**Item 1.01 Entry into a Material Definitive Agreement**

On December 22, 2006, Viragen International, Inc., our majority-owned subsidiary, entered into a licensing agreement with Orphan Australia Proprietary Limited that grants exclusive rights to Orphan Australia to market, sell and distribute *Multiferon*<sup>®</sup> (multi-subtype, human alpha interferon) in Australia and New Zealand. Orphan Australia will initially focus its marketing efforts for *Multiferon*<sup>®</sup> to target the treatment of high-risk malignant melanoma.

The agreement, which is for a term of 10 years, provides Viragen International with an up-front license fee, and additional milestone payments to be paid upon receipt of reimbursement authorization for *Multiferon*<sup>®</sup> in Australia and possibly other countries to be added later. We estimate the agreement to be valued at approximately \$10 - \$15 million (USD) per year for us, pending regulatory approval and reimbursement authorization, and based on revenue forecasts for peak year sales. Orphan Australia will also purchase its supply of *Multiferon*<sup>®</sup> from Viragen at agreed-upon pricing. The product is subject to local regulatory approvals and medical reimbursement authorizations. Additional financial terms were not disclosed.

It is expected that the regulatory approval process in Australia will take approximately 12 - 18 months to be followed by the reimbursement authorization process. Clinicians who demand *Multiferon*<sup>®</sup> for their patients prior to regulatory approval will be able to obtain it on a Named-Patient basis according to local regulatory mechanisms.

On December 28, 2006, we issued a press release announcing this licensing agreement. The full text of the press release is furnished as Exhibit 99.1 to this report.

**Item 9.01 Financial Statements and Exhibits**

(d) *Exhibits.*
