this  
report  
has  
been  
presented  
on  
a

includes  
all  
countries.

In  
this  
report,  
management  
estimates  
of  
market  
share  
information  
are  
generally  
based  
on  
retail  
unit  
data  
in  
North  
America,

on  
registrations of equipment in most of Europe, Brazil, and various Rest of World markets and on retail and shipment unit data  
collected  
by  
a  
central  
information  
bureau  
appointed  
by  
equipment  
manufacturers  
associations  
including

the  
Association  
of  
Equipment  
Manufacturers  
in  
North  
America,  
the  
Committee  
for  
European  
Construction  
Equipment  
in  
Europe,  
the  
ANFAVEA

in Brazil, the Japan Construction Equipment Manufacturers Association and the Korea Construction Equipment Manufacturers Association, as well as on other shipment data collected by an independent service bureau.

Not all agricultural or construction equipment is registered, and registration data may thus underestimate, perhaps substantially, actual retail industry unit sales demand, particularly for local manufacturers in China, Southeast Asia, Eastern Europe, Russia, Turkey, Brazil and any country where local shipments are not reported .

In addition, there may also be a period of time between the shipment, delivery, sale and/or registration of a unit, which must be estimated, in making any adjustments to the shipment, delivery, sale, or registration data to determine our estimates of retail unit data in any period.

that  
are

Non-GAAP  
Financial

as  
this  
term  
is  
defined  
under

Regulation G as promulgated by the SEC. In accordance with Regulation G, CNH has detailed either the computation of these financial measures from multiple U.S. GAAP figures or reconciled these non-GAAP financial measures to the most relevant U.S. GAAP equivalent in the accompanying tables in this presentation. Some of these measures do not have standardized meanings and investors should consider that the methodology applied in calculating such measures may differ among companies and analysts. CNH's management believes these non-GAAP measures provide useful supplementary information to investors in order that they may evaluate CNH's financial performance using the same measures used by our management. These non-GAAP financial measures should not be considered as a substitute for, nor superior to, measures of financial performance prepared in accordance with U.S. GAAP.
