The principal business activity of the corporation was the development of an e-commerce web site and an e-commerce virtual department store. During 2001 the activity was discontinued and its remaining assets and related liabilities were transferred and the Company has remained inactive since that date.

The Company is a development stage company.

After 2001, the Company has been engaged in seeking viable business opportunities.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Accounting Methods

The Company recognizes income and expenses based on the accrual method of accounting.

Dividend Policy

The Company has not adopted a policy regarding payment of dividends.

Income Taxes

The Company utilizes the liability method of accounting for income taxes. Under the liability method deferred tax assets and liabilities are determined based on the differences between financial reporting and the tax bases of the assets and liabilities and are measured using the enacted tax rates and laws that will be in effect, when the differences are expected to reverse. An allowance against deferred tax assets is recognized, when it is more likely than not, that such tax benefits will not be realized.

On June 30, 2007, the Company did not have a net operating loss available for carry forward.

Financial Instruments

The carrying amounts of financial instruments are considered by management to be their estimated fair values due to their short term maturities.

Basic and Diluted Net Income (Loss) Per Share

Basic net income (loss) per share amounts are computed based on the weighted average number of shares actually outstanding. Diluted net income (loss) per share amounts are computed using the weighted average number of common shares and common equivalent shares outstanding as if shares had been issued on the exercise of any common share rights unless the exercise becomes antidilutive and then only the basic per share amounts are shown in the report.

Concentration of Credit Risk

There are no financial instruments that potentially subject the Company to significant concentration of credit risks.

Estimates and Assumptions

Management uses estimates and assumptions in preparing financial statements in accordance with accounting principles generally accepted in the United States of America. Those estimates and assumptions affect the reported amounts of the assets and liabilities, the disclosure of contingent assets and liabilities, and the reported revenues and expenses. Actual results could vary from the estimates that were assumed in preparing these financial statements.

Other Recent Accounting Pronouncements

The Company does not expect that the adoption of other recent accounting pronouncements will have a material impact on its financial statements.

The note has been partially paid during 2006 by the issuance of 2,160,000 common shares and 2,094,000 shares until June 30, 2007. Subsequent to June 30, 2007 another 1,422,500 shares were issued.

4. ACCOUNTS PAYABLE

The Statute of Limitations has run on a substantial part of the accounts payable.

5. OBLIGATION TO ISSUE COMMON STOCK

The Company has an obligation, thru a private placement, to issue restricted common stock to various non-affiliated parties. The subscription agreement provides for the purchase of Units at \$0.75 per Unit. Each Unit consists of one share of restricted common stock and one Common Stock Purchase Warrant. Subsequent to June 30, 2007 the Company issued 1,422,500 common shares as additional payment on the note payable reported under note 3. 20,000,000 restricted common stock has been cancelled during November 2007.

8. GOING CONCERN

The Company does not have the necessary working capital to service its debt and for its planned activity, which raises substantial doubt about its ability to continue as a going concern. Continuation of the Company as a going concern is dependent upon obtaining additional working capital and the management of the Company has developed a strategy, which it believes will accomplish this objective through settlement of its debt by the issuance of common shares, loans from related parties, and equity funding which will enable the Company to conduct operations for the coming year.

Table of Contents

During 2006, we changed our name to Fintech Group, Inc. and subsequently in February of 2007 to Capital Markets Technologies, Inc. to reflect our current focus. We are a financial technology solutions company providing innovative solutions to global financial institutions and major corporations. The company currently is operating in Chicago, and with its proposed acquisition of Simplex Consulting will operate out of London, England as well. We were founded initially to capitalize on the estimated US\$30 billion financial technology market opportunity which management believes exists within Europe between 2007 – 2010. Our management has an aggressive acquisitions strategy focusing on companies which are well positioned to take advantage of the paradigm shift occurring in the financial technology markets under the European Union regulatory directives: MiFID (Markets in Financial Instruments Directive) and SEPA (Single Euro Payments Area).

The Company has an obligation, thru a private placement, to issue restricted common stock to various non-affiliated parties. The subscription agreement provides for the purchase of Units at a price of \$0.75 per Unit. Each Unit consists of one share of restricted common stock and one Common Stock Purchase Warrant. The Common Stock Purchase Warrants are detachable and may be redeemed for one additional share of common stock at a price of \$1.50 per share, beginning two years from date of purchase. The offer and sale of such securities was effected in reliance on the exemptions for sales of securities not involving a public offering, as set forth in Rule 506 promulgated under the Securities Act of 1933 and in Section 4(2) of the Securities Act of 1933, based on the following: (a) the investors confirmed to us that they were accredited investors, as defined in Rule 501 of Regulation D promulgated under the Securities Act of 1933 and had such background, education and experience in financial and business matters as to be able to evaluate the merits and risks of an investment in the securities; (b) there was no public offering or general solicitation with respect to the offering; (c) the investors were provided with certain disclosure materials and all other information requested with respect to our company; (d) the investors acknowledged that all securities being purchased were restricted securities for purposes of the Securities Act of 1933, and agreed to transfer such securities only in a transaction registered under the Securities Act of 1933 or exempt from registration under the Securities Act; and (e) upon issuance, a legend will be placed on the certificates representing each such security stating that it was restricted and could only be transferred if subsequent registered under the Securities Act of 1933 or transferred in a transaction exempt from registration under the Securities Act.

Other Considerations

There are numerous factors that affect the business and the results of its operations. Sources of these factors include general economic and business conditions, federal and state regulation of business activities, the level of demand for product services, the level and intensity of competition and the ability to develop new services based on new or evolving technology and the market's acceptance of those new services, the Company's ability to timely and effectively manage periodic product transitions, the services, customer and geographic sales mix of any particular period, and our ability to continue to improve our infrastructure including personnel and systems to keep pace with the Company's anticipated rapid growth.

Item 3. Controls and Procedures.
