(Attach extra sheets if needed)

As previously disclosed, Wind River Systems, Inc. (the Company) concluded a voluntary review of its historical stock option granting practices and the related accounting in March 2007. The results of the review concluded that the Company did not engage in intentional misrepresentation of consolidated financial statements or fraudulent misconduct in the granting of stock options. However, due to certain errors identified in the course of the review, prior period financial statements were restated in the Company's Quarterly Reports on Form 10-Q for the second and third quarters of fiscal year 2007 and will be restated in future filings. As a result of the review and restatements, the Company was unable to file its Quarterly Reports on Form 10-Q for the second and third quarters of fiscal year 2007 until late March 2007.

Due to the significant time and resources allocated to the stock option review and the subsequent filing of the Company's Quarterly Reports on Form 10-Q for the second and third quarters of fiscal year 2007, the Company has been unable to complete its fiscal year 2007 consolidated financial statements and notes thereto included in its Annual Report on Form 10-K for fiscal year 2007 at this time. In addition, the Company has not yet completed the testing and evaluation of the effectiveness of the Company's internal control over financial reporting as required by Section 404 of the Sarbanes-Oxley Act.

Accordingly, the Company cannot complete its Annual Report on Form 10-K by the April 16, 2007 prescribed deadline without unreasonable effort or expense. The Company is committed to completing the Annual Report on Form 10-K as quickly as possible and plans to file it within the fifteen calendar day period following the prescribed due date.

As a result of the adoption, the Company recognized stock-based compensation expense of \$20.4 million in fiscal 2007, while no stock-based compensation expense was incurred in fiscal 2006.
