PROXY STATEMENT

2012 ANNUAL MEETING OF STOCKHOLDERS

This Proxy Statement and accompanying proxy was first mailed to stockholders (or made available electronically over the Internet) on or about February 28, 2012, in connection with the solicitation of proxies by the Board of Directors (Board) of AsiaInfo-Linkage, Inc., a Delaware corporation (we, us or AsiaInfo-Linkage), for use at the annual meeting of stockholders to be held on April 20, 2012, at 3:00 p.m., local time, at our principal executive offices located at 4th Floor, Zhongdian Information Tower, 6 Zhongguancun South Street, Haidian District, Beijing, PRC, or at any adjournment or postponement thereof, for the purposes set forth herein and in the accompanying Notice of Annual Meeting of Stockholders (the Annual Meeting). Our telephone number at our principal executive offices is +8610-8216-6688.

INFORMATION CONCERNING SOLICITATION AND VOTING

Record Date and Share Ownership

Stockholders of record at the close of business on February 22, 2012, which date is referred to herein as the record date, are entitled to notice of and to vote at the Annual Meeting. As of the record date, 72,497,518 shares of our common stock were issued and outstanding and held of record by approximately 710 registered stockholders.

Voting, Solicitation and Revocability of Proxy

Registered stockholders can vote by mail, telephone or the Internet. Please note that voting via the Internet is a valid proxy voting method under the laws of the State of Delaware (our state of incorporation). Telephone voting can be accessed by calling the toll-free number (in the United States only) 1-866-540-5760. Internet voting can be accessed by logging on to the following Internet address: <http://www.proxyvoting.com/asia>. Telephone and Internet voting information is provided on the proxy card. A control number located on the proxy card is designed to verify each stockholder's identity and allow stockholders to vote their shares and confirm that their voting instructions have been properly recorded. If your shares are held in the name of a bank, broker or other nominee, follow the voting instructions on the form you receive from your bank, broker or other nominee. For such shares, the availability of telephone or Internet voting depends on the voting process of your bank, broker or other nominee.

Edgar Filing: ASIAINFO-LINKAGE, INC - Form DEF 14A

If you do not choose to vote by telephone or the Internet, you may still return your proxy card, properly signed, and the shares represented will be voted in accordance with your directions. You can specify your choices by marking the appropriate boxes on the proxy card. If your proxy card is signed and returned without specifying choices, the shares will be voted in favor of Proposals 1 through 3. If you vote by telephone or the Internet, it is not necessary to return your proxy card.

You may revoke your proxy at any time before it is voted at the Annual Meeting by casting a different vote by telephone or the Internet, by executing a later-voted proxy by mail, by voting by ballot at the Annual Meeting, or by providing written notice of the revocation to Shanniang (Deborah) Lv, our Legal Counsel, at our principal executive offices.

Table of Contents

Your vote is important. Accordingly, regardless of whether you plan to attend the Annual Meeting, you are urged to vote by telephone, by the Internet, or by signing and returning the accompanying proxy card. If you do attend, you may vote by ballot at the Annual Meeting, thereby canceling any proxy previously given. However, attendance at the Annual Meeting will not revoke a proxy unless you actually vote in person at the Annual Meeting.

In the event that any matter not described in this Proxy Statement properly comes before the Annual Meeting, the proxy holders named in the accompanying proxy will vote the shares represented by the proxy in their discretion. As of the date of this Proxy Statement, we are not aware of any other matter that might be presented at the Annual Meeting.

Each share of common stock outstanding on the record date is entitled to one vote. The required quorum for the transaction of business at the Annual Meeting is a majority of the votes eligible to be cast by holders of shares of common stock issued and outstanding on the record date, present in person or represented by proxy. Stockholders may withhold authority to vote for one or more of the nominees for director and may abstain on one or more of the other matters that may come before the Annual Meeting. The inspector of election appointed for the Annual Meeting will determine the existence of a quorum and will tabulate the votes cast at the Annual Meeting. For purposes of determining the presence of a quorum, abstentions and broker non-votes (shares held by a bank, broker or other nominee that does not have the authority, either express or discretionary, to vote on a particular matter) will be counted by us as present at the Annual Meeting. Abstentions will be counted by us in determining the total number of votes cast with respect to a proposal (other than the election of directors). Broker non-votes will not be counted as votes cast with respect to a proposal and will have no effect on the outcome of the vote on such proposal. If, however, a quorum is not present or represented, the stockholders present in person or represented by proxy have the power to adjourn the Annual Meeting from time to time, without notice other than announcement at the Annual Meeting, until a quorum is present or represented. Under the rules regulating banks, brokers or other nominees who are members of the New York Stock Exchange, or the NYSE, and under applicable rules of the U.S. Securities and Exchange Commission, or the SEC, brokers, banks or other nominees that have not received voting instructions from a customer ten days prior to the meeting date may only vote the customer's shares in discretion of the bank, broker or other nominee on proposals regarding routine matters, which in most cases includes the ratification of the appointment of the independent registered public accounting firm. However, without your specific instructions, your bank, broker, or other nominee may not vote your shares in the election of directors or the stockholder advisory vote on executive compensation.

The cost of soliciting proxies will be borne by us. Proxies may be solicited by certain of our directors, officers and employees, without additional compensation, in person or by telephone, email or facsimile. We have engaged Morrow & Co., LLC, 470 West Ave., Stamford, Connecticut 06902, to assist with the solicitation of proxies for an estimated fee of \$5,500 plus reasonable out-of-pocket expenses. In addition, we may reimburse brokerage firms and other persons representing beneficial owners of shares for their expenses in forwarding solicitation materials to such beneficial owners.

Vote Required

Abstentions and broker non-votes are counted for quorum purposes but have no effect on the vote. Banks, brokers and other nominees who have not received voting instructions from their customers with respect to shares held beneficially for such customers may not vote such shares on a discretionary basis for the election of any director. Stockholders do not have cumulative voting rights in the election of directors.

Recommendation of Our Board

Our Board recommends that AsiaInfo-Linkage stockholders vote **FOR** the election of the three Class I nominees listed above.

CORPORATE GOVERNANCE

Director Independence

Our Board consists of nine directors. In accordance with the current listing standards of The NASDAQ Stock Market, or Nasdaq, our Board, on an annual basis, affirmatively determines the independence of each director or nominee for election as a director. Our Board has determined that, with the exception of Steve Zhang, Thomas J. Manning, Libin Sun, and Xiwei Huang, all of its members are independent directors, using the definition of that term in the listing standards of Nasdaq. In making these determinations, our Board has concluded that none of those members has an employment, business, family or other relationship which, in the opinion of our Board, would interfere with the exercise of independent judgment in carrying out the responsibilities of a director.

Table of Contents

Board Leadership Structure

In accordance with our Bylaws, our Board elects our officers, including a President and Chief Executive Officer, or CEO, a Chief Financial Officer, or CFO, and such other officers as our Board may appoint from time to time. In addition, our Board may appoint a Chairman or any number of Co-Chairmen. At present, Jian (James) Ding, an independent director, and Libin Sun, our Executive Co-Chairman, each serve as Co-Chairmen, and Steve Zhang serves as our President and CEO.

Mr. Sun had served as the Chairman and Chief Executive Officer of Linkage, overseeing the historical day-to-day business of Linkage and its management while also leading its board of directors. Our Board believes that having Mr. Sun serve as an Executive Co-Chairman provides valuable perspective to our Board with respect to the historical business of Linkage and our current company and assists our overall leadership structure at an important phase in our strategic development.

Either or both of the Co-Chairmen of our Board may preside at meetings of our Board. In their absence, the Chair of our Nominating and Corporate Governance Committee, or in such person's absence the independent director present who has the most seniority on our Board, is responsible for chairing Board meetings. Either or both of the Co-Chairmen of our Board also may preside at meetings of our stockholders and receive and distribute to our Board, and arrange for responses to, communications from stockholders.

Our Board believes that separating the positions of the Co-Chairmen and the CEO allows our CEO to focus on our day-to-day business, while allowing the Co-Chairmen of our Board to lead our Board in its fundamental role of providing advice to and independent oversight of management. Our Board recognizes the time, effort, and energy that our CEO is required to devote to his position in the current business environment, as well as the commitment required to serve as our Co-Chairmen, particularly as our Board's oversight responsibilities continue to grow. While our Bylaws and Corporate Governance Guidelines do not require that our Chairman and CEO positions be separate, our Board believes that separating these positions is the appropriate leadership structure for us at this time and demonstrates our commitment to good corporate governance.

Board's Role in Risk Oversight

Risk is inherent in every business, and how well a business manages risk can ultimately determine its success. We face a number of risks, including strategic risks, enterprise risks, financial risks, regulatory risks, and others. Management is responsible for the day-to-day management of the risks we face, while our Board, as a whole and through its committees, has responsibility for the oversight of risk management. In its risk oversight role, our Board has the responsibility to satisfy itself that the risk management processes designed and implemented by management are adequate and functioning as designed.

Our Board believes that establishing the right tone at the top, and full and open communication between management and our Board, are essential for effective risk management and oversight. Our Co-Chairmen meet regularly with our President and CEO and other senior officers to discuss strategy and the risks we face. Senior management attends our quarterly Board meetings and is available to address any questions or concerns raised by our Board on risk management-related and any other matters. Each quarter, our Board receives presentations from senior management on strategic matters involving our operations. Our Board holds strategic planning sessions with senior management to discuss strategies, key challenges, and risks and opportunities for us.

While our Board is ultimately responsible for risk oversight at our company, our three Board committees assist our Board in fulfilling its oversight responsibilities in certain areas of risk as further set forth below. Our Board committees report to our Board on significant risks and other matters.

Table of Contents

Executive Sessions

The independent members of our Board meet in executive session (without the participation of executive officers or other non-independent directors) at least two times each year, after a regularly scheduled Board meeting, and at any other time requested by any independent director. Either Co-Chairman of our Board, provided he or she is an independent director, is responsible for calling and presiding over executive sessions. To the extent that either Co-Chairman of our Board is absent or not an independent director, those responsibilities are carried out by the Chairman of our Nominating and Corporate Governance Committee or, if such person is absent or not an independent director, by the independent director present who has the most seniority on our Board.

Committees and Meeting Attendance

During the fiscal year ended December 31, 2011, our Board held five regular meetings, held two special meetings, and acted four times by written consent.

Our Board has an Audit Committee, a Compensation Committee, and a Nominating and Corporate Governance Committee. During the fiscal year ended December 31, 2011, the three committees of our Board held meetings as follows:

our Audit Committee held six meetings and acted one time by unanimous written consent;

our Compensation Committee held four meetings and acted seven times by unanimous written consent; and

our Nominating and Corporate Governance Committee held one meeting and acted two times by unanimous written consent.

In 2011, all directors attended 75% or more of the meetings of our Board and of the committees of our Board on which such director served during the period for which he was a director or committee member. Our Bylaws provide that either or both of the Co-Chairmen of our Board may preside at meetings of our stockholders. Otherwise, we have no requirements for our directors to attend our annual meetings of stockholders. Libin Sun attended our 2011 annual meeting of stockholders.

Committee Composition

The following table sets forth the current membership of our Audit Committee, Compensation Committee, and Nominating and Corporate Governance Committee. Each committee conducts its business pursuant to a written charter approved by our Board, copies of which are available on our website at www.asiainfo-linkage.com. The information contained on our website is not incorporated by reference into this Proxy Statement.

Audit Committee. Our Audit Committee currently consists of Messrs. Lu (Chair), Shao and Mackenzie. Our Audit Committee falls within the definition of audit committee under Section 3(a)(58)(A) of the Securities Exchange Act of 1934, or the Exchange Act. In addition to meeting Nasdaq tests for director independence,

Table of Contents

directors serving on our Audit Committee must meet two basic criteria set forth in the rules promulgated by the SEC. First, Audit Committee members are barred from accepting, directly or indirectly, any consulting, advisory or other compensatory fee from us or any affiliate of us, other than in the member's capacity as a member of our Board and any Board committee. Second, a member of our Audit Committee may not be an affiliated person of us or any subsidiary of us, apart from his or her capacity as a member of our Board and any Board committee. Our Board has determined that each member of our Audit Committee meets these independence requirements, in addition to the independence criteria established by Nasdaq. In addition, our Board has determined that each member of our Audit Committee is an Audit Committee Financial Expert as defined by the SEC in Item 407(d) of Regulation S-K. Our Audit Committee assists our Board in fulfilling its oversight responsibilities with respect to risk management in the areas of financial reporting, internal controls and compliance with legal and regulatory requirements, and, in accordance with Nasdaq requirements, discusses policies with respect to risk assessment and risk management. Our Audit Committee's primary duties and responsibilities include:

appointing and retaining our independent registered public accounting firm, approving all audit, review, and other services to be provided by our independent registered public accounting firm and determining the compensation to be paid for such services;

overseeing the integrity of our financial reporting process and systems of internal controls regarding accounting and finance;

overseeing the qualification, independence, and performance of our independent registered public accounting firm;

reviewing and, if appropriate, approving any related party transactions; and

monitoring compliance with legal and regulatory requirements.

Compensation Committee. Our Compensation Committee currently consists of Messrs. Shao (Chair), Mackenzie, Tian and Ding. Our Board has determined that each member of our Compensation Committee is an independent director, using the definition of that term in the listing standards of Nasdaq, a non-employee director under Rule 16b-3 under the Exchange Act, and an outside director for purposes of Rule 162(m) of the Internal Revenue Code of 1986, as amended, or the IRC. Our Compensation Committee reviews and approves corporate goals and objectives relevant to the compensation of our executive officers, evaluates the performance of executive officers in light of those goals and objectives, and determines and approves the compensation level of executive officers based on this evaluation. Our Compensation Committee, with the assistance of management, also administers our stock option plans and stock incentive plans. Our Compensation Committee assists our Board in fulfilling its oversight responsibilities with respect to the management of risks arising from our compensation policies and programs. For more information regarding our compensation programs and processes, see the discussion below under the heading Compensation Discussion and Analysis.

Nominating and Corporate Governance Committee. Our Nominating and Corporate Governance Committee currently consists of Messrs. Manning (Chair), Tian and Shao. Other than Mr. Manning, our Board has determined that each member of our Nominating and Corporate Governance Committee is an independent director, using the definition of that term in the listing standards of Nasdaq. Effective on the closing of our business combination with Linkage, our Board appointed Mr. Manning as a member and Chair of our Nominating and Corporate Governance Committee. On the basis of the limited and exceptional circumstances described in the remainder of this paragraph, our Board has determined that Mr. Manning's membership on our Nominating and Corporate Governance Committee is required by the best interests of our company and our stockholders. In making this determination, our Board considered all of the facts and circumstances, including the exceptional circumstances relating to our business combination with Linkage and the related changes in the composition of our Board, as well as Mr. Manning's previous experience serving as an independent director on our Nominating and Corporate Governance Committee from January 2006 until October 2009. In particular, the Board considered Mr. Manning's substantial historical knowledge regarding our Nominating and Corporate Governance Committee, its duties, policies and procedures, its oversight of risk relating to corporate governance, and related matters.

Table of Contents

Our Nominating and Corporate Governance Committee makes recommendations to our Board regarding the nomination of candidates to stand for election or re-election as members of our Board, evaluates our Board's performance, provides oversight of corporate governance and ethical standards and establishes and administers Board committee member compensation policy. Our Nominating and Corporate Governance Committee assists our Board in fulfilling its oversight responsibilities with respect to the management of risks associated with board organization, membership and structure, succession planning for our directors and executive officers, and corporate governance.

Compensation Committee Interlocks and Insider Participation

Messrs. Shao, Mackenzie, Tian and Ding served as members of our Compensation Committee during 2011. Messrs. Shao and Mackenzie have never been an officer or employee of ours. Dr. Tian co-founded our company in 1993, served as our President through May 1999, and has served as a member of our Board since our inception. Mr. Ding served as Chairman of our Board between April 2003 and July 2010, has served as a Co-Chairman of our Board since July 2010, and has served as a member of our Board since our inception. No member of our Compensation Committee served as a member of a board of directors or compensation committee of any entity that has one or more executive officers serving as a member of our Board or Compensation Committee during 2011.

Steve Zhang, our President, CEO and a member of our Board, and Libin Sun, our Executive Co-Chairman of our Board, participate in the discussions and decisions regarding salaries and incentive compensation for all of our executive officers, except that Mr. Zhang and Mr. Sun are excluded from discussions regarding their own salary and incentive compensation.

Director Nominations

We have adopted Corporate Governance Guidelines that address the composition of our Board, criteria for Board membership and other Board governance matters. The Corporate Governance Guidelines set out our director nomination process. A copy of our Corporate Governance Guidelines is available on the Investor Relations section of our website at www.asiainfo-linkage.com. The information contained on our website is not incorporated by reference into this Proxy Statement.

Our Nominating and Corporate Governance Committee annually evaluates our Board and its committees, and the needs of our Board for various skills, experience, expected contributions and other characteristics, in determining the director candidates to be nominated at the annual meeting of stockholders. Our Nominating and Corporate Governance Committee evaluates candidates for director proposed by directors, stockholders or management in light of our Nominating and Corporate Governance Committee's views of the current needs of our Board for certain skills, experience or other characteristics, the candidate's background, skills, experience, other characteristics and expected contributions and the qualification standards established from time to time by our Nominating and Corporate Governance Committee. While we do not have a formal diversity policy, our Nominating and Corporate Governance Committee seeks to have directors representing a range of experience, qualifications, skills and backgrounds, consistent with its goal of creating a board of directors that best serves the needs of our company and the interests of our stockholders. EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

This section discusses the principles underlying our executive compensation policies and decisions and the most important factors relevant to an analysis of those policies and decisions. It provides qualitative information regarding the manner and context in which compensation is awarded to and earned by our executive officers and places in perspective the detailed information presented in the tables below under the heading Compensation Paid to Named Executive Officers. The tables that you find in this Proxy Statement contain specific information about the compensation earned or paid in 2009, 2010 and 2011 to the following individuals, whom we also refer to as our named executive officers :

Steve Zhang, President and CEO

Jun (Michael) Wu, Executive Vice President and CFO

Yadong Jin, Executive Vice President, Chief Technology Officer and General Manager of Marketing

Guoxiang Liu, Executive Vice President

Feng Liu, Vice President and General Manager of Research and Development AsiaInfo-Linkage Technologies Division

Overview of Compensation Program

Our Compensation Committee has responsibility for establishing, implementing and monitoring adherence to our compensation philosophy and objectives. Our Compensation Committee is responsible for ensuring that the total compensation paid to our executive officers is fair, reasonable and competitive. Our compensation decisions with respect to executive officer salaries, annual incentives and long-term incentive opportunities are influenced by (a) the officer's level of responsibility and function; (b) our overall financial performance and, in some cases, the officer's business unit; and (c) our assessment of the competitive marketplace, including other peer companies.

Compensation Philosophy and Objectives

All of our compensation programs, including our executive compensation programs, are designed to attract and retain key employees in the highly competitive information technology software and services marketplace in China. Our executive compensation programs are also designed to motivate our executives to achieve and reward them for superior performance in attaining corporate and individual objectives that create stockholder value. Different programs, including both cash and stock-based compensation, are geared toward short-term and long-term performance, respectively, with the goal of aligning employee interests with stockholder interests and increasing stockholder value over the long term. Executive compensation programs impact all employees by setting general levels of compensation and creating an environment of goals, reward and expectations. Our Compensation Committee also monitors our compensation policies and practices to ensure they do not incentivize risk-taking or other unintended risks that are reasonably likely to have a material adverse effect on us. Finally, we endeavor to ensure that our compensation programs are viewed as fundamentally fair to our stockholders.

Compensation Programs and Process

Elements of Compensation

Elements of compensation for our named executive officers include base salary, non-equity incentive compensation, long-term equity incentive awards, pension plan, health, disability and life insurance and certain other perquisites. We use salary as the base amount necessary to match our competitors for executive talent. We utilize cash incentive payments to reward performance achievements over the course of a one-year horizon and we use equity incentive awards to reward long-term performance, with excellent corporate performance and extended tenure producing potentially significant value for our named executive officers. We believe that this combination of programs provides an appropriate mix of

fixed and variable pay, balances short-term operational performance with long-term stockholder value, and encourages executive recruitment and retention.

Table of Contents

Compensation Process

Our Compensation Committee is responsible for establishing, implementing and monitoring the compensation of our named executive officers. Our Compensation Committee meets outside the presence of all executive officers, including our named executive officers, to consider appropriate compensation for our CEO. Our Compensation Committee conducts its analysis with input from our Human Resources, or HR department, which receives comparative salary data generated from participation in annual benchmarking compensation surveys, or the Salary Surveys, administered by Mercer Human Resource Consulting LLC, or Mercer, and Taihe Business Management Consulting Co. Ltd., or Taihe, each of which are independent consulting firms.

When making compensation decisions, our Compensation Committee analyzes the dollar amount of each component of the executive officer's compensation, including current cash compensation (base salary and non-equity plan incentive compensation), long-term equity incentive program compensation, and any other compensation.

Steve Zhang, our CEO, is responsible for conducting an annual review of each other named executive officer's performance and recommending the appropriate base salary and other forms of compensation for such officer to our Compensation Committee. Mr. Zhang receives base salary recommendations from our HR department based on the Salary Surveys described above. In addition, Mr. Zhang recommends annual performance milestones for each other named executive officer for the purpose of determining annual non-equity incentive compensation.

Mr. Zhang's base salary is set by our Compensation Committee, which analyzes the Salary Surveys to ensure that his pay is competitive. Our Compensation Committee also determines Mr. Zhang's equity and non-equity incentive compensation based on corporate performance milestones which are set by our Compensation Committee. Finally, our Compensation Committee grants long-term equity awards to Mr. Zhang.

Except as set forth below, our Compensation Committee has not adopted any formal or informal policies or guidelines for allocating compensation between long-term and currently paid out compensation, or between cash and non-cash compensation. However, our philosophy is to pay our executive officers competitive levels of compensation that best reflect their individual responsibilities and contributions to us.

We choose to pay each element of compensation in order to attract and retain necessary talent, reward annual performance (on an individual, business unit and enterprise-wide basis) and provide incentives for achieving long-term strategic goals as well as short-term objectives. The amount of each element of compensation is determined by our Compensation Committee in consultation with our CEO with respect to the other named executive officers, and, with respect to the CEO, by our Compensation Committee. Compensation decisions for all named executive officers take into account the following factors:

Performance against corporate and individual objectives for the previous year;

Value of skills and capabilities to support our long-term performance;

Performance of general management responsibilities; and

Contribution as a member of our executive management team.

The Role of Stockholder Say-on-Pay Votes

Our board of directors, Compensation Committee, and management value the opinions of our stockholders. We provide our stockholders with the opportunity to cast an annual advisory vote on executive compensation, or Say-on-Pay. Although the advisory Say-On-Pay vote is non-binding, our Compensation Committee has considered the outcome of the vote when making compensation decisions for named executive officers. At our annual meeting of stockholders held in April 2011, approximately 98% of the stockholders who voted on the Say-on-Pay proposal voted in favor of the proposal. Our Compensation Committee believes that this evidences our stockholders' support for our approach to executive compensation, which did not change during 2011 as a result of the stockholder vote. Our Compensation Committee will continue to consider the outcome of our Say-on-Pay votes when making future compensation decisions for our named executive officers.

Table of Contents***Base Salary***

Base salary levels for our named executive officers are intended to compensate executives competitively within the information technology marketplace in China. Base salary rewards core competence in an executive role relative to an officer's skills, experience and contributions to our business. Base salaries are determined on an individual basis by evaluating each executive officer's scope of responsibility, past performance, and data on prevailing compensation levels in an appropriate market comparison group. Each year our HR department participates in the Mercer salary surveys, which collect compensation data, including base salary statistics, from peer companies in the IT, software and telecommunications industries. The survey conducted by Taihe covers Chinese companies in the IT industry (including, for example, Neusoft, Huawei, Digital China SI-TECH, Datang Mobile and ZTE Corporation), while the participants in the Mercer survey are primarily Chinese subsidiaries of foreign-owned businesses (including, for example, Amdocs Beijing, Oracle, Cisco Systems, EMC Beijing, HP Beijing, IBM Beijing and Microsoft Beijing). We generally receive results from the Salary Surveys during the third quarter of each year and begin to analyze base salary adjustments at that time. Assuming that a named executive officer has achieved satisfactory individual performance, our general approach is to compensate named executive officers at or near (a) the 50th percentile of salaries of executives with similar roles at comparable companies that participate in the Mercer Salary Survey, and (b) the 80th or 90th percentile of salaries of executives with similar roles at comparable companies that participate in the Taihe Salary Survey. We use a median percentile benchmark when analyzing the Mercer Salary Survey, in general, because the base salaries paid to executives at foreign-owned companies are substantially higher than those paid to their counterparts at Chinese-owned companies. We believe that these percentile benchmarks for base salaries, in combination with the other elements of compensation discussed below, provide the cash compensation level that would allow us to attract and retain talented officers. We believe that, given the industry in which we operate and the corporate culture that we have created, base compensation at this level is sufficient to retain our existing named executive officers and to hire new executive officers when and as required.

After considering job performance and marketplace competitiveness, the base salaries of our named executive officers for 2011 remained the same as those in effect at the end of 2010. The salary levels fixed in 2011 for our named executive officers are reflected in the Summary Compensation Table below. We believe that the base salary paid to our named executive officers during 2011 achieves our objectives, compares favorably to our peer group and is within our target of providing a base salary at the market median (with respect to international competitors) and at the higher range of the market with respect to our Chinese competitors.

Non-Equity Incentive Compensation

In June 2011 we established the 2011 Employee Incentive Program, or the 2011 EIP, which consists of various non-equity incentive compensation programs, also referred to as ICPs. The ICPs are designed to reward our employees, including our named executive officers, with an opportunity to earn annual cash bonuses based both on our achievement of certain pre-established performance goals. For our named executive officers, these goals include the performance of the individual named executive officer's functional business unit or department, as the case may be. We anticipate that we will continue to establish similar ICPs on an annual basis for succeeding years. The goals for our company-wide and individual measures are established so that target attainment is not assured under any ICP. The attainment of payment for performance at target or above requires significant effort on the part of our executives. Details on how payments were calculated under these ICPs in 2011, and specific factors our Compensation Committee considered, for our named executive officers are set forth below. While we do not target annual bonus opportunities at any particular percentage of total compensation, we target bonuses for our named executive officers at 42% to 67% of their respective base salary.

For 2011, our Compensation Committee determined, with input from our HR department, to base our CEO's incentive compensation on our achievement of Board-established targets for net revenue and operating profits. These financial goals were set by our Board in March 2011. Our Compensation Committee determined that net revenues (meaning our GAAP revenue net of hardware costs) are an appropriate measure of our overall growth

Table of Contents

while operating profit is an appropriate measure of cost-effectiveness. These two elements were weighted equally, each at 35%. The other three elements were international business expansion, corporate culture building and leadership development, and business integration, which were weighted equally, each at 10%. Specific factors our Compensation Committee considered in determining Mr. Zhang's 2011 incentive compensation targets included rewarding cost-effective, corporate growth, the extensive responsibilities associated with serving as our CEO, and Mr. Zhang's historical service to us and strong performance reviews. In calculating Mr. Zhang's incentive compensation, we first determined our percentage achievement for each financial and non-financial target and then multiplied the aggregate achievement percentage by Mr. Zhang's target incentive compensation, which, for 2011, equaled 100% of his base salary. No incentive compensation is payable to Mr. Zhang if the aggregate achievement percentage for these five performance goals falls below 75%.

Except for our CEO, our named executive officers each received non-equity incentive compensation awards pursuant to the 2011 EIP, as set forth below:

The 2011 EIP's Support Line Key Performance Index, or the Support Line KPI, governs non-equity incentive compensation for Jun (Michael) Wu, our Executive Vice President and CFO, and Mr. Guoxiang Liu, Executive Vice President. For 2011, awards under the 2011 EIP were generally payable to participating employees based on the following four factors: 25% weighting accorded to net revenue, 25% weighting accorded to operating profits, 40% weighting accorded to the applicable department's performance goals and 10% weighting accorded to internal satisfaction and evaluation by other departments to which such applicable department provides support. For Messrs. Wu and Liu, their awards also included management KPI and were payable based on the following four factors: (i) a 20% weighting accorded to the aggregate achievement percentage of above four performance goals; (ii) a 60% weighting accorded to the implementation of key projects and strategic tasks; (iii) a 10% weighting accorded to evaluations by other departments to which such applicable department provides support; and (iv) a 10% weighting accorded to achievement of certain human resources development goals. These objectives may change from year to year as our business and departmental priorities evolve. Our CEO recommended and our Compensation Committee determined all incentive compensation payable under the 2011 EIP to Mr. Wu and Mr. Liu. Specific factors our Compensation Committee considered in determining such 2011 incentive compensation included rewarding cost-effectiveness, corporate growth, the extensive responsibilities associated with their services, the timing and extent of services provided to us and their performance reviews. In calculating incentive compensation payable under the Support Line KPI, the target realization bonus for all employees of an individual department, which equaled 25% to 67% of such employees' aggregate base salaries, was multiplied by that department's aggregate achievement percentage of all of the factors as set forth above. No incentive compensation would have been payable to any member of a department if the department's overall achievement percentage were below 75%. The bonus pool allocable to a department was then further allocated among individual employees by the head of each department, and our CEO determined the amount allocable to each individual department head.

The 2011 EIP's R&D Line Key Performance Index, or the R&D Line KPI, governed non-equity incentive compensation for Mr. Feng Liu, Vice President and General Manager of Research and Development of our AsiaInfo-Linkage Technologies Division. For 2011, awards under the R&D Line KPI were generally payable to participating employees based on the following five factors: 7.5% weighting accorded to net revenue, 7.5% weighting accorded to operating profits, 50% weighting accorded to the contribution rate to each account line, 15% weighting accorded to the net orders per headcount, and 20% weighting accorded to product satisfaction. For Mr. Liu, his award also included management KPI and was payable based on the following four factors: (i) a 60% weighting accorded to the aggregate achievement percentage of above five performance goals; (ii) a 25% weighting accorded to the implementation of key projects and strategic tasks; (iii) a 5% weighting accorded to evaluations by other departments to which such applicable department provides solutions and products; (iv) a 5% weighting accorded to operational proficiency; and (v) a 5% weighting accorded to achievement of certain human resources development goals. Because our R&D department plays a critical role in

Table of Contents

supporting these units, our Compensation Committee believes it is appropriate, in large part, to align incentive compensation for our R&D department by looking at a combination of the success of each business unit to which it contributes and the amount of resources it devotes to that business unit. A bonus pool for our R&D department is established by multiplying the overall achievement percentage of the department by a target incentive pool equal to 25% to 67% of all R&D employees' base salaries, in the aggregate. No bonuses would have been payable if our R&D department's achievement percentage were less than 75%. The resulting bonus pool allocable to our R&D department was distributed to individual employees by the head of R&D, Mr. Liu. Our CEO determined the incentive compensation payable to Mr. Liu.

The 2011 EIP MKT Line Key Performance Index, or the MKT Line KPI, governs non-equity incentive compensation for Mr. Yadong Jin, Executive Vice President, Chief Technology Officer and General Manager of Marketing. For 2011, awards under the MKT Line KPI were generally payable to participating employees based on the following six factors: 7.5% weighting accorded to net revenue, 7.5% weighting accorded to operating profits, 45% weighting accorded to our net customer orders, 10% weighting accorded to strategic marketing, 20% weighting accorded to customer consulting, and 10% weighting accorded to new product orders. For Mr. Jin, his award also included management KPI and was payable based on the following five factors: (i) a 65% weighting accorded to the aggregate achievement percentage of above six performance goals (ii) a 20% weighting accorded to the implementation of key projects and strategic tasks; (iii) a 5% weighting accorded to the evaluations from other department to which the applicable department provides services; (iv) a 5% weighting accorded to operational proficiency; and (v) a 5% weighting accorded to achievement of certain human resources development goals. No bonuses would have been payable if an applicable department's achievement percentage were less than 75%. Our CEO determined the incentive compensation payable to Mr. Yadong Jin.

All of our employees, including our named executive officers, were eligible to participate in the 2011 Profit Sharing Program, or the 2011 PSP. The 2011 PSP is designed to allow employees to share in the profits generated by the business units within the telecommunications division. Under the 2011 PSP, 20% of the difference between the 2011 and 2010 actual marginal profit of each business unit is allocated to fund distributions. Of the amount funded from each business unit, 50% is allocated to each such business unit for further distribution among its employees and the remainder is allocated for company-wide distribution by our CEO. Upon approval of our Compensation Committee, no more than ten percent of each business unit's profit allocation is awarded to our CEO.

Long-Term Equity Incentive Program

We believe that long-term performance is achieved through an ownership culture that encourages such performance by our executive officers through the use of stock and stock-based awards. Our equity compensation plans have been established and implemented to provide certain of our employees, including our named executive officers, with incentives to help align those employees' interests with those of our stockholders. Our Compensation Committee believes that this use of equity awards offers the best approach to achieving our compensation goals. We have not adopted stock ownership guidelines and our equity compensation plans have historically provided the principal method for our executive officers to acquire equity interests in us.

Before 2005, we generally provided long-term equity incentives to our named executive officers, and to other employees, through the grant of stock options under our stock option plans. Stock options were generally granted at an exercise price equal to 100% of the fair market value of our common stock on the date of grant, with a ten-year term and generally subject to a four-year vesting period. Stock options were generally granted to our named executive officers upon commencement of their employment with us and thereafter based on long-term strategic and performance objectives. When determining the number of stock options to be awarded to an executive officer, our Compensation Committee considered the executive officer's current contribution to our performance, the executive officer's anticipated contribution in meeting our long-term strategic performance

Table of Contents

goals, and comparisons to formal and informal surveys of executive stock option grants made by similarly-situated information technology companies in China. In October 2005, our Compensation Committee approved the acceleration of vesting of approximately 2.1 million unvested stock options previously awarded to employees, officers and members of our Board under our 2000 Stock Option Plan and 2002 Stock Option Plan. The primary purpose of the accelerated vesting was to enable us to avoid recognizing future compensation expense associated with our adoption in 2006 of FASB Statement No. 123R, Share-Based Payment, now known as Accounting Standards Codification, or ASC, Topic 718.

In 2005, pursuant to the AsiaInfo Holdings, Inc. 2005 Stock Incentive Plan, or the 2005 Incentive Plan, we began to implement a policy of granting restricted stock units, or RSUs, instead of stock options, to our directors, officers and employees.

In November 2006, our Compensation Committee approved grants of performance-based restricted stock units, or PSUs, to key employees, managers and executive officers under the 2005 Incentive Plan. The PSUs vested based on, and were allocated among, five different performance goals and were, in some cases, also subject to certain holding periods.

At our Annual Meeting of Stockholders in April 2008, our stockholders approved and ratified the AsiaInfo Holdings, Inc. 2008 Stock Incentive Plan, or the 2008 Incentive Plan. The purpose of the 2008 Incentive Plan, which is administered by our Compensation Committee, is to enhance long-term stockholder value by offering opportunities to our employees, directors, officers, consultants, agents, advisors and independent contractors to participate in our growth and success, and to encourage them to continue providing services to us and to acquire and maintain stock ownership in us. Pursuant to the 2008 Incentive Plan, our Compensation Committee, as the plan administrator, has discretion over whether and to whom to grant awards.

In March 2009, our Compensation Committee approved grants of PSUs and RSUs to key employees, managers and executive officers under the 2008 Incentive Plan. The PSUs vest based on performance goals and are, in some cases, also subject to certain holding periods. Specific factors our Compensation Committee considered in approving these awards included the value of creating a direct and transparent link between compensation and management achievement of specific business performance targets and aligning the interests of our executives with those of our stockholders, as well as our historical performance, the individual historical performance and contributions of members of our management team, the skills, capabilities and responsibilities of individual members of our management team. Finally, the vesting of PSUs based on continued employment is designed to facilitate retention.

The value and the terms of the PSUs granted to our named executive officers are set forth below under the headings Summary Compensation Table. All of the PSUs granted to named executive officers during 2006 are either vested or forfeited and part of the PSUs granted to named executive officers during 2009 have vested following the achievement of certain business performance targets specified in the PSU agreements during 2010.

At our Annual Meeting of Stockholders in April 2011, our stockholders approved and ratified the AsiaInfo-Linkage, Inc. 2011 Stock Incentive Plan, or the 2011 Incentive Plan. The purpose of the 2011 Incentive Plan, which is administered by our Compensation Committee with the assistance of management, is to enhance long-term stockholder value by offering opportunities to our employees, directors, officers, consultants, advisors and independent contractors to participate in our growth and success, and to encourage them to remain in the service of us and to acquire and maintain stock ownership in us. Pursuant to the 2011 Incentive Plan, our plan administrator has discretion over whether and to whom to grant awards.

In December 2011, our Compensation Committee approved grants of stock options to key employees, managers and executive officers under the 2011 Incentive Plan. Stock options were granted at an exercise price equal to

100% of the fair market value of our common stock on the date of grant, with a ten-year term and generally subject to a four-year vesting period, except for the stock options granted to our CEO and certain of our executive officers. The stock options granted to our CEO will vest in two annual installments of 17.5% and two annual installments of 32.5%, and the stock options granted to certain of our executive officers will vest in two annual installments of 20% and two annual installments of 30%. When determining the number of stock options to be awarded to an executive officer, our Compensation Committee considered the executive officer's current contribution to our performance, the executive officer's anticipated contribution in meeting our long-term strategic performance goals, and comparisons to formal and informal surveys of executive stock option grants made by similarly-situated information technology companies in China.

The value and the terms of the stock options granted to our named executive officers are set forth below under the headings "Summary Compensation Table" and "Terms of Stock Options."

Pension Plans

Our employees in China are entitled to retirement benefits calculated with reference to their base salaries upon retirement and their length of service in accordance with a government managed social welfare plan. The Chinese government is responsible for administering the benefits for these retired employees. We are required to make contributions to the state social welfare plan at a rate of 10% to 22% of the monthly base salaries of our current employees.

For the benefit of our small number of employees who are citizens or lawful permanent residents of the United States, we have adopted a Simplified Employee Pension Plan, or the Pension Plan. The Pension Plan covers employees who have worked at AsiaInfo-Linkage for at least six months. We make monthly contributions under the Pension Plan in an amount equal to 5% of each covered employee's monthly salary. The contributions are tax deductible by us and are not taxable to our employees. Withdrawals are taxable as ordinary income, and withdrawals before age 59 1/2 may be subject to tax penalties. For U.S. tax purposes, we believe the Pension Plan constitutes a qualified defined contribution plan.

In 2011, we contributed approximately \$14,000 to the accounts of all employees covered by the Pension Plan. With respect to our named executive officers, we contributed approximately \$11,000 on behalf of Steve Zhang.

The value of social welfare and Pension Plan benefits is reflected in the "Summary Compensation Table" below.

Other Compensation

Our named executive officers are eligible to participate in benefits programs generally available to other employees, such as medical, dental, vision, group life, disability, and accidental death and dismemberment insurance. Other benefits provided to named executive officers during 2011 included housing allowances, educational allowances for children, and home visit allowances.

As part of our compensation program, we have entered into agreements with Steve Zhang, Jun (Michael) Wu and Guoxiang Liu pursuant to which they may be entitled to receive severance benefits upon the occurrence of certain enumerated events following a change of control. The events that trigger payment are generally those related to termination of employment or detrimental changes to the executive's terms and conditions of employment. For a more detailed description, see the discussion below under the heading "Potential Payments upon Termination of Employment or Change of Control." We believe that this structure will help: (i) assure the executive's full attention and dedication to us, free from distractions caused by personal uncertainties and risks related to a pending or threatened change of control; (ii) assure the executive's objectivity in fulfilling the interests of stockholders; (iii) assure the executives of fair treatment in case of involuntary termination following a change of control; and (iv) maintain our ability to attract and retain key talent during uncertain times.

Tax and Accounting Implications

Policy Regarding Section 162(m) of the Internal Revenue Code

Section 162(m) of the IRC generally disallows a tax deduction to public companies for compensation in excess of \$1 million paid to a company's chief executive officer, chief financial officer or any of the three most highly compensated executive officers. Certain performance-based compensation, however, is exempt from the deduction limit. Our Compensation Committee has considered the potential impact of Section 162(m) of the IRC on the compensation paid to our executive officers. It is our Compensation Committee's intention that, so long as it is consistent with its overall compensation objectives and philosophy, executive compensation will be deductible for U.S. federal income tax purposes. Awards issued under our stock incentive plans (including stock options, RSUs and PSUs) have been structured so that any taxable compensation derived pursuant to the exercise of options granted under such plans should not be subject to these deductibility limitations.

Accounting for Stock-Based Compensation

We account for stock-based payments in accordance with the requirements of ASC Topic 718, which requires us to estimate and record an expense over the service period of the award.

(2) Represents the dollar value of base salary earned during the fiscal years covered.

(3) Represents the dollar amounts of the aggregate grant date fair value computed in accordance with ASC Topic 718. See the notes to our financial statements contained in our Annual Report on Form 10-K for the fiscal year ended December 31, 2011 for a discussion of all assumptions made by us in determining the ASC Topic 718 values of our equity awards.

(4) Represents the dollar value of all earnings for services performed during 2009 and 2010 pursuant to awards under non-equity incentive plans, which are based on certain performance criteria. We expect the non-equity incentive plan compensation earned in 2011 to be calculated in March 2012 and paid in April 2012.

(5) Includes our contributions for social welfare, Pension Plan, life insurance, health insurance benefits, housing allowance, home visit allowance, children's education expenses and meal allowances, perquisites and other personal benefits.

(6) Represents the sum of all compensation reflected in the preceding columns.

(8) Mr. Jun (Michael) Wu has served as our Executive Vice President and CFO since August 2010.

(9) Includes \$15,871 for housing allowance and \$12,697 for children's education expenses.

(10) Mr. Guoxiang Liu has served as our Executive Vice President since July 2010.

Internal Pay Equity

Among the factors influencing compensation decisions is our view that our executive compensation program be internally equitable in order for us to achieve our corporate objectives outlined above. Our Compensation Committee has considered the relationship between the total

Edgar Filing: ASIAINFO-LINKAGE, INC - Form DEF 14A

compensation paid to our CEO, CFO and other named executive officers to ensure that it regards the level of executive compensation as reasonable in light of our objectives. Our Compensation Committee has also considered the relationship between the mix of the individual elements of compensation paid to our CEO, CFO and other named executive officers. In analyzing these relationships, our Compensation Committee also considered relevant factors impacting compensation decisions, such as the mix of cash and equity compensation, the anticipated frequency of equity awards, vesting

Table of Contents

and other conditions associated with equity awards, the composition of our management team, the responsibilities, skills, capabilities and historical contributions of named executive officers, our performance, leadership considerations and employee morale.

In 2011, Steve Zhang, our CEO, received total compensation, including option awards and non-equity incentive plan compensation, significantly exceeding that of our other named executive officers, primarily reflecting significant long-term equity compensation. While significant long-term equity compensation granted to other named executives, such as the 2011 compensation of our Executive Vice President and CFO Jun (Michael) Wu, may impact internal comparisons, we generally expect Mr. Zhang's total compensation to continue to exceed that of our other named executive officers. However, our Compensation Committee determined that these amounts were equitable and reasonable, based on a variety of factors, including Mr. Zhang's comparatively greater responsibilities, his historical contributions to our growth, and our strong performance in 2011.

Risk Evaluation

Our Compensation Committee has reviewed various design elements of our compensation program to determine whether any of its aspects encourage excessive or inappropriate risk-taking, has considered the compensation policies and practices at our units, including their risk profile, their compensation structure and levels, their compensation expense relative to their revenues, and whether our employees received compensation that varied significantly from our overall risk and reward structure for the services such employee provided, and has considered additional factors, including that (a) substantially all of our employees are located in China, where employees' salaries tend to be lower compared to the U.S. companies, and (b) stock options and restricted stock grants to our named executive officers under our equity incentive compensation programs generally vest over a period of three or four years. Our Compensation Committee has determined that the risks arising from our compensation policies and practices for our employees are not reasonably likely to have a material adverse effect on us.

Agreements with Named Executive Officers

Employment-Related Agreements

Steve Zhang. In July 2010, we entered into an Executive Employment Agreement, an Employment Contract and a Confidentiality and Non-Competition Agreement, which we collectively refer to as the Employment Agreements, with our current CEO, Steve Zhang. Pursuant to the Employment Agreements, Mr. Zhang will continue to serve as our CEO for a three-year term, which will be automatically extended for an additional three years unless we or Mr. Zhang provide the other party with 90 days prior written notice that the term will not be so extended. Mr. Zhang will receive an annual base salary of approximately \$341,000 in 2012. Mr. Zhang will be eligible for an annual bonus in an amount determined by our Board, will be eligible to participate in all long-term equity incentive plans and programs available to our senior executives, and will be entitled to participate in medical insurance and pension and welfare benefit plans, programs and arrangements generally available to our other senior executives. Mr. Zhang will receive an annual housing entitlement of approximately \$24,000, an annual home visit allowance of \$10,000, and annual education reimbursement for his children's education through secondary school. Upon a change of control, regardless of whether Mr. Zhang is terminated, he will be entitled to immediate vesting of 100% of any outstanding unvested equity incentive awards. If Mr. Zhang's employment terminates for any reason, he will be entitled to certain severance payments as described below under the heading Potential Payments upon Termination of Employment and Change of Control.

Jun (Michael) Wu. In August 2010, we entered into an Offer Letter, a three-year Employment Contract, a Confidentiality and Non-Competition Agreement, a Master Executive Employment Agreement and a Change-Of-Control Severance Agreement with our Executive Vice President and CFO, Jun (Michael) Wu. Pursuant to the terms of the Offer Letter and Employment Contract with Mr. Wu, Mr. Wu will receive an annual base salary of approximately \$208,000 in 2012, and will be eligible for an annual bonus, the actual amount of which will depend upon Mr. Wu's achievement of annual performance objectives. Mr. Wu is also entitled to an annual housing allowance of approximately \$16,000, an annual tuition allowance of \$13,000 for his children's

Table of Contents

education, and an annual home visit allowance. Mr. Wu is entitled to participate in the health insurance, life insurance, long term disability insurance and other employee benefit arrangements generally available to our employees, as well as to vacation time and reimbursement of his reasonable business expenses. Pursuant to the Change-of-Control Severance Agreement with Mr. Wu, if we terminate Mr. Wu's employment without cause or he resigns for good reason within the one-year period immediately following a change of control, he would be entitled to severance payments as described below under the heading Potential Payments upon Termination of Employment and Change of Control.

Yadong Jin. In November 2011, we entered into a three-year Employment Contract and a Confidentiality and Non-Competition Agreement with our Executive Vice President, Chief Technology Officer and General Manager of Marketing, Yadong Jin. Pursuant to the terms of the Employment Contract with Mr. Jin, Mr. Jin will receive an annual base salary of approximately \$111,000 in 2012 and will be eligible for an annual bonus. The actual amount of the bonus will depend upon Mr. Jin's achievement of his annual performance objectives.

Guoxiang Liu. In June 2010, we entered into a Master Executive Employment Agreement, a Confidentiality and Non-Competition Agreement, a PRC Employment Contract and a Change-Of-Control Severance Agreement with our Executive Vice President, Guoxiang Liu. Pursuant to the terms of the Master Executive Employment Agreement and the PRC Employment Contract with Mr. Liu, Mr. Liu will receive an annual base salary of approximately \$158,000 in 2012 and will be eligible for an annual bonus, the actual amount of which will depend upon our financial performance, Mr. Liu's performance evaluation and his contribution to us. Mr. Liu is entitled to participate in employee pension insurance, unemployment insurance, medical treatment insurance, work-related injury insurance and other social insurance in accordance with the relevant provisions concerning social insurance as established by PRC central and local government. Pursuant to the Change-of-Control Severance Agreement with Mr. Liu, if we terminate Mr. Liu's employment without cause or he resigns for good reason within the one-year period immediately following a change of control, he would be entitled to severance payments as described below under the heading Potential Payments upon Termination of Employment and Change of Control.

Feng Liu. In January 2008, we entered into an Employment Contract and a Confidentiality and Non-Competition Agreement with the Vice President and General Manager of R&D of our AsiaInfo-Linkage Technologies Division, Feng Liu. Pursuant to the terms of the Employment Contract with Mr. Liu, Mr. Liu will receive an annual base salary of approximately \$100,000 in 2012 and will be eligible for an annual bonus. The actual amount of the bonus will depend upon Mr. Liu's achievement of his annual performance objectives.

Potential Payments upon Termination of Employment and Change of Control

Potential Payments to Mr. Zhang

Pursuant to the Executive Employment Agreement we entered into with Mr. Steve Zhang, if we terminate the employment of Mr. Zhang for any reason (other than death or disability), Mr. Zhang will be entitled to:

payment of all accrued and unpaid salary, bonus, reimbursable expenses, vacation and employee benefits;

the prorated amount of his annual bonus for the prior year;

a severance amount equal to 18 months of Mr. Zhang's base salary for the year of the termination and annual bonus for the prior year;

one year of continued medical benefits;

one year of continued education reimbursement and housing entitlement; and

immediate vesting of 100% of any outstanding invested equity incentive awards held by Mr. Zhang.

If Mr. Zhang's employment terminates due to his death or disability, Mr. Zhang will be entitled to receive all of the termination benefits listed above, except that the severance amount would equal his base salary for the year

Table of Contents

of the termination and annual bonus for the prior year. If Mr. Zhang resigns for good reason, Mr. Zhang will be entitled to receive all of the termination benefits listed above, except that the severance amount would equal six months of his base salary for the year in which he resigns and immediate vesting would only apply to 50% of any outstanding unvested equity incentive awards. If we terminate the employment of Mr. Zhang or he resigns within one year after a change of control, Mr. Zhang will be entitled to receive all of the termination benefits listed above, except that the severance amount would equal 2.99 times his base salary for the year of the termination and annual bonus for the prior year.

For purposes of the Executive Employment Agreement with Mr. Zhang described above, resignation for good reason includes:

assignment to Mr. Zhang of any duties inconsistent in any materially adverse or diminutive respect with his position, authority, duties or responsibilities;

a reduction in Mr. Zhang's base salary as in effect immediately before the change of control, except for a reduction that applies in equal proportion to all of our employees;

a material reduction in Mr. Zhang's aggregate compensation opportunity, including base salary, bonus, and long-term or other incentive compensation opportunities;

failure to maintain Mr. Zhang's employment positions set forth in the Employment Agreements;

an uncured material breach by us of a material provision of the Employment Agreements; or

expiration of the employment term under the Employment Agreements due to our provision of notice to Mr. Zhang that his employment term will not be extended.

For purposes of the Executive Employment Agreement with Mr. Zhang described above, a change of control will be deemed to have occurred upon the happening of any of the following:

any person is or becomes the beneficial owner (as defined in Rule 13d-3 under the Exchange Act), directly or indirectly, of our securities representing more than 45% of either the then outstanding shares of our stock or the combined voting power of our then outstanding securities;

during any period of twelve consecutive months, the individuals who, at the beginning of such period, constitute our Board cease to constitute at least a majority thereof because of a vote of our stockholders, subject to certain exceptions;

the consummation of a merger or consolidation of us with any other corporation other than (A) a merger or consolidation that would result in our voting securities outstanding immediately prior to such merger or consolidation continuing to represent at least 60% of the combined voting power of our voting securities or such surviving entity or any parent thereof outstanding immediately after such merger or consolidation, or (B) a merger or consolidation effected to implement a recapitalization of us or a similar transaction in which no person is or becomes the beneficial owner, directly or indirectly, of our securities representing 45% or more of either the then outstanding shares of our stock or the combined voting power of our then outstanding securities;

Edgar Filing: ASIAINFO-LINKAGE, INC - Form DEF 14A

our stockholders or our Board approve a plan of complete liquidation or dissolution of us; or

the consummation of a sale or disposition by us of all or substantially all of our assets, excluding certain reorganization transactions.

Potential Payments to Mr. Wu and Mr. Liu

Each of Messrs. Jun (Michael) Wu and Guoxiang Liu entered into a Change-of-Control Severance Agreement with us. Pursuant to such agreements, if we terminate either of Messrs. Wu or Liu without cause or either of them resigns for good reason within one-year immediately following a change of control, Messrs. Wu and Liu would respectively be entitled to:

payment of all accrued and unpaid salary and bonus;

Table of Contents

severance payments equal to the sum of (i) such executive's base salary for the year in which the date of termination occurred (or, if higher, as in effect at the time of the change of control) and (ii) such executive's target annual bonus for the year which the date of termination occurs (or, if higher, as in effect at the time of the change of control);

immediate vesting of 50% of any outstanding unvested stock options held by such executive as of the date of such termination;

exercise all vested stock options for a period of 18 months after the date of termination; and

medical benefits for one year and housing entitlement (including any housing allowance and any contribution made by us toward any government or company housing scheme) for six months following termination.

In the event of a change of control and regardless of whether or not a covered termination occurs, if the change of control is not effected by a business combination whereby the successor corporation assumes all of the executive's outstanding stock options or replaces such stock options with options or similar incentives with a substantially equivalent economic value, Messrs. Wu and Liu would be entitled to immediate vesting of 50% of any outstanding unvested stock options held by them as of the date of such change of control. Such newly vested stock options shall become exercisable on the date of such change of control and shall remain exercisable thereafter in accordance with their respective terms.

For purposes of the Change-of-Control Severance Agreements with Messrs. Wu and Liu described above, termination for cause includes:

willful and continued failure by the executive substantially to perform his duties; or

willful engagement by the executive in conduct which is demonstrably and materially injurious to us.

For purposes of the Change-of-Control Severance Agreements with Messrs. Wu and Liu described above, resignation for good reason includes:

assignment to the executive of any duties inconsistent in any materially adverse or diminutive respect with his position, authority, duties or responsibilities from those in effect immediately prior to the change of control;

a reduction in the executive's base salary as in effect immediately before the change of control, except for a reduction that applies in equal proportion to all of our employees; or

a material reduction in the executive's aggregate compensation opportunity, including the executive's base salary, bonus opportunity, if any, and long-term or other incentive compensation opportunity, if any.

For purposes of the Change-of-Control Severance Agreements with Messrs. Wu and Liu described above, a change of control will be deemed to have occurred upon the happening of any of the following:

any person (other than AsiaInfo-Linkage and certain affiliated entities) is or becomes the beneficial owner (as defined in Rule 13d-3 under the Exchange Act), directly or indirectly, of our securities (other than any securities acquired directly from us) representing more than 45% of either the then outstanding shares of our stock or the combined voting power of our then outstanding securities;

during any period of twelve consecutive months, the individuals who, at the beginning of such period, constitute our Board cease to constitute at least a majority thereof because of a vote of our stockholders, subject to certain exceptions;

the consummation of a merger or consolidation of us with any other corporation other than (A) a merger or consolidation that would result in our voting securities outstanding immediately prior to such

merger or consolidation continuing to represent at least 60% of the combined voting power of our voting securities or such surviving entity or any parent thereof outstanding immediately after such merger or consolidation, or (B) a merger or consolidation effected to implement a recapitalization of us or a similar transaction in which no person is or becomes the beneficial owner, directly or indirectly, of our securities (other than securities acquired directly from us) representing 45% or more of either the then outstanding shares of our stock or the combined voting power of our then outstanding securities;

our stockholders or our Board approve a plan of complete liquidation or dissolution of us; or

the consummation of a sale or disposition by us of all or substantially all of our assets, excluding certain reorganization transactions.

Other Potential Payments

Each of Messrs. Steve Zhang, Jun (Michael) Wu, Yadong Jin, Guoxiang Liu and Feng Liu entered into a Confidentiality and Non-Competition Agreement with us. Under the terms of these agreements, upon termination of employment of each of these individuals for any reason, we may elect to enforce a one-year non-competition provision by agreeing to pay 50% of such individual's then-current annual base salary, payable in a lump sum or in monthly installments over the one-year period.

The following table sets forth the estimated payments and benefits that would be due to each of Mr. Zhang, Mr. Wu and Mr. Guoxiang Liu upon the termination of his employment without cause or resignation for good reason within the one-year period immediately following a change of control. The amounts provided in the table below assume that each such termination was effective as of December 31, 2011 (the last day of our 2011 fiscal year). These are merely illustrative of the impact of hypothetical events, based on the terms of arrangements then in effect. The amounts to be payable upon an actual termination of employment without cause or resignation for good reason within the one-year period immediately following a change of control can only be determined at the time of such event, based on the facts and circumstances then prevailing.

Name	Salary Continuation and Severance (\$) ⁽¹⁾	Bonus Payment (\$) ⁽²⁾	Medical Benefits, Housing
			Allowance and Education Allowance Continuation (\$)
Steve Zhang	3,737,285	908,706	123,431
Jun (Michael) Wu	208,224		18,804
Guoxiang Liu	158,254		3,148

(1) This amount represents annual base salary for 2011 and any target bonus for 2011 (which have not yet been determined), and in the case of Mr. Zhang, 2.99 times the total of his 2011 base salary of \$341,222 and his bonus for 2010 of \$908,706. The 2011 target bonuses have not yet been determined, and we expect that our named executive officers would ordinarily receive a target bonus for the year. We expect the amount of annual target bonuses for 2011 to be calculated in March 2012 and paid in April 2012. Amounts would be payable as soon as practicable upon termination but no later than 30 days following the date of termination.

(2) This amount represents the target annual bonus that would have been earned on December 31, 2011, which in the case of Mr. Zhang represents the annual bonus earned for 2010. The 2011 target bonuses have not yet been determined, and we expect that our named executive officers would ordinarily receive a target bonus for the year. Amounts would be payable as soon as practicable upon termination but no later than 30 days following the date of termination.

We have a long-standing severance policy for departing members of our senior management. In the event that we terminate an employee at the vice president level or above without cause, the employee will receive severance pay equal to one month's base salary for each year he or she has been employed by us, or six month's base salary, whichever is greater.

Periodically, our Compensation Committee analyzes and assesses all of our termination and change of control arrangements to determine whether they are necessary and appropriate under our current circumstances and given the circumstances of each individual named executive officer.

Table of Contents**Terms of Stock Options**

Our Compensation Committee approved stock option grants under our incentive plans to certain of our named executive officers in 2011. As of the date of this Proxy Statement, none of these stock options granted to our named executive officers during 2011 have vested. That Have Not Vested, are subject to time-based vesting requirements which are further detailed in footnote 3 to the table. In 2006 and 2009, our Compensation Committee approved grants of PSUs which vest depending on the attainment of certain performance goals, all of which PSUs had vested as of December 31, 2011. In 2011, our Compensation Committee approved grants of stock options to our named executive officers. The vesting criteria for these stock options are discussed above under the heading Terms of Stock Options.

Table of Contents

In October 2005, our Compensation Committee approved the acceleration of vesting of approximately 2.1 million unvested stock options previously awarded to employees, officers and members of our Board under our 2000 Stock Option Plan and 2002 Stock Option Plan. Options held by members of our Compensation Committee were excluded from the acceleration.

As a condition of the acceleration, and to avoid any unintended personal benefits, we also imposed a holding period on shares underlying the accelerated options that requires all optionees to refrain from selling any shares acquired upon the exercise of the options until the date on which such shares would have vested under the options' original vesting terms.

Pension Benefits

None of our named executive officers participate in or have account balances in qualified or non-qualified defined benefit plans sponsored by us.

DIRECTOR COMPENSATION

General

We use a combination of cash and stock-based incentive compensation to attract and retain qualified candidates to serve on our Board. In setting director compensation, we consider the significant amount of time that directors expend in fulfilling their duties as well as the skill level of our directors.

In 2011, each non-employee director was paid an annual retainer of \$35,000 and an additional fee of \$2,000 for each Board meeting attended in person or by teleconference. The chairman of our Audit Committee was paid an additional annual fee of \$10,000 and each member of our Audit Committee was paid an additional annual fee of \$5,000. Each member of our Audit Committee was paid an additional fee of \$1,000 for each Audit Committee meeting attended in person or by teleconference. The chairman of our Compensation Committee was paid an additional annual fee of \$10,000 and each member of our Compensation Committee was paid an additional annual fee of \$5,000. Each member of our Compensation Committee was paid an additional fee of \$1,000 for each Compensation Committee meeting attended in person or by teleconference. The chairman of our Nominating and Corporate Governance Committee was paid an additional annual fee of \$5,000 and each member of our Nominating and Corporate Governance Committee was paid an additional annual fee of \$2,500.

In addition to these fees, we reimburse directors and committee members for reasonable and actual out-of-pocket travel expenses incurred when attending Board or committee meetings. In addition, from time to time our Board may form special committees and provide additional compensation to directors for their service to our Board on such committees. Members of our Board who are also our employees did not receive any compensation for their services as directors.

Before 2005, we granted stock options to most of our non-employee directors, beginning with an initial grant of 20,000 options to each non-employee director, vesting over four years on an annual schedule of 25% per year. During the last two years of the vesting schedule, the options vested on a quarterly basis. In the past, we typically granted new options to our non-employee directors as their options vested, so that each non-employee director would always maintain 20,000 unvested options. In October 2005, our Compensation Committee approved the acceleration of vesting of approximately 2.1 million unvested stock options previously awarded to employees, officers and members of our Board under our 2000 Stock Option Plan and 2002 Stock Option Plan. Options held by members of our Compensation Committee were excluded from the acceleration. The primary purpose of the accelerated vesting was to enable us to avoid recognizing future compensation expense associated with the accelerated stock options upon the planned adoption of ASC Topic 718 in 2006.

From 2005 to 2011, we granted RSUs, instead of stock options, to all of our non-employee directors pursuant to our 2005 Incentive Plan. These awards began with an initial grant of 5,000 RSUs to each non-employee director, vesting over four years on an annual schedule of 25% per year. Effective July 2008, our Board increased the initial grant to our non-employee directors to 8,000 RSUs. We historically granted new RSUs to our non-employee directors as their RSUs vested, so that each non-employee director maintained 8,000 RSUs outstanding.

Beginning in 2011, we began to implement a new policy of granting RSUs to all of our non-employee directors pursuant to our 2011 Incentive Plan. Specifically, we will grant to non-employee directors RSUs with a total value of \$146,000 for each year of service to our Board, vesting in two equal installments on the 6-month and 12-month anniversaries of the grant date.

PROPOSAL NO. 3:

ADVISORY (NON-BINDING) VOTE ON EXECUTIVE COMPENSATION

Background

We are requesting your advisory (non-binding) approval of the compensation of our named executive officers as disclosed in the Compensation Discussion and Analysis, the compensation tables, and related narrative disclosures in this Proxy Statement. This non-binding advisory vote is commonly referred to as a "Say-on-Pay" vote. Please read the Compensation Discussion and Analysis section starting on page 17 of this Proxy Statement for a detailed discussion about our executive compensation programs, including information about the compensation paid to our named executive officers in 2011.

Our compensation philosophy is designed to align each named executive officer's compensation with our short-term and long-term performance and to provide the compensation and incentives needed to attract, motivate and retain key executives who are crucial to our long-term success. Stockholders are encouraged to read the Compensation Discussion and Analysis and other sections of this Proxy Statement, which include discussions of the following:

Members of the Compensation Committee are independent directors. The Compensation Committee has established a thorough process for the review and approval of executive compensation program designs, practices and amounts awarded to our named executive officers. The Compensation Committee engaged and received advice from an independent, third-party compensation consultant.

We have many compensation practices that ensure consistent leadership, decision-making and actions without taking inappropriate or unnecessary risks. The practices include:

Our performance-based incentive programs include a balance of different measures for short-term and long-term programs and limits on the maximum amounts that may be earned.

Approximately 46% of the named executive officers' total direct compensation is in the form of long-term incentive equity awards.

We have stock ownership guidelines for directors and executive officers.

We do not pay the tax liability (*i.e.*, no gross-ups) associated with reimbursements.

We have a long-standing insider trading policy.

We hold Say-on-Pay votes on an annual basis.

Our Compensation Committee and our Board believe that these policies and procedures are effective in implementing our compensation philosophy and in achieving our goals.

We are asking you to indicate your support for the compensation of our named executive officers as described in this Proxy Statement. This vote is not intended to address any specific item of compensation, our general compensation policies, the compensation of our board of directors, or our compensation policies as they relate to risk management. Rather, this vote relates to the overall compensation of our named executive officers and the philosophy, policies and practices described in this Proxy Statement. Accordingly, we are asking you to vote, on an advisory

Edgar Filing: ASIAINFO-LINKAGE, INC - Form DEF 14A

basis, For the following resolution at the Annual Meeting:

RESOLVED, that the stockholders of AsiaInfo-Linkage, Inc. (the Company) hereby approve, on an advisory basis, the compensation paid to the Company s named executive officers, as disclosed in the Compensation Discussion and Analysis, the compensation tables, and related narrative disclosures in this Proxy Statement.

The vote on this proposal will not require us to take any action or overrule any decisions we have made. Furthermore, because this advisory vote primarily relates to compensation that has already been paid or

Table of Contents

contractually committed to our named executive officers, there is generally no opportunity for us to revisit these decisions. However, our Board, including our Compensation Committee, values the opinions of our stockholders and, to the extent there is any significant vote against the compensation of named executive officers as disclosed in this Proxy Statement, will consider our stockholders' concerns and evaluate what actions, if any, may be appropriate to address those concerns.

Vote Required

Approval of this resolution requires the affirmative vote of a majority of the shares present in person or represented by proxy and entitled to vote at the Annual Meeting, assuming a quorum is present. Abstentions and broker non-votes will each be counted as present for purposes of determining the presence of a quorum, but abstentions will have the same effect as voting against the resolution. In addition, banks, brokers and other nominees who have not received voting instructions from their customers with respect to shares held beneficially for such customers may not vote such shares on a discretionary basis for the proposal, so broker non-votes will have the same effect as voting against the proposal.

Recommendation of Our Board

Our Board unanimously recommends a vote FOR approval of the foregoing resolution. Proxies will be so voted unless stockholders specify otherwise in their proxies.

Table of Contents**AUDIT COMMITTEE REPORT**

The Audit Committee (the "Audit Committee") of the Board of Directors (the "Board") of AsiaInfo-Linkage, Inc. (the "Company") reviews the Company's financial reporting process on behalf of the Board and is responsible for the retention of the Company's independent registered public accounting firm. Management has the primary responsibility for the financial statements and the reporting process and for maintaining effective internal control over financial reporting. The Company's independent registered public accounting firm is responsible for expressing an opinion on (1) the conformity of the Company's consolidated financial statements to accounting principles generally accepted in the United States of America, and (2) the effectiveness of the Company's internal control over financial reporting. The Audit Committee currently consists of Messrs. Yungang Lu (Chair), Sean Shao and Davin A. Mackenzie, all independent directors, as defined in the listing standards for the NASDAQ Stock Market ("Nasdaq") and applicable rules of the U.S. Securities and Exchange Commission (the "SEC").

The Audit Committee has reviewed and discussed the audited financial statements for the fiscal year ended December 31, 2011 and the effectiveness of internal control over financial reporting as of December 31, 2011 with the Company's management, has discussed with the Company's independent registered public accounting firm the matters required to be discussed by PCAOB AU380 (Communication With Audit Committees), SEC Regulation S-X Rule 207 (Communication with Audit Committees) and other relevant PCAOB guidance regarding the auditor's communication with those charged with governance, has received the written disclosures required by PCAOB Ethics and Independence Rule 3526 (Communication with Audit Committee Concerning Independence) and has discussed with the Company's independent registered public accounting firm its independence. The Audit Committee has also considered whether the provision of non-audit services by the Company's independent registered public accounting firm is compatible with maintaining its independence. The Board adopted a written charter of the Audit Committee in November 1999. The Board adopted amendments to the charter in March 2003, January 2004 and in February 2009.

Consistent with SEC policies regarding auditor independence, the Audit Committee has responsibility for appointing, setting compensation for, and overseeing the work of the Company's independent registered public accounting firm. In recognition of this responsibility, the Audit Committee has established a policy to pre-approve all audit and permissible non-audit services provided by the Company's independent registered public accounting firm.

Prior to the engagement of an independent registered public accounting firm for the next year's audit, the Company's management submits a report, containing an aggregate estimate of services and fees expected to be rendered by the independent registered public accounting firm during that year, to the Audit Committee for approval. Management's report to the Audit Committee categorizes all anticipated fees into one of the following four classifications:

Audit services include fees for audit work performed on the Company's (1) consolidated financial statements and (2) internal control over financial reporting, as well as work that generally only the Company's independent registered public accounting firm can reasonably be expected to provide, including review of quarterly condensed consolidated financial information, comfort letters, statutory audits, and other attestation services.

Audit-related services include fees for assurance and related services that are traditionally performed by the Company's independent registered public accounting firm, including due diligence related to mergers and acquisitions and special procedures required to meet certain regulatory requirements. The Company has not incurred such costs for the past two fiscal years.

Tax services include fees for all services permitted to be performed by the Company's independent registered public accounting firm's tax personnel, except those services specifically related to the audits of the financial statements and internal control over financial reporting or are prohibited under the rules of the SEC and the Public Company Accounting Oversight Board. Tax service fees include fees in the areas of corporate tax compliance, tax planning, and tax advice.

Table of Contents

Other Fees include fees associated with services not captured in the other categories. The Company generally does not request such services from its independent registered public accounting firm and has not incurred such costs for the past two fiscal years. Prior to engagement, the Audit Committee must pre-approve these services. The fees are budgeted and the Audit Committee requires the independent registered public accounting firm and management to report actual fees versus the budget periodically throughout the year. During the year, circumstances may arise when it may become necessary to engage the independent registered public accounting firm for additional services not contemplated in the original pre-approval. In those instances, the Audit Committee requires specific pre-approval before engaging the independent registered public accounting firm.

The Audit Committee may delegate pre-approval authority to one or more of its members. The member to whom such authority is delegated must report, for informational purposes only, any pre-approval decisions to the Audit Committee at its next scheduled meeting.

In 2011, the Audit Committee pre-approved all services provided by the Company's independent registered public accounting firm. Private meetings were held with the Company's independent registered public accounting firm to ensure that there were no restrictions on the scope of their audit and to discuss any items the auditors did not wish to raise with management present.

In reliance on the reviews and discussions referred to above, the Audit Committee recommended to the Board that the Company's audited financial statements as of and for the fiscal year ended December 31, 2011 be included in the Company's Annual Report on Form 10-K.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

We have established procedures for identifying related parties and related party transactions and for ensuring that any changes in the status of related parties are brought to the attention of relevant departments within us in a timely manner. For transactions with related parties in the ordinary course of business, such as customer sales, supply purchases, subcontracting or consulting services, we apply the same review and approval process as we would in the context of other commercial agreements. All such transactions with related parties are summarized and provided to the legal department for disclosure purposes and to our Audit Committee review. For transactions with related parties outside the ordinary course of business, such as significant capital expenditures, capital raising activities and mergers and acquisitions, the transactions must be approved by our CEO or CFO, and in most cases our Audit Committee.

Other than compensation agreements and other arrangements which are described under *Compensation Discussion and Analysis* and the transactions described below, since January 1, 2011, there has not been, and there is not currently proposed, any transaction or series of similar transactions to which we were or will be a party in which the amount involved exceeded or will exceed \$120,000 and in which any of our directors, executive officers, holders of more than 5% of any class of our voting securities or any member of the immediate family of the foregoing persons had or will have a direct or indirect material interest. We believe that we have executed all of the transactions set forth below on terms no less favorable to us than we could have obtained from unaffiliated third parties.

Agreements Relating to our Business Combination with Linkage

In December 2009, we entered into a business combination agreement, or the Combination Agreement, with Linkage, certain shareholders of Linkage, including Libin Sun, Guoxiang Liu, Xiwei Huang, and LT International Limited, an entity controlled by Mr. Sun, and Mr. Sun as agent for the shareholders of Linkage. We entered into a supplemental agreement with such parties on June 5, 2010, which set forth certain additional agreements in connection with the Combination Agreement. We closed the transactions contemplated by the Combination Agreement in July 2010. Upon the closing, Libin Sun became our Executive Co-Chairman and a director, Guoxiang Liu became our Executive Vice President, and Xiwei Huang became our Vice President and Chief Operating Officer and a director. Pursuant to the Combination Agreement, we purchased from Linkage 100% of the outstanding share capital of Linkage's wholly-owned subsidiary, Linkage Technologies Investment Limited, a company organized under the laws of the British Virgin Islands, for \$60 million in cash and 26,832,731 shares of our common stock, subject to certain adjustments.

Lock-Up Agreements.
