**Item 1.01 Entry Into a Material Definitive Agreement**

On November 30, 2006, the Company, through its subsidiary Noble Metal Processing Asia Limited ( NMP Asia ), entered into an Equity Joint Venture Contract (the Agreement ) with WISCO Jiangbei Steel Processing and Logistics Co., Ltd. ( Wisco ), a wholly owned subsidiary of Wuhan Iron and Steel Group Company, for the establishment of a Chinese joint venture company (the Joint Venture ) to manufacture and sell laser welded blank products within the People s Republic of China (the PRC ). Each of NMP Asia and Wisco agreed to contribute \$1,250,000 in cash to the Joint Venture, which will operate under the name WISCO Noble Laser Welding Technology Co., Ltd. The parties expect to obtain additional financing for the Joint Venture from financial institutions in the PRC.

Each of NMP Asia and Wisco will own 50% of the Joint Venture and select 2 of the 4 members of the Joint Venture s Board of Directors. The Agreement contains procedures for either party to purchase the equity interests of the other party in the event of any voting deadlock or dispute. The Company will contribute operating management and technical expertise to the Joint Venture as well as training to the Joint Venture associates. The Agreement also contains provisions limiting each party s ability to compete with the Joint Venture in the sale of the Joint Venture Products within the PRC.

Under the terms of the Agreement, the Joint Venture would enter into a license agreement with NMP Asia (or its affiliates) wherein NMP Asia (or its affiliate) would provide certain technology and know-how to the Joint Venture in return for royalty payments from the sale of the Joint Venture s products. The Joint Venture would also enter into a steel supply agreement with Wisco (or one of its affiliates) providing for the supply of the steel necessary for the manufacture of the Joint Venture s products.

The parties are in the process of seeking approval for the Joint Venture by local governmental authorities, which approval is required before the Joint Venture may commence operations. Production is expected to begin in the second half of 2007.

A copy of the Company s press release dated December 4, 2006 announcing the Joint Venture is included as Exhibit 99.1 to this Current Report on Form 8-K.
