EBITDA and Adjusted EBITDA

**EBITDA and Adjusted EBITDA**

EBITDA and Adjusted EBITDA, as presented herein, are supplemental measures of the Company's performance that are not required by, or presented in accordance with, generally accepted accounting principles in the United States (GAAP). They are not measurements of the Company's financial performance under GAAP and should not be considered as alternatives to revenues, net income (loss) or any other performance measures derived in accordance with GAAP or as alternatives to cash flow from operating activities as measures of the Company's liquidity.

EBITDA is defined as net income (loss), plus interest expense net of interest income, income tax provision (benefit), depreciation and amortization. The Company calculates Adjusted EBITDA by adjusting EBITDA for the items of income and expense and expected incremental revenue and cost savings as described in the Company's \$1,865 million senior credit facility. Consolidated EBITDA for the quarters ending March 31, 2006, June 30, 2006, September 30, 2006 and December 31, 2006 was \$102.9 million, \$99.4 million, \$88.1 million and \$80.4 million, respectively. Management believes that the inclusion of supplementary adjustments to EBITDA applied in presenting Adjusted EBITDA is appropriate to provide additional information to investors about certain covenants required pursuant to the Company's senior credit facilities and the notes. EBITDA and Adjusted EBITDA measures have limitations as analytical tools, and should not be considered in isolation, or as a substitute for analysis of the results as reported under GAAP. These measures may not be comparable to similarly titled measures reported by other companies.

Certain of the Company's loan covenant calculations require financial results for the most recent four consecutive fiscal quarters, with combined results for ADESA and IAAI prior to the merger. The calculation of Adjusted EBITDA (per the credit agreement) for the last twelve months ended December 31, 2007, presented below, includes a pro forma adjustment for anticipated cost savings related to the merger totaling \$10.5 million net of realized cost savings. The adjustment relates to anticipated costs savings for redundant selling, general and administrative costs for the salvage operations. The following table reconciles EBITDA and Adjusted EBITDA for the periods presented:

Pro Forma Segment Operating Results

(In millions) (Unaudited)

The following unaudited pro forma condensed segment results of operations for the year ended December 31, 2007 are based on ADESA and IAAI's unaudited financial statements for the periods from January 1, 2007 to April 19, 2007 and KAR Holdings' unaudited financial statements for the period from January 1, 2007 to December 31, 2007, as adjusted to combine the financial statements of ADESA Impact and IAAI on a historical basis and to illustrate the estimated pro forma effects of the merger transactions as if they had been consummated on January 1, 2006. The unaudited pro forma condensed segment results of operations for the year ended December 31, 2006 give effect to the merger transactions as if they had been consummated on January 1, 2006. KAR Holdings had no operations during the period of January 1, 2007 to April 19, 2007.

The unaudited pro forma adjustments are based upon available information and certain assumptions that the Company believes are reasonable under the circumstances. The unaudited pro forma segment operating results do not purport to represent what results of operations would have been had the merger transactions actually occurred on the date indicated and they do not purport to project results for any future period. All pro forma adjustments are described more fully in the notes to the pro forma reconciliations.
