Retirement Announcement

On July 28, 2006, the Company issued a press release announcing the retirement of Michael S. McCoy, executive vice president of the Company, effective December 31, 2006. A copy of the press release is attached to this report as Exhibit 99.1.

Changes in Operational Model

On June 28, 2006, the Company initiated a company-wide restructuring of operations with the goal of significantly improving work processes, reducing operating expenses and capital costs, and continuing to strive for excellence in customer service. The changes are designed to create a more integrated and centralized operations model, and are expected to take place over the next several years. Implementation of the new business model is expected to result in workforce reductions primarily as a result of both attrition and voluntary severance packages. In addition, implementation of the redesigned operations model will involve:

developing a more integrated operations model;

further enhancing the Company's ability to add customers profitably;

implementing more standardization in all work processes;

centralizing resource planning, scheduling, quality assurance and performance management;

outsourcing work that is not core to the Company's safety, reliability, regulatory compliance or customer service activities;

increasing the integration and efficiency of information technology systems; and,

maintaining a strong community presence while reorganizing district operations.

As a result, the Company expects to incur severance costs in the fourth quarter of 2006 of approximately \$1.5 million to \$2.0 million related to workforce reductions of approximately 50 to 100 personnel.
