**EXPLANATORY NOTE**

The purpose of this Amendment No. 1 ( Amendment No. 1 ) to Sonic Automotive, Inc. s (Sonic s) Quarterly Report on Form 10-Q for the quarterly period ended March 31, 2011 (the Form 10-Q ) is to amend the Form 10-Q for an error identified in Sonic s classification of amounts between trade accounts payable and cash and cash equivalents as discussed in our Current Report on Form 8-K filed on March 5, 2012. This error had no effect on:

previously issued Condensed Consolidated Statements of Income, (including earnings per share),  
 non-GAAP measures of EBITDA and free cash flow,  
 Sonic s overall liquidity position (including its borrowing base availability),  
 covenant compliance under its 2011 Credit Facilities, and  
 any years or quarterly periods prior to 2011.

The effect of this error is set forth in the table below.

	<b>As of and for the Three-Month Period Ended March 31, 2011</b>		
	<b>As Reported</b>	<b>Adjustments</b>	<b>As Restated</b>
<i>(amounts in thousands)</i>			
Cash and cash equivalents	\$ 8,355	\$ (5,960)	\$ 2,395
Trade accounts payable	\$ 87,486	\$ (5,960)	\$ 81,526
Net cash provided by operating activities	\$ 24,380	\$ (5,960)	\$ 18,420

The following items in the Form 10-Q are impacted by Amendment No. 1:

- Part I, Item 1, Financial Statements is amended to:
  - correct errors in the classification of amounts between trade accounts payable and cash and cash equivalents in the Condensed Consolidated Balance Sheets and the effects of those error corrections in the Condensed Consolidated Statements of Cash Flows,
  - further explain the errors in Note 1 Notes to Unaudited Condensed Consolidated Financial Statements, and
  - provide, for comparative purposes, restated trade accounts payable and cash and cash equivalents balances along with the associated effects on the Condensed Consolidated Statements of Cash Flows compared to originally reported balances in Note 1 Notes to Unaudited Condensed Consolidated Financial Statements.
- Part I, Item 2, Management s Discussion and Analysis of Financial Condition and Results of Operations is amended to correct the discussion in Liquidity and Capital Resources Cash Flows.
- Part I, Item 4, Controls and Procedures is amended to disclose the existence of a material weakness related to disclosure controls and procedures.
- Part II, Item 6, Exhibits

Except as set forth above, no other changes have been made to the Form 10-Q. This Amendment No. 1 speaks as of the original filing date of the Form 10-Q, does not reflect events that may have occurred subsequent to the original filing date, and does not modify or update in any way disclosures made in the original Form 10-Q. Pursuant to Rule 12b-15 under the Securities Exchange Act of 1934, as amended (the Exchange Act ), the certifications required pursuant to the rules promulgated under the Exchange Act, as adopted pursuant to Section 302 and Section 906 of the Sarbanes-Oxley Act of 2002, which were included as exhibits to the Form 10-Q, have been re-executed as of the date of this Amendment No. 1 and are included as Exhibits 31.1, 31.2, 32.1 and 32.2 hereto.

## NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

## 1. Summary of Significant Accounting Policies

*Amendments to Previously Filed Statements* Prior to issuing its year-end financial statements, Sonic discovered it was incorrectly reclassifying balances between trade accounts payable and cash and cash equivalents. This amendment is filed to correct those errors. The table below sets forth the previously reported trade accounts payable and cash and cash equivalents balances as well as amounts reported as net cash provided by operating activities and the associated amended balances included in this report.

	As of and for the Three-Month Period Ended March 31, 2011		
	As Reported	Adjustments	As Restated
(amounts in thousands)			
Cash and cash equivalents	\$ 8,355	\$ (5,960)	\$ 2,395
Trade accounts payable	\$ 87,486	\$ (5,960)	\$ 81,526
Net cash provided by operating activities	\$ 24,380	\$ (5,960)	\$ 18,420

*Basis of Presentation* The accompanying Unaudited Condensed Consolidated Financial Statements for the first quarters ended March 31, 2011 and 2010 have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (the SEC). All significant intercompany accounts and transactions have been eliminated. These Unaudited Condensed Consolidated Financial Statements reflect, in the opinion of management, all material normal recurring adjustments necessary to fairly state the financial position and the results of operations for the periods presented. The results for interim periods are not necessarily indicative of the results to be expected for the entire fiscal year. These interim financial statements should be read in conjunction with the audited Consolidated Financial Statements of Sonic Automotive, Inc. (Sonic or the Company) for the year ended December 31, 2010, which were included in Sonic's Annual Report on Form 10-K.

*Reclassifications* The Unaudited Condensed Consolidated Statements of Income for the first quarter ended March 31, 2010 reflect the reclassification of balances from continuing operations to discontinued operations from the prior year presentation for additional franchises sold and terminated or identified for sale subsequent to March 31, 2010. The Unaudited Condensed Consolidated Statements of Income for the first quarter ended March 31, 2010 also reflect the reclassification of balances from discontinued operations to continuing operations for franchises identified for sale as of March 31, 2010, but which Sonic has decided to retain and operate as of March 31, 2011. There were no franchises held for sale at March 31, 2011.

*Lease Exit Accruals* Lease exit accruals relate to facilities Sonic has ceased using in its operations. The accruals represent the present value of the lease payments, net of estimated sublease proceeds, for the remaining life of the operating leases and other accruals necessary to satisfy the lease commitment to the landlord. A summary of the activity of these lease exit accruals consists of the following:

	(In thousands)
Balance, December 31, 2010	\$ 43,534
Lease exit expense (1)	1,045
Payments	(2,165)
Balance, March 31, 2011	\$ 42,414

(1) Approximately \$0.9 million is recorded in interest expense, other, net, and the remaining \$0.1 million is recorded in selling, general and administrative expenses in the accompanying Unaudited Condensed Consolidated Statements of Income.

*Income Tax Expense* The overall effective tax rates for the first quarters ended March 31, 2011 and 2010 are higher than federal statutory rates due to the effect of state income taxes. The overall effective tax rate from continuing operations was 40.0% for the first quarter ended March 31, 2011. The overall effective tax rate from continuing operations was 43.0% for the first quarter ended March 31, 2010. The effective rate for the first quarter ended March 31, 2011 was lower than the prior year period due to the level of overall taxable income and the shift in the distribution of taxable income between states in which Sonic operates.

**2. Discontinued Operations**

*Dispositions* The operating results of disposed franchises and franchises held for sale are included in the loss from discontinued operations in Sonic's Unaudited Condensed Consolidated Statements of Income. At March 31, 2011 there were no dealership franchises held for sale.

## SONIC AUTOMOTIVE, INC. AND SUBSIDIARIES

## NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Revenues and other activities associated with franchises classified as discontinued operations were as follows:

	<b>First Quarter Ended March 31,</b>	
	<b>2011</b>	<b>2010</b>
	<b>(In thousands)</b>	
Loss from operations	\$ (373)	\$ (2,605)

Lease exit charges	(925)	(1,645)
Pre-tax loss	\$ (1,273)	\$ (3,980)
Total revenues	\$ -	\$ 25,272

Lease exit charges recorded for the first quarters ended March 31, 2011 and 2010 relate to interest charges and the revision of estimates on previously established lease exit accruals. The lease exit accruals represent the present value of the lease payments, net of estimated sublease proceeds, for the remaining life of the operating leases and other accruals necessary to satisfy the lease commitment to the landlord.

## NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

In the first quarter ended March 31, 2011, Sonic purchased five dealership properties for \$75.2 million which it previously leased through long-term operating leases, utilizing cash on hand and borrowings under the 2010 Credit Facilities (see Note 6 for discussion on the 2010 Credit Facilities). Subsequent to the purchase date, Sonic obtained mortgage funding of \$54.0 million related these properties.

**5. Goodwill and Intangible Assets**

	Franchise Agreements	Gross Goodwill	Accumulated Impairment	Net Goodwill

### ***2010 Credit Facilities***

On January 15, 2010, Sonic entered into an amended and restated syndicated revolving credit agreement (the 2010 Revolving Credit Facility ) and a syndicated floor plan credit facility (the 2010 Floor Plan Facility ). The 2010 Revolving Credit Facility and 2010 Floor Plan Facility (collectively the 2010 Credit Facilities ) mature on August 15, 2012.

Availability under the 2010 Revolving Credit Facility is calculated as the lesser of \$150.0 million or a borrowing base calculated based on certain eligible assets plus 50% of the fair market value of 5,000,000 shares of common stock of Speedway Motorsports, Inc. ( SMI ) that are pledged as collateral, less the aggregate face amount of any outstanding letters

of credit under the 2010 Revolving Credit Facility (the 2010 Revolving Borrowing Base ). The 2010 Revolving Credit Facility may be expanded up to \$215.0 million upon satisfaction of certain conditions. A withdrawal of this pledge by Sonic Financial Corporation ( SFC ), which holds the 5,000,000 shares of common stock of SMI, or a significant decline in the value of SMI common stock, would reduce the amount Sonic can borrow under the 2010 Revolving Credit Facility.

The 2010 Revolving Borrowing Base was approximately \$143.4 million at March 31, 2011. At March 31, 2011, Sonic had no outstanding borrowings on the revolver and \$43.2 million in outstanding letters of credit resulting in total borrowing availability of \$100.2 million under the 2010 Revolving Credit Facility.

Outstanding obligations under the 2010 Revolving Credit Facility are secured by a pledge of substantially all of the assets of Sonic and its subsidiaries and by the pledge of 5,000,000 shares of common stock of SMI by SFC. The collateral also provides for the pledge of the franchise agreements and stock or equity interests of Sonic's dealership franchise subsidiaries, except for those dealership franchise subsidiaries where the applicable manufacturer prohibits such a pledge, in which cases the stock or equity interests of the dealership franchise subsidiary is subject to an escrow arrangement with the administrative agent. Substantially all of Sonic's subsidiaries also guarantee its obligations under the 2010 Revolving Credit Facility.

The 2010 Floor Plan Facility is comprised of a new vehicle revolving floor plan facility in an amount up to \$321.0 million (the 2010 New Vehicle Floor Plan Facility ) and a used vehicle revolving floor plan facility in an amount up to \$50.0 million, subject to a borrowing base (the 2010 Used Vehicle Floor Plan Facility ). Sonic may, under certain conditions, request an increase in the 2010 Floor Plan Facility of up to \$125.0 million, which shall be allocated between the 2010 New Vehicle Floor Plan Facility and the 2010 Used Vehicle Floor Plan Facility as Sonic requests, with no more than 15% of the aggregate commitments allocated to the commitments under the 2010 Used Vehicle Floor Plan Facility. Outstanding obligations under the 2010 Floor Plan Facility are guaranteed by Sonic and certain of its subsidiaries and are secured by a pledge of substantially all of the assets of Sonic and its subsidiaries.

The amounts outstanding under the 2010 Credit Facilities bear interest at variable rates based on specified percentages above LIBOR according to a performance-based pricing grid determined by Sonic's Consolidated Total Debt to EBITDA Ratio (as defined in the 2010 Credit Facilities agreement) as of the last day of the immediately preceding fiscal quarter.

Sonic agreed under the 2010 Credit Facilities not to pledge any assets to any third party, subject to certain stated exceptions, including floor plan financing arrangements. In addition, the 2010 Credit Facilities contain certain negative covenants, including covenants which could restrict or prohibit indebtedness, liens, the payment of dividends, capital expenditures and material dispositions and acquisitions of assets as well as other customary covenants and default provisions. Specifically, the 2010 Credit Facilities permit cash dividends on Sonic's Class A and Class B common stock so long as no event of default (as defined in the 2010 Credit Facilities) has occurred and is continuing and provided that Sonic remains in compliance with all financial covenants under the 2010 Credit Facilities.

**Covenants**

The 2010 Credit Facilities contain certain covenants, including covenants which could restrict or prohibit indebtedness, liens, payment of dividends, capital expenditures and material dispositions and acquisitions of assets as well as other customary covenants and default provisions. Sonic was in compliance with the covenants under the 2010 Credit Facilities as of March 31, 2011 and expects to be in compliance with the covenants for the foreseeable future. Financial covenants include required specified ratios (as each is defined in the 2010 Credit Facilities) of:

	<b>Consolidated Liquidity Ratio</b>	<b>Covenant Consolidated Fixed Charge Coverage Ratio</b>	<b>Consolidated Total Senior Secured Debt to EBITDA Ratio</b>
Through March 30, 2011	≥ 1.00	≥ 1.10	≤ 2.25

## NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

The 2010 Credit Facilities contain events of default, including cross-defaults to other material indebtedness, change of control events and events of default customary for syndicated commercial credit facilities. Upon the occurrence of an event of default, Sonic could be required to immediately repay all outstanding amounts under the 2010 Credit Facilities. Sonic was in compliance with all required covenants as of March 31, 2011.

In addition, many of Sonic's facility leases are governed by a guarantee agreement between the landlord and Sonic that contains financial and operating covenants. The financial covenants are identical to those under the 2010 Credit Facilities with the exception of one financial covenant related to the ratio of EBT DAR to Rent (as defined in the lease agreements) with a required ratio of no less than 1.5 to 1.0. At March 31, 2011, the ratio was 2.3 to 1.0.

**9.0% Senior Subordinated Notes ( 9.0% Notes )**

The 9.0% Notes are unsecured senior subordinated obligations of Sonic and are guaranteed by Sonic's domestic operating subsidiaries. Interest is payable semi-annually on March 15 and September 15 each year. Sonic may redeem the 9.0% Notes in whole or in part at any time after March 15, 2014 at the following redemption prices, which are expressed as percentages of the principal amount:

	<b>Redemption</b>
Beginning on March 15, 2014	104.50%
Beginning on March 15, 2015	102.25%
Beginning on March 15, 2016 and thereafter	100.00%

In addition, on or before March 15, 2013, Sonic may redeem up to 35% of the aggregate principal amount of the 9.0% Notes at par value plus accrued interest with proceeds from certain equity offerings. The Indenture also provides that holders of 9.0% Notes may require Sonic to repurchase the 9.0% Notes at 101% of the par value of the 9.0% Notes, plus accrued interest if Sonic undergoes a change of control as defined in the Indenture.

The Indenture governing the 9.0% Notes contains certain specified restrictive covenants. Sonic has agreed not to pledge any assets to any third party lender of senior subordinated debt except under certain limited circumstances. Sonic also has agreed to certain other limitations or prohibitions concerning the incurrence of other indebtedness, capital stock, guarantees, asset sales, investments, cash dividends to stockholders, distributions and redemptions. Specifically, the indenture governing Sonic's 9.0% Notes limits Sonic's ability to pay quarterly cash dividends on Sonic's Class A and B common stock in excess of \$0.10 per share. Sonic may only pay quarterly cash dividends on Sonic's Class A and B common stock if Sonic complies with the terms of the indenture governing the 9.0% Notes. Sonic was in compliance with all restrictive covenants as of March 31, 2011.

Balances outstanding under Sonic's 9.0% Notes are guaranteed by all of Sonic's operating domestic subsidiaries. These guarantees are full and unconditional and joint and several. The parent company has no independent assets or operations. The non-domestic and non-operating subsidiaries that are not guarantors are considered to be minor.

Sonic's obligations under the 9.0% Notes may be accelerated by the holders of 25% of the outstanding principal amount of the 9.0% Notes then outstanding if certain events of default occur, including: (1) defaults in the payment of principal or interest when due; (2) defaults in the performance, or breach, of Sonic's covenants under the 9.0% Notes; and (3) certain defaults under other agreements under which Sonic or its subsidiaries have outstanding indebtedness in excess of \$35.0 million.

**8.625% Senior Subordinated Notes ( 8.625% Notes )**

The 8.625% Notes are unsecured obligations that rank equal in right of payment to all of Sonic's existing and future senior subordinated indebtedness, mature on August 15, 2013 and are redeemable at par at Sonic's option after August 15, 2008.

Balances outstanding under Sonic's 8.625% Notes are guaranteed by all of Sonic's operating domestic subsidiaries. These guarantees are full and unconditional and joint and several. The parent company has no independent assets or operations. The non-domestic and non-operating

subsidiaries that are not guarantors are considered to be minor.

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

***5.0% Convertible Senior Notes ( 5.0% Convertible Notes )***

Interest payments on the 5.0% Convertible Notes are payable semiannually on April 1 and October 1 of each year, beginning on April 1, 2010. The 5.0% Convertible Notes mature on October 1, 2029. Sonic may redeem some or all of the 5.0% Convertible Notes for cash at any time subsequent to October 1, 2014 at a repurchase price equal to 100% of the principal amount of the Notes. Holders have the right to require Sonic to purchase the 5.0% Convertible Notes on each of October 1, 2014, October 1, 2019 and October 1, 2024 or in the event of a change in control for cash at a purchase price equal to 100% of the principal amount of the notes.

Holder of the 5.0% Convertible Notes may convert their notes at their option prior to the close of business on the business day immediately preceding July 1, 2029 only under the following circumstances: (1) during any fiscal quarter commencing after December 31, 2009, if the last reported sale price of the Class A common stock for at least 20 trading days (whether or not consecutive) during a period of 30 consecutive trading days ending on the last trading day of the preceding fiscal quarter is greater than or equal to 130% of the applicable conversion price on each applicable trading day; (2) during the five business day period after any 10 consecutive trading day period (the measurement period) in which the trading price (as defined below) per \$1,000 principal amount of notes for each day of that measurement period was less than 98% of the product of the last reported sale price of Sonic's Class A common stock and the applicable conversion rate on each such day; (3) if Sonic calls any or all of the notes for redemption, at any time prior to the close of business on the third scheduled trading day prior to the redemption date; or (4) upon the occurrence of specified corporate events. On and after July 1, 2029, to (and including) the close of business on the third scheduled trading day immediately preceding the maturity date, holders may convert their notes at any time, regardless of the foregoing circumstances. The conversion rate is 74.7245 shares of Class A common stock per \$1,000 principal amount of notes, which is equivalent to a conversion price of approximately \$13.38 per share of Class A common stock. None of the conversion features of the 5.0% Convertible Notes were triggered in the first quarter ended March 31, 2011.

To recognize the equity component of a convertible borrowing instrument, upon issuance of the 5.0% Convertible Notes in September 2009, Sonic recorded a debt discount of \$31.0 million and a corresponding amount (net of taxes of \$12.8 million) to equity, based on an estimated non-convertible borrowing rate of 10.5%. The debt discount is being amortized to interest expense through October 2014, the earliest redemption date. The unamortized debt discount was \$23.3 million and \$24.7 million at March 31, 2011 and December 31, 2010, respectively.

Sonic incurred interest expense related to the 5.0% Convertible Notes of approximately \$2.2 million for each of the quarters ended March 31, 2011 and 2010, recorded to interest expense, other, net, in the accompanying Unaudited Condensed Consolidated Statements of Income. In addition, Sonic recorded interest expense associated with the amortization of debt discount and deferred loan costs on the 5.0% Convertible Notes of \$1.7 million and \$1.5 million for the first quarters ended March 31, 2011 and 2010, respectively, recorded to interest expense, non-cash, convertible debt in the accompanying Unaudited Condensed Consolidated Statements of Income.

***Mortgage Notes***

Mortgage notes require monthly payments of principal and interest through maturity and are secured by the underlying properties. Maturity dates range between June 2013 and December 2031. The weighted average interest rate was 4.99% at March 31, 2011. Sonic purchased five dealership properties in January 2011 for \$75.2 million which it previously occupied under operating lease agreements. The properties were purchased utilizing cash on hand and borrowings under the 2010 Credit Facilities. During the first quarter ended March 31, 2011, Sonic secured mortgages on these properties totaling \$54.0 million and used the proceeds from these mortgages to pay down borrowings under the 2010 Credit Facilities.

***Derivative Instruments and Hedging Activities***

At March 31, 2011 Sonic had interest rate swap agreements (the Fixed Swaps) to effectively convert a portion of its LIBOR-based variable rate debt to a fixed rate. The fair value of these swap positions at March 31, 2011 was a liability of \$29.2 million included in Other Long-Term Liabilities in the accompanying Unaudited Condensed Consolidated Balance Sheets. Under the terms of the Fixed Swaps, Sonic will receive and pay interest based on the following:

(1) The one-month LIBOR rate was 0.244% at March 31, 2011.

(2) After December 31, 2009 changes in fair value are recorded through earnings.

(3) The effective date of these forward-starting swaps is July 2, 2012.

During the first quarter ended March 31, 2011, Sonic entered into four \$50.0 million notional forward-starting interest rate swap agreements which become effective in July 2012. Two of the agreements terminate in July 2014 and the other two agreements terminate in July 2015. These interest rate swaps have been designated and qualify as cash flow hedges and, as a result, changes in the fair value of these swaps are recorded in accumulated other comprehensive income (loss), net of related income taxes, in the Unaudited Condensed Consolidated Statements of Stockholders' Equity.

For the first quarters ended March 31, 2011 and 2010, a non-cash benefit of \$0.2 million and a non-cash charge of \$1.7 million, respectively, related to the Fixed Swaps not designated as hedges and amortization of amounts in accumulated other comprehensive income (loss) related to terminated cash flow swaps were included in interest expense/amortization, non-cash, cash flow swaps in the accompanying Unaudited Condensed Consolidated Statements of Income.

For the Fixed Swaps which qualify as cash flow hedges, the changes in the fair value of these swaps have been recorded in accumulated other comprehensive income (loss), net of related income taxes, in the Unaudited Condensed Consolidated Statements of Stockholders' Equity. The incremental interest expense (the difference between interest paid and interest received) related to the Fixed Swaps was \$4.4 million and \$5.0 million for the first quarters ended March 31, 2011 and 2010, respectively. This expense is included in interest expense, other, net, in the accompanying Unaudited Condensed Consolidated Statements of Income. The estimated net expense expected to be reclassified out of accumulated other comprehensive income (loss) into results of operations during the next twelve months is approximately \$10.8 million.

## 7. Per Share Data and Stockholders' Equity

The calculation of diluted earnings per share considers the potential dilutive effect of Sonic's contingently convertible debt issuances and stock options to purchase shares of Class A common stock under several equity compensation plans. The following table illustrates the dilutive effect of such items on earnings per share for the first quarters ended March 31, 2011 and 2010:

In addition to the stock options included in the table above, options to purchase approximately 2.3 million shares and 2.4 million shares of Class A common stock were outstanding at March 31, 2011 and March 31, 2010, respectively, but were not included in the computation of diluted earnings per share because the options were not dilutive. In addition, in the event the effect of potentially dilutive shares associated with any of Sonic's convertible notes were anti-dilutive, the effect of those shares have also been excluded from the computation of diluted earnings per share.

## 8. Contingencies

### Legal and Other Proceedings:

Sonic is a defendant in the matter of Galura, et al. v. Sonic Automotive, Inc., a private civil action filed in the Circuit Court of Hillsborough County, Florida. In this action, originally filed on December 30, 2002, the plaintiffs allege that Sonic and its Florida dealerships sold an antitheft protection product in a deceptive or otherwise illegal manner, and further sought representation on behalf of any customer of any of Sonic's Florida dealerships who purchased the antitheft protection product since December 30, 1998. The plaintiffs are seeking monetary damages and

injunctive relief on behalf of this class of customers. In June 2005, the court granted the plaintiffs' motion for certification of the requested class of customers, but the court has made no finding to date regarding actual liability in this lawsuit. Sonic subsequently filed a notice of appeal of the court's class certification ruling with the Florida Court of Appeals. In April 2007, the Florida Court of Appeals affirmed a portion of the trial court's class certification, and overruled a portion of the trial court's class certification. In November 2009, the Florida trial court granted Summary Judgment in Sonic's favor against Plaintiff Enrique Galura, and his claim has been dismissed. Marisa Hazelton's claim is still pending. Sonic currently intends to continue its vigorous appeal and defense.

of this lawsuit and to assert available defenses. However, an adverse resolution of this lawsuit could result in the payment of significant costs and damages, which could have a material adverse effect on Sonic's future results of operations, financial condition and cash flows. At a mediation held February 4, 2011, Sonic reached an agreement in principle with the plaintiffs to settle this class action lawsuit, and a settlement agreement was signed by the parties on March 1, 2011. The settlement agreement remains conditioned upon receiving final approval by the Florida state court. In the event that a definitive settlement of this lawsuit is finalized upon terms and conditions consistent with the settlement agreement, such a settlement would not have a material adverse effect on Sonic's future results of operations, financial condition and cash flows.

Several private civil actions have been filed against Sonic Automotive, Inc. and several of its dealership subsidiaries that purport to represent classes of customers as potential plaintiffs and made allegations that certain products sold in the finance and insurance departments were done so in a deceptive or otherwise illegal manner. One of these private civil actions was filed on November 15, 2004 in South Carolina state court, York County Court of Common Pleas, against Sonic Automotive, Inc. and 10 of Sonic's South Carolina subsidiaries. The plaintiffs in that lawsuit were Misty J. Owens, James B. Wright, Vincent J. Astey and Joseph Lee Williams, on behalf of themselves and all other persons similarly situated, with plaintiffs seeking monetary damages and injunctive relief on behalf of the purported class. The group of plaintiffs' attorneys representing the plaintiffs in the South Carolina lawsuit also filed another private civil class action lawsuit against Sonic Automotive, Inc. and 3 of its subsidiaries on February 14, 2005 in state court in North Carolina, Lincoln County Superior Court, which similarly sought certification of a multi-state class of plaintiffs and alleged that certain products sold in the finance and insurance departments were done so in a deceptive or otherwise illegal manner. The plaintiffs in this North Carolina lawsuit were Robert Price, Carolyn Price, Marcus Capeletti and Kathy Capeletti, on behalf of themselves and all other persons similarly situated, with plaintiffs seeking monetary damages and injunctive relief on behalf of the purported class. The South Carolina state court action and the North Carolina state court action have since been consolidated into a single proceeding in private arbitration before the American Arbitration Association. On November 12, 2008, claimants in the consolidated arbitration filed a Motion for Class Certification as a national class action including all of the states in which Sonic operates dealerships. Claimants are seeking monetary damages and injunctive relief on behalf of this class of customers. The parties have briefed and argued the issue of class certification.

On July 19, 2010, the Arbitrator issued a Partial Final Award on Class Certification, certifying a class which includes all customers who, on or after November 15, 2000, purchased or leased from a Sonic dealership a vehicle with the Etch product as part of the transaction, but not including customers who purchased or leased such vehicles from a Sonic dealership in Florida. The Partial Final Award on Class Certification is not a final decision on the merits of the action. The merits of Claimants' assertions and potential damages will still have to be proven through the remainder of the arbitration. The Arbitrator stayed the Arbitration for thirty days to allow either party to petition a court of competent jurisdiction to confirm or vacate the award. Sonic will seek review of the class certification ruling by a court of competent jurisdiction and will continue to press its argument that this action is not suitable for a class-based arbitration. On July 22, 2010, the plaintiffs in this consolidated arbitration filed a Motion to Confirm the Arbitrator's Partial Final Award on Class Certification in state court in North Carolina, Lincoln County Superior Court. On August 17, 2010, Sonic filed to remove this North Carolina state court action to federal court, and simultaneously filed a Petition to Vacate the Arbitrator's Partial Final Award on Class Certification, with both filings made in the United States District Court for the Western District of North Carolina. Sonic intends to continue its vigorous defense of this arbitration and to assert all available defenses. However, an adverse resolution of this arbitration could result in the payment of significant costs and damages, which could have a material adverse effect on Sonic's future results of operations, financial condition and cash flows.

Sonic is involved, and expects to continue to be involved, in numerous legal and administrative proceedings arising out of the conduct of its business, including regulatory investigations and private civil actions brought by plaintiffs purporting to represent a potential class or for which a class has been certified. Although Sonic vigorously defends itself in all legal and administrative proceedings, the outcomes of pending and future proceedings arising out of the conduct of Sonic's business, including litigation with customers, employment related lawsuits, contractual disputes, class actions, purported class actions and actions brought by governmental authorities, cannot be predicted with certainty. An unfavorable resolution of one or more of these matters could have a material adverse effect on Sonic's business, financial condition, results of operations, cash flows or prospects. Included in other accrued liabilities at both March 31, 2011 and December 31, 2010 was \$9.1 million in reserves that Sonic has provided for pending proceedings.

**Guarantees and Indemnification Obligations:**

In connection with franchise dispositions, certain of Sonic's dealership subsidiaries have assigned or sublet to the buyer its interests in real property leases associated with such dealerships. In general, Sonic's dealership subsidiaries retain responsibility for the performance of certain obligations under such leases, including rent payments and repairs to leased

property upon termination of the lease, to the extent that the assignee or sub-lessee does not perform. In the event the sub-lessees do not perform under their obligations Sonic remains liable for the lease payments. The total amount relating to this risk was approximately \$106.2 million as of December 31, 2010. See Sonic's Annual Report on Form 10-K for the year ended December 31, 2010 for further discussion.

In accordance with the terms of agreements entered into for the sale of Sonic's franchises, Sonic generally agrees to indemnify the buyer from certain exposure and costs arising subsequent to the date of sale, including environmental exposure and exposure resulting from the breach of representations or warranties made in accordance with the agreement. While Sonic's exposure with respect to environmental remediation and repairs is difficult to quantify, Sonic estimates that the maximum exposure associated with these general indemnifications if the counterparties failed to perform under their contractual obligations was approximately \$10.5 million and \$12.8 million at March 31, 2011 and December 31, 2010, respectively. These indemnifications expire within a period of one to two years following the date of sale. The estimated fair value of these indemnifications was not material. Sonic also guarantees the floor plan commitments of its 50% owned joint venture, the amount of which was \$4.5 million at both March 31, 2011 and December 31, 2010.

**9. Fair Value Measurements**

In determining fair value, Sonic uses various valuation approaches including market, income and/or cost approaches. Fair Value Measurements and Disclosures in the Accounting Standards Codification (the ASC) establishes a hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are inputs that market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of Sonic. Unobservable inputs are inputs that reflect Sonic's assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. The hierarchy is broken down into three levels based on the reliability of inputs as follows:

Level 1 Valuations based on quoted prices in active markets for identical assets or liabilities that Sonic has the ability to access. Assets utilizing Level 1 inputs include marketable securities that are actively traded.

Level 2 Valuations based on quoted prices in markets that are not active or for which all significant inputs are observable, either directly or indirectly. Assets and liabilities utilizing Level 2 inputs include cash flow swap instruments.

Level 3 Valuations based on inputs that are unobservable and significant to the overall fair value measurement. Asset and liability measurements utilizing Level 3 inputs include those used in estimating fair value of non-financial assets and non-financial liabilities in purchase acquisitions, those used in assessing impairment of property, plant and equipment and other intangibles and those used in the reporting unit valuation in the first step of the annual goodwill impairment evaluation. For instance, certain assets held for sale in the accompanying Unaudited Condensed Consolidated Balance Sheets are valued based on estimated proceeds to be received in connection with the disposal of those assets.

The availability of observable inputs can vary and is affected by a wide variety of factors. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment required by Sonic in determining fair value is greatest for instruments categorized in Level 3. In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement is disclosed is determined based on the lowest level input (Level 3 being the lowest level) that is significant to the fair value measurement.

Fair value is a market-based measure considered from the perspective of a market participant who holds the asset or owes the liability rather than an entity-specific measure. Therefore, even when market assumptions are not readily available, Sonic's own assumptions are set to reflect those that market participants would use in pricing the asset or liability at the measurement date. Sonic uses inputs that are current as of the measurement date, including during periods when the market may be abnormally high or abnormally low. Accordingly, fair value measurements can be volatile based on various factors that may or may not be within Sonic's control.

Assets or liabilities recorded at fair value in the accompanying balance sheet as of March 31, 2011 are as follows:

## SONIC AUTOMOTIVE, INC. AND SUBSIDIARIES

## NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

	Total	Fair Value at Reporting Date Using: Significant		
		Quoted Prices in Active Markets for Identical Assets (Level 1) (In millions)	Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

<b>Total</b>	<b>\$ (29.2)</b>	<b>\$ -</b>	<b>\$ (29.2)</b>	<b>\$ -</b>

(1)- Included in Other Long-Term Liabilities in the accompanying Unaudited Condensed Consolidated Balance Sheets.

As of March 31, 2011 and December 31, 2010, the fair values of Sonic's financial instruments including receivables, notes receivable from finance contracts, notes payable-floor plan, trade accounts payable, borrowings under the revolving credit facilities and certain mortgage notes approximate their carrying values due either to length of maturity or existence of variable interest rates that approximate prevailing market rates.

The fair value and carrying value of Sonic's fixed rate long-term debt was as follows:

	March 31, 2011		December 31, 2010	
	Fair Value	Carrying Value	Fair Value	Carrying Value
(In thousands)				
<b>9.0% Senior</b>

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

**Item 2: Management's Discussion and Analysis of Financial Condition and Results of Operations.**

The following discussion and analysis of the results of operations and financial condition should be read in conjunction with the Sonic Automotive, Inc. and Subsidiaries Unaudited Condensed Consolidated Financial Statements and the related notes thereto appearing elsewhere in this report, as well as the audited financial statements and related notes and Management's Discussion and Analysis of Financial Condition and Results of Operations appearing in our Annual Report on Form 10-K for the year ended December 31, 2010.

**Overview**

We are one of the largest automotive retailers in the United States. As of March 31, 2011, we operated 136 dealership franchises, representing 29 different brands of cars and light trucks, at 119 locations and 24 collision repair centers in 15 states. Our dealerships provide comprehensive services including sales of both new and used cars and light trucks, sales of replacement parts, performance of vehicle maintenance, manufacturer warranty repairs, paint and collision repair services, and arrangement of extended service contracts, financing, insurance and other aftermarket products for our customers.

In March 2011, a powerful earthquake off the coast of Japan produced a massive tsunami, affecting certain east coast regions of Japan. The effects of the earthquake and tsunami caused widespread damage and destruction of property and localized disruption of the power supply. These events have disrupted our Japanese manufacturer partners' supply-chain and vehicle production capacity. As Japan continues to focus on recovering from this natural disaster, it is uncertain as to the continuing effects this event may have on these manufacturer partners' supply-chain and production. Although these events did not affect our business in the first quarter of 2011, we are currently experiencing lower allocations of new vehicle inventory from the Japanese import brands, which may affect new vehicle revenues, new vehicle gross margins, consumer brand preferences and our ability to source used inventory through trades as we progress through the second quarter. We expect to experience a shift in demand for our Japanese import brands from new vehicles to used vehicles which may help mitigate the effects of the period of lower new vehicle supply. We may see an increase in acquisition costs of certain new and used vehicles if demand is consistent with the demand experienced in March 2011. We could also experience higher costs for certain replacement parts which may have had production disruptions caused by the earthquake and tsunami, however, it is unclear whether we will be able to pass the effects of these higher costs to our customers. Although we believe the majority of the effects will be experienced in our Japanese brands, we also believe most vehicle manufacturers will experience some production disruption due to the effects of this event on the automotive supply-chain. We may experience these, and potentially other, effects as we progress through the second quarter. The duration of the anticipated shortfall in new vehicle supply is unknown.

The following is a detail of our new vehicle revenues by brand for the first quarters ended March 31, 2011 and 2010:

#### **Results of Operations**

The following discussions are based on reported figures. Same store amounts do not vary significantly from reported totals since there were no significant dealership franchise acquisitions subsequent to December 31, 2009.

#### ***New Vehicles***

The automobile retail industry uses the Seasonally Adjusted Annual Rate (SAAR) to measure the amount of new vehicle unit sales activity within the United States market. The SAAR averages below reflect a blended average of all brands marketed or sold in the United States market. The SAAR includes brands we do not sell and locations in which we do not operate.

## MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Our reported new vehicle (including fleet) results are as follows:

	For the First Quarter Ended March 31,		Better / (Worse)	
	2011	2010	Change	% Change
	(in thousands, except units and per unit data)			
Revenue	\$ 980,745	\$ 778,244	\$ 202,501	26.0%
Gross profit	\$ 60,059	\$ 52,581	\$ 7,478	14.2%
Unit sales	29,384	23,132	6,252	27.0%
Revenue per unit	\$ 33,377	\$ 33,644	\$ (267)	(0.8%)
Gross profit per unit	\$ 2,044	\$ 2,273	\$ (229)	(10.1%)
Gross profit as a % of revenue	6.1%	6.8%	(70)bps	

The increase in new vehicle revenues for the first quarter ended March 31, 2011 was driven by a 27.0% increase in our unit sales volume. Our new unit volume increase was led by our Honda, General Motors (including Cadillac) and BMW/Mini dealerships, which accounted for 60.9% of the year-over-year increase. This increase in new vehicle volume also contributed to a 21.9% increase in our finance, insurance and other ( F&I ) revenue as further discussed below. The majority of our brands significantly outperformed their local industry volume increase for their respective brand.

New vehicle gross profit benefited from the higher sales volume which more than offset a 10.1% decrease in gross profit per unit. Gross profit per unit was \$2,044, down \$229 per unit from the prior year primarily as a result of decreases at our mid-line import dealerships.

Our luxury stores experienced a new vehicle revenue increase of 20.2% for the first quarter ended March 31, 2011, compared to the same prior year period, primarily due to a 19.5% increase in new unit volume. Our Cadillac and BMW/Mini dealerships contributed to the revenue increase, improving 24.8% and 34.7%, respectively. Luxury new vehicle gross profit per unit decreased 1.5% from the prior year period primarily due to declines in Mercedes, Lexus and Cadillac gross profit per unit, however, BMW/Mini and Audi gross profit per unit increased 6.5% and 10.3%, respectively. Total luxury gross profit dollars were up 17.8% as a result of the higher sales volume. Gross profit as a percentage of revenue at our luxury dealerships was relatively flat.

Our mid-line import new vehicle revenue improved 29.1% compared to the same prior year period primarily due to volume increases at our Honda, Toyota and Volkswagen dealerships. Gross profit per unit declined 21.2%, primarily due to a 29.4% decrease in gross profit per unit at our Honda dealerships. Overall mid-line import gross profit was up 2.1%, led by our Hyundai and Volkswagen brands.

Our domestic stores experienced a new vehicle revenue increase of 39.3% for the first quarter ended March 31, 2011, compared to the same prior year period, primarily due to a 58.4% increase in new vehicle revenue from our General Motors (excluding Cadillac) dealerships. New vehicle revenue, gross profit and unit volume increased across all domestic brands. Domestic fleet gross profit (included in the discussion above) increased 30.2% largely due to a 25.6% increase in fleet unit volume.

## MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

*Used Vehicles*

Our reported used vehicle results are as follows:

	For the First Quarter Ended March 31,		Better / (Worse)	
	2011	2010	Change	% Change
	(in thousands, except units and per unit data)			
Revenue	\$ 482,031	\$ 418,849	\$ 63,182	15.1%
Gross profit	\$ 38,244	\$ 34,778	\$ 3,466	10.0%
Unit sales	25,245	21,492	3,753	17.5%
Revenue per unit	\$ 19,094	\$ 19,489	\$ (395)	(2.0%)
Gross profit per unit	\$ 1,515	\$ 1,618	\$ (103)	(6.4%)
Gross profit as a % of revenue	7.9%	8.3%	(40) bps	
CPO revenue	\$ 209,433	\$ 204,199	\$ 5,234	2.6%
CPO unit sales	7,914	7,611	303	4.0%

The increase in used vehicle unit volume is primarily due to the continued implementation of our standardized used vehicle merchandising process. This process allows us to purchase and price our used vehicles more competitively, market them more effectively and physically move certain used vehicles to specific dealerships within a particular region that have shown success in retailing that specific type of used vehicle.

The reduction in gross profit per unit was due in part to the higher cost of units sold. Costs were higher as a result of acquiring more used vehicle inventory through auctions (generally higher cost than acquiring through trade) than through trades. However, obtaining a greater number of used vehicles from auction allowed us to better implement our standardized used vehicle merchandising process, allowing us to optimize the mix of used vehicles at each dealership, increasing unit sales and overall gross profit.

*Wholesale Vehicles*

Our reported wholesale results are as follows:

	For the First Quarter Ended March 31,		Better / (Worse)
