The Company updates 2009 full year financial guidance

Our third quarter revenue accelerated significantly on both a sequential and year-over-year basis as all of our active projects realized growth in average selling prices (ASPs) and GFA sales during the quarter. Combined with the cost reduction actions we have taken over the past several

Edgar Filing: Xinyuan Real Estate Co., Ltd. - Form 6-K

quarters, we were able to report a significant improvement in our overall profitability. Our balance sheet also continued to strengthen as we generated more than US\$67 million of cash during the quarter, while reducing our outstanding

borrowings, said Mr. Yong Zhang, Xinyuan's Chairman and Chief Executive Officer. The growth in the Chinese economy is driving urbanization, real estate demand and further development, and we expect these positive conditions to continue. Xinyuan is well-positioned against this favorable backdrop as our strategy continues to focus on high-quality developments in attractive, high-growth markets.

Financial Results for the Third Quarter

For the quarter ended September 30, 2009, the Company's total revenue using the percentage of completion method was US\$128.2 million compared to US\$91.8 million in the second quarter ended June 30, 2009 and US\$83.0 million in the third quarter of 2008.

Gross Profit

Gross profit for the third quarter of 2009 was US\$26.1 million, or 20.4% of revenue, compared to gross profit of US\$15.5 million, or 16.8% of revenue, in the second quarter of 2009 and US\$18.4 million, or 22.2% of revenue, in the third quarter of 2008.

The Company revised total project cost and sales cost estimates for certain projects such that US\$6.6 million of cumulative gross profit was recognized in the third quarter under the percentage of completion method due to a change in estimates. This was primarily driven by a US\$12.3 million increase in estimated sales of the Henan Colorful Garden project as it became clear based on sales activity in the third quarter that this mature project would exceed earlier ASP projections. The increase in the sales estimate for this project resulted in higher gross profit of US\$6.4 million.

Selling, General, and Administrative Expenses

SG&A expenses were US\$9.0 million for the third quarter of 2009 compared to US\$7.5 million for the second quarter of 2009 and US\$13.5 million for the third quarter of 2008. Compensation costs increased by US\$0.6 million compared to the second quarter of 2009 due to higher variable compensation as we accrued pro rata for full annual bonuses as it became evident that the Company would exceed its 2009 sales targets. Stock-based compensation totaled US\$0.8 million in the third quarter of 2009 versus US\$0.9 million in the second quarter of 2009 and US\$1.5 million in the third quarter of 2008. Total company headcount was 384 employees as of September 30, 2009, down from 397 as of June 30, 2009 and 645 as of December 31, 2008.

Change in Fair Value of Warrant Liabilities

A decrease in the Company's ADS price from US\$6.48 at June 30, 2009 to US\$4.64 at September 30, 2009 led to a decrease in the fair value of outstanding warrants resulting in a non-cash credit to income of US\$1.6 million for the third quarter of 2009.

Table of Contents**Update on Share Transfer of Jiantou Xinyuan Joint Venture**

On September 30, the Company announced its wholly owned subsidiary, Henan Xinyuan Real Estate Co., Ltd. (Xinyuan China), signed an agreement to acquire the remaining 55% equity interest in Jiantou Xinyuan it does not already own. Following the completion of the transaction, Jiantou Xinyuan (JianXin) will become an indirect, wholly-owned subsidiary of the Company. Since the other two parties of the joint venture are state-owned enterprises, the transaction is subject to the governmental approval process for state-owned assets. Xinyuan China has submitted the required documents to the local State-owned Assets Supervision and Administration Commission (SASAC) for approval. The Company expects to receive SASAC approval by the end of the 2009, allowing completion of the transaction. As of September 30, 2009 JianXin had three active projects with approximately 78,000 square meters unsold GFA and one project under planning with a GFA of approximately 198,000 square meters.

Land Acquisition and Land Bank Reserve

The total site area of the new land acquisitions is approximately 325,000 square meters and total expected buildable GFA is approximately 888,000 square meters. As of November 9, 2009, the Company's total land bank is approximately 1,379,000 square meters of buildable GFA, including new acquisitions and projects under planning in Chengdu (219,000 m²) and Zhengzhou (265,000 m²) but excluding active projects and Jiantou Xinyuan's land bank.

2009 Outlook

Fourth quarter 2009 GFA sales are expected to range from 150,000 to 160,000 square meters, down slightly from the third quarter 2009 due to an expected seasonal softening in December. Fourth quarter contract sales are expected to reach US\$135 million to US\$145 million. Fourth quarter revenue using the percentage of completion method is expected to total US\$120 million to US\$130 million and net income is expected to be in the range of US\$9 million to US\$11 million.

Full year 2009 GFA sales are expected to range from 510,000 to 520,000 square meters. Fiscal 2009 contract sales are expected to total approximately US\$430 million to US\$440 million. Fiscal 2009 revenue using the percentage of completion method is expected to range from US\$380 million to US\$390 million. Fiscal 2009 net income is expected to be in the range of US\$29 million to US\$31 million.

Mr. Zhang commented, "We have made considerable progress over the past two months in building our growth pipeline for 2010 and beyond. We acquired two parcels of land in Zhengzhou, bolstering our presence in this high-growth market where we have realized solid returns. Combined with our recent acquisition of two parcels of land in Xuzhou and Jinan, the four new parcels we have acquired since September will increase our future land bank by approximately 325,000 square meters and are expected to generate GFA sales of approximately 880,000 square meters. We also entered into an agreement to acquire the remaining interest in our Jiantou Xinyuan, which would increase the size of our buildable GFA by an additional 198,000 square meters. We are encouraged by the prospects for all of these projects as we continue to expand our presence in Tier II markets and position our Company for sustainable, long-term growth."

Percentage of Completion Accounting

Most of Xinyuan's projects recognize revenue under the percentage of completion method. This requires the Company to re-evaluate its estimates of future revenues and costs on a quarterly basis project by project.

Cumulative revenue=Cumulative contract sales proceeds x Cumulative incurred cost

Total estimated project cost

Cumulative cost of sales=Cumulative contract sales x Cumulative incurred cost

Total estimated project revenue

Whenever Xinyuan makes changes to expected total project life profit margins, a "catch-up" adjustment must be made in the quarter of change to account for the difference between profit previously recognized using the previous profit margin estimate and the comparable profit using the new profit margin estimates. Further, if the updated profit margin indicates that the Company will have to sell units at a price less than its costs to develop them, it must recognize the full expected gross loss over the life of the project at that time regardless of whether the units have been sold. Additionally for such unprofitable projects the Company must also determine

Table of Contents

whether an impairment exists, and, if so, write down the cost to the fair value of the project which, in turn, may be less than the basis after recognizing the effect of future losses. Except as discussed above with respect to the Zhengzhou Colorful Garden project, there were no significant changes in estimates in the third quarter of 2009.
