China Telecom Corporation Limited | Interim Report 2011

Chairman's Statement

In the first half of 2011, we captured the valuable opportunities arising from the accelerated development of social and economic informatisation to deepen strategic transformation, amidst the rapid technological advancement in mobile Internet. We proactively implement our strategic positioning as a leader of intelligent pipeline, a provider of integrated platforms, and a participant in content and application development, adhering to integrated differentiated operation. Riding on mobile, broadband and industry applications as a breakthrough to promote scale development of full services operation, the business structure was further optimised and new development mode of innovation, centralised efficient operation, precision management and value enhancement was accomplished. The full services operation of the Company embarked on a healthy trajectory for sustainable growth.

Operating results

In the first half of 2011, the Company's operation has progressed as planned. The operating revenues amounted to RMB120,208 million. Excluding the amortisation of upfront connection fees, the operating revenues were RMB120,110 million, an increase of 11.7% from the same period of last year. EBITDA^{1,2} was RMB48,501 million, an increase of 6.0% from the same period of last year while the EBITDA margin was 40.4%. The profit attributable to equity holders of the Company was RMB9,710 million, a growth of 10.2% from the same period of last year, demonstrating concurrent achievements in scale development of subscribers and remarkable enhancement in profitability. Basic earnings per share were RMB0.12. Capital expenditure for the period was RMB20,967 million while free cash flow³ reached RMB15,458 million.

Taking into consideration the Company's business development needs and its capital requirement for the planned acquisition of mobile network assets from the parent company in 2012, the Board of Directors has decided not to pay any interim dividends in order to maintain adequate funding flexibility. The Board of Directors will proactively consider the final dividend proposal when reviewing the full year results and will propose to the shareholders' general meeting accordingly.

Deepening transformation to facilitate scale development of full services operation

In the first half of this year, the Company thoroughly explored the pattern and development path of full services operation. The Company deepened integrated offering and innovative development modes. New products and capabilities were nurtured, facilitating growth businesses in promoting full services operation and remarkable breakthrough in scale development.

3G driving rapid growth of mobile services

In the first half of 2011, mobile Internet applications became increasingly proliferating and gradually formed an integral part of mobile information consumption in society, with increasing tendency to use 3G services by the subscribers. Benefitting from the successful execution of terminal strategy, the consumption threshold of 3G terminals has significantly decreased, yielding rapid scale development of the mobile services of the Company. The number of mobile subscribers increased by 17.85 million in the first half of the year, reaching a total number of 108 million and successfully exceeding 100 million subscribers. The Company becomes the world's largest CDMA mobile network operator where 19.9% of the mobile subscribers were 3G subscribers, which is above the industry average level. Mobile service revenue increased by 36.8% over the same period of last year, reaching RMB31,139 million, and further rising to 25.9% as a percentage of operating revenue.

In the first half of the year, we have achieved a critical breakthrough in 3G smartphones. There are over 100 3G smartphone models available for sale, and the sales of 3G smartphones priced around RMB1,000 outperformed our peers with remarkable enhancement in price-performance factors. We closely followed the market momentum of mobile Internet services, leveraging the convergence of wireline and mobile services and riding on smartphone handset terminals. Through implementing the strategy of "selling handset first, matching by service package", we reinforced the sales and marketing to enhance customers' experience and vigorously promoted the transformation of self-operated sales outlets to handset specialty stores like electronic appliances stores. With the optimisation in commission and incentive policies for open channels, we effectively activated open channels and significantly increased their share of terminal sales and subscriber acquisition, which became an important channel in developing public customers. We persisted in high value data traffic operation strategy and actively promoted popular applications. In the first half of the year the monthly compound growth rate of 3G handset Internet traffic exceeded 12%. Through expansion in the depth and comprehensiveness of Wi-Fi coverage in hotspots areas and offloading mobile data traffic through Wi-Fi, we effectively enhanced the customers' mobile broadband experience.

1 For the convenience of investors' analysis, EBITDA was calculated before CDMA network capacity lease fee.

2 Including the amortisation of upfront connection fees, EBITDA was RMB48,599 million, profit attributable to equity holders of the Company was RMB9,808 million, and basic earnings per share were RMB0.12.

3 Free cash flow was calculated from EBITDA (excluding amortisation of the upfront connection fees) minus CDMA network capacity lease fee, capital expenditure and income tax.

China Telecom Corporation Limited | Interim Report 2011
Chairman's Statement

Upgrading broadband bandwidth to promote scale development

As a key high-speed carrier for information services, the data access speed and penetration rate of broadband services become vital benchmarks of national informatisation. The Company duly launched the "Broadband China, Fibre Cities" project and further optimised the measures in sales and marketing as well as services. In the first half of the year, the net addition of wireline broadband subscribers was 6.61 million, reaching a total number of 70.09 million. Revenue from wireline broadband services increased by 13.1% from the same period last year, reaching a total of RMB29,755 million, further rising to 24.8% as a percentage of the operating revenue.

In the first half of this year, we deepened unified customer account operation, primarily accomplishing unified authentication for broadband account, mobile account and self-operated content and application account to further improve customers' experience. We adopted initiatives to upgrade the broadband service and handle customers' complaints via multi-channels. Back-end workflow was optimised to shorten the response time to customer enquiries. Self-determined integrated service packages were offered to enrich customers' choice and to enhance customers' satisfaction. With acceleration in bandwidth upgrade, all cities in service areas basically had 8Mbps broadband access capability and the bandwidth capability with 20Mbps reached coverage of 65%. The bandwidth of our IP-based backbone core network has upgraded to 26 Tbps. Our competitive edges were further reinforced, which not only facilitated the growth of subscribers but also laid down a solid foundation for future competitiveness.

Riding on competitive edges of government and enterprise customers to boost industry informatisation applications

Following the further deepening of scientific development mindset and implementation by the nation, the market of industry informatisation application becomes a rich gold mine. Leveraging our integrated strengths in ICT and mobile network and as a result of our accelerated expansion, in the first half of the year, revenue from value-added and integrated information service reached RMB22,359 million, an increase of 24.2% over the same period of last year.

In the first half of this year, we continued to expedite the scale replication and promotion of mature industry informatisation applications servicing Government supervision and enforcement, the finance industry, corporate clients and clustered small to medium-sized enterprises. For the government and enterprise market, we focused on addressing customers' key requirements on a segmental basis and offered targeted customised solutions, with synergic integration of fundamental services such as mobile and broadband services into industry applications to promote scale development of fundamental services. For the clustered small to medium-sized enterprises market, we vigorously boosted popular products such as "busy-shop assistant" and "e-Surfing RFID", and transformed the development approach leveraging open channel. Meanwhile, we proactively explored and developed the "Cloud Service" market and centrally built a nationwide "cloud resources management platform" to promote "Cloud Computing" for industry applications and to continuously enhance the capability of providing industry informatisation solutions.

Alleviating operational risk of wireline voice

In the first half of this year, the total number of wireline access lines in service was 172 million, a net decline of 2.83 million. Revenue from wireline voice amounted to RMB26,462 million, accounting for 22.0% of the total revenue. The decline was further mitigated. The number of PAS subscribers continued to decline noticeably and the revenue contribution of PAS to total operating revenue decreased to below 1%. The business risk has primarily been alleviated.

Chairman's Statement (Continued)

Planning ahead and fully preparing for the future

From the overall perspective of the development in global communications industry, the multi-dimensional, multi-crossing, comprehensive restructuring and convergence of key industry players has become an inevitable trend, whereas the player with competitive edges in mobile Internet will be the future leader. As a telecom operator, we leverage our competitive strengths in network and customer base to tackle the dynamic challenges, emphasizing on adaptation to achieve excellence. We proactively execute our strategic positioning as a leader of the intelligent pipeline, a provider of an integrated platform and a participant in content and application development. To meet the dynamic needs of the market, we target to execute a progressive plan in the next three to five years to fully utilise the network strengths of full services operator in developing an intelligent pipeline enabled with customer identification and business awareness, a highly integrated, fully functional, open and fair integrated capability platform and self-operated core applications products. Through extensive collaboration with value chain participants, we also endeavour to support the deployment and operation of content and applications of the collaborative participants, persistently providing enriched communication information experience to our customers and promoting a healthy and vigorous value chain.

Leader of the Intelligent Pipeline

Our intelligent pipeline will feature high-speed bandwidth, convergent wireline and mobile network, users' freedom to participate in network deployment and management, and multi-level quality of service levels for different subscribers and services. This year, we strengthened our access network construction that utilised the passive optical network (PON) technology and achieved comprehensive bandwidth upgrade for our core network and access network. We continued to optimise our 3G network coverage and continued to enhance our network quality to maintain our leading position amongst the peers. We consolidated our carrier-class Wi-Fi network and strengthened its coordinated traffic offloading from the 3G network. Technologies such as Deep Packet Inspection (DPI) have been deployed to reinforce the identification capability of the mobile network on customers and services, and to implement the precise mobile traffic management.

Provider of Integrated Platform

Our integrated platform will be a highly-integrated service carrying platform of open capability to serve various businesses & customers with comprehensive and multifunctional capabilities. Through advancement and opening up of the basic operational capabilities of the platform, we will be able to gather more developers to attract more high-value traffic. From the beginning of the first half of this year, we started to consolidate our existing application platforms and progressively implemented centralised efficient operation, aiming at sharing of subscribers information and resources capability across the Group. We progressively built and provided to our partners various enabling capabilities such as unified authentication, electronic payment and mobile positioning. We vigorously leveraged Cloud Computing technology, set up cloud resources pools and meanwhile commenced to establish a nationwide centralised management and service platform for cloud resources. Leveraging the resources and capabilities of the existing platforms, we have already introduced various outstanding third-party content and applications such as QQ, weibo and the UC Browser to enhance the value of data traffic. In June this year, we took initiatives to form the Open Mobile Internet Alliance with Internet companies and manufacturers of mobile terminals to jointly strengthen cooperation and build up a win-win industry value chain.

Participant in content and application development

In developing content and applications, we adhere to the principles of competitiveness and quality. Leveraging our own resources, we selectively develop self-operated converging content, applications and enabling features including payment and positioning. Through innovative mechanism and system as well as market-oriented operation and development models, we aim to pave the way to future revenue growth. In the first half of the year, the Company has set up the Business Innovation Department to strengthen the centralised efficient operation of innovative products, especially to realise the consolidated sales and marketing of self-operated products of our eight product centres and accelerate the scale promotion of content and applications. We continuously enhanced the penetration and popularity of the products of the product centres to accomplish the preliminary scale development. As a result, products such as 189 mailbox, e-Surfing LIVE, and eStore have achieved initial scale development and the number of subscribers reached 36.78 million, 28.35 million and 27.30 million respectively. Meanwhile, the Company has also accelerated the expansion of mobile payment service and the total value of transactions conducted through BestPay has reached RMB8,600 million in the first half of this year.

China Telecom Corporation Limited | Interim Report 2011

Chairman's Statement

Social responsibility and corporate governance

As a sizeable integrated telecom operator, China Telecom fully understands its vital role in social responsibility. In recent years, we have been investing to enhance the information superhighway and to maintain the healthiness of the information on the Internet, promoting technological innovation and fostering the prosperity of industry value chain. Through continuous improvement in operation and services, we offered excellent integrated information services for individuals, households and enterprises customers, endeavouring to enhance customers' value. We actively took initiatives to fulfill environmental responsibility through promoting lower emissions and green operation with a view to building a green integrated information service provider. As a responsible corporate citizen, we actively participated in charitable activities aiming at alleviation of poverty and other welfare and donation projects to fulfill our community responsibility.

We continue to strive to maintain a high level of corporate governance and corporate transparency to ensure the healthy development of the Company and enhance corporate value. Our persistent efforts in corporate governance have been widely recognised by the capital markets. We have been accredited with a number of awards and appreciation in the first half of this year, including the Overall Best Managed Company in Asia and Best Telecom Company in Asia by *FinanceAsia*, No. 1 Best Managed Company in Asia by *Euromoney*, being the first company receiving such an honour for two consecutive years; and Asia's Best Companies in Corporate Governance and The Best Corporate Social Responsibility in China by *Corporate Governance Asia*.

Outlook

At present, the scale development of the Company is now facing valuable opportunities. 3G service is expanding rapidly and broadband service is undergoing fast growth development amidst strong demand for informatisation services from government and enterprises. The intensified market competition and the industry convergence in the mobile Internet era are bringing new challenges. In the second half of the year, we will persist in deepening strategic transformation, insisting on differentiated strategy and accelerating the scale development. As for the fundamental services, we will expand the government and enterprise markets through promotion of industry applications, develop the public customers leveraging integrated service offering, and expand mobile market riding on 3G services. We shall also attend to the cluster market and strengthen rural market development. As for the innovative services, we will persist in data traffic operation with overall collaboration and centralised efficient operation to drive expansion in mobile Internet services. As for government and enterprises customers, we will endeavour to expand the Cloud service market. We shall further optimise our distribution channel strategies to promote both self-operated outlets and open channels, while also further developing new mobile Internet sales channels. We shall insist on diversified development of mobile terminals and facilitate the continual prosperity of the industry value chain.

Looking forward, we are fully confident and will advocate innovation and transformation, win-win cooperation, pragmatism and strong execution with a view to achieving a new breakthrough in scale development and create more value for shareholders.

Finally, on behalf of the Board of Directors, I would like to take this opportunity to express my sincere appreciation to all our shareholders and customers for their support. I would also like to express my sincere thanks to Mr Shang Bing for his valuable contribution during his tenure of office as an Executive Director of the Company.

Independent Review Report of the International

To the Board of Directors of

China Telecom Corporation Limited

Introduction

We have reviewed the interim financial statements set out on pages 8 to 28 which comprise the consolidated statement of financial position of China Telecom Corporation Limited as at 30 June 2011, the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the six-month period ended 30 June 2011 and explanatory notes. The Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited require the preparation of interim financial statements to be in compliance with the relevant provisions thereof and International Accounting Standard 34, *Interim Financial Reporting*, issued by the International Accounting Standards Board. The directors are responsible for the preparation and presentation of the interim financial statements in accordance with International Accounting Standard 34.

Our responsibility is to form a conclusion, based on our review, on the interim financial statements and to report our conclusion solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Scope of review

We conducted our review in accordance with Hong Kong Standard on Review Engagements 2410, *Review of interim financial information performed by the independent auditor of the entity*, issued by the Hong Kong Institute of Certified Public Accountants. A review of interim financial statements consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Hong Kong Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the interim financial statements as at and for the six-month period ended 30 June 2011 are not prepared, in all material respects, in accordance with International Accounting Standard 34, *Interim Financial Reporting*.

China Telecom Corporation Limited | Interim Report 2011

Notes to the Unaudited Interim Financial

for the six-month period ended 30 June 2011

1. Principal activities

China Telecom Corporation Limited (the Company) and its subsidiaries (hereinafter, collectively referred to as the Group) offers a comprehensive range of wireline and mobile telecommunications services including wireline voice, mobile voice, Internet, managed data and leased line, value-added services, integrated information application services and other related services. The Group provides wireline telecommunications services and related services in Beijing Municipality, Shanghai Municipality, Guangdong Province, Jiangsu Province, Zhejiang Province, Anhui Province, Fujian Province, Jiangxi Province, Guangxi Zhuang Autonomous Region, Chongqing Municipality, Sichuan Province, Hubei Province, Hunan Province, Hainan Province, Guizhou Province, Yunnan Province, Shaanxi Province, Gansu Province, Qinghai Province, Ningxia Hui Autonomous Region and Xinjiang Uygur Autonomous Region of the People's Republic of China (the PRC). Following the acquisition of Code Division Multiple Access (CDMA) mobile telecommunications business in October 2008, the Group also provides mobile telecommunications and related services in the mainland China and Macau Special Administrative Region (Macau) of the PRC. The Group also provides leased line and other related services in certain countries of the Asia Pacific, South America and North America regions.

The operations of the Group in the mainland China are subject to the supervision and regulation by the PRC government. The Ministry of Industry and Information Technology of the PRC (hereinafter MIIT), pursuant to the authority delegated to it by the PRC State Council, is responsible for formulating the telecommunications industry policies and regulations, including the regulation and setting of tariff levels for basic telecommunications services, such as wireline and mobile local and long distance telephony services, managed data services, leased line, roaming and interconnection arrangements.

2. Basis of preparation

These interim financial statements have been prepared in accordance with International Accounting Standard 34, (IAS

34) Interim Financial Reporting issued by the International Accounting Standards Board and the applicable disclosure requirements of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited. These interim financial statements, which were authorised for issuance by the Board of Directors on 23 August 2011, reflect the unaudited financial position of the Group as at 30 June 2011 and the unaudited results of operations and cash flows of the Group for the six-month period then ended, which are not necessarily indicative of the results of operations and cash flows expected for the year ending 31 December 2011.

These interim financial statements have been prepared in accordance with the same accounting policies adopted in the 2010 annual financial statements, except for the adoption of IAS 24 (revised), Related Party Disclosures which has resulted in a change in the disclosures of the financial statements. The disclosures for the related party transactions with government-related entities were modified.

The preparation of interim financial statements in conformity with IAS 34, Interim Financial Reporting requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses on a year to date basis. Actual results may differ from these estimates.

These interim financial statements contain condensed consolidated financial statements and selected explanatory notes. The notes include an explanation of events and transactions that are significant to an understanding of the changes in financial position and performance of the Group since the 2010 annual financial statements. The condensed consolidated interim financial statements and notes thereon do not include all of the information required for a full set of financial statements prepared in accordance with International Financial Reporting Standards (IFRSs).

Notes to the Unaudited Interim Financial Statements**(Continued)****2. Basis of preparation (continued)**

These interim financial statements are unaudited, but have been reviewed by the Audit Committee of the Company. These interim financial statements have also been reviewed by the Company's international auditor in accordance with Hong Kong Standards on Review Engagements 2410, "Review of interim financial information performed by the independent auditor of the entity", issued by the Hong Kong Institute of Certified Public Accountants.

The financial information relating to the financial year ended 31 December 2010 that is included in these interim financial statements as being previously reported information does not constitute the Group's statutory financial statements for that financial year but is derived from those financial statements. The statutory financial statements for the year ended 31 December 2010 are available from the Company's registered office. The Company's international auditor has expressed an unqualified opinion on those financial statements in their report dated 22 March 2011.

3. Segmental reporting

An operating segment is a component of an entity that engages in business activities from which revenues are earned and expenses are incurred, and is identified on the basis of the internal financial reports that are regularly reviewed by the chief operating decision maker in order to allocate resources and assess performance of the segment. For the periods presented, management has determined that the Group has no operating segments as the Group is only engaged in an integrated telecommunications business. The location of the Group's assets and operating revenues derived from activities outside mainland China are less than 1% of the Group's assets and operating revenues, respectively. No geographical area information has been presented as such amounts are immaterial.

4. Accounts receivable, net

Accounts receivable, net, are analysed as follows:

17. Related party transactions (*continued*)

(d) Transactions with other government-related entities (*continued*)

Apart from transactions with parent company and its affiliates (Note 17(a)), the Group has collectively, but not individually significant transactions with other government-related entities, which include but are not limited to the following:

rendering and receiving services, including but not limited to telecommunications services

sales and purchases of goods, properties and other assets

lease of assets

depositing and borrowing money

use of public utilities

These transactions are conducted in the ordinary course of the Group's business on terms comparable to the terms of transactions with other entities that are not government-related. The Group prices its telecommunications services and products based on government-regulated tariff rates, where applicable, or based on commercial negotiations. The Group has also established its procurement policies and approval processes for purchases of products and services, which do not depend on whether the counterparties are government-related entities or not.

The directors believe the above information provides appropriate disclosure of related party transactions.

Other Information

Audit committee

The audit committee has reviewed with management and the Company's international auditor, KPMG, the accounting principles and practices adopted by the Group and discussed internal control and financial reporting matters including the review of the Company's Interim Report for the six months ended 30 June 2011.

Compliance with the code on corporate governance practices

The Company has attached great importance to corporate governance. We continued to make efforts in improving the Company's internal control mechanisms, strengthening information disclosure and enhancing the Company's transparency, developing corporate governance practices and protecting shareholders' interests to the maximum degree.

The roles of Chairman and Chief Executive Officer of the Company were performed by the same individual, for the six months period ended 30 June 2011. In the Company's opinion, through supervision of the Board and Independent Non-executive Directors, and effective control of the Company's internal check and balance mechanism, the same individual performing the roles of Chairman and Chief Executive Officer can achieve the goal of improving the Company's efficiency in decision-making and execution, and effectively capture business opportunities. Many international leading corporations also have a similar arrangement.

Save as stated above, the Company has been in compliance with all the code provisions as set out in Appendix 14 Code on Corporate Governance Practices of the Listing Rules throughout the six months period ended 30 June 2011.

Compliance with model code for securities transactions by directors

The Company has adopted the Model Code as set out in Appendix 10 of the Listing Rules to govern securities transactions by Directors. Further to the specific enquiries made by the Company to all Directors, they have confirmed their compliance with the Model Code throughout the period from 1 January 2011 to 30 June 2011.

Forward-looking statements
