Revised forecast	¥ 0.00	Undecided	Undecided
Reference:			
Dividend for fiscal year to March 31, 2006	¥ 0.00	¥4.00	¥4.00

4. Reasons for revised forecasts

Following the increase of repayments due to demand for repayment of interest, and the publication of The Japanese Institute of Certified Public Accountants' Treatment by Auditors of Allowances for Losses on Repayment of Interest by Consumer Finance Companies, UFJ NICOS has reviewed its allowances for bad debts and reserves for losses on repayment of interest for the interim period. In addition, following improvements to the debt database, a more strict methodology for estimating reserves for credit risk has been introduced, resulting in an addition of approximately ¥17.0 billion to the allowance for bad debts and accounted for as operating expenses, and an addition to the allowance for losses on repayment of interest of ¥14.0 billion accounted for as an extraordinary loss.

Further, in September of this year, in consideration of the drastic revisions to the Money Lending Business Law proposed by The Liberal Democratic Party of Japan, in consideration of the implications of this proposal, an approximate ¥56.0 billion write-off of deferred tax assets has been implemented.

As a result of the above factors results forecasts have been revised and we regret to inform shareholders that an interim dividend will not be paid and that the year-end dividend cannot as yet be confirmed.

5. Extraordinary loss and write-off of deferred tax assets

(forecasts for the interim period of the fiscal year ending March 2007)

(¥ billion)

	Consolidated	Non-consolidated
Extraordinary loss		
(Addition to the allowance for losses on repayment of interest)	14.0	13.0
Expected write-off of deferred tax assets	56.0	53.0

(Points for consideration regarding results forecasts)

The above forecasts have been made based on information available at the time of this announcement. Actual results may differ from forecasts owing to a variety of factors.
