**Note 1 Summary of Significant Accounting Policies**

***Basis of Presentation***

The accompanying unaudited, condensed consolidated financial statements for Homeowners Choice, Inc. and its subsidiaries (collectively, the Company), which consist of Homeowners Choice Property & Casualty Insurance Company, Inc., Homeowners Choice Managers, Inc., Southern Administration, Inc., and Claddaugh Casualty Insurance Company, Ltd., have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) for interim financial information, and the Securities and Exchange Commission (SEC) rules for interim financial reporting. Certain information and footnote disclosures normally included in financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to such rules and regulations. However, in the opinion of management, the accompanying financial statements reflect all normal recurring adjustments necessary to present fairly the Company's financial position as of March 31, 2010 and the results of operations and cash flows for the periods presented. The results of operations for the interim periods presented are not necessarily indicative of the results of operations to be expected for any subsequent interim period or for the fiscal year ending December 31, 2010. The accompanying unaudited condensed consolidated financial statements and notes thereto should be read in conjunction with the audited consolidated financial statements for the year ended December 31, 2009 included in the Company's Form 10-K, which was filed with the SEC on March 30, 2010.

In preparing the interim unaudited condensed consolidated financial statements, management was required to make certain estimates and assumptions that affect the reported amounts of assets, liabilities, revenues, expenses and related disclosures at the financial reporting date and throughout the periods being reported upon. Certain of the estimates result from judgments that can be subjective and complex and consequently actual results may differ from these estimates.

Material estimates that are particularly susceptible to significant change in the near-term relate to the determination of loss and loss adjustment expenses, assumed reinsurance balances payable, the recoverability of deferred policy acquisition costs, and the determination of federal income taxes. Although considerable variability is inherent in these estimates, management believes that the amounts provided are reasonable. These estimates are continually reviewed and adjusted as necessary. Such adjustments are reflected in current operations.

All significant intercompany balances and transactions have been eliminated.

***Reclassifications.*** Certain reclassifications of prior period amounts have been made to conform to the current period presentation.

***Advance Premiums.*** Advance premiums represent premiums that have been collected in advance of the policy effective date.

**Note 2 Recent Accounting Pronouncements**

**Accounting Standards Update No. 2009-16.** In December 2009, the Financial Accounting Standards Board ( FASB ) issued Accounting Standards Update No. 2009-16 ( ASU 2009-16 ), *Transfers and Servicing (Topic 860), Accounting for Transfers of Financial Assets*. The amendments in ASU 2009-16 improve financial reporting by eliminating the exceptions for qualifying special-purpose entities from the consolidation guidance and the exception that permitted sale accounting for certain mortgage securitizations when a transferor has not surrendered control over the transferred assets. In addition, the amendments require enhanced disclosures about the risks that a transferor continues to be exposed to because of its continuing involvement in transferred financial assets and improves comparability and consistency in accounting for transferred financial assets through clarifications of the requirements for isolation and limitations on portions of financial assets that are eligible for sale accounting. ASU 2009-16 is effective as of the beginning of the first annual reporting period beginning after November 15, 2009, for interim periods within that first annual reporting period, and for interim and annual reporting periods thereafter. The adoption of this guidance did not have a material effect on the Company's consolidated financial condition or results of operations.

**Accounting Standards Update No. 2010-06.** In January 2010, the FASB issued Accounting Standards Update No. 2010-06 ( ASU 2010-06 ), *Fair Value Measurements and Disclosures (Topic 820), Improving Disclosures about Fair Value Measurements*. The amendments in ASU 2010-06 require new disclosures about the different classes of assets and liabilities measured at fair value, the valuation techniques and inputs used, the activity in Level 3 fair value measurements, and the transfers between Levels 1, 2, and 3. The new disclosures and clarifications of existing disclosures are effective for interim and annual reporting periods beginning after December 15, 2009, except for the disclosures about purchases, sales, issuances, and settlements in the roll forward of activity in Level 3 fair value measurements, which are effective for fiscal years beginning after December 15, 2010, and for interim periods within those fiscal years. The adoption of this guidance did not have a material effect on the Company's consolidated financial condition or results of operations.

**Accounting Standards Update No. 2010-10.** In February 2010, the FASB issued Accounting Standards Update No. 2010-10 ( ASU 2010-10 ), *Consolidation (Topic 810), Amendments for Certain Investment Funds*. The amendments in ASU 2010-10 defer the effective date of the amendments to the consolidation requirements in Topic 810 for a reporting company's interest in an entity (1) that has all attributes of an investment company or (2) for which it is industry practice to apply measurement principles for financial reporting purposes that are consistent with those followed by investment companies. In addition, the amendments in ASU 2010-10 clarify certain considerations and circumstances under which entities should evaluate variable interests. These amendments are effective as of the beginning of a reporting entity's first annual period that begins after November 15, 2009, and for interim periods within that first annual reporting period. The adoption of this guidance did not have a material effect on the Company's consolidated financial condition or results of operations.

**Accounting Standards Update No. 2010-11.** In March 2010, the FASB issued Accounting Standards Update No. 2010-11 ( ASU 2010-11 ), *Derivatives and Hedging (Topic 815), Scope Exception Related to Embedded Credit Derivatives*. ASU 2010-11 provides clarifications and related additional examples to improve financial reporting by resolving potential ambiguity about the breadth of the embedded credit derivative scope exception in various paragraphs under Topic 815. The amendments in this update will be effective at the beginning of the reporting entity's first fiscal quarter beginning after June 15, 2010 with early adoption permitted. The adoption of this guidance is not expected to have a material effect on the Company's consolidated financial condition or results of operations.

**Accounting Standards Update No. 2010-12.** In April 2010, the FASB issued Accounting Standards Update No. 2010-12 ( ASU 2010-12 ), *Income Taxes (Topic 740), Accounting for Certain Tax Effects of the 2010 Health Care Reform Acts*. The amendments in ASU 2010-12 clarify the SEC's position on the timing difference between the signing dates for the Health Care and Education Reconciliation Act of 2010 and the Patient Protection and Affordable Care Act. In making this clarification, the SEC announced there would be no objection to the view that the two acts should be considered together for accounting purposes. The adoption of this guidance did not have an effect on the Company's consolidated financial condition or results of operations.

**Accounting Standards Update No. 2010-13.** In April 2010, the FASB issued Accounting Standards Update No. 2010-13 ( ASU 2010-13 ), *Compensation - Stock Compensation (Topic 718), Effect of Denominating the Exercise Price of a Share-Based Payment Award in the Currency of the Market in Which the Underlying Equity Security Trades*. This update provides amendments to Topic 718 to clarify that an employee share-based payment award with an exercise price denominated in the currency of a market in which a substantial portion of the entity's equity securities trades should not be considered to contain a condition that is not a market, performance, or service condition. Such an award should not be classified as a liability if it otherwise qualifies as equity. The amendments were designed to improve GAAP because they improve consistency in financial reporting by eliminating diversity in practice. ASU 2010-13 is effective for fiscal years, and interim periods within those fiscal years, beginning on or after December 15, 2010. Early adoption is permitted. The adoption of this guidance is not expected to have an effect on the Company's consolidated financial condition or results of operations.

**Accounting Standards Update No. 2010-15.** In April 2010, the FASB issued Accounting Standards Update No. 2010-15 ( ASU 2010-15 ), *Financial Services – Insurance (Topic 944), How Investments Held through Separate Accounts Affect an Insurer’s Consolidation Analysis of Those Investments*. The amendments in ASU 2010-15 clarify that an insurance entity should not consider any separate account interest held for the benefit of policy holders in an investment to be the insurer’s interests and should not combine those interests with its general account interest in the same investment when assessing the investment for consolidation, unless the separate account interests are held for the benefit of a related party policy holder as defined in the Variable Interest Subsections of Subtopic 810-10 and those Subsections require the consideration of related parties. Such separate accounts represent assets that are typically maintained by a life insurance entity for purposes of funding obligations to individual contract holders under fixed-benefit or variable annuity contracts, pension plans, and similar contracts. The amendments are effective for fiscal years, and interim periods within those fiscal years, beginning on or after December 15, 2010. Early adoption is permitted. The adoption of this guidance is not expected to have an effect on the Company’s consolidated financial condition or results of operations.

**Notes to Consolidated Financial Statements, Continued**

**Note 3 Investments, continued**

The Company regularly reviews its individual investment securities for other-than-temporary impairment. The Company considers various factors in determining whether each individual security is other-than-temporarily impaired, including:

the financial condition and near-term prospects of the issuer, including any specific events that may affect its operations or earnings;

the length of time and the extent to which the market value of the security has been below its cost or amortized cost;

general market conditions and industry or sector specific factors;

nonpayment by the issuer of its contractually obligated interest and principal payments; and

the Company's intent and ability to hold the investment for a period of time sufficient to allow for the recovery of costs. Securities with gross unrealized loss positions at March 31, 2010, aggregated by investment category and length of time the individual securities have been in a continuous loss position, are as follows (in thousands):

	<b>Less Than twelve months</b>	
	<b>Gross Unrealized Loss</b>	<b>Fair Value</b>
U.S. Treasury notes	\$ (429)	14,290
Corporate bonds	(25)	3,852
<b>Total</b>	<b>\$ (454)</b>	<b>18,142</b>

The Company believes there were no fundamental issues such as credit losses or other factors with respect to any of its securities. The unrealized losses on investment securities were caused by interest rate changes. It is expected that the securities would not be settled at a price less than the par value of the investments. Because the decline in fair value is attributable to changes in interest rates and not credit quality, and because the Company has the ability and intent to hold these investments until a market price recovery or maturity, the Company does not consider any of its investments in fixed maturity securities to be other-than-temporarily impaired at March 31, 2010.

(continued)

**Table of Contents****HOMEOWNERS CHOICE, INC. AND SUBSIDIARIES****Notes to Condensed Consolidated Financial Statements, Continued****(unaudited)****Note 4 Fair Value Measurements**

Fair values of the Company's available-for-sale fixed maturity securities are determined in accordance with Accounting Standards Codification Topic 820, *Fair Value Measurements and Disclosure*, using valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. Fair values are generally measured using quoted prices in active markets for identical securities or other inputs that are observable either directly or indirectly, such as quoted prices for similar securities. In those instances where observable inputs are not available, fair values are measured using unobservable inputs. Unobservable inputs reflect the Company's own assumptions about the assumptions that market participants would use in pricing the security and are developed based on the best information available in the circumstances. Fair value estimates derived from unobservable inputs are significantly affected by the assumptions used, including the discount rates and the estimated amounts and timing of future cash flows. The derived fair value estimates cannot be substantiated by comparison to independent markets and are not necessarily indicative of the amounts that would be realized in a current market exchange.

The fair values for fixed maturity securities that do not trade on a daily basis are determined by management, utilizing prices obtained from an independent pricing service and information provided by brokers. Management reviews the assumptions and methods utilized by the pricing service and then compares the relevant data and pricing to broker-provided data. The Company gains assurance of the overall reasonableness and consistent application of the assumptions and methodologies and compliance with accounting standards for fair value determination through ongoing monitoring of the reported fair values.

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels as follows:

Level 1 Unadjusted quoted prices in active markets for identical assets.

Level 2 Other inputs that are observable for the asset, either directly or indirectly.

Level 3 Inputs that are unobservable.

The following table presents information about the Company's available-for-sale fixed maturity securities measured at fair value as of March 31, 2010, and indicates the fair value hierarchy of the valuation techniques utilized by the Company to determine such fair value (dollars in thousands):

	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Balance as of March 31, 2010
Fixed maturity securities, available-for-sale	\$ 14,290	5,619		19,909

**Table of Contents****HOMEOWNERS CHOICE, INC. AND SUBSIDIARIES****Notes to Condensed Consolidated Financial Statements, Continued****(unaudited)****Note 5 Reinsurance**

The Company cedes a portion of its homeowners insurance exposure to other entities under catastrophe excess of loss reinsurance treaties. The Company remains liable with respect to claims payments in the event that any of the reinsurers are unable to meet their obligations under the reinsurance agreements. The Company evaluates the financial condition of its reinsurers and monitors concentrations of credit risk arising from similar geographic regions, activities or economic characteristics of the reinsurers to minimize its exposure to significant losses from reinsurer insolvencies.

The impact of the catastrophe excess of loss reinsurance treaties on premiums written and earned is as follows (dollars in thousands):

During the three months ended March 31, 2010 and 2009, there were no recoveries pertaining to reinsurance contracts that were deducted from losses incurred. At March 31, 2010 and 2009, prepaid reinsurance premiums related to 26 and 30 reinsurers, respectively, and there were no amounts receivable with respect to reinsurers. Thus, there were no concentrations of credit risk associated with reinsurance receivables and prepaid reinsurance premiums as of March 31, 2010 and 2009.

The Company writes insurance in the state of Florida, which could be exposed to hurricanes or other natural catastrophes. Although the occurrence of a major catastrophe could have a significant effect on our monthly or quarterly results, the Company believes that such an event would not be so material as to disrupt the overall normal operations of the Company. However, the Company is unable to predict the frequency or severity of any such events that may occur in the near term or thereafter.

**Note 7 Income Taxes**

During the three months ended March 31, 2010 and 2009, the Company recorded approximately \$0.5 million and \$3.9 million, respectively, of income taxes, which resulted in estimated annual effective tax rates of approximately 41% and 38%, respectively. The Company's estimated annual effective tax rate differs from the statutory federal income tax rate due to state income taxes, stock-based compensation and other nondeductible items.

Effective March 18, 2009, the Company's Board of Directors authorized a plan to repurchase up to \$3.0 million (inclusive of commissions) of the Company's common shares. The repurchase plan allowed the Company to repurchase shares from time to time through March 19, 2010. This repurchase plan was supplemented in December 2009 upon approval by the Board of Directors to extend the repurchase authority by an additional \$3.0 million and continue until the repurchase plan is terminated by the Company or the maximum number of dollars has been expended. The shares may be purchased for cash in open market purchases, block transactions and privately negotiated transactions in accordance with applicable federal securities laws. The share repurchase plan may be modified, suspended, terminated or extended by the Company any time without prior notice. During the three months ended March 31, 2010, the Company repurchased and retired a total of 54,143 shares at an average price of \$7.35 per share and a total cost, inclusive of fees and commissions, of \$401,000, or \$7.41 per share. At March 31, 2010, a total of \$2,488,000 is available in connection with this plan.

In addition, effective January 20, 2010, the Company repurchased and retired a total of 200,000 shares of the Company's common stock at a price of \$7.00 per share for a total cost of \$1,400,000 (see Note 12 - Related Party Transaction). Such repurchase was not part of a publicly announced plan or program.

***Common Stock Warrants***

At March 31, 2010, the Company has reserved 905,001 shares of common stock for issuance upon the exercise of its common stock warrants, all of which were issued coincident with the Company's initial public offering (IPO). A summary of the warrant activity for the three months ended March 31, 2010 is presented below:

	Number Of Warrants Issued	Number of Common Shares Issuable Upon Conversion of Warrants
Warrants issued with IPO units	1,666,668	833,334
Warrants issued to the Company's placement agents net of 66,666 warrants forfeited and 33,000 warrants repurchased	72,000	72,000
Warrants outstanding at December 31, 2009	1,738,668	905,334
Placement agent warrants repurchased by the Company at a price of \$1.20 per warrant in January 2010	(333)	(333)

The warrants may be exercised at an exercise price equal to \$9.10 per share on or before July 30, 2013. At any time after January 30, 2009 and before the expiration of the warrants, the Company at its option may cancel the warrants in whole or in part, provided that the closing price per share of the Company's common stock has exceeded \$11.38 for at least ten trading days within any period of twenty consecutive trading days, including the last trading day of the period. The placement agents also have the option to effect a cashless exercise in which the warrants would be exchanged for the number of shares which is equal to the intrinsic value of the warrant divided by the current value of the underlying shares.

***Preferred Stock***

At March 31, 2010, the Company is authorized to issue 20,000,000 shares of preferred stock, no par value. The authorized but unissued preferred stock may be issued in one or more series and the shares of each series shall have such rights as determined by the Company's Board of Directors.

**Note 11 Stock-Based Compensation*****Stock Option Plan***

The Company accounts for stock-based compensation under the fair value recognition provisions of ASC Topic 718 Compensation Stock Compensation.

The Company's 2007 Stock Option and Incentive Plan (the Plan) provides for granting of stock options to employees, directors, consultants, and advisors of the Company. Under the Plan, options may be granted to purchase a total of 6,000,000 shares of the Company's common stock. At March 31, 2010, options to purchase 4,810,000 shares are available for grant under the Plan. The outstanding options vest over periods ranging from immediately vested to five years and are exercisable over the contractual term of ten years.

**Table of Contents****HOMEOWNERS CHOICE, INC. AND SUBSIDIARIES****Notes to Condensed Consolidated Financial Statements, Continued****(unaudited)****Note 11 Stock-Based Compensation, continued**

A summary of the activity in the Company's stock option plan is as follows (dollars in thousands, except per share amounts):

	Number of Options	Weighted- Average Exercise Price	Weighted- Average Remaining Contractual Term	Aggregate Intrinsic Value
Outstanding at December 31, 2009	1,130,000	\$ 2.66		
Outstanding at March 31, 2010	1,130,000	\$ 2.66	7.2 years	\$ 4,360
Exercisable at March 31, 2010	939,334	\$ 2.56	7.2 years	\$ 3,704

At March 31, 2010, there was approximately \$140,000 of unrecognized compensation expense related to nonvested stock-based compensation arrangements granted under the Plan, which the Company expects to recognize over a weighted-average period of fourteen (14) months. The total fair value of shares vesting and recognized as compensation expense was approximately \$44,000 and \$121,000, respectively, for the three month periods ended March 31, 2010 and 2009 and the associated income tax benefit recognized was \$13,000 and \$43,000, respectively. No options were exercised during the three month period ended March 31, 2010. The total intrinsic value of options exercised during the three month period ended March 31, 2009 was \$22,000 and the associated income tax benefit recognized was \$4,000.

No options were granted during the three month periods ended March 31, 2010 and 2009.

**Note 12 Related Party Transaction**

Effective January 20, 2010, the Company repurchased and retired a total of 200,000 shares of the Company's common stock at a price of \$7.00 per share for a total cost of \$1,400,000. Such shares were repurchased under a stock purchase agreement with one of the Company's directors at a price below the \$7.95 market value of the Company's common stock on the date of the transaction. Such repurchases were not part of a publicly announced plan or program.

**Note 13 Subsequent Events**

On April 13, 2010, the Company entered into a Sale, Purchase and Escrow Agreement to purchase an office building, including land, in Tampa, Florida for \$7.1 million. The agreement required the Company to deliver to its escrow agent two nonrefundable deposits totaling \$1.0 million, which the Company has fully paid as of May 13, 2010 upon completion of a 30-day review and approval period. The Company expects to complete the acquisition before May 31, 2010. The Company plans to relocate all of its operations to this facility in the fourth quarter of 2010.

**Report of Independent Registered Public Accounting Firm**

Homeowners Choice, Inc.

Clearwater, Florida:

We have reviewed the accompanying condensed consolidated balance sheet of Homeowners Choice, Inc. and Subsidiaries (the Company) as of March 31, 2010, the related condensed consolidated statements of earnings and cash flows for the three month periods ended March 31, 2010 and 2009, and the condensed consolidated statement of stockholders' equity for the three month period ended March 31, 2010. These interim condensed consolidated financial statements are the responsibility of the Company's management.

We conducted our reviews in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our reviews, we are not aware of any material modifications that should be made to the accompanying interim condensed consolidated financial statements for them to be in conformity with U.S. generally accepted accounting principles.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board, the consolidated balance sheet as of December 31, 2009, and the related consolidated statements of earnings, stockholders' equity and cash flows for the year then ended (not presented herein); and in our report dated March 26, 2010, we expressed an unqualified opinion on those financial statements. In our opinion, the information set forth in the accompanying condensed consolidated balance sheet as of December 31, 2009, is fairly stated, in all material respects, in relation to the consolidated balance sheet from which it has been derived.

**ITEM 2 MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

*You should read the following discussion in conjunction with our condensed consolidated financial statements and related notes and information included under this Item 2 and elsewhere in this quarterly report on Form 10-Q and in our Form 10-K filed with the Securities and Exchange Commission ( SEC ) on March 30, 2010. Unless the context requires otherwise, as used in this Form 10-Q, the terms HCI, we, us, our, the Company, our company, and similar references refer to Homeowners Choice, Inc. and its subsidiaries.*

**Forward-Looking Statements**

*In addition to historical information, this quarterly report contains forward-looking statements as defined under federal securities laws. Such statements involve risks and uncertainties, such as statements about our plans, objectives, expectations, assumptions or future events. These statements involve estimates, assumptions, known and unknown risks, uncertainties and other factors that could cause actual results to differ materially from any future results, performances or achievements expressed or implied by the forward-looking statements. Typically, forward-looking statements can be identified by terminology such as anticipate, estimate, plan, project, continuing, ongoing, expect, believe, intend, may, will, should, could, and similar expressions. Among the important factors that could cause actual results to differ materially from those indicated by such forward-looking statements include but are not limited to the effect of governmental regulation; changes in insurance regulations; the frequency and extent of claims; uncertainties inherent in reserve estimates; catastrophic events; a change in the demand for, pricing of, availability or collectability of reinsurance; restrictions on our ability to change premium rates; increased rate pressure on premiums; changing rates of inflation; and other risks and uncertainties detailed herein and from time to time in our SEC reports.*

**OVERVIEW**

Homeowners Choice, Inc. is a property and casualty insurance holding company incorporated in Florida in 2006. Through our subsidiaries, we provide property and casualty homeowners insurance, condominium-owners insurance, and tenants insurance to individuals owning property in Florida. We offer these insurance products at competitive rates, while pursuing profitability using selective underwriting criteria. Our principal revenues are earned premiums, which are reported net of reinsurance costs, and investment income. We cede a substantial portion of our earned premiums to reinsurers to mitigate risks primarily associated with hurricanes and other catastrophic events. Our principal expenses are claims from policyholders, policy acquisition costs, and other underwriting expenses. As of March 31, 2010, we had total assets of \$128.2 million and stockholders equity of \$44.7 million. Our net income was \$698,000 for the three months ended March 31, 2010. Our book value per share increased to \$7.21 as of March 31, 2010 compared to \$7.03 as of December 31, 2009.

We began operations in June of 2007 by participating in a take-out program through which we assumed insurance policies held by Citizens Property Insurance Corporation ( Citizens ), a Florida state-supported insurer. The take-out program is a legislatively mandated program designed to reduce the State's risk exposure by encouraging private companies to assume policies from Citizens. We currently have approximately 69,000 property and casualty insurance policies in force. These policies were assumed in seven separate assumption transactions which took place in July and November 2007, February, June, October and December 2008, and December 2009, and account for substantially all of our premium revenue since inception. Of those policies assumed, approximately

**Table of Contents**

86% are homeowners' insurance policies, and the remaining 14% are a combination of policies written for condominium-owners and tenants. Our existing policies represent approximately \$127.0 million in annualized premiums.

Citizens requires us to offer renewals on the policies we acquire for a period of three years subsequent to the initial expiration of the assumed policies. The policyholders have the option to renew with us or they may ask their agent to place their coverage with another insurance company. They may also elect to return to Citizens, i.e. opt out, prior to the policy renewal date. We strive to retain these policies by offering competitive rates to our policyholders, which may be below the rates we initially charged in our take-out program.

We face various challenges to implementing our operating and growth strategies. Since we write policies that cover Florida homeowners, condominium owners, and tenants, we cover losses that may arise from, among other things, catastrophes, which could have a significant effect on our business, results of operations, and financial condition. To mitigate our risk of such losses, we cede a portion of our exposure to other entities under catastrophe excess of loss reinsurance treaties. Even without catastrophic events, we may incur losses and loss adjustment expenses that deviate substantially from our estimates and that may exceed our reserves, in which case our net income and capital would decrease. Our operating and growth strategies may also be impacted by regulation and supervision of our business by the State of Florida, which must approve our policy forms and premium rates as well as monitor our insurance subsidiary's ability to meet all requirements for regulatory compliance. Additionally, we compete with large, well-established insurance companies as well as other specialty insurers that, in most cases, possess greater financial resources, larger agency networks, and greater name recognition.

**Recent Developments**

On April 13, 2010, we entered into a Sale, Purchase and Escrow Agreement to purchase an office building, including land, in Tampa, Florida for \$7.1 million. The agreement required us to deliver to our escrow agent two nonrefundable deposits totaling \$1.0 million, which the Company has fully paid as of May 13, 2010 upon completion of a 30-day review and approval period. We expect to complete the acquisition before May 31, 2010. We plan to relocate all of our operations to this facility in the fourth quarter of 2010.

**Comparison of the Three Months Ended March 31, 2010 to the Three Months Ended March 31, 2009**

Our results of operations for the three months ended March 31, 2010 reflect net income of \$698,000, or \$.10 earnings per diluted share, compared to net income of \$6.3 million, or \$.87 earnings per diluted share, for the three months ended March 31, 2009.

**Table of Contents****Revenue**

*Gross Premiums Earned* for the three months ended March 31, 2010 were \$30.3 million and reflect the revenue from policies assumed from Citizens in connection with the seven assumption transactions through December 2009 and the revenue on the renewal of these policies. Gross premiums earned for the three months ended March 31, 2009 were \$30.3 million and reflect the revenue from policies assumed from Citizens in connection with the six assumption transactions through December 2008 and the revenue on the renewal of these policies. Our gross earned premiums for the three months ended March 31, 2010 and 2009 were offset by policyholder opt outs processed during the respective quarters. The amounts related to these policyholder opt outs were significantly higher in 2010 as compared to 2009.

*Premiums Ceded* for the three months ended March 31, 2010 and 2009 were \$14.1 million and \$9.0 million, respectively. Our premiums ceded represent amounts paid to reinsurers to cover losses from catastrophes that exceed the thresholds defined by our catastrophe excess of loss reinsurance treaties. Our reinsurance rates, which become effective on June 1 of each year, are based primarily on policy exposures reflected in gross premiums earned. Thus, the \$5.1 million increase in premiums ceded during 2010 is primarily due to the increase in our policy exposure base between June 1, 2008 and June 1, 2009. In addition, our reinsurers imposed a general rate increase of approximately seven percent effective June 1, 2009. Premiums ceded were 46.5% and 29.7% of gross premiums earned during the three months ended March 31, 2010 and 2009, respectively.

*Net Premiums Earned* for the three months ended March 31, 2010 and 2009 were \$16.2 million and \$21.3 million, respectively, and reflect the gross premiums earned less the appropriate reinsurance costs as described above. Net premiums earned decreased by \$5.1 million in 2010 as compared to 2009 as a result of the increases in our reinsurance premiums and policyholder opt outs as described above.

*Net Premiums Written* during the three months ended March 31, 2010 and 2009 totaled \$(5.3) million and \$29.4 million, respectively. Net premiums written represent the premiums charged on policies issued during a fiscal period less any applicable reinsurance costs. During 2010, our net premiums written were negative primarily as a result of the larger than anticipated opt outs (policyholders' decisions to return to Citizens) on policies assumed in December 2009.

The following is a reconciliation of our total Net Premiums Written to Net Premiums Earned for the three months ended March 31, 2010 and 2009 (dollars in thousands):

	<b>Three Months Ended March 31,</b>	
	<b>2010</b>	<b>2009</b>
Net Premiums Written	\$ (5,339)	29,396
Decrease (Increase) in Unearned Premiums	21,580	(8,066)
Net Premiums Earned	\$ 16,241	21,330

*Net Investment Income* for the three months ended March 31, 2010 and 2009 was \$531,000 and \$358,000, respectively. There were no other than temporary impairments recorded during the three months ended March 31, 2010 and 2009. The \$173,000 increase in total investment income is primarily due to interest income received from our investments in fixed maturity securities, which were added to our investment portfolio beginning in the second quarter of 2009. This increase was

---

**Table of Contents**

offset by a reduction in interest income with respect to various certificates of deposit redeemed since March 31, 2009.

*Other Income* for the three months ended March 31, 2010 and 2009 of \$215,000 and \$635,000, respectively, primarily reflects the policy fee income we earn with respect to our issuance of renewal policies. Policy fees decreased \$412,000 during 2010 as a direct result of the decrease in policies written.

**Expenses**

Our *Losses and Loss Adjustment Expenses* amounted to \$9.8 million and \$10.0 million, respectively, during the three months ended March 31, 2010 and 2009.

Our losses and loss adjustment expense reserves ( *Reserves* ), which are more fully described below under *Critical Accounting Policies and Estimates*, are specific to homeowners insurance, which is our only line of business. These Reserves include both case reserves on reported claims and our reserves for incurred but not reported ( *IBNR* ) losses. At each period-end date, the balance of our Reserves is based on our best estimate of the ultimate cost of each claim for those known cases and the IBNR loss reserves are estimated based primarily on our historical experience. Our Reserves increased from \$19.2 million at March 31, 2009 to \$20.8 million at March 31, 2010. The \$1.6 million increase in our Reserves during 2010 is comprised of a \$6.5 million increase specific to the three months ended March 31, 2010 offset by a reduction of \$4.4 million and \$0.5 million in our Reserves for 2009 and 2008, respectively. The \$6.5 million in Reserves established for 2010 claims is due to the increase in our policy exposure, which resulted in an increase in the amount of reported losses in 2010. The decrease of \$4.9 million specific to our 2009 and 2008 accident-year reserves is due to favorable development arising from lower than expected loss development during 2010 relative to expectations used to establish our Reserve estimates at the end of 2009. Factors that are attributable to this favorable development may include a lower severity of claims than the severity of claims considered in establishing our Reserves and actual case development may be more favorable than originally anticipated.

*Policy Acquisition and Other Underwriting Expenses* for the three months ended March 31, 2010 and 2009 of \$4.3 million and \$0.9 million, respectively, primarily reflect the amortization of deferred acquisition costs, commissions payable to agents for production and renewal of policies, and premium taxes and policy fees. The \$3.4 million increase in 2010 is primarily due to increases in our commissions specific to our renewal business, which accounted for \$23.3 million of our gross earned premiums in 2010 compared to \$9.6 million in 2009. In addition, we experienced increases in our premium taxes, payroll and other underwriting expenses in 2010 reflective of the increase in renewal policy volume.

*Other Operating Expenses* for the three months ended March 31, 2010 and 2009 were \$1.7 million and \$1.2 million, respectively. Such expenses include administrative compensation and related benefits, corporate insurance, professional fees, office lease and related expenses, information system expense, and other general and administrative costs. The \$452,000 increase is primarily attributable to an increase of \$489,000 in 2010 for administrative compensation and related benefits offset by a decrease of \$37,000 in net other operating expenses. The increase attributable to compensation and related benefits relates to our 2010 retention bonus program for directors and executive officers and, also, to new employees hired since March 31, 2009. As of March 31, 2010, we had 57 employees compared to 36 employees as of March 31, 2009.

**Table of Contents**

*Income Taxes* for the three months ended March 31, 2010 and 2009 were \$0.5 million and \$3.9 million, respectively, for state and federal income taxes resulting in an effective tax rate of 41% for 2010 and 38.0% for 2009.

**Ratios:**

The loss ratio applicable to the three months ended March 31, 2010 (loss and loss adjustment expenses related to net premiums earned) was 60.4% compared to 47.0% for the three months ended March 31, 2009. Our loss ratio was negatively impacted by a significant increase in our reinsurance costs during 2010, which reduced our net premiums earned.

The expense ratio applicable to the three months ended March 31, 2010 (policy acquisition and other underwriting expenses related to net premiums earned plus compensation, employee benefits, and other operating expenses) was 36.9% compared to 10.1% for the three months ended March 31, 2009. We have experienced an increase in our expense ratio due to increases in our premium taxes, payroll, and other underwriting expenses required to manage our policies in force as we have renewed more policies in 2010 than in 2009 (see *Policy Acquisition and Other Underwriting Expenses* above). In addition, our expense ratio was negatively impacted by a significant increase in our reinsurance costs during 2010, which reduced our net premiums earned.

The combined loss and expense ratio (total of all expenses related to net premiums earned) is the key measure of underwriting performance traditionally used in the property and casualty industry. A combined ratio under 100.00% generally reflects profitable underwriting results. A combined ratio over 100.00% generally reflects unprofitable underwriting results. Our combined ratio for the three months ended March 31, 2010 was 97.3% compared to 57.1% for the three months ended March 31, 2009.

The combined loss and expense ratio to gross premiums earned for the three months ended March 31, 2010 was 52.1% compared to 40.2% for the three months ended March 31, 2009.

***Seasonality of Our Business***

We expect to experience increases in our losses and loss adjustment expenses during the period from June 1 through November 30 each year as this period is typically the period during which hurricanes and other tropical storms occur. As a result of such seasonal variations in our reported losses, we anticipate our operating profits during the period from June 1 through November 30 each year will be negatively impacted by an increase in losses and loss adjustment expenses. Conversely, we expect more favorable operating results during the period from December 1 through May 31 each year.

## **Table of Contents**

### **LIQUIDITY AND CAPITAL RESOURCES**

Since inception, our liquidity requirements have been met through issuance of our common stock and funds from operations. We expect our future liquidity requirements will be met by funds from operations, primarily the cash received by our insurance subsidiary from premiums written and investment income.

Our insurance subsidiary requires liquidity and adequate capital to meet ongoing obligations to policyholders and claimants and to fund operating expenses. In addition, we attempt to maintain adequate levels of liquidity and surplus to manage any differences between the duration of our liabilities and invested assets. In the insurance industry, cash collected for premiums from policies written is invested, interest and dividends are earned thereon, and loss and loss adjustment expenses are paid out over a period of years. This period of time varies by the circumstances surrounding each claim. A substantial portion of our losses and loss adjustment expenses are fully settled and paid within 90 days of the claim receipt date. Additional cash outflow occurs through payments of underwriting costs such as commissions, taxes, payroll, and general overhead expenses.

We believe that we maintain sufficient liquidity to pay our insurance subsidiary's claims and expenses, as well as satisfy commitments in the event of unforeseen events such as reinsurer insolvencies, inadequate premium rates, or reserve deficiencies. We maintain a comprehensive reinsurance program at levels management considers adequate to diversify risk and safeguard our financial position.

In the future, we anticipate our primary use of funds will be to pay claims and operating expenses.

#### *Cash Flows*

Our cash flows from operating, investing and financing activities for the three months ended March 31, 2010 and 2009 are summarized below.

#### *Cash Flows for the Three Months Ended March 31, 2010*

Net cash provided by operating activities for the three months ended March 31, 2010 was approximately \$12.3 million, which resulted primarily from the collection of \$19.5 million from Citizens and \$5.9 million in advance premiums offset by cash disbursed for operating expenses and losses and loss adjustment expenses. Net cash provided by investing activities of \$0.5 million was primarily due to the net amount of \$4.2 million received from the redemption of various certificates of deposit offset by the net amount of \$3.5 million used to purchase various fixed maturity securities. Net cash used in financing activities totaled \$1.8 million, which was due to the repurchases during the period of our shares and warrants.

#### *Cash Flows for the Three Months Ended March 31, 2009*

Net cash provided by operating activities for the three months ended March 31, 2009 was approximately \$4.6 million, which consisted primarily of cash received from net written premiums less cash disbursed for operating expenses and losses and loss adjustment expenses. Net cash used in investing activities of \$6.2 million was primarily the result of our purchase of short-term investments.

## **Table of Contents**

### *Investments*

The main objective of our investment policy is to maximize our after-tax investment income with a minimum of risk given the current financial market. Our excess cash is invested primarily in money market accounts, certificates of deposit (i.e., CDs maturing in less than thirteen months), and time deposits (i.e. CDs maturing in more than twelve months).

At March 31, 2010, we have approximately 27% of our available cash apportioned among investments in U.S. Treasury notes, commercial mortgage-backed securities, and corporate bonds. Such investments include securities that will be held-to-maturity and, also, certain investments that are available-for-sale. Fixed maturities classified as available-for-sale are carried at fair value while fixed maturities classified as held-to-maturity are carried at amortized cost. Changes in the general interest rate environment affect the returns available on new fixed maturity investments. While a rising interest rate environment enhances the returns available on new investments, it reduces the market value of existing fixed maturity investments and thus the availability of gains on disposition. A decline in interest rates reduces the returns available on new investments but increases the market value of existing investments, creating the opportunity for realized investment gains on disposition.

With the exception of large national banks, it is our current policy not to maintain cash deposits of more than an aggregate of \$5.5 million in any one bank at any time. In the future, we may alter our investment policy to include or increase investments in federal, state and municipal obligations, preferred and common equity securities and real estate mortgages, as permitted by applicable law, including insurance regulations.

### **OFF-BALANCE SHEET ARRANGEMENTS**

As of December 31, 2009, we had no off-balance sheet arrangements as defined in Item 303(a)(4) of Regulation S-K.

### **CONTRACTUAL OBLIGATIONS**

As a smaller reporting company as defined by Rule 229.10(f)(1) of the Exchange Act, we are not required to provide the information under this item.

**Table of Contents**

**CRITICAL ACCOUNTING POLICIES AND ESTIMATES**

We have prepared our consolidated financial statements in accordance with accounting principles generally accepted in the United States of America. The preparation of these consolidated financial statements requires us to make estimates and judgments to develop amounts reflected and disclosed in our financial statements. Material estimates that are particularly susceptible to significant change in the near term are related to our losses and loss adjustment expenses ( Reserves ), which include amounts estimated for claims incurred but not yet reported. Reserves are determined by establishing liabilities in amounts estimated to cover incurred losses and loss adjustment expenses. Such Reserves are determined based on our assessment of claims reported and the development of pending claims. These Reserves are based on individual case estimates for the reported losses and loss adjustment expenses and estimates of such amounts that are incurred but not reported ( IBNR ). Changes in the estimated liability are charged or credited to operations as the losses and loss adjustment expenses are adjusted.

The IBNR reserves represent our estimate of the ultimate cost of all claims that have occurred but have not been reported to us and, in some cases, may not yet be known to the insured. Estimating the IBNR component of our Reserves involves considerable judgment on the part of management. At March 31, 2010, \$6.5 million of the total \$20.8 million we have reserved for losses and loss adjustment expenses is specific to our estimate of claims incurred but not reported. The remaining \$14.3 million relates to known cases which have been reported but not yet fully settled in which case we have booked a reserve based on our best estimate of the ultimate cost of each claim. At March 31, 2010, \$9.4 million of the \$14.3 million in reserves for known cases relates to claims incurred during prior years.

Based on all information known to us, we believe our Reserves at March 31, 2010 are adequate to cover our claims for losses that had occurred as of that date including losses yet to be reported. However, these estimates are subject to trends in claim severity and frequency and must continually be reviewed by management. As part of the process, we review historical data and consider various factors, including known and anticipated regulatory and legal developments, changes in social attitudes, inflation and economic conditions. As experience develops and other data becomes available, these estimates are revised, as required, resulting in increases or decreases to the existing unpaid losses and loss adjustment expenses. Adjustments are reflected in the results of operations in the period in which they are made and the liabilities may deviate substantially from prior estimates.

In addition to Reserves, we believe our accounting policies specific to premium revenue recognition, losses and loss adjustment expenses, reinsurance, deferred policy acquisition costs, income taxes, and stock-based compensation expense involve our most significant judgments and estimates material to our consolidated financial statements. These accounting estimates and related risks that we consider to be our critical accounting estimates are more fully described in our Annual Report on Form 10-K, which we filed with the SEC on March 30, 2010. For the three months ended March 31, 2010, there have been no material changes with respect to any of our critical accounting policies.

For information with respect to recent accounting pronouncements and the impact of these pronouncements on our consolidated financial statements, see Note 2 to our Notes to Condensed Consolidated Financial Statements.

**ITEM 3 *QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK***

As a smaller reporting company as defined by Rule 229.10(f)(1) of the Exchange Act, we are not required to provide the information under this item.

**ITEM 4 *CONTROLS AND PROCEDURES***

Under the supervision and with the participation of our Chief Executive Officer (our principal executive officer) and Chief Financial Officer (our principal financial officer), we have evaluated the effectiveness of our disclosure controls and procedures as of the end of the period covered by this report, and, based on this evaluation, the Chief Executive Officer and the Chief Financial Officer have concluded that these disclosure controls and procedures are effective.

There have been no changes in our internal controls over financial reporting during the quarter ended March 31, 2010 that have materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting.

**PART II OTHER INFORMATION**

**ITEM 1 *LEGAL PROCEEDINGS***

The Company is a party to claims and legal actions arising routinely in the ordinary course of our business. Although we cannot predict with certainty the ultimate resolution of the claims and lawsuits asserted against us, we do not believe that any currently pending legal proceedings to which we are a party will have a material adverse effect on our consolidated financial position, results of operations or cash flows.

**ITEM 1a *RISK FACTORS***

There have been no material changes from the risk factors previously disclosed in the section entitled *Risk Factors* in our Form 10-K, which was filed with the Securities and Exchange Commission on March 30, 2010.

*(c) Repurchases of Securities*

Effective March 18, 2009, our Board of Directors authorized a plan to repurchase up to \$3.0 million (inclusive of commissions) of the Company's common shares. The repurchase plan allowed the Company to repurchase shares from time to time through March 19, 2010. This repurchase plan was supplemented in December 2009 upon approval by the Board of Directors to extend the repurchase authority by an additional \$3.0 million and continue until the repurchase plan is terminated by the Company or the maximum number of dollars has been expended. The shares may be purchased for cash in open market purchases, block transactions and privately negotiated transactions in accordance with applicable federal securities laws. The share repurchase plan may be modified, suspended, terminated or extended by the Company any time without prior notice. During the quarter ended March 31, 2010, the Company repurchased and retired a total of 54,143 shares at an average price of \$7.35 per share and a total cost, inclusive of fees and commissions, of \$401,000, or \$7.41 per share, under this authorized repurchase program. The following table provides information with respect to shares repurchased during the quarter ended March 31, 2010:

*Working Capital Restrictions and Other Limitations on Payment of Dividends*

We are not subject to working capital restrictions or other limitations on the payment of dividends. Our insurance subsidiary, however, is subject to restrictions on the dividends it may pay to our parent corporation, Homeowners Choice, Inc. Those restrictions could impact our ability to pay dividends if our Board of Directors determines to do so.

Under Florida law, a domestic insurer such as our insurance subsidiary, Homeowners Choice Property & Casualty Insurance Company, Inc., may not pay any dividend or distribute cash or other property to its stockholders except out of that part of its available and accumulated capital and surplus funds which is derived from realized net operating profits on its business and net realized capital gains. For a three-year period beginning March 30, 2007, our insurance subsidiary, as a newly licensed Florida insurer, is precluded from paying dividends unless approved in advance by the Florida Office of Insurance Regulation. Additionally, Florida statutes preclude our insurance subsidiary from making dividend payments or distributions to stockholders without prior approval of the Florida Office of Insurance Regulation if the dividend or distribution would exceed the larger of (1) the lesser of (a) 10.0% of its capital surplus or (b) net income, not including realized capital gains, plus a two year carry forward, (2) 10.0% of capital surplus with dividends payable constrained to unassigned funds minus 25% of unrealized capital gains or (3) the lesser of (a) 10.0% of capital surplus or (b) net investment income plus a three year carry forward with dividends payable constrained to unassigned funds minus 25% of unrealized capital gains.
