FORM N-Q

QUARTERLY SCHEDULE OF PORTFOLIO HOLDINGS OF REGISTERED
MANAGEMENT INVESTMENT COMPANY

Investment Company Act file number 811-07816

PCM Fund, Inc.

(Exact name of registrant as specified in charter)

Edgar Filing: PCM FUND, INC. - Form N-Q

1633 Broadway New York, New York
(Address of principal executive offices)

10019
(Zip code)

Lawrence G. Altadonna 1633 Broadway New York, New York 10019

(Name and address of agent for service)

Registrant's telephone number, including area code: **212-739-3371**

Date of fiscal year end: **December 31, 2011**

Date of reporting period: **September 30, 2011**

Form N-Q is to be used by management investment companies, other than small business investment companies registered on Form N-5 (§§ 239.24 and 274.5 of this chapter), to file reports with the Commission, not later than 60 days after the close of the first and third fiscal quarters, pursuant to rule 30b 1-5 under the Investment Company Act of 1940 (17 CFR 270.30b1-5). The Commission may use the information provided on Form N-Q in its regulatory, disclosure review, inspection, and policymaking roles.

A registrant is required to disclose the information specified by Form N-Q, and the Commission will make this information public. A registrant is not required to respond to the collection of information contained in Form N-Q unless the Form displays a currently valid Office of Management and Budget (OMB) control number. Please direct comments concerning the accuracy of the information collection burden estimate and any suggestions for reducing the burden to the Secretary, Securities and Exchange Commission, 100 F Street, NE, Washington, DC 20549-2001. The OMB has reviewed this collection of information under the clearance requirements of 44 U.S.C. § 3507.

Notes to Schedule of Investments:

* Portfolio securities and other financial instruments for which market quotations are readily available are stated at market value. Market value is generally determined on the basis of last reported sales prices, or if no sales are reported, on the basis of quotes obtained from a quotation reporting system, established market makers, or independent pricing services.

Portfolio securities and other financial instruments for which market quotations are not readily available, or for which a development/event occurs that may significantly impact the value of a security, are fair-valued, in good faith, pursuant to procedures established by the Board of Directors, or persons acting at their discretion pursuant to procedures established by the Board of Directors, including certain fixed income securities which may be valued with reference to securities whose prices are more readily available. The Fund's investments are valued daily using prices supplied by an independent pricing service or dealer quotations, or by using the last sale price on the exchange that is the primary market for such securities, or the mean between the last quoted bid and ask price. Independent pricing services use information provided by market makers or estimates of market values obtained from yield data relating to investments or securities with similar characteristics. Short-term securities maturing in 60 days or less are valued at amortized cost, if their original term to maturity was 60 days or less, or by amortizing their value on the 61st day prior to maturity, if the original term to maturity exceeded 60 days.

The prices used by the Fund to value securities may differ from the value that would be realized if the securities were sold and these differences could be material. The Fund's net asset value (NAV) is normally determined as of the close of regular trading (normally, 4:00 p.m. Eastern time) on the New York Stock Exchange (NYSE) on each day the NYSE is open for business.

- (a) Private Placement Restricted as to resale and may not have a readily available market. Securities with an aggregate value of \$68,056,874, representing 61.5% of net assets.
- (b) 144A Exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration, typically only to qualified institutional buyers. Unless otherwise indicated, these securities are not considered to be illiquid.
- (c) In default.
- (d) Fair-Valued Securities with an aggregate value of \$236,207, representing 0.2% of net assets.
- (e) All or partial amount segregated for the benefit of the counterparty as collateral for derivatives.
- (f) Non-income producing.
- (g) All or partial amount segregated for the benefit of the counterparty as collateral for reverse repurchase agreements.
- (h) Rates reflect the effective yields at purchase date.
- (i) At September 30, 2011, the cost basis of investments for federal income tax purposes was \$204,593,164. Gross unrealized appreciation was \$16,868,100; gross unrealized depreciation was \$10,068,676; and net unrealized appreciation was \$6,799,424. The difference between book and tax cost basis was attributable to wash sales.

Glossary:

Edgar Filing: PCM FUND, INC. - Form N-Q

CMO	Collateralized Mortgage Obligation
FRN	Floating Rate Note. The interest rate disclosed reflects the rate in effect on September 30, 2011.
IO	Interest Only
MBIA	insured by Municipal Bond Investors Assurance
MBS	Mortgage-Backed Securities
NR	Not Rated
PO	Principal Only
VRN	Variable Rate Note. Instruments whose interest rates change on a specified date (such as a coupon date or interest payment date) and/or whose interest rates vary with changes in a designated base rate (such as the prime interest rate). The interest rate disclosed reflects the rate in effect on September 30, 2011.
WR	Withdrawn Rating

Other Investments:

(A) Credit default swap agreements:

Sell protection swap agreements outstanding at September 30, 2011 ⁽¹⁾:

Swap Counterparty/ Referenced Debt Issuer	Notional Amount (000s) ⁽³⁾	Credit Spread ⁽²⁾	Termination Date	Payments Received	Market Value ⁽⁴⁾	Upfront Premiums Paid(Received)	Unrealized Appreciation (Depreciation)
Bank of America:							
MetLife	\$ 3,500	3.20%	9/20/15	1.00%	\$ (277,099)	\$ (235,194)	\$ (41,905)

SLM	3,000	6.40%	3/20/19	5.35%	(153,132)		(153,132)
					\$ (414,716)	\$ (228,244)	\$ (186,472)

- (1) If the Fund is a seller of protection and a credit event occurs, as defined under the terms of that particular swap agreement, the Fund will either (i) pay to the buyer of protection an amount equal to the notional amount of the swap and take delivery of the referenced obligation or underlying securities comprising the referenced index or (ii) pay a net settlement amount in the form of cash or securities equal to the notional amount of the swap less the recovery value of the referenced obligation or underlying securities comprising the referenced index.
- (2) Implied credit spreads, represented in absolute terms, utilized in determining the market value of credit default swap agreements as of period end serve as an indicator of the current status of the payment/performance risk and represent the likelihood or risk of default for the credit derivative. The implied credit spread of a particular referenced entity reflects the cost of buying/selling protection and may include upfront payments required to be made to enter into the agreement. Wider credit spreads represent a deterioration of the referenced entity's credit soundness and a greater likelihood or risk of default or other credit event occurring as defined under the terms of the agreement.
- (3) This represents the maximum potential amount the Fund could be required to make available as a seller of credit protection or receive as a buyer of credit protection if a credit event occurs as defined under the terms of that particular swap agreement.
- (4) The quoted market prices and resulting values for credit default swap agreements serve as an indicator of the status at September 30, 2011 of the payment/performance risk and represent the likelihood of an expected liability (or profit) for the credit derivative should the notional amount of the swap agreement been closed/sold as of the period end. Increasing market values, in absolute terms when compared to the notional amount of the swap, represent a deterioration of the referenced entity's credit soundness and a greater likelihood or risk of default or other credit event occurring as defined under the terms of the agreement.

The Fund received \$60,000 in cash as collateral for derivatives. Cash collateral held may be invested in accordance with the Fund's investment strategy.

(B) Open reverse repurchase agreements at September 30, 2011:

					\$ 99,578,000

The weighted average daily balance of reverse repurchase agreements outstanding during the nine months ended September 30, 2011 was \$101,524,102 at a weighted average interest rate of 0.73%. The total market value of underlying collateral (refer to the Schedule of Investments for position segregated for the benefit of the counterparty as collateral for reverse repurchase agreements) for open reverse repurchase agreements at September 30, 2011 was \$109,918,130.

At September 30, 2011, the Fund held \$250,000 in principal value of U.S. Government Agency Securities as collateral for open reverse repurchase agreements. Securities held as collateral will not be pledged and are not reflected in the Schedule of Investments.

Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (i.e. the exit price) in an orderly transaction between market participants. The three levels of the fair value hierarchy are described below:

Level 1 quoted prices in active markets for identical investments that the Fund has the ability to access

Level 2 valuations based on other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.) or quotes from inactive exchanges

Level 3 valuations based on significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

An investment asset's or liability's level within the fair value hierarchy is based on the lowest level input, individually or in the aggregate, that is significant to fair value measurement. The objective of fair value measurement remains the same even when there is a significant decrease in the volume and level of activity for an asset or liability and regardless of the valuation technique used.

The valuation techniques used by the Fund to measure fair value during the nine months ended September 30, 2011 maximized the use of observable inputs and minimized the use of unobservable inputs. When fair-valuing securities, the Fund utilized option adjusted spread pricing techniques.

The inputs or methodology used for valuing securities is not necessarily an indication of the risk associated with investing in those securities. The following are certain inputs and techniques that the Fund generally uses to evaluate how to classify each major category of assets and liabilities for Level 2 and Level 3, in accordance with Generally Accepted Accounting Principles.

Equity Securities (Common and Preferred Stock) Equity securities traded in inactive markets and certain foreign equity securities are valued using inputs which include broker-dealer quotes, recently executed transactions adjusted for changes in the benchmark index, or evaluated price quotes received from independent pricing services that take into account the integrity of the market sector and issuer, the individual characteristics of the security, and information received from broker-dealers and other market sources pertaining to the issuer or security. To the extent that these inputs are observable, the values of equity securities are categorized as Level 2. To the extent that these inputs are unobservable, the values are categorized as Level 3.

U.S. Treasury Obligations U.S. Treasury obligations are valued by independent pricing services based on pricing models that evaluate the mean between the most recently quoted bid and ask price. The models also take into consideration data received from active market makers and broker-dealers, yield curves, and the spread over comparable U.S. Treasury issues. The spreads change daily in response to market conditions and are generally obtained from the new issue market and broker-dealer sources. To the extent that these inputs are observable, the values of U.S. Treasury obligations are categorized as Level 2. To the extent that these inputs are unobservable, the values are categorized as Level 3.

Government Sponsored Enterprise and Mortgage-Backed Securities Government sponsored enterprise and mortgage-backed securities are valued by independent pricing services using pricing models based on inputs that include issuer type, coupon, cash flows, mortgage prepayment projection tables and Adjustable Rate Mortgage evaluations that incorporate index data, periodic and life caps, the next coupon reset date, and the convertibility of the bond. To the extent that these inputs are observable, the values of government sponsored enterprise and mortgage-backed securities are categorized as Level 2. To the extent that these inputs are unobservable, the values are categorized as Level 3.

Municipal Bonds Municipal bonds are valued by independent pricing services based on pricing models that take into account, among other factors, information received from market makers and broker-dealers, current trades, bid-want lists, offerings, market movements, the callability of the bond or note, state of issuance, benchmark yield curves, and bond or note insurance. To the extent that these inputs are observable, the values of municipal bonds are categorized as Level 2. To the extent that these inputs are unobservable, the values are categorized as Level 3.

Corporate Bonds & Notes Corporate bonds and notes are generally comprised of two main categories: investment grade bonds and high yield bonds. Investment grade bonds are valued by independent pricing services using various inputs and techniques, which include broker-dealer quotations, live trading levels, recently executed transactions in securities of the issuer or comparable issuers, and option adjusted spread models that include base curve and spread curve inputs. Adjustments to individual bonds can be applied to recognize trading differences compared to other bonds issued by the same issuer. High yield bonds are valued by independent pricing services based primarily

Edgar Filing: PCM FUND, INC. - Form N-Q

on broker-dealer quotations from relevant market makers and recently executed transactions in securities of the issuer or comparable issuers. The broker-dealer quotations received are supported by credit analysis of the issuer that takes into consideration credit quality assessments, daily trading activity, and the activity of the underlying equities, listed bonds and sector-specific trends. To the extent that these inputs are observable, the values of corporate bonds and notes are categorized as Level 2. To the extent that these inputs are unobservable, the values are categorized as Level 3.

Convertible Bonds Convertible bonds are valued by independent pricing services based on various inputs and techniques, which include broker-dealer quotations from relevant market makers and recently executed transactions in securities of the issuer or comparable issuers. The broker-dealer quotations received are supported by credit analysis of the issuer that takes into consideration credit quality assessments, daily trading activity, and the activity of the underlying equities, listed bonds and sector-specific trends. To the extent that these inputs are observable, the values of convertible bonds are categorized as Level 2. To the extent that these inputs are unobservable, the values are categorized as Level 3.

Asset-Backed Securities and Collateralized Mortgage Obligations Asset-backed securities and collateralized mortgage obligations are valued by independent pricing services using pricing models based on a security's average life volatility. The models also take into account tranche characteristics such as coupon average life, collateral types, ratings, the issuer and tranche type, underlying collateral and performance of the collateral, and discount margin for certain floating rate issues. To the extent that these inputs are observable, the values of asset-backed securities and collateralized mortgage obligations are categorized as Level 2. To the extent that these inputs are unobservable, the values are categorized as Level 3.

Credit Default Swaps Credit default swaps are valued by independent pricing services using pricing models that take into account, among other factors, information received from market makers and broker-dealers, default probabilities from index specific credit spread curves, recovery rates, and cash flows. To the extent that these inputs are observable, the values of credit default swaps are categorized as Level 2. To the extent that these inputs are unobservable, the values are categorized as Level 3.

The Fund's policy is to recognize transfers between levels at the end of the reporting period.

A summary of the inputs used at September 30, 2011 in valuing the Fund's assets and liabilities is listed below:

	Level 1 - Quoted Prices	Level 2 - Other Significant Observable Inputs	Level 3 - Significant Unobservable Inputs	Value at 9/30/11
Investments in Securities - Assets				
Mortgage-Backed Securities		\$ 154,383,821	\$ 1,435,867	\$ 155,819,688
Corporate Bonds & Notes:				
Airlines			3,082,563	3,082,563
All Other		32,887,043		32,887,043
Asset-Backed Securities		8,257,161		8,257,161
U.S. Government Agency Securities		138,058	2,310,000	2,448,058
Municipal Bonds		1,998,366		1,998,366
Convertible Bonds		1,168,500		1,168,500
Common Stock	\$ 25,823			25,823

Other Financial Instruments* Assets				
Credit Contracts		\$ 145,746		\$ 145,746
Other Financial Instruments* Liabilities				
Credit Contracts		\$ (332,218)		\$ (332,218)
Total Investments	\$ 25,823	\$ 204,351,863	\$ 6,828,430	\$ 211,206,116

Edgar Filing: PCM FUND, INC. - Form N-Q

* Other financial instruments not reflected in the Schedule of Investments, such as swap agreements, are valued at the unrealized appreciation (depreciation) of the instrument.

There were no significant transfers between Levels 1 and 2 during the nine months ended September 30, 2011.

A roll forward of fair value measurements using significant unobservable inputs (Level 3) for the nine months ended September 30, 2011, was as follows:

Edgar Filing: PCM FUND, INC. - Form N-Q

	Beginning Balance 12/31/10	Purchases	Sales	Accrued Discounts (Premiums)	Net Realized Gain (Loss)	Net Change in Unrealized Appreciation/ Depreciation	Transfers into Level 3	Transfers out of Level 3**	Ending Balance 9/30/11
Investments in									
Securities - Assets									
Mortgage-Backed Securities	\$ 1,264,860	\$ 1,214,402	\$ (643,394)	\$ 39,119	\$ 377,358	\$ 156,697		\$ (973,175)	\$ 1,435,867
Corporate Bonds & Notes:									
Airlines	8,242,029		(4,957,776)	73,488	299,691	(574,869)			3,082,563
U.S. Government Agency Securities		2,408,900	(45,389)			(53,511)			2,310,000
Warrants	10,555					(4,971)		(5,584)	
Short-Term Investments:									
Asset-Backed Securities	55,663		(131,192)	15,445		60,084			
U .S. Government Agency Securities	8,450		(8,439)	(5)	(20)	14			
Total Investments	\$ 9,581,557	\$ 3,623,302	\$ (5,786,190)	\$ 128,047	\$ 677,029	\$ (416,556)		\$ (978,759)	\$ 6,828,430

** Transferred out of Level 3 into Level 2 because sufficient observable inputs were available.

The net change in unrealized appreciation (depreciation) of Level 3 investments which the Fund held at September 30, 2011 was \$(249,143).

Item 2. Controls and Procedures

- (a) The registrant's President & Chief Executive Officer and Treasurer, Principal Financial & Accounting Officer have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Act (17 CFR 270.30a-3(c))), are effective based on their evaluation of these controls and procedures as of a date within 90 days of the filing date of this document.
- (b) There were no significant changes in the registrant's internal controls over financial reporting (as defined in Rule 30a-3(d) under the Act (17 CFR 270.30a-3(d))) that occurred during the registrant's last fiscal quarter that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.

Item 3. Exhibits

- (a) Exhibit 99.302 Cert. Certification pursuant to Section 302 of the Sarbanes-Oxley Act of 2002

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
