VimpelCom Ltd - First Quarter 2010 Pro Forma Operating Results and Selected Financi

** Adjusted MOU is calculated for mobile subscriptions excluding mobile broadband subscriptions using USB modems. Quarterly highlights:
In the mobile segment:
Strong demand for data services led to an increase in USB modem subscriptions
Stable pricing for traditional voice services
VAS as a percentage of mobile service revenues increased to 20.6%
Strong mobile OIBDA margin above 50%
In the fixed-line segment:
Revenues in the US dollar terms remained stable year-on-year
Revenue dynamics of a fixed-line segment reflect Russian ruble appreciation as a significant part of our fixed-line client base is billed in US dollars and Euro
OIBDA margin remained essentially flat quarter-on-quarter
The total number of residential broadband subscriptions, including FTTB and mobile broadband, exceeded 2.3 million with revenues up 59.1% year-on-year Overall, in Russia the Company achieved good growth in the mobile segment, while fixed-line performance remained stable with ruble revenues and margins affected by currency fluctuations. Our competitive position remains sound, while further revenue growth will be defined to a large degree by continued macroeconomic recovery in the country.
