QUESTIONS AND ANSWERS ABOUT THE SHARE EXCHANGE

Q. What are MUFG and Mitsubishi UFJ Securities proposing?

- A. MUFG, the parent company of Mitsubishi UFJ Securities, is proposing to acquire the minority equity interest in Mitsubishi UFJ Securities by exchanging all outstanding shares of Mitsubishi UFJ Securities common stock not already held by MUFG for shares of MUFG common stock. As of March 31, 2006, MUFG held Mitsubishi UFJ Securities common stock representing 63% of the voting rights. As a result of the share exchange, holders of Mitsubishi UFJ Securities common stock will become holders of MUFG's common stock and Mitsubishi UFJ Securities will become a wholly owned subsidiary of MUFG. On _____, 2006, MUFG and Mitsubishi UFJ Securities entered into the share exchange agreement setting forth the final terms of the share exchange.

Q. Why are MUFG and Mitsubishi UFJ Securities proposing the share exchange?

- A. MUFG has been actively pursuing its integrated group strategy, which positions retail, corporate and trust assets (asset management and asset administration) as its three core business areas. As part of this strategy, MUFG's bank, trust bank and securities company subsidiaries are being integrated as a unified group to deliver high-quality financial products and services and to compete more effectively with other major financial services providers.

MUFG and Mitsubishi UFJ Securities believe the market for financial services in Japan is changing rapidly. Deregulation of the financial markets, particularly the lifting of restrictions on cross-selling of financial products by banks, securities companies and other financial institutions, is an important factor in these changes. MUFG and Mitsubishi UFJ Securities also believe that Japanese consumers are increasingly shifting assets from ordinary savings accounts into other types of investments, including investment trusts. In this environment, MUFG and Mitsubishi UFJ Securities have concluded that completion of the share exchange will:

- strengthen business cooperation between Mitsubishi UFJ Securities and MUFG and its other subsidiaries and affiliates,
- allow MUFG and its subsidiaries and affiliates to compete more effectively and take advantage of the opportunities presented by deregulation, and
- facilitate the adoption of a unified compliance and governance structure to ensure compliance with relevant laws and regulations and protect the interests of investors.

Q. What will Mitsubishi UFJ Securities shareholders receive in the share exchange?

- A. Holders of Mitsubishi UFJ Securities common stock as of the record date will receive _____ shares of MUFG common stock for each share of Mitsubishi UFJ Securities common stock.

Q. Does the board of directors of Mitsubishi UFJ Securities recommend the share exchange?

- A.

Q. How will fractional shares be treated in the share exchange?

- A. If any fractional shares of MUFG common stock would otherwise be allotted to holders of Mitsubishi UFJ Securities common stock in the share exchange, such fractional shares will not be issued to the respective shareholders, but instead the integral number of shares representing the aggregate of all such fractional shares (disregarding the fractional shares after such aggregation, if any) will be sold in the Japanese market and the net cash proceeds from the sale will be distributed to the former holders of Mitsubishi UFJ Securities shares on a proportionate basis in accordance with the respective fractions, but disregarding fractional yen amounts.

- shares held by entities in which Mitsubishi UFJ Securities and/or its subsidiaries hold 25% or more of the voting rights; and

Holders of shares issued after _____, 2006, such as shares that may be issued after _____, 2006 as a result of convertible or exchangeable securities (which were issued prior to _____, 2006) being converted or exchanged, will not be entitled to vote at the shareholders meeting.

Q. How will shares represented at the shareholders meeting by mail-in voting cards be treated?

- A. In accordance with Japanese law and practice, Mitsubishi UFJ Securities intends to count towards the quorum requirements for its shareholders meeting any shares represented by voting cards that are returned to Mitsubishi UFJ Securities, including voting cards that do not indicate a vote for or against any of the proposals, and to count voting cards that do not indicate a vote for or against any proposal as having voted for approval of the proposals, including the terms of the share exchange agreement.

Q. May I change my vote after I submit my mail-in voting card?

- A. Yes. If you want to change your previously returned mail-in voting card, you must either attend the shareholders meeting personally or through another shareholder who has voting rights, whom you appoint as your attorney-in-fact, or resubmit your vote via the Internet. Japanese Taxation

As long as non-resident shareholders of Mitsubishi UFJ Securities (as defined hereinafter) receive only MUFG common stock in exchange for their shares of Mitsubishi UFJ Securities common stock in the share exchange, they will not recognize any gain for Japanese tax purposes. Furthermore, non-resident shareholders of Mitsubishi UFJ Securities generally will not recognize any gain for Japanese tax purposes, even if they receive cash in lieu of fractional shares of MUFG common stock which they become entitled to in the course of the share exchange. Please see [Taxation](#) [Japanese Taxation](#) for a more detailed description of Japanese taxation matters. Each non-Japanese holder should, however, obtain advice from its own tax advisors regarding its tax status in each jurisdiction.

- (b) You should not recognize gain or loss upon your receipt of MUFG common stock in exchange for your Mitsubishi UFJ Securities common stock, except with respect to cash that you receive instead of fractional shares of MUFG common stock.
- (c) The aggregate tax basis of the shares of MUFG common stock that you receive in exchange for your Mitsubishi UFJ Securities common stock in the share exchange, including fractional shares for which cash is ultimately received, should be the same as the aggregate tax basis of your Mitsubishi UFJ Securities common stock exchanged.

- (d) The holding period for shares of MUFG common stock that you receive in the share exchange should include the holding period of the Mitsubishi UFJ Securities common stock exchanged.

Such gain or loss generally will constitute capital gain or loss.

Please see **Taxation** U.S. Federal Income Tax Consequences for a more detailed description of U.S. taxation matters.

RISK FACTORS

Prior to making a decision on the share exchange, you should carefully consider, along with other matters set out in this prospectus and other documents that are incorporated into this prospectus by reference, including MUFG's annual report on Form 20-F filed with the SEC on September 28, 2006, the following considerations:

Risks Relating to the Share Exchange

The share exchange ratio is fixed and will not be adjusted to reflect changes in the market values of MUFG and Mitsubishi UFJ Securities common stock; as a result, the value of MUFG common stock you receive in the share exchange may be less than when you vote on the share exchange.

Upon the completion of the share exchange, each share of Mitsubishi UFJ Securities common stock, excluding those held by MUFG, will be exchanged for _____ shares of MUFG common stock. The ratio at which Mitsubishi UFJ Securities common stock will be exchanged for MUFG common stock is fixed, and will not be adjusted for changes in the market prices of either company's common stock. Therefore, even if the relative market values of MUFG or Mitsubishi UFJ Securities common stock change, there will be no change in the number of shares of MUFG common stock you will receive in the share exchange. Furthermore, neither company is permitted to terminate the share exchange or solicit another vote of Mitsubishi UFJ Securities stockholders solely due to changes in the market prices of either company's common stock.

Any change in the prices of either company's common stock occurring prior to the effective date of the share exchange will affect the value that holders of Mitsubishi UFJ Securities common stock receive in the share exchange. The value of the MUFG common stock received by you in the share exchange (which will occur approximately _____ weeks after the shareholders meeting) may be higher or lower than the value as of the date of this prospectus and as of the date of the shareholders meeting of Mitsubishi UFJ Securities, depending on the then prevailing market prices of MUFG and Mitsubishi UFJ Securities common stock.

The share prices of MUFG and Mitsubishi UFJ Securities common stock are subject to the general price fluctuations in the market for publicly traded equity securities and have experienced significant volatility in the past. Stock price changes may result from a variety of factors, including actual changes in, or investor perception of, MUFG's and Mitsubishi UFJ Securities' businesses, operations and prospects. Regulatory developments and changes in general market and economic conditions may also affect the stock price of MUFG and Mitsubishi UFJ Securities. You should obtain and review recent market quotations for MUFG and Mitsubishi UFJ Securities common stock before voting on the share exchange.

If the goodwill that will be recorded in connection with the share exchange becomes impaired, MUFG may be required to record impairment charges, which may adversely affect its financial results and the market price of its common stock following the share exchange.

In accordance with U.S. GAAP, MUFG will account for the share exchange using the purchase method of accounting. MUFG will allocate the total purchase price to its assets and liabilities acquired through the share exchange based on the proportionate share of the fair values of those assets and liabilities. The excess of the purchase price over the fair values of Mitsubishi UFJ Securities' assets and liabilities will be recorded as goodwill. If the recorded goodwill becomes impaired, MUFG may be required to incur material charges relating to the impairment of goodwill. If the anticipated benefits of the share exchange are not achieved, actually or perceptually, MUFG's financial results, including earnings per

share, and the market value of MUFG's common stock could be adversely affected.

RECENT DEVELOPMENTS

Revision of Earnings Forecast by Consolidated Subsidiary

On October 20, 2006, UFJ NICOS Co., Ltd., a consolidated subsidiary of MUFG, announced a downward revision in its earnings forecast under Japanese GAAP and expected dividends for the six months ended September 30, 2006 and the fiscal year ending March 31, 2007.

The revision was primarily due to additional reserves taken by UFJ NICOS in accordance with a recent accounting pronouncement from the Japanese Institute of Certified Public Accountants and a more stringent application of its credit-risk reserve policy. Additionally, UFJ NICOS reduced its deferred tax assets due to a change in its projected taxable income in future periods relating to a proposed Japanese government reform to reduce the maximum permissible interest rate for consumer loans.

MUFG expects that these developments may also affect its other consumer finance businesses, but has not assessed the scope of the impact at this time. In addition, MUFG has not determined the impact of these developments on its consolidated financial results under U.S. GAAP.

Background to the Share Exchange

MUFG has been actively pursuing its integrated group strategy, which positions retail, corporate and trust assets (asset management and asset administration) as its three core business areas. As part of this strategy, MUFG's bank, trust bank and securities company subsidiaries are being integrated as a unified group to deliver high-quality financial products and services and to compete more effectively with other major financial services providers.

MUFG and Mitsubishi UFJ Securities believe the market for financial services in Japan is changing rapidly. Deregulation of the financial markets, particularly the lifting of restrictions on cross-selling of financial products by banks, securities companies and other financial institutions is an important factor in these changes. MUFG and Mitsubishi UFJ Securities also believe that Japanese consumers are increasingly shifting assets from ordinary savings accounts into other types of investments, including investment trusts. In this environment, MUFG and Mitsubishi UFJ Securities have concluded that completion of the share exchange will:

- strengthen business cooperation between Mitsubishi UFJ Securities and MUFG and its other subsidiaries and affiliates,
- allow MUFG and its subsidiaries and affiliates to compete more effectively and take advantage of the opportunities presented by deregulation, and
- facilitate the adoption of a unified compliance and governance structure to ensure compliance with relevant laws and regulations and protect the interests of investors.

As part of the integrated group strategy, Mitsubishi UFJ Securities has

- participated in the joint operation of MUFG Plazas together with the bank and trust bank subsidiaries of MUFG,
- entered into arrangements for the distribution of investment products of Mitsubishi UFJ Securities through the branch networks of the bank and trust bank subsidiaries of MUFG, and
- promoted personnel exchanges and the sharing of investment banking know-how between Mitsubishi UFJ Securities and Bank of Tokyo-Mitsubishi UFJ.

On August 1, 2006, Mitsubishi UFJ Securities received a request from MUFG to discuss the possibility of the share exchange.

The terms of the share exchange are set forth in the share exchange agreement. In accordance with the Company Law of Japan, the articles of incorporation of MUFG and pursuant to the share exchange agreement, no fractional shares of MUFG common stock will be allotted to holders of Mitsubishi UFJ Securities common stock as a result of the allotment of shares of MUFG common stock. The integral number of shares, however, representing the aggregate of all such unallotted fractional shares (disregarding the fractional shares after such aggregation, if any) will be sold in the Japanese market and the net cash proceeds from the sale will be distributed to the former holders of Mitsubishi UFJ Securities common stock on a proportionate basis in accordance with the respective fractions, but disregarding fractional yen amounts.

Conditions to the Share Exchange

The consummation of the share exchange is conditioned upon the approval of a special resolution of the shareholders meeting of Mitsubishi UFJ Securities expected to be held on _____, 2007. Under the Company Law of Japan, MUFG does not need to obtain shareholder approval at its shareholders meeting in order to consummate the transaction except under limited circumstances.

Under the Company Law of Japan and its articles of incorporation, for Mitsubishi UFJ Securities a special resolution requires a quorum comprising the holders of a majority of the total issued common shares.

The following shares, however, will not be entitled to vote at, and will not be counted in determining the required quorum for, the shareholders meeting of Mitsubishi UFJ Securities:

Description of Material Share Exchange Terms

Basic Agreement

On August 29, 2006, MUFG and Mitsubishi UFJ Securities entered into a basic agreement setting forth the parties' preliminary understanding regarding the proposed share exchange in which MUFG will acquire all of the outstanding shares of Mitsubishi UFJ Securities. Following further negotiation between the two parties, MUFG and Mitsubishi UFJ Securities plan to enter into a share exchange agreement that sets forth the final terms and conditions of the share exchange. The following description is a summary of the basic agreement.

Structure of share exchange

MUFG and Mitsubishi UFJ Securities will engage in a statutory share exchange, as a result of which Mitsubishi UFJ Securities will become a wholly-owned subsidiary of MUFG. MUFG and Mitsubishi UFJ Securities, however, may agree to engage in a different type of transaction to complete the aims of the share exchange, after taking into consideration their respective prevailing business or financial strategies and other relevant matters. MUFG and Mitsubishi UFJ Securities agree that they will not enter into any transaction or negotiation with any third party which may materially interfere with the share exchange.

Schedule of share exchange

MUFG and Mitsubishi UFJ Securities plan to complete the share exchange by March 31, 2007, after complying with the various procedures necessary for the share exchange and obtaining the approvals and authorizations from the relevant authorities as prescribed in applicable laws and regulations.

Execution of share exchange agreement

MUFG and Mitsubishi UFJ Securities will, after mutual consultation on the matters relating to the share exchange, execute and enter into a share exchange agreement (or, if another type of transaction is performed instead of a share exchange, an agreement appropriate for such type of transaction) by November 30, 2006.

After each party conducts thorough due diligence on the business, financial condition and other matters of the other party, MUFG and Mitsubishi UFJ Securities will determine and agree on the share exchange ratio in the share exchange agreement (or, if another type of transaction is performed instead of a share exchange, the details and amount of consideration to be paid to Mitsubishi UFJ Securities shareholders), taking into consideration the actual net assets calculated based on the results of the due diligence, the financial condition of the two parties, the respective share prices of MUFG and Mitsubishi UFJ Securities, and other matters reasonably required to calculate the share exchange ratio.

Amendment and termination of the basic agreement

If there is a material change in the asset position or management conditions of MUFG or Mitsubishi UFJ Securities between the execution date of the basic agreement and the date immediately preceding the day on

Table of Contents

which the share exchange is to be completed, MUFG and Mitsubishi UFJ Securities may amend or terminate the basic agreement with the consent of the other party.

Validity of the basic agreement

The basic agreement will be automatically terminated if either (1) the approval of Mitsubishi UFJ Securities shareholders or (2) an approval or authorization of the relevant authorities is not obtained.

Delivery of Share Certificates of Mitsubishi UFJ Securities and Allotment of Shares of MUFG

If the terms of the share exchange agreement are approved at the relevant shareholders meeting of Mitsubishi UFJ Securities, Mitsubishi UFJ Securities will both give public notice and send individual notices of the share exchange to each of its shareholders and pledgees of record in its register of shareholders. The notices will request that shareholders submit their share certificates representing Mitsubishi UFJ Securities common stock within a specified period, not less than one month in duration, and inform them that their share certificates will become void if not submitted during that period.

Upon submission of Mitsubishi UFJ Securities share certificates, shareholders of Mitsubishi UFJ Securities will receive receipts to show that they submitted share certificates. In the event that the share certificates of Mitsubishi UFJ Securities are deposited with the Japan Securities Depository Center, Inc., such share certificates need not be actually submitted by each of the beneficial shareholders to Mitsubishi UFJ Securities within the submission period. The shares of Mitsubishi UFJ Securities common stock will be delisted on or around March 27, 2007.

Share certificates of MUFG common stock to be allotted in the share exchange will be mailed to the registered addresses of shareholders (in the case of shareholders not resident in Japan, to the registered addresses of their respective standing proxies or custodians in Japan or to the addresses in Japan designated by shareholders) and listed in the register of shareholders (where share certificates of Mitsubishi UFJ Securities common stock have been submitted during the submission period) or will be made available in exchange for share certificates of Mitsubishi UFJ Securities common stock (where share certificates of Mitsubishi UFJ Securities have not been submitted during the submission period), after the completion of the share exchange.

Voting Matters

As of September 30, 2006, there were _____ shares of Mitsubishi UFJ Securities common stock issued (excluding treasury shares) having voting rights, subject to limitations imposed by the articles of incorporation and Japanese law. Pursuant to the Company Law of Japan and its articles of incorporation, Mitsubishi UFJ Securities will send a mail-in voting card to each of its shareholders of record as of _____, 2006 who have voting rights (or, for shareholders not resident in Japan, to the registered addresses of their standing proxies or custodians or to the addresses in Japan designated by shareholders) with respect to the matters to be considered at the shareholders meeting, including the terms of the share exchange agreement. The cost of this distribution will be borne directly by Mitsubishi UFJ Securities. Please see Shareholders Meeting of Mitsubishi UFJ Securities for a more detailed description of the vote required and the use and revocation of voting cards at the shareholders meeting of Mitsubishi UFJ Securities.

Opposition Rights

Any Mitsubishi UFJ Securities shareholder (1) who notifies Mitsubishi UFJ Securities prior to the shareholders meeting of his or her intention to oppose the share exchange and votes against the approval of the terms of the share exchange agreement at the shareholders meeting, or (2) who does not have voting rights at the relevant shareholders meeting, including the shareholders who only have shares constituting less than one unit

Table of Contents

share, may demand, starting from 20 days before until one day before the effective date of the share exchange, that Mitsubishi UFJ Securities purchase his or her shares of Mitsubishi UFJ Securities common stock at fair value. All Mitsubishi UFJ Securities shareholders seeking to exercise these opposition rights must also comply with the other relevant procedures set forth in the Company Law of Japan that are discussed below.

If a shareholder of Mitsubishi UFJ Securities falling under category (1) referred to in the preceding paragraph fails to provide such notice prior to the shareholders meeting or to vote against approval of the terms of the share exchange agreement at the shareholders meeting, it will in effect constitute a waiver of the shareholder's right to demand that Mitsubishi UFJ Securities purchase his or her shares of common stock at fair value. If a Mitsubishi UFJ Securities shareholder falls under category (2) referred to in the preceding paragraph, the shareholder is not required to vote against the share exchange in order to assert the right to demand that Mitsubishi UFJ Securities purchase the shares that he or she holds.

If the value of Mitsubishi UFJ Securities shares held by a opposing shareholder is agreed upon between the opposing shareholder and Mitsubishi UFJ Securities, then Mitsubishi UFJ Securities is required to make payment to such shareholder of the agreed value within 60 days from the effective date of the share exchange. If the shareholder and Mitsubishi UFJ Securities do not agree on the value of such shares within 30 days from the effective date of the share exchange, the shareholder and Mitsubishi UFJ Securities may, within 30 days after the expiration of the 30-day period, file a petition with the Tokyo District Court for a determination of the value of his or her shares. Mitsubishi UFJ Securities is also required to make payment of statutory interest on such share value as determined by the court after the expiration of the 60-day period referred to in the first sentence of this paragraph. The payment of the price of shares shall be made in exchange for the share certificates, the purchase of shares becoming effective upon the effective date of the share exchange.

Opposition rights of the shareholders whose shares are to be exchanged in the context of a share exchange between two Japanese companies are set forth in Articles 785 and 786 of the Company Law of Japan. An English translation of these articles is included in this prospectus starting on page C-1.

Status under the U.S. Federal Securities Laws of Shares Received in the Share Exchange

The exchange of shares of MUFG common stock for shares of Mitsubishi UFJ Securities held by U.S. shareholders in connection with the share exchange has been registered under the U.S. Securities Act. Accordingly, there will be no restrictions under the U.S. Securities Act upon the resale or transfer of such shares by U.S. shareholders of Mitsubishi UFJ Securities except for those shareholders, if any, who are deemed to be affiliates of Mitsubishi UFJ Securities, as such term is used in Rule 144 and Rule 145 under the U.S. Securities Act. Persons who may be deemed to be affiliates of Mitsubishi UFJ Securities generally include individuals who, or entities that, directly or indirectly control, or are controlled by or are under common control with, Mitsubishi UFJ Securities. With respect to those shareholders who may be deemed to be affiliates of Mitsubishi UFJ Securities, Rule 144 and Rule 145 place certain restrictions on the offer and sale within the United States or to U.S. persons of shares of MUFG common stock that may be received by them pursuant to the share exchange. This prospectus does not cover resales of shares of MUFG common stock received by any person who may be deemed to be an affiliate of Mitsubishi UFJ Securities.

Accounting Treatment

The share exchange will be accounted for under the purchase method of accounting in accordance with U.S. GAAP.

Differences in Shareholders Rights

Both MUFG and Mitsubishi UFJ Securities are joint stock companies organized under the laws of Japan and listed on the First Section of the Tokyo Stock Exchange and other stock exchanges in Japan. In addition, the

Table of Contents

description of the attributes of shares of common stock in the share capital provisions of the articles of incorporation of MUFG and Mitsubishi UFJ Securities are substantially similar. As a result, there are no material legal differences in the legal rights of holders of MUFG common stock and of Mitsubishi UFJ Securities common stock.

Tax Consequences of the Share Exchange

Japanese Tax Consequences

As long as non-resident shareholders of Mitsubishi UFJ Securities (as defined hereinafter) receive only MUFG common stock in exchange for their shares of Mitsubishi UFJ Securities common stock in the share exchange, they will not recognize any gain for Japanese tax purposes. Furthermore, non-resident shareholders of Mitsubishi UFJ Securities generally will not recognize any gain for Japanese tax purposes, even if they receive cash in lieu of fractional shares of MUFG common stock which they become entitled to in the course of the share exchange. Please see [Taxation Japanese Taxation](#) for a more detailed description of Japanese taxation matters. Each non-Japanese holder should, however, obtain advice from its own tax advisors regarding its tax status in each jurisdiction.

United States Tax Consequences

The material U.S. federal income tax consequences of the share exchange will be as follows:

- (a) The share exchange should constitute a reorganization for United States federal income tax purposes, and MUFG and Mitsubishi UFJ Securities should each be a party to such reorganization.
- (b) You should not recognize gain or loss upon your receipt of MUFG common stock in exchange for your Mitsubishi UFJ Securities common stock, except with respect to cash that you receive instead of fractional shares of MUFG common stock.
- (c) The aggregate tax basis of the shares of MUFG common stock that you receive in exchange for your Mitsubishi UFJ Securities common stock in the share exchange, including fractional shares for which cash is ultimately received, should be the same as the aggregate tax basis of your Mitsubishi UFJ Securities common stock exchanged.
- (d) The holding period for shares of MUFG common stock that you receive in the share exchange should include the holding period of the Mitsubishi UFJ Securities common stock exchanged.
- (e) If you receive cash instead of a fractional share of MUFG common stock, you should recognize gain or loss equal to the difference, if any, between your tax basis in the fractional share (as described in (c) above) and the amount of cash received. Such gain or loss generally will constitute capital gain or loss.

Please see [Taxation U.S. Federal Income Tax Consequences](#) for a more detailed description of U.S. taxation matters.

JAPANESE FOREIGN EXCHANGE AND CERTAIN OTHER REGULATIONS

Japanese Foreign Exchange Regulations

The Foreign Exchange and Foreign Trade Law of Japan and the cabinet orders and ministerial ordinances, collectively known as the Foreign Exchange Law, set forth, among others, the regulations relating to the receipt by non-residents of Japan of payment with respect to shares to be issued by MUFG and the acquisition and holding of shares by non-residents of Japan and foreign investors, both as defined below.

Non-residents of Japan are individuals who are not residents in Japan and corporations whose principal offices are located outside Japan. Generally, branches and offices of non-resident corporations located in Japan are regarded as residents of Japan while the branches and offices of Japanese corporations located outside Japan are regarded as non-residents of Japan.

Foreign investors are defined as:

- individuals not residing in Japan;
- corporations which are organized under the laws of foreign countries or whose principal offices are located outside Japan;
- corporations of which 50% or more of the voting rights are held, directly or indirectly, by individuals not residing in Japan and/or corporations which are organized under the laws of foreign countries or whose principal offices are located outside Japan; and
- corporations, a majority of officers (or a majority of officers having the power of representation) of which are individuals not residing in Japan.

Dividends and Proceeds of Sale

Under the Foreign Exchange Law, dividends paid on, and the proceeds of sales in Japan of, shares held by non-residents of Japan may in general be converted into any foreign currency and repatriated abroad. The acquisition of MUFG shares by non-residents by way of a stock split is not in general subject to any notification or reporting requirements.

Acquisition of Shares

In general, a non-resident who acquires shares from a resident of Japan is not subject to any prior filing requirement, although the Foreign Exchange Law authorizes the Minister of Finance of Japan to require a prior approval for any such acquisition in certain limited circumstances.

If a foreign investor acquires shares of MUFG common stock, and, together with parties who have a special relationship with such foreign investor, holds 10% or more of the issued shares of MUFG common stock as a result of such acquisition, the foreign investor must file a report of such acquisition with the Minister of Finance and any other competent Minister within 15 days from and including the date of such acquisition. In certain limited circumstances, however, prior notification of such acquisition must be filed with the Minister of Finance and any other competent Ministers, who may modify or prohibit the proposed acquisition.

Reporting of Substantial Shareholdings

The Securities and Exchange Law of Japan requires any person who has become a holder, beneficially and solely or jointly, of more than 5% of the total issued shares of capital stock of a company listed on any Japanese stock exchange or whose shares are traded on the over-the-counter market in Japan to file a report concerning such shareholdings with the director of a competent finance bureau within five business days.

Table of Contents

A similar report must also be filed in respect of any subsequent changes of one percent or more in any such holding ratio or any change in material matters set out in reports previously filed, with certain exceptions. For this purpose, shares issuable to such person upon exchange of exchangeable securities, conversion of convertible securities or exercise of share subscription warrants or stock acquisition rights (including those attached to bonds with stock acquisition rights) are taken into account in determining both the number of shares held by such holder and the issuer's total issued share capital. Copies of such report must also be furnished to the issuer of such shares and all Japanese stock exchanges on which the shares are listed or (in the case of shares traded over-the-counter) the Japan Securities Dealers Association.

Except for the general limitation under Japanese anti-trust and anti-monopoly regulations against shareholdings in the capital stock of a Japanese corporation which lead or may lead to a restraint of trade or monopoly, and except for general limitations under the Company Law of Japan or MUFG's articles of incorporation on the rights of shareholders applicable regardless of residence or nationality, there is no limitation under Japanese laws and regulations applicable to MUFG or under its articles of incorporation on the rights of non-resident or foreign shareholders to hold or exercise voting rights on MUFG shares.

There is no provision in MUFG's articles of incorporation or by-laws that would have an effect of delaying, deferring or preventing a change in control of MUFG and that would operate only with respect to a merger, consolidation, acquisition or corporate restructuring involving MUFG.

TAXATION

Japanese Taxation

The following is a summary of the principal Japanese tax consequences of the share exchange to non-resident holders of shares of Mitsubishi UFJ Securities common stock and ultimately of MUFG common stock. The statements regarding Japanese tax laws set forth below are based on the laws in force and double taxation conventions applicable as of the date hereof which are subject to change, possibly on a retroactive basis. This summary is not exhaustive of all possible tax considerations which may apply to a particular non-resident shareholder. Potential non-resident shareholders are therefore advised to consult their own tax advisors to satisfy themselves as to the overall tax consequences of the share exchange and the acquisition, ownership and disposition of MUFG shares, including specifically the tax consequences under Japanese law, the laws of the jurisdiction of which they are resident, and any tax treaty between Japan and their country of residence.

For the purpose of the description set forth below, a non-resident shareholder of Mitsubishi UFJ Securities means a holder of shares of Mitsubishi UFJ Securities common stock, who holds such stock as a portfolio investment, and is either an individual who is not a resident of Japan, or a non-Japanese corporation without a permanent establishment in Japan.

Exchange of Mitsubishi UFJ Securities Common Stock for MUFG Common Stock

As long as non-resident shareholders of Mitsubishi UFJ Securities receive only MUFG common stock in exchange for their shares of Mitsubishi UFJ Securities common stock in the share exchange, they will not recognize any gain for Japanese tax purposes. Furthermore, non-resident shareholders of Mitsubishi UFJ Securities generally will not recognize any gain for Japanese tax purposes, even if they receive cash in lieu of fractional shares of MUFG common stock which they become entitled to in the course of the share exchange.

Tax Consequences of owning MUFG Shares

For the purpose of Japanese tax law and the Tax Convention (as defined below), a U.S. holder (as defined below) of ADSs will be treated as the owner of the MUFG shares underlying the ADSs evidenced by the ADRs.

Generally, U.S. holders of a Japanese corporation's shares or ADSs are subject to Japanese withholding tax on dividends paid by such corporation. Japanese tax law provides in general that if the Japanese statutory rate is lower than the maximum rate applicable under tax treaties, conventions or agreements, the Japanese statutory rate shall be applicable. The rate of Japanese withholding tax applicable to dividends paid by a Japanese listed corporation to U.S. holders is 7% for dividends to be paid on or before March 31, 2008 and 15% thereafter, except for dividends paid to any individual non-resident holder who holds 5% or more of MUFG issued shares for which the applicable rate is 20%.

On March 30, 2004, the Convention between the Government of the United States of America and Japan for the Avoidance of Double Taxation and the Prevention of Fiscal Evasion with Respect to Taxes on Income (the Tax Convention), has been signed to replace its predecessor, which was signed on March 8, 1971. The Tax Convention establishes the maximum rate of Japanese withholding tax which may be imposed on

dividends paid by a Japanese corporation to a United States resident not having a permanent establishment in Japan. Under the Tax Convention, the maximum withholding rate for a United States resident to which a Japanese corporation pays dividends is generally set at 10% of the gross amount of dividends so distributed. However, the maximum rate is 5% of the gross amount of dividends so distributed if the United States resident who receives such dividends is a corporation and owns directly or indirectly, on the date on which entitlement to the dividends is determined, at least 10% of the voting shares of the paying corporation. Furthermore, the amount distributed shall not be taxed if the recipient is (i) a pension fund which is a United States resident, provided that such dividends are not derived from the carrying on of a business, directly or indirectly, by such pension fund or (ii) a parent company, which is a United States resident, with a controlling interest in the paying company.

Table of Contents

U.S. holders who are entitled to a reduced rate of Japanese withholding tax on payments of dividends on the MUFG shares or ADSs by MUFG are required to submit an Application Form for the Income Tax Convention regarding Relief from Japanese Income Tax on Dividends through MUFG to the relevant tax authority before the payment of dividends. A standing proxy for U.S. holders may provide this application service for them. U.S. holders who do not submit an application in advance will generally be entitled to claim a refund from the relevant Japanese tax authority of withholding taxes withheld in excess of the rate of an applicable tax treaty.

Gains derived from the sale or other disposition of MUFG shares or ADSs within or outside Japan by U.S. holders are not, in general, subject to Japanese income or corporation taxes or other Japanese taxes.

Any deposits or withdrawals of shares by U.S. holders in exchange for ADSs are not subject to Japanese income or corporation tax.

For the purposes of the preceding paragraphs, U.S. holders shall mean holders of MUFG shares or ADSs who are United States residents not having a permanent establishment in Japan.

Japanese inheritance and gift taxes, at progressive rates, may be payable by an individual who has acquired MUFG shares or ADSs as legatee, heir or donee, even if none of the individual, the decedent or the donor is a Japanese resident.

U.S. Federal Income Tax Consequences

The following is a discussion of certain United States federal income tax consequences which may be applicable to a U.S. Holder (as defined below) of common shares of Mitsubishi UFJ Securities who acquires common shares of MUFG in the share exchange. As used herein, U.S. Holder means a holder of common shares who or that is for United States federal income tax purposes (i) a citizen or resident of the United States, (ii) a corporation or other entity taxable as a corporation organized under the laws of the United States or any political subdivision thereof (including the States of the United States and the District of Columbia), (iii) an estate the income of which is subject to United States federal income taxation regardless of its source, (iv) a trust (1) the administration of which is subject to the primary supervision of a court within the United States and one or more United States persons has the authority to control all substantial decisions of the trust or (2) that has a valid election in effect under applicable United States Treasury regulations to be treated as a United States person, or (v) any other person that is subject to United States federal income tax on its worldwide income.

This discussion is based upon certain provisions of existing United States federal income tax law, including the Code, administrative pronouncements, judicial decisions and Treasury Regulations, as in effect as of the date hereof, all of which are subject to change, possibly with retroactive effect. This discussion assumes that each of the common shares are held as a capital asset as defined in Section 1221 of the Internal Revenue Code of 1986, as amended (the Code), in the hands of U.S. Holders at all relevant times. This discussion assumes that MUFG is neither a controlled foreign corporation nor a foreign personal holding company for United States federal income tax purposes. This discussion does not discuss all aspects of United States federal income taxation that may be applicable to a U.S. Holder of common shares, nor does it address any aspects of foreign, state or local taxation. Furthermore, this discussion does not discuss all the tax consequences that may be relevant to a U.S. Holder in light of such holder's particular circumstances, nor to U.S. Holders subject to special rules, including certain financial institutions, regulated investment companies, insurance companies, dealers in securities, tax-exempt organizations, persons who hold common shares as part of a position in a straddle or appreciated financial position or as part of a hedging or conversion transaction, persons that own or have owned, actually or constructively, 10% or more of the common shares, persons who acquired their common shares through the exercise or cancellation of employee stock options or otherwise as compensation for services, and U.S. Holders whose functional currency is not the U.S. dollar.

Table of Contents

No advance income tax ruling has been sought or obtained from the Internal Revenue Service (IRS) with respect to the tax consequences of the transactions discussed below and, as a result, there can be no assurance that the IRS will not disagree with or challenge any of the conclusions described herein.

The following discussion is for general information only and is not intended to be, nor should it be construed to be, legal or tax advice to any holder or prospective holder of common shares of MUFG and no opinion or representation with respect to the United States federal income tax consequences to any such holder or prospective holder is made. Holders of common shares are urged to consult their tax advisors with respect to the U.S. federal, state and local tax consequences, the foreign tax consequences and the non-tax consequences of the acquisition, ownership and disposition of common shares.

Material Tax Consequences of the Share Exchange

The material federal income tax consequences of the share exchange will be as follows:

- (a) The share exchange should constitute a reorganization within the meaning of Section 368(a) of the Code for United States federal income tax purposes, and MUFG and Mitsubishi UFJ Securities should each be a party to such reorganization within the meaning of Section 368(b) of the Code.
- (b) You should not recognize gain or loss upon your receipt of MUFG common stock in exchange for your Mitsubishi UFJ Securities common stock, except with respect to cash that you receive instead of fractional shares of MUFG common stock.
- (c) The aggregate tax basis of the shares of MUFG common stock that you receive in exchange for your Mitsubishi UFJ Securities common stock in the share exchange, including fractional shares for which cash is ultimately received, should be the same as the aggregate tax basis of your Mitsubishi UFJ Securities common stock exchanged.
- (d) The holding period for shares of MUFG common stock that you receive in the share exchange should include the holding period of the Mitsubishi UFJ Securities common stock exchanged.
- (e) If you receive cash instead of a fractional share of MUFG common stock, you should recognize gain or loss equal to the difference, if any, between your tax basis in the fractional share (as described in (c) above) and the amount of cash received. Such gain or loss generally will constitute capital gain or loss.

Dividends

Subject to the discussion of the passive foreign investment company (PFIC) rules below, the gross amount of any distribution paid by MUFG to a U.S. Holder will generally be subject to United States federal income tax as foreign source dividend income to the extent paid out of MUFG's current or accumulated earnings and profits, as determined under United States federal income tax principles, and thereafter first as a return of capital to the extent of the U.S. Holder's basis in its common shares and then as a capital gain. However, MUFG does not maintain calculations of its earnings and profits in accordance with United States federal income tax accounting principles. U.S. Holders should therefore assume that any distribution by MUFG with respect to MUFG common shares will constitute ordinary dividend income. The amount of any distribution of property other than cash will be the fair market value of such property on the date of the distribution. Dividends received by a U.S. Holder will

Edgar Filing: MITSUBISHI UFJ FINANCIAL GROUP INC - Form F-4

not be eligible for the dividends received deduction allowed to corporations. U.S. Holders should consult their own tax advisors with respect to the appropriate United States federal income tax treatment of any distribution received from MUFG.

Any Japanese tax withheld with respect to distributions made on the common shares may, subject to certain limitations, be claimed as a foreign tax credit against a U.S. Holder's United States federal income tax liability or may be claimed as a deduction for United States federal income tax purposes. The rules governing the foreign tax credit are complex and U.S. Holders are urged to consult their tax advisors regarding the availability of the foreign tax credit under their particular circumstances.

Table of Contents

The Jobs and Growth Tax Relief Reconciliation Act of 2003 (the Act) affects the taxation of dividends. The Act eliminates the tax rate difference between qualified dividends and capital gains for United States individual investors. Qualified dividends include dividends received from both domestic corporations and qualified foreign corporations. Qualified foreign corporations include those corporations eligible for the benefits of a comprehensive income tax treaty with the United States; the currently effective treaty between the United States and Japan is such a treaty. Dividends received by United States investors from a foreign corporation that was a PFIC in either the taxable year of the distribution or the preceding taxable year are not qualified dividends. We believe that MUFG is a qualified foreign corporation and that dividends received by U.S. investors with respect to shares of MUFG will be qualified dividends.

Sale, Exchange or Other Taxable Disposition of Common Shares

Subject to the possible application of the PFIC rules discussed below, a U.S. Holder will generally recognize gain or loss upon the sale, exchange or other taxable disposition of common shares equal to the difference between (i) the amount realized upon the sale, exchange or other taxable disposition and (ii) the U.S. Holder's adjusted tax basis in the common shares. A U.S. Holder's adjusted tax basis in its MUFG common shares will generally be equal to its aggregate basis in Mitsubishi UFJ Securities common stock exchanged. Generally, such gain or loss will be capital gain or loss and will be long-term capital gain or loss if, on the date of the sale, exchange or other taxable disposition, the common shares were held by the U.S. Holder for more than one year. Gain or loss, if any, realized by a U.S. Holder upon a sale, exchange or other taxable disposition of common shares generally will be treated as having a United States source for United States foreign tax credit limitation purposes.

Passive Foreign Investment Company

Special adverse United States federal income tax rules apply if a U.S. Holder holds shares of a company that is treated as a PFIC for any taxable year during which the U.S. Holder held shares. Based upon proposed Treasury regulations which are not yet in effect but are proposed to become effective for taxable years beginning after December 31, 1994 or, for electing taxpayers, for taxable years beginning after December 31, 1986, and upon certain management estimates, we do not expect MUFG to be a PFIC for United States federal income tax purposes in the current year or in future years. However, there can be no assurance that the described proposed regulations will be finalized in their current form, and the determination of whether MUFG is a PFIC is based upon, among other things, the composition of its income and assets and the value of its assets from time to time. U.S. Holders should consult their own tax advisors as to the potential application of the PFIC rules to their ownership and disposition of shares.

Information Reporting and Backup Withholding

In general, information reporting requirements will apply to dividends paid on, or proceeds of the sale or other disposition of, common shares unless the U.S. Holder is a corporation or comes within certain other categories of exempt recipients. A U.S. Holder that is not an exempt recipient will generally be subject to backup withholding with respect to the proceeds from the sale or the disposition of, or with respect to dividends on, common shares unless the U.S. Holder provides a taxpayer identification number and otherwise complies with applicable requirements of the backup withholding rules. Any amount withheld under these rules will be creditable against the U.S. Holder's United States federal income tax liability or refundable to the extent that it exceeds such liability. A U.S. Holder who does not provide a correct taxpayer identification number may be subject to penalties imposed by the IRS.

LIMITATIONS ON ENFORCEMENT OF U.S. LAWS

MUFG is a joint stock company incorporated in Japan. Almost all of MUFG's directors, corporate auditors and executive officers are residents of countries other than the United States. As a result, you should note that it may be difficult or impossible to serve legal process on MUFG or its directors, corporate auditors and executive officers, or to force MUFG or them to appear in a U.S. court. MUFG's legal counsel in Japan has advised it that there is doubt as to the enforceability in Japan, in original actions or in actions to enforce judgments of U.S. courts, of civil liabilities based solely on U.S. securities laws. A Japanese court may refuse to allow an original action based on U.S. securities laws.

MUFG's legal counsel has further advised that the United States and Japan do not currently have a treaty providing for reciprocal recognition and enforcement of judgments, other than arbitration awards, in civil and commercial matters. Therefore, if you obtain a civil judgment by a U.S. court, you will not necessarily be able to enforce it in Japan. MUFG's agent for service of process is Mitsubishi UFJ Financial Group, Inc., Corporate Governance Division for the United States located at 1251 Avenue of the Americas, New York, New York 10020-1104, Attention: Robert E. Hand, Esq., General Counsel.

1. Basis of Pro Forma Presentation

The unaudited pro forma financial information is based on the purchase method of accounting, and the pro forma adjustments include adjustments to record the consolidated assets and liabilities of UFJ Holdings at their estimated fair values on the date of acquisition. The pro forma adjustments also eliminate intercompany transactions during the period presented. The use of different estimation methodologies or market assumptions may have a significant effect on the estimated fair values. In addition, the unaudited pro forma financial information does not reflect the impact of targeted cost savings and other synergies and incremental costs of merger, all of which can not be objectively quantified.

2. Pro Forma Adjustments

Table of Contents

Explanation of differences between U.S. GAAP and Japanese GAAP

Major factors which explain the differences shown in the above table are as follows:

1. Investment securities

The cost basis of certain securities is different under Japanese GAAP and U.S. GAAP due primarily to the following:

- On October 1, 2005, Mitsubishi Tokyo Financial Group, Inc. (MTFG), merged with UFJ Holdings, Inc. (UFJ Holdings), with MTFG being the surviving entity, and was renamed Mitsubishi UFJ Financial Group, Inc. Under U.S. GAAP, in accordance with SFAS No. 141, Business Combinations (SFAS No. 141), the assets and liabilities of companies acquired in purchase transactions are recorded at fair value at the date of acquisition. Therefore, the new cost basis of investment securities, including available-for-sale and other investment securities, of UFJ Holdings was established and they were recognized at fair value as of October 1, 2005. Under Japanese GAAP, the new cost basis was not established for certain investment securities and they were carried over at their historical cost basis.
- Certain wash sales accounted for as sales under Japanese GAAP did not meet sale accounting criteria under U.S. GAAP. Although such wash sales often resulted in gains under Japanese GAAP, those gains were not recorded under U.S. GAAP and as a result, the cost basis of such investments tended to be lower under U.S. GAAP.
- U.S. GAAP requires declines in the fair value of securities below their cost basis that are deemed to be other-than-temporary to be recorded in earnings as impairment losses. In determining whether a decline in fair value is other-than-temporary, factors such as the extent of decline in fair value below cost and the length of time that the decline has continued are considered. If a decline in fair value exceeds 20% or a decline in fair value has continued for six months or more, such decline is generally deemed as other-than-temporary. The financial condition and near-term prospects of issuers are also considered, primarily based on the credit standing of the issuers as determined by the credit rating system. These are more strict criteria than Japanese GAAP, although recognition of impairment losses of investment securities is also required under Japanese GAAP when a decline in the market value below the cost is substantial, based on the extent of decline in market value and the credit standing of the issuers.
- Exchanges of investments as part of business combinations have been accounted for at cost under Japanese GAAP, while U.S. GAAP requires accounting for the transactions at fair value when investments in acquired companies are exchanged for surviving companies in accordance with EITF 91-5, Nonmonetary Exchange of Cost-Method Investments.

In addition, changes in the fair value of available-for-sale debt securities denominated in foreign currency due to changes in foreign exchange rates are recognized as profits or losses under Japanese GAAP, while they are included in other changes in equity from nonowner sources under U.S. GAAP in accordance with EITF 96-15, Accounting for the Effects of Changes in Foreign Currency Exchange Rates on Foreign-Currency-Denominated Available-for-Sale Debt Securities.

2. Loans

Under U.S. GAAP, in accordance with SFAS No. 141, the new cost basis of loans of UFJ Holdings was established and they were recognized at fair value as of October 1, 2005. Under Japanese GAAP, the new cost basis was not established and they were recorded at their historical cost

basis.

In addition, under U.S. GAAP, loan origination fees, net of certain direct origination costs, are deferred and recognized over the contractual life of the loans, while under Japanese GAAP, they are primarily expensed at the time of origination.

B-2

Table of Contents

Further, certain transfers of loans accounted for as sales under Japanese GAAP were not accounted for as sales under U.S. GAAP in accordance with SFAS No. 140, Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities, a replacement of FASB Statement No. 125, which requires more strict criteria for a transfer of loans to qualify as a sale.

3. Allowance for credit losses

Under U.S. GAAP, the credit loss allowance for impaired loans is calculated primarily based on the present value of expected future cash flows discounted at the loan's effective interest rate, the loan's observable market price, or the fair value of the collateral if the loan is collateral dependent, in accordance with SFAS No. 114, Accounting by Creditors for Impairment of a Loan. Under Japanese GAAP, an allowance is provided for certain types of impaired loans based on historical loss experience for borrowers with equivalent credit quality on a group basis. This difference between U.S. GAAP and Japanese GAAP generally results in a larger amount of allowance for credit losses under U.S. GAAP.

In addition, under U.S. GAAP, any subsequent increases in the expected cash flows from purchased impaired loans from UFJ Holdings were not accounted for as reversals of the allowance for credit losses but rather as adjustments to accretible yields under AICPA Statement of Position (SOP) 03-3, Accounting for Certain Loans or Debt Securities Acquired in a Transfer. Under Japanese GAAP, reversals of the allowance for credit losses on such loans are credited directly to income.

4. Premises and equipment

Under U.S. GAAP, in accordance with SFAS No. 141, the new cost basis of premises and equipment of UFJ Holdings was established and they were recognized at fair value as of October 1, 2005. As part of the new cost basis, depreciation of premises and equipment were adjusted over the remaining useful lives. Under Japanese GAAP, the new cost basis was not established for certain items and they were recorded at their historical cost basis.

In addition, under U.S. GAAP, the cost of a nonmonetary asset acquired in exchange for another nonmonetary asset is booked at the fair value of the asset surrendered or that of the asset received, and a gain or loss is recognized on the exchange, unless the exchange is not essentially the culmination of an earning process in accordance with APB No. 29, Accounting for Nonmonetary Transactions. Under Japanese GAAP, the cost of the asset surrendered is assigned to the newly acquired asset in certain types of exchange transactions, resulting in no gain or loss on the nonmonetary exchange.

Further, under U.S. GAAP, in accordance with SFAS No. 143, Accounting for Asset Retirement Obligations, the present value of expected retirement obligations associated with the restoration of certain leased fixed assets to its original condition and the associated increase in asset retirement costs are recorded as a liability and leasehold improvements respectively in the period in which the obligation is incurred and a reasonable estimate can be made. Under Japanese GAAP, diverse accounting practices have developed for obligations associated with the retirement of tangible long-lived assets. MUFG accounts for such obligations at the time management makes a decision to dismantle or dispose of an asset.

5. Real estate sale and leaseback

In March 1999, The Bank of Tokyo-Mitsubishi, Ltd. (Bank of Tokyo-Mitsubishi) transferred a 50% undivided interest in its head office land and building and in its main office land and buildings to a third-party real estate company and, at the same time, entered into an agreement to lease

Edgar Filing: MITSUBISHI UFJ FINANCIAL GROUP INC - Form F-4

back a portion of the transferred buildings from the buyer over a period of seven years. In August 2005, Bank of Tokyo-Mitsubishi bought back a 50% undivided interest in these office buildings and land. Also, before the merger with Bank of Tokyo-Mitsubishi, UFJ Bank Limited (UFJ Bank), entered into sales agreements to sell its buildings and land and, under separate agreements, leased those properties back for their business operations, including bank branches.

B-3

Table of Contents

UFJ Bank either provided nonrecourse financings to the buyers for the sales proceeds or held the equities of the buyers. This series of transactions has been accounted for as a sale and an operating lease under Japanese GAAP, while it has been accounted for as financing arrangements under U.S. GAAP in accordance with EITF D-24, Sale-Leaseback Transactions with Continuing Involvement and/or SFAS No. 98, Accounting for Leases: Sale-Leaseback Transactions Involving Real Estate, Sales-Type Leases of Real Estate, Definition of the Lease Term, and Initial Direct Costs of Direct Financing Leases.

6. Land revaluation

Under Japanese GAAP, land used for business operations of domestic subsidiaries was revalued as of March 31, 1998 for Bank of Tokyo-Mitsubishi, as of March 31, 2002 for The Mitsubishi Trust and Banking Corporation and as of December 31, 2001 for other domestic subsidiaries of MTFG with the corresponding impact recorded directly in equity as well as related deferred tax assets/liabilities, pursuant to the Law concerning Revaluation of Land. U.S. GAAP does not allow revaluation of operating assets and requires land to be recorded at cost. Accordingly, land held on the revaluation dates are recorded at different values.

7. Pension liability

Bank of Tokyo-Mitsubishi obtained approval for an exemption from the substitutional portion of its future pension obligation by the government in August 2003. Under Japanese GAAP, Bank of Tokyo-Mitsubishi recognized the extinguishment of benefit obligations and plan assets at the date of approval, which resulted in special gains for the fiscal year ended March 31, 2004. Under U.S. GAAP, however, such gains have been recorded for the fiscal year ended March 31, 2006, because the entire separation process should be accounted for in a single settlement transaction upon completion of the transfer to the government of the substitutional portion of the benefit obligation and related plan assets in accordance with EITF 03-2, Accounting for the Transfer to the Japanese Government of the Substitutional Portion of Employee Pension Fund Liabilities.

In addition, U.S. GAAP requires recognition of a liability that is at least equal to the unfunded accumulated benefit obligation, when the accumulated benefit obligation exceeds the fair value of plan assets. The excess of this additional minimum liability over unrecognized prior service cost is recorded on a net-of-tax basis within accumulated other changes in equity from nonowner sources, in accordance with SFAS No. 87, Employers Accounting for Pensions.

Further, net periodic costs, including amortization of unrecognized net obligation at transition and amortization of net actuarial gain or loss, are accounted for differently mainly due to the differences in the adoption dates of the applicable accounting standards and amortization periods.

8. Non-interest-earning deposits made under government-led restructuring program

MUFG made non-interest-earning deposits with funds which were established under a government-led restructuring program for the loans of seven failed housing loan companies in the fiscal year ended March 31, 1997. Under U.S. GAAP, these deposits were discounted to present value at the time of deposit, and subsequently have been accreted with the recognition of the corresponding interest income during the period through the expected maturity date. Under Japanese GAAP, these deposits were booked at amounts of funding without discounting.

9. Derivative financial instruments and hedging activities

Edgar Filing: MITSUBISHI UFJ FINANCIAL GROUP INC - Form F-4

MUFG utilizes derivatives to manage its exposures to fluctuations in market factors such as interest rates and foreign exchange rates arising from mismatches in the risk profiles of assets and liabilities. Under U.S. GAAP, most derivatives used by MUFG are accounted for as trading assets or liabilities because they do not qualify for hedge accounting under the criteria prescribed in SFAS No. 133, Accounting for Derivative Instruments and Hedging Activities. Japanese GAAP permits hedge accounting for certain derivative hedging activities, including portfolio hedges, using less restrictive hedging criteria.

B-4

Table of Contents

In addition, bifurcation requirements are different between U.S. GAAP and Japanese GAAP. Certain embedded derivatives deemed as clearly and closely related to the host contracts under U.S. GAAP are bifurcated from their host contracts under Japanese GAAP when such embedded derivatives are processed separately from the host contracts for internal management purposes.

Further, under U.S. GAAP, net unrealized gains at the inception of derivatives are deferred when the fair values of such derivatives are not based on quoted market prices or assumptions observable in markets in accordance with EITF 02-3, *Issues Involved in Accounting for Derivative Contracts Held for Trading Purposes and Contracts Involved in Energy Trading and Risk Management Activities*. Accordingly, under U.S. GAAP, gains and losses from such contracts are recognized at a later date as compared with Japanese GAAP.

10. Compensated absences

Under U.S. GAAP, in accordance with SFAS No. 43, *Accounting for Compensated Absences*, an employer is required to accrue a liability for employees' rights to receive compensation for future absences such as unused vacations and holidays when certain conditions are met (for example, unexpired vacation benefits that employees have earned but have not yet taken). Under Japanese GAAP, employers are not required to recognize liabilities for such short-term employee benefits.

11. Deposits

Under U.S. GAAP, in accordance with SFAS No. 141, the new cost basis of deposits of UFJ Holdings was established and they were recognized at fair value as of October 1, 2005. Under Japanese GAAP, the new cost basis was not established and they were recorded at their historical cost basis.

12. Long-term debt

Under U.S. GAAP, in accordance with SFAS No. 141, the new cost basis of long-term debt of UFJ Holdings was established and they were recognized at fair value as of October 1, 2005. As part of the new cost basis, amortization of premiums and discounts of the long-term debt are adjusted over the remaining contractual maturity. Under Japanese GAAP, the new cost basis was not established and they were recorded at their historical cost basis.

13. Consolidation

The scope of consolidation is different under U.S. GAAP and Japanese GAAP primarily because, under U.S. GAAP, the primary beneficiary must consolidate variable interest entities based on variable interests in accordance with FIN No. 46(R), *Consolidation of Variable Interest Entities* an interpretation of ARB No. 51, which resulted in additional consolidation of certain variable interest entities. Japanese GAAP does not have a concept of variable interest entities.

On the other hand, certain variable interest entities including funding vehicles, which are consolidated under Japanese GAAP due to the majority ownership of the voting rights, are not consolidated under U.S. GAAP because MUFG and its consolidated subsidiaries are not their primary beneficiaries.

Table of Contents

The breakdown of the impact of the difference on shareholders' equity is as follows.

	Consolidation	Deconsolidation	Total
	under	under	
	U.S.GAAP	U.S. GAAP	
	<u> </u>	<u> </u>	<u> </u>
	(in millions)		
Investment securities	¥ 726,353	¥ (80,798)	¥ 645,555
Loans	(3,246,413)	(129,803)	(3,376,216)
Trading account assets	784,423	(7,945)	776,478
Other short-term borrowings	1,635,634	(39,284)	1,596,350
Long-term debt	(54,857)	1,338,757	1,283,900
Others	(7,256)	38,241	30,985
	<u> </u>	<u> </u>	<u> </u>
Total	¥(162,116)	¥ 1,119,168	¥ 957,052
	<u> </u>	<u> </u>	<u> </u>

The difference in net income of ¥101,262 mostly impacts trading account profits.

14. Goodwill

Under U.S. GAAP, in accordance with SFAS No. 141, the share of net assets of companies acquired in purchase transactions are recorded at fair value at the date of acquisition. The share of historical cost basis of individual assets and liabilities is adjusted to reflect their fair value. Goodwill is the difference between the purchase price consideration and the share of fair value of the net assets acquired, including any identified intangible assets. Under SFAS No. 142, Goodwill and Other Intangible Assets, goodwill is not amortized, but is subject to an annual impairment test at the reporting unit level. Under Japanese GAAP, the acquisition of the UFJ Holdings has been accounted for by a method in accordance with Japanese Commercial Code which is similar to pooling-of-interests, and consequently goodwill has not been recognized.

15. Intangible assets

Under U.S. GAAP, in accordance with SFAS No. 141, all identifiable intangible assets acquired in purchase transactions are recorded at fair value at the date of acquisition. Intangible assets with definite useful lives are amortized over their estimated useful life. Intangible assets with indefinite useful lives are not amortized but are subject to annual impairment tests. Under Japanese GAAP, intangible assets have not been recognized in connection with the acquisition of UFJ Holdings.

16. Foreign currency translation

Under U.S. GAAP, foreign currency denominated income and expenses are translated into Japanese yen using average rates of exchange for the fiscal period. Under Japanese GAAP, they are translated at the fiscal year-end foreign exchange rates.

Minority Interest

The minority interest in the net earnings of consolidated subsidiaries is excluded from consolidated net income. Accordingly, the effect on minority interest of each reconciling item has been reflected as "Minority interest" in the reconciliations of shareholders' equity and net income. The reconciliations of minority interest in shareholders' equity and net income also include the effects of consolidation and deconsolidation of certain variable interest entities under U.S. GAAP as described in "13. Consolidation" above.

PART II

INFORMATION NOT REQUIRED IN PROSPECTUS

Item 20. Indemnification of Directors and Officers

Articles 330 of the Company Law of Japan make the provisions of Section 10, Chapter 2, Book III of the Civil Code applicable to the relationship between MUFG and its directors and corporate auditors. Section 10, which consists of Articles 643 to 656, when so applied to the directors and corporate auditors, among other things, provides in effect that:

- (1) any director or corporate auditor of a company may demand advance payment of expenses which are considered necessary for the management of the affairs of such company entrusted to him;
- (2) if a director or a corporate auditor of a company has defrayed any expenses which are considered necessary for the management of the affairs entrusted to him, he may demand reimbursement therefor together with interest thereon from the company;
- (3) if a director or a corporate auditor has assumed an obligation necessary for the management of the affairs entrusted to him, he may require the company to perform it in his place or, if it is not due, to furnish adequate security; and
- (4) if a director or a corporate auditor, without any fault on his part, sustains damage through the management of the affairs entrusted to him, he may demand compensation therefor from the company.

Under Article 388 of the Company Law, a company may not refuse a demand from a corporate auditor referred to in subparagraphs (1) through (3) above unless the company establishes that the relevant expense or obligations was or is not necessary for the performance of the corporate auditor's duties.

MUFG has indemnification arrangements with all directors and corporate auditors. Such arrangements cover certain liabilities and litigation expenses, including liabilities under U.S. securities laws, arising from actions taken by such persons in their capacity as directors and corporate auditors, except to the extent that any such liability resulted from gross negligence or willful misconduct of the directors or corporate auditors.

statements and information otherwise required by Section 10(a)(3) of the U.S. Securities Act of 1933 need not be furnished, provided that the registrant includes in the prospectus, by means of a post-effective amendment, financial statements required pursuant to this paragraph (a)(4) and other information necessary to ensure that all other information in the prospectus is at least as current as the date of those financial statements.

- (5) To respond to requests for information that is incorporated by reference into the prospectus pursuant to Items 4, 10(b), 11, or 13 of this Form, within one business day of receipt of such request, and to send the incorporated documents by first class mail or other equally prompt means and to arrange for a facility in the United States for the purpose of responding to such requests. This includes information contained in documents filed subsequent to the effective date of the registration statement through the date of responding to the request.
- (6) To supply by means of a post-effective amendment all information concerning a transaction, and the company being acquired involved therein, that was not the subject of and included in the registration statement when it became effective.
- (7) That, for purposes of determining any liability under the U.S. Securities Act of 1933, each filing of the registrant's annual report pursuant to section 13(a) or section 15(d) of the U.S. Securities Exchange Act of 1934 (and, where applicable, each filing of an employee benefit plan's annual report pursuant to section 15(d) of the U.S. Securities Exchange Act of 1934) that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial *bona fide* offering thereof.
- (8) To deliver or cause to be delivered with the prospectus, to each person to whom the prospectus is sent or given, the latest annual report to security holders that is incorporated by reference in the prospectus and furnished pursuant to and meeting the requirements of Rule 14a-3 or Rule 14c-3 under the U.S. Securities Exchange Act of 1934; and, where interim financial information required to be presented by Article 3 of Regulation S-X are not set forth in the prospectus, to deliver, or cause to be delivered to each person to whom the prospectus is sent or given, the latest quarterly report that is specifically incorporated by reference in the prospectus to provide such interim financial information.
- (9) That prior to any public reoffering of the securities registered hereunder through use of a prospectus which is a part of this registration statement, by any person or party who is deemed to be an underwriter within the meaning of Rule 145(c), the registrant undertakes that such reoffering prospectus will contain the information called for by the applicable registration form with respect to reofferings by persons who may be deemed underwriters, in addition to the information called for by the other items of the applicable form.
- (10) That every prospectus: (i) that is filed pursuant to paragraph (9) immediately preceding, or (ii) that purports to meet the requirements of Section 10(a)(3) of the U.S. Securities Act of 1933 and is used in connection with an offering of securities subject to Rule 415, will be filed as a part of an amendment to the registration statement and will not be used until such amendment is effective, and that, for purposes of determining any liability under the U.S. Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial *bona fide* offering thereof.

Insofar as indemnification for liabilities arising under the U.S. Securities Act of 1933 may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the U.S. Securities and Exchange Commission such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.
