Continuing operating profit up 13% from £47m to £53m, up 21% at constant exchange rates.

Total operating profit, including discontinued operations, of £62m.

Franchised operating profit up 3% to £63m, up 7% at constant exchange rates. Managed operating profit up 18% to £20m, up 18% at constant exchange rates.

Adjusted earnings per share up 100% from 5.7p to 11.4p.

Total gross revenue from all hotels in IHG's system up 9% to \$4.1bn.*

Global constant currency RevPAR growth of 8.6%. Strongest growth in EMEA, up 11.6%, mainly driven by rate increases.

Room count increased by 2,773 rooms to 543,775 rooms. Pipeline now 143,606 rooms, up 13,506.

* Total gross revenue is defined as total room revenue (i.e. excluding food and beverage) from franchised hotels and total hotel revenue from managed, owned and leased hotels. It is not revenue attributable to IHG, as it is derived mainly from hotels owned by third parties. The metric is highlighted as an indicator of the scale and reach of IHG's brands.

All figures and movements unless otherwise noted are at actual exchange rates and before other operating income and expenses.

See appendix 3 for analysis of financial headlines. Constant exchange rate comparatives shown in appendix 4.

Commenting on the results and trading, Andrew Cosslett, Chief Executive of InterContinental Hotels Group PLC said:

Trading in the quarter remained strong with all brands performing well around the world. We have now added over 6,000 net rooms since January and we are on track to end the year in the region of 10,000 net rooms up. Our new hotels pipeline continues to grow well and the quality of our new signings is high. Our recent deal with All Nippon Airlines makes IHG the largest international hotel operator in Japan and strengthens our strategic position in Asia. The outlook for the Group remains positive.

Americas: strong performance across all brands

Revenue performance

RevPAR increased 7.5%, driven by rate. All brands performed strongly, with InterContinental up 9.4%, Crowne Plaza up 7.9%, Holiday Inn up 5.9%, Holiday Inn Express up 9.3%, Staybridge Suites up 6.0% and Candlewood Suites up 6.5%. All brands except Staybridge Suites have

outperformed the market so far this year.

Operating profit performance

Operating profit from continuing operations increased 17% from \$92m to \$108m. Continuing owned and leased profit was flat at \$4m, impacted by \$1.1m pre opening costs at InterContinental Boston, which opened on 6 November 2006. Managed profit was up 86% to \$13m, benefiting from retained management contracts on assets disposed. Franchised profit increased 8% to \$106m. Including discontinued operations, total operating profit increased from \$96m to \$111m.

Table of Contents

EMEA: RevPAR growth accelerating

Revenue performance

RevPAR increased 11.6%, with all major countries performing well. Middle East RevPAR increased 30.0%, despite the recent conflict in Lebanon. UK Holiday Inn estate RevPAR increased 9.4%, outperforming the market, against 2005 comparables impacted by the London bombings.

Operating profit performance

Operating profit from continuing operations increased 22% from £9m to £11m, after a £1m reduction in regional overheads. Continuing owned and leased operations broke even in the quarter. The InterContinental Le Grand Paris continues to rebuild its business post refurbishment, delivering a 27.3% RevPAR increase. The InterContinental London Park Lane reopened on 6 November 2006. As some bedrooms will not be available until March 2007, the expected profitability from the hotel for 2006 has reduced by £3m, in total £18m lower than the 2004 level. Managed profit was flat at £9m. Franchised profit was flat at £6m, impacted by the loss of income from the South African master franchise IHG cancelled in 2005. Including discontinued operations, total operating profit reduced from £20m to £18m.

Asia Pacific: strong growth

Revenue performance

RevPAR increased 10.5%, mainly driven by rate. InterContinental RevPAR increased 11.2%, Crowne Plaza 9.8%, and Holiday Inn 9.2%. Greater China RevPAR increased 14.3%, outperforming the market, driven by rate increases as strong demand for IHG's brands continues.

Operating profit performance

Operating profit from continuing operations increased 60% from \$5m to \$8m. Owned and leased operating profit increased 100% from \$2m to \$4m as a result of fewer rooms being under refurbishment this year at the InterContinental Hong Kong. Managed hotels profit increased by 50% from \$6m to \$9m as a result of retained management contracts on assets disposed and the increasing number of hotels under IHG management in China.

Overheads and Tax

As previously disclosed, IHG expects that in 2006 regional and central overheads will increase ahead of inflation at constant exchange rates. In the quarter, aggregate regional overheads reduced £2m to £15m due to timing of costs. Central overheads increased by £3m to £19m. This included further planned investment in global research designed to strengthen brand development and to enhance IHG's growth capability.

Based on the first nine months, IHG's 2006 full year tax rate estimate, adjusted for special items, has reduced by 1% to 24%. IHG's tax rate is likely to be volatile over the next few years but in the long term is expected, as previously indicated, to trend upwards.

Room count and development pipeline size

IHG's pipeline of new hotels continues to expand.

24,999 rooms were signed in the quarter; 16,776 in the Americas, 2,742 in EMEA and 5,481 in Asia Pacific.

Pipeline now stands at 143,606 rooms, up 13,506 in the quarter and 35,069 since the beginning of the year.

IHG's development activity in China continues to be successful. 12 hotels, 4,908 rooms, were signed in the third quarter, with 28 hotels and 13,148 rooms signed since the beginning of the year.

IHG maintains its focus on expanding the distribution of its brands, while enhancing hotel quality.

8,044 rooms opened; 5,314 in the Americas, 1,091 in EMEA and 1,639 in Asia Pacific. 25,415 rooms opened year to date.

Table of Contents

5,271 rooms exited; 3,635 in the Americas, 530 in EMEA and 1,106 in Asia Pacific. 19,173 rooms exited year to date.

The room count at the end of the quarter was 543,775. 6,242 rooms have been added year to date, positioning IHG well to add in the region of 10,000 rooms by the year end. InterContinental and Crowne Plaza have added 5,246 of these net rooms year to date, enhancing the mix of IHG's hotel portfolio and the distribution of IHG's upscale brands.

Disposals and returns of funds

The sale of seven Continental European InterContinental branded hotels to Morgan Stanley Real Estate Funds was completed during September for a total of \$634m.

IHG's net debt at the period end was £116m, including the \$186m (£99m) finance lease on the InterContinental Boston.

14.0m shares were repurchased under IHG's ongoing buyback programme during the third quarter, at a cost of £125m. There were 357m shares outstanding at the end of the third quarter. Since the period end, a further 0.8m shares have been repurchased, at a cost of £8m, leaving £41m of the £250m buyback still to be completed.

Further returns of funds will be made to shareholders in due course, as previously stated. An announcement on timing and quantum of further returns will be made not later than IHG's preliminary results in February 2007.

9. Tax

The tax charge on profit before tax, excluding the impact of special items (note 8), has been calculated using an estimated effective annual tax rate of 24% (2005 29%).

By also excluding the effect of prior year items, the equivalent effective tax rate would be approximately 31%. Prior year items have been treated as relating wholly to continuing operations.

Table of Contents**10. Earnings per ordinary share**

Basic earnings per ordinary share is calculated by dividing the profit for the period available for IHG equity holders by the weighted average number of ordinary shares, excluding investment in own shares, in issue during the period.

Diluted earnings per ordinary share is calculated by adjusting basic earnings per ordinary share to reflect the notional exercise of the weighted average number of dilutive ordinary share options outstanding during the period.

On 1 June 2006, shareholders approved a share capital consolidation on the basis of 7 new ordinary shares for every 8 existing ordinary shares, together with a special dividend of 118 pence per existing ordinary share. The overall effect of the transaction was that of a share repurchase at fair value, therefore no adjustment has been made to comparative data.

INDEPENDENT REVIEW REPORT TO INTERCONTINENTAL HOTELS GROUP PLC

Introduction

We have been instructed by the Company to review the financial information for the three months and nine months ended 30 September 2006 which comprises the Group Income Statement, Group Statement of Recognised Income and Expense, Group Cash Flow Statement, Group Balance Sheet and the related notes 1 to 16. We have read the other information contained in the Interim Report and considered whether it contains any apparent misstatements or material inconsistencies with the financial information.

This report is made solely to the Company in accordance with guidance contained in Bulletin 1999/4 Review of interim financial information issued by the Auditing Practices Board. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company, for our work, for this report, or for the conclusions we have formed.

Directors responsibilities

The Interim Report, including the financial information contained therein, is the responsibility of, and has been approved by, the Directors. The Directors are responsible for preparing the Interim Report in accordance with the Listing Rules of the Financial Services Authority which require that the accounting policies and presentation applied to the interim figures should be consistent with those applied in preparing the preceding annual accounts except where any changes, and the reasons for them, are disclosed.

Review work performed

We conducted our review in accordance with guidance contained in Bulletin 1999/4 Review of interim financial information issued by the Auditing Practices Board for use in the United Kingdom. A review consists principally of making enquiries of management and applying analytical procedures to the financial information and underlying financial data, and based thereon, assessing whether the accounting policies and presentation have been consistently applied, unless otherwise disclosed. A review excludes audit procedures such as tests of controls and verification of assets, liabilities and transactions. It is substantially less in scope than an audit performed in accordance with International Standards on Auditing (UK and Ireland) and therefore provides a lower level of assurance than an audit. Accordingly we do not express an audit opinion on the financial information.

Review conclusion

On the basis of our review we are not aware of any material modifications that should be made to the financial information as presented for the three months and nine months ended 30 September 2006.
