Swedish Match AB

By: /s/ Bertil Raihle

Bertil Raihle
Vice President Corporate Control

Report on Operations full year 2005

- prepared in accordance with IFRS

Fourth quarter net sales were 3,500 MSEK (3,211), and full year sales were 13,311 MSEK (13,007)

Fourth quarter operating income was 678 MSEK (508) and full year operating income was 2,825 MSEK (3,593)

Operating income for the full year, excluding major one-time items, was 2,618 MSEK (2,312)

Net profit for the fourth quarter was 456 MSEK (297), and for the full year was 1,777 MSEK (2,084)

Fourth quarter EPS was 1.47 SEK (0.86), and full year EPS was 5.61 SEK (6.18)

The Board proposes an increased dividend to 2.10 SEK (1.90)

Sales and results for the fourth quarter

Swedish Match sales for the fourth quarter increased by 9 percent to 3,500 MSEK (3,211). In local currency terms sales increased by 1 percent. Excluding divested companies, sales increased by 4 percent. All product areas except matches demonstrated sales growth. Adjusted for the divestiture of the Indian company Wimco Ltd. on July 1, 2005, sales also increased for matches during the fourth quarter.

For snuff, sales grew by 13 percent during the fourth quarter, to 819 MSEK (726) while operating income increased by 37 percent to 392 MSEK (287). Last year's operating income was negatively impacted by one time items of 70 MSEK. Swedish Match volumes increased in both the US and Scandinavian markets. Operating margin was 47.8 percent (39.5).

Sales of cigars grew by 6 percent in the fourth quarter and amounted to 834 MSEK (790), while operating income grew by 64 percent, to 176 MSEK (108). Sales in local currency terms were weaker during the fourth quarter in both Europe and the US. The increase in operating income results from both benefits of prior cost savings programs, and the fact that the fourth quarter last year was impacted with restructuring costs of 25 MSEK. Operating margin for cigars amounted to 21.1 percent (13.6).

Group operating income for the fourth quarter reached 678 MSEK (508). If last year's currency rates had been used the operating income would have amounted to 616 MSEK. Costs relating to divestitures and restructurings primarily within the

match business reduced operating income during the fourth quarter 2005 by 90 MSEK. Last year's fourth quarter included restructuring costs of 125 MSEK. Operating income for the fourth quarter excluding restructuring related charges and divestments in both years grew by 21 percent, to 768 MSEK (633).

Operating margin for the fourth quarter amounted to 19.4 percent (15.8). Excluding restructuring charges and divestments, fourth quarter operating margin was 21.9 percent (19.7).

During the fourth quarter basic EPS, amounted to 1.47 SEK, compared to 0.86 SEK last year. Diluted EPS amounted to 1.46 SEK (0.86).

Sales and results full year 2005

Sales for the full year amounted to 13,311 MSEK (13,007). Excluding divested companies, sales increased by 2 percent in local currency terms. Operating income amounted to 2,825 MSEK (3,593). Last year's operating income for the year included some larger one time items, the income of 1,521 MSEK from the settlement with UST and match impairment charges and provisions of 240 MSEK. Excluding the third quarter 2005 gain from the sale of the New York real estate and larger one time items the year before, operating income during 2005 increased by 13 percent to 2,618 MSEK (2,312).

Group operating margin during 2005 was 19.7 percent excluding the gain from the sale of the New York real estate. Excluding larger one time items, operating margin during last year was 17.8 percent.

EPS (basic) for the full year was 5.61 SEK (6.18). Diluted EPS amounted to 5.59 SEK (6.15). Excluding larger one time items earnings per share was 5.30 SEK compared to 4.19 SEK last year.

The Board proposes an increased dividend to 2.10 SEK (1.90).

Summary of Consolidated Income Statement

	October	December	Full year	Full year
<i>MSEK</i>	2005	2004	2005	2004

* Excluding major one time items

Smokeless Tobacco

Swedish Match has an international presence in smokeless tobacco, and sells products on most major smokeless markets. Swedish Match is a market leader in snuff in Sweden and Norway. On the largest snuff market in the world, the US, as well as in South Africa, Swedish Match has a significant position. In the US, Swedish Match is the largest manufacturer on the market for chewing tobacco. Smokeless tobacco products are increasingly recognized as having significantly lower health consequences than cigarettes. This knowledge, together with increased restrictions for cigarette smoking creates good conditions for organic growth, especially for snuff.

Snuff

Sweden is the world's largest snuff market when it comes to per capita consumption. In Sweden, a substantially larger proportion of the male population uses snuff compared to cigarettes. The number of women using snuff is steadily increasing. The Norwegian market, which is substantially smaller than the Swedish market, is at present showing strong growth. The US is the world's largest snuff market measured in number of cans and is approximately five times larger than the Swedish market. In Sweden and Norway, Swedish Match has the leading position. In the US, the Company is well positioned as number three on the market. Some of the best known brands include General, Ettan, and Grov in Sweden, Timberwolf in the US and Taxi in South Africa.

During the fourth quarter, sales increased by 13 percent versus the previous year, to 819 MSEK (726), and operating income grew by 37 percent, to 392 MSEK (287). Volumes increased in Scandinavia (1.0 percent) as well as in the US (18.0 percent), measured in number of cans. Operating margin reached 47.8 percent (39.5). Last year's operating income was negatively impacted due to one time items of 70 MSEK.

Sales for the full year amounted to 3,131 MSEK (3,081), an increase of 2 percent. In Scandinavia sales volumes increased by 1 percent. In Sweden the decrease was 1 percent, while volumes in Norway as well as tax free sales increased. Loose snuff declined on the Swedish market, while sales of pouched snuff increased. The proportion of pouched snuff is currently 58 percent of the Swedish market, compared to 55 percent in December 2004. Competition on the Swedish market has increased.

In the US, year to date sales volumes were up by 5 percent versus previous year measured in number of cans. Sales of the Longhorn value priced brand were considerably higher than the year before, while sales for Timberwolf were lower. At the end of 2004 the Timberwolf brand was repositioned with a lower price. Swedish Match's average market share during 2005 in the US market amounted to 9.4 percent (8.9) according to Nielsen estimates.

Operating income for the year amounted to 1,504 MSEK (1,376), up 9 percent. On the Nordic market operating income increased mainly due to higher volumes, improved average prices and lower costs as a result of the accomplished reorganization. In the US, sales declined due to the repositioning of the Timberwolf brand with a lower list price as well as larger part of sales attributable to the Longhorn brand. Operating margin in the US increased somewhat. Operating margin for snuff for the year was 48.0 percent (44.7).

Chewing Tobacco

Chewing tobacco is sold primarily in the North American market, with concentration in the southern US. Well known brands include Red Man and Southern Pride. Swedish Match is the leading producer of chewing tobacco in the US, and the market share is 44 percent, according to Nielsen estimates. The chewing tobacco segment declines each year due to relatively few new consumers. Some consumers choose to use snuff instead.

During the fourth quarter, sales increased by 18 percent, to 280 MSEK (237), and operating income grew by 48 percent, to 100 MSEK (67). Improved average price and a stronger US dollar compensated for lower volumes. Operating margin reached 35.6 percent (28.4).

Sales for the full year grew by 2 percent to 1,079 MSEK (1,058), while operating income increased by 14 percent to 347 MSEK (304). Higher average price compensated for volume loss and lower costs as well as a stronger US dollar contributed to the improved operating income. Operating margin amounted to 32.1 percent (28.7).

Cigars and Pipe Tobacco

Swedish Match is one of the world's largest operators within cigars and pipe tobacco. Organic growth opportunities are mainly within cigars, while the consumption of pipe tobacco is declining.

Cigars

Swedish Match is the second largest producer of cigars and cigarillos in sales value. Swedish Match offers a full range of different cigars and brands. Well known brands include Macanudo, La Gloria Cubana, White Owl, Garcia y Vega, La Paz, Justus van Maurik, and Wings. The US is the largest cigar market in the world and Swedish Match has a leading position in the premium segment, and is well established in the segment for machine made cigars. After the US, the most important cigar markets are in Europe, where Swedish Match is well represented in most countries, with an especially good market position in The Netherlands and Scandinavia. In Europe, machine made cigars dominate.

During the fourth quarter, sales increased by 6 percent, to 834 MSEK (790), and operating income increased by 64 percent, to 176 MSEK (108). Operating margin reached 21.1 percent (13.6). Unit volumes declined in both Europe and the US, and the improved operating income is mainly attributable to the effects of prior cost savings activities in the European business.

Sales for the full year amounted to 3,283 MSEK (3,171), an increase of 4 percent. In local currency terms sales were up 2 percent. Operating income for the full year grew by 8 percent to 613 MSEK (567). Operating margin amounted to 18.7 percent (17.9). Excluding charges of 75 MSEK related to the integration of General Cigar in 2005, and 36 MSEK regarding restructuring programs in Europe in 2004, operating income grew by 14 percent and operating margin grew to 21.0 percent (19.0). The increase in operating income is primarily due to lower costs as a result of previous restructuring measures.

Pipe Tobacco and Accessories

Swedish Match is one of the largest pipe tobacco companies in the world and its products are marketed worldwide. The Borkum Riff brand is sold in over 60 countries. The Company has its most significant presence in South Africa, where local production takes place. Best Blend and Boxer are major brands in South Africa. Pipe tobacco consumption declines on most established markets, as the segment attracts relatively few new consumers. However, the demand is increasing in certain smaller export markets.

During the fourth quarter, sales grew by 1 percent, to 245 MSEK (242), and operating income declined by 17 percent, to 60 MSEK (72). Operating margin was 24.4 percent (29.8).

Sales for the full year amounted to 920 MSEK (901). Improved price levels and a somewhat stronger South African Rand compensated for lower volumes. Operating income was 237 MSEK (254). Operating margin amounted to 25.8 percent (28.2).

Lights

Swedish Match markets matches and lighters globally.

Matches

Swedish Match is a market leader in many markets for matches. The brands are mostly local, and have leading positions in their home countries. Major brands include Swan, Solstickan, Three Stars, and Redheads.

During the year, an extensive restructuring program has been completed within the match business. The match factory in Valencia, Spain has been closed and the property has been divested. Also, the decision has been made to close the match manufacturing facility in Turkey. The European match business is now concentrated in the match factory in Tidaholm, Sweden. Further, a number of units and holdings have been divested. The holding in the Indian match company Wimco Ltd. has been divested in two steps and was concluded during the fourth quarter. Wimco Ltd. is not consolidated in the Swedish Match group as per July 1. The holding in the partly owned Indonesian company Jamafac was divested during the fourth quarter. A letter of intent has been signed to sell the European advertising match business. In early 2006 the Arenco Group with manufacturing units for matches and packaging machines in Kalmar and Halmstad in Sweden and in Shanghai, China was sold.

The above mentioned measures have affected the year's operating income for matches negatively by 106 MSEK, of which 75 MSEK has impacted the fourth quarter. Last year costs for restructuring of the match business amounted to 125 MSEK, of which 20 MSEK was during the fourth quarter.

During the fourth quarter, sales declined by 3 percent, to 355 MSEK (366). Excluding divested businesses, sales increased by 14 percent, but was flat in local currency terms. Operating income was a negative 31 MSEK (15), and excluding restructuring costs, 44 MSEK (35). Currency effects and high shipments at the end of the year have positively impacted operating income.

Edgar Filing: SWEDISH MATCH CORP - Form 6-K

Sales for the full year amounted to 1,316 MSEK (1,378), and increased by 5 percent, excluding divested businesses. Operating income during 2005 was 13 MSEK (negative 12), and excluding restructuring costs operating income amounted to 119 MSEK (113). Operating margin amounted to 1.0 percent (negative 0.9).

Lighters

Swedish Match produces and distributes disposable lighters and the main brand is Cricket. Swedish Match's largest market is Russia. Several markets are faced with an intensely competitive situation from, among others, Chinese producers.

During the fourth quarter, sales grew by 17 percent, to 166 MSEK (142), due to higher volumes. Operating income grew to 1 MSEK (negative 10). Restructuring costs of 10 MSEK have impacted fourth quarter's operating income this year as well as previous year. Operating margin was 0.4 percent (-7.3).

Sales for the full year were 620 MSEK (582), an increase of 7 percent. Volumes increased but the average price for lighters decreased. Operating income increased to 44 MSEK (13), positively impacted by increased volumes, cost savings and improved productivity. Operating margin improved to 7.1 percent (2.2).

Other Operations

Other operations include the distribution of tobacco products on the Swedish market, an Irish distribution business, sales of advertising products, as well as corporate overheads. The Irish distribution unit was divested in December and a letter of intent has been signed to sell the business for advertising products.

During the fourth quarter, sales amounted to 800 MSEK (708), and operating income, net, amounted to a negative 20 MSEK (negative 30). Sales in the distribution business on the Swedish market were positively impacted due to hoarding effects at the end of the quarter. Corporate overheads have increased due to work in fulfilling requirements under the Sarbanes Oxley Act, but were offset by cost reductions in other areas.

For the full year, operating income for other operations was a negative 140 MSEK (negative 190). Last year's expense included charges of 44 MSEK related to both the closure of a distribution center in Sweden and severance payments and other expenses with regard to the former CEO.

Financing and net financial expense

At the close of the period the Group's net debt amounted to 674 MSEK, as compared to 527 MSEK on December 31, 2004, an increase of 147 MSEK. Cash flow from operations was 2,718 MSEK compared with 3,626 MSEK a year ago, which included the settlement with UST. Cash flow from the business has, among other things, been used to acquire the minority shares in General Cigar of 1,100 MSEK, share repurchases of net 1,411 MSEK as well as paid dividend of 612 MSEK.

During the period 16,229,514 shares were repurchased, amounting to 1,434 MSEK, and sales of treasury shares related to options programs amounted to 23 MSEK.

Edgar Filing: SWEDISH MATCH CORP - Form 6-K

During the period new bond loans of 1,685 MSEK have been issued. Amortization for the period amounted to 942 MSEK.

Liquid funds, including short term investments, amounted to 3,657 MSEK at the end of the period, compared with 3,002 MSEK at the beginning of the year.

Net interest expense for the full year amounted to a negative 106 MSEK (negative 163). Other financial items, net, amounted to an expense of 23 MSEK (negative 2).

Taxes

Total tax for the full year amounted to 919 MSEK (1,345), corresponding to an average tax rate of 34.1 percent (39.2). The tax rate for 2005 was impacted by the estimated gain from the sale of the real estate in New York at 55 percent. The high tax rate during 2004 was due to high tax burden regarding the settlement income from UST as well as certain non deductible restructuring costs.

Earnings per share

Earnings per share for the full year amounted to 5.61 SEK (6.18). The gain from the sale of the real estate has affected EPS positively by 29 öre. Last year's earnings per share, was positively affected by larger one time items by 1.96 SEK.

The Board proposes increased dividend to 2.10 SEK (1.90). The dividend then amounts to 642 MSEK based on the number of shares justified to dividend at the end of the year. Unrestricted equity in the parent company amounts to 5,402 MSEK.

Capital expenditure, depreciation and amortization

The Group's direct investments in tangible fixed assets amounted to 328 MSEK (486). The investments include increased capacity for pouched snuff and rationalizations in the cigar operations. Sale of fixed assets amounted to 628 MSEK (42) of which the sale of General Cigars' New York real estate was 490 MSEK. Total depreciation and amortization amounted to 458 MSEK (479), of which depreciation on tangible assets amounted to 337 MSEK (332) and amortization of intangible assets amounted to 121 MSEK (147).

Tobacco tax

During the past 12 months, total tobacco tax and value-added tax on tobacco tax paid by Swedish Match in Sweden amounted to 9,930 MSEK (9,852).

Average number of Group employees

The average number of employees in the Group during the year was 14,333 compared with 15,039 for the full year 2004. The number of employees decreased as a result of the divestment of Wimco Ltd. and rationalizations within several product areas.

Share structure

Edgar Filing: SWEDISH MATCH CORP - Form 6-K

During the year 16.2 million shares were repurchased at an average price of 88.37 SEK. As at December 31, 2005 Swedish Match held 18.7 million shares in its treasury, corresponding to 5.8 percent of the total amount of shares. Total shares bought back by Swedish Match since the buyback programs started have been repurchased at an average price of 55.50 SEK. The number of shares outstanding, net after repurchase and after the sale of treasury shares, as per December 31, 2005 amounted to 305.9 million. In addition, the Company has call options issued and outstanding on its treasury shares corresponding to 4.9 million shares exercisable in gradual stages from 2006-2010.

During January 2006 another 5 million shares have been repurchased and consequently the Company holds 23.7 million shares in its treasury.

The Annual General Meeting on April 27, 2005 renewed the mandate to repurchase shares up to 10 percent of the shares of the Company. In addition, a decision was

made to cancel 12.0 million shares held in treasury. Furthermore, the Annual General Meeting decided to reduce the share capital by reducing the shares' nominal value from 2.40 SEK to 1.20 SEK and reduce the statutory reserve of the parent company by 114 MSEK. These reductions became effective on October 5 and consequently 532 MSEK were transferred from restricted equity to unrestricted equity. After the transfer to unrestricted equity, the total amount of registered shares in the Company is 324,596,181.

The Board will propose to the Annual General Meeting in April 2006 a renewed mandate to repurchase shares up to 10 percent of the shares of the Company. In addition a proposal will be made to cancel up to 25 million shares held in treasury with a contemporaneous bonus issue of an amount equivalent the amount of cancelled shares times 1.20 SEK. With the latter transaction the Company's share capital will not decrease through the cancellation of shares. Also, a proposal to reduce the parent company's statutory reserve, which amounts to 80 MSEK, through unrestricted equity will be made.

Other events and events after the period

During the second quarter, Swedish Match has acquired all outstanding shares of General Cigar and now owns 100 percent of the company. The second quarter was impacted by integration costs of 75 MSEK. Cost saving effects due to the integration is expected to impact results from 2006. During September the sale of General Cigar's real estate in New York was concluded.

In February 2005, The Second Circuit Court of Appeals in New York ruled in favour of General Cigar in a lawsuit filed by Cubatabaco over trademark ownership of the Cohiba brand in the US. Cubatabaco has filed a petition to the US Supreme Court seeking review. The Supreme Court has requested a statement from the American government, but has not yet taken stand regarding leave to appeal. This case has been ongoing since 1997.

As previously announced, Swedish Match on July 1 sold its 74 percent holding of the Indian match company, Wimco to a subsidiary of Indian Tobacco Company (ITC). Wimco is therefore not included in Swedish Match's consolidated numbers as per July 1. On September 29, 2005 Swedish Match acquired 16.8 percent of the total amount of outstanding shares in Wimco in an open offer as per an earlier ruling from the Securities and Exchange Board of India (SEBI). Swedish Match sold these shares in connection with ITC's offer to buy all outstanding shares of Wimco, during the fourth quarter.

In January, 2006, the Company sold its Arencos subsidiary, with manufacturing units in Kalmar and Halmstad, Sweden and Shanghai, China. Arencos manufactures machines for match manufacturing and packaging. In addition to the sale of Arencos, Swedish Match has divested its distribution company in Ireland. Also the company signed a letter of intent to sell its European advertising lights and other advertising products business, which include a production facility in Hungary. Furthermore, the holding in the partly owned match company Jamafac in Indonesia has been sold.

Distribution of surplus funds

Dividend

Swedish Match's dividend policy is that the dividend should largely follow the trend of the Group's net income. When establishing a dividend, the size of planned repurchases of shares is also taken into account. It is estimated that the dividend amount will be between 30-50 percent of net income for the year.

Repurchase

A repurchase of shares is, in principle, a reverse new share issue and makes it possible to work continuously to optimize the capital structure of the balance sheet. In view of Swedish Match's stable and positive cash flow, the position of the Board of Directors with regard to repurchase of shares is positive.

The size and scope of share buybacks depend, in exactly the same way as the size of the dividend, on Swedish Match's financial position, net income, anticipated future profitability, cash flow, investments and expansion plans. Other factors that affect repurchases are the price of the shares, the Group's interest and tax expenses, and the earnings available for distribution.

Financial restrictions

When considering the size of the surplus funds to be transferred to shareholders, it has been decided that the following restrictions should apply:

The Company shall over time strive for a capital structure with an interest cover based on EBITA (profit before financial items, interest and amortization on intangible assets/net interest) that exceeds nine times.

The Company shall over time strive for a net debt divided by EBITA below two.

Accounting principles

This interim report is prepared in accordance with the Accounting Standard IAS 34 Interim Financial Reporting from the International Accounting Standards Board.

New accounting principles 2005

Edgar Filing: SWEDISH MATCH CORP - Form 6-K

Obligations for retirement pension and family pension for salaried personnel and workers covered by a collective agreement in Sweden is secured through insurance in a superannuation fund (PSF). This fund also covers other employers outside the Swedish Match group. When the Company has not had access to the requisite information to report this plan as a defined-benefit plan it has been reported as a defined-contribution plan. During the year an analysis has been made which has made it possible to do a reasonable estimate of Swedish Match's assets and liabilities in the plan. For the full year 2005 report this plan is reported as a defined-benefit plan. The change is reported as a change of accounting principles as of January 1, 2004 and previously reported periods, 2004 and 2005, have been restated. The change implies that the opening shareholder's equity as per January 1, 2004 increased by 40 MSEK and that the pensions costs during 2004 and 2005 are reported with a lower amount of 32 MSEK and 38 MSEK respectively.

As of January 1, 2005 Swedish Match changed its accounting principles for the preparation of financial statements to comply with International Financial Reporting Standards (IFRS). Previously the financial statements were prepared in accordance with Swedish Generally Accepted Accounting Principles (Swedish GAAP).

The financial statements for periods beginning on or after January 1, 2005 are therefore prepared in accordance with IFRS. IFRS has also been retrospectively applied to year 2004 comparable data but with the exception of the reporting of financial instruments (IAS 32 and IAS 39) and share-based payments (IFRS 2). The financial instruments and share-based payments have not been restated as Swedish Match does not fall under the retrospective reporting requirements for these standards.

The financial statements are from January 1, 2005, set up as specified in IAS 1. The main implication of applying IAS 1, is that net income, on the face of the income statement, and equity, on the face of balance sheet, are presented including the minority's interest.

For Swedish Match, the transition to IFRS has changed the reporting of biological assets (IAS 41), goodwill (IFRS 3 and IAS 38), financial instruments (IAS 32 and IAS 39) and share-based payments (IFRS 2). The accounting principles for employee benefits (IAS 19) were already adopted on January 1, 2004 under Swedish GAAP and therefore Swedish Match's financial statements already complied with IAS 19 in 2004.

Goodwill and biological assets

Information on changes in accounting principles for biological assets (IAS 41) and goodwill (IFRS 3 and IAS 38), due to the transition to IFRS, is included in the report of operations for 2004 and the annual report for 2004.

Financial instruments

The rules for reporting of financial instruments, IAS 39, imply that financial assets and liabilities, including all derivatives, shall be measured at fair value or amortized cost depending on classification of the asset and liability. The gain or loss from a change in the value of a financial asset or liability shall be recognized, depending on classification, in profit or loss or directly in equity until realized.

According to IAS 39, companies can apply hedge accounting. Under hedge accounting, a company shall link a balance sheet item to a designated hedging instrument. To qualify for hedge accounting under IAS 39, the hedging relationship has to satisfy strict requirements.

The major portion of the Group's borrowing was originally assumed at a fixed interest rate but subsequently converted to a floating rate by means of interest rate swaps. Swedish Match has decided to apply hedge accounting on interest rate swaps that can be linked to the original borrowing.

All other financial instruments within Swedish Match will be subject to fair value accounting and the gain or loss from change in value will be recognized in the profit and loss.

At transition to IFRS, the difference between the fair values or amortized costs of the financial assets and liabilities and the values reported according to Swedish GAAP was recognized directly in equity. Any initial recognition of derivatives not previously recognized was also reported directly in equity. At January 1, 2005, an increase in equity of 31 MSEK was thereby reported. The reporting in accordance with IAS 39 has resulted in a negative effect on net income by 10 MSEK during full year 2005.

Share-based payments

The rules for reporting of share-based payments (such as Swedish Match's option program), IFRS2, imply that an assessed fair value of the options shall be expensed during a vesting period or at a vesting date. During full year 2005, net income has been negatively affected by 10 MSEK due to reporting in accordance with IFRS 2.

Outlook for 2006

Our focus on product development and productivity improvements during the last two years has established a solid ground for a profitable growth where focus will be on organic growth for snus and cigars.

Our Company consists of loyal and competent employees throughout the world. This makes me look at the future with confidence that we can continue to improve shareholder value in the coming years with continued investments in our four building stones in the strategy: organic growth, complementary acquisitions, productivity improvements and a continued optimization of the balance sheet.

Additional information

The Annual General Meeting will be held in Stockholm on April 20, 2006. The Annual Report is expected to be released and distributed in mid March. The first quarter 2006 report will be released April 28.

Stockholm, February 15, 2006
