CAUTIONARY STATEMENT FOR PURPOSES OF THE SAFE HARBOR PROVISIONS OF THE PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995	

This Quarterly Report on Form 10-Q contains forward-looking statements that reflect, when made, the Company's expectations or beliefs concerning future events that involve risks and uncertainties. Forward-looking statements frequently are identified by the words believe, anticipate, expect, estimate, intend, project, will be, will continue, will likely result, or other similar words and phrases. Similarly, herein that describe the Company's objectives, plans or goals also are forward-looking statements. Actual results could differ materially from those projected, implied or anticipated by the Company's forward-looking statements. Some of the factors that could cause actual results to differ include: the impact of adverse weather conditions on the Company's operations; changes in economic conditions and trends generally; changes in consumer preferences or discretionary spending; the effect of competition in the restaurant industry; the Company's ability to achieve market acceptance, particularly in new markets; the Company's ability to achieve and manage its planned expansion; the Company's ability to execute its business strategy effectively; health concerns about beef or other food products; reductions in the availability of, or increases in the cost of, USDA Prime grade beef and other food items; labor shortages or increases in labor costs; the impact of federal, state or local government regulations relating to Company employees,

Table of Contents

the sale or preparation of food, the sale of alcoholic beverages and the opening of new restaurants; harmful actions taken by the Company's franchisees; the Company's ability to protect its name and logo and other proprietary information; the impact of litigation; and the loss of key management personnel. For a discussion of these and other risks and uncertainties that could cause actual results to differ from those contained in the forward-looking statements, see Risk Factors in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2006 filed by the Company, as well as the Company's other filings with the Securities and Exchange Commission (the SEC), all of which are available on the SEC's website at www.sec.gov. All forward-looking statements are qualified in their entirety by this cautionary statement, and the Company undertakes no obligation to revise or update this Quarterly Report on Form 10-Q to reflect events or circumstances after the date hereof.

Unless the context otherwise indicates, all references in this report to the Company, Ruth's Chris, we, us, or our or similar words are to Ruth's Chris Steak House, Inc., and its direct wholly owned subsidiaries. Ruth's Chris Steak House, Inc. is a Delaware corporation, and was founded in 1965.

Stockholders and other security holders or buyers of our securities or our other creditors should not assume that material events subsequent to the date of this report have not occurred.

RUTH S CHRIS STEAK HOUSE, INC. AND SUBSIDIARIES

Notes to Condensed Consolidated Statements

(dollar amounts in thousands, except share and per share data)

(1) Basis of Presentation

The accompanying unaudited condensed consolidated financial statements of Ruth s Chris Steak House, Inc. and its subsidiaries (together, the Company) as of April 1, 2007 and December 31, 2006 and for the quarters ended April 1, 2007 and March 26, 2006 have been prepared by the Company, pursuant to the rules and regulations of the SEC. Management of the Company has made a number of estimates and assumptions relating to the reporting of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the condensed consolidated financial statements and the reporting of revenue and expenses during the period to prepare these condensed consolidated financial statements in conformity with U.S. generally accepted accounting principles. Significant items subject to such estimates and assumptions include the carrying amount of property and equipment, goodwill, and obligations related to workers compensation and medical insurance. Actual results could differ from those estimates.

The information furnished herein reflects all adjustments (consisting of normal recurring accruals and adjustments), which are, in the opinion of management, necessary to fairly present the operating results for the respective periods. The interim results of operations for the fiscal quarters ended April 1, 2007 and March 26, 2006 are not necessarily indicative of the results that may be achieved for the full year. Certain prior year amounts have been reclassified to conform with the current year presentation. These reclassifications had no effect on previously reported net income. Certain information and footnote disclosures normally presented in annual financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted pursuant to such rules and regulations. These financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Company s Annual Report on Form 10-K for the fiscal year ended December 31, 2006.

The Company operates on a 52 or 53 week fiscal year ending on the last Sunday in December. The fiscal quarters ended April 1, 2007 and March 26, 2006 each contained 13 weeks and are referred to herein as the first quarter of fiscal 2007 and the first quarter of fiscal 2006, respectively.

(2) Stock-Based Employee Compensation

As of April 1, 2007, the Company has the following share-based compensation plans:

2000 Stock Option Plan

The Company established a stock option plan which allows the Company s Board of Directors to grant stock options to directors, officers, key employees and other key individuals performing services for the Company. The 2000 Stock Option Plan authorizes grants of options to purchase up to 1,765,981 shares of authorized but unissued common stock. The 2000 Stock Option Plan provides for granting of options to purchase shares of common stock at an exercise price not less than the fair value of the stock on the date of grant. Options are exercisable at various periods ranging from one to ten years from date of grant. Under the 2000 Stock Option Plan there are 317,026 shares of common stock issuable upon exercise of currently outstanding options at April 1, 2007 and 613,258 shares available for future grants. No future grants are expected to be made under the 2000 Stock Option Plan.

2004 Restricted Stock Plan

The Company established a restricted stock plan, which allows the Company s Board of Directors to facilitate the purchase of restricted stock by directors, officers and other key employees. The 2004 Restricted Stock Plan authorized restricted stock purchases of up to 1,167,487 shares of authorized but unissued common stock. Under the Company s 2004 Restricted Stock Plan, there are 1,167,487 shares of common stock issued and no shares available for future grants. Related to the departure of an executive officer during the first quarter of 2007, the Company reacquired 71,950 shares of restricted common stock for the same price per share as paid by the officer during 2004. The shares have been placed in treasury stock with a cost basis equivalent to the purchase price of less than \$1.

Table of Contents*2005 Long-Term Equity Incentive Plan*

In connection with the initial public offering, the Company adopted the Ruth's Chris Steak House, Inc. 2005 Long-Term Equity Incentive Plan (the 2005 Equity Incentive Plan), which allows the Company's Board of Directors to grant stock options, restricted stock, restricted stock units, deferred stock units and other equity-based awards to directors, officers, key employees and other key individuals performing services for the Company. The 2005 Equity Incentive Plan provides for granting of options to purchase shares of common stock at an exercise price not less than the fair value of the stock on the date of grant. Under the Company's 2005 Equity Incentive Plan, there are 984,257 shares of common stock issuable upon exercise of currently outstanding options at April 1, 2007 and 1,371,241 shares available for future grants.

Total compensation expense recognized for the thirteen weeks ended March 26, 2006 and April 1, 2007 was \$85 and \$345, respectively.

(3) Long-term Debt

Long-term debt consists of the following:

	December 31,	
	2006	April 1, 2007
	(unaudited)	
Senior Credit Facility:		
Revolving credit facility	\$ 68,000	\$ 80,500
Less current maturities		
	\$ 68,000	\$ 80,500

As of April 1, 2007, the Company had an aggregate of \$80.5 million of outstanding indebtedness under its senior credit facility at a weighted average interest rate of 6.125%. The Company had approximately \$16.9 million of borrowings available under its revolving credit facility, net of outstanding letters of credit of approximately \$2.6 million. An additional \$25.0 million is also available upon the Company's request as a result of the May 17, 2006 amendment to the senior credit facility. The Company is required to maintain certain financial covenants and is also subject to restrictive covenants under its borrowings. The Company was in compliance with all such covenants at April 1, 2007. The Company's obligations under the senior credit facility are guaranteed by each of its existing and future subsidiaries and are secured by substantially all of its assets and a pledge of the capital stock of its subsidiaries.

(4) Earnings Per Share

Basic earnings per common share were computed by dividing net income available to common shareholders by the weighted average number of shares of common stock outstanding during the applicable period. For the thirteen weeks ended April 1, 2007, options to purchase 186,645 shares of the Company's common stock at a weighted average exercise price of \$21.12 per share were not included in the calculation of weighted average shares for diluted earnings per share because their effects were anti-dilutive.

The following table sets forth the computation of basic and diluted earnings per share:

Table of Contents

	13 Weeks Ending	
	March 26,	April 1,
	2006	2007
	(unaudited)	
Income available to common stockholders	\$ 5,915	\$ 6,783
Shares:		
Weighted average number of common shares outstanding	23,109,151	23,224,566
Dilutive stock options	381,942	204,834
Weighted-average number of common shares outstanding	23,491,093	23,429,400
Basic earnings per common share:		
Continuing operations	\$ 0.26	\$ 0.29
Discontinued operations		
Basic earnings per common share	\$ 0.26	\$ 0.29
Diluted earnings per common share:		
Continuing operations	\$ 0.25	\$ 0.29
Discontinued operations		
Diluted earnings per common share	\$ 0.25	\$ 0.29

(5) Commitments and Contingencies

The Company is subject to other various claims, possible legal actions, and other matters arising in the normal course of business. Management does not expect disposition of these other matters to have a material adverse effect on the financial position, results of operations or liquidity of the Company.

(6) Discontinued Operations

On June 25, 2006, the Company closed its Cleveland, Ohio restaurant whose lease term ended in September 2006. The Company accounted for its exit costs in accordance with the provisions of SFAS No. 146, *Accounting for Costs Associated with Exit or Disposal Activities*, which required that such costs be expensed in the period such costs are incurred. All of these costs incurred are included in discontinued operations in the accompanying condensed consolidated income statements. The Company determined that the closed restaurant should be accounted for as discontinued operations because the Company does not expect any further direct or indirect cash inflows from the discontinued restaurant, since the restaurant has completely ceased operation.

On December 24, 2004, the Company closed its Manhattan-UN, New York restaurant operation, one of its two Ruth's Chris Steak House locations in Manhattan, New York. Prior to and including 2004, the Company experienced operating losses at its Manhattan-UN, New York restaurant location, which leased the property on which it operated. During August 2005, the Company entered into an agreement with the Manhattan-UN, New York landlord whereby: (1) the Company made a one-time payment of \$0.3 million to the landlord for rent, commission on replacement lease, and attorney's fees; (2) the existing lease was terminated; (3) the Company allowed the landlord to contract with a third party replacement tenant; and (4) adjusted the remaining contingent lease term from eleven years to six years. Under the agreement, after the third anniversary, if the replacement tenant defaults on the new lease anytime during the remaining six years, the Company will be required to enter into a new agreement with landlord for the remaining term. This agreement resulted in a reduction of previously recorded rental liability. At April 1, 2007, the Company maintained a contingent lease liability of \$0.2 million related to this property.

The Company accounts for its closed restaurants in accordance with the provisions of SFAS No. 144. Therefore, when a restaurant is closed, and the restaurant is either held for sale or abandoned, the restaurant's operations are eliminated from the ongoing operations. Accordingly, the operations of such restaurants, net of applicable income taxes, are presented as discontinued operations and prior period operations of such restaurants, net of applicable income taxes, are reclassified.

Table of Contents

Discontinued operations consist of the following:

	13 Weeks Ending	
	March 26, 2006	April 1, 2007
	(unaudited)	
Revenues	\$ 765	
Income (loss) before income tax	\$ (16)	\$ (21)
Income (loss) from operations of discontinued restaurants, net of income tax benefit	\$ 11	\$ (14)

(7) New Accounting Pronouncements Adopted

The Company adopted FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* (FIN 48), on January 1, 2007. The implementation of FIN 48 did not result in any changes to the Company's unrecognized tax benefits for uncertain tax positions. As of the date of adoption, the Company's gross unrecognized tax benefits totaled approximately \$650, all of which, if recognized, would impact the effective tax rate. The Company does not anticipate there will be any material changes in the unrecognized tax benefits within the next 12 months. Our continuing practice is to recognize interest and penalties related to income tax matters in income tax expense. As of January 1, 2007, the Company had accrued approximately \$134 for the payment of interest, which is included as a component of the \$650 unrecognized tax benefit noted above.

The Company files consolidated and separate income tax returns in the United States Federal jurisdiction, many state jurisdictions and Puerto Rico. With few exceptions, the Company is no longer subject to U.S. Federal income tax examinations for years before 2003 and is no longer subject to state and local or Puerto Rico income tax examinations by tax authorities for years before 2002.

(8) Recent Accounting Pronouncements For Future Application

In September 2006, the FASB issued SFAS 157, *Fair Value Measurements*. SFAS 157 clarifies the definition of fair value, describes methods used to appropriately measure fair value, and expands fair value disclosure requirements. This statement applies under other accounting pronouncements that currently require or permit fair value measurements and is effective for fiscal years beginning after November 15, 2007. The Company is currently evaluating the impact that SFAS 157 will have on the consolidated financial statements and expects the adoption of this standard will not have a material impact on its consolidated balance sheet, statements of income or cash flows.

Other accounting standards that have been issued by the FASB or other standards-setting bodies that do not require adoption until a future date are not expected to have a material impact on the consolidated financial statements upon adoption.

(9) Subsequent Events

On April 16, 2007, the Company announced that it had entered into a definitive agreement to acquire three franchised restaurants for a total of \$13.25 million. The franchise purchase will establish a company-owned presence in Washington with restaurants in Bellevue and Seattle and in Oregon with a restaurant in Portland. The acquisition is expected to close in July 2007 and will be financed through borrowings under the Company's revolving credit facility. The definitive agreements governing this purchase are included in this filing as Exhibits 10.1, 10.2 and 10.3.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS
Overview

The Company is an owner, operator and franchisor of upscale steakhouses. As of April 1, 2007, there were 105 Ruth's Chris Steak House restaurants, of which 52 are company-owned and 53 are franchisee-owned, including ten international franchisee-owned restaurants in Mexico, Hong Kong, Taiwan and Canada.

The Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2006, provides additional information about the Company's business, operations and financial condition.

Table of Contents

Hurricane and Relocation Costs.

During the third quarter of fiscal 2005, the Company's corporate office building in Metairie, Louisiana was damaged by Hurricane Katrina and the Company subsequently relocated its corporate offices to Heathrow, Florida. The Company's restaurants in New Orleans and Metairie, Louisiana, were also damaged by the hurricane. The New Orleans restaurant has not reopened and the Metairie restaurant reopened in December, 2005. The Company had completed the construction and reopening activities for a new restaurant in Biloxi, Mississippi, that was also lost due to Hurricane Katrina. Related to these events, the Company incurred expenses of \$0.1 million and \$0.2 million in the first quarter of fiscal 2006 and fiscal 2007, respectively. These expenses include severance and relocation payments to employees and insurance deductibles for the two New Orleans, Louisiana area restaurants; severance payments, insurance deductibles and reopening costs associated with the Biloxi, Mississippi location; and temporary living, relocation costs and other expenses for the Company's relocation from Metairie, Louisiana to Heathrow, Florida. During the first quarter of 2007, the Company finalized its claim and does not expect any significant expenses or proceeds related to the Hurricane Katrina in the future.

Stock-Based Compensation

The Company accounts for stock-based compensation in accordance with Statement of Financial Accounting Standards (SFAS) 123R. Under the provisions of SFAS 123R, share-based compensation cost is estimated at the grant date based on the award's fair-value as calculated by an option pricing model and is recognized as expense ratably over the requisite period. The option pricing models require judgmental assumptions including volatility, forfeiture rates, and expected option life. If any of the assumptions used in the model change significantly, share-based compensation expense may differ in the future from that recorded in the current period.

Results of Operations

The table below sets forth certain operating data expressed as a percentage of total revenues for the periods indicated. The Company's historical results are not necessarily indicative of the operating results that may be expected in the future.

Net income	9.0%	8.2%

First Quarter of Fiscal 2007 (13 Weeks) Compared to First Quarter of Fiscal 2006 (13 Weeks)

Restaurant Sales. Restaurant sales increased \$16.6 million, or 27.0%, to \$78.1 million in the first quarter of fiscal 2007 from \$61.5 million in the first quarter of fiscal 2006. The increase was due to an additional \$1.1 million in sales from comparable restaurants, \$5.5 million in incremental sales from new company-owned restaurants that opened in 2006 or in the first quarter of 2007, as well as \$10.0 million contributed by the previously franchised restaurants acquired during 2006. Company-owned comparable restaurant sales increased 1.9% from the first quarter of 2006. The growth consisted of an average check increase of 5.2% driven by non-entree increases in bar and lounge traffic, menu selection shifts, and year over year pricing of approximately 2.5%. This was partially offset by an entree reduction of 3.1% that was primarily due to the fiscal calendar shift of the seasonally high volume week of New Years moving to the fourth quarter of 2006.

Franchise Income. Franchise income increased \$0.2 million, or 6.7%, to \$3.2 million in the first quarter of fiscal 2007 from \$3.0 million in the first quarter of fiscal 2006. The increase in franchise income was due to a \$1.2 million increase in franchisee-owned restaurant sales from the franchisee-owned restaurants open throughout both periods, representing a comparable franchisee-owned restaurant sales growth of 2.5%, as well as the impact of seven new franchisee-owned restaurants that opened during fiscal 2006 and three new franchisee-owned restaurants that opened in the first quarter of fiscal 2007. These increases were partially offset by the acquisition of seven franchisee-owned restaurants by the

Edgar Filing: Ruths Chris Steak House, Inc. - Form 10-Q

Company and the closing of one franchise location in the third and fourth quarters of fiscal 2006.

Food and Beverage Costs. Food and beverage costs increased \$5.7 million, or 28.9%, to \$25.4 million in the first quarter of fiscal 2007 from \$19.7 million in the first quarter of fiscal 2006. As a percentage of restaurant sales, food and beverage costs increased by 0.5% to 32.6% in the first quarter of fiscal 2007 from 32.1% in the first quarter of fiscal 2006. This increase in food and beverage

Table of Contents

costs as a percentage of restaurant sales was due to higher produce and dairy costs, partially offset by various sales mix initiatives, slightly favorable beef costs, and modest price increases.

Restaurant Operating Expenses. Restaurant operating expenses increased \$7.6 million, or 28.4%, to \$34.4 million in the first quarter of fiscal 2007 from \$26.8 million in the first quarter of fiscal 2006. Restaurant operating expenses, as a percentage of restaurant sales, increased to 44.1% in the first quarter of fiscal 2007 from 43.6% in the first quarter of fiscal 2006. This increase in restaurant operating expenses as a percentage of restaurant sales was due to higher management education costs, credit card fees and property insurance.

Marketing and Advertising. Marketing and advertising expenses increased \$0.8 million, or 53.3%, to \$2.3 million in the first quarter of fiscal 2007 from \$1.5 million in the first quarter of fiscal 2006. As a percentage of total revenues, marketing and advertising increased by 0.5% to 2.9% in the first quarter of fiscal 2007 from 2.4% in the first quarter of fiscal 2006. This percentage increase was primarily due to additional local restaurant advertising and to the timing of expenditures as the 2007 marketing plan is more evenly distributed throughout the fiscal year.

General and Administrative. General and administrative costs increased \$1.6 million, or 32.0%, to \$6.6 million in the first quarter of fiscal 2007 from \$5.0 million in the first quarter of fiscal 2006. General and administrative costs, as a percentage of total revenues, increased by 0.3% to 8.0% in the first quarter of fiscal 2007 from 7.6% in the first quarter of fiscal 2006. This increase was primarily due to the recruitment and hiring of staff personnel in several functional areas in the second half of fiscal 2006 and the first quarter of 2007, additional costs associated with initiating and maintaining operations at the Company's Heathrow headquarters, as well as higher Sarbanes-Oxley compliance costs and stock option compensation expense under FAS123R.

Depreciation and Amortization. Depreciation and amortization expense increased \$0.9 million, or 45.0%, to \$2.9 million in the first quarter of fiscal 2007 from \$2.0 million in the first quarter of fiscal 2006. The increase was due primarily to the addition of new company-owned restaurants and seven acquired restaurants during 2006 through the first quarter of 2007 as well as investments at the Company's existing company-owned restaurants and corporate headquarters.

Interest Expense. Interest expense increased \$0.5 million, or 100.0%, to \$1.0 million in the first quarter of fiscal 2007 from \$0.5 million in the first quarter of fiscal 2006. This increase was primarily due to the additional borrowings for the seven acquired restaurants as well as higher interest rates on those borrowings.

Insurance Proceeds, net. During the first quarter of fiscal 2007, the Company recognized income of \$3.7 million from insurance proceeds related to the Company's business interruption losses and property losses in New Orleans and Metairie, Louisiana and Biloxi, Mississippi as a result of Hurricane Katrina. During the first quarter of 2007, the Company finalized its claim and does not expect any significant expenses or proceeds related to the Hurricane Katrina in the future.

Loss on the disposal of property and equipment, net. During the first quarter of fiscal 2007, in an effort to improve the suitability for lease of our former home office building in Metairie, Louisiana, the first level was returned to its original parking use from an enclosed office space. As a result, the company disposed of all improvements and assets related to this first level of the building totaling \$645,000. Additionally, the Company elected to donate the New Orleans restaurant property to a non-profit organization and recorded a donation of \$512,000.

Income Tax Expense. Income tax expense increased to \$3.2 million in the first quarter of fiscal 2007 from \$2.6 million in the first quarter of fiscal 2006. The increase was primarily due to an increase in income before income tax partially and an increase in the estimated annual effective tax rate of 32.3% from 30.0%.

Income from Continuing Operations. Income from continuing operations increased \$0.9 million, or 15.3%, to \$6.8 million in the first quarter of fiscal 2007 from \$5.9 million in the first quarter of fiscal 2006.

Discontinued Operations, net of Income Tax Benefit. Discontinued operations resulted in a \$14,000 expense in the first quarter of fiscal 2007 compared to a recovery of \$11,000 in the first quarter of fiscal 2006. On June 25, 2006 the Company closed its Cleveland, Ohio restaurant whose lease term ended in September 2006. The Company determined that the closed restaurant should be accounted for as discontinued operations because the Company does

Table of Contents

not expect any further direct or indirect cash inflows from the discontinued restaurant as the restaurant has completely ceased operation. During August 2005, the Company entered into an agreement with the Manhattan-UN, New York landlord whereby: (1) the Company made a one-time payment of \$0.3 million to the landlord for rent, commission on replacement lease, and attorneys fees; (2) the existing lease was terminated; (3) the Company allowed the landlord to contract with a third party replacement tenant; and (4) the Company and the landlord adjusted the remaining contingent lease term from eleven years to six years. Under the agreement, after the third anniversary, if the replacement tenant defaults on the new lease anytime during the remaining six years, the Company will be required to enter into a new agreement with the landlord for the remaining term. This agreement resulted in a reduction of previously recorded rental liability. At April 1, 2007, the Company maintained a contingent lease liability of \$0.2 million related to this property.

Liquidity and Capital Resources

The following table presents a summary of the Company's net cash provided by (used in) operating, investing and financing activities:

	13 Weeks Ending	
	March 26, 2006	April 1, 2007
	(unaudited)	
Net cash provided by (used in):		
Operating activities	\$ 7,864	\$ 3,362
Investing activities	(3,703)	(14,417)
Financing activities	(4,769)	12,664
 Net increase (decrease) in cash and cash equivalents	 \$ (608)	 \$ 1,609

The Company's principal sources of cash during the first quarter of fiscal 2007 were cash provided by operations and proceeds of long-term financing. Principal uses of cash during the first quarter of fiscal 2007 included capital expenditures related to existing and in-process restaurants. The Company expects that its principal uses of cash in the future will be to finance capital expenditures and to service debt.

The Company's operations have not required significant working capital and, like many restaurant companies, it has been able to operate with negative working capital. Restaurant sales are primarily for cash or by credit card, and restaurant operations do not require significant inventories or receivables. In addition, the Company receives trade credit for the purchase of food, beverage, and supplies, thereby reducing the need for incremental working capital to support growth.

Net cash provided by operating activities was \$3.4 million in the first quarter of fiscal 2007, compared to cash provided of \$7.9 million in the first quarter of fiscal 2006. The decrease in net cash provided by operating activities was due primarily to a decrease in accounts payable and deferred revenues, partially offset by an increase in net income.

Net cash used in investing activities was \$14.4 million in the first quarter of fiscal 2007, compared to \$3.7 million in the first quarter of fiscal 2006. The increase resulted from capital expenditures associated with new restaurant construction and capital expenditures of existing restaurants.

Net cash provided by financing activities was \$12.7 million in the first quarter of fiscal 2007, compared to \$4.8 million used in the first quarter of fiscal 2006. This increase was due to \$12.5 million of additional borrowings for the aforementioned capital expenditures associated with new restaurant construction.

Capital expenditures totaled \$14.5 million in the first quarter of fiscal 2007, compared to \$3.7 million in the first quarter of fiscal 2006. The increase was primarily due to expenditures associated with new restaurant construction. During the first quarter of fiscal 2007 the Company opened two new restaurants in Lake Mary and Naples, FL and opened a new restaurant in Anaheim, CA in April 2007.

Table of Contents

The Company anticipates capital expenditures in the future will increase to the extent it opens additional company-owned restaurants and opportunistically acquires franchise-owned restaurants and related rights. See Note (9) in the Notes to Condensed Consolidated Statements regarding the anticipated franchise acquisition. The Company currently expects to open seven to eight company-owned restaurants in 2007. In 2007, the Company expects its capital expenditures to be approximately \$58.0 million to \$63.0 million, substantially all of which will relate to planned restaurant openings, maintenance capital, and possible acquisitions of franchisee-owned restaurants. These capital expenditures will primarily be funded by cash flows from operations and, if necessary, by the use of the Company's revolving credit facility, depending upon timing of expenditures.

Off-Balance Sheet Arrangements

As of April 1, 2007, the Company does not have any off-balance sheet arrangements as defined by the SEC.

Critical Accounting Policies and Estimates

The preparation of the Company's financial statements requires management to make estimates, judgments and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses during the periods presented. The Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2006 includes a summary of the critical accounting policies the Company believes are the most important to aid in understanding its financial results. There have been no material changes to these critical accounting policies that impacted the Company's reported amounts of assets, liabilities, revenues or expenses during the first quarter of fiscal 2007.

Recent Accounting Pronouncements For Future Application

In September 2006, the FASB issued SFAS 157, *Fair Value Measurements*. SFAS 157 clarifies the definition of fair value, describes methods used to appropriately measure fair value, and expands fair value disclosure requirements. This statement applies under other accounting pronouncements that currently require or permit fair value measurements and is effective for fiscal years beginning after November 15, 2007. The Company is currently evaluating the impact that SFAS 157 will have on the consolidated financial statements and expects the adoption of this standard will not have a material impact on its consolidated balance sheet, statements of income or cash flows.

Other accounting standards that have been issued by the FASB or other standards-setting bodies that do not require adoption until a future date are not expected to have a material impact on the consolidated financial statements upon adoption.

ITEM 3: QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Interest Rate Risk

The Company is exposed to market risk from fluctuations in interest rates. For fixed rate debt, interest rate changes affect the fair market value of such debt but do not impact earnings or cash flows. Conversely for variable rate debt, including borrowings under the Company's new senior credit facilities, interest rate changes generally do not affect the fair market value of such debt, but do impact future earnings and cash flows, assuming other factors are held constant. At April 1, 2007, the Company had \$80.5 million of variable rate debt of which \$35.0 million has been converted to fixed rates through the use of interest rate swaps. Holding other variables constant (such as foreign exchange rates and debt levels), a hypothetical immediate one percentage point change in interest rates would be expected to have an impact on pre-tax earnings and cash flows for fiscal 2007 of approximately \$0.2 million.

The Company has interest rate swaps to manage its exposure on its debt facility. By using the interest rate swaps to manage exposures to changes in interest rates, the Company exposes itself to credit risk and market risk. Credit risk is the failure of the counterparty to perform under the terms of the interest rate swap. When the fair value of an interest rate swap is positive, the counterparty owes the Company, which creates credit risk for the Company. When the fair value of an interest rate swap is negative, the Company owes the counterparty and, therefore, it does not possess credit risk.

Market risk is the adverse effect on the value of a financial instrument that results from a change in interest rates. The market risk associated with interest-rate contracts is managed by establishing and monitoring parameters that limit the types and degree of market risk that may be undertaken.

Table of Contents

Foreign Currency Risk

In accordance with the Company's franchise agreements relating to the Company's international locations, it receives royalties from those franchisees in U.S. dollars, and therefore it believes that fluctuations in foreign exchange rates do not present a material risk to its operations.

Commodity Price Risk

The Company is exposed to market price fluctuations in beef and other food product prices. Given the historical volatility of beef and other food product prices, this exposure can impact its food and beverage costs. Because the Company's restaurants typically set menu prices in advance of beef and other food product purchases, the Company cannot quickly take into account changing costs of beef and other food items. To the extent that it is unable to pass the increased costs on to its guests through price increases, the Company's results of operations would be adversely affected. The Company currently does not use financial instruments to hedge its risk to market price fluctuations in beef or other food product prices.

Effects of Inflation

Components of the Company's operations subject to inflation include food, beverage, lease and labor costs. The Company's leases require it to pay taxes, maintenance, repairs, insurance and utilities, all of which are subject to inflationary increases. The Company believes inflation has not had a material impact on its results of operations in recent years.

ITEM 4. CONTROLS AND PROCEDURES

(a) Evaluation of disclosure controls and procedures.

The Company's management evaluated, with the participation of the Chief Executive Officer and Chief Financial Officer, the effectiveness of the design and operation of its disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934), as of the end of the period covered by this report. Based on that evaluation, the Chief Executive Officer and the Chief Financial Officer concluded that the Company's disclosure controls and procedures were effective as of the end of the period covered by this report.

(b) Changes in internal control over financial reporting.

There was no change in the Company's internal control over financial reporting (as defined in Rule 13a-15(f) of the Securities Exchange Act of 1934) that occurred during the fiscal quarter covered by this report on Form 10-Q that in our judgment has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

From time to time the Company is involved in various disputes and litigation matters that arise in the ordinary course of business. While litigation is subject to uncertainties and the outcome of litigated matters is not predictable with assurance, the Company is not aware of any legal proceedings pending or threatened against it that it expects to have a material adverse effect on its financial condition or results of operations.

ITEM 1A. RISK FACTORS

There are no material changes to the Risk Factors included in the Company's Form 10-K for the fiscal year ended December 31, 2006. The impact of the circumstances and events described in such Risk Factors could result in significant adverse effects on our financial position, results of operations and cash flows.
