officers as described above. During 2004, no awards were granted to Mr. George under the Company's 1990 Stock Plan. No bonuses were granted to Mr. George for 2004 under the Discretionary Performance Bonus Program described above. As described above, the Company entered into a Separation Agreement with Mr. George. Given his approximately 12 years of dedicated service to the Company, the Board of Directors approved a modest severance payment equal to six months of his base salary and gave him additional time to exercise his vested stock options, which would have otherwise terminated on the date of his termination of employment.

On February 18, 2004, Mr. Stephenson, Chairman of the Board, reassumed the positions of President and Chief Executive Officer of the Company. Effective May 1, 2004, the Committee increased his annual base salary from \$200,000 to \$400,000, as a result of his increased responsibilities. Mr. Stephenson was granted a bonus of \$300,267 for 2004 under the Discretionary Performance Bonus Program described above. Under the Program, the maximum amount that the Chief Executive Officer may earn is 150% of his base salary.

During 2004, the Committee desired to grant to Mr. Stephenson performance-based restricted stock rights under the Company's 1990 Stock Plan of the type granted to the other executive officers of the Company as described above. However, Mr. Stephenson, as a co-founder of the Company, is not eligible to receive awards under the 1990 Stock Plan. Accordingly, during 2004, in lieu of restricted stock rights, the Committee established a performance-based cash bonus program for Mr. Stephenson (the CEO Bonus Program), the purpose of which is to provide Mr. Stephenson with added incentive to enhance stockholder value by achieving certain specific performance goals. The CEO Bonus Program establishes a base cash amount of \$1,200,000 (the Base Amount). Under the CEO Bonus Program, Mr. Stephenson has the ability to earn a cash bonus in the amount of 0% to 200% of the Base Amount (or \$0 to \$2,400,000), based upon the Company's total stockholder return as compared to the total stockholder return of each company in a peer group of companies selected by the Committee during a performance period commencing on January 1, 2004, and ending on December 31, 2006. The amount of the cash bonus earned, if any, will depend on the Company's rank among the peer group of companies.

Performance Graph

The following graph compares the yearly percentage change in the cumulative stockholder return on the Company's Common Stock during the period commencing January 1, 2000, and ending on December 31, 2004, with the cumulative total return on the S&P 500 Index and the Dow Jones U.S. Exploration & Production Index. The Dow Jones U.S. Oil Companies, Secondary Index, which was the index used in last year's performance graph as "New Index" is no longer provided by Dow Jones and cannot be calculated for this year. Since that index is no longer available, the Company is using the Dow Jones U.S. Exploration & Production Index. The comparison assumes \$100 was invested on December 31, 1999, in the Company's Common Stock and in each of the foregoing indices and assumes reinvestment of dividends.

The above performance graph shall not be deemed incorporated by reference by any general statement incorporating by reference this Proxy Statement into any filing under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended, except to the extent that the Company specifically incorporates this information by reference, and shall not otherwise be deemed filed under such Acts.

CATEGORICAL STANDARDS UTILIZED BY BOARD OF DIRECTORS

WHEN DETERMINING DIRECTOR INDEPENDENCE

A Director will not be independent if:

- (i) The Director is, or has been within the last three years, an employee of the Company;

- (ii) An immediate family member of the Director is, or has been within the last three years, an executive officer of the Company;

- (iii) The Director has received, or has an immediate family member who has received, during any twelve-month period within the last three years, more than \$100,000 in direct compensation from the Company, other than Director and committee fees and pension or other forms of deferred compensation for prior service (provided such compensation is not in any way contingent on continued service);

- (iv) The Director or an immediate family member is a current partner of a firm that is the Company's internal or external auditor; the Director is a current employee of such a firm; the Director has an immediate family member who is a current employee of such a firm and who participates in the firm's audit, assurance or tax compliance (but not tax planning) practice; or the Director or an immediate family member was within the last three years (but is no longer) a partner or employee of such a firm and personally worked on the Company's audit within that time;

- (v) The Director or an immediate family member is, or has been within the last three years, employed as an executive officer of another company where any of the Company's present executive officers at the same time serves or served on that company's compensation committee;

- (vi) The Director is a current employee, or an immediate family member is a current executive officer, of a company that has made payments to, or received payments from, the Company for property or services in an amount which, in any of the last three fiscal years, exceeds the greater of \$1 million, or 2% of such other company's consolidated gross revenues; or

- (vii) The Director serves as an executive officer of a tax exempt organization that has received, within the preceding three years, contributions in any single fiscal year from the Company to the organization that exceeded the greater of \$1 million, or 2% of such tax exempt organization's consolidated gross revenues.

For purposes of these standards, the term "immediate family member" means a person's spouse, parents, children, siblings, mothers and fathers-in-law, sons and daughters-in-law, brothers and sisters-in-law and anyone (other than domestic employees) who share such person's home, but excluding any person who is no longer an immediate family member as a result of legal separation or divorce or those who have died

or become incapacitated.

For relationships of a Director with the Company (either directly or as a partner, stockholder or officer of an organization that has a relationship with the Company) that do not fall within the above categories, the Board of Directors will determine, after considering all relevant facts and circumstances, whether the relationship is material, and therefore, whether the Director is independent.
