(the Company) hereby announces that at the meeting of the Board of Directors held on July 11, 2006, the Company resolved the details of the terms and conditions of the issuance of rights to subscribe for or purchase shares of the Company (Stock Acquisition Right) for the purpose of granting stock option to directors, pursuant to the provisions of Article 236, Article 238, and Article 240 of the Corporation Act, and a resolution at the 137th Ordinary General Meeting of the Shareholder of the Company.

Table of Contents

9. Amount of assets paid upon exercise of the Stock Acquisition Rights:

The amount of assets paid upon exercise of the Stock Acquisition Rights shall be the amount obtained by multiplying the paid-in amount per share to be transferred upon exercise of the Stock Acquisition Rights (the Exercise Price) by the Number of Shares subject to one Stock Acquisition Right.

The Exercise Price shall be the amount obtained by multiplying 1.05 by the average of the closing price of the Company's ordinary shares of each day in regular trading during the month (excluding days when there was no transaction of the Company's ordinary shares) (the Closing Price) at the Tokyo Stock Exchange, immediately preceding the month in which the date of allotment of the Stock Acquisition Rights falls (the Allotment Date), with fractions of less than one (1) yen rounded up to a whole yen. However, if the Exercise Price is lower than the Closing Price on the Allotment Date (if there is no Closing Price on that date, the Closing Price on the immediately preceding date shall be applied), the Closing Price on the Allotment Date shall be applied.

In addition, the Exercise Price shall be adjusted as follows.

- 1) If the Company effects a stock split or stock consolidation after the Allotment Date of the Stock Acquisition Rights, the Exercise Price shall be adjusted in accordance with the following formula, with fractions of less than one (1) yen resulting from the adjustment being rounded up to a whole yen.

$$\text{Exercise price after adjustment} = \text{Exercise price before adjustment} \times \frac{1}{\text{Ratio of stock split (or stock consolidation)}}$$

- 2) After the Allotment Date of the Stock Acquisition Rights, if the Company issues new ordinary shares or disposes of the Company's shares in treasury at a price below the market price, the Exercise Price shall be adjusted in accordance with the following formula, with fractions of less than one (1) yen being rounded up to a whole yen. However, this shall not apply to the cases where issue or disposition of ordinary shares are made upon exchange of securities exchangeable for Company's ordinary shares, or upon exercise of Stock Acquisition Rights (including corporate bonds with share acquisition rights).

$$\text{Exercise price after adjustment} = \frac{\text{Exercise price before adjustment} \times (\text{Number of currently issued shares} + \text{Number of newly issued shares} \times \frac{\text{Paid-in amount per share}}{\text{Market Price}})}{\text{Number of currently issued shares} + \text{Number of newly issued shares}}$$

In addition, the Number of currently issued shares in the formula above shall exclude the number of the Company's shares in treasury, and when disposing of the Company's shares in treasury, the term Number of newly issued shares shall be read as Number of the Company's shares in treasury for disposal.

- 3) After the Allotment Date of the Stock Acquisition Rights, if the Company allots shares of the Company of a class other than the ordinary shares without consideration to the holders of the ordinary shares of the Company, or pays dividends in the form of shares of another company to the holders of the ordinary shares, and if, in consideration of all factors in the situation, there is a need to adjust the Exercise Price, the Company shall adjust the Exercise Price to the extent reasonable.
