FILED PURSUANT TO RULE 424(B)(3)

REGISTRATION NO. 333-144414

WELLS REAL ESTATE INVESTMENT TRUST II, INC.

SUPPLEMENT NO. 2 DATED MAY 13, 2010

TO THE PROSPECTUS DATED APRIL 2, 2010

This document supplements, and should be read in conjunction with, our prospectus dated April 2, 2010 relating to our offering of 375,000,000 shares of common stock, as supplemented by supplement no. 1 dated April 29, 2010 (the prospectus). Capitalized terms used in this supplement have the same meanings as set forth in the prospectus. The purpose of this supplement is to disclose:

the status of our public offerings;

information regarding our indebtedness;

entering into a replacement credit facility;

the acquisition of four office buildings containing approximately 323,000 aggregate rentable square feet located in Columbus, Ohio;

the acquisition of two three-story office buildings containing approximately 490,000 aggregate rentable square feet located in Littleton, Massachusetts;

Management's Discussion and Analysis of Financial Condition and Results of Operations, similar to that filed in our Quarterly Report on Form 10-Q for the three months ended March 31, 2010, filed on May 11, 2010; and

our unaudited financial statements as of and for the three months ended March 31, 2010, as filed in our Quarterly Report on Form 10-Q, filed on May 11, 2010.

Status of Our Public Offerings

We commenced our initial public offering of 785 million shares of common stock on December 1, 2003, which consisted of a 600 million-share primary offering and a 185 million-share offering under our dividend reinvestment plan. We stopped making offers under the primary offering on November 26, 2005. We raised gross offering proceeds of approximately \$2.0 billion from the sale of approximately 197.1 million shares in our initial public offering, including shares sold under the dividend reinvestment plan.

On November 10, 2005, we commenced a follow-on public offering of 300.6 million shares of common stock. Of these shares, we offered 300 million shares in a primary offering and 0.6 million shares under our dividend reinvestment plan. On April 14, 2006, we amended the registration statements for the follow-on public offering and our initial public offering in order to offer in a combined prospectus the 300.6 million shares registered under the follow-on offering and 174.4 million unsold shares related to the dividend reinvestment plan registered under the initial public offering. We stopped making offers under the combined follow-on offering on November 10, 2008. We raised gross offering proceeds of approximately \$2.6 billion from the sale of approximately 257.6 million shares in our follow-on public offering, including

Edgar Filing: WELLS REAL ESTATE INVESTMENT TRUST II INC - Form 424B3

shares sold under the dividend reinvestment plan.

On November 11, 2008, we began to accept subscriptions for shares of our common stock in this offering. As of May 10, 2010, we had raised gross offering proceeds of approximately \$1.0 billion from the sale of approximately 96.8 million shares in this offering, including shares sold under the dividend reinvestment plan. As of May 10, 2010, approximately 278.2 million shares remained available for sale to the public in this offering, including shares offered under the dividend reinvestment plan. As of May 10, 2010, we had received aggregate gross offering proceeds of approximately \$5.5 billion from the sale of approximately 551.5 million shares in our public offerings. After incurring approximately \$109.6 million in acquisition fees, approximately \$495.0 million in selling commissions and dealer-manager fees, approximately \$74.3 million in other organization and offering expenses, and funding common stock redemptions of approximately \$347.9 million pursuant to the share redemption program, as of May 10, 2010, we had raised aggregate net offering proceeds available for investment in properties of approximately \$4.5 billion, substantially all of which had been invested in real estate properties.

On April 27, 2010, our board of directors elected to conclude our current primary public offering of shares effective June 30, 2010. On June 30, 2010 we will cease offering shares under our current primary public offering; however, we will accept subscriptions for a short period of time after June 30, 2010 under certain circumstances. Except as described below, after June 30, 2010, we will accept subscription agreements only when accompanied with payment in the form of a check or wire transfer and only when all of the following criteria are met:

The subscription agreement must be signed by the investor on or before June 30, 2010;

Index to Financial Statements

The subscription agreement and funds must be received by Wells Real Estate Funds c/o Boston Financial Data Services no later than Friday, July 9, 2010; and

Any investment paperwork that is not in good order must be cured and received by Wells Real Estate Funds c/o Boston Financial Data Services no later than by Wednesday, July 14, 2010.

Investments that are received in accordance with the stipulations stated above will be accepted and dated once the subscription agreement is determined to be in good order, the investment has been processed, and the funds are deposited in our account.

The following criteria apply to transfer of asset requests that are initiated by Wells Capital, Boston Financial Data Services, or State Street Bank and Trust to seek the transfer of assets from a relinquishing institution, such as an IRA custodian, in connection with the purchase of our shares.

The subscription agreement must be signed by the investor on or before June 30, 2010;

The subscription agreement and transfer request must be received by Wells Real Estate Funds c/o Boston Financial Data Services by Friday, July 9, 2010;

Any investment paperwork that is not in good order must be cured and received by Wells Real Estate Funds c/o Boston Financial Data Services no later than by Wednesday, July 14, 2010; and

Proceeds from the transfer of assets must be received by Wells Real Estate Funds c/o Boston Financial Data Services by Friday, August 13, 2010.

Investments that are received in accordance with the stipulations stated above for transfer of asset requests will be accepted and dated once the subscription agreement is determined to be in good order, the investment has been processed, and the funds are received from the relinquishing institution and deposited in our account.

Indebtedness

As of March 31, 2010, our debt-to-real-estate asset ratio, that is, total borrowings divided by the sum of gross real estate assets plus gross intangible lease assets (liabilities), as reflected on the balance sheet, was approximately 18.5%. As of May 10, 2010, we had total outstanding indebtedness of approximately \$1.0 billion, which consisted of \$13.0 million outstanding on the fixed-rate Bank Zenit loan, \$63.4 million outstanding on the Cranberry Woods Drive variable-rate term mortgage loan, and \$874.8 million outstanding under mortgage loans with fixed interest rates, or with interest rates that are effectively fixed when considered in connection with an interest rate swap.

Replacement Credit Facility

On May 7, 2010, we entered into a \$500.0 million, three-year, unsecured revolving credit facility with a syndicate of lenders led by JPMorgan Chase Bank, N.A. as administrative agent (the "JPMorgan Chase Credit Facility") to replace the \$245.0 million unsecured revolving financing facility with Wachovia Bank, N.A./Wells Fargo Bank, N.A., which was scheduled to mature on May 7, 2010.

The JPMorgan Chase Credit Facility provides for interest to be incurred based on, at our option, the London Interbank Offered Rate ("LIBOR") for one-, two-, three- or six-month periods, plus an applicable margin ranging from 2.60% to 3.40% (the "LIBOR Rate"), or at an alternate base rate, plus an applicable margin ranging from 1.60% to 2.40% (the "Base Rate"). The base rate for any day is the greatest of (1) the rate of interest publicly announced by JPMorgan Chase Bank, N.A. as its prime rate in effect in its principal office in New York City for such day; (2) the federal funds rate for such day plus 0.50%; or (3) the one-month LIBOR Rate, for such day plus 1.00%. The margin component of the LIBOR Rate and the Base Rate is determined based on our corporate credit rating, as long as we have such a rating, or on our leverage ratio, as defined, if we do not have a corporate credit rating. Additionally, we will incur a facility fee on the aggregate revolving commitment ranging from 0.40% to 0.60% per annum, which is also determined based on our corporate credit rating, as long as we have such a rating, or on our leverage ratio, if we do not have a corporate credit rating.

Index to Financial Statements

Under the JPMorgan Chase Credit Facility, interest on LIBOR Rate loans is payable in arrears on the last day of each interest period; interest on Base Rate loans is payable in arrears, on the first day of each month. We may prepay the loan at any time without penalty. We are required to repay all outstanding principal balances and accrued interest by May 7, 2013. Further, we are subject to certain restrictive and financial covenants under the JPMorgan Chase Credit Facility, including a \$25.0 million limitation on letters of credit that may be issued under the JPMorgan Chase Credit Facility.

Acquisition of the Sterling Commerce Buildings

On March 8, 2010, we purchased four office buildings located on approximately 17.2 acres of land at 6060 Emerald Parkway, 4600, 4675, and 4725 Lakehurst Court, Columbus, Ohio (collectively, the Sterling Commerce Buildings). The Sterling Commerce Buildings contain approximately 323,000 aggregate rentable square feet. The purchase price of the Sterling Commerce Buildings was approximately \$36.6 million, exclusive of closing costs. The Sterling Commerce Buildings were purchased from Duke Realty Ohio, which is not affiliated with us or our advisor. The acquisition of the Sterling Commerce Buildings was funded with net proceeds raised from this offering.

The Sterling Commerce Buildings, which were constructed between 1990 and 1998, are entirely leased to Sterling Commerce, Inc. (Sterling Commerce), an AT&T company. Sterling Commerce provides business-integration software and services. The current annual base rent under the Sterling Commerce leases is approximately \$3.3 million. The current remaining lease term on the lease is approximately 10 years. Sterling Commerce has the right to extend the term of its leases for three successive periods of five years each.

Acquisition of the 550 King Street Building

On April 1, 2010, we purchased two three-story office buildings located on approximately 40.7 acres of land at 550 King Street, Littleton, Massachusetts (the 550 King Street Buildings). The 550 King Street Buildings contain approximately 490,000 aggregate rentable square feet. The purchase price of the 550 King Street Buildings was approximately \$94.0 million, exclusive of closing costs. The 550 King Street Buildings were purchased from AG/ND King, LLC, which is not affiliated with us or our advisor. The acquisition of the 550 King Street Buildings was funded with net proceeds raised from this offering.

The 550 King Street Buildings, which were constructed in 1984, are entirely leased to International Business Machines Corporation (IBM). IBM is one of the world's largest providers of computer products and services. IBM reported a net worth, as of December 31, 2009, of approximately \$22.8 billion. The current annual base rent under the IBM lease is approximately \$6.9 million. The current remaining lease term on the IBM is 10 years. IBM has the right to extend the term of its leases for two successive periods of five years each.

Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis should be read in conjunction with our accompanying consolidated financial statements and notes thereto. See also our consolidated financial statements and the notes thereto and Management's Discussion and Analysis of Financial Condition and Results of Operations included in the prospectus for the year ended December 31, 2009. This discussion contains forward-looking statements, which can be identified with the use of forward-looking terminology such as *may*, *will*, *intend*, or similar words. Actual results may differ from those described in forward-looking statements. For a discussion of the factors that could cause actual results to differ from those anticipated see Risk Factors in our prospectus dated April 2, 2010.

Overview

During the periods presented, we have continued to receive investor proceeds under our public offerings and to invest those proceeds in real estate assets and to repay borrowings. These activities impact fluctuations in the results of our property operations and in interest expense.

Liquidity and Capital Resources

Overview

We have continued to raise funds through the sale of our common stock under our public offerings and have invested the majority of those proceeds in real properties. We anticipate receiving additional proceeds from the sale of our common stock under our current primary public offering through June 30, 2010, and proceeds from our dividend reinvestment program and using such proceeds, in combination with debt proceeds and cash on hand, to invest in future acquisitions of real property. To the extent that timing differences arise between the rate at which we raise capital through the sale of our common stock and the rate at which we are able to acquire suitable real estate investment opportunities, we may use equity proceeds to repay amounts outstanding on our line of credit or on other borrowings. We expect that our primary source of

Edgar Filing: WELLS REAL ESTATE INVESTMENT TRUST II INC - Form 424B3

future operating cash flows will be cash generated from the operations of the properties currently in our portfolio and those to be acquired in the future. The amount of future distributions to be paid to our stockholders will be dependent upon the amount of cash generated from our operating activities, how quickly we are able to invest proceeds from the sale of our common stock in quality income-producing assets, our expectations of future cash flows, and our determination of near-term cash needs for capital improvements, tenant re-leasing, redemptions of our common stock, and debt repayments.

Index to Financial Statements

Short-term Liquidity and Capital Resources

During the three months ended March 31, 2010, we generated net cash flows from operating activities of \$56.0 million, which consists primarily of receipts of rental payments, tenant reimbursements, hotel room fees, and interest earned on cash balances, reduced by payments for operating costs, interest expense, asset and property management fees, general and administrative expenses, and acquisition fees and expenses. Along with cash on hand, net cash flows from operating activities were used to fund distributions to stockholders of approximately \$75.5 million during the three months ended March 31, 2010. We expect to use the majority of our future net cash flow from operating activities to fund distributions to stockholders as well. Please refer to the *Distributions* section below for additional information regarding the sources of cash used to fund future distributions to stockholders.

During the three months ended March 31, 2010, we generated net proceeds from the sale of common stock under our current public offering, net of commissions, dealer-manager fees, and acquisition fees, offering cost reimbursements, and share redemptions of \$114.1 million, of which \$45.0 million was used to fund investments in new and existing properties. We are actively pursuing real estate investment opportunities and intend to use offering proceeds generated from the sale of common stock under the Third Offering through June 30, 2010, cash on hand and additional borrowings on our line of credit or from new mortgages to fund additional real estate investments. On April 27, 2010, our board of directors elected to conclude the Third Offering effective June 30, 2010. As a result, we will not make offers under our current primary public offering after June 30, 2010; however, we will continue to offer shares through our dividend reinvestment program. As of April 30, 2010, approximately 228.6 million shares remain available for sale under the Third Offering through June 30, 2010, exclusive of shares available under the dividend reinvestment plan (*DRP*).

As of March 31, 2010, we had access to the full borrowing capacity under our line of credit with Wachovia Bank N.A./Wells Fargo Bank N.A. of \$245.0 million. Effective May 7, 2010, we replaced our line of credit with a \$500.0 million, three-year replacement credit facility led by JPMorgan Chase Bank, N.A. Please refer to Note 8. *Subsequent Events* in the accompanying consolidated financial statements for additional details on the replacement credit facility.

Long-term Liquidity and Capital Resources

Over the long term, we expect that our primary sources of capital will include operating cash flows, proceeds from our dividend reinvestment program, proceeds from secured or unsecured borrowings from third-party lenders, and, if and when deemed appropriate, proceeds from strategic property sales. We expect that our primary uses of capital will be for property acquisitions, either directly or through investments in joint ventures, tenant improvements, repaying or refinancing debt, offering-related costs, operating expenses, interest expense, distributions, and redemptions of shares of our common stock under our share redemption program.

In determining how and when to allocate cash resources, we initially consider the source of the cash. We expect to use substantially all future net operating cash flows to fund distributions to stockholders and to use substantially all net cash flows generated from raising equity or debt financing to fund acquisitions, capital expenditures, the repayment of outstanding borrowings, and the redemption of shares under the share redemption program. If sufficient equity or debt capital is not available, our future investments in real estate will be lower.

We have a policy of keeping our debt at no more than 50% of the cost of our assets (before depreciation) and, ideally, at significantly less than this 50% debt-to-real-estate asset ratio. This conservative leverage goal could reduce the amount of current income we can generate for our stockholders, but it also reduces their risk of loss. We believe that preserving investor capital while generating stable current income is in the best interest of our stockholders. As of March 31, 2010, our debt-to-real-estate asset ratio was approximately 18.5%.

To the extent that future cash flows provided by operations are lower due to lower returns on properties, future distributions to stockholders may be lower as well. Cash flow from operations will depend significantly on the level of occupancy, market rents and our tenants' ability to make rental payments in the future. We believe that the diversity and creditworthiness of our tenant base helps to mitigate the risk of a tenant defaulting on a lease. However, general economic downturns, downturns in one or more of our core markets, or downturns in the particular industries in which our tenants operate could adversely impact the ability of our tenants to make lease payments and our ability to re-lease space on favorable terms when leases expire. In the event of any of these situations, our cash flow and consequently our ability to meet capital needs could adversely affect our ability to pay distributions in the future.

Index to Financial Statements*Contractual Commitments and Contingencies*

Our contractual obligations as of March 31, 2010 will become payable in the following periods (in thousands):

Contractual Obligations	Total	2010	2011-2012	2013-2014	Thereafter
Debt obligations	\$ 950,235	\$ 134,242	\$ 153,740	\$ 127,549	\$ 534,704
Interest obligations on debt ⁽¹⁾	286,362	40,711	89,803	77,246	78,602
Capital lease obligations ⁽²⁾	664,000		78,000	466,000	120,000
Purchase obligations ⁽³⁾	9,852	9,852			
Operating lease obligations	228,022	1,851	4,980	5,114	216,077
Total	\$ 2,138,471	\$ 186,656	\$ 326,523	\$ 675,909	\$ 949,383

(1) Interest obligations are measured at the contractual rate for fixed-rate debt, or at the effectively fixed-rate for variable-rate debt with interest rate swaps agreements. See *Item 3. Quantitative and Qualitative Disclosure About Market Risk* for more information regarding our interest rate swaps.

(2) Amounts include principal obligations only. We made interest payments on these obligations of \$10.3 million during the three months ended March 31, 2010, all of which was funded with interest income earned on the corresponding investments in development authority bonds.

(3) Represents purchase commitments for Cranberry Woods Drive Phase II, of which approximately \$9.1 million relates to construction overruns that are recoverable from the tenant.

Results of Operations*Overview*

Our results of operations are not indicative of those expected in future periods as a result of acquiring properties during the periods presented and potential future acquisitions of real estate assets.

Comparison of the three months ended March 31, 2009 versus the three months ended March 31, 2010

Rental income remained relatively stable at approximately \$106.8 million for the three months ended March 31, 2009 compared to approximately \$107.8 million for the three months ended March 31, 2010. Absent changes to the leases currently in place at our properties and future real estate acquisitions, rental income is expected to remain relatively consistent in future periods as well.

Tenant reimbursements and property operating costs decreased from approximately \$25.9 million and \$42.5 million, respectively, for the three months ended March 31, 2009, as compared to approximately \$23.4 million and \$40.8 million, respectively, for the three months ended March 31, 2010, primarily due to lower utility usage and costs and lower property taxes in 2010.

Hotel income, net of hotel operating costs, increased slightly from \$0.4 million for the three months ended March 31, 2009 to \$0.6 million for the three months ended March 31, 2010 due to an increase in average occupancy levels, partially offset by a decrease in the average daily rate. Hotel income and hotel operating costs are primarily driven by the local economic conditions and, as a result, are expected to fluctuate according to changes in economic conditions in Cleveland, Ohio.

Asset and property management fees remained relatively stable at approximately \$9.4 million for the three months ended March 31, 2009 compared to approximately \$9.3 million for the three months ended March 31, 2010. We expect asset and property management fees to increase in the short term as we acquire additional properties. Such increases are subject to the asset management fee ceiling and other limitations outlined in the Advisory Agreement. Please refer to Note 7. *Related-Party Transactions and Agreements* in the accompanying consolidated financial statements for additional details.

Acquisition fees and expenses decreased from approximately \$8.8 million for the three months ended March 31, 2009 to approximately \$3.4 million for the three months ended March 31, 2010, due to implementing a prospective accounting rule change. Effective January 1, 2009, U.S.

Edgar Filing: WELLS REAL ESTATE INVESTMENT TRUST II INC - Form 424B3

generally accepted accounting principles (GAAP) required us to expense acquisition-related costs as incurred; whereas, prior to this date, acquisition fees and expenses were capitalized as incurred and allocated to properties upon investment. In connection with adopting this accounting rule change, we wrote off \$5.6 million of unapplied acquisition fees and expenses in the first quarter of 2009 related to prior periods.

Depreciation increased from approximately \$22.0 million from the three months ended March 31, 2009 to approximately \$23.6 million for the three months ended March 31, 2010, primarily due to the impact of properties acquired in the second quarter of 2009. Excluding the impact of future property acquisitions and changes to leases currently in place at our properties, depreciation is expected to continue to increase slightly in future periods, as compared to historical periods, due to ongoing capital improvements at our properties.

Index to Financial Statements

Amortization remained relatively consistent at approximately \$29.9 million for the three months ended March 31, 2009 as compared to approximately \$29.2 million for the three months ended March 31, 2010. Excluding the impact of future property acquisitions and changes to the leases currently in place at our properties, future amortization is expected to remain consistent in future periods as well.

General and administrative expenses decreased from approximately \$6.8 million for the three months ended March 31, 2009 to approximately \$6.0 million for the three months ended March 31, 2010, due to decreases in both foreign currency re-measurement expense and costs incurred in connection with prospective acquisitions that did not close.

Interest expense increased from approximately \$21.8 million for the three months ended March 31, 2009 to approximately \$22.5 million for the three months ended March 31, 2010, primarily due to interest expense on debt related to properties acquired in the second quarter of 2009, which was partially offset by maintaining a \$0 outstanding balance on the Wachovia Bank, N.A./Wells Fargo Bank, N.A. line of credit throughout the first quarter of 2010. Future interest expense will depend largely upon the timing and availability of opportunities to acquire real estate assets consistent with our investment objectives, the level of additional proceeds that we are able to raise under our public offerings, our ability to secure financings or re-financings, and changes in market interest rates. We anticipate that future borrowings will be used primarily to fund anticipated future acquisitions of real estate.

Interest and other income remained relatively consistent at approximately \$10.3 million for each of the three-month periods ended March 31, 2009 and 2010. Future levels of interest income will vary primarily based on differences in the pace at which capital is raised in our public offerings and the pace at which such capital is invested in real estate assets or used to repay borrowings.

We recognized a loss on foreign currency exchange contract of approximately \$0.6 million for the three months ended March 31, 2009. Gains (losses) on foreign currency exchange contract are primarily impacted by fluctuations in value of the U.S. dollar compared to the Russian rouble. We settled the foreign currency exchange contract on April 1, 2009 with a payment of \$8.2 million.

We recognized a gain on interest rate swaps that do not qualify for hedge accounting treatment of \$4.8 million for the three months ended March 31, 2009, as compared to a loss of \$4.9 million for the three months ended March 31, 2010. We anticipate that future gains (losses) on interest rate swaps that do not qualify for hedge accounting treatment will fluctuate primarily due to changes in the estimated fair value of our interest rate swaps relative to then-current market conditions. Market value adjustments to swaps that qualify for hedge accounting treatment are recorded directly to equity, and therefore, do not impact net income (loss).

Net income attributable to Wells REIT II decreased from \$6.9 million (\$0.02 per share) for the three months ended March 31, 2009 to approximately \$2.5 million (\$0.00 per share) for the three months ended March 31, 2010. The decrease in net income attributable to Wells REIT II is primarily due to recognizing a \$4.9 million loss on interest rate swaps for the three months ended March 31, 2010, as compared to a \$4.8 million gain on interest rate swaps during the three months ended March 31, 2009, partially offset by writing off \$5.6 million of unapplied acquisition costs related to prior periods in 2009 in connection with adopting the accounting rule change explained above. Absent the impact of future acquisitions and future fluctuations in the market value of our interest rate swaps that do not qualify for hedge accounting treatment, we expect future net income to remain at similar levels in the near term. Should the decline in the U.S. real estate markets continue for a prolonged period of time, the creditworthiness of our tenants and our ability to achieve market rents comparable to the leases currently in place at our properties may suffer and could lead to a decline in net income over the long term.

Distributions

The amount of distributions that we pay to our common stockholders is determined by our board of directors and is dependent upon a number of factors, including the funds available for distribution to common stockholders, our financial condition, our capital expenditure requirements, our expectations of future sources of liquidity and the annual distribution requirements necessary to maintain our status as a Real Estate Investment Trust (REIT) under the Code.

Index to Financial Statements

When evaluating the amount of cash available to fund distributions to stockholders, we consider net cash provided by operating activities (as presented in the accompanying GAAP-basis consolidated statements of cash flows). We also consider certain costs that were incurred for the purpose of generating future earnings and appreciation in value over the long term, including acquisition-related costs. As required by GAAP, effective January 1, 2009, we began to expense all acquisition-related costs as incurred. As provided in the prospectuses for our public offerings, acquisition-related costs have been and will continue to be funded with cash generated from the sale of common stock in our public offering and, therefore, will not utilize cash generated from operations. Acquisition-related costs include acquisition fees payable to our advisor (see Note 7 to our accompanying consolidated financial statements), customary third-party costs, such as legal fees and expenses, costs of appraisals, accounting fees and expenses, title insurance premiums and other closing costs, and other miscellaneous costs directly related to our investments in real estate.

During the three months ended March 31, 2010, we paid total distributions to common stockholders, including \$40.1 million reinvested in our common stock pursuant to our DRP, of \$75.5 million. During this period, we generated net cash from operating activities of \$56.0 million, which has been reduced for acquisition-related costs of \$3.4 million that were funded with cash generated from the sale of common stock under our public offerings. The remaining \$16.1 million of distributions paid to common stockholders in the three months ended March 31, 2010 were funded with cumulative operating cash flows generated in prior periods.

On March 1, 2010, our board of directors declared distributions for stockholders of record from March 16, 2010 through June 15, 2010 in an amount equal to an annualized distribution of \$0.60 per share, which is consistent with the prior periods presented in this report on a per-share basis. We expect that the cash distributions paid to stockholders will be funded from net cash generated by operating activities and other sources of cash. We expect to pay this distribution in June 2010.

We have experienced challenges in locating properties that meet our investment objectives at prices that would generate the same level of return that our portfolio has generated in the past. As a result, we were not able to fund our first quarter 2010 distribution entirely from current-period cash flows (after adjustment for certain acquisition-related costs, as described above). We were able, however, to fund the shortfall during this period entirely with prior-period accumulated operating cash flows (adjusted for certain acquisition-related costs). Unless significant opportunities arise to acquire our target investments at higher cap rates than those we have observed over the last six months, we expect to fully deplete prior period accumulated operating cash flows in the second quarter of 2010 and will have to use sources of funds other than operating cash flows (after adjustment for acquisition-related expenses) to fund distributions at historical levels. Such sources could include borrowings or offering proceeds. This distribution coverage issue exists even though the operational cash flows from our existing properties remain strong. Should the current cap rate environment continue, our board of directors may elect to lower the stockholder distribution rate rather than to risk compromising the investment objectives of the fund, or to accumulate significant borrowings. We will continue to carefully monitor our cash flows and market conditions and their impact on our earnings and future distribution projections.

Election as a REIT

We have elected to be taxed as a REIT under the Code, and have operated as such beginning with our taxable year ended December 31, 2003. To qualify as a REIT, we must meet certain organizational and operational requirements, including a requirement to distribute at least 90% of our adjusted taxable income, as defined in the Code, to our stockholders, computed without regard to the dividends-paid deduction and by excluding our net capital gain. As a REIT, we generally will not be subject to federal income tax on income that we distribute to our stockholders. If we fail to qualify as a REIT in any taxable year, we will then be subject to federal income taxes on our taxable income for that year and for the four years following the year during which qualification is lost, unless the Internal Revenue Service grants us relief under certain statutory provisions. Such an event could materially adversely affect our net income and net cash available for distribution to our stockholders. However, we believe that we are organized and operate in such a manner as to qualify for treatment as a REIT for federal income tax purposes.

Wells TRS II, LLC (Wells TRS) is a wholly owned subsidiary of Wells Real Estate Investment Trust II, Inc. (Wells REIT II) that is organized as a Delaware limited liability company and includes the operations of, among other things, a full-service hotel. We have elected to treat Wells TRS as a taxable REIT subsidiary. We may perform certain additional, non-customary services for tenants of our buildings through Wells TRS; however, any earnings related to such services are subject to federal and state income taxes. In addition, for us to continue to qualify as a REIT, we must limit our investments in taxable REIT subsidiaries to 25% of the value of our total assets. Deferred tax assets and liabilities are established for temporary differences between the financial reporting basis and the tax basis of assets and liabilities at the enacted rates expected to be in effect when the temporary differences reverse.

No provision for federal income taxes has been made in our accompanying consolidated financial statements, other than the provision relating to Wells TRS, as we made distributions in excess of taxable income for the periods presented. We are subject to certain state and local taxes related to property operations in certain locations, which have been provided for in our accompanying consolidated financial statements.

Index to Financial Statements**Inflation**

We are exposed to inflation risk, as income from long-term leases is the primary source of our cash flows from operations. There are provisions in the majority of our tenant leases that are intended to protect us from, and mitigate the risk of, the impact of inflation. These provisions include rent steps, reimbursement billings for operating expense pass-through charges, real estate tax and insurance reimbursements on a per-square-foot basis, or in some cases, annual reimbursement of operating expenses above a certain per-square-foot allowance. However, due to the long-term nature of the leases, the leases may not reset frequently enough to fully cover inflation.

Application of Critical Accounting Policies

Our accounting policies have been established to conform with GAAP. The preparation of financial statements in conformity with GAAP requires management to use judgment in the application of accounting policies, including making estimates and assumptions. These judgments affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the dates of the financial statements and the reported amounts of revenue and expenses during the reporting periods. If our judgment or interpretation of the facts and circumstances relating to various transactions had been different, it is possible that different accounting policies would have been applied, thus resulting in a different presentation of the financial statements. Additionally, other companies may utilize different estimates that may impact the comparability of our results of operations to those of companies in similar businesses.

Investment in Real Estate Assets

We are required to make subjective assessments as to the useful lives of our depreciable assets. We consider the period of future benefit of the asset to determine the appropriate useful lives. These assessments have a direct impact on net income. The estimated useful lives of our assets by class are as follows:

Buildings	40 years
Building improvements	5-25 years
Site improvements	10 years
Tenant improvements	Shorter of economic life or lease term
Intangible lease assets	Lease term

Evaluating the Recoverability of Real Estate Assets

We continually monitor events and changes in circumstances that could indicate that the carrying amounts of the real estate and related intangible assets of both operating properties and properties under construction, in which we have an ownership interest, either directly or through investments in joint ventures, may not be recoverable. When indicators of potential impairment are present that suggest that the carrying amounts of real estate assets and related intangible assets may not be recoverable, we assess the recoverability of these assets by determining whether the respective carrying values will be recovered through the estimated undiscounted future operating cash flows expected from the use of the assets and their eventual disposition. In the event that such expected undiscounted future cash flows do not exceed the carrying values, we adjust the carrying value of the real estate assets and related intangible assets to the estimated fair values, pursuant to the property, plant, and equipment accounting standard for the impairment or disposal of long-lived assets, and recognize an impairment loss. Estimated fair values are calculated based on the following information, in order of preference, depending upon availability: (i) recently quoted market prices, (ii) market prices for comparable properties, or (iii) the present value of future cash flows, including estimated salvage value. We have determined that there has been no impairment in the carrying value of our real estate assets and related intangible assets to date.

Projections of expected future operating cash flows require that we estimate future market rental income amounts subsequent to the expiration of current lease agreements, property operating expenses, the number of months it takes to re-lease the property, and the number of years the property is held for investment, among other factors. The subjectivity of assumptions used in the future cash flow analysis, including discount rates, could result in an incorrect assessment of the property's fair value and could result in the misstatement of the carrying value of our real estate assets and related intangible assets and net income (loss).

Allocation of Purchase Price of Acquired Assets

Upon the acquisition of real properties, we allocate the purchase price of properties to tangible assets, consisting of land and building, site improvements, and identified intangible assets and liabilities, including the value of in-place leases, based in each case on our estimate of their fair values.

Edgar Filing: WELLS REAL ESTATE INVESTMENT TRUST II INC - Form 424B3

The fair values of the tangible assets of an acquired property (which includes land and building) are determined by valuing the property as if it were vacant, and the as-if-vacant value is then allocated to land and building based on our determination of the relative fair value of these assets. We determine the as-if-vacant fair value of a property using methods similar to those used by independent appraisers. Factors we consider in performing these analyses include an estimate of carrying costs during the expected lease-up periods considering current market conditions and costs to execute similar leases, including leasing commissions and other related costs. In estimating carrying costs, we include real estate taxes, insurance, and other operating expenses during the expected lease-up periods based on current market demand.

Index to Financial Statements*Intangible Assets and Liabilities Arising from In-Place Leases where We are the Lessor*

As further described below, in-place leases where we are the lessor may have values related to: direct costs associated with obtaining a new tenant, opportunity costs associated with lost rentals that are avoided by acquiring an in-place lease, tenant relationships, and effective contractual rental rates that are above or below market rates:

Direct costs associated with obtaining a new tenant, including commissions, tenant improvements and other direct costs, are estimated based on management's consideration of current market costs to execute a similar lease. Such direct costs are included in intangible lease origination costs in the accompanying consolidated balance sheets and are amortized to expense over the remaining terms of the respective leases.

The value of opportunity costs associated with lost rentals avoided by acquiring an in-place lease is calculated based on the contractual amounts to be paid pursuant to the in-place leases over a market absorption period for a similar lease. Such opportunity costs are included in intangible lease assets in the accompanying consolidated balance sheets and are amortized to expense over the remaining terms of the respective leases.

The value of tenant relationships is calculated based on expected renewal of a lease or the likelihood of obtaining a particular tenant for other locations. Values associated with tenant relationships are included in intangible lease assets in the accompanying consolidated balance sheets and are amortized to expense over the remaining terms of the respective leases.

The value of effective rental rates of in-place leases that are above or below the market rates of comparable leases is calculated based on the present value (using a discount rate that reflects the risks associated with the leases acquired) of the difference between (i) the contractual amounts to be received pursuant to the in-place leases and (ii) management's estimate of fair market lease rates for the corresponding in-place leases, measured over a period equal to the remaining terms of the leases. The capitalized above-market and below-market lease values are recorded as intangible lease assets or liabilities and amortized as an adjustment to rental income over the remaining terms of the respective leases.

As of March 31, 2010 and December 31, 2009, Wells REIT II had the following gross intangible in-place lease assets and liabilities (in thousands):

	Intangible Lease Assets Above-Market		Intangible Lease Origination Costs	Intangible Below-Market In-Place Lease Liabilities
	In-Place Lease Assets	Absorption Period Costs		
March 31, 2010	\$ 152,045	\$ 554,867	\$ 490,358	\$ 150,864
December 31, 2009	\$ 153,189	\$ 557,365	\$ 489,567	\$ 150,081

For the three months ended March 31, 2010 and the year ended December 31, 2009, Wells REIT II recognized the following amortization of intangible lease assets and liabilities (in thousands):

	Intangible Lease Assets Above-Market		Intangible Lease Origination Costs	Intangible Below-Market In-Place Lease Liabilities
	In-Place Lease Assets	Absorption Period Costs		

Edgar Filing: WELLS REAL ESTATE INVESTMENT TRUST II INC - Form 424B3

For the three months ended March 31, 2010	\$ 4,351	\$ 14,991	\$ 12,296	\$ 3,522
For the year ended December 31, 2009	\$ 17,912	\$ 64,108	\$ 51,266	\$ 14,570

Index to Financial Statements

The remaining net intangible assets and liabilities as of March 31, 2010 will be amortized as follows (in thousands):

	Intangible Lease Assets Above-Market In-Place Lease Assets	Absorption Period Costs	Intangible Lease Origination Costs	Intangible Below-Market In-Place Lease Liabilities
For the nine months ending December 31, 2010	\$ 12,690	\$ 45,560	\$ 37,441	\$ 10,904
For the years ending December 31:				
2011	14,075	52,194	45,701	14,183
2012	10,407	43,812	40,472	13,585
2013	8,488	38,135	37,413	13,281
2014	7,398	32,870	34,326	12,696
Thereafter	15,623	94,190	99,090	34,134
	\$ 68,681	\$ 306,761	\$ 294,443	\$ 98,783

Evaluating the Recoverability of Intangible Assets and Liabilities

The values of intangible lease assets and liabilities are determined based on assumptions made at the time of acquisition and have defined useful lives, which correspond with the lease terms. There may be instances in which intangible lease assets and liabilities become impaired and we are required to write-off the remaining asset or liability immediately or over a shorter period of time. Lease restructurings, including lease terminations and lease extensions, may impact the value and useful life of in-place leases. In-place leases that are terminated, partially terminated, or modified will be evaluated for impairment if the original in-place lease terms have been modified. In the event that the discounted cash flows of the original in-place lease stream do not exceed the discounted modified in-place lease stream, we adjust the carrying value of the intangible lease assets to the discounted cash flows and recognize an impairment loss. For in-place lease extensions that are executed more than one year prior to the original in-place lease expiration date, the useful life of the in-place lease will be extended over the new lease term with the exception of those in-place lease components, such as lease commissions and tenant allowances, which have been renegotiated for the extended term. Renegotiated in-place lease components, such as lease commissions and tenant allowances, will be amortized over the shorter of the useful life of the asset or the new lease term.

Intangible Assets and Liabilities Arising from In-Place Leases where We are the Lessee

In-place ground leases where we are the lessee may have value associated with effective contractual rental rates that are above or below market rates. Such values are calculated based on the present value (using a discount rate that reflects the risks associated with the leases acquired) of the difference between (i) the contractual amounts to be paid pursuant to the in-place lease and (ii) management's estimate of fair market lease rates for the corresponding in-place lease, measured over a period equal to the remaining terms of the leases. The capitalized above-market and below-market in-place lease values are recorded as intangible lease liabilities or assets and amortized as an adjustment to property operating cost over the remaining term of the respective leases. Wells REIT II had a gross below-market lease asset of approximately \$110.7 million and \$110.7 million as of March 31, 2010 and December 31, 2009, and recognized amortization of this asset of approximately \$0.5 million for the three months ended March 31, 2010 and approximately \$2.1 million for the year ended December 31, 2009.

As of March 31, 2010, the remaining net below-market lease asset will be amortized as follows (in thousands):

For the year ending December 31:	
2010	\$ 1,552
2011	2,069
2012	2,069
2013	2,069
2014	2,069
Thereafter	95,553
	\$ 105,381

Related-Party Transactions and Agreements

We have entered into agreements with our advisor, Wells Capital, and its affiliates, whereby we pay certain fees and reimbursements to Wells Capital, Inc. (Wells Capital) or its affiliates, for acquisition fees, commissions, dealer-manager fees, asset and property management fees, construction fees, reimbursement of other offering costs, and reimbursement of operating costs. See Note 7 to our accompanying consolidated financial statements included herein for a discussion of the various related-party transactions, agreements, and fees.

Index to Financial Statements

Commitments and Contingencies

We are subject to certain commitments and contingencies with regard to certain transactions. Refer to Note 5 of our accompanying consolidated financial statements for further explanation. Examples of such commitments and contingencies include:

property under construction;

obligations under operating leases;

obligations under capital leases;

commitments under existing lease agreements; and

litigation.

Subsequent Events

We evaluated subsequent events in conjunction with the preparation of its consolidated financial statements and notes thereto included in this report on Form 10-Q and note the following items:

Property Acquisition

On April 1, 2010, we purchased two three-story office buildings with approximately 490,000 rentable square feet located at 550 King Street, Littleton, Massachusetts (the 550 King Street Building) for approximately \$94.0 million, exclusive of closing costs. The 550 King Street Building is leased entirely to International Business Machines Corporation under a 10-year lease.

Status of Our Public Offerings

On April 27, 2010, our board of directors elected to conclude the Third Offering effective June 30, 2010. As a result, we will not make offers under our current primary public offering after June 30, 2010; however, we will continue to offer shares through our dividend reinvestment program. From April 1, 2010 through April 30, 2010, we raised approximately \$32.8 million through the issuance of approximately 3.3 million shares of common stock under the Third Offering. As of April 30, 2010, approximately 228.6 million shares remained available for sale to the public under the Third Offering through June 30, 2010, exclusive of shares available under the DRP.

Corporate Credit Rating

In connection with evaluating various borrowing arrangements to replace the line of credit agreement in place with Wachovia Bank, N.A./Wells Fargo Bank, N.A. as lead agent as of March 31, 2010, we sought a credit rating from Moody's Investors Service and Standard and Poor's Ratings Services. As a result of obtaining an investment-grade rating from both agencies in April 2010, we believe we were able to garner broader participation from prospective lenders and to achieve lower pricing on the replacement credit facility described below.

Replacement Credit Facility

On May 7, 2010, we entered into a \$500.0 million, three-year, unsecured revolving credit facility with a syndicate of lenders led by JPMorgan Chase Bank, N.A. as administrative agent (the JPMorgan Chase Credit Facility) to replace the \$245.0 million unsecured revolving financing facility with Wachovia Bank, N.A./Wells Fargo Bank, N.A., which was scheduled to mature on May 7, 2010.

Edgar Filing: WELLS REAL ESTATE INVESTMENT TRUST II INC - Form 424B3

The JPMorgan Chase Credit Facility provides for interest to be incurred based on, at our option, the London Interbank Offered Rate (LIBOR) for one-, two-, three- or six-month periods, plus an applicable margin ranging from 2.60% to 3.40% (the LIBOR Rate), or at an alternate base rate, plus an applicable margin ranging from 1.60% to 2.40% (the Base Rate). The base rate for any day is the greatest of (1) the rate of interest publicly announced by JPMorgan Chase Bank, N.A. as its prime rate in effect in its principal office in New York City for such day; (2) the federal funds rate for such day plus 0.50%; or (3) the one-month LIBOR Rate, for such day plus 1.00%. The margin component of the LIBOR Rate and the Base Rate is determined based on our corporate credit rating, as long as we have such a rating, or on our leverage ratio, as defined, if we do not have a corporate credit rating. Additionally, we will incur a facility fee on the aggregate revolving commitment ranging from 0.40% to 0.60% per annum, which is also determined based on our corporate credit rating, as long as we have such a rating, or on our leverage ratio, if we do not have a corporate credit rating.

Under the JPMorgan Chase Credit Facility, interest on LIBOR Rate loans is payable in arrears on the last day of each interest period; interest on Base Rate loans is payable in arrears, on the first day of each month. We are required to repay all outstanding principal balances and accrued interest by May 7, 2013. Further, we are subject to certain restrictive and financial covenants under the JPMorgan Chase Credit Facility, including a \$25.0 million limitation on letters of credit that may be issued under the JPMorgan Chase Credit Facility.

WELLS REAL ESTATE INVESTMENT TRUST II, INC.

CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

MARCH 31, 2010

(unaudited)

1. Organization

Wells Real Estate Investment Trust II, Inc. (Wells REIT II) is a Maryland corporation that has elected to be taxed as a real estate investment trust (REIT) for federal income tax purposes. Wells REIT II engages in the acquisition and ownership of commercial real estate properties, including properties that are under construction, are newly constructed, or have operating histories. Wells REIT II was incorporated on July 3, 2003 and commenced operations on January 22, 2004. Wells REIT II conducts business primarily through Wells Operating Partnership II, L.P. (Wells OP II), a Delaware limited partnership. Wells REIT II is the sole general partner of Wells OP II and possesses full legal control and authority over the operations of Wells OP II. Wells REIT II owns more than 99.9% of the equity interests in Wells OP II. Wells Capital, Inc. (Wells Capital), the external advisor to Wells REIT II, is the sole limited partner of Wells OP II. Wells OP II acquires, develops, owns, leases, and operates real properties directly, through wholly owned subsidiaries or through joint ventures. References to Wells REIT II herein shall include Wells REIT II and all subsidiaries of Wells REIT II, including consolidated joint ventures, Wells OP II, and Wells OP II s direct and indirect subsidiaries. See Note 7 for a discussion of the advisory services provided by Wells Capital.

As of March 31, 2010, Wells REIT II owned controlling interests in 66 office properties, one industrial property, and one hotel, which include 89 operational buildings. These properties are comprised of approximately 20.9 million square feet of commercial space and are located in 23 states, the District of Columbia, and Moscow, Russia. Of these properties, 64 are wholly owned and four are owned through consolidated joint ventures. As of March 31, 2010, the office properties and industrial property were approximately 93.3% leased (office properties were approximately 96.0% leased).

On December 1, 2003, Wells REIT II commenced its initial public offering of up to 785.0 million shares of common stock, of which 185.0 million shares were reserved for issuance through Wells REIT II s dividend reinvestment plan (DRP), pursuant to a Registration Statement filed on Form S-11 with the SEC (the Initial Public Offering). Except for continuing to offer shares for sale through its DRP, Wells REIT II stopped offering shares for sale under the Initial Public Offering on November 26, 2005. Wells REIT II raised gross offering proceeds of approximately \$2.0 billion from the sale of approximately 197.1 million shares under the Initial Public Offering, including shares sold under the DRP through March 2006. On November 10, 2005, Wells REIT II commenced a follow-on offering of up to 300.6 million shares of common stock, of which 0.6 million shares were reserved for issuance under Wells REIT II s DRP, pursuant to a Registration Statement filed on Form S-11 with the SEC (the Follow-On Offering). On April 14, 2006, Wells REIT II amended the aforementioned registration statements to offer in a combined prospectus 300.6 million shares registered under the Follow-On Offering and 174.4 million unsold shares related to the DRP originally registered under the Initial Public Offering. Wells REIT II raised gross offering proceeds of approximately \$2.6 billion from the sale of approximately 257.6 million shares under the Follow-On Offering, including shares sold under the DRP, through November 2008. Wells REIT II stopped offering shares for sale under the Follow-On Offering on November 10, 2008.

On November 11, 2008, Wells REIT II commenced a third offering of up to 375.0 million shares of common stock pursuant to a Registration Statement filed on Form S-11 with the SEC (the Third Offering). Under the Third Offering registration statement, as amended, Wells REIT II is currently offering up to 300.0 million shares of common stock in a primary offering for \$10 per share, with discounts available to certain categories of purchasers, and up to 75.0 million shares pursuant to its DRP at a purchase price equal to the higher of \$9.55 per share or 95% of the estimated value of a share of its common stock. As of March 31, 2010, Wells REIT II had raised gross offering proceeds of approximately \$0.9 billion from the sale of approximately 92.5 million shares under the Third Offering, including shares sold under the DRP. On April 27, 2010, Wells REIT II s board of directors elected to conclude the Third Offering effective June 30, 2010. As a result, Wells REIT II will not make offers under its current primary public offering after June 30, 2010; however, Wells REIT II will continue to offer shares through its dividend reinvestment program.

Index to Financial Statements

As of March 31, 2010, Wells REIT II had raised gross offering proceeds from the sale of common stock under the Initial Public Offering, the Follow-On Offering, and the Third Offering of approximately \$5.5 billion. After deductions from such gross offering proceeds for payments of selling commissions and dealer-manager fees of approximately \$491.0 million, acquisition fees of approximately \$108.7 million, other organization and offering expenses of approximately \$73.6 million, and common stock redemptions paid pursuant to our share redemption program of approximately \$343.1 million, Wells REIT II had received aggregate net offering proceeds of approximately \$4.5 billion. Substantially all of Wells REIT II's net offering proceeds have been invested in real properties and related assets. As of March 31, 2010, approximately 231.8 million shares remain available for sale to the public under the Third Offering through June 30, 2010, exclusive of shares available under the DRP.

Wells REIT II's stock is not listed on a public securities exchange. However, Wells REIT II's charter requires that in the event Wells REIT II's stock is not listed on a national securities exchange by October 2015, Wells REIT II must either seek stockholder approval to extend or amend this listing deadline or seek stockholder approval to begin liquidating investments and distributing the resulting proceeds to the stockholders. If Wells REIT II seeks stockholder approval to extend or amend this listing date and does not obtain it, Wells REIT II will then be required to seek stockholder approval to liquidate. In this circumstance, if Wells REIT II seeks and does not obtain approval to liquidate, Wells REIT II will not be required to list or liquidate and could continue to operate indefinitely as an unlisted company.

2. Summary of Significant Accounting Policies*Basis of Presentation*

The consolidated financial statements of Wells REIT II have been prepared in accordance with the rules and regulations of the SEC, including the instructions to Form 10-Q and Article 10 of Regulation S-X, and do not include all of the information and footnotes required by U.S. generally accepted accounting principles (GAAP) for complete financial statements. In the opinion of management, the statements for these unaudited interim periods presented include all adjustments, which are of a normal and recurring nature, necessary for a fair and consistent presentation of the results for such periods. Results for these interim periods are not necessarily indicative of a full year's results. Wells REIT II's consolidated financial statements include the accounts of Wells REIT II, Wells OP II, and any variable interest entity in which Wells REIT II or Wells OP II was deemed the primary beneficiary. For further information, refer to the financial statements and footnotes included in Wells REIT II's Annual Report on Form 10-K for the year ended December 31, 2009.

Redeemable Common Stock

Wells REIT II's share redemption program (the SRP) requires Wells REIT II to honor all redemption requests made within two years following the death of a stockholder. As of March 31, 2010 and December 31, 2009, Wells REIT II had an insurance-backed source of funding for the redemption of shares under its share redemption program in the event Wells REIT II received an unusually large number of redemption requests due to the death of its investors. As the decision to honor redemptions sought within two years following the death of a stockholder was outside of the control of Wells REIT II and an insurance agreement provided Wells REIT II with the ability to fund all of such redemptions, Wells REIT II recorded redeemable common stock in the temporary equity section of the accompanying consolidated balance sheets equal to the present value of the future estimated deductible amounts under the insurance agreement for all periods presented. In addition, Wells REIT II is required to honor certain other redemptions up to the amount of proceeds raised in the current calendar year under the DRP. Accordingly, the amount of proceeds raised under the DRP, less redemptions funded in the current calendar year, is also recorded as redeemable common stock in the temporary equity section of the accompanying consolidated balance sheets.

Effective April 30, 2010, Wells REIT II (i) amended the SRP to limit all redemptions during any calendar year, including those sought within two years of a stockholder's death, to those that can be funded from 100% of the net proceeds from the DRP during that calendar year, and (ii) terminated the insurance-backed funding agreement described above. As a result, effective April 30, 2010, Wells REIT II will only record redeemable common stock for the amount of proceeds raised under the DRP, less redemptions tendered for redemption in the current calendar year.

Index to Financial Statements*Interest Rate Swap Agreements*

Wells REIT II enters into interest rate swap contracts to mitigate its interest rate risk on the related financial instruments. Wells REIT II does not enter into derivative or interest rate transactions for speculative purposes; however, certain of its derivatives may not qualify for hedge accounting treatment. Wells REIT II records the fair value of its interest rate swaps either as prepaid expenses and other assets or as accounts payable, accrued expenses, and accrued capital expenditures. Changes in the fair value of the effective portion of interest rate swaps that are designated as hedges are recorded as other comprehensive income (loss), while changes in the fair value of the ineffective portion of a hedge, if any, is recognized currently in earnings. Changes in the fair value of interest rate swaps that do not qualify for hedge accounting treatment are recorded as gain (loss) on interest rate swaps. Amounts received or paid under interest rate swap agreements are recorded as interest expense for contracts that qualify for hedge accounting treatment and as gain (loss) on interest rate swaps for contracts that do not qualify for hedge accounting treatment.

The following tables provide additional information related to Wells REIT II's interest rate swaps as of March 31, 2010 and December 31, 2009 (in thousands):

Instrument Type	Balance Sheet Classification	Estimated Fair Value as of	
		March 31, 2010	December 31, 2009
<i>Derivatives designated as hedging instruments:</i>			
Interest rate contracts	Accounts payable	\$ 8,968	\$ 8,112
<i>Derivatives not designated as hedging instruments:</i>			
Interest rate contracts	Accounts payable	\$ 30,257	\$ 27,723
		Three Months Ended	
		March 31,	
		2010	2009
Market value adjustment to interest rate swap designated as a hedge instrument and included in other comprehensive income		\$ (856)	\$ 2,024
Gain (loss) on interest rate swaps recognized through earnings		\$ (4,860)	\$ 4,791

During the periods presented, Wells REIT II did not (i) reclassify any portion of unrecognized losses in other comprehensive income to earnings, or (ii) recognize gains (losses) for the ineffective portion of swaps that qualify for hedge accounting treatment.

For additional information about Wells REIT II's interest rate swap contracts, see Part I, Item 3. *Quantitative and Qualitative Disclosures About Market Risk*.

Foreign Currency Exchange Contract

On October 2, 2007, Wells REIT II entered into a foreign currency exchange contract to hedge its exposure to fluctuations in the U.S. dollar to Russian rouble exchange rate in connection with a Russian rouble denominated contract to purchase Dvintsev Business Center Tower B upon completion of construction. This contract did not qualify for hedge accounting treatment; accordingly, its estimated fair value was adjusted through earnings until it was settled on April 1, 2009 with a payment of approximately \$8.2 million to the counterparty.

Index to Financial Statements

Foreign Currency Measurement

Wells REIT II's Russian subsidiary uses the U.S. dollar as its functional currency and, accordingly, maintains its books and records in U.S. dollars. Gains or losses may result from remeasuring cash or debt denominated in currencies other than our functional currency, and from transactions executed in currencies other than our functional currency due to a difference in the exchange rate in place when the transaction is initiated and the exchange rate in place when the transaction is settled. Such remeasurement gains or losses are included in general and administrative expenses in the accompanying consolidated statements of operations.

Prior to July 1, 2009, Wells REIT II's Russian subsidiary used the Russian rouble as its functional currency and, accordingly, maintained its books and records in Russian roubles. During this period, Wells REIT II's Russian subsidiary translated its assets and liabilities into U.S. dollars at the exchange rate in place as of the balance sheet date, and translated its revenues and expenses into U.S. dollars at the average exchange rate for the periods presented. Net exchange gains or losses resulting from the translation of these financial statements from Russian roubles to U.S. dollars were recorded in other comprehensive loss in the accompanying consolidated statements of equity through June 30, 2009.

Fair Value Measurements

Wells REIT II estimates the fair value of its assets and liabilities (where currently required under U.S. generally accepted accounting principles (GAAP) consistent with the provisions of the accounting standard for fair value measurements and disclosures, which became effective for financial assets and liabilities on January 1, 2008. Under this standard, fair value is defined as the price that would be received upon sale of an asset or paid upon transfer of a liability in an orderly transaction between market participants at the measurement date. While various techniques and assumptions can be used to estimate fair value depending on the nature of the asset or liability, the accounting standard for fair value measurements and disclosures provides the following fair value technique parameters and hierarchy, depending upon availability:

- Level 1 Assets or liabilities for which the identical term is traded on an active exchange, such as publicly traded instruments or futures contracts.
- Level 2 Assets and liabilities valued based on observable market data for similar instruments.
- Level 3 Assets or liabilities for which significant valuation assumptions are not readily observable in the market. Such assets or liabilities are valued based on the best available data, some of which may be internally developed. Significant assumptions may include risk premiums that a market participant would consider.

Wells REIT II records its interest rate swaps at fair value estimated using level 2 techniques and assumptions, as defined above. The fair value of Wells REIT II's interest rate swaps were \$39.2 million and \$35.8 million at March 31, 2010 and December 31, 2009, respectively. Please refer to the *Interest Rate Swap Agreements* disclosure above for additional details.

Income Taxes

Wells REIT II has elected to be taxed as a REIT under the Internal Revenue Code of 1986, as amended (the Code), and has operated as such beginning with its taxable year ended December 31, 2003. To qualify as a REIT, Wells REIT II must meet certain organizational and operational requirements, including a requirement to distribute at least 90% of its REIT taxable income, as defined by the Code, to its stockholders. As a REIT, Wells REIT II generally is not subject to income tax on income it distributes to stockholders. Wells REIT II is subject to certain state and local taxes related to the operations of properties in certain locations, which have been provided for in the accompanying consolidated financial statements.

Index to Financial Statements

Wells TRS II, LLC (Wells TRS) is a wholly owned subsidiary of Wells REIT II and is organized as a Delaware limited liability company and operates, among other things, a full-service hotel. Wells REIT II has elected to treat Wells TRS as a taxable REIT subsidiary. Wells REIT II may perform certain additional, noncustomary services for tenants of its buildings through Wells TRS; however, any earnings related to such services are subject to federal and state income taxes. In addition, for Wells REIT II to continue to qualify as a REIT, Wells REIT II must limit its investments in taxable REIT subsidiaries to 25% of the value of the total assets of Wells REIT II for 2010. Deferred tax assets and liabilities represent temporary differences between the financial reporting basis and the tax basis of assets and liabilities based on the enacted rates expected to be in effect when the temporary differences reverse. Wells REIT II records interest and penalties related to uncertain tax positions as general and administrative expense in the accompanying consolidated statements of operations.

Recent Accounting Pronouncements

In January 2010, the Financial Accounting Standards Board (the FASB) clarified previously issued GAAP and issued new requirements related to ASC Topic Fair Value Measurements and Disclosures (ASC 820). The clarification component includes disclosures about inputs and valuation techniques used in determining fair value, and providing fair value measurement information for each class of assets and liabilities. The new requirements relate to disclosures of transfers between the levels in the fair value hierarchy, as well as the individual components in the rollforward of the lowest level (Level 3) in the fair value hierarchy. This change in GAAP was effective for Wells REIT II beginning January 1, 2010, except for the provision concerning the rollforward of activity of the Level 3 fair value measurement, which will become effective for Wells REIT II on January 1, 2011. The adoption of ASC 820 did not have a material impact on Wells REIT II s consolidated financial statements or disclosures.

3. Real Estate Acquisitions

Summary

As of March 31, 2010, Wells REIT II owned interests in 68 properties as a result of acquiring the property described below in the first quarter of 2010 and acquiring 67 properties in prior periods.

Sterling Commerce Center

On March 8, 2010, Wells REIT II acquired four office buildings containing approximately 323,000 rentable square feet and located in Columbus, Ohio (the Sterling Commerce Buildings) for \$36.6 million, exclusive of closing costs. The Sterling Commerce Buildings are entirely leased to Sterling Commerce, a wholly owned subsidiary of AT&T, Inc., under a 10-year lease.

Index to Financial Statements**4. Line of Credit and Notes Payable**

As of March 31, 2010 and December 31, 2009, Wells REIT II had the following indebtedness outstanding (in thousands):

Facility	March 31, 2010	December 31, 2009
222 E. 41 st Street Building mortgage note	\$ 155,700	\$ 153,130
100 East Pratt Street Building mortgage note	105,000	105,000
Wildwood Buildings mortgage note	90,000	90,000
5 Houston Center Building mortgage note	90,000	90,000
Manhattan Towers Building mortgage note	75,000	75,000
Cranberry Woods Drive mortgage note	63,396	63,396
80 Park Plaza Building mortgage note	57,930	56,978
263 Shuman Boulevard Building mortgage note	49,000	49,000
800 North Frederick Building mortgage note	46,400	46,400
One West Fourth Street Building mortgage note	42,950	43,408
SanTan Corporate Center mortgage notes	39,000	39,000
Highland Landmark Building mortgage note	33,840	33,840
Three Glenlake Building mortgage note	25,485	25,414
One and Four Robbins Road Buildings mortgage note	23,000	23,000
215 Diehl Road Building mortgage note	21,000	21,000
1580 West Nursery Road Buildings mortgage note	19,573	19,786
Bank Zenit loan (11.61%)	6,831	6,633
Bank Zenit loan (14.00%)	6,130	5,951
Total indebtedness	\$ 950,235	\$ 946,936

As of March 31, 2010, Wells REIT II was in compliance with the restrictive covenants on its outstanding debt obligations.

During the three months ended March 31, 2010 and 2009, Wells REIT II made interest payments of approximately \$10.8 million and \$10.4 million, respectively, including amounts capitalized of approximately \$0.5 million and \$0.3 million, respectively.

As of March 31, 2010 and December 31, 2009, the estimated fair value of Wells REIT II's line of credit and notes payable was approximately \$939.3 million and \$907.7 million, respectively. Wells REIT II estimated the fair value of its line of credit by obtaining estimates for similar facilities from multiple lenders as of the respective reporting dates. The fair values of all other debt instruments were estimated based on discounted cash flow analyses using the current incremental borrowing rates for similar types of borrowing arrangements as of the respective reporting dates. The discounted cash flow method of assessing fair value results in a general approximation of value, and such value may never actually be realized.

Please refer to Note 8. *Subsequent Events* regarding the replacement of our line of credit in May 2010.

5. Commitments and Contingencies*Properties Under Construction*

Wells REIT II engaged an unrelated third party to construct three interconnected office buildings comprised of approximately 824,000 rentable square feet and located in Cranberry, Pennsylvania (the Cranberry Woods Development Project) for approximately \$195.7 million, excluding capitalized interest expense. The first phase of the Cranberry Woods Development Project was completed in May 2009. The second and final phase of the Cranberry Woods Development Project entails two structures containing approximately 400,000 rentable square feet and is estimated to be completed in 2010. Upon completion of construction, the Cranberry Woods Development Project will be 100% leased to Westinghouse Electric Company, LLC at rental rates to be determined based on total construction costs. As of March 31, 2010, Wells REIT II had incurred and capitalized costs related to the second phase of the Cranberry Woods Development Project of approximately \$95.6 million and estimates incurring additional costs of approximately \$0.8 million to complete the project, net of anticipated reimbursements from the tenant for construction overruns.

F-11

Index to Financial Statements*Commitments Under Existing Lease Agreements*

Certain lease agreements include provisions that, at the option of the tenant, may obligate Wells REIT II to expend capital to expand an existing property or provide other expenditures for the benefit of the tenant. As of March 31, 2010, no tenants have exercised such options that had not been materially satisfied.

Litigation

From time to time, Wells REIT II is party to legal proceedings, which arise in the ordinary course of its business. Wells REIT II is not currently involved in any legal proceedings of which management would consider the outcome to be reasonably likely to have a material adverse effect on the results of operations or financial condition of Wells REIT II. Wells REIT II is not aware of any such legal proceedings contemplated by governmental authorities.

6. Supplemental Disclosures of Noncash Investing and Financing Activities

Outlined below are significant noncash investing and financing transactions for the three months ended March 31, 2010 and 2009 (in thousands):

	Three months ended March 31,	
	2010	2009
Other liabilities assumed upon acquisition of properties	\$ 617	\$
Noncash interest accruing into notes payable	\$ 3,593	\$ 3,355
Market value adjustment to interest rate swap that qualifies for hedge accounting treatment	\$ (856)	\$ 2,024
Accrued capital expenditures and deferred lease costs	\$ 2,205	\$ 10,741
Acquisition fees due to affiliate	\$ 196	\$
Commissions on stock sales and related dealer-manager fees due to affiliate	\$ 469	\$ 1,136
Other offering costs due to affiliate	\$ 725	\$ 592
Distributions payable to stockholders	\$ 13,443	\$ 11,877
Discounts applied to issuance of common stock	\$ 2,223	\$ 1,696
Increase (decrease) in redeemable common stock	\$ 61,764	\$ (4,793)

7. Related-Party Transactions and Agreements*Advisory Agreement*

Wells REIT II and Wells Capital are party to an advisory agreement (the *Advisory Agreement*). As in effect at March 31, 2010, the *Advisory Agreement* provides that Wells Capital receives the following fees and reimbursements:

Edgar Filing: WELLS REAL ESTATE INVESTMENT TRUST II INC - Form 424B3

Reimbursement of organization and offering costs paid by Wells Capital on behalf of Wells REIT II, not to exceed 2.0% of gross offering proceeds;

F-12

Index to Financial Statements

Acquisition fees of 2.0% of gross offering proceeds, subject to certain limitations; Wells REIT II also reimburses Wells Capital for expenses it pays to third parties in connection with acquisitions or potential acquisitions;

Monthly asset management fees equal to one-twelfth of 0.625% of the cost of (i) all properties of Wells REIT II (other than those that fail to meet specified occupancy thresholds) and (ii) investments in joint ventures until the monthly payment equals \$2,708,333.33 (or \$32.5 million annualized). The monthly payment remains capped at that amount until the cost of (i) all properties of Wells REIT II (other than those that fail to meet specified occupancy thresholds) and (ii) investments in joint ventures is at least \$6.5 billion, after which the monthly asset management fee will equal one-twelfth of 0.5% of the cost of (i) all properties of Wells REIT II (other than those that fail to meet specified occupancy thresholds) and (ii) investments in joint ventures. However, the asset management fee related to the Lindbergh Center Buildings, which were acquired July 1, 2008, was immediately 0.5%. The amount of asset management fees paid in any three-month period is limited to 0.25% of the average of the preceding three months' net asset value calculations less Wells REIT II's outstanding debt;

Reimbursement for all costs and expenses Wells Capital incurs in fulfilling its duties as the asset portfolio manager, including (i) wages and salaries and other employee-related expenses of Wells Capital's employees, who perform a full range of real estate services for Wells REIT II, including management, administration, operations, and marketing, and are billed to Wells REIT II based on the amount of time spent on Wells REIT II by such personnel, provided that such expenses are not reimbursed if incurred in connection with services for which Wells Capital receives a disposition fee (described below) or an acquisition fee, and (ii) amounts paid for IRA custodial service costs allocated to Wells REIT II accounts;

For any property sold by Wells REIT II, other than part of a bulk sale of assets, as defined, a disposition fee equal to 1.0% of the sales price, with the limitation that the total real estate commissions (including such disposition fee) for any Wells REIT II property sold may not exceed the lesser of (i) 6.0% of the sales price of each property or (ii) the level of real estate commissions customarily charged in light of the size, type, and location of the property;

Incentive fee of 10% of net sales proceeds remaining after stockholders have received distributions equal to the sum of the stockholders' invested capital plus an 8% return of invested capital, which fee is payable only if the shares of common stock of Wells REIT II are not listed on an exchange; and

Listing fee of 10% of the amount by which the market value of the stock plus distributions paid prior to listing exceeds the sum of 100% of the invested capital plus an 8% return on invested capital, which fee will be reduced by the amount of any incentive fees paid as described in the preceding bullet.

Either party may terminate the Advisory Agreement without cause or penalty upon providing 60 days' prior written notice to the other. Under the terms of the Advisory Agreement, Wells REIT II is required to reimburse Wells Capital for certain organization and offering costs up to the lesser of actual expenses or 2% of gross equity proceeds raised. As of March 31, 2010, Wells REIT II has incurred and charged to additional paid-in capital cumulative other offering costs of approximately \$31.7 million related to the Initial Public Offering, \$28.8 million related to the Follow-On Offering, and \$13.1 million related to the Third Offering, which represents approximately 1.6%, 1.1%, and 1.4% of cumulative gross proceeds raised by Wells REIT II under each offering, respectively.

Dealer-Manager Agreement

Wells REIT II is party to a dealer-manager agreement (the "Dealer-Manager Agreement") with Wells Investment Securities, Inc. ("WIS"), whereby WIS, an affiliate of Wells Capital, performs the dealer-manager function for Wells REIT II. For these services, WIS earns a commission of up to 7% of the gross offering proceeds from the sale of the shares of Wells REIT II, of which substantially all is re-allowed to participating broker dealers. Wells REIT II pays no commissions on shares issued under its DRP.

Index to Financial Statements

Additionally, Wells REIT II is required to pay WIS a dealer-manager fee of 2.5% of the gross offering proceeds from the sale of Wells REIT II's stock at the time the shares are sold. Under the Dealer-Manager Agreement, up to 1.5% of the gross offering proceeds may be re-allowed by WIS to participating broker dealers. Wells REIT II pays no dealer-manager fees on shares issued under its DRP.

Property Management, Leasing, and Construction Agreement

Wells REIT II and Wells Management Company (Wells Management), an affiliate of Wells Capital, are party to a Master Property Management, Leasing, and Construction Agreement (the Management Agreement) under which Wells Management receives the following fees and reimbursements in consideration for supervising the management, leasing, and construction of certain Wells REIT II properties:

Property management fees in an amount equal to a percentage negotiated for each property managed by Wells Management of the gross monthly income collected for that property for the preceding month;

Leasing commissions for new, renewal, or expansion leases entered into with respect to any property for which Wells Management serves as leasing agent equal to a percentage as negotiated for that property of the total base rental and operating expenses to be paid to Wells REIT II during the applicable term of the lease, provided, however, that no commission shall be payable as to any portion of such term beyond ten years;

Initial lease-up fees for newly constructed properties under the agreement, generally equal to one month's rent;

Fees equal to a specified percentage of up to 5% of all construction build-out funded by Wells REIT II, given as a leasing concession, and overseen by Wells Management; and

Other fees as negotiated with the addition of each specific property covered under the agreement.

Related-Party Costs

Pursuant to the terms of the agreements described above, Wells REIT II incurred the following related-party costs for the three months ended March 31, 2010 and 2009, respectively (in thousands):

	Three Months Ended	
	March 31,	
	2010	2009
Commissions, net of discounts ⁽¹⁾⁽²⁾	\$ 7,267	\$ 8,536
Asset management fees	7,402	7,428

Edgar Filing: WELLS REAL ESTATE INVESTMENT TRUST II INC - Form 424B3

- (1) Commissions, dealer-manager fees, and other offering costs are charged against equity as incurred.
- (2) Substantially all commissions were re-allowed to participating broker/dealers during the three months ended March 31, 2010 and 2009.
- (3) Administrative reimbursements are presented net of reimbursements from tenants of approximately \$0.6 million for each of the three month periods ended March 31, 2010 and 2009.

F-14

Index to Financial Statements

- (4) Costs incurred in connection with real estate acquisitions, including acquisition fees payable to our advisor Wells Capital, are expensed as incurred.
- (5) Construction fees are capitalized to real estate assets as incurred.

Wells REIT II incurred no related-party disposition fees, incentive fees, listing fees, or leasing commissions during the three months ended March 31, 2010 and 2009, respectively.

Due to Affiliates

The detail of amounts due to affiliates is provided below as of March 31, 2010 and December 31, 2009 (in thousands):

	March 31, 2010	December 31, 2009
Administrative reimbursements due to Wells Capital and/or Wells Management	\$ 1,311	\$ 1,893
Other offering cost reimbursements due to Wells Capital	725	1,104
Commissions and dealer-manager fees due to WIS	469	53
Asset and property management fees due to Wells Capital and/or Wells Management	334	2,751
Acquisition fees due to Wells Capital	196	195
	\$ 3,035	\$ 5,996

Economic Dependency

Wells REIT II has engaged Wells Capital and its affiliates, Wells Management and WIS, to provide certain services that are essential to Wells REIT II, including asset management services, supervision of the property management and leasing of some properties owned by Wells REIT II, asset acquisition and disposition services, the sale of shares of Wells REIT II's common stock, as well as other administrative responsibilities for Wells REIT II, including accounting services, stockholder communications, and investor relations. As a result of these relationships, Wells REIT II is dependent upon Wells Capital, Wells Management, and WIS.

Wells Capital, Wells Management, and WIS are owned and controlled by Wells Real Estate Funds, Inc. (WREF). The operations of Wells Capital, Wells Management, and WIS represent substantially all of the business of WREF. Accordingly, Wells REIT II focuses on the financial condition of WREF when assessing the financial condition of Wells Capital, Wells Management, and WIS. In the event that WREF were to become unable to meet its obligations as they become due, Wells REIT II might be required to find alternative service providers.

Future net income generated by WREF will be largely dependent upon the amount of fees earned by Wells Capital and Wells Management based on, among other things, the level of investor proceeds raised and the volume of future acquisitions and dispositions of real estate assets by Wells REIT II and other WREF-sponsored programs, as well as distribution income earned from equity interests in another REIT. As of March 31, 2010, Wells REIT II believes that WREF is generating adequate cash flow from operations and has additional liquidity available in the form of cash on hand and other investments necessary to meet its current and future obligations as they become due.

8. Subsequent Events

Wells REIT II has evaluated subsequent events in conjunction with the preparation of its consolidated financial statements and notes thereto included in this report on Form 10-Q and notes the following items:

Property Acquisition

On April 1, 2010, Wells REIT II purchased two three-story office buildings with approximately 490,000 rentable square feet located at 550 King Street, Littleton, Massachusetts (the 550 King Street Building) for approximately \$94.0 million, exclusive of closing costs. The 550 King Street Building is leased entirely to International Business Machines Corporation under a 10-year lease.

Index to Financial Statements

Status of the Public Offering

On April 27, 2010, Wells REIT II's board of directors elected to conclude the Third Offering effective June 30, 2010. As a result, Wells REIT II will not make offers under its current primary public offering after June 30, 2010; however, Wells REIT II will continue to offer shares through its dividend reinvestment program. From April 1, 2010 through April 30, 2010, Wells REIT II raised approximately \$32.8 million through the issuance of approximately 3.3 million shares of common stock under the Third Offering. As of April 30, 2010, approximately 228.6 million shares remained available for sale to the public under the Third Offering through June 30, 2010, exclusive of shares available under the DRP.

Corporate Credit Rating

In connection with evaluating various borrowing arrangements to replace the line of credit agreement in place with Wachovia Bank, N.A./Wells Fargo Bank, N.A. as lead agent as of March 31, 2010, Wells REIT II sought a credit rating from Moody's Investors Service and Standard and Poor's Ratings Services. As a result of obtaining an investment-grade rating from both agencies in April 2010, Wells REIT II believes it was able to garner broader participation from prospective lenders and to achieve lower pricing on the replacement credit facility described below.

Replacement Credit Facility

On May 7, 2010, Wells REIT II entered into a \$500.0 million, three-year, unsecured revolving credit facility with a syndicate of lenders led by JPMorgan Chase Bank, N.A. as administrative agent (the JPMorgan Chase Credit Facility) to replace the \$245.0 million unsecured revolving financing facility with Wachovia Bank, N.A./Wells Fargo Bank, N.A., which was scheduled to mature on May 7, 2010.

The JPMorgan Chase Credit Facility provides for interest to be incurred based on, at the option of Wells REIT II, the London Interbank Offered Rate (LIBOR) for one-, two-, three- or six-month periods, plus an applicable margin ranging from 2.60% to 3.40% (the LIBOR Rate), or at an alternate base rate, plus an applicable margin ranging from 1.60% to 2.40% (the Base Rate). The base rate for any day is the greatest of (1) the rate of interest publicly announced by JPMorgan Chase Bank, N.A. as its prime rate in effect in its principal office in New York City for such day; (2) the federal funds rate for such day plus 0.50%; or (3) the one-month LIBOR Rate, for such day plus 1.00%. The margin component of the LIBOR Rate and the Base Rate is determined based on Wells REIT II's corporate credit rating, as long as it has such a rating, or on Wells REIT II's leverage ratio, as defined, if it does not have a corporate credit rating. Additionally, Wells REIT II will incur a facility fee on the aggregate revolving commitment ranging from 0.40% to 0.60% per annum, which is also determined based on Wells REIT II's corporate credit rating, as long as it has such a rating, or on its leverage ratio, if it does not have a corporate credit rating.

Under the JPMorgan Chase Credit Facility, interest on LIBOR Rate loans is payable in arrears on the last day of each interest period; interest on Base Rate loans is payable in arrears, on the first day of each month. Wells REIT II is required to repay all outstanding principal balances and accrued interest by May 7, 2013. Further, Wells REIT II is subject to certain restrictive and financial covenants under the JPMorgan Chase Credit Facility, including a \$25.0 million limitation on letters of credit that may be issued under the JPMorgan Chase Credit Facility.
