BOSTON PROPERTIES, INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

1. Organization

Boston Properties, Inc. (the Company), a Delaware corporation, is a self-administered and self-managed real estate investment trust (REIT). The Company is the sole general partner of Boston Properties Limited Partnership (the Operating Partnership) and at September 30, 2008 owned an approximate 84.1% (84.2% at September 30, 2007) general and limited partnership interest in the Operating Partnership. Partnership interests in the Operating Partnership are denominated as common units of partnership interest (also referred to as OP Units), long term incentive units of partnership interest (also referred to as LTIP Units) or preferred units of partnership interest (also referred to as Preferred Units). In addition, in February 2008, the Company issued LTIP Units in connection with the granting to employees of 2008 outperformance awards (also referred to as 2008 OPP Units). Because the rights, preferences and privileges of 2008 OPP Units differ from other LTIP Units granted to employees as part of the annual compensation process, unless specifically noted otherwise, all references to LTIP Units exclude 2008 OPP Units. For a complete description of the terms of the 2008 OPP Units (See Note 13).

Unless specifically noted otherwise, all references to OP Units exclude units held by the Company. A holder of an OP Unit may present such OP Unit to the Operating Partnership for redemption at any time (subject to restrictions agreed upon at the time of issuance of OP Units to particular holders that may restrict such redemption right for a period of time, generally one year from issuance). Upon presentation of an OP Unit for redemption, the Operating Partnership must redeem such OP Unit for cash equal to the then value of a share of common stock of the Company (Common Stock). In lieu of a cash redemption, the Company may elect to acquire such OP Unit for one share of Common Stock. Because the number of shares of Common Stock outstanding at all times equals the number of OP Units that the Company owns, one share of Common Stock is generally the economic equivalent of one OP Unit, and the quarterly distribution that may be paid to the holder of an OP Unit equals the quarterly dividend that may be paid to the holder of a share of Common Stock. An LTIP Unit is generally the economic equivalent of a share of restricted common stock of the Company. LTIP Units, whether vested or not, will receive the same quarterly per unit distributions as OP Units, which equal per share dividends on Common Stock (See Note 13).

At September 30, 2008, there was one series of Preferred Units outstanding (i.e., Series Two Preferred Units). The Series Two Preferred Units bear a distribution that is set in accordance with an amendment to the partnership agreement of the Operating Partnership. Preferred Units may also be converted into OP Units at the election of the holder thereof or the Operating Partnership in accordance with the amendment to the partnership agreement (See Note 9).

All references herein to the Company refer to Boston Properties, Inc. and its consolidated subsidiaries, including the Operating Partnership, collectively, unless the context otherwise requires.

Properties

At September 30, 2008, the Company owned or had interests in a portfolio of 146 commercial real estate properties (compared to 139 and 138 properties at December 31, 2007 and September 30, 2007, respectively) (the Properties) aggregating approximately 48.5 million net rentable square feet (compared to approximately 43.8 million and 44.1 million net rentable square feet at December 31, 2007 and September 30, 2007, respectively), including 14 properties under construction totaling approximately 4.4 million net rentable square feet, and structured parking for approximately 32,542 vehicles containing approximately 10.3 million square feet. At September 30, 2008, the Properties consist of:

- 142 office properties, including 122 Class A office properties (including 14 properties under construction) and 20 Office/Technical properties;

BOSTON PROPERTIES, INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

- one hotel; and
- three retail properties.

The Company owns or controls undeveloped land parcels totaling approximately 583.0 acres. In addition, the Company has a minority interest in the Boston Properties Office Value-Added Fund, L.P. (the Value-Added Fund), which is a strategic partnership with two institutional investors through which the Company has pursued the acquisition of value-added investments in assets within its existing markets. The Company s investments through the Value-Added Fund are not included in its portfolio information or any other portfolio level statistics. At September 30, 2008, the Value-Added Fund had investments in 26 buildings comprised of an office property in Chelmsford, Massachusetts and office complexes in San Carlos, California and Mountain View, California.

The Company considers Class A office properties to be centrally located buildings that are professionally managed and maintained, that attract high-quality tenants and command upper-tier rental rates, and that are modern structures or have been modernized to compete with newer buildings. The Company considers Office/Technical properties to be properties that support office, research and development, laboratory and other technical uses.

2. Basis of Presentation and Summary of Significant Accounting Policies

Boston Properties, Inc. does not have any other significant assets, liabilities or operations, other than its investment in the Operating Partnership, nor does it have employees of its own. The Operating Partnership, not Boston Properties, Inc., executes all significant business relationships. All majority-owned subsidiaries and affiliates over which the Company has financial and operating control and variable interest entities (VIE s) in which the Company has determined it is the primary beneficiary are included in the consolidated financial statements. All significant intercompany balances and transactions have been eliminated in consolidation. The Company accounts for all other unconsolidated joint ventures using the equity method of accounting. Accordingly, the Company s share of the earnings of these joint ventures and companies is included in consolidated net income.

The accompanying interim financial statements are unaudited; however, the financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and in conjunction with the rules and regulations of the Securities and Exchange Commission. Accordingly, they do not include all of the disclosures required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of management, all adjustments (consisting solely of normal recurring matters) necessary for a fair statement of the financial statements for these interim periods have been included. The results of operations for the interim periods are not necessarily indicative of the results to be obtained for other interim periods or for the full fiscal year. The year end consolidated balance sheet data was derived from audited financial statements, but does not include all disclosure required by accounting principles generally accepted in the United States of America. These financial statements should be read in conjunction with the Company s financial statements and notes thereto contained in the Company s Annual Report in the Company s Form 10-K for its fiscal year ended December 31, 2007.

Contractual rental revenue is reported on a straight-line basis over the terms of the Company s respective leases. Accrued rental income, as reported on the Company s Consolidated Balance Sheets, represents rental revenue recognized in excess of rent payments earned pursuant to the terms of the individual lease agreements. For the three and nine months ended September 30, 2008, the impact of the straight-line rent adjustment was an approximately $10.2 million decrease in rental revenue and an approximately $13.5 million increase in rental revenue, respectively. The straight-line rent adjustment for these periods included an approximately $21.0 million decrease due to the establishment of reserves for the full amount of the accrued straight-line rent balances associated with the Company s leases in New York City with Lehman Brothers Inc. and the law firm of Heller Ehrman LLP.

BOSTON PROPERTIES, INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

3. Real Estate Activity During the Nine Months Ended September 30, 2008

Acquisitions

On September 26, 2008, the Company acquired from National Public Radio (NPR) its headquarters building at 635 Massachusetts Avenue (the NPR Building) comprised of approximately 211,000 net rentable square feet located in Washington, DC for a purchase price of approximately $119.5 million in cash. In addition, the Company and NPR have entered into a development management agreement pursuant to which the Company will act as development manager for NPR s new headquarters building on NPR-owned land at 1111 North Capitol Street in Washington, DC. NPR and the Company have entered into a lease for the NPR Building for a five-year term at the conclusion of which NPR will occupy its new headquarters. Following the expiration of the lease with NPR, the Company expects to redevelop the NPR Building site into a Class A office property comprised of approximately 450,000 net rentable square feet.

Development

On February 5, 2008, the Company executed 60-year ground leases with The George Washington University for the redevelopment of a site at Pennsylvania Avenue and Washington Circle in the District of Columbia as a mixed-use project comprised of approximately 450,000 square feet of office space and 330,000 square feet of residential space. The Company has commenced construction on the project.

On May 12, 2008, the Company acquired the remaining development rights for its 250 West 55th Street development project located in New York City for an aggregate purchase price of approximately $34.2 million. The acquisition was financed with approximately $19.2 million of cash and the issuance to the selling entity of 150,000 OP Units.

During the nine months ended September 30, 2008, a consolidated joint venture in which the Company has a 50% interest placed in-service 505 9th Street, a 322,000 net rentable square foot Class A office property located in Washington, DC.

During the nine months ended September 30, 2008, the Company partially placed in-service the following development properties:

- 77 CityPoint, a Class A office project with approximately 210,000 net rentable square feet located in Waltham, Massachusetts;

- South of Market, comprised of three Class A office properties aggregating approximately 652,000 net rentable square feet located in Reston, Virginia; and

- One Preserve Parkway, a Class A office project with approximately 183,000 net rentable square feet located in Rockville, Maryland.

Dispositions

On January 7, 2008, the Company transferred at cost Mountain View Research Park and Mountain View Technology Park to its Value-Added Fund for an aggregate of approximately $221.6 million. The Research Park properties are comprised of sixteen Class A office and office/technical properties aggregating approximately 601,000 net rentable square feet located in Mountain View, California. The Technology Park properties are comprised of seven office/technical properties aggregating approximately 135,000 net rentable square feet located in Mountain View, California. In consideration for the transfer, the Company received approximately $98.6 million of cash and a promissory note having a principal amount of $123.0 million. The promissory note bore interest at a fixed rate of 7% per annum and was scheduled to mature in October 2008, subject to extension

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

at the option of the Value-Added Fund until April 2009. On March 27, 2008, the Value-Added Fund repaid $23.0 million of the financing with proceeds from third-party mortgage financing collateralized by the Mountain View Technology Park properties. On May 30, 2008, the Value-Added Fund repaid the remaining $100.0 million of the financing with proceeds from third-party mortgage financing collateralized by the Mountain View Research Park properties.

On April 14, 2008, the Company sold a parcel of land located in Washington, DC for approximately $33.7 million. The Company had previously entered into a development management agreement with the buyer to develop a Class A office property on the parcel totaling approximately 165,000 net rentable square feet. Due to the Company s involvement in the construction of the project, the gain on sale has been deferred and will be recognized over the project construction period generally based on the percentage of total project costs incurred to estimated total project costs. As a result, the Company recognized a gain on sale during the nine months ended September 30, 2008 of approximately $6.8 million (net of minority interest share of approximately $1.2 million).

During the nine months ended September 30, 2008, the Company signed a new qualifying lease for approximately 17,454 net rentable square feet of its remaining 25,409 net rentable square foot master lease obligation related to the 2006 sale of 280 Park Avenue resulting in the recognition of approximately $20.0 million (net of minority interest share of approximately $3.4 million) as additional gain on sale of real estate. The Company had deferred approximately $67.3 million of the gain on sale of 280 Park Avenue, which amount represented the maximum obligation under the master lease. As of September 30, 2008, the remaining master lease obligation totaled approximately $1.3 million.

4. Investments in Unconsolidated Joint Ventures

The investments in unconsolidated joint ventures consist of the following at September 30, 2008:

Entity	**Properties**	**Nominal % Ownership**
Square 407 Limited Partnership	Market Square North	50.0%
The Metropolitan Square Associates LLC	Metropolitan Square	51.0%(1)
BP/CRF 901 New York Avenue LLC	901 New York Avenue	25.0%(2)
WP Project Developer LLC	Wisconsin Place Land and Infrastructure	23.9%(3)(4)
Wisconsin Place Retail LLC	Wisconsin Place Retail	5.0%(3)
Eighth Avenue and 46th Street Entities	Eighth Avenue and 46th Street	50.0%(3)
Boston Properties Office Value-Added Fund, L.P.	300 Billerica Road, One & Two Circle Star Way and Mountain View Research and Technology Parks	36.9%(2)(5)
Annapolis Junction NFM, LLC	Annapolis Junction	50.0%(3)
767 Venture, LLC	The General Motors Building	60.0%(1)
2 GCT Venture, LLC	Two Grand Central Tower	60.0%(1)
540 Madison Venture, LLC	540 Madison Avenue	60.0%(1)
125 West 55th Street Venture, LLC	125 West 55th Street	60.0%(1)

(1) The Company has determined that these entities are not VIEs and that its joint venture partners have substantive participating rights with respect to the assets and operations of the properties, pursuant to the joint venture agreements.
(2) The Company s economic ownership can increase based on the achievement of certain return thresholds.
(3) These properties have been partially placed in-service or are not in operation (i.e., under construction or assembled land).

BOSTON PROPERTIES, INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(4) Represents the Company s effective ownership interest. The Company has a 66.67%, 5% and 0% interest in the office, retail and residential joint venture entities, respectively, which each own a 33.33% interest in the entity developing and owning the land and infrastructure of the project.

(5) Represents the Company s effective ownership interest. The Company has a 25.0% interest in the 300 Billerica Road and One & Two Circle Star Way properties and a 39.5% interest in the Mountain View Research and Technology Park properties.

Certain of the Company s joint venture agreements include provisions whereby, at certain specified times, each partner has the right to initiate a purchase or sale of its interest in the joint ventures at an agreed upon fair value. Under these provisions, the Company is not compelled to purchase the interest of its outside joint venture partners.

On January 7, 2008, the Company transferred at cost Mountain View Research Park and Mountain View Technology Park to its Value-Added Fund for an aggregate of approximately $221.6 million. The Research Park properties are comprised of sixteen Class A office and office/technical properties aggregating approximately 601,000 net rentable square feet located in Mountain View, California. The Technology Park properties are comprised of seven office/technical properties aggregating approximately 135,000 net rentable square feet located in Mountain View, California. In consideration for the transfer, the Company received approximately $98.6 million of cash and a promissory note having a principal amount of $123.0 million. The promissory note bore interest at a fixed rate of 7% per annum and was scheduled to mature in October 2008, subject to extension at the option of the Value-Added Fund until April 2009. In connection with the transfer of the Research Park and Technology Park properties to the Value-Added Fund, the Company and its partners agreed to certain modifications to the Value-Added Fund s original terms, including bifurcating the Value-Added Fund s promote structure such that Research Park and Technology Park will be accounted for separately from the non-Mountain View properties owned by the Value-Added Fund (i.e., Circle Star and 300 Billerica Road). As a result of the modifications, the Company s interest in the Mountain View properties is approximately 39.5% and its interest in the non-Mountain View properties is 25%. This investment completes the investment commitments for new properties from the Value-Added Fund partners.

On March 27, 2008, the Value-Added Fund obtained third-party mortgage financing totaling $26.0 million (of which $24.0 million has been disbursed as of September 30, 2008) collateralized by the Mountain View Technology Park properties. The third-party mortgage financing bears interest at a variable rate equal to LIBOR plus 1.50% per annum and matures on March 31, 2011 with two, one-year extension options. The proceeds of the third-party mortgage financing were used to repay $23.0 million of the financing provided by the Company. On June 12, 2008, the Value-Added Fund entered into an interest rate swap contract related to the mortgage loan collateralized by the Mountain View Technology Park properties with a notional amount of $24.0 million to fix the one-month LIBOR index rate at 4.085% per annum through maturity on March 31, 2011.

On May 30, 2008, the Company s Value-Added Fund obtained mortgage financing totaling $120.0 million (of which $103.0 million was drawn at closing, with the remaining $17.0 million available to fund future tenant and capital costs) collateralized by the Mountain View Research Park properties. The mortgage financing bears interest at a variable rate equal to LIBOR plus 1.75% per annum and matures on May 31, 2011 with two, one-year extension options. The Value-Added Fund entered into three interest rate swap contracts with notional amounts aggregating $103.0 million to fix the one-month LIBOR index rate at 3.63% per annum through April 1, 2011. The proceeds of the mortgage financing were used to repay the remaining $100.0 million of financing provided by the Company. During the three months ended September 30, 2008, the Company s Value-Added Fund obtained draws aggregating approximately $0.8 million to fund tenant and capital costs.

On January 29, 2008, the Wisconsin Place joint venture entity that owns and is developing the land and infrastructure components of the project (the Land and Infrastructure Entity) (a joint venture entity in which

BOSTON PROPERTIES, INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

the Company owns an effective interest of approximately 23.89%) executed a second amendment to its construction loan agreement. The construction financing consisted of a $69.1 million commitment, bearing interest at a per annum variable rate equal to LIBOR plus 1.50% and maturing on March 11, 2009. The outstanding balance on the construction loan was approximately $52.6 million on the $69.1 million commitment. The amended agreement provides for a reduction in the loan commitment amount to $36.9 million. The reduction relates to the repayment of the office portion of the outstanding balance totaling approximately $24.9 million and an additional reduction in the borrowing capacity of approximately $7.3 million with a corresponding release of collateral in conjunction with the Wisconsin Place joint venture entity that owns and is developing the office component of the project (a consolidated joint venture entity in which the Company owns a 66.67% interest) obtaining new construction financing for its project. On April 29, 2008, the Land and Infrastructure Entity repaid the balance of the construction loan totaling approximately $29.4 million. The repayment relates to the repayment of the residential portion of the outstanding balance in conjunction with the Wisconsin Place joint venture entity that owns and is developing the residential component of the project (a joint venture entity in which the Company does not own an interest) obtaining new construction financing for its project.

On June 9, 2008, the Company completed the acquisition of the General Motors Building in New York City for a purchase price of approximately $2.8 billion. The General Motors Building is an approximately 2,000,000 rentable square foot office building located at the corner of 5th Avenue and Central Park South in New York City. The acquisition was completed through a joint venture among the Company, US Real Estate Opportunities I, L.P., which is a partnership managed by Goldman Sachs, and Meraas Capital LLC, a Dubai-based private equity firm. The Company has a 60% interest in the venture and provides customary property management and leasing services for the venture. The purchase price consisted of approximately $890 million of cash, the issuance to the selling entity of 102,883 OP Units and the assumption of approximately $1.9 billion of secured and mezzanine loans having a weighted average fixed interest rate of 5.97% per annum, all of which mature in October 2017. In addition, the venture acquired the lenders interest in a portion of the assumed mezzanine loans having an aggregate principal amount of $294.0 million and a stated interest rate of 6.02% per annum for a purchase price of approximately $263.1 million in cash. The purchase price was financed in part with loans from the venture s partners on a pro rata basis totaling $450.0 million, which bear interest at a fixed rate of 11.0% per annum and mature on June 9, 2017. The Company s share of the partner loans totaling $270.0 million has been reflected in Related Party Note Receivable on the Company s Consolidated Balance Sheets. The Company has eliminated interest income from its partner loan totaling approximately $9.5 million. In connection with the closing, the Company and the joint venture entered into a tax protection agreement with the seller that restricts the joint venture s ability to sell the General Motors Building in a taxable transaction and requires the Company and the joint venture to maintain certain amounts of indebtedness associated with the property and its acquisition for a period of up to nine years.

The following table summarizes the allocation of the purchase price, in accordance with SFAS No. 141, for the General Motors Building at the date of acquisition (in thousands).

Land	$ 1,139,394
Building and improvements	1,957,257
Tenant improvements	76,384
Tenant leasing costs	574,004
Below market assumed debt adjustment	101,395
Below market rents	(1,057,256)
Total aggregate purchase price	$ 2,791,178
Less: Indebtedness assumed, net	(1,606,000)
Net assets acquired	$ 1,185,178

BOSTON PROPERTIES, INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

On August 12, 2008, the Company completed the acquisitions of 540 Madison Avenue and Two Grand Central Tower located in New York City, New York for an aggregate purchase price of approximately $705.0 million. 540 Madison Avenue is a 39-story building located at Madison Avenue at 55th Street that contains approximately 292,000 rentable square feet. Two Grand Central Tower is a 44-story mid-block tower that runs from 44th to 45th Street between Lexington and Third Avenue and contains approximately 664,000 rentable square feet. On August 13, 2008, the Company completed the acquisition of 125 West 55th Street also located in New York City, New York for a purchase price of approximately $444.0 million. 125 West 55th Street is a 23-story building, spanning from 55th to 56th Street between Avenue of the Americas and Seventh Avenue, that contains approximately 591,000 rentable square feet. Each acquisition was completed through a joint venture among the Company, US Real Estate Opportunities I, L.P., which is a partnership managed by Goldman Sachs, and Meraas Capital LLC, a Dubai-based private equity firm. The Company has a 60% interest in each venture and provides customary property management and leasing services for the ventures. The acquisitions were financed with cash contributions from the ventures partners aggregating approximately $575.6 million and the assumption of approximately $573.4 million of secured and mezzanine loans. The carrying value of the debt that was assumed as part of the transactions consists of the following:

540 Madison Avenue two secured loans having an aggregate principal amount of $119.9 million and a weighted-average fixed interest rate of 5.20% per annum, each of which matures in July 2013;

Two Grand Central Tower a $190.0 million secured loan having a fixed interest rate of 5.10% per annum, which matures in July 2010; and

125 West 55th Street - $263.5 million of secured and mezzanine loans having a weighted-average fixed interest rate of 6.25% per annum, all of which mature in March 2010.

The following table summarizes the allocation of the aggregate purchase prices, in accordance with SFAS No. 141, for 540 Madison Avenue, Two Grand Central Tower and 125 West 55th Street, at the date of acquisition (in thousands).

Land	$ 375,273
Building and improvements	760,431
Tenant improvements	24,242
Tenant leasing costs	88,940
Below market assumed debt adjustment	14,419
Below market rents	(107,395)
Total aggregate purchase price	$ 1,155,910
Less: Indebtedness assumed, net	(573,433)
Net assets acquired	$ 582,477

Includes above and below market rent adjustments of $40.8 million and $(0.7) million for the three months ended September 30, 2008 and 2007, respectively, and $47.4 million and $(2.5) million for the nine months ended September 30, 2008 and 2007, respectively.

BOSTON PROPERTIES, INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

5. Mortgage Notes Payable

On January 29, 2008, the Wisconsin Place joint venture entity that owns and is developing the office component of the project (a consolidated joint venture entity in which the Company owns a 66.67% interest) obtained construction financing totaling $115.0 million collateralized by the office property. Wisconsin Place is a mixed-use development project consisting of office, retail and residential properties located in Chevy Chase, Maryland. The construction financing bears interest at a variable rate equal to LIBOR plus 1.25% per annum and matures on January 29, 2011 with two, one-year extension options.

On February 1, 2008, the Company used available cash to repay the mortgage loan collateralized by its Reston Corporate Center property located in Reston, Virginia totaling approximately $20.5 million. There was no prepayment penalty associated with the repayment. The mortgage loan bore interest at a fixed rate of 6.56% per annum and was scheduled to mature on May 1, 2008.

On April 1, 2008, the Company used available cash to repay the mortgage loan collateralized by its Prudential Center property located in Boston, Massachusetts totaling approximately $258.2 million. There was no prepayment penalty associated with the repayment. The mortgage loan bore interest at a fixed rate of 6.72% per annum and was scheduled to mature on July 1, 2008.

On June 19, 2008, the Company obtained construction financing totaling $65.0 million collateralized by its Democracy Tower (formerly South of Market Phase II) development project located in Reston, Virginia. The Democracy Tower development project consists of a Class A office property with approximately 225,000 net rentable square feet. The construction financing bears interest at a variable rate equal to LIBOR plus 1.75% per annum and matures on December 19, 2010 with two one-year extension options.

On September 10, 2008, the Company used available cash to repay the mortgage loan collateralized by its One and Two Embarcadero Center properties located in San Francisco, California totaling approximately $274.8 million. There was no prepayment penalty associated with the repayment. The mortgage loan bore interest at a fixed rate of 6.74% per annum and was scheduled to mature on December 10, 2008.

During 2007, the Company commenced an interest rate hedging program for its expected financing activity in 2008 and entered into 11 treasury locks based on a weighted-average 10-year treasury rate of 4.68% per annum on notional amounts aggregating $375.0 million. Nine of the treasury locks with notional amounts aggregating $325.0 million matured on April 1, 2008, at which time the Company cash-settled the contracts and made cash payments to the counterparties totaling approximately $33.5 million. The remaining two treasury locks with notional amounts aggregating $50.0 million matured on July 31, 2008, at which time the Company cash-settled the contracts and made cash payments to the counterparties totaling approximately $1.3 million. In addition, the Company entered into five forward-starting interest rate swap contracts to lock the 10-year LIBOR swap rate on notional amounts aggregating $150.0 million at a weighted-average forward-starting 10-year swap rate of 5.19% per annum. The 10-year treasury rate is a component of the 10-year swap rate and the swap contracts effectively fixed the 10-year treasury rate at a weighted-average interest rate of 4.51% per annum. The swap contracts went into effect on July 31, 2008 and were to expire on July 31, 2018. On July 31, 2008 and September 2, 2008, the Company cash-settled its forward-starting interest rate swap contracts and made aggregate cash payments to the counterparties totaling approximately $8.6 million. Collectively, all of the foregoing contracts were intended to have effectively fixed the 10-year treasury rate at a weighted-average interest rate of 4.63% per annum on notional amounts aggregating $525.0 million. The Company entered into the treasury locks and interest rate swap contracts designated and qualifying as cash flow hedges to reduce its exposure to the variability in future cash flows attributable to changes in the hedged rate in contemplation of obtaining ten-year fixed-rate financings in 2008. In addition, during 2007, the Company entered into an interest

BOSTON PROPERTIES, INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

rate swap to fix the one-month LIBOR index rate at 4.57% per annum on a notional amount of $96.7 million. This interest rate swap went into effect on October 22, 2007 and expired on October 29, 2008.

SFAS No. 133, Accounting for Derivative Instruments and Hedging Activities (SFAS No. 133), as amended and interpreted, establishes accounting and reporting standards for derivative instruments. The Company has formally documented all of its relationships between hedging instruments and hedged items, as well as its risk-management objective and strategy for undertaking various hedge transactions. The Company also assesses and documents, both at the hedging instrument s inception and on an ongoing basis, whether the derivatives that are used in hedging transactions are highly effective in offsetting changes in cash flows associated with the hedged items. All components of the treasury locks and forward-starting interest rate swap contracts were included in the assessment of hedge effectiveness. During the nine months ended September 30, 2008, the Company modified the estimated dates with respect to its anticipated financings under the interest rate hedging program. As a result, the Company recognized a net derivative loss of approximately $3.2 million representing the partial ineffectiveness of the interest rate contracts. In addition, on September 9, 2008, the Company executed an interest rate lock agreement with lenders at an all-in fixed rate, inclusive of the credit spread, of 6.10% per annum for an eight-year, $375.0 million loan collateralized by its Four Embarcadero Center property located in San Francisco, California. The Company s interest rate hedging program contemplated a financing with a ten-year term and, as a result, under SFAS No. 133, the Company recognized a net derivative loss of approximately $6.6 million representing the partial ineffectiveness of its interest rate contracts. The Company has recorded the changes in fair value of the treasury lock and swap contracts related to the effective portion totaling approximately $33.6 million at September 30, 2008 in Accumulated Other Comprehensive Loss within the Company s Consolidated Balance Sheets. Based on interest rates in effect as of September 30, 2008 and assuming the Company completes financing transactions in accordance with its current plans, the Company expects that within the next twelve months it will reclassify into earnings as an increase in interest expense approximately $3.5 million of the $33.6 million recorded within Accumulated Other Comprehensive Loss relating to the treasury locks and forward-starting interest rate swap contracts.

6. Unsecured Exchangeable Senior Notes

3.625% Exchangeable Senior Notes due 2014

On August 19, 2008, the Company s Operating Partnership completed an offering of $747.5 million in aggregate principal amount (including $97.5 million as a result of the exercise by the initial purchasers of their over-allotment option) of its 3.625% exchangeable senior notes due 2014. The notes were priced at 99.0% of their face amount, resulting in aggregate net proceeds to the Company, after deducting the initial purchasers discounts and offering expenses, of approximately $731.6 million, resulting in an effective interest rate of approximately 4.057% per annum. The notes mature on February 15, 2014, unless earlier repurchased, exchanged or redeemed.

On and after January 1, 2014, the notes will be exchangeable at any time prior to the close of business on the second scheduled trading day immediately preceding the maturity date at the option of the holders into cash up to their principal amount and, at the Operating Partnership s option, cash or shares of the Company s common stock for the remainder, if any, of the exchange value in excess of such principal amount at the applicable exchange rate, which initially equals 8.5051 shares of the Company s common stock per $1,000 principal amount of the notes (equivalent to an exchange price of approximately $117.58 per share of the Company s common stock) and is subject to adjustment in certain circumstances. The initial exchange price of approximately $117.58 per share of the Company s common stock represents an approximately 20% premium to the closing price of the Company s common stock on the New York Stock Exchange on August 13, 2008 of $97.98 per share. Prior to the close of business on the scheduled trading day immediately preceding January 1, 2014, holders of the notes

BOSTON PROPERTIES, INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

may only exchange their notes at their option under the following circumstances: (1) during the five business day period after any 10 consecutive trading day period (the measurement period) in which the trading price per $1,000 principal amount of notes for each trading day of that measurement period was less than 98% of the product of the last reported sale price of the Company s common stock and the exchange rate on each such day; (2) during any fiscal quarter beginning after the fiscal quarter ended September 30, 2008 if the last reported sale price of the Company s common stock for each of at least 20 trading days in the 30 consecutive trading days ending on, and including, the last day of the preceding fiscal quarter is more than 130% of the applicable exchange price for the notes on the last day of such preceding fiscal quarter; (3) if the Operating Partnership has called such notes for redemption to preserve the Company s status as a real estate investment trust and the redemption has not yet occurred; (4) in connection with specified corporate transactions, including a fundamental change; or (5) if the Company s common stock is delisted. The notes may be accelerated upon an event of default as described in Supplemental Indenture No. 7.

If the Company undergoes a fundamental change, holders of the notes will have the option to require the Operating Partnership to purchase all or any portion of the notes at a purchase price equal to 100% of the principal amount of the notes to be purchased plus any accrued and unpaid interest to, but excluding, the fundamental change repurchase date. The Operating Partnership will pay cash for all notes so repurchased. The holders of the notes will have the right to exchange their notes at their option in connection with a fundamental change, and, if a fundamental change occurs, the exchange rate may be increased by up to 1.7011 shares of the Company s common stock per $1,000 principal amount of the notes, subject to adjustment in certain circumstances, for a holder who elects to exchange its notes in connection with the fundamental change. The number of additional shares by which the exchange rate will be increased will be determined by reference to a table included in Supplemental Indenture No. 7, based on the date on which the fundamental change occurs or becomes effective and the price paid per share of the Company s common stock in the transaction or event that constitutes such fundamental change. A fundamental change will be deemed to occur upon the consummation of any transaction or event (whether by means of an exchange offer, liquidation, tender offer, consolidation, merger, combination, reclassification, recapitalization or otherwise) in connection with which more than 50% of the Company s common stock is exchanged for, converted into, acquired for or constitutes solely the right to receive, consideration which is not at least 90% common stock (or American Depositary Shares representing shares of common stock) that is either (1) listed on, or immediately after consummation of such transaction or event will be listed on, a United States national securities exchange; or (2) approved, or immediately after the transaction or event will be approved, for listing or quotation on any United States system of automated dissemination of quotations of securities prices similar to a United States national securities exchange.

The notes are senior unsecured obligations of the Operating Partnership and rank equally in right of payment to all existing and future senior unsecured indebtedness and senior in right of payment to any future subordinated indebtedness of the Operating Partnership. The notes effectively rank junior in right of payment to all existing and future secured indebtedness of the Operating Partnership to the extent of the value of the collateral securing such indebtedness. The notes are structurally subordinated to all liabilities of the subsidiaries of the Operating Partnership.

The Company offered and sold the notes to the initial purchasers in reliance on the exemption from registration provided by Section 4(2) of the Securities Act of 1933. The initial purchasers then sold the notes to qualified institutional buyers pursuant to the exemption from registration provided by Rule 144A under the Securities Act. The Company relied on these exemptions from registration based in part on representations made by the initial purchasers.

In connection with the closing, the Company and the Operating Partnership entered into a Registration Rights Agreement (the Registration Rights Agreement) with the initial purchasers. Under the Registration

BOSTON PROPERTIES, INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Rights Agreement, the Company and the Operating Partnership have agreed, for the benefit of the holders of the notes, to register the resale of the Company s common stock, if any, issued upon exchange of the notes on a shelf registration statement filed with the Securities and Exchange Commission. The Company and the Operating Partnership may be required to pay liquidated damages of up to 0.50% per annum of additional interest to the holders of the notes if the Company and the Operating Partnership fail to meet certain deadlines or take certain actions relating to the registration of the Company s common stock issuable upon exchange of the notes. Neither the Company nor the Operating Partnership will be required to pay liquidated damages with respect to any note after it has been exchanged. Additionally, pursuant to Supplemental Indenture No. 7, to the extent that any shares of the Company s common stock issued upon exchange of the notes are not covered by a resale registration statement that is effective on the date of the exchange and certain other conditions have been met, the Company must deliver 0.03 additional shares of the Company s common stock upon exchange of the notes for each of such shares.

In connection with the sale of the notes, the Operating Partnership and the Company also entered into capped call transactions (together, the Capped Call Transaction) with affiliates of certain of the initial purchasers (Bank of America, N.A., Deutsche Bank AG, JPMorgan and Morgan Stanley) (the Option Counterparties). Pursuant to the Capped Call Transaction, the Operating Partnership will have the right to cause the Option Counterparties to deliver shares of the Company s common stock to the Operating Partnership upon exchange of the notes if the value per share of the Company s common stock, as measured under the terms of the Capped Call Transaction, at the time of settlement exceeds an initial strike price of approximately $117.58 per share, subject to certain adjustments similar to those contained in the notes. The Capped Call Transaction is intended to reduce the potential dilution upon future exchange of the notes in the event that the market value per share of the Company s common stock, as measured under the terms of the Capped Call Transaction, at the time of settlement is greater than the strike price of the Capped Call Transaction. If the market value per share of the Company s common stock, as measured under the terms of the Capped Call Transaction, at the time of settlement exceeds the cap price of the Capped Call Transaction (which is initially equal to approximately $137.17 per share), the dilution mitigation will be limited and there would be dilution to the extent that the market value per share of the Company s common stock exceeds the cap price. The Capped Call Transaction is expected to have the effect of increasing the effective exchange price to the Operating Partnership of the notes to the cap price of the Capped Call Transaction, which represents an initial effective premium of approximately 40% over the closing price of the Company s common stock on the New York Stock Exchange on August 13, 2008 of $97.98 per share. The Capped Call Transaction comprises separate contracts entered into by the Operating Partnership and the Company with the Option Counterparties and is not part of the terms of the notes and will not affect the holders rights under the notes. The net cost of the Capped Call Transaction was approximately $44.4 million, which was recorded as a reduction to stockholders equity.

7. Unsecured Line of Credit

On June 6, 2008, the Company s Operating Partnership utilized an accordion feature under its unsecured revolving credit facility (the Unsecured Line of Credit) with a consortium of lenders to increase the current lenders total commitment under the Unsecured Line of Credit from $605.0 million to $923.3 million. On July 21, 2008, the Company s Operating Partnership further increased the lenders total commitment from $923.3 million to $1.0 billion. All other material terms under the facility remain unchanged. The Company s Unsecured Line of Credit bears interest at a variable interest rate equal to Eurodollar plus 0.475% per annum and matures on August 3, 2010, with a provision for a one-year extension at the option of the Company, subject to certain conditions. The Unsecured Line of Credit is a recourse obligation of the Company s Operating Partnership. Under the Unsecured Line of Credit, a facility fee equal to 0.125% per annum is payable in quarterly installments. The interest rate and facility fee are subject to adjustment in the event of a change in the Operating Partnership s unsecured debt ratings. The Unsecured Line of Credit involves a syndicate of lenders. The

BOSTON PROPERTIES, INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Unsecured Line of Credit contains a competitive bid option that allows banks that are part of the lender consortium to bid to make loan advances to the Company at a negotiated LIBOR-based rate. The Company had an outstanding balance on the Unsecured Line of Credit of $319.0 million at September 30, 2008.

The terms of the Unsecured Line of Credit require that the Company maintain customary financial and other covenants on an ongoing basis, including: (1) a leverage ratio not to exceed 60%, however, the leverage ratio may increase to no greater than 65% provided that it is reduced back to 60% within 180 days, (2) a secured debt leverage ratio not to exceed 55%, (3) a fixed charge coverage ratio of at least 1.40, (4) an unsecured debt leverage ratio not to exceed 60%, however, the unsecured debt leverage ratio may increase to no greater than 65% provided that it is reduced back to 60% within 180 days, (5) a minimum net worth requirement, (6) an unsecured debt interest coverage ratio of at least 1.75 and (7) limitations on permitted investments, development, partially owned entities, business outside of commercial real estate and commercial non-office properties. At September 30, 2008, the Company was in compliance with each of these financial and other covenant requirements.

8. Commitments and Contingencies

General

In the normal course of business, the Company guarantees its performance of services or indemnifies third parties against its negligence.

The Company has letter of credit and performance obligations of approximately $46.1 million related to lender requirements, acquisition deposits and development requirements.

Certain of the Company s joint venture agreements include provisions whereby, at certain specified times, each partner has the right to initiate a purchase or sale of its interest in the joint ventures. Under these provisions, the Company is not compelled to purchase the interest of its outside joint venture partners.

Insurance

The Company carries insurance coverage on its properties of types and in amounts and with deductibles that it believes are in line with coverage customarily obtained by owners of similar properties. In response to the uncertainty in the insurance market following the terrorist attacks of September 11, 2001, the Federal Terrorism Risk Insurance Act (as amended, TRIA) was enacted in November 2002 to require regulated insurers to make available coverage for certified acts of terrorism (as defined by the statute). The expiration date of TRIA was extended to December 31, 2014 by the Terrorism Risk Insurance Program Reauthorization Act of 2007 (TRIPRA). Prior to TRIPRA, only acts of foreign terrorism could be certified for coverage under TRIA. Under TRIPRA, acts of both foreign and domestic terrorism can be certified for coverage under TRIA. Currently, the Company s property insurance program per occurrence limits are $1.0 billion for its portfolio insurance program, including coverage for both foreign and domestic acts of terrorism certified under TRIA. The Company currently insures certain properties, including the General Motors Building located at 767 Fifth Avenue in New York, New York (767 Fifth Avenue), in separate stand alone insurance programs. The property insurance program per occurrence limits for 767 Fifth Avenue are $1.625 billion, including coverage for both foreign and domestic acts of terrorism certified under TRIA, with $1.375 billion of coverage for losses in excess of $250 million being provided by NYXP, LLC, as a direct insurer. The Company also currently carries nuclear, biological, chemical and radiological terrorism insurance coverage (NBCR Coverage) for both foreign and domestic acts of terrorism certified under TRIA, which is provided by IXP, LLC as a direct insurer, excluding the Company s Value-Added Fund properties. The per occurrence limit for NBCR Coverage is $1.0 billion. Under TRIA, after the payment of the required deductible and coinsurance, the NBCR Coverage is

BOSTON PROPERTIES, INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

backstopped by the Federal Government if the aggregate industry insured losses resulting from a certified act of terrorism exceed a program trigger. The program trigger is $100 million and the coinsurance is 10%. Under TRIPRA, if the Federal Government pays out for a loss under TRIA, it is mandatory that the Federal Government recoup the full amount of the loss from insurers offering TRIA coverage after the payment of the loss pursuant to a formula in TRIPRA. The Company may elect to terminate the NBCR Coverage if the Federal Government seeks recoupment for losses paid under TRIA, if there is a change in its portfolio or for any other reason. The Company intends to continue to monitor the scope, nature and cost of available terrorism insurance and maintain insurance in amounts and on terms that are commercially reasonable.

The Company also currently carries earthquake insurance on its properties located in areas known to be subject to earthquakes in an amount and subject to self-insurance that the Company believes are commercially reasonable. In addition, this insurance is subject to a deductible in the amount of 5% of the value of the affected property. Specifically, the Company currently carries earthquake insurance which covers its San Francisco region with a $120 million per occurrence limit and a $120 million annual aggregate limit, $20 million of which is provided by IXP, LLC, as a direct insurer. The amount of the Company s earthquake insurance coverage may not be sufficient to cover losses from earthquakes. In addition, the amount of earthquake coverage could impact the Company s ability to finance properties subject to earthquake risk. The Company may discontinue earthquake insurance on some or all of its properties in the future if the premiums exceed the Company s estimation of the value of the coverage.

In January 2002, the Company formed a wholly-owned taxable REIT subsidiary, IXP, Inc., to act as a captive insurance company and be one of the elements of the Company s overall insurance program. On September 27, 2006, IXP, Inc. was merged into IXP, LLC, a wholly-owned subsidiary, and all insurance policies issued by IXP, Inc. were cancelled and reissued by IXP, LLC. The term IXP refers to IXP, Inc. for the period prior to September 27, 2006 and to IXP, LLC for the period on and subsequent to September 27, 2006. IXP acts as a direct insurer with respect to a portion of the Company s earthquake insurance coverage for its Greater San Francisco properties and the Company s NBCR Coverage for both foreign and domestic acts of terrorism certified under TRIA. In May 2008, the Company formed a wholly-owned subsidiary, NYXP, LLC (NYXP), to act as a captive insurance company and be one of the elements of the Company s insurance program for 767 Fifth Avenue. NYXP acts as a direct insurer with respect to a portion of the Company s coverage for both foreign and domestic acts of terrorism certified under TRIA for 767 Fifth Avenue. Currently, NYXP only insures losses which exceed the program trigger under TRIA and NYXP reinsures with a third-party insurance company any coinsurance payable under TRIA. Insofar as the Company owns IXP and NYXP, it is responsible for their liquidity and capital resources, and the accounts of IXP and NYXP are part of the Company s consolidated financial statements. In particular, if a loss occurs which is covered by the Company s NBCR Coverage but is less than the applicable program trigger under TRIA, IXP would be responsible for the full amount of the loss without any backstop by the Federal Government. IXP and NYXP would also be responsible for any recoupment charges by the Federal Government in the event losses are paid out and their insurance policies are maintained after the payout by the Federal Government. If the Company experiences a loss and IXP or NYXP are required to pay under their insurance policies, the Company would ultimately record the loss to the extent of the required payment. Therefore, insurance coverage provided by IXP and NYXP should not be considered as the equivalent of third-party insurance, but rather as a modified form of self-insurance.

The mortgages on the Company s properties typically contain requirements concerning the financial ratings of the insurers who provide policies covering the property. The Company provides the lenders on a regular basis with the identity of the insurance companies in the Company s insurance programs. The ratings of some of the Company s insurers are below the rating requirements in some of the Company s loan agreements and the lenders for these loans could attempt to claim an event of default has occurred under the loan. The Company believes it could obtain insurance with insurers which satisfy the rating requirements. Additionally, in the future

BOSTON PROPERTIES, INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

the Company s ability to obtain debt financing secured by individual properties, or the terms of such financing, may be adversely affected if lenders generally insist on ratings for insurers which are difficult to obtain or which result in a commercially unreasonable premium. There can be no assurance that a deficiency in the financial ratings of one or more of the Company s insurers will not have a material adverse effect on the Company.

The Company continues to monitor the state of the insurance market in general, and the scope and costs of coverage for acts of terrorism in particular, but the Company cannot anticipate what coverage will be available on commercially reasonable terms in future policy years. There are other types of losses, such as from wars or the presence of mold at the Company s properties, for which the Company cannot obtain insurance at all or at a reasonable cost. With respect to such losses and losses from acts of terrorism, earthquakes or other catastrophic events, if the Company experiences a loss that is uninsured or that exceeds policy limits, the Company could lose the capital invested in the damaged properties, as well as the anticipated future revenues from those properties. Depending on the specific circumstances of each affected property, it is possible that the Company could be liable for mortgage indebtedness or other obligations related to the property. Any such loss could materially and adversely affect the Company s business and financial condition and results of operations.

9. Minority Interests

Minority interests relate to the interest in the Operating Partnership not owned by the Company and interests in property partnerships not wholly-owned by the Company. As of September 30, 2008, the minority interest in the Operating Partnership consisted of 20,195,785 OP Units, 946,369 LTIP Units, 1,085,861 2008 OPP Units and 1,113,044 Series Two Preferred Units (or 1,460,688 OP Units on an as converted basis) held by parties other than the Company.

The minority interests in property partnerships consist of the outside equity interests in ventures that are consolidated with the financial results of the Company because the Company exercises control over the entities that own the properties. The equity interests in these ventures that are not owned by the Company, totaling approximately $13.3 million at September 30, 2008, are included in Minority Interests on the accompanying Consolidated Balance Sheets.

During the nine months ended September 30, 2008, 344,582 OP Units were presented by the holders for redemption and were redeemed by the Company in exchange for an equal number of shares of Common Stock. The aggregate book value of the OP Units that were redeemed, as measured for each OP Unit on the date of its redemption, was approximately $7.2 million. The difference between the aggregate book value and the purchase price of these OP Units was approximately $17.6 million, which increased the recorded value of the Company s net assets.

On February 5, 2008, the Company issued 1,085,861 2008 OPP Units. Prior to the measurement date on February 5, 2011, 2008 OPP Units will be entitled to receive per unit distributions equal to one-tenth (10%) of the regular quarterly distributions payable on an OP Unit, but will not be entitled to receive any special distributions. After the measurement date, the number of 2008 OPP Units, both vested and unvested, which 2008 OPP award recipients have earned, if any, based on the establishment of an outperformance pool, will be entitled to receive distributions in an amount per unit equal to distributions, both regular and special, payable on an OP Unit. For a complete description of the terms of the 2008 OPP Units (See Note 13).

On May 12, 2008, the Operating Partnership issued 150,000 OP Units to the selling entity as partial consideration for the Company s acquisition of the remaining development rights for its 250 West 55th Street development project located in New York City.

BOSTON PROPERTIES, INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

On June 9, 2008, the Operating Partnership issued 102,883 OP Units to the selling entity as partial consideration for the Company s acquisition of its interest in the General Motors Building located in New York City.

The Preferred Units at September 30, 2008 consisted solely of 1,113,044 Series Two Preferred Units, which bear a preferred distribution equal to the greater of (1) the distribution which would have been paid in respect of the Series Two Preferred Unit had such Series Two Preferred Unit been converted into an OP Unit (including both regular and special distributions) or (2) an increasing rate, ranging from 5.00% to 7.00% per annum (7.00% for the nine months ended September 30, 2008 and 2007) on a liquidation preference of $50.00 per unit, and are convertible into OP Units at a rate of $38.10 per Preferred Unit (1.312336 OP Units for each Preferred Unit). Distributions to holders of Preferred Units are recognized on a straight-line basis that approximates the effective interest method.

On January 30, 2008, the Operating Partnership paid a distribution on the OP Units and LTIP Units in the amount of $0.68 per unit to holders of record as of the close of business on December 31, 2007. In addition, the Operating Partnership paid a special cash distribution on the OP Units and LTIP Units in the amount of $5.98 per unit to holders of record as of the close of business on December 31, 2007. On April 30, 2008, the Operating Partnership paid a distribution on the OP Units and LTIP Units in the amount of $0.68 per unit and a distribution on the 2008 OPP Units in the amount of $0.068 per unit, in each case payable to holders of record as of the close of business on March 31, 2008. On July 31, 2008, the Operating Partnership paid a distribution on the OP Units and LTIP Units in the amount of $0.68 per unit and a distribution on the 2008 OPP Units in the amount of $0.068 per unit, in each case payable to holders of record as of the close of business on June 30, 2008.

Holders of Series Two Preferred Units participated in the $5.98 per unit special cash distribution on an as-converted basis in connection with their regular May 2008 distribution payment as provided for in the Operating Partnership s partnership agreement. At December 31, 2007, the Company had accrued approximately $8.7 million related to the $5.98 per unit special cash distribution payable to holders of the Series Two Preferred Units.

On February 15, 2008, the Operating Partnership paid a distribution on its outstanding Series Two Preferred Units of $0.89239 per unit. On May 15, 2008, the Operating Partnership paid a distribution on its outstanding Series Two Preferred Units of $8.7402 per unit, which amount included the impact of the special cash distribution described above. On August 15, 2008, the Operating Partnership paid a distribution on its outstanding Series Two Preferred Units of $0.89239 per unit.

On September 17, 2008, Boston Properties, Inc., as general partner of the Operating Partnership, declared a distribution on the OP Units and LTIP Units in the amount of $0.68 per unit and a distribution on the 2008 OPP Units in the amount of $0.068 per unit, in each case payable on October 31, 2008 to holders of record as of the close of business on September 30, 2008.

The Series Two Preferred Units may be converted into OP Units at the election of the holder thereof at any time. A holder of an OP Unit may present such OP Unit to the Operating Partnership for redemption at any time (subject to restrictions agreed upon at the time of issuance of OP Units to particular holders that may restrict such redemption right for a period of time, generally one year from issuance). Upon presentation of an OP Unit for redemption, the Operating Partnership must redeem such OP Unit for cash equal to the then value of a share of common stock of the Company. In lieu of a cash redemption, the Company may elect to acquire such OP Unit for one share of Common Stock. The value of the OP Units (not owned by the Company and including LTIP Units assuming that all conditions have been met for the conversion thereof) and Series Two Preferred Units had such units been redeemed at September 30, 2008 was approximately $1,980.2 million and $136.8 million, respectively, based on the closing price of the Company s common stock of $93.66 per share on September 30, 2008.

Table of Contents

BOSTON PROPERTIES, INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

10. Stockholders Equity

As of September 30, 2008, the Company had 119,851,868 shares of Common Stock outstanding.

During the nine months ended September 30, 2008, the Company issued 344,582 shares of its Common Stock in connection with the redemption of an equal number of OP Units.

On January 30, 2008, the Company paid a dividend in the amount of $0.68 per share of Common Stock to shareholders of record as of the close of business on December 31, 2007. In addition, the Company paid a special cash dividend of $5.98 per share of Common Stock to shareholders of record as of the close of business on December 31, 2007. On April 30, 2008, the Company paid a dividend in the amount of $0.68 per share of Common Stock to shareholders of record as of the close of business on March 31, 2008. On July 31, 2008, the Company paid a dividend in the amount of $0.68 per share of Common Stock to shareholders of record as of the close of business on June 30, 2008.

On September 17, 2008, the Company s Board of Directors declared a dividend in the amount of $0.68 per share of Common Stock payable on October 31, 2008 to shareholders of record as of the close of business on September 30, 2008.

11. Held for Sale/Discontinued Operations

The Company applies the provisions of SFAS No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets. SFAS No. 144 requires that long-lived assets that are to be disposed of by sale be measured at the lesser of (1) book value or (2) fair value less cost to sell. In addition, it requires that one accounting model be used for long-lived assets to be disposed of by sale and broadens the presentation of discontinued operations to include more disposal transactions.

On January 7, 2008, the Company transferred at cost Mountain View Research Park and Mountain View Technology Park to its Value-Added Fund for an aggregate of approximately $221.6 million (See Note 3). At December 31, 2007, the Company had categorized the properties as Held for Sale in its Consolidated Balance Sheets. Due to the Company s continuing involvement through its ownership interest in the Value-Added Fund, these properties have not been categorized as discontinued operations in the accompanying Consolidated Statements of Operations.

During the year ended December 31, 2007, the Company sold the following operating properties:

- Orbital Sciences Campus and Broad Run Business Park, Building E, comprised of three Class A office properties aggregating approximately 337,000 net rentable square feet and an office/technical property totaling approximately 127,000 net rentable square feet, respectively, located in Loudon County, Virginia;

- Democracy Center, a Class A office complex totaling approximately 685,000 net rentable square feet located in Bethesda, Maryland;

- Newport Office Park, a Class A office property totaling approximately 172,000 net rentable square feet located in Quincy, Massachusetts;

- Long Wharf Marriott, a 402-room hotel located in Boston, Massachusetts; and

5 Times Square, a Class A office property totaling approximately 1,102,000 net rentable square feet located in New York City.

BOSTON PROPERTIES, INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Due to the Company s continuing involvement in the management, for a fee, of Democracy Center and 5 Times Square through agreements with the buyers, Democracy Center and 5 Times Square have not been categorized as discontinued operations in the accompanying Consolidated Statements of Operations. As a result, the gains on sales related to Democracy Center and 5 Times Square have been reflected under the caption Gains on sales of real estate, net of minority interest, in the Consolidated Statements of Operations. The Company has presented the other properties listed above as discontinued operations in its Consolidated Statements of Operations for the three and nine months ended September 30, 2008 and 2007, as applicable.

The following table summarizes income from discontinued operations (net of minority interest) and the related realized gains on sales of real estate from discontinued operations (net of minority interest) for the three and nine months ended September 30, 2008 and 2007 (in thousands):

	For the three months ended September 30,		For the nine months ended September 30,	
	2008	2007	2008	2007
Total revenue	$	$ 2,923	$	$ 18,052
Operating expenses		634		9,074
Depreciation and amortization		700		2,714
Minority interest in Operating Partnership		232		922
Income from discontinued operations (net of minority interest)	$	$ 1,357	$	$ 5,342
Realized gains on sales of real estate	$	$	$	$ 204,623
Minority interest in Operating Partnership				(30,724)
Realized gains on sales of real estate (net of minority interest)	$	$	$	$ 173,899

The Company s application of SFAS No. 144 results in the presentation of the net operating results of those qualifying properties sold or held for sale during the applicable periods as income from discontinued operations. The application of SFAS No. 144 does not have an impact on net income available to common shareholders. SFAS No. 144 only impacts the presentation of these properties within the Consolidated Statements of Operations.

12. Earnings Per Share

Earnings per share (EPS) has been computed pursuant to the provisions of SFAS No. 128. The following table provides a reconciliation of both the net income and the number of common shares used in the computation of basic EPS, which is calculated by dividing net income available to common shareholders by the weighted-average number of common shares outstanding during the period. During 2004, the Company adopted EITF 03-6 Participating Securities and the Two-Class Method under FASB 128 (EITF 03-6), which provides further guidance on the definition of participating securities. Pursuant to EITF 03-6, the Operating Partnership s Series Two Preferred Units, which are reflected as Minority Interests in the Company s Consolidated Balance Sheets, are considered participating securities and are included in the computation of basic and diluted earnings per share of the Company if the effect of applying the if-converted method is dilutive. The terms of the Series Two Preferred Units enable the holders to obtain OP Units of the Operating Partnership, as well as Common Stock of the Company. Accordingly, for the reporting periods in which the Operating Partnership s net income is in excess of distributions paid on the OP Units, LTIP Units and Series Two Preferred Units, such income is allocated to the OP Units, LTIP Units and Series Two Preferred Units in proportion to their respective interests

BOSTON PROPERTIES, INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

and the impact is included in the Company s consolidated basic and diluted earnings per share computation due to its holding of the Operating Partnership s securities. There were no amounts required to be allocated to the Series Two Preferred Units for the three and nine months ended September 30, 2008. For the three and nine months ended September 30, 2007, approximately $2.0 million and $12.3 million, respectively, was allocated to the Series Two Preferred Units in excess of distributions paid during the reporting period and is included in the Company s computation of basic and diluted earnings per share. Because the 2008 OPP Units require the Company to outperform absolute and relative return thresholds, unless such thresholds have been met by the end of the applicable reporting period, the Company excludes all contingently issuable units from the diluted EPS calculation. Other potentially dilutive common shares, including stock options, restricted stock and other securities of the Operating Partnership that are exchangeable for the Company s Common Stock, and the related impact on earnings, are considered when calculating diluted EPS.

13. Stock Option and Incentive Plan

On January 24, 2008, the Compensation Committee (the Committee) of the Board of Directors (the Board) of the Company approved outperformance awards under the Second Amendment and Restatement of the Company s Stock Option and Incentive Plan (the 1997 Plan) to officers and key employees of the Company. These awards (the 2008 OPP Awards) are part of a new broad-based, long-term incentive compensation program designed to provide the Company s management team at several levels within the organization with the potential to earn equity awards subject to the Company outperforming and creating shareholder value in a pay-for-performance structure. 2008 OPP Awards utilize total return to shareholders (TRS) over a three-year measurement period as the performance metric and include two years of time-based vesting after the end of the performance measurement period (subject to acceleration in certain events) as a retention tool. Recipients of 2008 OPP Awards will share in an outperformance pool if the Company s TRS, including both share appreciation and dividends, exceeds absolute and relative hurdles over a three-year measurement period from February 5, 2008 to February 5, 2011, based on the average closing price of a share of the Company s common stock (a REIT Share) of $92.8240 for the five trading days prior to and including February 5, 2008. The aggregate reward that recipients of all 2008 OPP Awards can earn, as measured by the outperformance pool, is subject to a maximum cap of $110 million, although only awards for an aggregate of up to approximately $104.8 million have been granted to date. The balance remains available for future grants, with OPP awards exceeding a potential reward of $1 million requiring the Committee s approval.

The outperformance pool will consist of (i) three percent (3%) of the excess total return above a cumulative absolute TRS hurdle of 30% over the full three-year measurement period (the Absolute TRS Component) and (ii) three percent (3%) of the excess or deficient excess total return above or below a relative TRS hurdle equal to the total return of the SNL Equity REIT Index over the three-year measurement period (the Relative TRS Component). In the event that the Relative TRS Component is potentially positive because the Company s TRS is higher than the total return of the SNL Equity REIT Index, the actual contribution to the outperformance pool from the Relative TRS Component will be subject to a sliding scale factor as follows: (i) 100% of the potential Relative TRS Component will be earned if the Company s TRS is equal to or greater than a cumulative 30% over three years (equivalent to 10% per annum), (ii) 0% will be earned if the Company s TRS is equal to or less than a cumulative 21% over three years (equivalent to 7% per annum), and (iii) a percentage from 0% to 100%

BOSTON PROPERTIES, INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

calculated by linear interpolation will be earned if the Company s cumulative TRS over three years is between 21% and 30%. The potential Relative TRS Component before application of the sliding scale factor will be capped at $110 million (or such lesser amount as corresponds to the OPP awards actually granted). In the event that the Relative TRS Component is negative because the Company s TRS is less than the total return of the SNL Equity REIT Index, any outperformance reward potentially earned under the Absolute TRS Component will be reduced dollar for dollar, provided that the potential Absolute TRS Component before reduction for any negative Relative TRS Component will be capped at $110 million (or such lesser amount as corresponds to the OPP awards actually granted). The algebraic sum of the Absolute TRS Component and the Relative TRS Component determined as described above will never exceed $110 million (or such lesser amount as corresponds to the OPP awards actually granted).

Each employee s 2008 OPP Award is designated as a specified percentage of the aggregate outperformance pool. Assuming the applicable absolute and/or relative TRS thresholds are achieved at the end of the measurement period, the algebraic sum of the Absolute TRS Component and the Relative TRS Component will be calculated and then allocated among the 2008 OPP Award recipients in accordance with each individual s percentage. Rewards earned with respect to 2008 OPP Awards will vest 25% on February 5, 2011, 25% on February 5, 2012, and 50% on February 5, 2013, based on continued employment. Vesting will be accelerated in the event of a change of control of the Company, termination of employment by the Company without cause or termination of employment by the award recipient for good reason, death, disability or retirement, although restrictions on transfer will continue to apply in certain of these situations. 2008 OPP Awards are in the form of LTIP units of limited partnership interest of the Operating Partnership, which are referred to herein as 2008 OPP Units. 2008 OPP Units were issued prior to the determination of the outperformance pool, but will remain subject to forfeiture depending on the extent of rewards earned with respect to 2008 OPP Awards. The number of 2008 OPP Units issued initially to recipients of the 2008 OPP Awards was an estimate of the maximum number of 2008 OPP Units that they could earn, based on certain assumptions. The number of 2008 OPP Units actually earned by each award recipient, if any, will be determined at the end of the performance measurement period by dividing his or her share of the outperformance pool by the average closing price of a REIT Share for the 15 trading days immediately preceding the measurement date. Total return for the Company and for the SNL Equity REIT Index over the three-year measurement period and other circumstances will determine how many 2008 OPP Units are earned by each recipient; if they are fewer than the number issued initially, the balance will be forfeited as of the performance measurement date.

Prior to the measurement date, 2008 OPP Units will be entitled to receive per unit distributions equal to one-tenth (10%) of the regular quarterly distributions payable on an OP Unit, but will not be entitled to receive any special distributions. After the measurement date, the number of 2008 OPP Units, both vested and unvested, which employees have earned based on the establishment of an outperformance pool, will be entitled to receive distributions in an amount per unit equal to distributions, both regular and special, payable on an OP Unit.

During the nine months ended September 30, 2008, the Company issued 4,723 shares of restricted stock, 287,855 LTIP Units and 1,085,861 2008 OPP Units under the 1997 Plan. The shares of restricted stock were valued at approximately $0.5 million ($96.09 per share). The 2008 OPP Units were valued at approximately $19.7 million utilizing a Monte Carlo simulation to estimate the probability of the performance vesting conditions being satisfied. The Monte Carlo simulation used a statistical formula underlying the Black-Scholes and binomial formulas and such simulation was run approximately 100,000 times. For each simulation, the payoff is calculated at the settlement date, which is then discounted to the award date at a risk-free interest rate. The average of the values over all simulations is the expected value of the unit on the award date. Assumptions used in the valuations included (1) factors associated with the underlying performance of the Company s stock price and total shareholder return over the term of the performance awards including total stock return volatility

BOSTON PROPERTIES, INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

and risk-free interest and (2) factors associated with the relative performance of the Company s stock price and total shareholder return when compared to the SNL Equity REIT Index. The valuation was performed in a risk-neutral framework, so no assumption was made with respect to an equity risk premium. The LTIP Units were valued at approximately $25.4 million ($88.17 per unit weighted-average fair value) using a Monte Carlo simulation method model in accordance with the provisions of SFAS No. 123R. The per unit fair value of each LTIP Unit granted was estimated on the date of grant using the following assumptions: an expected life of 5.6 years, a risk-free interest rate of 2.75% and an expected price volatility of 25.0%. An LTIP Unit is generally the economic equivalent of a share of restricted stock in the Company. The aggregate value of the LTIP Units is included in Minority Interests in the Consolidated Balance Sheets. The restricted stock and LTIP Units granted to employees between January 1, 2004 and November 2006 vest over a five-year term. Grants of restricted stock and LTIP Units made in and after November 2006 vest in four equal annual installments. Restricted stock and LTIP Units are measured at fair value on the date of grant based on the number of shares or units granted, as adjusted for forfeitures and the closing price of the Company s common stock on the date of grant as quoted on the New York Stock Exchange. Such value is recognized as an expense ratably over the corresponding employee service period. Dividends paid on both vested and unvested shares of restricted stock are charged directly to Earnings in Excess of Dividends in the Consolidated Balance Sheets. Stock-based compensation expense associated with restricted stock, LTIP Units and 2008 OPP Units was approximately $6.2 million and $2.8 million for the three months ended September 30, 2008 and 2007, respectively, and approximately $16.8 million and $8.6 million for the nine months ended September 30, 2008 and 2007, respectively. At September 30, 2008, there was $52.0 million of unrecognized compensation cost related to unvested restricted stock, LTIP Units and 2008 OPP Units that is expected to be recognized over a weighted-average period of approximately 2.9 years.

14. Segment Information

The Company s segments are based on the Company s method of internal reporting which classifies its operations by both geographic area and property type. The Company s segments by geographic area are Greater Boston, Greater Washington, D.C., Midtown Manhattan, Greater San Francisco and New Jersey. Segments by property type include: Class A Office, Office/Technical and Hotel.

Asset information by segment is not reported because the Company does not use this measure to assess performance. Therefore, depreciation and amortization expense is not allocated among segments. Interest and other income, development and management services, general and administrative expenses, interest expense, depreciation and amortization expense, minority interests in property partnerships, income from unconsolidated joint ventures, minority interest in Operating Partnership, gains on sales of real estate (net of minority interest), income from discontinued operations (net of minority interest), gains on sales of real estate from discontinued operations (net of minority interest), net derivative losses and losses from early extinguishments of debt are not included in Net Operating Income as the internal reporting addresses these items on a corporate level.

Net Operating Income is not a measure of operating results or cash flows from operating activities as measured by accounting principles generally accepted in the United States of America, and it is not indicative of cash available to fund cash needs and should not be considered an alternative to cash flows as a measure of liquidity. All companies may not calculate Net Operating Income in the same manner. The Company considers Net Operating Income to be an appropriate supplemental measure to net income because it helps both investors and management to understand the core operations of the Company s properties.

15. Newly Issued Accounting Standards

In September 2006, the Financial Accounting Standards Board (the FASB) issued Statement of Financial Accounting Standards (SFAS) No. 157, Fair Value Measurements (SFAS No. 157). SFAS No. 157 defines fair value and establishes a framework for measuring fair value, which includes a hierarchy based on the quality of inputs used to measure fair value. SFAS No. 157 also expands disclosures about fair value measurements. SFAS No. 157 does not require any new fair value measurements. SFAS No. 157 requires the categorization of financial assets and liabilities, based on the inputs to the valuation technique, into a three-level fair value hierarchy. The fair value hierarchy gives the highest priority to the quoted prices in active markets for identical assets and liabilities and lowest priority to unobservable inputs. SFAS No. 157 requires the use of observable market data, when available, in making fair value measurements. When inputs used to measure fair value fall within different levels of the hierarchy, the level within which the fair value measurement is categorized is based on the lowest level input that is significant to the fair value measurement. The levels of the SFAS No. 157 fair value hierarchy are described as follows:

Level 1 Financial assets and liabilities whose values are based on unadjusted quoted market prices for identical assets and liabilities in an active market that the Company has the ability to access.

Level 2 Financial assets and liabilities whose values are based on quoted prices in markets that are not active or model inputs that are observable for substantially the full term of the asset or liability.

Level 3 Financial assets and liabilities whose values are based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement.

BOSTON PROPERTIES, INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

SFAS No. 157 became effective for fiscal years beginning after November 15, 2007. In February 2008, the FASB deferred the effective date of SFAS No. 157 for one year for nonfinancial assets and nonfinancial liabilities that are recognized or disclosed at fair value in the financial statements on a nonrecurring basis. The FASB also removed certain leasing transactions from the scope of SFAS No. 157. On January 1, 2008, the Company adopted SFAS No. 157. The Company has financial instruments consisting of investments in securities and interest rate contracts that are required to be measured under SFAS No. 157. The Company currently does not have any non-financial assets or non-financial liabilities that are required to be measured under SFAS No. 157. The Company does not have any fair value measurements using significant unobservable inputs (Level 3) as of September 30, 2008.

The Company s investments in securities, which were valued at approximately $16.2 million at September 30, 2008, are categorized within Level 2 of the fair value hierarchy because they are valued using quoted market prices, broker or dealer quotations, or alternative pricing sources with reasonable levels of price transparency.

In February 2007, the FASB issued SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities Including an amendment of FASB Statement No. 115 (SFAS No. 159). SFAS No. 159 permits entities to choose, at specified election dates, to measure many financial instruments and certain other items at fair value that are not currently required to be measured at fair value. Unrealized gains and losses shall be reported on items for which the fair value option has been elected in earnings at each subsequent reporting date. SFAS No. 159 became effective for fiscal years beginning after November 15, 2007. On January 1, 2008, the Company adopted SFAS No. 159 and has currently not elected to measure any financial instruments or other items (not currently required to be measured at fair value) at fair value.

In March 2008, the FASB issued SFAS No. 161 Disclosures about Derivative Instruments and Hedging Activities (SFAS No. 161). SFAS No. 161 amends and expands the disclosure requirements of SFAS No. 133 with the intent to provide users of financial statements with an enhanced understanding of how derivative instruments and hedging activities affect an entity s financial position, financial performance and cash flows. These disclosure requirements include a tabular summary of the fair values of derivative instruments and their gains and losses, disclosure of derivative features that are credit risk related to provide more information regarding an entity s liquidity and cross-referencing within footnotes to make it easier for financial statement users to locate important information about derivative instruments. SFAS No. 161 is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008 with early application encouraged. The Company does not expect the adoption of SFAS No. 161 to have a material impact to the Company.

In May 2008, the FASB issued FASB Staff Position (FSP) No. APB 14-1 Accounting for Convertible Debt Instruments That May Be Settled in Cash upon Conversion (Including Partial Cash Settlement) (FSP No. APB 14-1) that requires the liability and equity components of convertible debt instruments that may be settled in cash upon conversion (including partial cash settlement) to be separately accounted for in a manner that reflects the issuer s nonconvertible debt borrowing rate. FSP No. APB 14-1 requires that the initial debt proceeds from the sale of the Operating Partnership s $862.5 million of 2.875% exchangeable senior notes due 2037, $450.0 million of 3.75% exchangeable senior notes due 2036 and $747.5 million of 3.625% exchangeable senior notes due 2014 be allocated between a liability component and an equity component in a manner that reflects interest expense at the interest rate of similar nonconvertible debt. The resulting debt discount will be amortized over the period during which the debt is expected to be outstanding (i.e., through the first optional redemption dates) as additional non-cash interest expense. Based on the Company s understanding of the application of FSP No. APB 14-1, this will result in an aggregate of approximately $0.15 $0.16 per share (net of incremental capitalized interest) of additional non-cash interest expense for fiscal 2008. Excluding the impact of capitalized

BOSTON PROPERTIES, INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

interest, the additional non-cash interest expense will be approximately $0.19 $0.20 per share for fiscal 2008, and this amount (before netting) will increase in subsequent reporting periods through the first optional redemption dates as the debt accretes to its par value over the same period. FSP No. APB 14-1 is effective for fiscal years beginning after December 15, 2008, and interim periods within those fiscal years. Early adoption is not permitted. Upon adoption, FSP No. APB 14-1 requires companies to retrospectively apply the requirements of the pronouncement to all periods presented.

In May 2008, the FASB issued SFAS No. 162, The Hierarchy of Generally Accepted Accounting Principles (SFAS No. 162), which is intended to improve financing reporting by identifying a consistent framework or hierarchy for selecting accounting principles to be used in preparing financial statements of nongovernmental entities that are presented in conformity with generally accepted accounting principles (GAAP) in the United States (the GAAP hierarchy). SFAS No. 162 is effective 60 days following the Securities and Exchange Commission s (SEC) approval of the Public Company Accounting Oversight Board amendment to AU Section 411, The Meaning of Present Fairly in Conformity with Generally Accepted Accounting Principles. The Company does not expect the adoption of SFAS No. 162 to have a material impact on the Company.

In June 2008, the FASB issued FSP EITF 03-6-1, Determining Whether Instruments Granted in Share-Based Payment Transactions are Participating Securities (FSP EITF 03-06-1). FSP EITF 03-06-1 clarifies that unvested share-based payment awards that contain non-forfeitable rights to dividends or dividend equivalents (whether paid or unpaid) are participating securities and shall be included in the computation of EPS pursuant to the two-class method. FSP EITF 03-06-1 is effective for financial statements issued for fiscal years beginning after December 15, 2008, and interim periods within those fiscal years. All prior-period EPS data presented shall be adjusted retrospectively (including interim financial statements, summaries of earnings, and selected financial data) to conform with the provisions of the FSP. Early application is not permitted. The Company is currently assessing the potential impact that the adoption of FSP EITF 03-06-1 will have on its results of operations.

16. Subsequent Events

On October 10, 2008, the Company used available cash to repay the mortgage loan collateralized by its Bedford Business Park properties located in Bedford, Massachusetts totaling approximately $16.1 million. There was no prepayment penalty associated with the repayment. The mortgage loan bore interest at a fixed rate of 8.60% per annum and was scheduled to mature on December 10, 2008.

Table of Contents

ITEM 2 Management s Discussion and Analysis of Financial Condition and Results of Operations

As used herein, the terms we, us, our and the Company refer to Boston Properties, Inc., a Delaware corporation organized in 1997, individually or together with its subsidiaries, including Boston Properties Limited Partnership, a Delaware limited partnership, and our predecessors.

The following discussion should be read in conjunction with the financial statements and notes thereto appearing elsewhere in this report. This Quarterly Report on Form 10-Q contains forward-looking statements within the meaning of the federal securities laws. We caution investors that any forward-looking statements presented in this report, or which management may make orally or in writing from time to time, are based on beliefs and assumptions made by, and information currently available to, management. When used, the words anticipate, believe, estimate, expect, intend, may, might, plan, project, result, should, will and similar expressions which do not relate solely to historical matt to identify forward-looking statements. Such statements are subject to risks, uncertainties and assumptions and are not guarantees of future performance, which may be affected by known and unknown risks, trends, uncertainties and factors that are beyond our control. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those anticipated, estimated or projected by the forward-looking statements. We caution you that while forward-looking statements reflect our good-faith beliefs when we make them, they are not guarantees of future performance and are impacted by actual events when they occur after we make such statements. Accordingly, investors should use caution in relying on forward-looking statements, which are based on results and trends at the time they are made, to anticipate future results or trends.

Some of the risks and uncertainties that may cause our actual results, performance or achievements to differ materially from those expressed or implied by forward-looking statements include, among others, the following:

- the impact of the current credit crisis and global economic slowdown, which is having and may continue to have a negative effect on the following, among other things:
  - the fundamentals of our business, including overall market occupancy and rental rates;
  - the financial condition of our tenants, many of which are financial, legal and other professional firms, our lenders, counterparties to our derivative financial instruments and institutions that hold our cash balances and short-term investments, which may expose us to increased risks of default by these parties;
  - our ability to obtain debt financing on attractive terms or at all, which may adversely impact our ability to pursue acquisition and development opportunities and refinance existing debt and our future interest expense; and
  - the value of our real estate assets, which may limit our ability dispose of assets at attractive prices or obtain or maintain debt financing secured by our properties or on an unsecured basis.
- general risks affecting the real estate industry (including, without limitation, the inability to enter into or renew leases, dependence on tenants financial condition, and competition from other developers, owners and operators of real estate);
- failure to manage effectively our growth and expansion into new markets and sub-markets or to integrate acquisitions and developments successfully;
- the ability of our joint venture partners to satisfy their obligations;

risks and uncertainties affecting property development and construction (including, without limitation, construction delays, cost overruns, inability to obtain necessary permits and public opposition to such activities);

risks associated with the availability and terms of financing and the use of debt to fund acquisitions and developments, including the risk associated with interest rates impacting the cost and/or availability of financing;

Table of Contents

- risks associated with interest rate hedging contracts and the effectiveness of such arrangements;
- risks associated with downturns in the national and local economies, increases in interest rates, and volatility in the securities markets;
- risks associated with actual or threatened terrorist attacks;
- costs of compliance with the Americans with Disabilities Act and other similar laws;
- potential liability for uninsured losses and environmental contamination;
- risks associated with our potential failure to qualify as a REIT under the Internal Revenue Code of 1986, as amended;
- possible adverse changes in tax and environmental laws;
- the impact of newly adopted accounting principles on our accounting policies and on period-to-period comparisons of financial results;
- risks associated with possible state and local tax audits;
- risks associated with our dependence on key personnel whose continued service is not guaranteed; and
- the other risk factors identified in our most recently filed Annual Report on Form 10-K, including those described under the caption Risk Factors.

The risks set forth above are not exhaustive. Other sections of this report may include additional factors that could adversely affect our business and financial performance. Moreover, we operate in a very competitive and rapidly changing environment. New risk factors emerge from time to time and it is not possible for management to predict all risk factors, nor can it assess the impact of all risk factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements. Given these risks and uncertainties, investors should not place undue reliance on forward-looking statements as a prediction of actual results. Investors should also refer to our most recent Annual Report on Form 10-K and our Quarterly Reports on Form 10-Q for future periods and Current Reports on Form 8-K as we file them with the SEC, and to other materials we may furnish to the public from time to time through Forms 8-K or otherwise, for a discussion of risks and uncertainties that may cause actual results, performance or achievements to differ materially from those expressed or implied by forward-looking statements. We expressly disclaim any responsibility to update any forward-looking statements to reflect changes in underlying assumptions or factors, new information, future events, or otherwise, and you should not rely upon these forward-looking statements after the date of this report.

Overview

We are a fully integrated self-administered and self-managed REIT and one of the largest owners and developers of Class A office properties in the United States. Our properties are concentrated in five markets Boston, midtown Manhattan, Washington, D.C., San Francisco and Princeton, NJ. We generate revenue and cash primarily by leasing our Class A office space to our tenants. Factors we consider when we lease space include the creditworthiness of the tenant, the length of the lease, the rental rate to be paid, the costs of tenant improvements, current and anticipated operating costs and real estate taxes, our current and anticipated vacancy, current and anticipated future demand for office space generally and general economic factors. We also generate cash through the sale of assets, which may be either non-core assets or core assets that command

premiums from real estate investors.

The impact of the current state of the economy, including rising unemployment, constrained capital and the deleveraging of the financial system, continues to have a dampening effect on the fundamentals of our business, including overall market occupancy and rental rates. Our core strategy has always been to operate in supply constrained markets with high barriers to entry and to focus on executing long-term leases with financially strong

tenants. Historically, this combination has tended to reduce our exposure to down cycles, but if major tenants in our markets come under financial pressure and do not utilize all of their space it will likely lead to increased supply through subletting or tenant defaults and a corresponding reduction in market rental rates.

We are also not immune from the impact of the credit crisis and global economic slowdown on our own tenants, and this was demonstrated during the third quarter by Lehman Brothers decision to file for bankruptcy protection and Heller Ehrman LLP s decision to dissolve. As a result, we established reserves for their related accrued straight-line rent balances of an aggregate of $21.0 million in the third quarter and we have assumed for budgeting purposes that all of the Lehman Brothers and Heller Ehrman space is unoccupied for all of 2009. These two tenants contribute approximately $50 million per year to our revenues. More generally, we are concerned about the financial stress that our tenants face and believe that, in general, demand for office space will decrease due to significant job losses in the financial and professional services industries and that market rents will be under pressure for the foreseeable future.

In addition to the aforementioned tenant concerns, we believe the overall lack of liquidity caused in part by the tightening credit markets presents significant challenges for owners and developers of office buildings like us. We believe office properties that are leased on a long-term basis are best suited to long-term, fixed rate financing. While we successfully completed an offering of $747.5 million of exchangeable senior notes in August 2008, and recently utilized an accordion feature under our Unsecured Line of Credit to increase the lenders total commitment under the facility from $605.0 million to $1.0 billion, many of the debt capital markets that real estate companies like us frequently access, such as the unsecured bond market and the convertible debt market, are not currently available to us on terms that we believe are economically attractive. In addition, other capital sources such as the traditional banks, pension funds and life insurance companies are lending fewer dollars, under stricter terms and at greater costs to the borrowers. In light of these constraints, and given the funding needs for our development pipeline, we are actively seeking to bolster our liquidity through additional financings. We believe the quality of our assets and our strong balance sheet align ourselves well with the lenders current investment selectivity and should enable us to access the credit markets even in the current difficult environment.

Our focus on acquisition activity has moderated, but we continue to actively monitor the market and seek opportunities to selectively acquire high-quality real estate at attractive returns.

We currently have an active development program of approximately $2.5 billion that is 51% pre-leased to tenants. As of September 30, 2008, we had invested approximately $1.1 billion in these developments and, in addition to anticipated proceeds from existing construction loan facilities, we expect to make additional investments of approximately $1.3 billion over the next four years. We expect to fund this $1.3 billion of investments through a combination of new construction loan facilities, the incurrence of additional secured or unsecured debt, borrowings under our unsecured line of credit and available cash. We believe the successful lease-up and completion of our development pipeline will enhance our long-term return on equity and earnings growth as these developments are placed in-service in 2009, 2010 and 2011. As with all aspects of our business, however, we continue to monitor the impact of the global economic slowdown and may adjust our development plans accordingly. We do not anticipate undertaking any new development projects in the foreseeable future without significant pre-leasing commitments from creditworthy tenants.

In recent years, we have been an active seller of real estate assets, and, although we will consider additional asset sales, we do not expect our sales volume to be comparable to that of prior years and we currently do not have any assets on the market.

Transactions during the three months ended September 30, 2008 included the following:

On July 21, 2008, our Operating Partnership further increased the lenders total commitment under the Unsecured Line of Credit from $923.3 million to $1.0 billion. All other material terms under the facility remain unchanged.

On July 31, 2008, we cash-settled at maturity two treasury lock contracts and one forward-starting interest rate swap contract with notional amounts aggregating $100.0 million and made aggregate cash payments to the counterparties totaling approximately $3.9 million. On September 2, 2008, we cash-settled our remaining forward-starting interest rate swap contracts with notional amounts aggregating $100.0 million and made aggregate cash payments to the counterparties totaling approximately $6.0 million. On September 9, 2008, we executed an interest rate lock agreement with lenders at a fixed rate, inclusive of the credit spread, of 6.10% per annum for an eight-year, $375.0 million loan collateralized by our Four Embarcadero Center property located in San Francisco, California. Our interest rate hedging program contemplated a financing with a ten-year term and, as a result, under SFAS No. 133, Accounting for Derivative Instruments and Hedging Activities, as amended and interpreted, we recognized a net derivative loss of approximately $6.3 million representing the partial ineffectiveness of our interest rate contracts. The expected financing is expected to close in the fourth quarter of 2008. There can be no assurance that the financing will close on the terms currently contemplated or at all.

On August 12, 2008, we completed the acquisitions of 540 Madison Avenue and Two Grand Central Tower located in New York City, New York for an aggregate purchase price of approximately $705.0 million, including $309.9 million of assumed indebtedness. On August 13, 2008, we completed the acquisition of 125 West 55th Street also located in New York City, New York for a purchase price of approximately $444.0 million, including $263.5 million of assumed indebtedness. Each acquisition was completed through a joint venture among us, US Real Estate Opportunities I, L.P., which is a partnership managed by Goldman Sachs, and Meraas Capital LLC, a Dubai-based private equity firm. We have a 60% interest in each venture and provide customary property management and leasing services for the ventures. The acquisitions were financed with cash contributions from the ventures partners aggregating approximately $575.6 million and the assumption of approximately $573.4 million of secured and mezzanine loans. The debt that was assumed as part of the transactions consists of the following:

540 Madison Avenue two secured loans having an aggregate principal amount of $119.9 million and a weighted-average fixed interest rate of 5.20% per annum, each of which matures in July 2013;

Two Grand Central Tower a $190.0 million secured loan having a fixed interest rate of 5.10% per annum, which matures in July 2010; and

125 West 55th Street $263.5 million of secured and mezzanine loans having a weighted-average fixed interest rate of 6.25% per annum, all of which mature in March 2010.

On August 19, 2008, our Operating Partnership completed an offering of $747.5 million in aggregate principal amount (including $97.5 million as a result of the exercise by the initial purchasers of their over-allotment option) of its 3.625% exchangeable senior notes due 2014. The notes were priced at 99.0% of their face amount, resulting in aggregate net proceeds to us, after deducting the initial purchasers discounts and offering expenses, of approximately $731.6 million, resulting in an effective interest rate of approximately 4.057% per annum. The notes mature on February 15, 2014, unless earlier repurchased, exchanged or redeemed. The notes may be exchanged prior to the close of business on the scheduled trading day immediately preceding January 1, 2014 into cash and, at the Operating Partnership s option, shares of our common stock at an initial exchange rate of 8.5051 shares per $1,000 principal amount of notes (or an initial exchange price of approximately $117.58 per share of our common stock). The notes were issued in an offering exempt from registration under the Securities Act of 1933. In addition, in connection with the offering, we entered into capped call transactions with affiliates of certain of the initial purchasers, which are intended to reduce the potential dilution upon future exchange of the Notes. The capped call transactions are expected to have the effect of increasing the effective exchange price to us of the Notes from $117.58 to approximately $137.17 per share, representing an overall effective premium of approximately 40% over the closing price of $97.98 per share of our common stock on August 13, 2008. The net cost of the capped call transactions was approximately $44.4 million. (See Note 6 to the Consolidated Financial Statements.)

On September 10, 2008, we used available cash to repay the mortgage loan collateralized by our One and Two Embarcadero Center properties located in San Francisco, California totaling approximately $274.8 million. There was no prepayment penalty associated with the repayment. The mortgage loan bore interest at a fixed rate of 6.74% per annum and was scheduled to mature on December 10, 2008.

On September 26, 2008, we acquired from National Public Radio (NPR) its headquarters building at 635 Massachusetts Avenue (the NPR Building) comprised of approximately 211,000 net rentable square feet located in Washington, DC for a purchase price of approximately $119.5 million in cash. In addition, we entered into a development management agreement pursuant to which we will act as development manager for NPR s new headquarters building on NPR-owned land at 1111 North Capitol Street in Washington, DC. We have entered into a lease for the NPR Building for a five-year term at the conclusion of which NPR will occupy its new headquarters. Following the expiration of the lease with NPR, we expect to redevelop the NPR Building site into a Class A office property comprised of approximately 450,000 net rentable square feet.

During the quarter ended September 30, 2008, we recognized reserves for the full amount of the accrued straight-line rent balances associated with our leases in New York City with Lehman Brothers Inc. and the law firm of Heller Ehrman LLP, totaling approximately $13.2 million and $7.8 million, respectively. For discussion of our revenue recognition policy, refer to page 39.

Transactions completed subsequent to September 30, 2008:

On October 10, 2008, we used available cash to repay the mortgage loan collateralized by our Bedford Business Park properties located in Bedford, Massachusetts totaling approximately $16.1 million. There was no prepayment penalty associated with the repayment. The mortgage loan bore interest at a fixed rate of 8.60% per annum and was scheduled to mature on December 10, 2008.

Critical Accounting Policies

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America, or GAAP, requires management to use judgment in the application of accounting policies, including making estimates and assumptions. We base our estimates on historical experience and on various other assumptions believed to be reasonable under the circumstances. These judgments affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the dates of the financial statements and the reported amounts of revenue and expenses during the reporting periods. If our judgment or interpretation of the facts and circumstances relating to various transactions had been different, it is possible that different accounting policies would have been applied resulting in a different presentation of our financial statements. From time to time, we evaluate our estimates and assumptions. In the event estimates or assumptions prove to be different from actual results, adjustments are made in subsequent periods to reflect more current information. Below is a discussion of accounting policies that we consider critical in that they may require complex judgment in their application or require estimates about matters that are inherently uncertain.

Real Estate

Upon acquisitions of real estate, we assess the fair value of acquired tangible and intangible assets, including land, buildings, tenant improvements, above- and below-market leases, origination costs, acquired in-place leases, other identified intangible assets and assumed liabilities in accordance with Statement of Financial Accounting Standards (SFAS) No. 141, Business Combinations and allocate the purchase price to the acquired assets and assumed liabilities, including land at appraised value and buildings at replacement cost. We assess and consider fair value based on estimated cash flow projections that utilize discount and/or capitalization rates that we deem appropriate, as well as available market information. Estimates of future cash flows are based on a number of factors including the historical operating results, known and anticipated trends, and market and economic conditions. The fair value of the tangible assets of an acquired property considers the value of the property as if it were vacant. We also consider an allocation of purchase price of other acquired intangibles, including acquired in-place leases that may have a customer relationship intangible value, including (but not limited to) the nature and

extent of the existing relationship with the tenants, the tenants credit quality and expectations of lease renewals. Based on our acquisitions to date, our allocation to customer relationship intangible assets has been immaterial.

We record acquired above- and below-market leases at their fair values (using a discount rate which reflects the risks associated with the leases acquired) equal to the difference between (1) the contractual amounts to be paid pursuant to each in-place lease and (2) management s estimate of fair market lease rates for each corresponding in-place lease, measured over a period equal to the remaining term of the lease for above-market leases and the initial term plus the term of any below-market fixed rate renewal options for below-market leases. Other intangible assets acquired include amounts for in-place lease values that are based on our evaluation of the specific characteristics of each tenant s lease. Factors to be considered include estimates of carrying costs during hypothetical expected lease-up periods considering current market conditions, and costs to execute similar leases. In estimating carrying costs, we include real estate taxes, insurance and other operating expenses and estimates of lost rentals at market rates during the expected lease-up periods, depending on local market conditions. In estimating costs to execute similar leases, we consider leasing commissions, legal and other related expenses.

Real estate is stated at depreciated cost. The cost of buildings and improvements includes the purchase price of property, legal fees and other acquisition costs. Costs directly related to the development of properties are capitalized. Capitalized development costs include interest, internal wages, property taxes, insurance, and other project costs incurred during the period of development.

Management reviews its long-lived assets used in operations for impairment following the end of each quarter and when there is an event or change in circumstances that indicates an impairment in value. An impairment loss is recognized if the carrying amount of its assets is not recoverable and exceeds its fair value. If such impairment is present, an impairment loss is recognized based on the excess of the carrying amount of the asset over its fair value. The evaluation of anticipated cash flows is highly subjective and is based in part on assumptions regarding future occupancy, rental rates and capital requirements that could differ materially from actual results in future periods. Since cash flows on properties considered to be long-lived assets to be held and used as defined by SFAS No. 144 Accounting for the Impairment or Disposal of Long-Lived Assets, (SFAS No. 144) are considered on an undiscounted basis to determine whether an asset has been impaired, our established strategy of holding properties over the long term directly decreases the likelihood of recording an impairment loss. If our strategy changes or market conditions otherwise dictate an earlier sale date, an impairment loss may be recognized and such loss could be material. If we determine that impairment has occurred, the affected assets must be reduced to their fair value. No such impairment losses have been recognized to date.

SFAS No. 144 requires that qualifying assets and liabilities and the results of operations that have been sold, or otherwise qualify as held for sale, be presented as discontinued operations in all periods presented if the property operations are expected to be eliminated and we will not have significant continuing involvement following the sale. The components of the property s net income that is reflected as discontinued operations include the net gain (or loss) upon the disposition of the property held for sale, operating results, depreciation and interest expense (if the property is subject to a secured loan). We generally consider assets to be held for sale when the transaction has been approved by our Board of Directors, or a committee thereof, and there are no known significant contingencies relating to the sale, such that the property sale within one year is considered probable. Following the classification of a property as held for sale, no further depreciation is recorded on the assets.

A variety of costs are incurred in the acquisition, development and leasing of properties. After the determination is made to capitalize a cost, it is allocated to the specific component of a project that is benefited. Determination of when a development project commences and capitalization begins, and when a development project is substantially complete and held available for occupancy and capitalization must cease, involves a degree of judgment. Our capitalization policy on development properties is guided by SFAS No. 34 Capitalization of Interest Cost and SFAS No. 67 Accounting for Costs and the Initial Rental Operations of Real Estate Projects. The costs of land and buildings under development include specifically identifiable costs.

The capitalized costs include pre-construction costs necessary to the development of the property, development costs, construction costs, interest costs, real estate taxes, salaries and related costs and other costs incurred during the period of development. We begin the capitalization of costs during the pre-construction period which we define as activities that are necessary to the development of the property. We consider a construction project as substantially completed and held available for occupancy upon the completion of tenant improvements, but no later than one year from cessation of major construction activity. We cease capitalization on the portion (1) substantially completed and (2) occupied or held available for occupancy, and we capitalize only those costs associated with the portion under construction.

Investments in Unconsolidated Joint Ventures

Except for ownership interests in variable interest entities, we account for our investments in joint ventures under the equity method of accounting because we exercise significant influence over, but do not control, these entities. Our judgment with respect to our level of influence or control of an entity and whether we are the primary beneficiary of a variable interest entity involves the consideration of various factors including the form of our ownership interest, our representation in the entity s governance, the size of our investment (including loans), estimates of future cash flows, our ability to participate in policy making decisions and the rights of the other investors to participate in the decision making process and to replace us as manager and/or liquidate the venture, if applicable. Our assessment of our influence or control over an entity affects the presentation of these investments in our consolidated financial statements.

These investments are recorded initially at cost, as Investments in Unconsolidated Joint Ventures, and subsequently adjusted for equity in earnings and cash contributions and distributions. Any difference between the carrying amount of these investments on our balance sheet and the underlying equity in net assets is amortized as an adjustment to equity in earnings of unconsolidated joint ventures over the life of the related asset. Under the equity method of accounting, our net equity is reflected within the Consolidated Balance Sheets, and our share of net income or loss from the joint ventures is included within the Consolidated Statements of Operations. The joint venture agreements may designate different percentage allocations among investors for profits and losses, however, our recognition of joint venture income or loss generally follows the joint venture s distribution priorities, which may change upon the achievement of certain investment return thresholds. For ownership interests in variable interest entities, we consolidate those in which we are the primary beneficiary. Our investments in unconsolidated joint ventures are reviewed for impairment periodically and if events or circumstances change indicating that the carrying amount of our investments may not be recoverable. The ultimate realization of our investment in unconsolidated joint ventures is dependent on a number of factors, including the performance of each investment and market conditions. We will record an impairment charge if we determine that a decline in the value of an unconsolidated joint venture is other than temporary.

Revenue Recognition

Contractual rental revenue is reported on a straight-line basis over the terms of our respective leases. In accordance with SFAS No. 141, we recognize rental revenue of acquired in-place above- and below-market leases at their fair values over the terms of the respective leases. Accrued rental income as reported on the Consolidated Balance Sheets represents rental income recognized in excess of rent payments actually received pursuant to the terms of the individual lease agreements.

For the three and nine months ended September 30, 2008, we recorded $1.5 million and $4.1 million, respectively, of rental revenue representing the adjustments of rents from above and below market leases in accordance with SFAS No. 141. For the three and nine months ended September 30, 2008, the impact of the straight-line rent adjustment was approximately a $10.2 million decrease in rental revenue and an approximately $13.5 million increase in rental revenue, respectively. The straight-line adjustment for these periods included an approximately $21.0 million decrease due to the establishment of reserves for the full amount of the accrued straight-line rent balances associated with our leases in New York City with Lehman Brothers Inc. and the law firm of Heller Ehrman LLP. Amounts exclude SFAS No. 141 and straight-line income from unconsolidated joint ventures, which is disclosed in Note 4 of the Consolidated Financial Statements.

Table of Contents

Our leasing strategy is generally to secure creditworthy tenants that meet our underwriting guidelines. Furthermore, following the initiation of a lease, we continue to actively monitor the tenant s creditworthiness to ensure that all tenant related assets are recorded at their realizable value. When assessing tenant credit quality, we:

- review relevant financial information, including:
  - financial ratios;
  - net worth;
  - revenue;
  - cash flow;
  - leverage;
  - liquidity;
- evaluate the depth and experience of the tenant s management team; and
- assess the strength/growth of the tenant s industry.

As a result of the underwriting process, tenants are then categorized into one of three categories:

(1) low risk tenants;

(2) the tenant s credit is such that we require collateral, in which case we:

- require a security deposit; and/or
- reduce upfront tenant improvement investments; or

(3) the tenant s credit is below our acceptable parameters.

We consistently monitor the credit quality of our tenant base. We provide an allowance for doubtful accounts arising from estimated losses that could result from the tenant s inability to make required current rent payments and an allowance against accrued rental income for future potential losses that we deem to be unrecoverable over the term of the lease.

Tenant receivables are assigned a credit rating of 1 through 4. A rating of 1 represents the highest possible rating and no allowance is recorded. A rating of 4 represents the lowest credit rating, in which case we record a full reserve against the receivable balance. Among the factors considered in determining the credit rating include:

payment history;

credit status and change in status (credit ratings for public companies are used as a primary metric);

change in tenant space needs (i.e., expansion/downsize);

tenant financial performance;

economic conditions in a specific geographic region; and

industry specific credit considerations.

If our estimates of collectability differ from the cash received, the timing and amount of our reported revenue could be impacted. The average remaining term of our in-place tenant leases, including unconsolidated joint ventures, was approximately 7.2 years as of September 30, 2008. The credit risk is mitigated by the high quality of our existing tenant base, reviews of prospective tenants risk profiles prior to lease execution and frequent monitoring of our portfolio to identify potential problem tenants.

Recoveries from tenants, consisting of amounts due from tenants for common area maintenance, real estate taxes and other recoverable costs, are recognized as revenue in the period during which the expenses are incurred. Tenant reimbursements are recognized and presented in accordance with Emerging Issues Task Force, or EITF, Issue 99-19 Reporting Revenue Gross as a Principal versus Net as an Agent, or Issue 99-19. Issue 99-19 requires that these reimbursements be recorded on a gross basis, as we are generally the primary obligor with respect to purchasing goods and services from third-party suppliers, have discretion in selecting the supplier and have credit risk. We also receive reimbursement of payroll and payroll related costs from third parties which we reflect on a net basis in accordance with Issue 99-19.

Table of Contents

Our hotel revenues are derived from room rentals and other sources such as charges to guests for long-distance telephone service, fax machine use, movie and vending commissions, meeting and banquet room revenue and laundry services. Hotel revenues are recognized as earned.

We receive management and development fees from third parties. Management fees are recorded and earned based on a percentage of collected rents at the properties under management, and not on a straight-line basis, because such fees are contingent upon the collection of rents. We review each development agreement and record development fees as earned depending on the risk associated with each project. Profit on development fees earned from joint venture projects is recognized as revenue to the extent of the third-party partners ownership interest.

Gains on sales of real estate are recognized pursuant to the provisions of SFAS No. 66, Accounting for Sales of Real Estate. The specific timing of the sale is measured against various criteria in SFAS No. 66 related to the terms of the transactions and any continuing involvement in the form of management or financial assistance associated with the properties. If the sales criteria are not met, we defer gain recognition and account for the continued operations of the property by applying the finance, installment or cost recovery methods, as appropriate, until the sales criteria are met.

Depreciation and Amortization

We compute depreciation and amortization on our properties using the straight-line method based on estimated useful asset lives. In accordance with SFAS No. 141, we allocate the acquisition cost of real estate to land, building, tenant improvements, acquired above- and below-market leases, origination costs and acquired in-place leases based on an assessment of their fair value and depreciate or amortize these assets over their useful lives. The amortization of acquired above- and below-market leases and acquired in-place leases is recorded as an adjustment to revenue and depreciation and amortization, respectively, in the Consolidated Statements of Operations.

Fair Value of Financial Instruments

For purposes of disclosure, we calculate the fair value of our mortgage notes payable and unsecured senior notes. We discount the spread between the future contractual interest payments and hypothetical future interest payments on our mortgage debt and unsecured notes based on a current market rate. In determining the current market rate, we add our estimate of a market spread to the quoted yields on federal government treasury securities with similar maturity dates to our own debt. Because our valuations of our financial instruments are based on these types of estimates, the actual fair value of our financial instruments may differ materially if our estimates do not prove to be accurate.

Derivative Instruments and Hedging Activities

Derivative instruments and hedging activities require management to make judgments on the nature of its derivatives and their effectiveness as hedges. These judgments determine if the changes in fair value of the derivative instruments are reported in the consolidated statements of operations as a component of net income or as a component of comprehensive income and as a component of equity on the consolidated balance sheets. While management believes its judgments are reasonable, a change in a derivative s effectiveness as a hedge could materially affect expenses, net income and equity.

Results of Operations

The following discussion is based on our Consolidated Financial Statements for the three and nine months ended September 30, 2008 and 2007.

At September 30, 2008 and September 30, 2007, we owned or had interests in a portfolio of 146 and 138 properties, respectively (in each case, the Total Property Portfolio). As a result of changes within our Total Property Portfolio, the financial data presented below shows significant changes in revenue and expenses from

period-to-period. Accordingly, we do not believe that our period-to-period financial data with respect to the Total Property Portfolio are necessarily meaningful. Therefore, the comparison of operating results for the three and nine months ended September 30, 2008 and 2007 show separately the changes attributable to the properties that were owned by us throughout each period compared (the Same Property Portfolio) and the changes attributable to the properties included in Properties Acquired, Sold, and Placed In-Service.

In our analysis of operating results, particularly to make comparisons of net operating income between periods meaningful, it is important to provide information for properties that were in-service and owned by us throughout each period presented. We refer to properties acquired or placed in-service prior to the beginning of the earliest period presented and owned by us through the end of the latest period presented as our Same Property Portfolio. The Same Property Portfolio therefore excludes properties placed in-service or acquired after the beginning of the earliest period presented or disposed of prior to the end of the latest period presented.

Net operating income, or NOI, is a non-GAAP financial measure equal to net income available to common shareholders, the most directly comparable GAAP financial measure, plus minority interest in Operating Partnership, minority interests in property partnership, losses from early extinguishment of debt, net derivative losses, depreciation and amortization, interest expense, general and administrative expense, less income from discontinued operations (net of minority interest), gains on sales of real estate (net of minority interest), gains on sales of real estate from discontinued operations (net of minority interest), income from unconsolidated joint ventures, interest and other income and development and management services revenue. We use NOI internally as a performance measure and believe NOI provides useful information to investors regarding our financial condition and results of operations because it reflects only those income and expense items that are incurred at the property level. Therefore, we believe NOI is a useful measure for evaluating the operating performance of our real estate assets.

Our management also uses NOI to evaluate regional property level performance and to make decisions about resource allocations. Further, we believe NOI is useful to investors as a performance measure because, when compared across periods, NOI reflects the impact on operations from trends in occupancy rates, rental rates, operating costs and acquisition and development activity on an unleveraged basis, providing perspective not immediately apparent from net income. NOI excludes certain components from net income in order to provide results that are more closely related to a property s results of operations. For example, interest expense is not necessarily linked to the operating performance of a real estate asset and is often incurred at the corporate level as opposed to the property level. In addition, depreciation and amortization, because of historical cost accounting and useful life estimates, may distort operating performance at the property level. NOI presented by us may not be comparable to NOI reported by other REITs that define NOI differently. We believe that in order to facilitate a clear understanding of our operating results, NOI should be examined in conjunction with net income as presented in our consolidated financial statements. NOI should not be considered as an alternative to net income as an indication of our performance or to cash flows as a measure of liquidity or ability to make distributions.

Comparison of the nine months ended September 30, 2008 to the nine months ended September 30, 2007.

The table below shows selected operating information for the Same Property Portfolio and the Total Property Portfolio. The Same Property Portfolio consists of 114 properties totaling approximately 29.1 million net rentable square feet of space. The Same Property Portfolio includes properties acquired or placed in-service on or prior to January 1, 2007 and owned through September 30, 2008. In addition, the Same Property Portfolio includes our Cambridge Center Marriott hotel property, but does not include the Long Wharf Marriott hotel property, which was sold on March 23, 2007. The Total Property Portfolio includes the effects of the other properties either placed in-service, or acquired after January 1, 2007 or disposed of on or prior to September 30, 2008. There were no properties that were repositioned after January 1, 2007. This table includes a reconciliation from the Same Property Portfolio to the Total Property Portfolio by also providing information for the nine months ended September 30, 2008 and 2007 with respect to the properties which were acquired, placed in-service or sold.

	Same Property Portfolio				Properties Sold		Properties Acquired		Properties Placed In-Service		Total Property Portfolio
