*Basis of Presentation.* The unaudited Condensed Consolidated Financial Statements (Financial Statements) of the Company are prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) and the rules of the Securities and Exchange Commission (SEC). The comparative year-end condensed consolidated statement of financial position data presented was derived from audited financial statements. In the opinion of management, all adjustments (consisting of only normal recurring adjustments) necessary for a fair statement of the financial position and results of operations for the periods presented have been included. These Financial Statements should be read in conjunction with the audited Consolidated Financial Statements of the Company for the year ended December 31, 2010, included in its annual report on Form 10-K. The results of operations for any interim period are not necessarily indicative of, nor comparable to, the results of operations for a full year.

*Principles of Consolidation.* The Financial Statements include the accounts of the Company and its subsidiaries, all of which are wholly owned. All intercompany balances have been eliminated.

*Use of Estimates.* The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. As of September 30, 2011, such estimates included allowances for uncollectible accounts receivable, workers compensation losses, and income and other taxes. Management estimates are also utilized in the Company s goodwill impairment assessment.

*Advertising Costs.* The Company expenses all advertising costs as incurred. Advertising costs for the three and the nine months ended September 30, 2011 and 2010, are reflected in the following table (in thousands):

	Three Mon Septem		d Nine Months Ended September 30,

#### Note B New Accounting Pronouncements

*Fair Value Measurements and Disclosures.* In May 2011, the Financial Accounting Standards Board (FASB) issued authoritative guidance to achieve common fair value measurement and disclosure requirements in GAAP and international financial reporting standards (IFRS). The amendments explain how to measure fair value and will improve the comparability of fair value measurement presented and disclosed in financial statements prepared in accordance with GAAP and IFRS. This authoritative guidance is to be applied prospectively and is effective during interim and annual periods beginning after December 15, 2011. The Company does not expect the adoption of this guidance to have a material effect on its Financial Statements.

*Comprehensive Income.* In June 2011, the FASB issued authoritative guidance which allows an entity the option to present the total of comprehensive income, the components of net income, and the components of other comprehensive income either in a single continuous statement of comprehensive income or in two separate but consecutive statements. This authoritative guidance eliminates the option to present the components of other comprehensive income as part of the statement of changes in stockholder s equity. This authoritative guidance is to be applied retrospectively and is effective for fiscal years, and interim periods within those years, beginning after December 15, 2011. Except for presentation requirements, the Company does not expect the adoption of this guidance to have a material effect on its Financial Statements.

*Testing Goodwill for Impairment*. In August 2011, the FASB issued authoritative guidance which is intended to simplify how entities test goodwill for impairment by permitting an entity to first assess qualitative factors to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount as a basis for determining whether it is necessary to perform the two-step goodwill impairment test. This authoritative guidance is to be applied retrospectively and is effective for fiscal years, and interim periods within those years, beginning after December 15, 2011. The Company does not expect the adoption of this guidance to have a material effect on its Financial Statements.

#### Note G Commitments and Contingencies

On September 10, 2004, Plaintiff Mark Laffitte, on behalf of himself and a putative class of salaried Account Executives and Staffing Managers, filed a complaint in California Superior Court naming the Company and three of its wholly owned subsidiaries as Defendants. The complaint alleges that salaried Account Executives and Staffing Managers based in California have been misclassified under California law as exempt employees and seeks an unspecified amount for unpaid overtime pay alleged to be due to them had they been paid as non-exempt hourly employees. In addition, the Plaintiff seeks an unspecified amount for statutory penalties for alleged violations of the California Labor Code arising from the alleged misclassification of these employees as exempt employees. On September 18, 2006, the Court issued an order certifying a class with respect to claims for alleged unpaid overtime pay and related statutory penalties but denied certification with respect to claims relating to meal periods and rest time breaks. The Court has stayed the litigation until March 1, 2012. As disclosed in the Company s prior filings, the litigation was previously stayed pending a decision by the California Supreme Court in a case titled *Pellegrino, et al. v. Robert Half International Inc.*, which, as previously disclosed, the Company does not believe is a material pending legal proceeding. However, rulings by the California Supreme Court in *Pellegrino* or in *Harris v. Superior Court*, a case unrelated to the Company, may have a material adverse bearing on the Company s position in this litigation. At this stage of the litigation, it is not feasible to predict the outcome of or a range of loss, should a loss occur, from this proceeding, and accordingly, no amounts have been provided in the Company s financial statements. The Company believes it has meritorious defenses to the allegations, and the Company intends to continue to vigorously defend against the litigation.

On February 23, 2011, Plaintiff Isabel Apolinario, on behalf of herself and a putative class of salaried Account Executives and Staffing Managers, filed a complaint in California Superior Court naming the Company and three of its wholly owned subsidiaries as Defendants. The complaint alleges that salaried Account Executives and Staffing Managers based in California have been misclassified under California law as exempt employees and seeks an unspecified amount for unpaid overtime pay alleged to be due to them had they been paid as non-exempt hourly employees. In addition, the Plaintiff seeks an unspecified amount for statutory penalties for alleged violations of the California Labor Code arising from the alleged misclassification of these employees as exempt employees. The Court has stayed this case until March 1, 2012. As disclosed in the Company s prior filings, the litigation was previously stayed pending decisions by the California Supreme Court in the *Pellegrino* and *Harris* cases referenced in the first paragraph of this Note G. Rulings by the California Supreme Court in *Pellegrino* or *Harris* may have a material adverse bearing on the Company s position in this litigation. At this stage of the litigation, it is not feasible to predict the outcome of or a range of loss, should a loss occur, from this proceeding, and accordingly, no amounts have been provided in the Company s financial statements. The Company believes it has meritorious defenses to the allegations in this case, and the Company intends to vigorously defend against the litigation.

#### Note G Commitments and Contingencies (Continued)

On September 24, 2007, Plaintiff Van Williamson, on behalf of himself and a putative class of salaried Account Executives and Staffing Managers, filed a complaint in California Superior Court naming the Company and three of its wholly owned subsidiaries as Defendants. The complaint alleges that salaried Account Executives and Staffing Managers based in California were not provided meal periods, paid rest periods, and accurate itemized wage statements. It seeks one hour of wages for each employee for each meal and rest period missed during the statutory liability period. It also seeks an unspecified amount for statutory penalties for alleged violations of the California Labor Code arising from the alleged failure to provide the meal and rest periods and accurate itemized wage statements. The allegations in the complaint are substantially similar to the allegations included in the complaint filed by Mark Laffitte described above. The Court stayed the litigation pending the California Supreme Court s decisions in two cases unrelated to the Company: *Brinker Restaurant Corp. v. Superior Court* and *Harris*, a case referenced previously in this Note G. A ruling in the *Harris* case, the *Brinker* case, and/or the *Pellegrino* case referenced previously in this Note G, may have a material adverse bearing on the Company s position in this litigation. At this stage of the litigation, it is not feasible to predict the outcome of or a range of loss, should a loss occur, from this proceeding, and accordingly, no amounts have been provided in the Company s financial statements. The Company believes it has meritorious defenses to the allegations, and the Company intends to continue to vigorously defend against the litigation.

On April 23, 2010, Plaintiffs David Opalinski and James McCabe, on behalf of themselves and a putative class of similarly situated Staffing Managers, filed a Complaint in the United States District Court for the District of New Jersey naming the Company and one of its subsidiaries as Defendants. The Complaint alleges that salaried Staffing Managers located throughout the U.S. have been misclassified as exempt from the Fair Labor Standards Act s overtime pay requirements. Plaintiffs seek an unspecified amount for unpaid overtime on behalf of themselves and the class they purport to represent. Plaintiffs also seek an unspecified amount for statutory penalties, attorneys fees and other damages. On October 6, 2011, the Court granted the Company s motion to compel arbitration of the Plaintiffs allegations. At this stage, it is not feasible to predict the outcome of or a range of loss, should a loss occur, from these allegations and, accordingly, no amounts have been provided in the Company s financial statements. The Company believes it has meritorious defenses to the allegations, and the Company intends to vigorously defend against the allegations.

On May 13, 2011, Plaintiff Michael Merchant filed a complaint in California Superior Court naming a division of the Company as a Defendant. The complaint alleges certain technical violations of the California Labor Code regarding the presentation formatting of wage statements of certain current and former hourly employees and seeks an unspecified amount for penalties, attorneys fees, costs and expenses. The Company believes it has meritorious defenses to the allegations and has vigorously defended against the litigation. The parties to this action have entered into a verbal agreement that is expected to settle and resolve the claims included in the complaint. The actual settlement of the case is contingent upon the parties execution of a formal written settlement agreement approved by the Court. Based on the settlement terms contained in the verbal agreement between the parties, the Company has determined that this litigation is not currently a material legal proceeding. Accordingly, the Company does not presently intend to make disclosures regarding this case in its future Securities and Exchange Commission filings.

The Company is involved in a number of other lawsuits arising in the ordinary course of business. While management does not expect any of these other matters to have a material adverse effect on the Company s results of operations, financial position or cash flows, litigation is subject to certain inherent uncertainties.

Legal costs associated with the resolution of claims, lawsuits and other contingencies are expensed as incurred.

#### Note H Stockholders Equity

*Stock Repurchase Program.* As of September 30, 2011, the Company is authorized to repurchase, from time to time, up to 6.4 million additional shares of the Company s common stock on the open market or in privately negotiated transactions, depending on market conditions. The number and the cost of common stock shares repurchased during the nine months ended September 30, 2011 and 2010, are reflected in the following table (in thousands):

	Nine Mont Septem	
	2011	2010
Common stock repurchased (in shares)	5,021	2,961
Common stock repurchased	\$ 134,026	\$ 76,753

Additional stock repurchases were made in connection with employee stock plans, whereby Company shares were tendered by employees for the payment of exercise price and applicable statutory withholding taxes. Repurchases of shares are funded with cash generated from operations. The number and the cost of employee stock plan repurchases made during the nine months ended September 30, 2011 and 2010, are reflected in the following table (in thousands):

	Nine Mon Septem	
	2011	2010
Employee stock plan repurchased (in shares)	216	250
Employee stock plan repurchased	\$ 6,365	\$ 6,435

The repurchased shares are held in treasury and are presented as if constructively retired. Treasury stock is accounted for using the cost method. Treasury stock activity for the nine months ended September 30, 2011 and 2010 (consisting of stock option exercises and the purchase of shares for the treasury) is presented in the unaudited Condensed Consolidated Statements of Stockholders Equity.

*Cash Dividends.* The Company s Board of Directors may at their discretion declare and pay dividends upon the shares of the Company s stock either out of the Company s retained earnings or capital surplus. The cash dividends declared during the nine months ended September 30, 2011 and 2010, are reflected in the following table:

		ths Ended 1ber 30,
	2011	2010
Cash dividends declared per share	\$.42	\$.39

Repurchases of shares and issuances of cash dividends are applied first to the extent of retained earnings and any remaining amounts are applied to capital surplus. As a result, the Company had no retained earnings as of September 30, 2011 and December 31, 2010.

#### Note I Stock Plans

Under various stock plans, officers, employees and outside directors have received or may receive grants of restricted stock, stock units, stock appreciation rights or options to purchase common stock. Grants have been made at the discretion of the Committees of the Board of Directors. Grants generally vest over four years. Shares offered under the plan are authorized but unissued shares or treasury shares.

Options currently outstanding under the plans have an exercise price equal to the fair market value of the Company s common stock at the date of grant and consist of non-statutory stock options under the Internal Revenue Code, and generally have a term of 10 years.

Recipients of restricted stock do not pay any cash consideration to the Company for the shares, have the right to vote all shares subject to such grant, and for grants made prior to July 28, 2009, receive all dividends with respect to such shares on the dividend payment dates, whether or not the shares have vested as long as any performance condition has been met. Restricted stock grants made on or after July 28, 2009, contain forfeitable rights to dividends. Dividends for these grants are accrued on the dividend payment dates but are not paid until the shares vest, and dividends accrued for shares that ultimately do not vest are forfeited. Recipients of stock units do not pay any cash consideration for the units, do not have the right to vote, and do not receive dividends with respect to such units. Compensation expense for restricted stock and stock units is generally recognized on a straight-line basis over the vesting period, based on the stock s fair market value on the grant date. For restricted stock grants issued with performance conditions, compensation expense is recognized over each vesting tranche.
