Forward-Looking Information Is Subject to Risk & Uncertainty

Statements about the expected timing, completion and effects of the proposed merger, and all other statements in this presentation other than historical facts, constitute forward-looking statements within the meaning of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. The audience is cautioned not to place undue reliance on these forward-looking statements, each of which is qualified in its

entirety by reference to the following cautionary statements.

Forward-looking statements speak only as of the date hereof and are based on current expectations and involve a number of assumptions, risks and uncertainties that could cause actual results to differ materially from those projected in the forward-looking statements. A number of the matters discussed herein that are not historical or current facts deal with potential future circumstances and developments, in particular, whether and when the transactions contemplated by the merger agreement will be consummated. The discussion of such matters is qualified by the inherent risks and uncertainties surrounding future expectations generally, and also may materially differ from actual future experience involving any one or more of such matters.

Such risks and uncertainties include: any conditions imposed on the parties in connection with consummation of the transaction described herein; approval of the merger by our shareholders; satisfaction of various other conditions to the closing of the transactions described herein; and the risks that are described from time to time in our reports filed with the SEC, including our Annual Report on Form 10-K for the year ended December 31, 2008 and our Quarterly Report on Form 10-Q for the quarter ended September 30, 2009.

Company Overview

Company Overview

Small/Micro-Cap company (\$165M NOR Revenue)

#5 Player in NOR Memory Market with 4% Market Share

Continued R&D investment necessary to refresh or diversify outdated product portfolio,

and to support both memory and licensing businesses

Historic product diversification efforts: All-in-One Memory, FlashMate, and Melody Wing product lines (*all ended*)

Historically struggles with profitability; GM ~30% makes R&D difficult to subsidize

Illiquid stock with low trading volume and no research coverage

Public company costs

No manufacturing facilities as opposed to larger competitors

As part of the strategic review process, the Board determined a sale would provide greater and more certain value to shareholders than a liquidation or buyback

alternative

-

Eliminates shareholder exposure to a micro-cap company with no research coverage and a weak product portfolio in a competitive market

-

Product portfolio requires an overhaul that would be extremely expensive from an R&D perspective alone

-

Voting agreement establishes a level playing field by neutralizing one bidder's ability to prevent a significant percentage of shareholders from supporting any alternative transaction regardless of whether it provided superior value

Microchip Agreement Maximizes Shareholder Value

The SST Board of Directors recommends that shareholders

vote **FOR**

the proposed transaction today.

The Microchip agreement was unanimously approved by the Independent Strategic Committee and

is the culmination of a 1½
years-long strategic review process and extensive go-shop period
Attractive valuation at premium to historical trading range and peer group multiples
Potential operational challenges as a standalone public company present execution and valuation
risks relative to significantly larger competitors
Microchip was the highest bidder after the Go-Shop period in a competitive auction situation
Favorable terms achieved:
Specific performance, all Cash, no financing contingency, fast closing
time and 25.5% of shareholders committed to vote for the highest
bidder
3-week path to \$3.05 cash instead of 2-step, multi-month path to \$3.00 cash, no 13e-3 filing
and no pink sheet or stub stock as compared with Cerberus/Dialectic alternative transaction
Immediate and certain cash value to shareholders with full guarantee and specific performance
