**Shanghai Petrochemical Announces 2005 Interim Results**

**Profit Attributable to Shareholders Grows 15.96% to RMB1.763 Billion**

Hong Kong, August 25, 2005 Sinopec Shanghai Petrochemical Company Limited ( Shanghai Petrochemical or the Company ) (HKEx:338; SSE: 600688; NYSE: SHI) announced today the unaudited interim results of the Company and its subsidiaries (the Group ) for the six-month periods ended June 30, 2005 (the Period ). Under the International Financial Reporting Standards, turnover for the Period increased by 23.11% over the corresponding period last year to approximately RMB21.886 billion; profit before tax was RMB2.158 billion, an increase of 18.57% over the corresponding period last year; profit attributable to shareholders was RMB1.763 billion, an increase of 15.96% as compared to the corresponding period last year; and earnings per share was RMB0.245 (2004 interim: RMB0.211). The Board of Directors did not recommend any interim dividend for 2005 (2004 interim: Nil).

Mr. Rong Guangdao, Chairman of Shanghai Petrochemical, said, With the overall effect of the State s macro-economic control measures becoming more visible, the domestic economy has sustained a steady and rapid growth. In addition, international crude oil prices continued to increase and then fluctuated at a high level. As a result of the above factors, the petroleum and petrochemical industry in China continued to keep the momentum of strong production and sales in the first half year, resulting in an overall increase in output, prices and profits. The Group actively captured the opportunities arising from the sustaining prosperous cycle of the global petrochemical industry, continued rapid growth of the domestic economy, and a steady and rapid growth of the petrochemical industry, and put in efforts to overcome various adverse factors such as the upsurge in the prices of fuel oil, electricity, coal and transportation and the decline in the prices of certain products. As a result, the Group maintained steady production and operation and improved performance as compared to the corresponding period last year.

In the first half of 2005, the Group realized net sales of RMB21.508 billion, an increase of 23.41% as compared to the corresponding period last year. Net sales and average selling prices of the Group s four major product categories, namely refined petroleum products, intermediate petrochemicals, resins and plastics and synthetic fibres, increased significantly. Compared to the first half of 2004, net sales of these four major product categories increased by 35.84%, 52.46%, 27.47% and 1.37%, respectively, while their average selling prices (excluding tax) increased by 21.44%, 36.20%, 22.86% and 14.34%, respectively.

During the Period, the Group processed 4,780,800 tons of crude oil and produced 1,602,400 tons of diesel and 360,900 tons of jet fuel, representing increases of 5.52%, 18.23% and 9.24%, respectively, as compared to the corresponding period last year. The output of gasoline was 417,700 tons, a decrease of 13.01% as compared to the corresponding period last year. The output of ethylene, synthetic fibre feed-stocks and synthetic fibre polymers in the first half year amounted to 491,200 tons, 370,200 tons and 287,300 tons, respectively, representing increases of 2.10%, 14.16% and 9.88%, respectively, as compared to the corresponding period last year. The output of propylene, synthetic resins and plastics as well as synthetic fibres were 262,900 tons, 529,000 tons and 179,600 tons, respectively, representing decreases of 1.23%, 2.08% and 2.93%, respectively, over the corresponding period last year.

## Edgar Filing: SINOPEC SHANGHAI PETROCHEMICAL CO LTD - Form 6-K

The weighted average cost of crude oil was RMB 2,875.79 per ton in the first half of the year, representing an increase of 34.95% as compared to the corresponding period last year, causing the total cost of crude oil processed to reach RMB13.205 billion, an increase of 48.55% as compared to the corresponding period last year. Cost of crude oil of the Group accounted for 69.69% of cost of sales.

/2

*Shanghai Petrochemical Announces 2005 Interim Results*

*Profit Attributable to Shareholders Grows 15.96% to RMB1.763 Billion P.2*

In the first half of 2005, the Group's capital expenditures amounted to RMB687.4 million, which included the renovation of No. 1 atmosphere and vacuum distillation facility, the 12,000 ton/year polyester filament expansion project, the expansion of 400,000 ton/year PTA facility, the newly built feedstock mutual supply pipeline between Shanghai Petrochemical and SECCO, and the 380,000 ton/year ethylene glycol plant.

The Sino-foreign equity joint venture established between the Group, Sinopec Corp. and BP Chemicals East China Investments Limited was completed and commenced commercial operation. As at June 30, 2005, the Group had invested RMB1.349 billion in the joint venture. In the second half of the year, other than the aforesaid projects, the Group will also push forward the diesel hydrogenation plant, the renovation of the crude oil refining and other technological renovation projects and investment projects.

Looking ahead, Mr. Rong said, In the second half of 2005, due to limited capabilities in increasing production by OPEC countries, reduction in production increment by non-OPEC countries, geo-political risks and rampant speculations by speculative funds, it is anticipated that prices of crude oil will continue to rise. At the same time, following the completion and operation of large ethylene projects such as Shanghai SECCO and Nanjing Yangba, the imbalance in the supply and demand for petrochemical products in the PRC will subside, and the industry's profitability level will significantly decline. Given the upsurge of crude oil costs and the slowdown of domestic demand for petrochemical products, in the second half of 2005, the Group will track closely market changes, make timely adjustments to its sales strategies, strengthen internal management, improve operation efficiency, and make efforts to complete its various work targets for the whole year, so as to lay a good foundation for the Company's comprehensively coordinated and sustainable development.

Shanghai Petrochemical is one of the largest petrochemical companies in the PRC and was one of the first Chinese companies to make a global securities offering. Located in Jinshan District in the southwest of Shanghai, it is a highly integrated petrochemical complex which processes crude oil into a broad range of products in synthetic fibres, resins and plastics, intermediate petrochemicals and petroleum categories.

**4.2 Interests and Short Positions of Directors and Supervisors in Shares, underlying Shares and Debentures**

## Edgar Filing: SINOPEC SHANGHAI PETROCHEMICAL CO LTD - Form 6-K

Other than as set out above, as at 30 June 2005, none of the Directors or Supervisors of the Company had any interests or short positions in any shares, underlying shares of equity derivatives or debentures of the Company or its associated corporations (within the meaning of Part XV of the Securities and Futures Ordinance (Chapter 571 of the Laws of Hong Kong) (the "SFO")) as recorded in the register required to be kept under Section 352 of the SFO or as otherwise notified to the Company and The Stock Exchange of Hong Kong Limited pursuant to the Model Code for Securities Transactions by Directors of Listed Companies.

**Table of Contents**

As at 30 June 2005, none of the Directors or Supervisors of the Company or their respective spouses and children under 18 years of age had been granted by the Company or had exercised any rights to subscribe for shares or debentures of the Company or any of its associated corporations.

**Interests and Short Positions of Substantial Shareholders and other Persons in Shares and underlying Shares**

As at 30 June 2005, the interests and short positions of substantial shareholders (being persons who are entitled to exercise, or control the exercise of, 10% or more of the voting power at any general meeting of the Company) and other persons who are required to disclose their interests pursuant to Part XV of the SFO (other than Directors and Supervisors) in the shares and underlying shares of equity derivatives of the Company as recorded in the register required to be kept under Section 336 of the SFO were as set out below:

**(1) (a) Interests in ordinary shares of the Company**

<u>Name of shareholder</u>	<u>Number and type of shares held</u>	<u>% of total issued share capital</u>	<u>% of shareholding in the Company's total issued H shares</u>	<u>Capacity</u>
China Petroleum & Chemical Corporation ( Sinopec Corp. )	4,000,000,000 promoter legal person shares	55.56%		Beneficial owner
Alliance Capital Management L.P.*	116,493,210	1.62%	5.00%	Beneficial owner; investment manager; others (lending pool)

\* Such H shares were held through a nominee.

**(b) Interests in underlying shares of the Company**

No interests of substantial shareholders or other persons who are required to disclose their interests pursuant to Part XV of the SFO in the underlying shares of equity derivatives were recorded in the register required to be kept under Section 336 of the SFO.

**(2) Short positions in shares and underlying shares of the Company**

No short positions of substantial shareholders or other persons who are required to disclose their interests pursuant to Part XV of the SFO in the underlying shares of equity derivatives of the Company were recorded in the register required to be kept under Section 336 of the SFO.

Save as stated above, as at 30 June 2005, no interests or short positions of any person in the shares or underlying shares of equity derivatives of the Company were recorded in the register required to be kept under Section 336 of the SFO.

#### 4.3 Changes in Directorate and Supervisory Committee

On 28 June 2005 at the Company's annual general meeting for 2004, the shareholders of the Company elected the fifth session of the board of directors and supervisory committee.

With effect from 28 June 2005, Mr. Shi Wei has been appointed Executive Director and Vice President of the Company. Mr. Shi does not have any relationship with any directors, senior management or substantial or controlling shareholders of the Company. Mr. Shi will receive a remuneration package including a basic salary of RMB4,521 per month plus a discretionary bonus as determined by the Board with reference to his performance. Mr. Shi has confirmed that there is no other matter that needs to be brought to the attention of the Company's shareholders.

**Table of Contents**

With effect from the same date, Mr. Lei Dianwu has been appointed Non-Executive Director of the Company. Mr. Lei is a director of Development and Planning Division of China Petroleum and Chemical Corporation, the controlling shareholder of the Company. Mr. Lei will not receive any salary from the Company. Mr. Lei has confirmed that there is no other matter that needs to be brought to the attention of the Company's shareholders.

With effect from the same date, Mr. Xiang Hangyin has been appointed Non-Executive Director of the Company. Mr. Xiang is a deputy director of Chemical Division of China Petroleum and Chemical Corporation, the controlling shareholder of the Company. Mr. Xiang will not receive any salary from the Company. Mr. Xiang has confirmed that there is no other matter that needs to be brought to the attention of the Company's shareholders.

With effect from the same date, Mr. Sun Chiping has been appointed Independent Non-Executive Director of the Company. Mr. Sun does not have any relationship with any directors, senior management or substantial or controlling shareholders of the Company. Mr. Sun will receive a remuneration package including a basic salary of RMB80,000 per year. Mr. Sun has confirmed that there is no other matter that needs to be brought to the attention of the Company's shareholders.

With effect from the same date, Mr. Jiang Zhiquan has been appointed Independent Non-Executive Director of the Company. Mr. Jiang does not have any relationship with any directors, senior management or substantial or controlling shareholders of the Company. Mr. Jiang will receive a remuneration package including a basic salary of RMB80,000 per year. Mr. Jiang has confirmed that there is no other matter that needs to be brought to the attention of the Company's shareholders.

With effect from the same date, Mr. Zhou Yunnong has been appointed Independent Non-Executive Director of the Company. Mr. Zhou does not have any relationship with any directors, senior management or substantial or controlling shareholders of the Company. Mr. Zhou will receive a remuneration package including a basic salary of RMB80,000 per year. Mr. Zhou has confirmed that there is no other matter that needs to be brought to the attention of the Company's shareholders.

With effect from the same date, Ms. Wang Yanjun has been appointed Supervisor of the Company. Ms. Wang does not have any relationship with any directors, senior management or substantial or controlling shareholders of the Company. Ms. Wang will receive a remuneration package including a basic salary of RMB4,015 per month plus a discretionary bonus as determined by the Board with reference to her performance. Ms. Wang has confirmed that there is no other matter that needs to be brought to the attention of the Company's shareholders.

With effect from the same date, Mr. Geng Limin has been appointed Supervisor of the Company. Mr. Geng is the deputy director of the Supervisory Division of China Petroleum and Chemical Corporation, the controlling shareholder of the Company. Mr. Geng will not receive any salary from the Company. Mr. Geng has confirmed that there is no other matter that needs to be brought to the attention of the Company's shareholders.

With effect from the same date, Mr. Yin Yongli has been appointed Supervisor of the Company. Mr. Yin does not have any relationship with any directors, senior management or substantial or controlling shareholders of the Company. Mr. Yin will not receive any salary from the Company. Mr. Yin has confirmed that there is no other matter that needs to be brought to the attention of the Company's shareholders.

## Edgar Filing: SINOPEC SHANGHAI PETROCHEMICAL CO LTD - Form 6-K

The terms of services agreed between each of the above directors and supervisors and the Company do not include a specified length of service and do not expressly require the Company to give more than one year's notice period or to make payments equivalent to more than one year's emoluments to terminate the service. The new directors and supervisors are subject to retirement by rotation in annual general meetings in accordance with the articles of association of the Company. Please refer to the Company's Notice of 2004 Annual General Meeting dated 13 May 2005 for more information about the new directors and supervisors.

## **Table of Contents**

As at the date of this announcement, none of the above directors and supervisors has any other interest in the shares of the Company within the meaning of Part VX of the Securities and Futures Ordinance.

### **(2) Retirement by Rotation**

On 28 June 2005, Mr. Lu Yiping, Mr. Liu Wenlong, Mr. Zhang Baojian, Mr. Gu Chuanxun, Mr. Wang Yongshou and Mr. Wang Xingyu retired by rotation as directors of the Company. On the same date, Mr. Lu Yiping, Mr. Liu Wenlong, Mr. Zhang Baojian, Mr. Gu Chuanxun, Mr. Wang Yongshou and Mr. Wang Xingyu confirmed that they have no disagreement with the Board and are not aware of any matters in respect of their resignations that need to be brought to the attention of the shareholders of the Company.

On the same date, Mr. Zhu Weiyan, Ms. Zhang Jianjun and Mr. Zhou Yunnong retired by rotation as supervisors of the Company. On the same date, Mr. Zhu Weiyan, Ms. Zhang Jianjun and Mr. Zhou Yunnong confirmed that they have no disagreement with the Board and are not aware of any matters in respect of their resignations that need to be brought to the attention of the shareholders of the Company.

The Board expresses its sincerest gratitude to Mr. Lu Yiping, Mr. Liu Wenlong, Mr. Zhang Baojian, Mr. Gu Chuanxun, Mr. Wang Yongshou, Mr. Wang Xingyu, Mr. Zhu Weiyan, Ms. Zhang Jianjun and Mr. Zhou Yunnong for their contribution to the Company made during their period of service.

### **4.4 Implementation of the Code on Corporate Governance Practices**

The Group had complied with all Code Provisions set out in the Code of Corporate Governance Practices contained in Appendix 14 of the Hong Kong Stock Exchange Listing Rules, with certain deviations from the Code Provisions listed below (other than Code Provision C.2 relating to internal controls):

**Code Provision A.1.3:** Notice of at least 14 days should be given of a regular board meeting to give all directors an opportunity to attend. For all other board meetings, reasonable notice should be given.

**Deviation:** The Articles of Associate of the Company provides that a minimum 10-day notice period is applicable to all board meetings. Accordingly, the Company's usual practice is to provide notice of only 10 days for a board meeting.

**Explanation:** To ensure full compliance with provisions of the Code of Corporate Governance Practices, the Company will commence giving 14 days' notice for regular board meetings.

**Code Provision A.2.1:** The roles of chairman and chief executive officer should be separate and should not be performed by the same individual. The division of responsibilities between the chairman and chief executive officer should be clearly established and set out in writing.

**Deviation:** Mr. Rong Guangdao is appointed as the Company's chairman and president.

**Explanation:** Mr. Rong has many years of experience in managing large scale petrochemical productions and is most suited to perform both roles of chairman and president. The Company is unable to locate any person of Mr. Rong's calibre to fill either role separately.

## §5. BUSINESS REVIEW

In the first half of 2005, the global economy was growing moderately, but the growth rate has slowed. The economy of the PRC maintained its growing trend at a fast and steady pace. As the effects of the State's macro-economic control measures slowly materialised, the domestic economy continued to operate steadily. In the first half of the year, the gross domestic product (GDP) grew by 9.5% as compared to the corresponding period last year. With sustained rapid growth in the domestic economy and with international crude oil prices continuing to increase and then fluctuating at a high level, the petroleum and petrochemical industry in the PRC continued to keep the momentum of strong production and sales in the first half year, resulting in an overall increase in output, prices and profits.

## **Table of Contents**

### **Capital expenditure progressing smoothly**

In the first half of 2005, the Company continued to work diligently on the construction of its major projects, while pushing forward the preparatory work for the next round of development projects. Overall, the progress on our development work was smooth. The newly built 3# atmosphere and vacuum distillation plant commenced operation in February, thus expanding the Company's once-through crude oil processing capabilities to 14 million ton per year. The feedstock mutual supply pipeline between the Company and Secco was mechanically completed in June and is now in operation. The construction of the 3.3 million ton per year diesel hydrogenation plant and the 380,000 ton per year EO/EG plant, both of which commenced construction in late 2004, is in full swing. At the same time, the Company is making pro-active efforts on the preliminary improvement work of the next round of development projects as well as actively seeking approvals for these projects.

During the reporting period, a Sino-foreign equity joint venture established between the Group, Sinopec Corp. and BP Chemicals East China Investments Limited was completed and commenced commercial operation.

### **Market outlook and business plan for the second half of the year**

In the second half of 2005, both the global economy and the PRC economy are expected to maintain steady growth, but the growth may slow. Due to limited capabilities in increasing production by OPEC countries, reduction in increased production by non-OPEC countries, geo-political risks and rampant trading activity by speculative funds, it is anticipated that the price of crude oil will continue to rise and reach new highs. Reflecting the above factors, the petrochemical industry should maintain its strong development trend but demand growth may slow down. At the same time, following the completion and operation of large ethylene projects such as Shanghai Secco and Nanjing Yangba, the imbalance in the supply and demand for petrochemical products in the PRC should subside, and the industry's profitability level could significantly decline. Given the above, in the second half of 2005, the Group will closely monitor market development, make timely adjustments to its sales strategies, strengthen internal management, improve operation efficiency, and make efforts to complete its various work targets for the whole year, so as to lay a good foundation for the Company's comprehensively coordinated and sustainable development. In this respect, the Group will focus on the following:

- (1) Strengthening three bases (infrastructure, basic tasks, basic capabilities training), emphasizing safety, stability and long-cycle operations of production facilities.
- (2) Optimizing resources deployment and enhancing integrated efficiency of production operations.
- (3) Implementing measures to reduce costs, and further enhancing resources saving and cost controls.
- (4) Speeding up reforms and development and maintaining corporate harmony and stability.

## **§6 MANAGEMENT DISCUSSION AND ANALYSIS**

*The following discussion and analysis should be read in conjunction with the Group's unaudited financial statements and notes in the interim report. The financial data involved hereinafter is extracted from financial statements prepared in accordance with the IFRS.*

## Operating results

In the first half of 2005, the Company and its subsidiaries (the Group) actively captured the opportunities arising from the prosperous cycle of the global petrochemical industry, continued rapid growth of the domestic economy, and a steady and rapid growth of the petrochemical industry, and put in efforts to overcome various adverse factors such as the upsurge in the prices of fuel oil, electricity, coal and transportation and the decline in the prices of certain products. As a result, the Group maintained steady production and operation and improved performance to a large extent as compared to the corresponding period last year. For the period ended 30 June 2005, turnover amounted to RMB21,886.5 million (equivalent to HK\$20,552.6 million), an increase of 23.11% or RMB4,108.3 million (equivalent to HK\$3,857.9 million) as compared to the corresponding period last year; profit before tax amounted to RMB2,157.8 million (equivalent to HK\$2,026.3 million), an increase of 18.57% as compared to the corresponding period last year; and profit after taxation and minority interests amounted to RMB1,763.4 million (equivalent to HK\$1,655.9 million), an increase of 15.96% as compared to the corresponding period last year.

**Table of Contents**

In the first half of 2005, the Group processed 4,780,800 tons of crude oil, an increase of 5.52% or 250,000 tons as compared to the corresponding period last year, in which imported oil and offshore oil amounted to 4,585,200 tons and 195,600 tons, respectively. The output of gasoline amounted to 417,700 tons, a decrease of 13.01% as compared to the corresponding period last year. The output of diesel amounted to 1,602,400 tons, an increase of 18.23% as compared to the corresponding period last year. Production of jet fuel amounted to 360,900 tons, an increase of 9.24% as compared to the corresponding period last year. The output of ethylene amounted to 491,200 tons, an increase of 2.10% as compared to the corresponding period last year. Production of propylene amounted to 262,900 tons, a decrease of 1.23% as compared to the corresponding period last year. The output of synthetic resins and plastics amounted to 529,000 tons, a decrease of 2.08% as compared to the corresponding period last year. The output of synthetic fibre feed-stocks and synthetic fibre polymers amounted to 370,200 tons and 287,300 tons, respectively, representing increases of 14.16% and 9.88%, respectively, as compared to the corresponding period last year. The output of synthetic fibres amounted to 179,600 tons, a decrease of 2.93% as compared to the corresponding period last year. The Group's product-to-sale ratio in the first half of the year was 98.76%.

The following table sets forth the Group's sales volumes and net sales, net of sales taxes and surcharges, for the reporting period:

	For the six-month periods ended 30 June					
	Net Sales in 2005			Net Sales in 2004		
	Sales Volume			Sales Volume		
	( '000 tons)	(Millions of RMB)	% of Total	( '000 tons)	(Millions of RMB)	% of Total
Self-produced products						
Synthetic Fibres	181	2,439	11.34	204	2,406	13.80
Resins and Plastics	735	6,900	32.08	708	5,413	31.06
Intermediate Petrochemicals	531	3,464	16.11	474	2,272	13.04
Petroleum Products	2,604	8,035	37.36	2,328	5,915	33.95
Trading and All Others		670	3.11		1,422	8.15
Total	4,051	21,508	100.00	3,714	17,428	100.00

In the first half of 2005, the Group realized net sales of RMB21,508.3 million an increase of 23.41% as compared to the corresponding period last year, in which net sales derived from refined petroleum products, intermediate petrochemicals, resins and plastics and synthetic fibres increased by 35.84%, 52.46%, 27.47% and 1.37%, respectively. This was mainly due to continued increases in the prices of energy and raw materials, which have compelled the sales prices of the products to follow. Compared to the first half of 2004, the average prices (excluding tax) of the Group's four major products - petroleum products, intermediate petrochemicals, resins and plastics and synthetic fibres - increased by 21.44%, 36.20%, 22.86% and 14.34%, respectively, during the reporting period.

A majority of the Group's products are sold in eastern China.

In the first half of 2005, the Group's cost of sales increased by 25.52% to RMB18,949.9 million as compared to the corresponding period last year, and it accounted for 88.11% of the net sales.

## Edgar Filing: SINOPEC SHANGHAI PETROCHEMICAL CO LTD - Form 6-K

Crude oil is the Group's major raw material. Under the impact of continued growth in global demand, limited capabilities to increase output by major oil producing countries, instability in the Middle East, and the impact of the US dollar exchange rates and trading activities of speculative funds during the year, prices of international crude oil reached a record high and fluctuated at a high level. As a result, the weighted average cost of crude oil increased by RMB744.71 per ton from the corresponding period last year to RMB2,875.79 per ton in the first half of the year, representing an increase of 34.95% as compared to the corresponding period last year. The increase in both the Group's volume of crude oil processed and the average price of crude oil purchased resulted in an increase in the total cost of crude oil processed to RMB13,205.4 million, an increase of 48.55% as compared to the corresponding period last year. The cost of crude oil of the Group accounted for 69.69% of cost of sales.

Expenses for other ancillary materials amounted to RMB3,401.0 million in the first half of 2005, a substantial increase of 31.84% as compared to the corresponding period last year, which was primarily due to increase in the volume of intermediate petrochemicals purchased to meet production needs. Depreciation and maintenance costs during the reporting period amounted to RMB864.5 million and RMB347.0 million, respectively, a slight decrease as compared to the corresponding period last year. Energy and power costs amounted to RMB436.4 million, an increase of RMB79.1 million as compared to the corresponding period last year, which was due to increases in both purchase volumes and purchase prices of thermal coal and external electricity to various degrees as compared to the corresponding period last year.

## **Table of Contents**

Selling and administrative expenses in the first half of 2005 amounted to RMB196.9 million, a decrease of 13.87% compared with RMB228.6 million in the first half of 2004.

Other operating expenses in the first half of 2005 amounted to RMB134.0 million, a decrease of RMB60.2 million as compared to the corresponding period last year, primarily due to the decrease in the loss from the Group's disposal of fixed assets during the reporting period.

Financial costs in the first half of 2005 amounted to RMB113.4 million, a decrease of 33.87% as compared to the corresponding period last year, which was primarily due to the decrease of our total amount of bank borrowings, in particular the reduction of long-term bank borrowings, thereby effectively reduced financial costs.

The Group's net profit after tax and minority interests increased by 15.96% from RMB1,520.7 million in the first half of 2004 to RMB1,763.4 million in the first half of 2005.

## **Liquidity and capital resources**

Net cash inflow provided from operating activities amounted to RMB1,628.1 million in the first half of 2005, an increase of RMB117.6 million as compared to the corresponding period last year. Due to the growth in the profit before tax, the profit before tax net of depreciation has brought RMB3,014.5 million operating cash inflow, an increase of RMB259.6 million cash inflow as compared to the corresponding period last year. Increased inventories led to an increase in operating cash outflow by RMB715 million at the end of the reporting period (as compared to an increase in operating cash outflow by RMB197.5 million in the corresponding period last year). Change in accounts payable and other payables led to an increase in operating cash outflow by RMB190.5 million at the end of the period (as compared to an increase in operating cash outflow by RMB46.7 million in the corresponding period last year). Decrease in debtors, bills receivable and deposits led to an increase in operating cash inflow by RMB75.2 million (as compared to a decrease in operating cash inflow of RMB540.4 million in the corresponding period last year). In addition, as a result of the changes in the accounts balances at the end of the period of the parent company and the subsidiaries, the Group's cash outflow was increased to RMB178.9 million (as compared to a decrease in operating cash outflow of RMB263.1 million).

## **Borrowings**

The Group's long-term borrowings were mainly applied to capital expansion projects. In general, the Group arranges long-term borrowings according to capital expenditure plans, and in overall, there was no seasonal borrowings. Short-term borrowings was used to meet our needs for working capital during the normal production and operation process. Our borrowings at the end of the first half of 2005 amounted to RMB5,776.7 million, a decrease of RMB1,238.3 million compared to the beginning of the period, of which, short-term borrowings increased by RMB154.4 million, and long-term borrowings decreased by RMB1,392.7 million.

As at 30 June 2005, guarantees provided by the Group to the Company's subordinate joint ventures and associates in favor of the bank, and the contingent liabilities to be undertaken on the guarantees provided by the joint venture to third parties amounted to RMB78.6 million.

**Foreign Exchange Risks**

Since we purchase our major raw materials, particularly crude oil through Sinopec Corp. from overseas sources, and also export a portion of our petroleum products directly through Sinopec Corp., a change in exchange rates will indirectly affect the prices of our raw materials and products which will have a discernible impact on our profitability. In addition, as discussed above, since a small part of our debts are denominated in foreign currencies, a change in the relevant exchange rates will affect the level of our financial expense which will also have an impact on our profitability.

**Table of Contents****Capital Expenditures**

In the first half of 2005, our capital expenditures amounted to RMB687.4 million, which included the renovation of No. 1 atmosphere and vacuum distillation facility, the 12,000-ton/year polyester filament expansion project, the expansion of 400,000-ton/year PTA facility, the newly built feedstock mutual supply pipeline between Shanghai Petrochemical and SECCO, and the 380,000-ton/year ethylene glycol plant. In the second half of the year, other than the aforesaid projects, we will also push forward the diesel hydrogenation plant, the renovation of the crude oil refining and other technological renovation projects and investment projects. The Group plans to fund the capital expenditures from operating cash income and credit facilities from banks.

During the reporting period, a Sino-foreign equity joint venture established between the Group, Sinopec Corp. and BP Chemicals East China Investments Limited was completed and commenced commercial operation. As at 30 June 2005, the Group invested RMB1,349.5 million in the joint venture.

**Debt-equity ratio**

As at 30 June 2005, our debt-equity ratio was 23.22% compared to 33.23% as at 30 June 2004. The ratio is computed by (total loans) / (total loans + shareholders' equity).

**Employees**

As at 30 June 2005, the number of our employees was approximately 26,460. Our staff costs for the period ended 30 June 2005 totaled RMB524.4 million.

Save as disclosed herein, pursuant to paragraph 40 in Appendix 16 of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (Listing Rules), the Company confirmed that there have been no material changes in the existing information of the Company relating to the matters as set out in paragraph 32 in Appendix 16 and the information disclosed in the Company's 2004 annual report.

### **Notes on the unaudited interim financial report**

#### **1 Principal activities and basis of preparation**

Sinopec Shanghai Petrochemical Company Limited ( the Company ) and its subsidiaries ( the Group ) is a highly integrated entity which processes crude oil into synthetic fibres, resins and plastics, intermediate petrochemicals and petroleum products. The Company is a subsidiary of China Petroleum & Chemical Corporation ( Sinopec Corp ).

The interim financial report has been prepared in accordance with the requirements of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited, including compliance with International Accounting Standards 34 Interim Financial Reporting adopted by the International Accounting Standards Board, ( IASB ).

The financial information relating to the financial year ended 31 December 2004 included in the interim financial report do not constitute the Company's statutory financial statements for that financial year but is derived from those financial statements. Statutory financial statements for the year ended 31 December 2004 are available from the Company's registered office. The Company's independent auditors have expressed an unqualified opinion on those financial statements in their report dated 23 March 2005.

Other than those set out in Note 2 below, the accounting policies have been consistently applied by the Group and are consistent with those adopted in the 2004 annual financial statements. The 2004 annual financial statements have been prepared in accordance with International Financial Reporting Standards ( IFRS ) promulgated by the IASB. IFRS includes International Accounting Standards ( IAS ) and related interpretations.

#### **2 Changes in accounting policies**

The IASB has issued a number of new and revised IFRS that are effective for accounting periods beginning on or after 1 January 2005. The Board of Directors has determined the accounting policies to be adopted in the preparation of the Group's annual financial statements for the year ending 31 December 2005, on the basis of IFRS currently in issue.

The IFRS that will be effective in the annual financial statements for the year ending 31 December 2005 may be affected by the issue of additional interpretation(s) or other changes announced by the IASB subsequent to the date of issuance of this interim report. Therefore, the policies that will be applied in the Group's financial statements for that period cannot be determined with certainty at the date of issuance of this interim financial report.

The following sets out further information on the changes in accounting policies for the annual accounting period beginning on 1 January 2005 which have been reflected in this interim financial report.

- (a) **Amortisation of positive and negative goodwill (IFRS 3, Business combinations and IAS 36, Impairment of assets)**

In prior periods:

positive goodwill was amortised on a straight line basis over its useful life and was subject to impairment testing when there were indications of impairment; and

negative goodwill was amortised over the useful life of the depreciable/amortisable non-monetary assets acquired, except to the extent it related to identified expected future losses as at the date of acquisition. In such cases it was recognised in the income statement as those expected losses were incurred.

With effect from the beginning of the first annual period beginning after 31 March 2004, i.e. 1 January 2005, in accordance with IFRS 3 and IAS 36, the Group no longer amortises positive goodwill. Such goodwill is tested annually for impairment, including in the year of its initial recognition, as well as when there are indication of impairment. Impairment losses are recognised when the carrying amount of the cash generating unit to which the goodwill has been allocated exceeds its recoverable amount.

Also with effect from the beginning of the first annual period beginning after 31 March 2004, i.e. 1 January 2005 and in accordance with IFRS 3, if the fair value of the net assets acquired in a business combination exceeds the consideration paid (i.e. an amount arises which would have been known as negative goodwill under the previous accounting policy), the excess is recognised immediately in the income statement as it arises.

## **Table of Contents**

The new policy in respect of positive goodwill has been applied prospectively in accordance with the transitional arrangements under IFRS 3. As a result, comparative amounts have not been restated, the cumulative amount of amortisation as at 1 January 2005 has been offset against the cost of the goodwill and no amortisation charge for goodwill has been recognised in the income statement for the six months ended 30 June 2005. As a result, this has increased the group's profit after tax for the six months ended 30 June 2005 by RMB 6,724,000.

Also in accordance with the transitional arrangements under IFRS 3, previous recognised negative goodwill shall be derecognised at the beginning of that period, with a corresponding adjustment to the opening balance of retained earnings. As a result, the retained earnings increased by RMB 2,549,000 as at 1 January 2005. This has decreased the group's profit after tax for the six months ended 30 June 2005 by RMB 425,000.

### **(b) Minority interests (IAS 1, Presentation of financial statements and IAS 27, Consolidated and separate financial statements)**

In prior years, minority interests at the balance sheet date were presented in the consolidated balance sheet separately from liabilities and as deduction from net assets. Minority interests in the results of the Group for the year were also separately presented in the consolidated income statement as a deduction before arriving at the profit attributable to shareholders.

With effect from 1 January 2005, in order to comply with IAS 1 and IAS 27, minority interests at the balance sheet date are presented in the consolidated balance sheet within equity, separately from the equity attributable to the equity holders of the parent, and minority interests in the results of the Group for the period are presented on the face of the consolidated income statement as an allocation of the total profit or loss for the period between minority interests and the equity holders of the parent.

The presentation of minority interests in the consolidated balance sheet, income statement and statement of changes in equity for the comparative period has been restated accordingly.

### **(c) Related party disclosures (IAS 24 Related party disclosures )**

The Group is a state-controlled enterprise and operates in an economic regime currently predominated by state-controlled enterprises. Apart from transactions with parent company and its fellow subsidiaries, the Group conducts a majority of its business with enterprises directly or indirectly owned or controlled by the PRC government and government authorities and fellow subsidiaries (collectively state-controlled entities ) in the ordinary course of business. In prior years, transactions with state-controlled entities other than Sinopec Corp and its fellow subsidiaries were not required to be disclosed as related party transactions.

With effect from 1 January 2005, in order to comply with IAS 24, the Group has made further disclosure of key management personnel compensation, contributions to post-retirement benefit plans and transactions with state-controlled entities in the PRC.

## **3 Segment reporting**

Reportable information on the Group's operating segments is as follows:

	Six-month periods	
	ended 30 June	
	2005	2004
	<u>RMB 000</u>	<u>RMB 000</u>
Turnover		
Manufactured Products		
<i>Synthetic fibres</i>		
External sales	2,449,372	2,417,891
Intersegment sales	43	34
Total	2,449,415	2,417,925
<i>Resins and plastics</i>		
External sales	6,930,737	5,442,159
Intersegment sales	27,797	15,047
Total	6,958,534	5,457,206
<i>Intermediate petrochemicals</i>		
External sales	3,483,154	2,290,996
Intersegment sales	6,408,146	5,065,567
Total	9,891,300	7,356,563
<i>Petroleum products</i>		
External sales	8,351,262	6,201,821
Intersegment sales	532,169	447,452
Total	8,883,431	6,649,273
<i>All others</i>		
External sales	671,947	1,425,270
Intersegment sales	1,808,478	1,851,705
Total	2,480,425	3,276,975
<b>Eliminations of intersegment sales</b>	<b>(8,776,633)</b>	<b>(7,379,805)</b>
<b>Consolidated turnover</b>	<b>21,886,472</b>	<b>17,778,137</b>

**Table of Contents**

External sales include sales to other Sinopec Corp group companies.

	Six-month periods	
	ended 30 June	
	2005	2004
	<i>RMB 000</i>	<i>RMB 000</i>
Profit before tax		
Profit/(loss) from operations		
Synthetic fibres	282,430	118,297
Resins and plastics	1,319,350	768,399
Intermediate petrochemicals	863,539	495,644
Petroleum products	(175,287)	531,715
All others	74,886	94,600
Consolidated profit from operations	2,364,918	2,008,655
Share of losses of associates	(93,723)	(17,392)
Net financing costs	(113,407)	(171,495)
Consolidated profit before tax	2,157,788	1,819,768

**4 Profit before tax**

Profit before tax is arrived at after charging/(crediting):

	Six-month periods	
	ended 30 June	
	2005	2004
	<i>RMB 000</i>	<i>RMB 000</i>
Interest on bank loans and advances	146,728	185,842
Less: Amount capitalised as construction in progress	(15,933)	
Interest expenses, net	130,795	185,842
Cost of inventories	18,949,942	15,097,255
Depreciation	856,665	935,073
Amortisation of lease prepayment	10,326	10,609
Net loss on disposal of property, plant and equipment	1,811	41,139
Impairment loss of property, plant and equipment		34,345
Amortisation of goodwill		6,724
Amortisation of deferred income	(5,759)	(6,184)

**5 Taxation**

Taxation in the consolidated income statement represents:

	Six-month periods	
	ended 30 June	
	2005	2004
	<i>RMB 000</i>	<i>RMB 000</i>
Provision for PRC income tax for the period	357,730	284,909
Deferred taxation	2,230	(16,523)
Tax refund		(10,262)
	359,960	258,124

Pursuant to the document Cai Shui Zi (1999) No. 290 issued by the Ministry of Finance and the State Administration of Taxation of the PRC on 8 December 1999, the Company was entitled to an income tax refund of RMB 10,262,000 during the period ended 30 June 2004 relating to the purchase of equipment produced in the PRC for technological improvements. The Company was not entitled to income tax refund during the period ended 30 June 2005.

The charge for PRC income tax is calculated at the rate of 15% (2004: 15%) on the estimated assessable income of the period determined in accordance with relevant income tax rules and regulations. The Company did not carry out business overseas and therefore does not incur overseas income taxes. The Company has not received notice from the Ministry of Finance that the 15% tax rate will be revoked in 2005. It is possible that the Company's tax rate will increase in the future.

## 6 Basic earnings per share

The calculation of basic earnings per share is based on the profit attributable to shareholders for the period of RMB1,763,442,000 (period ended 30 June 2004: RMB1,520,725,000) and 7,200,000,000 (period ended 30 June 2004: 7,200,000,000) shares in issue during the period.

**Table of Contents**

The amount of diluted earnings per share is not presented as there were no dilutive potential ordinary shares in existence for both periods.

**7 Dividends**

	Six-month periods	
	ended 30 June	
	2005	2004
	<i>RMB 000</i>	<i>RMB 000</i>
Final dividend in respect of the previous financial year, approved during the period, of RMB0.20 per share (2004: RMB0.08 per share)	1,440,000	576,000

Pursuant to a resolution passed at the Annual General Meeting held on 28 June 2005, a final dividend of RMB1,440,000,000 (2004: RMB576,000,000) was declared and approved for the year ended 31 December 2004.

The Directors do not recommend the payment of an interim dividend for the period (2004: RMB Nil).

**8 Trade accounts receivable**

	At 30 June 2005	At 31 December 2004
	<i>RMB 000</i>	<i>RMB 000</i> <i>(audited)</i>
Trade debtors	387,977	440,635
Less: Allowance for doubtful debts	(46,574)	(45,282)
	341,403	395,353
Bills receivable	1,719,230	1,675,412
Amounts due from parent company and fellow subsidiaries - trade	516,090	585,419
	2,576,723	2,656,184

The ageing analysis of trade accounts receivable (net of allowance for doubtful debts) is as follows:

	At 30 June 2005	At 31 December 2004
	<i>RMB 000</i>	<i>RMB 000</i> <i>(audited)</i>
Invoice date:		
Within one year	2,569,893	2,639,266

Edgar Filing: SINOPEC SHANGHAI PETROCHEMICAL CO LTD - Form 6-K

Between one and two years	6,830	16,918
Over two years		
	2,576,723	2,656,184

Sales are generally on a cash basis. Subject to negotiation, credit is generally only available for major customers with well-established trading records.

9 Trade accounts payable

	At 30 June 2005	At 31 December 2004
	<i>RMB 000</i>	<i>RMB 000</i> <i>(audited)</i>
Trade creditors	868,067	797,753
Bills payable	33,382	259,746
Amounts due to parent company and fellow subsidiaries - trade	391,259	639,445
	1,292,708	1,696,944

The maturity analysis of trade accounts payable is as follows:

	At 30 June 2005	At 31 December 2004
	<i>RMB 000</i>	<i>RMB 000</i> <i>(audited)</i>
Due within 1 month or on demand	1,287,667	1,420,092
Due after 1 month and within 3 months	5,041	276,852
	1,292,708	1,696,944

## **Table of Contents**

### **10 Reserve movement**

No transfers have been made to the statutory surplus reserve, the statutory public welfare fund nor the discretionary surplus reserve from the income statement for the period (period ended 30 June 2004: RMB Nil).

### **8.3 Differences between financial reports prepared under PRC Accounting Rules and Regulations and IFRS**

The below figures are extracted from the interim financial statements prepared in accordance with PRC Accounting Rules and Regulations and IFRS, both of which have not been audited.

The Company also prepares a set of financial statements which complies with PRC Accounting Rules and Regulations. A reconciliation of the Group's net profit and shareholders' equity prepared under PRC Accounting Rules and Regulations and IFRS is presented below.

Other than the differences in classification of certain financial statements assertions and the accounting treatment of the items described below, there are no material differences between the Group's financial statements prepared in accordance with PRC Accounting Rules and Regulations and IFRS. The major differences are:

- (i) capitalisation of general borrowing costs

Under IFRS, to the extent that funds are borrowed generally and used for the purpose of obtaining a qualifying asset, the borrowing costs should be capitalised as part of the cost of that asset. Under PRC Accounting Rules and Regulations, only borrowing costs on funds that are specially borrowed for construction are eligible for capitalisation as fixed assets.

- (ii) valuation surplus

Under PRC Accounting Rules and Regulations, the excess of fair value over the carrying value of assets given up in part exchange for investments should be credited to capital reserve fund. Under IFRS, it is inappropriate to recognise such excess as a gain as its realisation is uncertain.

- (iii) Government grants

Under PRC Accounting Rules and Regulations, government grants should be credited to capital reserve. Under IFRS, such grants for the purchase of equipment used for technology improvements are offset against the cost of asset to which the grants related. Upon transfer to property, plant and equipment, the grant is recognised as income over the useful life of the property, plant and equipment by way of a reduced depreciation charge.

(iv) Revaluation of land use rights

Under IFRS, land use rights are carried at historical cost less accumulated amortisation. Under PRC Accounting Rules and Regulations, land use rights are carried at revalued amount less accumulated amortisation.

(v) Pre-operating expenditure

Under IFRS, expenditure on start-up activities should be recognised as expenses when it is incurred. Under PRC Accounting Rules and Regulations, all expenses incurred during the start-up period are aggregated in long-term deferred expenses and then fully charged to the income statement in the month of commencement of operations.

(vi) Goodwill and negative goodwill amortization

Under PRC Accounting rules and regulations, goodwill and negative goodwill are amortized on a systematic basis over their useful lives.

Under IFRS, with reference to IFRS 3, *Business combination*, the Group no longer amortises positive goodwill effective 1 January 2005. Such goodwill is tested annually for impairment. Also in accordance with the transitional arrangements under IFRS 3, previous recognised negative goodwill was derecognised at the beginning of that period, with a corresponding adjustment to the opening balance of retained earnings.

**Table of Contents**

Effects on the Group's net profit and shareholders' equity of significant differences between PRC Accounting Rules and Regulations and IFRS are summarised below:

	Note	Six-month periods	
		ended 30 June	
		2005	2004
		RMB 000	RMB 000
Net profit under PRC Accounting Rules and Regulations		1,650,520	1,531,200
Adjustments:			
Capitalisation of borrowing costs, net of depreciation effect	(i)	13,119	(2,386)
Reduced depreciation on government grants	(iii)	13,380	13,380
Amortisation of revaluation of land use rights	(iv)	1,749	1,749
Write off of pre-operating expenditure	(v)		(23,314)
Reversal of pre-operating expenditure previously written-off	(v)	80,605	
Goodwill and negative goodwill amortisation	(vi)	6,299	
Deferred tax effect of the above adjustments		(2,230)	96
Profit attributable to shareholders under IFRS		1,763,442	1,520,725
		At 30 June	At 31 December
	Note	2005	2004
		RMB 000	RMB 000
Shareholders' equity under PRC Accounting Rules and Regulations		19,112,801	18,902,281
Adjustments:			
Capitalisation of borrowing costs	(i)	96,144	83,025
Valuation surplus	(ii)	(44,887)	(44,887)
Government grants	(iii)	(304,059)	(317,439)
Revaluation of land use rights	(iv)	(131,112)	(132,861)
Write off of pre-operating expenditure	(v)		(80,605)
Cumulative effect on negative goodwill of adopting IFRS 3	(vi)	2,549	
Goodwill and negative goodwill amortisation	(vi)	6,299	
Deferred tax effect of the above adjustments		5,245	7,475
Shareholders' equity under IFRS		18,742,980	18,416,989

**8.4 Supplementary Information for North American Shareholders**

The Group's accounting policies conform with IFRS which differ in certain significant respects from accounting principles generally accepted in the United States of America ( U.S. GAAP ). Information relating to the nature and effect of such differences is presented below. The U.S. GAAP reconciliation presented below is included as supplemental information and is not required as part of the basic interim financial reports. Such information has not been subjected to independent audit or review.

Notes:

(a) **Foreign exchange gains and losses**

Under IFRS, foreign exchange differences on funds borrowed for construction are capitalised as property, plant and equipment to the extent that they are regarded as an adjustment to interest costs during the construction period. In the periods ended 30 June 2004 and 2005, no foreign exchange differences were capitalised to property, plant and equipment. Under U.S. GAAP, all foreign exchange gains and losses on foreign currency debt are included in current earnings. In the period ended 30 June 2004, the U.S. GAAP adjustments represent the effect of amortisation of amounts previously capitalised. Accordingly, the balances of cost and accumulated depreciation of property, plant and equipment under IFRS were higher than the balances under US GAAP by RMB 365,258,000 and RMB 365,258,000 respectively at 30 June 2005 and 31 December 2004.

## **Table of Contents**

### **(b) Capitalisation of property, plant and equipment**

In the periods prior of those presented herein, certain adjustments arose between IFRS and U.S. GAAP with regard to the capitalisation of interest and pre-production results under IFRS, that were reversed and expensed under U.S. GAAP. For the periods presented herein, no adjustments related to the capitalisation of construction costs, including capitalised interest, are necessary. The U.S. GAAP adjustments for 2004 represent the amortisation effect of such originating adjustments described above.

### **(c) Revaluation of property, plant and equipment**

In the periods prior to those presented herein, the property, plant and equipment of the Company were revalued to reflect the then current fair value resulting in a revaluation surplus recorded in the Company's financial statements. Additional depreciation charges have been taken in the periods ended 30 June 2004 and 2005 on the revaluation surplus of RMB1,576,330,000.

Under U.S. GAAP, property, plant and equipment are stated at historical cost less accumulated depreciation. However, as a result of the tax deductibility of the revaluation, a deferred tax asset related to the reversal of the revaluation surplus is created under U.S. GAAP with a corresponding increase in shareholders' equity.

### **(d) Capitalised interest on investment in associates**

Under IFRS, investment accounted for by the equity method is not considered a qualifying asset for which interest is capitalised. Under US GAAP, an investment accounted for by the equity method while the investee has activities in progress necessary to commence its planned principal operations, provided that the investee's activities include the use of funds to acquire qualifying assets for its operations, is a qualifying asset for which interest is initially capitalised and subsequently amortised when the operation of the qualifying assets begin.

### **(e) Goodwill and negative goodwill amortisation**

With effect from the beginning of the first annual period beginning after 31 March 2004, i.e. 1 January 2005, in accordance with IFRS 3 and IAS 36, the Group no longer amortises positive goodwill. Such goodwill is tested annually for impairment, including in the year of its initial recognition, as well as when there are indication of impairment. Impairment losses are recognised when the carrying amount of the cash generating unit to which the goodwill has been allocated exceeds its recoverable amount.

Also with effect from the beginning of the first annual period beginning after 31 March 2004, i.e. 1 January 2005 and in accordance with IFRS 3, if the fair value of the net assets acquired in a business combination exceeds the consideration paid (i.e. an amount arises which would have been known as negative goodwill under the previous accounting policy), the excess is recognised immediately in the income statement as it arises.

The new policy in respect of positive goodwill has been applied prospectively in accordance with the transitional arrangements under IFRS 3. As a result, comparative amounts have not been restated, the cumulative amount of amortisation as at 1 January 2005 has been offset against the cost of the goodwill and no amortisation charge for goodwill has been recognised in the income statement for the six months ended 30 June 2005. As a result, this has increased the group's profit after tax for the six months ended 30 June 2005 by RMB 6,724,000.

Also in accordance with the transitional arrangements under IFRS 3, previous recognised negative goodwill shall be derecognised at the beginning of that period, with a corresponding adjustment to the opening balance of retained earnings. As a result, the retained earnings increased by RMB 2,549,000 as at 1 January 2005. This has decreased the group's profit after tax for the six months ended 30 June 2005 by RMB 425,000.

Under U.S. GAAP, with reference to Statement of Financial Accounting Standards No. 142, Goodwill and Other Intangible Assets (SFAS No. 142), goodwill is no longer amortised beginning 1 January 2002, the date that SFAS No. 142 was adopted. Instead, goodwill will be reviewed for impairment upon adoption of SFAS No. 142 and annually thereafter. In addition, under U.S. GAAP, the unallocated negative goodwill that existed at the date of adoption of SFAS No. 142 was written off effective 1 January 2002 as a cumulative effect of a change in accounting principle.

As a result, there are no differences in respect of goodwill and negative goodwill amortisation between IFRS and U.S. GAAP effective 1 January 2005. The difference in the shareholders' equity represents the three-year's amortization of positive goodwill during the period from 1 January 2002 to 31 December 2004 under IFRS.

**(f) Basic earnings per share**

The calculation of basic earnings per share is based on the net profit under U.S. GAAP of RMB 1,779,569,000 (period ended 30 June 2004: RMB 1,602,140,000) and the number of shares in issue during the period of 7,200,000,000 (period ended 30 June 2004: 7,200,000,000). Basic earnings per ADS is calculated on the basis that one ADS is equivalent to 100 shares.

The amount of diluted earnings per share is not presented as there were no dilutive potential ordinary shares in existence for both periods.

**(g) United States dollar equivalents**

For the convenience of the reader, amounts in Renminbi (RMB) have been translated into United States dollars at the rate of US\$1.000 = RMB 8.2765 being the average of the buying and selling rates quoted by the People's Bank of China on 30 June 2005. No representation is made that the RMB amounts could have been, or could be, converted into United States dollars at that rate.

**Resolutions of the 2nd Meeting of  
the Fifth Session of the Board of Directors**

The board of directors of Sinopec Shanghai Petrochemical Company Limited (the "Company") and its directors confirm the authenticity, accuracy and completeness of the information contained in this announcement and collectively accept full responsibility for any false or misleading information in, or any material omissions from this announcement.

The directors were informed in respect of the 2nd meeting of the fifth session of the board of directors of the Company (the "Meeting") via facsimile and courier on 15 August 2005. The Meeting was held on 25 August 2005 at the No. 8 Conference Room of the Company's headquarters. Of the 12 directors entitled to attend the Meeting, 9 of them attended the Meeting. Mr. Rong Guangdao, Chairman, was engaged in business and did not attend the Meeting. He had authorized Mr. Du Chongjun, Vice Chairman, to preside over the Meeting, and as his irrevocable voting proxy; Mr. Lei Dianwu and Mr. Xiang Hanyin, Directors, were engaged in business and did not attend the Meeting. They had authorized Mr. Du Chongjun, Vice Chairman, as their irrevocable voting proxy. The Meeting complied with the PRC Company Law and the articles of association of the Company. Some of the supervisors and senior management staff members of the Company attended the Meeting. The Meeting considered and approved the following resolutions:

**Resolution 1** The 2005 interim report; the announcement of interim results; the publication of the interim results announcement in Shanghai Securities News, China Securities News, and Hong Kong newspapers South China Morning Post and Hong Kong Commercial Daily; and the dispatch of the interim report to every overseas holder of the Company's H shares and relevant parties, including 25 copies to The Stock Exchange of Hong Kong Limited, were approved. The Vice Chairman and the company secretary were authorized to submit the relevant information in respect of the interim report to the China Securities Regulatory Commission (CSRC), the Shanghai Stock Exchange, The Stock Exchange of Hong Kong Limited, the U.S Securities and Exchange Commission and the New York Stock Exchange (with 12 votes in favor, 0 vote against, 0 abstention);

**Resolution 2** The Directors' resolution of not declaring an interim dividend was approved in consideration of the international practice and the time and cost needed for an interim results audit due to the CSRC's requirement of audited interim results for interim dividend distribution (with 12 votes in favor, 0 vote against, 0 abstention);

**Resolution 3** The Company's entering into a petrochemical products agency sales contract with China Petroleum and Chemical Corporation was approved. Connected directors Mr. Lei Dianwu and Mr. Xiang Hanyin abstained from voting at the resolution (with 10 votes in favor, 0 vote against, 0 abstention).

**Sinopec Shanghai Petrochemical Company Limited**

## **CONNECTED TRANSACTION**

### **Important Highlights**

#### *The Contract*

On 25 August 2005, the Company entered into a petrochemical products agency sales contract (the "Contract") with China Petroleum and Chemical Corporation (Sinopec Corp.). Pursuant to the Contract, the Company appoints Sinopec Corp. as a non-exclusive sales agent for the sales of (i) synthetic resins, (ii) synthetic fibres, (iii) synthetic fibre monomers and polymers, (iv) organic petrochemical products and (v) by-products from ethylene cracking and aromatics plants and other substandard products related to the above five products. In consideration of the provision of sales agency services, the Company will pay Sinopec Corp. an agency fee of not more than 0.9% of the total sales revenue of products sold pursuant to the Contract.

#### *Connected Persons Abstained from Voting*

Sinopec Corp. is the controlling shareholder of the Company having a beneficial interest of 55.56% in the Company's registered capital. This transaction constitutes a connected transaction between the Company and Sinopec Corp. Directors Lei Dianwu (Director of the Development and Planning Department of Sinopec Corp.) and Xiang Hanyin (Deputy Director of the Petrochemical Business Department of Sinopec Corp.) who are deemed to have an interest in the Contract pursuant to the Company's Articles of Association abstained from voting at the board of directors meeting in respect of the connected transaction.

#### *Note to Investors*

In accordance with the Shanghai Listing Rules and Hong Kong Listing Rules, the transaction constitutes a connected transaction under the Shanghai Listing Rules and Hong Kong Listing Rules, requiring disclosure by way of announcement.

## Edgar Filing: SINOPEC SHANGHAI PETROCHEMICAL CO LTD - Form 6-K

The Company and all members of the board of directors confirm that the information contained in this announcement is true, accurate and complete, and severally and jointly accept full responsibility for any false statements, misleading representations or material omissions in this announcement.

**II. Overview of the Connected Transaction**

*(1) The Contract*

On 25 August 2005, the Company entered into the Contract with Sinopec Corp..

## **Table of Contents**

Pursuant to the Contract, the Company appoints Sinopec Corp. for the sales of the Relevant Petrochemical Products. The Company agrees pursuant to the Contract to sell its output of the Relevant Petrochemical Products through Sinopec as its non-exclusive sales agent, and the Company will reserve the right to make sales of any of the Relevant Petrochemical Products independently or through a third party agent.

In addition, the Company warrants to Sinopec Corp. that the quality of the petrochemical products offered to Sinopec Corp. for sales as an agent will comply with the laws and regulations of the government and the industry's standards, and/ or the requirement standards stipulated in the contract entered into with the buyer. If there is any claim or loss incurred to Sinopec Corp. as a result of quality defects or incorrect specifications on the petrochemical products sold or other mistakes on the part of the Company, the Company will be liable to pay for damages, unless such a claim or loss arises from any material mistakes or negligence made by Sinopec Corp. If there is any dispute between the Company and a third party in respect of the products sold by Sinopec Corp., Sinopec Corp. should provide assistance to the Company for resolving such dispute.

The Contract will be effective from the date of signing and will expire on 31 December 2007.

As each of the of the applicable percentage ratios (other than the profits ratio) (as defined in the Hong Kong Listing Rules) for the Contract is on an annual basis more than 0.1% but less than 2.5%, it is subject to the reporting and announcement requirements but is exempt from independent shareholders' approval requirements.

### *(2) Consideration and Value of the Contract*

In consideration of the provision of sales agency services, the Company will pay Sinopec Corp. an agency fee of not more than 0.9% of the total sales revenue of products sold pursuant to the Contract. This fee is determined by reference to the actual costs incurred by Sinopec Corp. in relation to the agency arrangement and also based on the agency fee payable to Sinopec Corp. in past agency arrangements. This fee does not exceed the Company's comparable sales and marketing expenses if the sales are to be conducted by the Company itself. Sinopec Corp. shall bear all expenses in relation to the provision of the sales agency services. As the fee is intended to cover costs and expenses only without any provision for profit to Sinopec Corp., the Company believes that such terms are more favorable than those offered by independent third parties.

The selling prices to customers (which will include sales of finished petrochemical products to independent third parties and sales of intermediate feed stocks to connected persons) for the Relevant Petrochemical Products will be based on the price adjustment advice on the selling prices of petrochemical products given by Sinopec Corp. with regard to the changes of market conditions, and the Company will determine the selling prices. The Company considers that the participation of Sinopec Corp. and the latter's stronger bargaining power and coordination will contribute to the Company in obtaining better prices for the sales of its products and in turn will also secure its source of supply of intermediate petrochemical feed stocks.

As the agency fee is determined by reference to the actual costs incurred by Sinopec Corp. in relation to the sales of the Relevant Petrochemical Products, and Sinopec Corp. will incur substantially less costs in arranging sales to a connected person as compared to sales to a third party, therefore the agency fee payable to Sinopec Corp for sales to a connected person will be significantly lower than that to a third party.

**Table of Contents**

Any sale of the Relevant Petrochemical Products to a connected person (including Sinopec Corp. and its associates) under the Contract constitutes a connected transaction under the Hong Kong Listing Rules and will be conducted strictly under the terms specified in the circular to the Company's shareholders dated 13 May 2005 (the Circular), as approved by the shareholders at an extraordinary general meeting on 28 June 2005.

The Company will collect the proceeds directly from the petrochemical products sold by Sinopec Corp. as an agent, while Sinopec Corp. will be entitled to receive the agency fee based on such proceeds. Both parties agreed that the agency fee will be settled once every 10 days, which means the prepayment dates will be the 15th day and the 25th day of each month and the settlement date will be the 5th day of the following month. If the payment for a sales proceed is not made on the due date by any third party, Sinopec Corp. will be liable to recover such amount.

For the years ended 31 December 2002, 2003 and 2004, the Company's consolidated sales revenue of the Relevant Petrochemical Products which are the subject of the Contract totaled RMB13.578 billion (equivalent to about HKD 13.182 billion), RMB18.910 billion (equivalent to about HKD 18.359 billion) and RMB26.055 billion (equivalent to about HKD 25.296 billion), respectively, representing 62.51%, 65.34% and 67.39% respectively of the Group's net sales for those periods. Pursuant to the Contract, with regard to the proposed sales agency fee of not more than 0.9%, the notional sales agency fees payable in these periods would have been RMB122 million (equivalent to about HKD 118.446 million), RMB170 million (equivalent to about HKD 165.048 million) and RMB235 million (equivalent to about HKD 228.155 million) (collectively, the Notional Agency Fees), respectively, as compared with the selling and marketing expenses for the Company of RMB421 million (equivalent to about HKD 408.737 million), RMB445 million (equivalent to about HKD 432.038 million) and RMB396 million (equivalent to about HKD 384.446 million), respectively, for the same periods. These selling and marketing expenses figures represent the historical expenses incurred by the Company for its entire range of petrochemical products. Accordingly, these figures should not be taken as representation that the agency arrangement with Sinopec Corp. will achieve complete saving of such selling and marketing expenses.

## (3) Caps

## (i) Agency Sales to Third Party Customers

For the three years ended 31 December 2007, the maximum aggregate agency fees payable to Sinopec Corp. under the Contract for the sales of the Relevant Petrochemical Products to third party customers shall not exceed the caps set out below:

	<b>For the year ending 31 December 2005</b>	<b>For the year ending 31 December 2006</b>	<b>For the year ending 31 December 2007</b>
	<hr/>	<hr/>	<hr/>
		<i>(RMB millions)</i>	
Total amount to be paid under the Contract for sales to third party customers	126	291	340

**Table of Contents**

## (ii) Agency Sales to Connected Persons

For the three years ended 31 December 2007, the maximum aggregate fees payable to Sinopec Corp. under the Contract for the sales of the Relevant Petrochemical Products to connected persons shall not exceed the caps set out below:

	<b>For the</b>	<b>For the</b>	<b>For the</b>
	<b>year ending</b>	<b>year ending</b>	<b>year ending</b>
	<b>31 December</b>	<b>31 December</b>	<b>31 December</b>
	<b>2005</b>	<b>2006</b>	<b>2007</b>
	<hr/>	<hr/>	<hr/>
	<i>(RMB millions)</i>		
Total amount to be paid under the Contract for sales to connected persons	8	17	19

As each of the of the applicable percentage ratios (other than the profits ratio) (as defined in the Hong Kong Listing Rules) for the maximum aggregate fees payable to Sinopec Corp. under the Contract for the sales of the Relevant Petrochemical Products to (i) third party customers and (ii) connected persons is, on an annual basis, more than 0.1% but less than 2.5%, the Contract is subject to the reporting and announcement requirements but is exempt from independent shareholders' approval requirements.

## (iii) Basis of Determination of the Caps

The caps referred to above are determined with reference to:

- (a) the previous transactions conducted and transaction amounts in respect of the Company's sales of the Relevant Petrochemical Products;
- (b) the Company's estimate of the increase in the overall demand for the Relevant Petrochemical Products in the PRC;
- (c) the Company's estimate of the increase in the crude oil prices; and
- (d) the Company's estimate of its business growth.

The Company notes that the above caps are higher than the Notional Agency Fees in 2004. The Company has recently completed the construction of several facilities, including the 8,000,000 ton/year atmosphere and vacuum distillation plants, the expansion of the capacity of the PTA plant to 400,000 ton/year, the three-kettle process 150,000 ton/year PET plant and the construction of the technology upgrade project for industrial polyester filament of 12,000 ton/year. These newly completed projects have significantly increased the production capacity of the Company. Accordingly, the Company expects that its sales through its agents would increase as a result of the Company's enlarged production capacity.

## **Table of Contents**

### *(4) Relationships between the Company and Sinopec Corp.*

Sinopec Corp. is the controlling shareholder of the Company, having a beneficial interest of 55.56% of the registered capital of the Company. In accordance with the Shanghai Listing Rules and the Hong Kong Listing Rules, Sinopec Corp. and the Company are connected persons. Accordingly, the Contract constitutes a continuing connected transaction under the Shanghai Listing Rules and the Hong Kong Listing Rules and is subject to reporting and announcement requirements but is not subject to independent Shareholders' approval at the Company's general meeting.

### *(5) Review of the Connected Transaction*

At the second meeting of the fifth board of directors of the Company, the Contract was reviewed and approved. The board of directors has conscientiously discussed the Contract and the directors who are deemed to have an interest in the Contract pursuant to the Company's Articles of Association abstained from voting. All non-connected directors including independent directors have unanimously agreed to the connected transaction.

### *(6) Necessary PRC Approvals*

The transaction does not require any approvals from the relevant government authorities.

## **III. Description of the Connected Parties**

### *(1) Information Required under the Shanghai Listing Rules*

#### *(i) Basic Information on Sinopec Corp.*

Name of the corporate:	China Petroleum and Chemical Corporation
Address:	A6 Hui Xin East Street, Chaoyang District, Beijing, PRC
Type of the corporate:	Joint stock limited company

## **Table of Contents**

### **IV. Reasons for and benefits of the Contract**

The Company entered into the Contract in order to consolidate its market position in the petrochemical industry and to improve its pricing mechanisms. The Directors consider that through the strategic arrangement envisaged under the Contract, the Company can leverage Sinopec Corp.'s market share advantage in the sales of the Relevant Petrochemical Products, thereby increasing the Company's competitiveness. The arrangements contemplated under the Contract provides the Company with the benefits of the strong bargaining power and market position of Sinopec Corp. and its ability to coordinate the activities of other petrochemical producers within the PRC. The Directors consider that such benefits, as well as the operating scale of Sinopec Corp., are such that there are negligible risks associated with appointing Sinopec Corp. as a non-exclusive sales agent.

Prior to entering into the Contract, the Company conducted its own sales and marketing functions in relation to the products. The Company's sales and marketing force is discreetly segregated into various divisions by the Company's lines of products. As part of the implementation of the Contract, the Company intends to transfer the relevant division of its sales and marketing function to Sinopec Corp., thus reducing related sales and marketing expenses. The Company's own sales and marketing function will continue to conduct sales and marketing in respect of other products not covered under the Contract.

### **V. Opinions of Directors**

Directors Lei Dianwu (Director of the Development and Planning Department of Sinopec Corp.) and Xiang Hanyin (Deputy Director of the Petrochemical Business Department of Sinopec Corp.) who are deemed to have an interest in the Contract pursuant to the Company's Articles of Association abstained from voting at the board of directors meeting in respect of the connected transaction.

Save as for the Directors who are deemed to have an interested in the Contract and who abstained from voting, all Directors, including the independent non-executive Directors, consider that the Contract is in the ordinary and usual course of the business of the Group and is in the interest of the Company and its shareholders as a whole are concerned.

The independent non-executive Directors of the Company, namely Chen Xinyuan, Sun Chiping, Jiang Zhiquan and Zhou Yunnong unanimously expressed their opinions as follows: The transaction has strictly complied with the relevant laws and regulations of the government, the requirements of regulatory documents and the relevant provisions of the articles of association of the Company. During the course of voting at the board of directors meeting in respect of the matter, directors who are deemed to have an interest in the Contract by virtue of the Company's Articles of Association abstained from voting. The voting procedures have complied with the relevant laws and regulations within and outside the country, the requirements of regulatory documents and the articles of association of the Company. This transaction is conducted in normal commercial terms. The terms of the Contract are fair and reasonable to the Company and its shareholders as a whole. The Company approves the signing of the Contract.

**Table of Contents**

**VI. Documents for Inspection**

The following documents are available for inspection from the date of the announcement at the legal address of the Company during normal business hours:

1. the resolution of the second meeting of the fifth session of the board of directors of the Company (including opinions of independent directors); and
2. the Contract.

This announcement contains translation between RMB amounts and HKD at 1.03, being the exchange rate prevailing on the date of the Contract. The translation shall not be taken as representation that RMB could actually be converted into HKD at that rate, or at all.

By Order of the Board

**Zhang Jingming**
