For the quarterly period ended September 27, 2009

OR

.. **TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934**

Commission file number 1-10079

CYPRESS SEMICONDUCTOR CORPORATION

(Exact name of registrant as specified in its charter)

Delaware
(State or other jurisdiction of
incorporation or organization)

94-2885898
(I.R.S. Employer
Identification No.)

198 Champion Court, San Jose, California 95134
(Address of principal executive offices and zip code)

(408) 943-2600
(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definitions of large accelerated filer, accelerated filer, and smaller reporting company in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer
Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company
Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

The total number of outstanding shares of the registrant's common stock as of November 2, 2009 was 155,735,979

PART I FINANCIAL INFORMATION

Forward-Looking Statements

The discussion in this Quarterly Report on Form 10-Q contains statements that are not historical in nature, but are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, that involve risks and uncertainties, including, but not limited to, statements related to our plans to define, design and develop new programmable products and solutions; our ability to expand the adoption of our flagship PSoC devices; our plans to expand our customer base; the markets we intend to pursue; our continued plans to pursue flexible manufacturing capabilities; our ability to complete the divestiture of non-strategic, underperforming businesses while continuing to consider strategic relationships; our plans to transition our work to lower costs centers abroad; the number and impact of future personnel terminations and the expenses related thereto; our expectations, including the timing, related to our restructuring activities; our expectations regarding our active litigation matters and our ability to defend ourselves in those matters; the calculation of our unrecognized tax benefits, including events that could materially change the amount of such benefits; our expectations related to the Simtek acquisition; the adequacy of our cash and working capital positions and our intended uses for such cash and capital; our ability to obtain additional financing if needed; the value and liquidity of our investments in auction rate securities, and other debt investments, and whether such declines are temporary in nature or will impact our ability to meet our cash requirements; and our expectations regarding our outstanding warranty liability, our plans to repurchase stock, plans with respect to disposal activities/assets, and potential payments to Grace. We use words such as plan, anticipate, believe, expect, future, intend and similar expressions to identify forward-looking statements. Such forward-looking statements are made as of the date hereof and are based on our current expectations, beliefs and intentions regarding future events or our financial performance and the information available to management as of the date hereof. Except as required by law, we assume no responsibility to update any such forward-looking statements. Our actual results could differ materially from those expected, discussed or projected in the forward-looking statements contained in this Quarterly Report on Form 10-Q for any number of reasons, including, but not limited to, the state and future of the general economy and its impact on the markets we serve and our investments; current credit conditions; our ability to transform our business with a leading portfolio of programmable products; the number and nature of our competitors; our ability to develop new products; the changing environment and/or cycles of the semiconductor industry; the successful integration and achievement of the objectives of acquired businesses; our ability to efficiently manage our manufacturing facilities and achieve our cost goals emanating from flexible manufacturing; Cypress and SunPower's ability to maintain the tax-free nature of the SunPower spin-off; our success in our pending litigation matters, our ability to manage our investments and interest rate and exchange rate exposure; our ability to achieve liquidity in our investments, and the materialization of one or more of the risks set forth above or in Item 1A (*Risk Factors*) in this Quarterly Report on Form 10-Q.

Spin-Off of SunPower Corporation (SunPower)

Following completion of the spin-off of SunPower on September 29, 2008, Cypress no longer consolidated SunPower's financial results beginning in the fourth quarter of fiscal 2008 or addresses risk factors associated with SunPower's business, operations, financial condition and results of operations. For a detailed discussion of the risks affecting SunPower, investors should refer to SunPower's Quarterly Report on Form 10-Q for the three months ended September 27, 2009. The contents of such Form 10-Q are expressly not incorporated by reference herein.

CYPRESS SEMICONDUCTOR CORPORATION

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Fiscal Years

Cypress Semiconductor Corporation (Cypress or the Company) reports on a fiscal-year basis and we end our quarters on the Sunday closest to the end of the applicable calendar quarter, except in a 53-week fiscal year, in which case the additional week falls into the fourth quarter of that fiscal year. Fiscal 2009 has 53 weeks and fiscal 2008 had 52 weeks. The third quarter of fiscal 2009 ended on September 27, 2009 and the third quarter of fiscal 2008 ended on September 28, 2008.

Basis of Presentation

In the opinion of management, the accompanying unaudited condensed consolidated financial statements contain all adjustments necessary to state fairly the financial information included therein. The financial data should be read in conjunction with the audited consolidated financial statements and related notes thereto included in our Annual Report on Form 10-K for the fiscal year ended December 28, 2008.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

On September 29, 2008, we completed the spin-off of SunPower Corporation (SunPower), a majority-owned subsidiary through the distribution of a tax-free stock dividend to Cypress's stockholders. As a result, our historical financial statements have been restated to account for SunPower as a discontinued operation for all periods presented in this Quarterly Report on Form 10-Q. See Note 3 for further discussion.

Unless otherwise indicated, the Notes to Condensed Consolidated Financial Statements relate to the discussion of Cypress's continuing operations.

In June 2009, the Financial Accounting Standards Board (FASB) approved the FASB Accounting Standards Codification (the Codification) as the single source of authoritative nongovernmental generally accepted accounting principles (GAAP). All existing accounting standard documents, such as FASB, American Institute of Certified Public Accountants, Emerging Issues Task Force (EITF) and other related literature, excluding guidance from the Securities and Exchange Commission (SEC), have been superseded by the Codification. All other non-grandfathered, non-SEC accounting literature not included in the Codification has become non authoritative. The Codification did not change GAAP, but instead introduced a new structure that combines all authoritative standards into a comprehensive, topically organized online database. The Codification was effective for interim or annual periods ended after September 15, 2009, and impacted our financial statements as all future references to authoritative accounting literature will be referenced in accordance with the Codification.

As a result of our implementation of the Codification during the quarter ended September 27, 2009, previous references to new accounting standards and literature are no longer applicable. In the current quarter financial statements, we provide reference to both new and old guidance to assist in understanding the impacts of recently adopted accounting literature, particularly for guidance adopted since the beginning of the current fiscal year but prior to the Codification.

Certain prior year balances have been revised to conform to current year presentation, including the retrospective application of adopting FSP APB 14-1, Accounting for Convertible Debt Instruments That May Be Settled in Cash upon Conversion (Including Partial Cash Settlement) , (FSP APB 14-1), now referred to as ASC 470. Under FSP APB 14-1, the liability and equity components of convertible debt instruments that may be settled wholly or partially in cash upon conversion must be accounted for separately in a manner reflective of our nonconvertible debt borrowing rate. Previous guidance provided for accounting for this type of convertible debt instrument entirely as debt. We have retrospectively applied this change in accounting to affected accounts for all periods presented. Refer to Note 2 for more information.

The consolidated results of operations for the nine months ended September 27, 2009 are not necessarily indicative of the results to be expected for the full fiscal year.

Table of Contents**CYPRESS SEMICONDUCTOR CORPORATION****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(Unaudited)****Recently Adopted and Recently Issued Accounting Standards**

In May 2008, FASB issued APB 14-1 now referred to as ASC 470, which clarifies the accounting for convertible debt instruments that may be settled in cash upon conversion, including partial cash settlement. The FSP specifies that an issuer of such instruments should separately account for the liability and equity components of the instruments in a manner that reflects the issuer's non-convertible debt borrowing rate when interest costs are recognized in subsequent periods. The FSP was effective in the first quarter of 2009, and retrospective application is required for all periods presented. As a result of our adoption of this pronouncement we recorded additional non-cash interest and other expense of approximately \$1.1 million and \$146.1 million during the nine months ended September 27, 2009 and September 28, 2008, respectively.

In December 2008, the FASB issued FSP No. FAS 132(R)-1, *Employers' Disclosures about Postretirement Benefit Plan Assets* (FSP 132(R)-1), now referred to as ASC 715. This FSP provides guidance on an employer's disclosures about plan assets of a defined benefit pension or other postretirement plan. The FSP requires disclosures surrounding how investment allocation decisions are made, including the factors that are pertinent to an understanding of investment policies and strategies. Additional disclosures include (a) the major categories of plan assets, (b) the inputs and valuation techniques used to measure the fair value of plan assets, and (c) the effect of fair value measurements using significant unobservable inputs (Level 3) on changes in plan assets for the period and the significant concentrations of risk within plan assets. The disclosures are required to be provided for fiscal years ending after December 15, 2009. We are currently evaluating the impact of FSP 132(R)-1.

In April 2009, the FASB issued FSP 157-4, *Determining Fair Value When the Volume and Level of Activity for the Asset or Liability have Significantly Decreased and Identifying Transactions That Are Not Orderly*, now referred to as ASC 820. FSP 157-4 provides guidance on how to determine the fair value of assets and liabilities under SFAS No. 157 *Fair Value Measurements*. The FSP relates to determining fair values when there is no active market or where the price inputs being used represent distressed sales. It reaffirms that the objective of fair value measurement is to reflect how much an asset would be sold for in an orderly transaction (as opposed to a distressed forced transaction) at the date of the financial statements under current market conditions. Specifically, it reaffirms the need to use judgment to ascertain if a formerly active market has become inactive and in determining fair values when markets have become inactive. The FSP was effective in the second quarter of 2009. The adoption of FSP 157-4 did not have a material impact on our condensed consolidated financial statements.

In April 2009, the FASB issued FAS 115-2 and FAS 124-2 guidance on *Recognition of Other-Than-Temporary-Impairments*, now referred to as ASP 320. This FSP amends the other-than-temporary impairment guidance for debt securities and improves the presentation and disclosure of other-than-temporary impairments on debt and equity securities in the financial statements. This FSP does not amend existing recognition and measurement guidance related to other-than-temporary impairments of equity securities. Under this FSP, if the debt security's market value is below amortized cost and we either intend to sell the security or it is more likely than not that we will be required to sell the security before its anticipated recovery, we would record an other-than-temporary impairment charge to other income and expense, net. If we do not intend to sell the security and it is more likely than not that we will not be required to sell the security before its anticipated recovery, the revised guidance requires us to determine the portion of the other-than-temporary impairment related to credit factors, or the credit loss portion, and the portion that is not related to credit factors, or the non-credit loss portion. The credit loss portion is the difference between the amortized cost of the security and our best estimate of the present value of the cash flows expected to be collected from the debt security and is recorded as a charge to other income and expense, net. The non-credit loss portion is the difference between the decline in fair value and the credit loss portion of the other-than-temporary impairment and is recorded as a separate component of other comprehensive income (loss). At adoption, the non-credit loss portion of the other-than-temporary impairment to date is to be recorded to other comprehensive income (loss), offset by an entry to the retained earnings as a one-time adjustment. As a result of our adoption of this FSP in the second quarter of 2009, we reclassified the non-credit portion of the previously recognized other-than-temporary impairment losses related to our auction rate securities of \$5.3 million, from accumulated deficit to accumulated other comprehensive income and loss.

In May 2009, the FASB issued SFAS No. 165 *Subsequent Events*, now referred to as ASC 165, which establishes general standards of accounting for and disclosure of events that occur after the balance sheet date but before financial statements are issued or are available to be issued. This statement sets forth the circumstances under which an entity should recognize events or transactions occurring after the balance sheet date in its financial statements. SFAS No. 165 also requires the disclosure of the date through which an entity has evaluated subsequent events and the basis for that date—that is, whether that date represents the date the financial statements were issued or were available to be

Edgar Filing: CYPRESS SEMICONDUCTOR CORP /DE/ - Form 10-Q

issued. This statement was effective in the second quarter of 2009. The adoption of this standard did not have a significant impact on our condensed consolidated financial statements or related footnotes.

Table of Contents**CYPRESS SEMICONDUCTOR CORPORATION****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(Unaudited)****NOTE 2. REVISION OF PRIOR PERIOD FINANCIAL STATEMENTS****Impact of the adoption of FSP APB 14-1:**

Effective January 1, 2009, we adopted the provisions of FSP APB 14-1, which applies to certain convertible debt instruments that have a net settlement feature, which means instruments that by their terms may be settled either wholly or partially in cash upon conversion. Under FSP APB 14-1, the liability and equity components of convertible debt instruments that may be settled wholly or partially in cash upon conversion must be accounted for separately in a manner reflective of our nonconvertible debt borrowing rate. Since our 1.00% Notes and our 1.25% convertible subordinated notes (1.25% Notes were issued in 2003 which we redeemed in February 2007), had an equity component that can or could be settled in cash or equity, both debt instruments qualified for treatment under this new accounting standard.

Our effective borrowing rate for nonconvertible debt at the time of issuance of the 1.00% Notes was estimated to be 6.15% and for our 1.25% Notes it was estimated to be 6.20%. For the 1.00% Notes this resulted in \$70.6 million of the \$600 million aggregate principal amount of debentures issued being attributable to equity. For the 1.25% Notes this resulted in \$126.0 million of the \$600 million aggregate principal amount of debentures issued being attributable to equity.

The cumulative effect as of December 29, 2008 (the first day of fiscal 2009) of the change in accounting principle was a decrease to convertible debt of approximately \$1.0 million for the discount on the 1.00% Notes, a decrease to additional paid-in capital of approximately \$43.4 million, a decrease to accumulated deficit of approximately \$44.5 million and an increase to debt issuance cost of approximately \$0.1 million. As a result of the change in the accounting principle, the cumulative effect of the higher interest cost from both our 1.00% and 1.25% Notes is being offset by the losses on our extinguishment of debt which are now being recorded to equity.

Our adoption resulted in higher interest and other expense of \$1.1 million and \$146.1 million for the first three quarters of fiscal 2009 and 2008, respectively. As of December 28, 2008, there was \$1.0 million of the initial \$70.6 million debt discount (1.00% Notes) which remained unamortized, which was amortized through September 2009. As of September 27, 2009, all of the debt had matured or been redeemed and the debt discount was fully amortized. The tax effect of our adoption was immaterial to our financial statements.

Inventory Adjustment

During the third quarter of 2009, we identified historically immaterial errors related to the value of our raw material inventory balances located in the Philippines. We assessed the materiality of these errors on prior periods financial statements in accordance with the SEC's Staff Accounting Bulletin No. 99 (SAB 99), and concluded that the errors were not material to any prior annual or interim periods but the cumulative error would be material to the three months ended September 27, 2009, if the entire correction was recorded in the current period. Accordingly, we have revised certain prior year amounts and balances for the three and nine months ended September 28, 2008 and as of December 28, 2008 to allow for the correct recording of these transactions in accordance with SEC's Staff Accounting Bulletin No. 108, *Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statement*.

The following table summarizes the effects of FSP APB 14-1 and the correction to inventory and accumulated deficit on our Condensed Consolidated Statement of Operations for the three months and nine months ended September 28, 2008 and on our Condensed Consolidated Balance Sheet as of December 28, 2008:

Three Months Ended		Nine Months Ended	
September 27,	September 28,	September 27,	September 28,
2009	2008	2009	2008
(In thousands)

Inventories, net as revised	\$ 114,862
Convertible debt, as reported	\$ 27,999
Adjustment for FSP APB 14-1	(976)
Convertible debt, as revised	\$ 27,023

There was no tax effect for the inventory error correction for the three and nine months ended September 28, 2008 due to the immaterial impact in foreign jurisdictions and the negligible impact on our net operating loss carry forwards in the United States against which we have a full valuation allowance.

For the nine months ended September 28, 2008, the impact of the error correction on gross profit was \$1.5 million. This amount represented 0.5% of the gross margin for the nine months ended September 28, 2008. The impact on gross profit for the three months ended September 28, 2008 was \$43,000.

There was no impact on the Condensed Consolidated Statements of Cash Flows for the three and nine months ended September 28, 2008.

Table of Contents**CYPRESS SEMICONDUCTOR CORPORATION****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(Unaudited)****NOTE 3. SUNPOWER**

The following table summarizes our historical ownership interest in SunPower:

	September 28, 2008
Number of shares of SunPower Class B common stock owned by Cypress	42.0 million
As a percentage of SunPower's outstanding capital stock	50%
As a percentage of SunPower's outstanding capital stock on a fully diluted basis	47%
As a percentage of total voting power of SunPower's outstanding capital stock	89%

Spin-Off of SunPower

In the third quarter of 2008, a committee of our Board of Directors (the Board) approved the distribution of the SunPower Class B common stock held by us to Cypress's stockholders. On September 29, 2008 we completed the distribution of 42.0 million shares of SunPower Class B common stock to our stockholders (the Spin-Off). The distribution was made pro rata to our stockholders of record as of the close of trading on the New York Stock Exchange on September 17, 2008 (the Record Date). As a result of the Spin-Off, each of our stockholders received approximately 0.274 of a share of SunPower Class B common stock for each share of Cypress common stock held as of the Record Date. The market value of the distribution was approximately \$2.6 billion based on the closing price of SunPower's common stock on September 29, 2008.

We received a favorable ruling from the Internal Revenue Service (IRS) in April 2008 with respect to certain tax issues arising under Section 355 of the Internal Revenue Code in connection with the Spin-Off. The distribution was structured to be tax-free to Cypress and our stockholders for U.S. federal income tax purposes, except in respect to cash received in lieu of fractional shares.

Discontinued Operations:

Our historical consolidated financial statements have been recast to account for SunPower as discontinued operations for all periods presented. Accordingly, we have reflected the results of operations of SunPower prior to the Spin-Off as discontinued operations in the Condensed Consolidated Statements of Operations and the Condensed Consolidated Statements of Cash Flows.

Table of Contents**CYPRESS SEMICONDUCTOR CORPORATION****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(Unaudited)**

The following table summarizes the results of operations related to the discontinued operations for the three and nine months ended September 28, 2008:

2012	3,632
2013 and thereafter	3,423
Total future amortization expense	\$ 16,262

NOTE 5. RESTRUCTURING

We recorded restructuring charges of \$14.5 million and \$12.2 million during the nine months ended September 27, 2009 and September 28, 2008, respectively.

Fiscal 2008/9 Restructuring Plan

During the third quarter of fiscal 2008, we initiated a restructuring plan, as part of a company-wide cost saving initiative aimed to reduce operating costs in response to the economic downturn, which continued into the third quarter of 2009 (Fiscal 2008/9 Restructuring Plan). In accordance with SFAS No. 112, Employers Accounting for Post Employment Benefits (SFAS No. 112), now referred to as ASC 712, and SFAS No. 146, Accounting for Costs Associated with Exit or Disposal Activities (SFAS No. 146), now referred to as ASC 420, at September 27, 2009 we recorded a total of \$26.2 million under the Fiscal 2008/9 Restructuring Plan, of which \$22.6 million was related to personnel costs and \$3.6 million was related to other exit costs. The determination of when we accrue for severance and benefits costs, and which standard applies, depends on whether the termination benefits are provided under a one-time benefit arrangement as defined by SFAS No. 146 or under an on-going benefit arrangement as described by SFAS No. 112. Restructuring activities related to personnel costs are summarized as follows:

(In thousands)	
Balance as of December 28, 2008	\$ 7,374
Provision	7,741
Non-cash forgiveness of employee loans	(73)
Cash payments	(3,214)
Balance as of March 29, 2009	11,828
Provision	327
Cash payments	(6,311)
Balance as of June 28, 2009	5,844
Provision	2,954
Cash payments	(4,233)
Balance as of September 27, 2009	\$ 4,565

Edgar Filing: CYPRESS SEMICONDUCTOR CORP /DE/ - Form 10-Q

Upon completion of our restructuring activities we expect to eliminate 967 positions of which 619 positions are manufacturing related positions and 348 are corporate and other related positions.

As of September 27, 2009, 862 of the employees to be terminated in these restructurings have been terminated and the majority of the remaining 105 employee terminations are expected to be completed by the second quarter of fiscal 2010.

Fiscal 2007 Restructuring Plan

During the fourth quarter of fiscal 2007, we implemented a restructuring plan to exit our manufacturing facility located in Round Rock, Texas (Fiscal 2007 Restructuring Plan). The Fiscal 2007 Restructuring Plan included the termination of employees and the disposal of assets, primarily consisting of land, building and manufacturing equipment, located in the Texas facility. The Fiscal 2007 Restructuring Plan did not involve the discontinuation of any material product lines or other functions.

To date, we recorded total restructuring charges of \$10.5 million related to the Fiscal 2007 Restructuring Plan. We recorded \$9.9 million of expense in fiscal 2008 and \$0.6 million of expense in fiscal 2007. We also recorded a \$1.3 million credit in fiscal 2009, which relates to the \$2.4 million net gain on the sale of equipment located at our Texas facility, partially offset by the \$0.5 million workforce reserve. Of the total restructuring charges, \$8.0 million was related primarily to personnel costs and \$2.5 million was related to property, plant and equipment and other exit costs.

Table of Contents

CYPRESS SEMICONDUCTOR CORPORATION

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Unaudited)

Personnel Costs:

Restructuring activities related to personnel costs are summarized as follows:

(In thousands)	
Balance as of December 28, 2008	\$ 2,721
Additional provision	518
Cash payments	(2,476)
Balance as of March 29, 2009	763
Additional provision	60
Cash payments	(629)
Balance as of June 28, 2009	194
Additional provision	49
Cash payments	(243)
Balance as of September 27, 2009	\$

We completed the termination of the remaining employees in the first quarter of fiscal 2009, all balances related to benefits were paid by the third quarter of fiscal 2009.

Property, Plant and Equipment:

The Texas facility ceased operations in the fourth quarter of fiscal 2008. As our management has committed to a plan to dispose of the assets associated with the facility by sale, we have classified the assets as held for sale and valued the assets at the lower of their carrying amount or fair value less cost to sell. Fair value was determined by market prices estimated by third parties that specialize in sales of such assets. Based on this analysis in fiscal 2008, we recorded a write-down of \$1.9 million related to the assets and \$1.2 million of related disposal and other facility costs.

The following table summarizes the net book value of the remaining restructured assets that were classified as held for sale and included in Other current assets in the Condensed Consolidated Balance Sheets as of September 27, 2009 and December 28, 2008:

	As of	
	September 27, 2009	December 28, 2008
(In thousands)		
Land	\$ 994	\$ 994
Equipment	373	1,112
Buildings and leasehold improvements	6,430	6,430
Total property, plant and equipment, net	\$ 7,797	\$ 8,536

We plan to complete the disposal of the remaining restructured assets by the fourth quarter of fiscal 2009; however our ability to complete the sale of any restructured assets may be impacted by the current economic and credit conditions.

Valuation Techniques:

We use quoted prices for identical instruments in active markets to determine the fair value for our Level 1 financial instruments, which include U.S. treasuries, money market funds and marketable equity securities. Our employee deferred compensation plan is classified as Level 1 as the plan invests in mutual funds, marketable equity securities and our common stock.

If quoted prices in active markets for identical assets or liabilities are not available to determine the fair value of our financial instruments, then we use observable inputs including benchmark yields, reported trades, broker/dealer quotes or alternative pricing sources with reasonable levels of price transparency. The investments classified as Level 2 primarily consist of commercial paper

Table of Contents

CYPRESS SEMICONDUCTOR CORPORATION

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Unaudited)

(with the exception of one investment which is classified as Level 3) and corporate notes/bonds. In addition, we have derivative instruments that are classified as Level 2 financial assets. We determine the fair value of these instruments based on modeling techniques that include inputs such as market volatilities, spot rates and interest differentials from published sources.

Our Level 3 financial assets primarily include investments in auction rate securities and a commercial paper investment. The valuation techniques are described as follows:

Auction Rate Securities:

As of September 27, 2009, we have classified all of our auction rate securities as Level 3 financial instruments. Auction rate securities are investments with contractual maturities generally between 20 and 30 years. They are usually found in the form of municipal bonds, preferred stock, a pool of student loans or collateralized debt obligations with interest rates resetting every seven to 49 days through an auction process. At the end of each reset period, investors can sell or continue to hold the securities at par. The auction rate securities held by us are primarily backed by student loans and are over-collateralized, insured and guaranteed by the U.S. Federal Department of Education.

As of September 27, 2009, 95% of the auction rate securities held by us were rated as either AAA or Aaa and the remaining 5% of the securities were rated Baa3 or above by the major independent rating agencies.

As of September 27, 2009, all of our auction rate securities have experienced failed auctions due to sell orders exceeding buy orders. Currently, these failures are not believed to be a credit issue with the underlying investments, but rather caused by a lack of liquidity. Under the contractual terms, the issuer is obligated to pay penalty rates should an auction fail. The funds associated with failed auctions are not expected to be accessible until one of the following occurs: a successful auction occurs, the issuer redeems the issue, a buyer is found outside of the auction process or the underlying securities have matured. Given these circumstances and the lack of liquidity, we have classified our auction rate securities totaling \$34.2 million as long-term investments as of September 27, 2009.

We performed analyses to assess the fair value of our auction rate securities. In the absence of a liquid market to value these securities, we prepared a valuation model based on discounted cash flows. The assumptions used at September 27, 2009 were as follows:

7 years to liquidity;

continued receipt of contractual interest which provides a premium spread for failed auctions; and

discount rates of 2.5% - 5.3%, which incorporates a spread for both credit and liquidity risk.

Based on these assumptions, we estimated that the auction rate securities should be valued at approximately 89% of their stated par value as of September 27, 2009. During the first quarter of fiscal 2009 we determined that the decline in value was other-than-temporary and we recorded an impairment charge of \$1.4 million. During the third quarter of fiscal 2009 \$0.4 million of our auction rate security were called at par. No impairment charges were recorded during the second and third quarters of fiscal 2009. We do not believe that the lack of liquidity of our auction rate securities will have a material impact on our overall ability to meet our cash requirements for the foreseeable future.

Commercial Paper:

Edgar Filing: CYPRESS SEMICONDUCTOR CORP /DE/ - Form 10-Q

As of September 27, 2009, we have classified one commercial paper investment totaling \$0.6 million as a Level 3 financial asset. The investment was issued through a structured investment vehicle that was partially impaired as the issuer was unable to raise sufficient funding to cover maturing obligations.

Assets Measured at Fair Value on a Non-Recurring Basis

The following table presents our fair value hierarchy for our investments measured at fair value on a non-recurring basis and the impairment loss related to these investments:

	Level 1	Level 2	Level 3	Total as of September 27, 2009 (In thousands)	Impairment Loss Recorded in Other Income (Expense), Net	
					Three Months Ended September 27, 2009	Three Months Ended September 28, 2008
Non-marketable equity securities	\$	\$	\$ 1,227	\$ 1,227	\$	\$ (532)

We measure our equity investments in privately held companies at fair value on a non-recurring basis. The balance of the investments was \$1.2 million as of September 27, 2009. These investments are measured at fair value when they are deemed to be other-than-temporarily impaired. We measured the fair value of such investments using a combination of the income approach and the market approach. The income approach included a discounted cash flow analysis, which required the use of unobservable inputs, including assumptions of projected revenues, expenses, capital spending and other costs, as well as a discount rate calculated based on the risk profile of the investees. The market approach included using financial metrics and ratios of comparable public companies. All of our impaired non-marketable equity investments were classified as Level 3 instruments, as we use unobservable inputs to value these investments and the valuation requires significant management judgment. The valuation of our non-marketable equity investments also takes into account the movements of the equity and venture capital markets, recent financing activities by the investees, changes in the interest rate environment, the investees' capital structure, liquidation preferences for the investees' capital, and other economic variables.

Currently, the available-for-sale debt investments that we hold are all high investment grade. The unrealized losses on our investments were due primarily to changes in interest rates and market conditions of the underlying securities. Because we do not intend to sell and it is likely we will not be required to sell before recovering our cost, which may be maturity, except for the impairment recorded in the respective periods, we did not consider these investments to be other-than-temporarily impaired as of September 27, 2009 and December 28, 2008.

Table of Contents**CYPRESS SEMICONDUCTOR CORPORATION****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(Unaudited)**

For individual marketable equity securities with unrealized losses, we evaluated the near-term prospects in relation to the severity and duration of the impairment. Based on that evaluation and our ability and intent to hold these investments for a reasonable period of time, we did not consider these investments to be other-than-temporarily impaired as of September 27, 2009 and December 28, 2008.

As of September 27, 2009, contractual maturities of our available-for-sale, non-equity investments were as follows:

	Cost	Fair Value
	(In thousands)	
Maturing within one year	\$ 125,670	\$ 125,670
Maturing in one to three years	30,551	31,394
Maturing in more than three years	38,965	34,857
Total	\$ 195,186	\$ 191,921

Realized gains and losses from sales of available-for-sale, non-equity investments were immaterial for all periods presented.

Proceeds from sales or maturities of available-for-sale investments were \$21.2 million and \$308.9 million for the nine months ended September 27, 2009 and September 28, 2008, respectively.

Table of Contents**CYPRESS SEMICONDUCTOR CORPORATION****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(Unaudited)****Employee Deferred Compensation Plan**

We have a deferred compensation plan, which provides certain key employees, including our executive management, with the ability to defer the receipt of compensation in order to accumulate funds for retirement on a tax-deferred basis. We do not make contributions to the deferred compensation plan or guarantee returns on the investments. Participant deferrals and investment gains and losses remain with us and the assets are subject to claims of general creditors.

We account for the deferred compensation plan in accordance with EITF Issue No. 97-14, Accounting for Deferred Compensation Arrangements Where Amounts Earned Are Held in a Rabbi Trust and Invested, now referred to as ASC 710. In accordance with EITF Issue No. 97-14, the assets are recorded at fair value in each reporting period with the offset being recorded in Other income (expense), net. The liabilities are recorded at fair value in each reporting period with the offset being recorded as an operating expense or income. As of September 27, 2009 and December 28, 2008, the fair value of the assets was \$24.2 million and \$20.2 million, respectively, and the fair value of the liabilities were \$23.6 million and \$20.5 million, respectively.

All non-cash expense and income recorded under the deferred compensation plan were included in the following line items in the Condensed Consolidated Statements of Operations:

	Three Months Ended		Nine Months Ended	
	September 27, 2009	September 28, 2008	September 27, 2009	September 28, 2008

Total income (expense)	\$ (162)	\$ (281)	\$ (451)	\$ 39

NOTE 9. STOCK-BASED COMPENSATION**Modification of Outstanding Employee Equity Awards**

As discussed in Note 3, in fiscal 2008, the Board in conjunction with the Spin-Off, approved certain adjustments to our 1994 and 1999 Stock Plans (together, the Plans). Specifically, the Board approved amendments to make proportionate adjustments to, among other things, outstanding employee equity awards, including stock options, restricted stock units and restricted stock awards, under the Plans to preserve the intrinsic value of the awards before and after the Spin-Off. These changes included a proportionate adjustment in the number of shares issuable pursuant to the outstanding awards and the per-share exercise price of the options.

The Board also approved certain adjustments with respect to our Employee Stock Purchase Plan (the ESPP) to offset the decrease in our common stock price resulting from the Spin-Off. These changes included a proportionate adjustment in the offering date price per share of our common stock and maximum number of shares participants may purchase under the ESPP.

Edgar Filing: CYPRESS SEMICONDUCTOR CORP /DE/ - Form 10-Q

In accordance with SFAS No. 123 (revised 2004) Share-Based Payment, now referred to as ASC 718, the modification of the outstanding employee equity awards and the ESPP resulted in additional non-cash stock-based compensation. The amount was measured based upon the difference between the fair value of the awards immediately before and after the modification. Of the total additional non-cash stock-based compensation, \$10.9 million was recognized in the third quarter of fiscal 2009 and the remaining \$36.0 million will be recognized over the remaining vesting periods on an accelerated basis pursuant to FASB Interpretation No. 28, Accounting for Stock Appreciation Rights and Other Variable Stock Option or Award Plans, now referred to as ASC 260,

Table of Contents**CYPRESS SEMICONDUCTOR CORPORATION****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(Unaudited)**

The following tables summarize the stock-based compensation expense, including the expense related to the modification discussed above, by line item recorded in the Condensed Consolidated Statements of Operations:

	Three Months Ended		Nine Months Ended	
	September 27, 2009	September 28, 2008	September 27, 2009	September 28, 2008
	(In thousands)			
Cost of revenues	\$ 8,295	\$ 13,757	\$ 33,761	\$ 21,937
Research and development	7,680	15,970	31,038	26,071
Selling, general and administrative	14,701	27,884	51,800	44,966
Total stock-based compensation expense	\$ 30,676	\$ 57,611	\$ 116,599	\$ 92,974

Consolidated cash proceeds from the issuance of shares under the employee stock plans were approximately \$82.0 million for the nine months ended September 27, 2009 and \$49.4 million for the nine months ended September 28, 2008. We did not recognize a benefit from stock option exercises in the nine months ended September 27, 2009 or September 28, 2008.

As of September 27, 2009 and December 28, 2008, stock-based compensation capitalized in inventories totaled \$5.9 million and \$11.0 million, respectively.

The following table summarizes the stock-based compensation expense by type of award:

	Three Months Ended		Nine Months Ended	
	September 27, 2009	September 28, 2008	September 27, 2009	September 28, 2008
	(In thousands)

Total stock-based compensation expense	\$ 30,676	\$ 57,611	\$ 116,599	\$ 92,974

The following table summarizes the unrecognized stock-based compensation balance by type of award at September 27, 2009:

	(In thousands)	Weighted-Average Amortization Period
		(In years)
Stock options	\$ 54,920	2.01
Restricted stock units and restricted stock awards	68,936	2.38
ESPP	3,167	0.43

Total unrecognized stock-based compensation balance \$ 127,023 2.17

Valuation Assumptions

We estimated the fair value of the stock options using the Black-Scholes valuation model with the following assumptions:

	Three Months Ended				Nine Months Ended			
	September 27, 2009		September 28, 2008		September 27, 2009		September 28, 2008	
Expected life	2.4	7.1 years	2.9	8.1 years	2.4	7.4 years	0.5	9.9 years
Volatility	50.1% - 54.8%		43.4% - 49.9%		50.4% - 60.8%		43.5% - 50.5%	
Risk-free interest rate	1.13% - 3.21%		2.45% - 3.68%		0.90% - 3.21%		2.00% - 3.89%	
Dividend yield	0.0%		0.0%		0.0%		0.0%	

The fair value of the restricted stock units and the restricted stock awards was based on our stock price on the date of grant.

Table of Contents**CYPRESS SEMICONDUCTOR CORPORATION****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(Unaudited)****Equity Incentive Program Related to Cypress's Common Stock**

As of September 27, 2009, approximately 14.4 million stock options or 7.7 million restricted stock units and restricted stock awards were available for grant under the Amended 1994 Stock Plan, and no stock options were available for grant under the 1999 Stock Option Plan as the plan expired in March 2009.

Stock Options:

The following table summarizes our stock option activities:

	Shares (In thousands, except	Weighted-Average Exercise Price Per Share per- share amount)

CYPRESS SEMICONDUCTOR CORPORATION

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Unaudited)

The balance as of September 27, 2009 included approximately 10.9 million performance-based restricted stock units and restricted stock awards granted under the Amended 1994 Stock Plan. The awards were issued to certain senior-level employees and can be earned ratably, as milestones are set based upon the achievement of certain performance results of Cypress, over the next two to three years.

On March 12, 2009, the Compensation Committee (the Committee) approved the performance milestone achievements for 2008. The Committee, in its review of the performance achievements under 2008 PARS and other factors, exercised its discretion under our 1994 Stock Plan and adjusted the calculation methodology for certain performance milestones under the 2008 PARS. The adjusted methodology allowed us to calculate performance achievements based on financial operational results for the first three fiscal quarters of 2008 with respect to 75% of the participants targeted PARS, and the performance calculations for the remaining 25% targeted PARS to be based on financial and operations results of the fourth quarter of 2008. The targeted gross margins for the fourth fiscal quarter of 2008 were adjusted to account for product mix and under loading of our manufacturing facilities as we proactively took steps to manage down inventory in a rapidly declining market. In exercising its discretion, the Committee considered the sharp global economic downturn which hit heavily in the fourth quarter of 2008; a sharp downturn not foreseen in industry forecasts or the Cypress plan for 2008. The Committee also factored in the impact of the final separation of SunPower, a major project and point of discontinuity in the operations of the company, as part of the basis for the exercise of its discretion. As a result we recorded additional stock-based compensation of approximately \$11.1 million in the first quarter of fiscal 2009.

During the first quarter of fiscal 2009, the Committee established the milestones for the first half of fiscal 2009 for approximately 2.3 million of the outstanding performance-based awards. These performance-based milestones include the achievement of certain performance results of our common stock appreciation target against the Philadelphia Semiconductor Sector Index (SOXX), certain levels of non-GAAP free cash flows and certain levels of non-GAAP operating expense. These awards are earned upon the Committee's certification that the specified market and/or performance milestones have been achieved. If the milestones are not achieved, the shares are forfeited and cannot be earned in future periods.

The fair value of the shares with the market-condition milestone was determined using a Monte Carlo valuation methodology with the following weighted-average assumptions: volatility of our common stock of 69.6%; volatility of the SOXX of 57.4%; correlation coefficient of 0.69; and risk-free interest rate of 0.3%. The fair value of the shares with the performance-related milestones was equivalent to the grant-date fair value of our common stock.

On August 6, 2009, the Committee approved the performance milestones for the first half of 2009 which resulted in the release of 2.1 million shares of performance-based restricted stock units and restricted stock awards, prior to required tax payments. In addition on August 6, 2009, the Committee set three performance milestones required for the second half of fiscal 2009 for approximately 2.3 million of the outstanding performance-based awards currently set to be achieved by the end of the fourth fiscal quarter of 2009. These performance-based milestones include the achievement of certain performance results of our common stock appreciation target against the SOXX, certain levels of non-GAAP gross margin percentage and certain levels of non-GAAP operating income for the performance period. These milestones are adjusted for any non-planned, one-time and unusual transactions as designated by the Committee. These awards are earned upon the Committee's certification that the specified market and/or performance milestones have been achieved. If the milestones are not achieved, the shares are forfeited and cannot be earned in future periods.

The fair value of the shares with the market-condition milestone was determined using a Monte Carlo valuation methodology with the following weighted-average assumptions: volatility of our common stock of 43.5%; volatility of the SOXX of 40.4%; correlation coefficient of 0.71; and risk-free interest rate of 0.2%. The fair value of the shares with the performance-related milestones was equivalent to the grant-date fair value of our common stock.

NOTE 10. COMMITMENTS AND CONTINGENCIES

Lease Guarantees

During fiscal 2005, we entered into a strategic foundry partnership with Grace Semiconductor Manufacturing Corporation (Grace), pursuant to which we have transferred certain of our proprietary process technologies to Grace's Shanghai, China facility. In accordance with a foundry

agreement executed in fiscal 2006, we purchase wafers from Grace that are produced using these process technologies.

Table of Contents**CYPRESS SEMICONDUCTOR CORPORATION****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(Unaudited)**

Pursuant to a master lease agreement, Grace has leased certain semiconductor manufacturing equipment from a financing company. In conjunction with the master lease agreement, we have entered into a series of guarantees with the financing company for the benefit of Grace. Under the guarantees, we have agreed to unconditional guarantees to the financing company of the rental payments payable by Grace for the leased equipment under the master lease agreement. If Grace fails to pay any of the quarterly rental payments, we will be obligated to pay such outstanding amounts within 10 days of a written demand from the financing company. If we fail to pay such amount, interest will accrue at a rate of 9% per annum on any unpaid amounts. To date, we have not been required to make any payments under these guarantees. As of September 2009 we updated our assessment of the likelihood that we would have to settle the outstanding lease payments and we determined that is was not probable. As a result we have not recorded any liability relating to outstanding lease payments.

Pursuant to the guarantees, we issued irrevocable letters of credit to secure the rental payments under the guarantees in the event a demand is made by the financing company on us. The amount available under the letters of credit will decline according to schedules mutually agreed upon by us and the financing company. If we default, the financing company will be entitled to draw on the letters of credit. In connection with the guarantees, we were granted options to purchase ordinary shares of Grace. As of September 27, 2009, we determined that the fair value of the guarantees and the options was not material to our condensed consolidated financial statements.

The following table summarizes the terms and status of the guarantees:

Fiscal Year	Number of Guarantees	Lease Term of Equipment Under Each Guarantee	Outstanding Rental Payments		Outstanding Irrevocable Letters of Credit		Grace Options Granted to Cypress
			At Inception	As of September 27, 2009	At Inception	As of September 27, 2009	
2006	One	36 months	\$ 8,255	\$ 688	\$ 6,392	\$ 1,132	2,272
2007	Five	36 months	42,278	11,258	32,726	12,101	26,924
2008	One	36 months	10,372	5,186	7,918	4,907	11,684
			\$ 60,905	\$ 17,132	\$ 47,036	\$ 18,140	40,880

Product Warranties

We generally warrant our products against defects in materials and workmanship for a period of one year and that product warranty is generally limited to a refund of the original purchase price of the product or a replacement part. We estimate our warranty costs based on historical warranty claim experience. Warranty returns are included in the allowance for sales returns. The allowance for sales returns is reviewed quarterly to verify that it properly reflects the remaining obligations based on the anticipated returns over the balance of the obligation period.

The following table presents our warranty activities, including amounts recorded in the allowance for sales returns:

	Three Months Ended		Nine Months Ended

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Unaudited)

Litigation and Asserted Claims

In connection with the DOJ's investigation of the SRAM market (which the DOJ concluded in December 2008 and which did not result in any allegation or charge against the Company), in October 2006, we, along with a majority of the other SRAM manufacturers, were named in numerous consumer class action suits that have now been consolidated in the U.S. District Court for the Northern District of California. The cases variously allege claims under the Sherman Antitrust Act and various state antitrust laws. The lawsuits seek restitution, injunction and damages in an unspecified amount. The parties are engaged in the discovery and the class certification process. Trial is tentatively scheduled for January 2011. We were also named in purported consumer antitrust class action suits in three provinces of Canada. We believe we have meritorious defenses to these allegations and will vigorously defend ourselves in these matters.

We, along with several other co-defendants, are party to trade secret misappropriation litigation filed by Silvaco Data Systems in the Santa Clara Superior Court in May 2004. On February 10, 2009, summary judgment was granted in our favor in this matter. Silvaco has appealed our victory as it has with the other co-defendants. As of the date of this filing, the parties are awaiting a hearing date from the Court of Appeals. We believe we have meritorious defenses to these allegations and will vigorously defend ourselves in these matters.

On August 21, 2009, X-Point Technologies filed a single patent infringement case against Cypress and 29 other defendants in the U.S. District Court in Delaware. The patent at issue covers X-Point's technology for data transfer between storage devices and network devices without the use of a CPU or memory. X-Point has made no specific demand for relief in this matter. We believe we have meritorious defenses to the allegations set forth in the complaint and will vigorously defend ourselves in this matter.

We are currently a party to various other legal proceedings, claims, disputes and litigation arising in the ordinary course of business. Based on our own investigations, we believe the ultimate outcome of our current legal proceedings, individually and in the aggregate, will not have a material adverse effect on our financial position, results of operation or cash flows. However, because of the nature and inherent uncertainties of the litigation, should the outcome of these actions be unfavorable, our business, financial condition, results of operations or cash flows could be materially and adversely affected.

Contractual Obligations

As of September 27, 2009, our unrecognized tax benefits were \$38.3 million, which were classified as long-term liabilities. At this time, we are unable to make a reasonably reliable estimate of the timing of payments, if any, in individual years due to uncertainties in the timing or outcomes of either actual or anticipated tax audits. As a result, this amount is not included in the table above.

NOTE 11. DEBT AND EQUITY TRANSACTIONS

1.00% Convertible Senior Notes (1.00% Notes)

On September 15, 2009, our entire remaining and outstanding 1.00% Notes of approximately \$28 million in principal matured and were settled. Holders received cash for the principal amount of the 1.00% Notes and the entire premium. The final conversion price per 1.00% Notes as calculated under the Indenture, was \$1,841.76 including principal and premium. Consistent with the terms of the Indenture, on September 15, 2009, we paid approximately \$51.6 million for the principal amount of 1.00% Notes, premium and accrued and unpaid interest.

As of December 28, 2008, the carrying value of the 1.00% Notes was \$27.0 million and the fair value was \$28.0 million. The fair value of the 1.00% Notes was determined based on quoted market prices.

The 1.00% Notes had interest payable semiannually in arrears in cash on March 15 and September 15 of each year. The 1.00% Notes matured on September 15, 2009. The 1.00% Notes were initially convertible, subject to certain conditions, into cash up to the lesser of the principal amount or the conversion value.

Edgar Filing: CYPRESS SEMICONDUCTOR CORP /DE/ - Form 10-Q

The 1.00% Notes were unsubordinated and unsecured senior obligations of Cypress, and ranked equal in right of payment with all of our other existing and future unsubordinated and unsecured obligations, ranked junior in right of payment to any of our secured obligations to the extent of the value of the collateral securing such obligations, and were subordinated in right of payment to all existing and future obligations of our subsidiaries.

Table of Contents**CYPRESS SEMICONDUCTOR CORPORATION****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(Unaudited)*****Convertible Note Hedge and Warrants:***

In connection with the issuance of the 1.00% Notes, we had a convertible note hedge transaction with respect to our common stock with the option counterparties (Credit Suisse International and Deutsche Bank AG) covering the same amount of common stock that was issuable upon conversion of the 1.00% Notes in order to reduce the potential dilution upon conversion of the 1.00% Notes in the event that the market value per share of our common stock at the time of exercise is greater than the conversion price of the 1.00% Notes. In addition, we had entered into a warrant transaction in which we sold to the option counterparties warrants to acquire the same number of shares of our common stock underlying the 1.00% Notes. On September 15, 2009, the hedge matured and as a result we received \$23.6 million from the counter parties. In addition, we repurchased and settled the outstanding warrants, issued on March 13, 2007, through a cash payment of approximately \$20.3 million to the counter parties holding the warrants.

Line of Credit

In March 2009, we extended our line of credit with Silicon Valley Bank to March 2010 with a total available amount of \$55.0 million. Loans made under the line of credit bear interest based upon the Wall Street Journal Prime Rate (3.25% as of September 27, 2009) or LIBOR plus 2.5% (2.5% as of September 27, 2009). The line of credit agreement includes a variety of covenants including restrictions on the incurrence of indebtedness, incurrence of loans, the payment of dividends or distribution on our capital stock, and transfers of assets and financial covenants with respect to an adjusted quick ratio and tangible net worth. As of September 27, 2009, we were in compliance with all of the financial covenants. Our obligations under the line of credit are guaranteed and collateralized by the common stock of certain of our business entities. We intend to use the line of credit on an as-needed basis to fund working capital and capital expenditures. To date, there have been no borrowings under the line of credit.

In conjunction with certain guarantees, we issued irrevocable standby letters of credit in the aggregate amount of \$47.0 million to secure payments under an equipment lease. As of September 27, 2009, the letters of credit have been reduced to \$18.1 million. See Lease Guarantees under Note 10 for further discussion.

Stock Repurchase Program

During the first quarter of fiscal 2008, our Board approved an additional \$300.0 million under the stock repurchase program, bringing the total amount that may be used for stock purchases to \$600.0 million. During the first quarter of fiscal 2009, we used \$6.5 million to repurchase approximately 1.4 million shares at an average share price of \$4.59. During the second quarter of fiscal 2009, we used \$4.7 million to repurchase approximately 0.7 million shares at an average share price of \$6.82. No stock repurchases were made during the third quarter of fiscal 2009. As of September 27, 2009, the remaining balance available for future stock repurchases was \$213.2 million under the stock repurchase program. Refer to Note 17 for additional information on stock repurchases.

NOTE 12. ACCUMULATED OTHER COMPREHENSIVE INCOME AND COMPREHENSIVE LOSS

The components of accumulated other comprehensive income and loss were as follows:

	September 27, 2009	As of December 28, 2008
	(In thousands)	
Accumulated net unrealized gains (losses) on available-for-sale investments	\$ (688)	\$ 2,427
Accumulated net unrealized gain on derivatives		106

Total accumulated other comprehensive income (loss)	\$ (688)	\$ 2,533
---	----------	----------

Table of Contents**CYPRESS SEMICONDUCTOR CORPORATION****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(Unaudited)**

The components of comprehensive income (loss), net of tax, were as follows:

	Three Months Ended		Nine Months Ended	
	September 27, 2009	September 28, 2008	September 27, 2009	September 28, 2008
	(In thousands)			
Net income (loss)	\$ (19,656)	\$ 137,981	\$ (153,276)	\$ 130,144
Net unrealized gains (losses) on available-for-sale investments	548	20	(3,124)	(2,200)
Net unrealized gains on derivatives		(53)	(54)	(106)
Total comprehensive income (loss)	\$ (19,108)	\$ 137,948	\$ (156,454)	\$ 127,838

NOTE 13. FOREIGN CURRENCY DERIVATIVES

We operate and sell products in various global markets and purchase capital equipment using foreign currencies. As a result, we are exposed to risks associated with changes in foreign currency exchange rates. We may use various hedge instruments from time to time to manage the exposures associated with purchases of foreign sourced equipment, net asset or liability positions of its subsidiaries and forecasted revenues and expenses. We do not enter into foreign currency derivative financial instruments for speculative or trading purposes. The counterparties to these hedging transactions are creditworthy multinational banks and the risk of counterparty nonperformance associated with these contracts is not considered to be material as of September 27, 2009.

As of September 27, 2009 and December 28, 2008, our hedge instruments consisted primarily of foreign currency forward contracts. We estimate the fair value of our forward contracts based on spot and forward rates from published sources.

We record hedges of certain foreign currency denominated monetary assets and liabilities at fair value at the end of each reporting period with the related gains or losses recorded in Other income (expense), net in the Condensed Consolidated Statements of Operations. The gains or losses on these contracts are substantially offset by transaction gains or losses on the underlying balances being hedged. As of September 27, 2009 and December 28, 2008, we had outstanding forward contracts with an aggregate notional value of \$2.1 million and \$1.4 million, respectively, to hedge the risks associated with foreign currency denominated assets and liabilities.

NOTE 14. INCOME TAXES

Our income tax expense was \$0.2 million for the three months ended September 27, 2009 and income tax expense was \$22.4 million for the three months ended September 28, 2008. Our income tax expense was \$4.2 million for the nine months ended September 27, 2009 and income tax expense was \$10.3 million for the nine months ended September 28, 2008. The tax provision for the third quarter and first nine months of fiscal 2009 was primarily attributable to non-U.S. taxes on income earned in foreign jurisdictions. The tax provision for the third quarter and the first nine months of fiscal 2008 was primarily attributable to non-U.S. taxes on income earned in foreign jurisdictions, partially offset by the amortization of a deferred tax liability associated with purchased intangible assets. In addition, during the second quarter of fiscal 2008, we reached a resolution of the U.S. income tax examination for the tax years 2003 and 2004, which resulted in tax accruals (primarily alternative minimum tax) of \$5.5 million. The tax provision for the first nine months of fiscal 2008 was partially offset by a release of previously accrued taxes and interest of \$7.3 million due to the resolution of the U.S. income tax examination, a change in an estimate of potential withholding tax liability in a foreign jurisdiction including accrued interest, which resulted in the recognition of \$14.1 million in additional tax benefits, and subsequent measurements of potential foreign taxes of \$3.9 million accrued in prior years.

Unrecognized Tax Benefits

Edgar Filing: CYPRESS SEMICONDUCTOR CORP /DE/ - Form 10-Q

As of September 27, 2009 and December 28, 2008, the amounts of unrecognized tax benefits that, if recognized, would affect the effective tax rate totaled \$36.5 million and \$20.4 million, respectively.

Table of Contents

CYPRESS SEMICONDUCTOR CORPORATION

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Unaudited)

Management believes events that could occur in the next 12 months and cause a material change in unrecognized tax benefits include, but are not limited to, the following:

completion of examinations by foreign taxing authorities; and

expiration of statute of limitations on our tax returns.

The calculation of unrecognized tax benefits involves dealing with uncertainties in the application of complex global tax regulations. Management regularly assesses our tax positions in light of legislative, bilateral tax treaty, regulatory and judicial developments in the countries in which we do business. Management determined that an estimate of the range of reasonably possible change in the amounts of unrecognized tax benefits within the next 12 months cannot be made.

Classification of Interest and Penalties

Our policy is to classify interest and penalties, if any, as components of the income tax provision in the Condensed Consolidated Statements of Operations. As of September 27, 2009 and December 28, 2008, accrued interest and penalties totaled \$6.4 million and \$4.4 million, respectively.

Tax Years and Examination

While years prior to 2005 for the U.S. corporate tax return are not open for assessment, the IRS can adjust net operating loss and research and development carryovers that were generated in prior years and carried forward to 2005.

Spin-Off of SunPower

We have a tax sharing agreement with SunPower providing for each of the parties' obligations concerning various tax liabilities. The tax sharing agreement is structured such that we with SunPower will pay all federal, state, local and foreign taxes that are calculated on a consolidated or combined basis (as defined under applicable federal, state or foreign law) reduced by SunPower's portion of such tax liability or benefit determined based upon its separate return tax liability as defined under the tax sharing agreement. Such liability or benefit will be based on a pro forma calculation as if SunPower were filing a separate income tax return in each jurisdiction, rather than on a combined or consolidated basis with us subject to adjustments as set forth in the tax sharing agreement.

SunPower ceased to be a member of our (1) consolidated group for federal income tax purposes and most state income tax purposes (in those states which require or allow the filing of a consolidated state income tax return based upon U.S. federal consolidation rules), as of June 6, 2006, and (2) remaining state combined group for state income tax purposes, as of September 29, 2008 (the date of the Spin-Off). To the extent that SunPower becomes entitled to utilize on its separate tax returns portions of those credit or loss carry forwards existing as of such dates, SunPower will pay us the tax effect, measured at 35% for federal income tax purposes, of the amount of such tax loss carry forwards so utilized, and the amount of any credit carry forwards so utilized. SunPower will pay these amounts us in cash or in SunPower's shares, at SunPower's option. As of September 27, 2009, SunPower has \$44.0 million of federal net operating loss carry forwards and \$5.0 million of federal and state tax credits subject to payment to us under the tax sharing agreement amounting to approximately \$20.4 million. Accordingly, we have recorded a receivable from SunPower in the amount of \$16.4 million of which \$15.1 million was received on October 15, 2009 and we expect to receive the remaining \$1.3 million over the next three months. This receivable is included in other current assets with a corresponding increase to additional paid in capital.

In connection with the Spin-Off (see Note 3), Cypress and SunPower entered into an amendment to the existing tax sharing agreement between the parties to address certain transactions that may affect the tax treatment of the Spin-Off and certain other matters. Under the amended tax

sharing agreement, SunPower is required to provide notice to us of certain transactions that could give rise to SunPower's indemnification obligation relating to taxes resulting from the application of Section 355(e) of the Internal Revenue Code or similar provision of other applicable law to the Spin-Off as a result of one or more acquisitions (within the meaning of Section 355(e)) of SunPower's stock after the Spin-Off.

Table of Contents**CYPRESS SEMICONDUCTOR CORPORATION****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(Unaudited)**

In addition, under the amended tax sharing agreement and subject to certain exceptions, SunPower agreed that, for a period of 25 months following the Spin-Off, it will not: (a) effect a transaction that would result in a recapitalization as defined by the parties (Recapitalization) or (b) enter into or facilitate any other transaction resulting in an acquisition (within the meaning of Section 355(e) of the Internal Revenue Code) of SunPower's stock without first obtaining our written consent. SunPower further agreed that it will not: (a) effect a Recapitalization during the 36 month period following the Spin-Off without first obtaining a tax opinion to the effect that such Recapitalization (either alone or when taken together with any other transaction or transactions) will not cause the Spin-Off to become taxable under Section 355(e), or (b) seek any private ruling, including any supplemental private ruling, from the IRS with regard to the Spin-Off, or any transaction having any bearing on the tax treatment of the Spin-Off, without our prior written consent.

NOTE 15. NET INCOME (LOSS) PER SHARE

The following table sets forth the computation of basic and diluted net income (loss) per share:

	Three Months Ended		Nine Months Ended	
	September 27, 2009	September 28, 2008	September 27, 2009	September 28, 2008
	(In thousands, except per-share amounts)			
Net income (loss) basic and diluted:				
Income (loss) from continuing operations	\$ (19,656)	\$ 127,150	\$ (153,276)	\$ 94,949
Income from discontinued operations, net of taxes		10,831		35,195
Net income (loss)	\$ (19,656)	\$ 137,981	\$ (153,276)	\$ 130,144
Weighted-average common shares	151,784	151,939	142,549	152,525
Weighted-average diluted shares	151,784	160,066	142,549	161,077
Net income (loss) per share basic:				
Continuing operations	\$ (0.13)	\$ 0.84	\$ (1.08)	\$ 0.62
Discontinued operations		0.07		0.23
Basic net income (loss) per share	\$ (0.13)	\$ 0.91	\$ (1.08)	\$ 0.85
Net income (loss) per share diluted:				
Continuing operations	\$ (0.13)	\$ 0.79	\$ (1.08)	\$ 0.59
Discontinued operations		0.07		0.22
Diluted net income (loss) per share	\$ (0.13)	\$ 0.86	\$ (1.08)	\$ 0.81

The following anti-dilutive securities were excluded from the diluted calculation:

	Three Months Ended		Nine Months Ended	
	September 27, 2009	September 28, 2008	September 27, 2009	September 28, 2008
	(In thousands)			

Edgar Filing: CYPRESS SEMICONDUCTOR CORP /DE/ - Form 10-Q

Stock options, restricted stock units and restricted stock awards	28,639	22,720	21,919	25,272
Convertible debt	1,922		641	
Warrants	1,674		887	

Convertible Debt:

The 1.00% Notes was convertible debt which requires us to settle the principal value of the debt in cash and any conversion premium in either cash or stock, at our election. In connection with the issuance of the 1.00% Notes, we had entered into a convertible note hedge transaction with respect to our common stock with the option counterparties covering the same amount of common stock that is issuable upon conversion of the 1.00% Notes in order to reduce the potential dilution in the event that the market value per share of our common stock at the time of exercise is greater than the conversion price of the 1.00% Notes. In addition, we had entered into a warrant transaction in which we sold to the option counterparties warrants to acquire the same number of shares of our common stock underlying the 1.00% Notes. We applied the treasury stock method in determining the dilutive impact of both the 1.00% Notes and the warrants. In accordance with SFAS No. 128, Earnings per Share, now referred to as ASC 260 the convertible note hedge is excluded from the diluted earnings per share computation as it is anti-dilutive.

CYPRESS SEMICONDUCTOR CORPORATION

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Unaudited)

Customer Information

We sell our products to original equipment manufacturers, or OEMs, and to electronic components distributors who resell these products to OEMs, or their subcontract manufacturers. For the three and nine months ended September 27, 2009 and September 28, 2008, no one end customer accounted for more than 10% of our total revenues. For the three and nine months ended September 27, 2009 and September 28, 2008, one distributor, Avnet Inc. accounted for 15.0% and 14.2%, and 11.1% and 11.9%, respectively, of our total revenues.

NOTE 17. SUBSEQUENT EVENTS

On February 22, 2008, we issued a press release announcing that we had been authorized by the Board to add an additional \$300 million to its authorized stock repurchase program, doubling the size of the program previously announced by Cypress in January 2007 to \$600 million. Since February 2008, the Company has purchased approximately 43 million shares of its common stock at a cost of approximately \$422 million. This total includes 3.7 million shares purchased at a cost of approximately \$35.1 million since the end of the third quarter. In light of certain tax constraints placed on the Company in connection with the tax-free spin of SunPower, the Company has no current intentions of repurchasing additional stock under the existing program. Accordingly, on October 28, 2009, the Audit Committee of the Board voted to rescind the remaining \$178 million available under the program for additional repurchases.

On October 28, 2009 the Audit Committee also approved a yield enhancement strategy intended to improve the yield on the Company's available non-strategic cash. As part of this program, the Audit Committee authorized investments in structures which are correlated to Cypress stock price. In one such structure, we pay a fixed sum of cash upon execution of an agreement in exchange for the right to receive either a pre-determined amount of cash or Cypress stock depending on the closing market price of its common stock on the expiration date of the agreement. Upon expiration of each agreement, if the closing market price of its common stock is above the pre-determined price, we will have our cash investment returned plus a yield substantially above the yield available today for short term cash investments. If the closing market price is at or below the pre-determined price, we will receive the number of shares specified at the agreement's inception.

On October 29, 2009, we entered into a short-term yield enhanced structured agreement totaling \$31.9 million. Upon settlement of this agreement, we expect to receive \$32.3 million in cash. However if upon settlement of the agreement our stock price is at or below the pre-determined price, we will receive 4 million shares of our common stock.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The Management's Discussion and Analysis of Financial Condition and Results of Operations in this Quarterly Report of Form 10-Q contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, that involve risks and uncertainties, which are discussed in the "Forward-Looking Statements" section under Part I of this Quarterly Report on Form 10-Q.

EXECUTIVE SUMMARY

General

Our mission is to transform Cypress Semiconductor Corporation (Cypress) from a traditional, broad-line semiconductor company into a leading supplier of proprietary and programmable solutions in systems everywhere. We deliver high-performance, mixed-signal, programmable solutions that provide customers with integration, rapid time-to-market and system value. Our offerings include Programmable System-on-Chip (PSoC) products, capacitive sensing and touchscreen solutions, universal serial bus (USB) controllers, and general-purpose programmable clocks and memories. Cypress also provides wired and wireless connectivity solutions, including, respectively, West Bridge® controllers, which enhance performance in multimedia handsets, and the CyFi low-power RF solution, offering reliability, simplicity and power-efficiency.

Cypress also offers a wide portfolio of static random access memories, nonvolatile memories and image sensor products. Cypress serves numerous markets, including consumer, computation, data communications, automotive, medical, industrial and white goods.

Table of Contents

Our organization included the following business segments as of the end of the third quarter of fiscal 2009:

Business Segments	Description
Consumer and Computation Division	a product division focusing on PSoC, USB and timing solutions
Data Communications Division	a product division focusing on data communication devices for wireless handset and professional / personal video systems
Memory and Imaging Division	a product division focusing on static random access memories, nonvolatile memories and image sensor products
Emerging Technologies and other	includes Cypress EnviroSystems, and AgigaTech, Inc., both majority-owned subsidiaries of Cypress, the ONS and China business units and certain foundry-related services and corporate expenses

Spin-Off of SunPower Corporation (SunPower)

On September 29, 2008, the first day of our fourth quarter of fiscal 2008, we completed the distribution of all of our 42.0 million shares of SunPower Class B common stock to our stockholders (the Spin-Off). The distribution was made pro rata to our stockholders of record as of the close of trading on September 17, 2008. As a result of the Spin-Off, each stockholder received approximately 0.274 of a share of SunPower Class B common stock for each share of Cypress's common stock held by such stockholder. The market value of the distribution was approximately \$2.6 billion based on the closing price of SunPower common stock on September 29, 2008.

We received a favorable ruling from the Internal Revenue Service in April 2008 with respect to certain tax issues arising under Section 355 of the Internal Revenue Code in connection with the Spin-Off. The distribution was structured to be tax-free to us and our stockholders for U.S. federal income tax purposes, except in respect to cash received in lieu of fractional shares.

See Note 3 of Notes to Condensed Consolidated Financial Statements for a detailed discussion of the Spin-Off. Unless otherwise indicated, this Quarterly Report on Form 10-Q includes discussion of our continuing operations.

Adjustments to Cypress's Stock Plans:

On August 1, 2008, the Board of Directors (the Board) approved certain adjustments to our 1994 and 1999 Stock Plans (together, the Plans) and outstanding employee equity awards in anticipation of the Spin-Off. These adjustments were consistent with and similar to the provisions in the Plans providing for automatic adjustment of service provider equity awards and share pools pursuant to a stock split or similar change in capitalization effected without receipt of consideration by us.

On September 30, 2008, following the Spin-Off, outstanding employee equity awards under the Plans were adjusted by a conversion ratio of 4.12022 (the Conversion Ratio). Specifically, the number of shares issuable pursuant to the outstanding awards was multiplied by the Conversion Ratio and rounded down to the nearest whole share. In addition, the per-share exercise price of outstanding options was divided by the Conversion Ratio and rounded up to the nearest whole cent. Also, the number of authorized but unissued shares reserved for issuance under the Plans and the ESPP and the numerical provisions under the Plans' annual grant limits and automatic option grant provisions, including automatic grants to Board members, were multiplied by the Conversion Ratio and rounded down to the nearest whole share.

Stock-Based Compensation:

The modification of the outstanding employee equity awards and the ESPP approved by the Board on August 1, 2008 resulted in additional non-cash stock-based compensation. The amount was measured based upon the difference between the fair value of the awards immediately before and after the modification. Of the total additional non-cash stock-based compensation, \$10.9 million was recognized in the third quarter of fiscal 2009 and \$36.0 million will be recognized over the remaining vesting periods on an accelerated basis.

Manufacturing Strategy

Our core manufacturing strategy flexible manufacturing combines capacity from leading foundries with output from our internal manufacturing facilities. This initiative allows us to meet rapid swings in customer demand while lessening the burden of high fixed costs, a capability that is particularly important in high-volume consumer markets that we serve with our leading programmable product portfolio.

Table of Contents

Consistent with this strategy, our Board approved a plan in December 2007 to exit our manufacturing facility in Texas and transfer production to our more cost-competitive facility in Minnesota and outside foundries. We substantially completed our exit plan by the end of fiscal 2008.

Revision of Prior Period Financial Statements

Certain prior year balances have been revised to conform to current year presentation, including the retrospective application of adopting FSP APB 14-1, Accounting for Convertible Debt Instruments That May Be Settled in Cash upon Conversion (Including Partial Cash Settlement), (FSP APB 14-1), now referred to as ASC 470. Under FSP APB 14-1, the liability and equity components of convertible debt instruments that may be settled wholly or partially in cash upon conversion must be accounted for separately in a manner reflective of our nonconvertible debt borrowing rate. Previous guidance provided for accounting for this type of convertible debt instrument entirely as debt. We have retrospectively applied this change in accounting to affected accounts for all periods presented. Refer to Note 2 for more information.

During the third quarter of 2009, we identified historically immaterial errors related to the value of our raw material inventory balances located in the Philippines. We assessed the materiality of these errors on prior periods financial statements in accordance with the SEC's Staff Accounting Bulletin No. 99 (SAB 99), and concluded that the errors were not material to any prior annual or interim periods but the cumulative error would be material to the three months ended September 27, 2009, if the entire correction was recorded in the current period. Accordingly, we have revised certain prior year balances for the three and nine months ended September 28, 2008 and as of December 28, 2008 to allow for the correct recording of these transactions in accordance with SEC's Staff Accounting Bulletin No. 108, *Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statement*.

Results of Operations**Revenues**

The following table summarizes our consolidated revenues by segments:

(In thousands)	Three Months Ended		Nine Months Ended	
	September 27, 2009	September 28, 2008	September 27, 2009	September 28, 2008
Consumer and Computation Division	\$ 78,789	\$ 100,301	\$ 193,117	\$ 246,030
Data Communications Division	25,095	37,636	71,010	100,410
Memory and Imaging Division	71,706	84,107	203,951	247,610
Emerging Technologies	3,129	637	5,733	6,593
Total revenues	\$ 178,719	\$ 222,681	\$ 473,811	\$ 600,643

Consumer and Computation Division:

Revenues from the Consumer and Computation Division decreased approximately \$21.5 million in the third quarter of fiscal 2009, or approximately 21.4%, compared to the same prior-year period. The decrease was primarily attributable to a decrease of approximately \$11.6 million in sales of our USB products mainly due to the economic slowdown impacting demand in PC applications and consumer devices and increased competition in the consumer market. The decrease was also attributable to a decrease of \$4.5 million in sales of our timing solutions business unit (TSBU) resulting from reduced demand from certain large consumer and personal computer customers. Despite the current challenging economic environment, our PSOC product families, including our touchscreen family, continued to gain new design wins, expand their customer base and increase market penetration in a variety of end-market applications.

Revenues from the Consumer and Computation Division decreased approximately \$52.9 million in the first three quarters of fiscal 2009, or approximately 21.5%, compared to the same prior-year period. The decrease was primarily attributable to a decrease of approximately \$29.5 million in sales of our USB products mainly due to the economic slowdown impacting demand in PC applications and consumer devices and increased competition in the consumer market. The decrease was also attributable to a decrease of \$14.9 million in sales of our TSBU resulting from reduced demand from certain large consumer and personal computer customers. Despite the current challenging economic environment, our PSOC product families, including our touchscreen family, continued to gain new design wins, expand their customer base and increase market penetration in a variety of end-market applications.

Table of Contents**Data Communications Division:**

Revenues from the Data Communications Division decreased \$12.5 million in the third quarter of fiscal 2009, or approximately 33.3%, compared to the same prior-year period. The decrease was primarily attributable to a decrease of \$9.9 million in sales of 1) our specialty memory products due to the continued slow down in demand in the base-station market and 2) our programmable logic devices primarily due to the decline in military shipments.

Revenues from the Data Communications Division decreased \$29.4 million in the first three quarters of fiscal 2009, or approximately 29.3%, compared to the same prior-year period. The decrease was primarily attributable to a decrease of \$18.1 million in sales related to certain end of life programmable logic device products, primarily due to the decline in military shipments and our specialty memory products due to a continued decline in end consumer demand.

Memory and Imaging Division:

Revenues from the Memory and Imaging Division decreased \$12.4 million in the third quarter of fiscal 2009, or approximately 14.7%, compared to the same prior-year period. The decrease was primarily attributable to the economic slowdown impacting us by reducing sales by \$9.2 million of our SRAM products in networking, consumer and communications applications.

Revenues from the Memory and Imaging Division decreased \$43.7 million in the first three quarters of fiscal 2009, or approximately 17.6%, compared to the same prior-year period. The decrease was primarily attributable to the economic slowdown impacting us by reducing sales by \$39.2 million of our SRAM products in networking, consumer and communications applications.

Emerging Technologies:

Revenues from Emerging Technologies increased \$2.5 million in the third quarter of fiscal 2009, or compared to the third quarter of fiscal 2008. The increased in revenues was primarily attributable to an increase in demand.

Revenues from Emerging Technologies decreased \$0.9 million in the first three quarters of fiscal 2009, compared to the same period of fiscal 2008. The decrease in revenues was primarily attributable to a decrease of \$4.5 million in sales related to Silicon Light Machines which we divested in fiscal 2008 which was offset by an increase in demand for certain of our other products.

Cost of Revenues/Gross Margins

	Three Months Ended		Nine Months Ended	
	September 27, 2009	September 28, 2008	September 27, 2009	September 28, 2008
(In thousands, except percentages)				
Cost of revenues	\$ 94,184	\$ 124,165	\$ 298,150	\$ 321,684
Gross margin	47.3%	44.2%	37.1%	46.4%

Gross margin percentage increased from 44.2% in the third quarter of fiscal 2008 to 47.3% in the third quarter of fiscal 2009. The gross margin increase is primarily due to a higher stock compensation of \$5.5 million in the third quarter of fiscal 2008 compared to the third quarter of 2009. Gross margin percentage decreased from 46.4% in the first three quarters of fiscal 2008 to 37.1% in the first three quarters of fiscal 2009. The gross margin percentage decrease was primarily due to the stock-based compensation expense allocated to cost of revenue which increased by \$11.8 million during the first three quarters of fiscal 2009. This increase in stock-based compensation was mainly due to the modification of the outstanding employee equity awards approved by the Board in connection with the Spin-Off. Additionally, the gross margin percentage was also unfavorably impacted by inventory write-downs, under absorbed costs and reduced revenue in 2009.

Research and Development (R&D) Expenses

	Three Months Ended		Nine Months Ended	
	September 27, 2009	September 28, 2008	September 27, 2009	September 28, 2008
(In thousands, except percentages)				

Edgar Filing: CYPRESS SEMICONDUCTOR CORP /DE/ - Form 10-Q

R&D expenses	\$ 43,162	\$ 54,395	\$ 141,504	\$ 143,937
As a percentage of revenues	24.2%	24.4%	29.9%	24.0%

R&D expenditures decreased \$11.2 million in the third quarter of fiscal 2009 compared to same prior-year period. The decrease was primarily attributable to a decrease of \$8.3 million in stock-based compensation expense mainly due to the modification of the outstanding employee equity awards approved by the Board in connection with the Spin-Off. In addition, the decrease was also due to the reduction in employee related labor and other costs associated with the implementation of our Fiscal 2008/9 Restructuring Plan.

Table of Contents

R&D expenditures decreased \$2.4 million in the first three quarters of fiscal 2009 compared to same prior-year period. The decrease was primarily attributable to the reduction in employee related labor and other costs associated with the implementation of our Fiscal 2008/9 Restructuring Plan. This decrease was partially offset by an increase of \$5.0 million in stock-based compensation expense mainly due to the modification of the outstanding employee equity awards approved by the Board in connection with the Spin-Off.

Selling, General and Administrative (SG&A) Expenses

(In thousands, except percentages)	Three Months Ended		Nine Months Ended	
	September 27, 2009	September 28, 2008	September 27, 2009	September 28, 2008
SG&A expenses	\$ 55,116	\$ 79,495	\$ 168,900	\$ 197,774
As a percentage of revenues	30.8%	35.7%	35.6%	32.9%

SG&A expenses decreased \$24.4 million in the third quarter of fiscal 2009 compared to the same prior-year period. The decrease was primarily attributable to a reduction of \$13.2 million in stock-based compensation expense mainly due to the modification of the outstanding employee equity awards approved by the Board in connection with the Spin-Off coupled with a decrease in employee related labor and other costs associated with the implementation of our Fiscal 2008/2009 Restructuring Plan as well as other cost reduction efforts.

SG&A expenses decreased \$28.9 million in the first three quarters of fiscal 2009 compared to the same prior-year period. The decrease was primarily attributable to the non-achievement of certain bonus programs in several quarters of 2009 in addition to the reduction in employee related labor costs and other costs associated with the implementation of our Fiscal 2008/2009 Restructuring Plan as well as other cost reduction efforts. The decrease was offset by an increase of \$6.8 million in stock-based compensation expense mainly due to the modification of the outstanding employee equity awards approved by the Board in connection with the Spin-Off.

Amortization of Acquisition-Related Intangible Assets

For the three months ended September 27, 2009, amortization decreased approximately \$0.1 million as compared to the corresponding fiscal 2008 period. The decrease in amortization was primarily due to certain intangible assets that had been fully amortized during fiscal 2008 offset by the increase in intangibles acquired as part of the Simtek acquisition.

Restructuring

We recorded restructuring charges of \$14.5 million and \$12.2 million during the nine months ended September 27, 2009 and September 28, 2008, respectively. The amount recorded during the three months ended September 27, 2009 included a provision of \$6.4 million for the Fiscal 2008/9 Restructuring Plan and \$1.0 million for the Fiscal 2007 Restructuring Plan. During the nine months ended September 27, 2009 the savings from our actions taken to date was approximately \$14.6 million. Upon completion of all of our actions we anticipate our savings in fiscal year 2010 to be approximately \$13.6 million per quarter. We estimate the savings will proportionately impact sales general and administrative expense by 25%, cost of goods sold by 41% and research and development expense by 32% although there can be no assurance of this.

Table of Contents**Fiscal 2008/9 Restructuring Plan:**

The charges in 2009 relate to a restructuring plan which was initiated during the third quarter of fiscal 2008 and was part of a company-wide cost saving initiative aimed to reduce operating costs in response to the economic downturn (Fiscal 2008/9 Restructuring Plan). We recorded a total of \$26.2 million under the Fiscal 2008/9 Restructuring Plan, of which \$22.6 million was related to personnel costs and \$3.6 million was related to other exit costs. The determination of when we accrue for severance costs, and which standard applies, depends on whether the termination benefits are provided under a one-time benefit arrangement as defined by SFAS No. 146 or under an on-going benefit arrangement as described by SFAS No. 112. Restructuring activities related to personnel cost, are summarized as follows:

(In thousands)	
Balance as of December 28, 2008	\$ 7,374
Provision	7,741
Non-cash forgiveness of employee loans	(73)
Cash payments	(3,214)
Balance as of March 29, 2009	11,828
Provision	327
Cash payments	(6,311)
Balance as of June 28, 2009	5,844
Provision	2,954
Cash payments	(4,233)
Balance as of September 27, 2009	\$ 4,565

Upon completion of our restructuring activities we expect to eliminate approximately 967 positions of which approximately 619 positions are manufacturing related and 348 are corporate and other related positions.

As of September 27, 2009, 862 of the employees to be terminated in these restructurings have been terminated and the majority of the remaining 105 employee terminations are expected to be completed by the second quarter 2010.

Fiscal 2007 Restructuring Plan:

During the fourth quarter of fiscal 2007, we implemented a restructuring plan to exit our manufacturing facility located in Round Rock, Texas (Fiscal 2007 Restructuring Plan). Under the Fiscal 2007 Restructuring Plan, we transitioned production from the Texas facility to our more cost-effective facility in Bloomington, Minnesota as well as outside third-party foundries. The Fiscal 2007 Restructuring Plan included the termination of employees and the disposal of assets, primarily consisting of land, building and manufacturing equipment, located in the Texas facility. The Fiscal 2007 Restructuring Plan did not involve the discontinuation of any material product lines or other functions.

To date, we recorded total restructuring charges of \$10.5 million related to the Fiscal 2007 Restructuring Plan. We recorded \$9.9 million of expense in fiscal 2008 and \$0.6 million of expense in fiscal 2007. We also recorded a \$1.3 million credit in fiscal 2009 which relates to the \$2.4 million net gain on the sale of equipment located at our Texas facility partially offset by the \$0.5 million workforce reserve. Of the total restructuring charges, \$8.0 million was related primarily to personnel costs and \$2.5 million was related to property, plant and equipment and other exit costs.

Personnel Costs:

Restructuring activities related to personnel costs are summarized as follows:

(In thousands)	
Balance as of December 28, 2008	\$ 2,721

Edgar Filing: CYPRESS SEMICONDUCTOR CORP /DE/ - Form 10-Q

Additional provision	518
Cash payments	(2,476)
Balance as of March 29, 2009	763
Additional provision	60
Cash payments	(629)
Balance as of June 28, 2009	194
Additional provision	49
Cash payments	(243)
Balance as of September 27, 2009	\$

Table of Contents

We completed the termination of the remaining employees in the first quarter of fiscal 2009. These employees were primarily in manufacturing functions.

Property, Plant and Equipment:

The Texas facility ceased operations in the fourth quarter of fiscal 2008. As management has committed to a plan to dispose of the assets associated with the facility by sale, we have classified the assets as held for sale and valued the assets at the lower of their carrying amount or fair value. Fair value was determined by prices to be received from buyers of the assets or by market prices estimated by third parties that specialize in sales of such assets. Based on this analysis in fiscal 2008, we recorded a write-down of \$1.9 million related to the assets and \$1.2 million of related disposal and other facility costs.

The following table summarizes the net book value of the remaining restructured assets that were classified as held for sale and included in Other current assets in the Consolidated Balance Sheet as of September 27, 2009:

	September 27, 2009	December 28, 2008
	(In thousands)	
Land	\$ 994	\$ 994
Equipment	373	1,112
Buildings and leasehold improvements	6,430	6,430
Total property, plant and equipment, net	\$ 7,797	\$ 8,536

We expect to complete the disposal of the restructured assets by the fourth quarter of fiscal 2009; however, there can be no assurance of this and our ability to complete the sale of any restructured assets may be impacted by the current economic and credit conditions.

Interest Income

Interest income decreased \$18.6 million in the first three quarters of fiscal 2009 compared to the first three quarters of fiscal 2008. The decrease was primarily driven by lower average interest rates as we shifted our portfolio to more liquid and safe investments such as U.S. treasuries, coupled with lower average cash and investment balances.

Interest Expense

Interest expense was \$1.3 million in the first three quarters of fiscal 2009 compared to \$30.6 million in the first three quarters of fiscal 2008. The decrease was primarily attributable to the conversion element of the outstanding 1.00% Notes which resulted in the recording of \$26.1 million non-cash interest expense in the first three quarters of fiscal 2008.

Other Income (Expense), Net

The following table summarizes the components of other expense, net:

(In thousands)	Three Months Ended		Nine Months Ended	
	September 27, 2009	September 28, 2008	September 27, 2009	September 28, 2008
Impairment of investments	\$	\$ (673)	\$ (1,731)	\$ (5,001)
Foreign currency exchange gain (loss), net	(143)	(79)	177	2,299
Changes in fair value of investment under the employee deferred compensation plan	2,514	(2,232)	4,149	(4,708)
Other	(29)	671	196	343

Total other income (expense), net	\$ 2,342	\$ (2,313)	\$ 2,791	\$ (7,067)
-----------------------------------	----------	------------	----------	------------

Employee Deferred Compensation Plan:

We have a deferred compensation plan, which provides certain key employees, including our executive management, with the ability to defer the receipt of compensation in order to accumulate funds for retirement on a tax deferred basis. We do not make contributions to the deferred compensation plan and we do not guarantee returns on the investments. Participant deferrals and investment gains and losses remain our assets and are subject to claims of general creditors.

Table of Contents

We account for the deferred compensation plan in accordance with Emerging Issues Task Force (EITF) Issue No. 97-14, now referred to as ASC 710, Accounting for Deferred Compensation Arrangements Where Amounts Earned Are Held in a Rabbi Trust and Invested. In accordance with EITF Issue No. 97-14, the assets are recorded at fair value in each reporting period with the offset being recorded in Other income (expense), net. The liabilities are recorded at fair value in each reporting period with the offset being recorded as an operating expense or income.

All non-cash expense and income recorded under the deferred compensation plan were included in the following line items in the Condensed Consolidated Statements of Operations:

	Three Months Ended		Nine Months Ended	
	September 27, 2009	September 28, 2008	September 27, 2009	September 28, 2008
	(In thousands)			
Changes in fair value of assets recorded in:				
Other expense, net	\$ 2,514	\$ (2,232)	\$ 4,149	\$ (4,708)
Changes in fair value of liabilities recorded in:				
Cost of revenues	(268)	644	(459)	1,567
Research and development expenses	(737)	742	(1,391)	1,806
Selling, general and administrative expenses	(1,671)	566	(2,750)	1,374
Total income (expense)	\$ (162)	\$ (280)	\$ (451)	\$ 39

Income Taxes

Our income tax expense was \$0.2 million for the three months ended September 27, 2009 and income tax expense was \$22.4 million for the three months ended September 28, 2008. Our income tax expense was \$4.2 million for the nine months ended September 27, 2009 and income tax expense was \$10.3 million for the nine months ended September 28, 2008. The tax provision for the third quarter and the first nine months of fiscal 2008 was primarily attributable to non-U.S. taxes on income earned in foreign jurisdictions, partially offset by the amortization of a deferred tax liability associated with purchased intangible assets. In addition, during the second quarter of fiscal 2008, we reached a resolution of the U.S. income tax examination for the tax years 2003 and 2004, which resulted in tax accruals (primarily alternative minimum tax) of \$5.5 million. The tax provision for the first nine months of fiscal 2008 was partially offset by a release of previously accrued taxes and interest of \$7.3 million due to the resolution of the U.S. income tax examination, a change in an estimate of potential withholding tax liability in a foreign jurisdiction including accrued interest, which resulted in the recognition of \$14.1 million in additional tax benefits, and subsequent measurements of potential foreign taxes of \$3.9 million accrued in prior years.

LIQUIDITY AND CAPITAL RESOURCES

The following table summarizes information regarding our cash and investments, working capital and debt:

(In thousands)	As of	
	September 27, 2009	December 28, 2008
Cash, cash equivalents and short-term investments	\$ 246,368	\$ 237,792
Working capital	\$ 267,045	\$ 241,370
Convertible debt short-term	\$	\$ 27,023

Key Components of Cash Flows

(In thousands)	Nine Months Ended	
	September 27, 2009	September 28, 2008
Net cash provided by operating activities of continuing operations	\$ 14,028	\$ 61,261

Edgar Filing: CYPRESS SEMICONDUCTOR CORP /DE/ - Form 10-Q

Net cash provided by (used in) investing activities of continuing operations	\$ (37,702)	\$ 294,737
Net cash provided by (used in) financing activities of continuing operations	\$ 10,039	\$ (913,675)

Table of Contents

During the nine months ended September 27, 2009, net cash provided by operating activities was \$14.0 million compared to net cash provided by operating activities of \$61.3 million for the nine months ended September 28, 2008. Operating cash flows for the nine months ended September 27, 2009 were primarily driven by a net loss adjusted for certain non-cash items including depreciation and amortization, stock-based compensation expense, non-cash interest expense, restructuring charges and a net decrease in operating assets and liabilities. The decrease in accounts receivable was primarily driven by lower revenues. The decrease in inventories was primarily attributable to decreased demand requirements. The decrease in accounts payable and other liabilities was primarily driven by a decrease in sales which impacted our overall business activity.

During the nine months ended September 27, 2009, net cash used in investing activities was \$37.7 million compared to net cash provided by investing activities of \$294.7 million for the nine months ended September 28, 2008. For the nine months ended September 27, 2009, our investing activities primarily included: cash outflows for \$18.3 million of property and equipment expenditures and \$23.0 million from purchases of our investments, net of sales. For the nine months ended September 28, 2008, our investing activities primarily included \$34.1 million of property and equipment expenditures. These cash outflows were offset by cash proceeds of \$137.5 million from sales or maturities of our investments, net of purchases.

During the nine months ended September 27, 2009, net cash provided by financing activities was \$10.0 million compared to net cash used by financing activities of \$913.7 million for the nine months ended September 28, 2008. For the nine months ended September 27, 2009 we used \$51.6 million to redeem our convertible subordinated debt and \$11.2 million to repurchase our common shares, offset by net proceeds of \$69.5 million from the issuance of common shares under our employee stock plans. For the nine months ended September 28, 2008, we used \$701.9 million to redeem our convertible subordinated notes and \$277.1 million in cash to repurchase our common shares, partially offset by net cash proceeds of \$44.7 million from the issuance of common shares under our employee stock plans.

Liquidity and Contractual Obligations***Auction Rate Securities:***

As of September 27, 2009, all of our auction rate securities have experienced failed auctions due to sell orders exceeding buy orders. Currently, these failures are not believed to be a credit issue with the underlying investments, but rather caused by a lack of liquidity. We have classified our auction rate securities totaling \$34.2 million as long-term investments as of September 27, 2009.

During fiscal 2009, we performed analyses to assess the fair value of the auction rate securities. In the absence of a liquid market to value these securities, we prepared a valuation model based on discounted cash flows.

Based on the discounted cash flows, we estimated that the auction rate securities would be valued at approximately 89% of their stated par value as of September 27, 2009 and the auction rate securities are stated at that value.

Stock Repurchase Program:

The Board has approved \$600.0 million under the stock repurchase program. Stock repurchases under the program may be made through open market and privately negotiated transactions at times and in such amounts as management deems appropriate. The timing and actual number of shares repurchased will depend on a variety of factors including price, cash requirements, corporate and regulatory requirements and other market conditions. The program may be limited or terminated at any time without prior notice.

During fiscal 2008, Cypress used \$375.6 million in cash to repurchase a total of approximately 37.1 million shares at an average share price of \$10.13. Prior to the spin-off of SunPower, Cypress used \$277.1 million in cash to repurchase approximately 12.6 million shares at an average share price of \$21.95 and post spin off Cypress used \$98.5 million in cash to repurchase approximately 24.5 million shares at an average share price of \$4.03. During the first quarter of fiscal 2009, Cypress used \$6.5 million to repurchase approximately 1.4 million shares at an average share price of \$4.59. During the second quarter of fiscal 2009, we used \$4.7 million to repurchase approximately 0.7 million shares at an average share price of \$6.82. No shares were repurchased during the third quarter of 2009.

As of September 27, 2009, the remaining balance available for future stock repurchases was \$213.2 million under the stock repurchase program.

Due to certain spin-related tax limitations, management does not anticipate repurchasing more than 3.7 million shares for the next quarter. Refer to Note 17 for additional information on stock repurchases.

Table of Contents**Purchase Obligations:**

We have outstanding purchase obligations, which primarily include non-cancelable purchase orders for materials, services, manufacturing equipment, building improvements and supplies in the ordinary course of business. Purchase obligations are defined as enforceable agreements that are legally binding on us and that specify all significant terms, including quantity, price and timing. As of September 27, 2009, non-cancelable purchase obligations totaled approximately \$96.5 million.

Capital Resources and Financial Condition

Our long-term strategy is to maintain a minimum amount of cash and cash equivalents for operational purposes and to invest the remaining amount of our cash in interest-bearing and highly liquid cash equivalents and debt securities. As of September 27, 2009, in addition to \$191.1 million in cash and cash equivalents, we had \$55.3 million invested in short-term investments for a total cash and short-term investment position of \$246.4 million that is available for use in current operations. In addition, we had \$34.9 million of long-term investments primarily consisting of illiquid auction rate securities.

We believe that liquidity provided by existing cash, cash equivalents and investments and our borrowing arrangements will provide sufficient capital to meet our requirements for at least the next twelve months. However, should prevailing economic conditions and/or financial, business and other factors beyond our control adversely affect our estimates of our future cash requirements, we could be required to fund our cash requirements by alternative financing. There can be no assurance that additional financing, if needed, would be available on terms acceptable to us or at all. We may choose at any time to raise additional capital or debt to strengthen our financial position, facilitate growth, enter into strategic initiatives and provide us with additional flexibility to take advantage of other business opportunities that arise.

Off-Balance Sheet Arrangement

During fiscal 2005, we entered into a strategic foundry partnership with Grace Semiconductor Manufacturing Corporation (Grace), pursuant to which we have transferred certain of our proprietary process technologies to Grace's Shanghai, China facility. In accordance with a foundry agreement, we purchase wafers from Grace that are produced using these process technologies.

Grace has leased certain semiconductor manufacturing equipment from a financing company. In conjunction with the lease agreement, we have entered into a series of guarantees with the financing company for the benefit of Grace. Under the guarantees, we have agreed to unconditional guarantees to the financing company of the rental payments payable by Grace for the leased equipment under the master lease agreement. If Grace fails to pay any of the quarterly rental payments, we will be obligated to pay such outstanding amounts within 10 days of a written demand from the financing company. If we fail to pay such amount, interest will accrue at a rate of 9% per annum on any unpaid amounts. To date, we have not been required to make any payments under these guarantees. As of September 2009 we updated our assessment of the likelihood that we would have to settle the outstanding lease payments and we determined that it was not probable. As a result we have not recorded any liability relating to outstanding lease payments.

Pursuant to the guarantees, we issued irrevocable letters of credit to secure the rental payments under the guarantees in the event a demand is made by the financing company on us. The amount available under the letters of credit will decline according to schedules mutually agreed upon by us and the financing company. If we default, the financing company will be entitled to draw on the letters of credit.

In connection with the guarantees, we were granted options to purchase ordinary shares of Grace. As of September 27, 2009, we determined that the fair value of the guarantees and the options was not material to our consolidated financial statements.

The following table summarizes the terms and status of the guarantees:

Fiscal Year	Number of Guarantees	Lease Term of Equipment Under Each Guarantee	Outstanding Rental Payments		Outstanding Irrevocable Letters of Credit		Grace Options Granted to Cypress
			At Inception	As of September 27, 2009	At Inception	As of September 27, 2009	
2006	One	36 months	\$ 8,255	\$ 688	\$ 6,392	\$ 1,132	2,272
2007	Five	36 months	42,278	11,258	32,726	12,101	26,924

Edgar Filing: CYPRESS SEMICONDUCTOR CORP /DE/ - Form 10-Q

2008	One	36 months	10,372	5,186	7,918	4,907	11,684
			\$ 60,905	\$ 17,132	\$ 47,036	\$ 18,140	40,880

Table of Contents**ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK****Interest Rate Risks**

Excluding auction rate securities, our investment portfolio consists of a variety of financial instruments that exposes us to interest rate risk, including, but not limited to, money market funds, commercial paper, certificates of deposit and corporate securities. These investments are generally classified as available-for-sale and, consequently, are recorded on our balance sheets at fair market value with their related unrealized gain or loss reflected as a component of accumulated other comprehensive income in stockholders' equity. Due to the relatively short-term nature of our investment portfolio, we do not believe that an immediate 10% increase in interest rates would have a material effect on the fair market value of our portfolio. Since we believe we have the ability to liquidate this portfolio, we do not expect our operating results or cash flows to be materially affected to any significant degree by a sudden change in market interest rates on our investment portfolio.

Auction Rate Securities

As of September 27, 2009, we have classified all of our auction rate securities as Level 3 financial instruments. Auction rate securities are investments with contractual maturities generally between 20 and 30 years. The auction rate securities held by us are primarily backed by student loans and are over-collateralized, insured and guaranteed by the U.S. Federal Department of Education.

As of September 27, 2009, all auction rate securities held by us were rated as either AAA or Aaa by the major independent rating agencies except for 5% of the student loan auction rate securities which were downgraded from AAA to Baa3 in the first fiscal quarter of 2009. The downgrade event was due to the higher rates the issuer is paying out versus the lending rates, which is preventing the issuer from building excess spread as required under the prospectus. If the financial market continues to deteriorate, future downgrades could potentially impact the rating of our auction rate securities.

As of September 27, 2009, all of our auction rate securities have experienced failed auctions due to sell orders exceeding buy orders. Currently, these failures are not believed to be a credit issue with the underlying investments, but rather caused by a lack of liquidity. Under the contractual terms, the issuer is obligated to pay penalty rates should an auction fail. The funds associated with failed auctions are not expected to be accessible until one of the following occurs: a successful auction occurs, the issuer redeems the issue, a buyer is found outside of the auction process or the underlying securities have matured. Given these circumstances and the lack of liquidity, our auction rate securities totaling \$34.2 million are classified as long-term investments as of September 27, 2009.

We performed analyses to assess the fair value of the auction rate securities. In the absence of a liquid market to value these securities, we prepared a valuation model based on discounted cash flows. The assumptions used for the third quarter of fiscal 2009 were as follows:

7 years to liquidity;

continued receipt of contractual interest which provides a premium spread for failed auctions; and

discount rates of 2.5% - 5.3%, which incorporates a spread for both credit and liquidity risk.

Based on these assumptions, we estimated that the auction rate securities would be valued at approximately 89% of their stated par value as of September 27, 2009. The following table summarizes certain information related to our auction rate securities as of September 27, 2009:

	Fair Value	Fair Value Given a 100 Basis Point Increase in Interest Rates (In thousands)	Fair Value Given a 100 Basis Point Decrease in Interest Rates
Auction rate securities	\$ 34,242	\$ 37,666	\$ 30,818

Investments in Publicly Traded and Privately Held Companies

Edgar Filing: CYPRESS SEMICONDUCTOR CORP /DE/ - Form 10-Q

We have equity investments in certain publicly traded companies. The marketable equity securities are classified as available-for-sale investments and are recorded at fair value with unrealized gain (loss) reported as a component in Accumulated other comprehensive income in the Consolidated Balance Sheets. The fair value of the common stock is subject to market price volatility. The following table summarizes certain information related to these investments as of September 27, 2009:

Investments	Fair Value	Fair Value Given a 10% Increase in Stock Prices (In thousands)	Fair Value Given a 10% Decrease in Stock Prices
Marketable equity securities	\$ 4,789	\$ 5,268	\$ 4,310

Table of Contents

We also have equity investments in several privately held companies, many of which are start-ups or in development stages. These investments are inherently risky as the market for the technologies or products they have under development are typically in the early stages and may never materialize. As our equity investments generally do not permit us to exert significant influence or control, these amounts generally represent our cost of the investments, less any adjustments we make when we determine that an investment's net realizable value is less than its carrying cost. As of September 27, 2009, the carrying value of our investments in privately held companies was \$1.2 million.

Foreign Currency Exchange Risk

We operate and sell products in various global markets and purchase capital equipment using foreign currencies. As a result, we are exposed to risks associated with changes in foreign currency exchange rates. Changes in exchange rates between foreign currencies and the U.S. dollar may adversely affect our operating margins. For example, when foreign currencies appreciate against the U.S. dollar, inventory and expenses denominated in foreign currencies become more expensive. An increase in the value of the U.S. dollar relative to foreign currencies could make our products more expensive for international customers, thus potentially leading to a reduction in demand, our sales and profitability. Furthermore, many of our competitors are foreign companies that could benefit from such a currency fluctuation, making it more difficult for us to compete with those companies. Historically, we have conducted hedging activities that involve the use of currency forward contracts and options to minimize our exposure to changes in the foreign exchange rate between the U.S. dollar and other currencies; however, we cannot predict the impact of future exchange rate fluctuations on our business and results of operations.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures, as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act), that are designed to ensure that information required to be disclosed by us in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. In designing and evaluating our disclosure controls and procedures, management recognized that disclosure controls and procedures, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the disclosure controls and procedures are met. Additionally, in designing disclosure controls and procedures, our management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible disclosure controls and procedures. The design of any disclosure controls and procedures also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions.

Based on their evaluation as of the end of the period covered by this Quarterly Report on Form 10-Q and after considering the foregoing, our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures were effective.

Changes in Internal Control over Financial Reporting

There were no material changes in our internal control over financial reporting that occurred during the three month period ended September 27, 2009 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

The information required by this item is included in Note 10 of Notes to Condensed Consolidated Financial Statements under Item 1, Part 1 of this Quarterly Report on Form 10-Q and is incorporated herein by reference.

ITEM 1A. RISK FACTORS

Edgar Filing: CYPRESS SEMICONDUCTOR CORP /DE/ - Form 10-Q

There have been no material changes to the risk factors set forth in our Annual Report on Form 10-K for the year ended December 28, 2008, and as updated in our Periodic Report on Form 10-Q for the quarter ended March 29, 2009 and June 28, 2009.

Table of Contents**ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS****Stock Repurchase Program:**

The Board of Directors has approved \$600.0 million under the stock repurchase program. Stock repurchases under the program may be made through open market and privately negotiated transactions at times and in such amounts as management deems appropriate. The timing and actual number of shares repurchased will depend on a variety of factors including price, corporate and regulatory requirements and other market conditions. The program may be limited or terminated at any time without prior notice.

During fiscal 2008, Cypress used \$375.6 million in cash to repurchase a total of approximately 37.1 million shares at an average share price of \$10.13. Prior to the spin-off of SunPower, Cypress used \$277.1 million in cash to repurchase approximately 12.6 million shares at an average share price of \$21.95 and post spin off Cypress used \$98.5 million in cash to repurchase approximately 24.5 million shares at an average share price of \$4.03. During the first quarter of fiscal 2009, Cypress used \$6.5 million to repurchase approximately 1.4 million shares at an average share price of \$4.59. During the second quarter of fiscal 2009, we used \$4.7 million to repurchase approximately 0.7 million shares at an average share price of \$6.82. During the third quarter of fiscal 2009 we did not repurchase any shares.

As of September 27, 2009, the remaining balance available for future stock repurchases was \$213.2 million under the stock repurchase program. See Note 17 of Item 1 for additional information on stock repurchases.

The following table sets forth information with respect to repurchases of our common stock made during fiscal 2009:

Periods	Total Number of Shares Purchased	Average Price Paid per Share (In thousands, except per-share amounts)	Total Number of Shares Purchased as Part of Publicly Announced Programs	Total Dollar Value of Shares That May Yet Be Purchased Under the Plans or Programs
December 29, 2008 January 25, 2009		\$		\$
January 26, 2009 February 22, 2009	1,416	\$ 4.59	1,416	\$ 217,900
February 23, 2009 March 29, 2009		\$		\$
As of March 29, 2009	1,416	\$ 4.59	1,416	\$
March 30, 2009 April 26, 2009		\$		\$
April 27, 2009 May 24, 2009	500	\$ 6.74	500	\$ 214,525
May 25, 2009 June 28, 2009	185	\$ 6.98	185	\$ 213,234
As of June 28, 2009	2,101	\$ 5.32	2,101	
June 29, 2009 July 26, 2009		\$		\$
July 27, 2009 August 23, 2009		\$		\$
August 24, 2009 September 27, 2009		\$		\$
As of September 27, 2009	2,101	\$ 5.32	2,101	

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

ITEM 5. OTHER INFORMATION

Quarterly Executive Incentive Payments

On November 4, 2009, Cypress's Compensation Committee of the Board of Directors (the Compensation Committee) approved the incentive payments to our executive officers for the third quarter of fiscal 2009. These payments were earned in accordance with the terms of our Key Employee Bonus Plan (the KEYBP), the Performance Profit Sharing Plan (the PPSP) and the Performance Bonus Plan (the PBP).

Table of Contents

The payments were determined based upon the financial performance of Cypress and each executive's performance. The performance measures under the KEBP include our earnings per share as well as individual strategic, operational and financial goals established for each executive, and the performance measures under the PPSP include our earnings per share and the individual's percentage of success in achieving certain quarterly goals. The following table sets forth the cash payments to our Named Executive Officers (as determined in our Proxy Statement filed with the Securities and Exchange Commission on April 8, 2009) under the KEBP, the PPSP and the PBP in the third quarter of fiscal 2009:

Named Executive Officers	KEBP	PPSP	PBP
T.J. Rodgers, President and Chief Executive Officer		\$ 6,769	\$ 170,587
Christopher Seams, Executive Vice President, Sales, Marketing and Operations	\$ 48,166	\$ 4,181	
Brad W. Buss, Executive Vice President, Finance and Administration and Chief Financial Officer	\$ 40,868	\$ 3,547	
Paul Keswick, Executive Vice President, New Product Development	\$ 42,194	\$ 3,663	
Norman Taffe, Executive Vice President, Consumer and Computation Division	\$ 37,112	\$ 3,222	

Additionally, the Compensation Committee authorized quarterly incentive payments under the KEBP and PPSP, totaling \$202,549 and \$17,582, respectively, to six other senior executive officers who are not Named Executive Officers.
