Slide 16

Our message to BHP Billiton shareholders

BHP Billiton is a strong company today and will be with or without Rio Tinto

A superior track record of delivering shareholder value

A deep and diversified portfolio of resources assets

Excellent management of those assets

Genuinely global operating capability

Our strategy is clear and has been stable since 2001

The offer is structured to deliver to BHP Billiton shareholders a fair value uplift

Unlocks unique value for both groups of shareholders because of the quantified synergies and other benefits

These benefits are not available to Rio Tinto shareholders or BHP Billiton shareholders on a standalone basis

The offer is compelling

Slide 20

Legitimate questions for Rio Tinto shareholders

Assuming a satisfactory regulatory outcome, Rio Tinto shareholders will be faced with 2 choices:

Accept BHP Billiton's offer, which is priced at a 45% premium to the pre-

approach trading valuations of the two companies; or

Reject BHP Billiton's offer, and require the Rio Tinto board to deliver this value on a standalone basis

Rio Tinto shareholders will have 2 legitimate questions to ask of their Board

On  
what  
grounds  
does  
the  
board  
justify  
rejecting  
the  
45%  
premium  
value  
uplift plus pro rata share of synergies uplift, implied by BHP Billiton's offer?

How does the Rio Tinto Board propose to deliver to its shareholders this value that shareholders may forego by the Rio Tinto Board refusing to engage with BHP Billiton?

Remember this is about relative value not absolute value
