CALCASIEU REAL ESTATE & OIL CO., INC.

NOTES TO FINANCIAL STATEMENTS

Note 1. Nature of Business and Significant Accounting Policies

Nature of business:

The Company's business is the ownership and management of land. The primary activities consist of leasing its properties for mineral (oil and gas) and agriculture and raising timber.

Significant accounting policies:

Cash and cash equivalents:

For purposes of the statement of cash flows, cash equivalents include time deposits, certificates of deposit, and all highly liquid debt instruments with original maturities of three months or less.

Inventory:

Inventory consists of harvested crops valued at estimated selling price at the date of the balance sheet.

Pervasiveness of estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Investment securities:

The Company complies with the provisions of Financial Accounting Standards Board Statement No. 115, *Accounting for Certain Investments in Debt and Equity Securities*. Under the provisions of this statement, management must make a determination at the time of acquisition whether certain investments in debt and equity securities are to be held as investments to maturity, held as available for sale, or held for trading. Management, under a policy adopted by the board of directors of the Company, made a determination that all debt and equity securities owned at that date and subject to the provisions of the statement would be classified as held available-for-sale.

Under the accounting policies provided for investments classified as held available-for-sale, all such debt securities and equity securities that have readily determinable fair value shall be measured at fair value in the balance sheet. Unrealized holding gains and losses for available-for-sale securities shall be excluded from earnings and reported as a net amount (net of income taxes) as a separate component of retained earnings until realized. Realized gains and losses on available-for-sale securities are included in income. The cost of securities sold is based on the specific identification method. Interest on debt securities is recognized in income as earned, and dividends on marketable equity securities are recognized in income when declared.

Declines in the fair value of available-for-sale securities below their cost that are deemed to be other-than-temporary are reflected in earnings as realized losses. In estimating other-than-temporary impairment losses, management considers (1) length of time and the extent to which the fair value has been less than cost, (2) the financial condition and near-term prospects of the issuer, and (3) the intent and ability of the Company to retain its investment in the issuer for a period of time sufficient to allow for any anticipated recovery in fair value.

Property and equipment:

Property and equipment is stated at cost. Major additions are capitalized; maintenance and repairs are charged to income currently. Depreciation is computed on the straight-line and accelerated methods over the estimated useful lives of the assets.

Timber:

When timber land is purchased with standing timber, the cost is divided between land and timber based on timber cruises contracted by the Company. The costs of reforestation are capitalized. The timber asset is amortized when the timber is sold based on the percentage of the timber sold from a particular tract applied to the amount capitalized for timber for that tract.

Oil and gas:

Oil and gas income is booked when the Company is notified by the well's operators as to the Company's share of the sales proceeds together with the withheld severance taxes. The Company has no capitalized costs relating to oil and gas producing activities and no costs for property acquisition, exploration and development activities.

Earnings per share:

Earnings per share is based on the weighted average number of common shares outstanding during the years.

Income taxes:

Deferred income tax assets and liabilities are determined using the liability (or balance sheet) method. Under this method, the net deferred tax asset or liability is determined based on the tax effects of the temporary differences between the book and tax bases of the various balance sheet assets and liabilities and gives current recognition to changes in tax rates and laws.

Note 2. Securities Available-for-Sale

Debt and equity securities have been classified in the balance sheet according to management's intent in the noncurrent asset sections under the headings securities available-for-sale. The carrying amount of securities and their approximate fair values at December 31, 2004 and 2003 follow:

	Gross Amortized Cost	Gross Unrealized Gains	Unrealized Losses	Fair Value
December 31, 2004

	<u>\$ 2,160,360</u>	<u>\$ 95,694</u>	<u>\$ 13,371</u>	<u>\$ 2,242,683</u>
December 31, 2003				
Available-for-sale securities:				
Equity securities	\$ 155,861	\$ 46,689		\$ 202,550
Preferred equity securities	329,373	46,887		376,260

	<u>\$ 1,830,095</u>	<u>\$ 93,576</u>	<u>\$ 801</u>	<u>\$ 1,922,870</u>

Gross realized gains and gross realized losses on sales of available-for-sale securities during 2004 and 2003 are presented below. There were no gross realized gains and gross realized losses on sales of available-for-sale securities during 2002.

<u>2004</u>	<u>Gains</u>	<u>Losses</u>
Gross realized gains:		
Equity securities	\$ 37,820	\$
Preferred equity securities	49,638	
	<u>\$ 87,458</u>	<u>\$</u>
<u>2003</u>	<u>Gains</u>	<u>Losses</u>
Gross realized gains:		
Preferred equity securities	\$ 5,187	\$
	<u>\$ 5,187</u>	<u>\$</u>

Information pertaining to available-for-sale securities with gross unrealized losses at December 31, 2004, aggregated by investment category and length of time that individual securities have been in a continuous loss position, follows:

	<u>Less Than 12 Months</u>		<u>12 Months or More</u>	
	<u>Fair Value</u>	<u>Gross Unrealized Loss</u>	<u>Fair Value</u>	<u>Gross Unrealized Loss</u>
Equity securities	\$ 26,890	\$ 8,452	\$	\$
US government securities	1,342,727	4,919		
	<u>\$ 1,369,617</u>	<u>\$ 13,371</u>	<u>\$</u>	<u>\$</u>

Management evaluates securities for other-than-temporary impairment at least on a quarterly basis, and more frequently when economic or market concerns warrant such evaluation. Consideration is given to (1) the length of time and the extent to which the fair value has been less than cost, (2) the financial condition and near-term prospects of the issues, and (3) the intent and ability of the Company to retain its investment in the issues for a period of time sufficient to allow for any anticipated recovery in fair value.

The securities are considered not other-than-temporarily impaired because of the short period of time the fair value has been less than cost and the Company has the intent and ability to retain its investments for a period of time sufficient to allow for anticipated recovery of fair value.

The following table shows scheduled maturities of securities (other than equity securities) available-for-sale at December 31, 2004:

<u>Years Ending</u>	<u>Fair Value</u>
2005	\$ 996,090
