Table of Contents**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)****Note 1. General**

The accompanying unaudited consolidated financial statements of Old Point Financial Corporation (the Company) and its subsidiaries have been prepared in accordance with U. S. generally accepted accounting principles for interim financial information. All significant intercompany balances and transactions have been eliminated. In the opinion of management, the accompanying unaudited consolidated financial statements contain all adjustments and reclassifications consisting of a normal and recurring nature considered necessary to present fairly the financial positions at September 30, 2006 and December 31, 2005, the results of operations for the three months and nine months ended September 30, 2006 and 2005, and statements of changes in stockholders' equity and cash flows for the nine months ended September 30, 2006 and 2005. The results of operations for the interim periods are not necessarily indicative of the results that may be expected for the full year.

These financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Company's 2005 annual report on Form 10-K. Certain previously reported amounts have been reclassified to conform to current period presentation.

The Company maintains a website on the Internet at www.oldpoint.com. The Company makes available free of charge, on or through its website, its proxy statements, annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, and any amendments to those reports as soon as reasonably practicable after such material is electronically filed with the Securities and Exchange Commission (SEC). The information available at the Company's Internet address is not part of this Form 10-Q or any other report filed by the Company with the SEC. The public may read and copy any documents the Company files at the SEC's Public Reference Room at 100 F Street, N.E., Washington, D.C. 20549. The public may obtain information on the operation of the Public Reference Room by calling the SEC at 1-800-SEC-0330. The Company's SEC filings can also be obtained on the SEC's website on the Internet at www.sec.gov.

Note 2. Securities

Total securities held-to-maturity	\$ 14	\$ 1,086	\$ 27	\$ 1,173	\$ 41	\$ 2,259
Total	\$ 122	\$ 7,242	\$ 4,329	\$ 143,884	\$ 4,451	\$ 151,126

Table of Contents

The Company has the ability and intent to hold these securities until maturity. The securities are impaired primarily due to rising interest rates. None of the securities are impaired due to credit issues. Therefore, securities with a loss are considered temporarily impaired.

Note 3. Loans

Loans at September 30, 2006 and December 31, 2005 are summarized as follows:

	September 30, 2006	December 31, 2005
	(in thousands)	
Commercial and other loans	\$ 65,030	\$ 63,224
Real estate loans:		
Construction	73,705	36,517
Farmland	224	168
Equity lines of credit	26,404	21,765
1-4 family residential	118,384	101,328
Multifamily residential	6,062	8,526
Nonfarm nonresidential	213,080	193,744
Installment loans to individuals	66,883	66,903
Tax-exempt loans	3,306	2,376
Total loans	573,078	494,551
Less: Allowance for loan losses	(4,625)	(4,448)
Net deferred loan costs	355	146
Loans, net	\$ 568,808	\$ 490,249

Note 4. Allowance for Loan Losses

The following summarizes activity in the allowance for loan losses at September 30, 2006 and December 31, 2005:

	September 30, 2006	December 31, 2005
	(in thousands)	
Balance, beginning of year	\$ 4,448	\$ 4,303
Recoveries	229	370
Provision for loan losses	900	1,050
Loans charged off	(952)	(1,275)
Balance, end of period	\$ 4,625	\$ 4,448

Note 5. Stock-Based Compensation

The Company adopted Statement of Financial Accounting Standards (SFAS) No. 123R, Share-Based Payment (SFAS No. 123R) effective January 1, 2006 using the modified prospective method and as such, results for prior periods have not been restated. Share-based compensation arrangements include stock options, restricted stock plans, performance-based awards, stock appreciation rights and employee stock purchase plans. SFAS No. 123R requires all share-based payments to employees to be valued using a fair value method on the date of grant and to be expensed based on that fair value over the applicable vesting period. The initial implementation had no effect on the Company's financial statements as all outstanding options were fully vested at December 31, 2005 and the Company has not issued new options in 2006.

Table of Contents

Had compensation costs for the stock option plans in 2005 been determined based upon the fair value at the date of grant consistent with Company's SFAS No. 123, pro forma net income and earnings per share for the nine months ended September 30, 2005 would have been as follows:

Pro forma disclosure under SFAS No. 123

	Nine Months Ended September 30, 2005
Net income:	
As reported	\$ 5,632,291
Fair value-based expense, net of tax	(349,018)
 Pro forma	 \$ 5,283,273
Basic earnings per share:	
As reported	\$ 1.40
Pro forma	\$ 1.32
Diluted earnings per share:	
As reported	\$ 1.38
Pro forma	\$ 1.29

Stock option plan activity for the nine months ended September 30, 2006 is summarized below:

	Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Life (in years)	Value of Unexercised In-The- Money Options
Options outstanding, January 1	265,387	\$ 22.09		
Granted				
Exercised	(15,140)	16.01		
Canceled or expired	(6,500)	28.92		
 Options outstanding, September 30	 243,747	 22.28	 4.54	 \$ 1,671,811
Options exercisable, September 30	243,747	\$ 22.28	4.54	\$ 1,671,811

The total proceeds of the in-the-money options exercised during the nine months ended September 30, 2006 was \$434 thousand.

As of September 30, 2006, there was no unrecognized compensation expense because all outstanding options were vested.

SFAS No. 123R requires the benefits of tax deductions in excess of grant-date fair value be reported as a financing cash flow. The Company had \$41.2 thousand in tax deductions from the exercise of stock options in the third quarter of 2006.

Table of Contents**Note 6. Pension Plan**

The Company provides pension benefits for eligible employees through a defined benefit pension plan. Substantially all employees participate in the retirement plan on a non-contributing basis and are fully vested after 25 years of service. The components of net periodic pension cost are as follows:

Quarter ended September 30,	2006	2005
	Pension Benefits	
Service cost	\$ 126,049	\$ 106,345
Interest cost	83,788	80,017
Expected return on plan assets	(96,067)	(80,259)
Amortization of prior service cost	320	320
Amortization of net loss	44,789	38,001
 Net periodic benefit cost	 \$ 158,879	 \$ 144,424
 Nine months ended September 30,	 2006	 2005
	Pension Benefits	
Service cost	\$ 378,147	\$ 319,035
Interest cost	251,364	240,051
Expected return on plan assets	(288,201)	(240,777)
Amortization of prior service cost	960	960
Amortization of net loss	134,367	114,003
 Net periodic benefit cost	 \$ 476,637	 \$ 433,272

As of September 30, 2006, \$500 thousand in contributions have been made. No additional contributions are anticipated for 2006.

The pension plan was frozen effective September 30, 2006.

Note 7. Earnings per Share

Basic earnings per share is computed by dividing net income by the weighted average number of shares outstanding during the period. Diluted earnings per share is computed using the weighted average number of common shares outstanding during the period, including the effect of dilutive potential common shares attributable to outstanding stock options.

Note 8. Recent Accounting Pronouncements

In February 2006, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards No. 155, Accounting for Certain Hybrid Financial Instruments – an amendment of FASB Statements No. 133 and 140 (SFAS 155). SFAS 155 permits fair value measurement of any hybrid financial instrument that contains an embedded derivative that otherwise would require bifurcation. The Statement also clarifies which interest-only strips and principal-only strips are not subject to the requirements of Statement 133. It establishes a requirement to evaluate interests in securitized financial assets to identify interests that are freestanding derivatives or that are hybrid financial instruments that contain an embedded derivative requiring bifurcation. SFAS 155 also clarifies that concentrations of credit risk in the form of subordination are not embedded derivatives. Finally, SFAS 155 amends Statement 140 to eliminate the prohibition on a qualifying special-purpose entity from holding a derivative financial instrument that pertains to a beneficial interest other than another derivative financial instrument. SFAS 155 is effective for all financial instruments acquired or issued after the beginning of an entity's first fiscal year that begins after September 15, 2006. The Company does not expect the implementation of SFAS 155 to have a material impact on its financial statements.

Table of Contents

In March 2006, the FASB issued Statement of Financial Accounting Standards No. 156, *Accounting for Servicing of Financial Assets* an amendment of FASB Statement No. 140 (SFAS 156). SFAS 156 requires an entity to recognize a servicing asset or servicing liability each time it undertakes an obligation to service a financial asset by entering into certain servicing contracts. The Statement also requires all separately recognized servicing assets and servicing liabilities to be initially measured at fair value, if practicable. SFAS 156 permits an entity to choose between the amortization and fair value methods for subsequent measurements. At initial adoption, the Statement permits a one-time reclassification of available for sale securities to trading securities by entities with recognized servicing rights. SFAS 156 also requires separate presentation of servicing assets and servicing liabilities subsequently measured at fair value in the statement of financial position and additional disclosures for all separately recognized servicing assets and servicing liabilities. This Statement is effective as of the beginning of an entity's first fiscal year that begins after September 15, 2006. The Company does not expect the implementation of SFAS 156 to have a material impact on its financial statements.

In June 2006, the FASB issued Interpretation No. 48, *Accounting for Uncertainty in Income Taxes: An Interpretation of FASB Statement No. 109* (FIN 48). FIN 48 clarifies the accounting for uncertainty in income taxes recognized in an entity's financial statements in accordance with SFAS 109. The Interpretation prescribes a recognition threshold and measurement principles for the financial statement recognition and measurement of tax positions taken or expected to be taken on a tax return. FIN 48 is effective for fiscal years beginning after December 15, 2006. The Company does not expect the implementation of FIN 48 to have a material impact on its financial statements.

In September 2006, the Securities and Exchange Commission (SEC) released Staff Accounting Bulletin No. 108 (SAB 108). SAB 108 expresses the SEC staff's views regarding the process of quantifying financial statement misstatements. These interpretations were issued to address diversity in practice and the potential under current practice for the build up of improper amounts on the balance sheet. SAB 108 expresses the SEC staff's view that a registrant's materiality evaluation of an identified unadjusted error should quantify the effects of the error on each financial statement and related financial statement disclosures and that prior year misstatements should be considered in quantifying misstatements in current year financial statements. SAB 108 also states that correcting prior year financial statements for immaterial errors would not require previously filed reports to be amended. Such correction may be made the next time the registrant files the prior year financial statements. Registrants electing not to restate prior periods should reflect the effects of initially applying the guidance in SAB 108 in their annual financial statements covering the first fiscal year ending after November 15, 2006. The cumulative effect of the initial application should be reported in the carrying amounts of assets and liabilities as of the beginning of that fiscal year and the offsetting adjustment should be made to the opening balance of retained earnings for that year. Registrants should disclose the nature and amount of each individual error being corrected in the cumulative adjustment. The disclosure should also include when and how each error arose and the fact that the errors had previously been considered immaterial. The SEC staff encourages early application of the guidance in SAB 108 for interim periods of the first fiscal year ending after November 15, 2006. The Company does not expect the implementation of SAB 108 to have a material impact on its financial statements.

In September 2006, the FASB issued Statement of Financial Accounting Standards No. 157, *Fair Value Measurements* (SFAS 157). SFAS 157 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles, and expands disclosures about fair value measurements. SFAS 157 does not require any new fair value measurements but may change current practice for some entities. This Statement is effective for financial statements issued for fiscal years beginning after November 15, 2007 and interim periods within those years. The Company does not expect the implementation of SAB 157 to have a material impact on its financial statements.

Table of Contents

In September 2006, the FASB issued Statement of Financial Accounting Standards No. 158, *Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans*—an amendment of FASB Statements No. 87, 88, 106 and 132(R) (SFAS 158). SFAS 158 requires an employer to recognize the overfunded or underfunded status of a defined benefit postretirement plan as an asset or liability in its statement of financial position and to recognize changes in that funded status in the year in which the changes occur through comprehensive income. The funded status of a benefit plan will be measured as the difference between plan assets at fair value and the benefit obligation. For a pension plan, the benefit obligation is the projected benefit obligation. For any other postretirement plan, the benefit obligation is the accumulated postretirement benefit obligation. SFAS 158 also requires an employer to measure the funded status of a plan as of the date of its year-end statement of financial position. The Statement also requires additional disclosure in the notes to financial statements about certain effects on net periodic benefit cost for the next fiscal year that arise from delayed recognition of the gains or losses, prior service costs or credits, and transition asset or obligation. The Company is required to initially recognize the funded status of a defined benefit postretirement plan and to provide the required disclosures as of the end of the fiscal year ending after December 15, 2006. The requirement to measure plan assets and benefit obligations as of the date of the employer's fiscal year-end statement of financial position is effective for fiscal years ending after December 15, 2008. The Company expects the implementation of SFAS 158 to have an after tax effect to Other Comprehensive Income of \$633 thousand.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

The following discussion is intended to assist readers in understanding and evaluating the financial condition, changes in financial condition and the results of operations of the Company. The Company consists of the parent company and its wholly-owned subsidiaries, The Old Point National Bank of Phoebus (the Bank) and Old Point Trust & Financial Services, N. A. (Trust), collectively referred to as the Company. This discussion should be read in conjunction with the consolidated financial statements and other financial information contained elsewhere in this report.

Caution About Forward Looking Statements

In addition to historical information, this report may contain forward-looking statements. For this purpose, any statement that is not a statement of historical fact may be deemed to be a forward-looking statement. These forward-looking statements may include statements regarding profitability, liquidity, allowance for loan losses, interest rate sensitivity, market risk, growth strategy and financial and other goals. Forward-looking statements often use words such as *believes, expects, plans, may, will, should, projects, contemplates, and forecasts, intends* or other words of similar meaning. You can also identify them by the fact that they do not relate strictly to historical or current facts. Forward-looking statements are subject to numerous assumptions, risks and uncertainties, and actual results could differ materially from historical results or those anticipated by such statements.

Factors that could have a material adverse effect on the operations and future prospects of the Company include, but are not limited to, changes in: interest rates, general economic conditions, monetary and fiscal policies of the U. S. Government, including policies of the Office of the Comptroller of the Currency, U. S. Treasury and the Federal Reserve Board, the quality or composition of the loan or investment portfolios, demand for loan products, deposit flows, competition, and accounting principles, policies and guidelines. These risks and uncertainties should be considered in evaluating the forward-looking statements contained herein, and readers are cautioned not to place undue reliance on such statements. Any forward-looking statement speaks only as of the date on which it is made, and we undertake no obligation to update any forward-looking statement to reflect events or circumstances after the date on which it is made. In addition, past results of operations are not necessarily indicative of future results.

General

The Company is the parent company of the Bank and Trust. The Bank is a locally owned and managed community bank serving the Hampton Roads localities of Hampton, Newport News, Norfolk, Virginia Beach, Chesapeake, Williamsburg/James City County, York County and Isle of Wight County. The Bank currently has 19 branch offices. Trust is a wealth management services provider.

Table of Contents

Critical Accounting Policies and Estimates

As of September 30, 2006, there have been no significant changes with regard to the critical accounting policies and estimates disclosed in the Company's annual report on Form 10-K for the year ended December 31, 2005. That disclosure included a discussion of the accounting policy that requires management's most difficult, subjective or complex judgments: the allowance for loan losses.

Earnings Summary

Net income for the third quarter of 2006 was unchanged at \$1.7 million as compared with third quarter net income for 2005. Although there was strong loan growth, the unchanged income is attributed to continued pressure on the net interest yield and further branch expansion. Basic and diluted earnings per share for the third quarter of 2006 and for the third quarter of 2005 were \$0.43 and \$0.42.

For the nine months ended September 30, 2006 net income decreased \$425 thousand or 7.55% to \$5.2 million as compared to \$5.6 million earned for the nine months ended September 30, 2005. Basic earnings per share for the first nine months of 2006 were \$1.30, or \$1.29 on a fully diluted basis and \$1.40, or \$1.38 on a fully diluted basis for the first nine months of 2005.

Net Interest Income

The principal source of earnings for the Company is net interest income. Net interest income is the difference between interest and fees generated by earning assets and interest expense paid to fund them. Changes in the volume and mix of interest-earning assets and interest-bearing liabilities, as well as their respective yields and rates, have a significant impact on the level of net interest income. The net interest yield is calculated by dividing tax equivalent net interest income by average earning assets.

Net interest income, on a fully tax equivalent basis, was \$6.4 million in the third quarter of 2006, an increase of \$149 thousand, or 2.38% from the third quarter of 2005. The net interest yield was 3.37% in the third quarter of 2006 as compared to 3.77% in 2005.

For the nine months ended September 30, 2006 net interest income on a fully tax equivalent basis increased \$127 thousand, or 0.68% over the comparable period in 2005. Comparing the first nine months of 2006 to 2005, average loans increased \$92.6 million, or 21.09%, while investment securities decreased \$7.3 million, or 3.60%. Average earning assets increased 12.69% and the net interest yield decreased from 3.84% in 2005 to 3.43% in 2006. Although the net interest yield decreased by 41 basis points, the significant increase in loan volume lessened the negative effect on net interest income.

Tax equivalent interest income increased \$2.4 million, or 25.24%, in the third quarter of 2006 compared to the third quarter of 2005. Average earning assets grew \$95.0 million, or 14.27%. Total average loans increased \$108.2 million, or 24.01%, while average investment securities decreased \$6.4 million, or 3.21%. The yield on earning assets increased for the third quarter of 2006 compared to the third quarter of 2005 by 55 basis points. Most of the increase was due to increasing yields in the loan portfolio.

Interest expense increased \$2.2 million, or 69.95%, in the third quarter of 2006 from the third quarter of 2005 while interest-bearing liabilities increased \$97.3 million or 18.19% in the third quarter of 2006 over the same period in 2005. The cost of funding those liabilities increased 105 basis points from 2005. For the nine months ended September 30, 2006 interest expense increased \$5.7 million, or 66.81%, over the same period in 2005.

The following table shows an analysis of average earning assets, interest-bearing liabilities and rates and yields. Nonaccrual loans are included in loans outstanding.

Table of Contents

Provision for Loan Losses

The provision for loan losses is a charge against earnings necessary to maintain the allowance for loan losses at a level consistent with management's evaluation of the portfolio.

The provision for loan losses was \$900 thousand for the first nine months of 2006, up from \$750 thousand in the comparable period in 2005. The increase in the provision was due to strong loan growth rather than higher charge offs. Loans charged off (net of recoveries) in the first nine months of 2006 were \$723 thousand compared with loans charged off (net of recoveries) of \$808 thousand in the first nine months of 2005. On an annualized basis net loan charge offs were 0.17% of total net loans for the first nine months of 2006 compared with 0.23% for the same period in 2005.

On September 30, 2006, nonperforming assets totaled \$323 thousand compared with \$462 thousand on September 30, 2005. The September 2006 total consisted of \$158 thousand in nonaccrual loans and \$165 thousand in a former branch site listed for sale. The September 2005 total consisted of \$297 thousand in nonaccrual loans and \$165 thousand in the former branch site listed for sale. Loans still accruing interest but past due 90 days or more increased to \$1.13 million as of September 30, 2006 compared with \$898 thousand as of September 30, 2005.

The allowance for loan losses on September 30, 2006 was \$4.6 million, compared with \$4.2 million on September 30, 2005. At September 30, 2006, it represented a multiple of 14.32 times nonperforming assets and 29.27 times nonperforming loans. Nonperforming loans includes nonaccrual and restructured loans. The allowance for loan losses was 0.81% and 0.90% of total loans on September 30, 2006 and 2005, respectively.

Noninterest Income

For the third quarter of 2006, noninterest income increased \$40 thousand, or 1.49%, over the same period in 2005. For the nine months ended September 30, 2006, noninterest income increased \$795 thousand or 10.28% over the same period in 2005. The growth in noninterest income is attributed to a FHLB advance transaction that occurred during the second quarter and increases in service charges on deposit accounts and other service charges, commissions and fees. The increase in service charges on deposit accounts is attributed to the increase in consumer checking accounts. The increase in accounts is related to the Bank's new consumer checking account initiative that began in April 2005. The service charge commissions and fees related income is higher due to an increased volume of debit card transactions. The increased volume of debit card transactions is also related to the Bank's new consumer checking account initiative.

Noninterest Expenses

For the third quarter of 2006, noninterest expenses increased \$203 thousand, or 3.34%, over the third quarter of 2005. For the nine months ended September 30, 2006 noninterest expenses increased \$1.4 million or 8.11% over the same period in 2005. For the nine months ended September 30, 2006 salaries and employee benefits increased by \$702 thousand, or 6.58% over the same period in 2005 as a result of normal yearly salary increases and an increase of four in the Company's full time equivalent (FTE) positions.

The increases in the various categories of noninterest expense were directly related to the Company's branch expansion and increase of consumer checking accounts.

The Company anticipates a continued trend of increases in noninterest expense in future periods. Salaries and employee benefits, as well as occupancy expenses, will continue to increase as the Company expands its branch system in the future. The Company also expects increases to back office staffing expense in order to support its growing branch system. In an effort to keep noninterest expense under control, the Board of Directors voted to freeze the Company's pension plan effective September 30, 2006. This will enable the Company to better control benefit expenses in the future.

Table of Contents**Balance Sheet Review**

At September 30, 2006, the Company had total assets of \$823.1 million, an increase of 11.24% from \$740.0 million at December 31, 2005. Net loans as of September 30, 2006 were \$568.8 million, an increase of 16.02% from \$490.2 million at December 31, 2005. The Company realized significant growth in the real estate category of loans. Note 3 of the consolidated financial statements details the loan volume by category as of September 30, 2006 and December 31, 2005.

Average assets as of September 30, 2006 were \$779.5 million compared to \$696.1 million as of September 30, 2005. The growth in assets in 2006 was due to the growth in average loans, which increased 21.09% as compared to the same period in 2005.

Total investment securities at September 30, 2006 were \$190.2 million, a decrease of 3.00% from \$196.1 million on December 31, 2005. The Company's goal is to provide maximum return on the investment portfolio within the framework of its asset/liability objectives. The objectives include managing interest sensitivity, liquidity and pledging requirements. Current growth as noted in the above paragraph has occurred in the loan portfolio. The reduction in investment securities helped fund this loan growth.

At September 30, 2006, total deposits increased to \$569.2 million, up 6.05% from \$536.7 million on December 31, 2005. Deposit growth, especially demand deposit growth, is not as strong as management would like. Management has developed an incentive plan for the second half of 2006 to reverse the slowing pace of noninterest-bearing and savings deposits.

FHLB advances increased to \$115.0 million, an increase of 43.75% from \$80.0 million on December 31, 2005. FHLB advances were used to fund the majority of our loan growth.

Capital Resources

Under the banking regulations, Total Capital is composed of core capital (Tier 1) and supplemental capital (Tier 2). Tier 1 capital consists of common stockholders' equity and retained earnings less goodwill. Tier 2 capital consists of certain qualifying debt and a qualifying portion of the allowance for loan losses. The following is a summary of the Company's capital ratios at September 30, 2006. As shown below, these ratios were all well above the regulatory minimum levels.

	2006 Regulatory Minimums	September 30, 2006
Tier 1	4.00%	9.38%
Total Capital	8.00%	12.40%
Tier 1 Leverage	3.00%	13.16%

Quarter-end book value was \$18.42 in 2006 and \$17.72 in 2005. Cash dividends were \$2.1 million, or \$0.52 per share, in the nine months ended September 30, 2006, and \$2.0 million, or \$0.49 per share, in the nine months ended September 30, 2005. The common stock of the Company has not been extensively traded.

Liquidity

Liquidity is the ability of the Company to meet present and future financial obligations through either the sale or maturity of existing assets or the acquisition of additional funds through liability management. Liquid assets include cash, interest-bearing deposits with banks, federal funds sold, investments in securities and loans maturing within one year.

Table of Contents

In addition, secondary sources are available through the use of borrowed funds if the need should arise. The Company's sources of funds include a large stable deposit base and secured advances from FHLB. As of the end of the third quarter 2006, the Company had \$130.2 million in FHLB borrowing availability. The Company has available short-term unsecured borrowed funds in the form of federal funds with correspondent banks. As of the end of the third quarter 2006, the Company had \$28.9 million available in federal funds to handle any short-term borrowing needs.

Management is not aware of any market or institutional trends, events or uncertainties that are expected to have a material effect on the liquidity, capital resources or operations of the Company. Nor is management aware of any current recommendations by regulatory authorities that would have a material effect on liquidity, capital resources or operations.

As a result of the Company's management of liquid assets, availability of borrowed funds and the ability to generate liquidity through liability funding, management believes that the Company maintains overall liquidity sufficient to satisfy its depositors' requirements and to meet its customers' future borrowing needs.

Contractual Obligations

In the normal course of business there are various outstanding contractual obligations of the Company that will require future cash outflows. In addition, there are commitments and contingent liabilities, such as commitments to extend credit that may or may not require cash outflows.

The Company purchased two properties for future branch sites. One is an existing building in the Hilltop area of Virginia Beach and the other is a branch site in the Ghent section of Norfolk. The Hilltop property was purchased for \$4.0 million, which amount was paid in full in September 2006. The Ghent property was purchased for \$1.4 million, which amount was paid in full in August 2006. As of September 30, 2006, there have been no other material changes outside the ordinary course of business in the Company's contractual obligations disclosed in the Company's annual report on Form 10-K for the year ended December 31, 2005.

Off-Balance Sheet Arrangements

As of September 30, 2006, there were no material changes in the Company's off-balance sheet arrangements disclosed in the Company's annual report on Form 10-K for the year ended December 31, 2005.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

An important element of earnings performance and the maintenance of sufficient liquidity is proper management of the interest sensitivity gap and liquidity gap. The interest sensitivity gap is the difference between interest sensitive assets and interest sensitive liabilities in a specific time interval. This gap can be managed by repricing assets or liabilities, which are variable rate instruments, by replacing an asset or liability at maturity or by adjusting the interest rate during the life of the asset or liability. Matching the amounts of assets and liabilities maturing in the same time interval helps to hedge interest rate risk and to minimize the impact of rising or falling interest rates on net interest income.

The Company determines the overall magnitude of interest sensitivity risk and then formulates policies governing asset generating and pricing, funding sources and pricing, and off-balance sheet commitments. These decisions are based on management's expectations regarding future interest rate movements, the state of the national and regional economy, and other financial and business risk factors. The Company uses computer simulations to measure the effect of various interest rate scenarios on net interest income. This modeling reflects interest rate changes and the related impact on net interest income and net income over specified time horizons.

Table of Contents

Based on scheduled maturities only, the Company was liability sensitive as of September 30, 2006. It should be noted, however, that non-maturing deposit liabilities totaling \$195.5 million, which consist of interest checking, money market, and savings accounts, are less interest sensitive than other market driven deposits. In a rising rate environment these deposit rates have historically lagged behind the changes in earning asset rates, thus mitigating the impact from the liability sensitivity position. The asset/liability model allows the Company to reflect the fact that non-maturing deposits are less rate sensitive than other deposits by using a decay rate. The decay rate is a type of artificial maturity that simulates maturities for non-maturing deposits over the number of months that more closely reflects historic data. Using the decay rate, the model reveals that the Company is fairly balanced between assets and liabilities.

When the Company is asset sensitive, net interest income should improve if interest rates rise since assets will reprice faster than liabilities. Conversely, if interest rates fall, net interest income should decline, depending on the optionality (prepayment speeds) of the assets. When the Company is liability sensitive, net interest income should fall if rates rise and rise if rates fall.

The most likely scenario represents the rate environment as management forecasts it to occur. From this base, rate shocks in 100 basis point increments are applied to see the impact on the Company's earnings. The rate shock model reveals that a 100 basis point decrease in rates would cause an approximately 2.34% decrease in net income and a 200 basis point decrease in rates would cause an approximately 4.54% decrease in net income. The rate shock model reveals that a 100 basis point rise in rates would cause an approximately 0.91% increase in net income and that a 200 basis point rise in rates would cause an approximately 1.19% increase in net income at September 30, 2006.

Item 4. Controls and Procedures.

The Company maintains a system of disclosure controls and procedures that is designed to ensure that material information is accumulated and communicated to management, including the Company's Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions to be made regarding required disclosure. As required, management, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of the design and operation of the Company's disclosure controls and procedures as of the end of the period covered by this report. Based on this evaluation, the Company's Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures were operating effectively to ensure that information required to be disclosed by the Company in reports that it files or submits under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized, and reported within the time periods specified in the rules and forms of the SEC.

The Company's management is also responsible for establishing and maintaining adequate internal control over financial reporting to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. No changes in the Company's internal control over financial reporting occurred during the fiscal quarter ended September 30, 2006 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Table of Contents

The Company's management, including the Chief Executive Officer and Chief Financial Officer, does not expect that our disclosure controls and procedures or our internal controls will prevent all error and fraud. A control system, no matter how well conceived and operated, provides reasonable, not absolute, assurance that the objectives of the control system are met. The design of a control system reflects resource constraints and the benefits of controls must be considered relative to their costs. Because there are inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been or will be detected. These inherent limitations include the realities that judgments in decision-making can be faulty and that breakdowns occur because of simple error or mistake. Controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the control. The design of any system of controls is based in part upon certain assumptions about the likelihood of future events. There can be no assurance that any design will succeed in achieving its stated goals under all future conditions; over time, controls may become inadequate because of changes in conditions or deterioration in the degree of compliance with the policies or procedures. Because of the inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and not be detected.

Table of Contents**PART II - OTHER INFORMATION****Item 1. Legal Proceedings.**

There are no pending or threatened legal proceedings to which the Company, or any of its subsidiaries, is a party or to which the property of either the Company or its subsidiaries is subject that, in the opinion of management, may materially impact the financial condition of the Company.

Item 1A. Risk Factors.

As of September 30, 2006, there have been no material changes in the risk factors faced by the Company from those disclosed in the Company's annual report on Form 10-K for the year ended December 31, 2005.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

The following table presents the Company's share repurchases during the period ended September 30, 2006:

Period	Total Number of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part of the Repurchase Program (1)	Maximum Number of Shares that May Yet Be Purchased Under the Repurchase Program (1)
7/1/2006 - 7/31/2006	200	28.68	200	168,160
8/1/2006 - 8/31/2006	1,095	28.45	1,095	167,065
9/1/2006 - 9/30/2006				167,065
Total	1,295		1,295	

- (1) In replacement of a similar authorization in 2005, on January 10, 2006, the Company authorized a program to repurchase during the current calendar year up to an aggregate of five percent (5%) of the shares of the Company's common stock outstanding as of January 1 of the current calendar year. There is currently no stated expiration date for this program. The Company repurchased 1,295 shares of the Company's common stock during the quarter ended September 30, 2006.

Item 3. Defaults Upon Senior Securities.

None.

Item 4. Submission of Matters to a Vote of Security Holders.

There were no matters submitted to a vote of security holders during the quarter ended September 30, 2006.

Table of Contents

Item 5. Other Information.

(b) The Company has made no changes to the procedures by which security holders may recommend nominees to its board of directors.

Item 6. Exhibits.

Exhibits

Exhibit No.	Description
3.1	Articles of Incorporation of Old Point Financial Corporation, as amended April 25, 1995 (incorporated by reference to Exhibit 3 to Form 10-K filed March 26, 1999)
3.2	Bylaws of Old Point Financial Corporation, as amended August 11, 1992 (incorporated by reference to Exhibit 3 to Form 10-K filed March 26, 1999)
31.1	Certification of Chief Executive Officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002
31.2	Certification of Chief Financial Officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002
32.1	Certification of Chief Executive Officer and Chief Financial Officer pursuant to Section 906 of the Sarbanes-Oxley Act of 2002
