General Information about the Annual Meeting of Shareholders and Voting

This Proxy Statement relates to the Annual Meeting of Shareholders (Annual Meeting) of Old National Bancorp (the Company or Old National) to be held on May 9, 2013, at 9:00 a.m. Central Daylight Time. These proxy materials are being furnished by the Company in connection with a solicitation of proxies by the Company's Board of Directors (the Board).

We are pleased this year to take advantage of the Securities and Exchange Commission (SEC) rule that permits companies to furnish proxy materials to shareholders over the Internet. On or about March 26, 2013, we will begin mailing Notice of Internet Availability of Proxy Materials (Notice). The Notice contains instructions on how to vote online, or in the alternative, request a paper copy of the proxy materials and a proxy card. By furnishing the Notice and providing access to our proxy materials by the Internet, we are lowering the costs and reducing the environmental impact of our Annual Meeting.

Who can attend the Annual Meeting?

Only shareholders of the Company of record as of March 4, 2013 (the Record Date), their authorized representatives and guests of the Company may attend the Annual Meeting. Admission will be by ticket only.

Who may vote at the Annual Meeting?

These proxy materials are provided to holders of the Company's common stock who were holders of record on the Record Date. Only the Company's common shareholders of record on the Record Date are entitled to vote at the Annual Meeting. On the Record Date 101,061,263 shares of the Company's common stock were outstanding.

As of the Record Date, to the knowledge of the Company, no person or firm, other than BlackRock, Inc. and The Vanguard Group, Inc., beneficially owned more than 5% of the common stock of the Company outstanding on that date. As of March 4, 2013, no individual Director,

nominee or officer beneficially owned more than 5% of the common stock of the Company outstanding.

Voting and Proxy Procedures

Each share of the Company's common stock outstanding on the Record Date will be entitled to one vote at the Annual Meeting. If you receive the Notice by mail, you will not receive a printed copy of the proxy materials unless you request the materials by following the instructions included in the Notice.

Table of Contents

If your shares are registered in your name, you may vote your shares by Internet, or by completing, signing, dating and returning the requested proxy card in the postage-paid envelope provided. Simply follow the easy instructions on the proxy card or Notice provided. You may also vote in person at the meeting. Execution of the proxy card or voting via Internet will not affect your right to attend the Annual Meeting. If your shares are held in street name through a broker, bank or other nominee, please follow the instructions provided by your nominee on the voting instruction form or Notice in order to vote your shares by Internet, or by signing, dating and returning the voting instruction form in the enclosed postage-paid envelope. If you desire to vote in person at the Annual Meeting, you must provide a legal proxy from your bank, broker or other nominee.

Shares of the Company's common stock for which instructions are received will be voted in accordance with the shareholder's instructions. If you send in your proxy card or use Internet voting, but do not specify how you want to vote your shares, the proxy holders will vote them FOR each of the items being proposed by the Board and in the discretion of the proxy holders as to any other business that may properly come before the Annual Meeting and any adjournment or postponement thereof.

Can I change my vote after I return the proxy card or after voting electronically?

If you are a shareholder whose shares are registered in your name, you may revoke your proxy at any time before it is voted by one of the following methods:

Submitting another proper proxy with a more recent date than that of the proxy first given by:

- (1) following the Internet voting instructions, or
- (2) completing, signing, dating and returning a proxy card to the Company's Corporate Secretary.

Sending written notice of revocation to the Company's Corporate Secretary.

Attending the Annual Meeting and voting by ballot (although attendance at the Annual Meeting will not, in and of itself, revoke a proxy).

If you hold your shares in street name through a broker, you may revoke your proxy by following instructions provided by your broker. No notice of revocation or later-dated proxy will be effective until received by the Company's Corporate Secretary at or prior to the Annual Meeting.

How do I receive an admission ticket?

If you are a registered shareholder (your shares are held in your name) and plan to attend the meeting, your Annual Meeting admission ticket will be included in the Notice being mailed on or about March 26, 2013, or if you receive hard copies of the proxy material, the admission ticket can be detached from the top portion of the proxy card.

If your shares are held in street name (in the name of a bank, broker or other holder of record) and you plan to attend the meeting, you will need to bring a copy of a brokerage statement reflecting your stock ownership as of the Record Date for admittance to the meeting.

No cameras, recording equipment, electronic devices, large bags, briefcases or packages will be permitted in the meeting.

Will the Annual Meeting be webcast?

Our Annual Meeting will be webcast on May 9, 2013. You are invited to visit www.oldnational.com at 9:00 a.m. Central Daylight Time on May 9, 2013, to access the webcast of the meeting. Registration for the webcast is not required. An archived copy of the webcast will also be available on our website through May 8, 2014.

Table of Contents

How many votes are needed to have the proposals pass?

Election of Directors. A plurality of the votes cast at the meeting is required to elect Directors. This means that the Director nominee with the most votes for a particular slot is elected for that slot. You may vote for or withheld with respect to the election of Directors. Only votes for or withheld are counted in determining whether a plurality has been cast in favor of a Director. Abstentions are not counted for purposes of the election of Directors.

Our Board has adopted a corporate governance policy regarding Director elections that is contained in our Corporate Governance Guidelines. The policy provides that in any uncontested election, any nominee for Director who receives a greater number of votes withheld for his or her election than votes for such election will tender his or her resignation as a Director promptly following the certification of the shareholder vote. The Corporate Governance and Nominating Committee, without participation by any Director so tendering his or her resignation, will consider the resignation offer and recommend to the Board whether to accept it. The Board, without participation by any Director so tendering his or her resignation, will act on the Corporate Governance and Nominating Committee's recommendation no later than 90 days following the date of the Annual Meeting at which the election occurred. If the Board decides to accept the Director's resignation, the Corporate Governance and Nominating Committee will recommend to the Board whether to fill the resulting vacancy or to reduce the size of the Board. We will promptly disclose the Board's decision and the reasons for the decision in a broadly disseminated press release that will also be furnished to the SEC on Form 8-K.

Approval of Non-binding Advisory Proposal on Executive Compensation. The affirmative vote of a majority of the shares present in person or by proxy is required to approve the advisory vote on executive compensation. Because your vote is advisory, it will not be binding on the Board or the Company. However, the Board will review the voting results and take them into consideration when making future decisions regarding executive compensation.

Ratification of Independent Registered Public Accounting Firm. The affirmative vote of a majority of the shares present in person or by proxy is required for ratification of the appointment of Crowe Horwath LLP as the independent registered public accounting firm of the Company for fiscal year 2013.

What is householding ?

We have adopted a procedure called householding, which has been approved by the SEC. Under this procedure, a single copy of the annual report and proxy statement will be sent to any household at which two or more shareholders reside if they appear to be members of the same family, unless one of the shareholders at that address notifies us that they wish to receive individual copies. This procedure reduces our printing costs and fees.

Shareholders who participate in householding will continue to receive separate proxy cards.

Householding will not affect dividend check mailings in any way.

If a single copy of the annual report and proxy statement was delivered to an address that you share with another shareholder, we will promptly deliver a separate copy to you upon your written or oral request to the Company's Shareholder Services Department at 812-464-1296 or 1-800-677-1749, at P.O. Box 929, Evansville, Indiana 47706-0929, or via email to shareholderservices@oldnational.com.

Shareholders sharing an address who are receiving multiple copies of the annual report and proxy statement may request a single copy by contacting our Shareholder Services Department using the contact information set forth above.

A number of brokerage firms have instituted householding. If you hold your shares in street name, please contact your bank, broker, or other holder of record to request information about householding.

Table of Contents

How are abstentions and broker non-votes treated?

Under the rules of the New York Stock Exchange, if you are the beneficial owner of shares held in street name and do not provide the bank, broker or other intermediary that holds your shares with specific voting instructions, that bank, broker or other intermediary may generally vote on routine matters but cannot vote on non-routine matters. With the exception of the proposal to ratify the appointment of our auditors, all matters scheduled to be presented at the meeting are non-routine matters. Unless you instruct the bank, broker or other intermediary that holds your shares to vote on these non-routine matters, no votes will be cast on your behalf for the proposal relating to the election of Directors or for the advisory proposal on executive compensation. Therefore, it is important that you instruct the bank, broker or other intermediary to cast your vote if you want it to count on these matters. The proposal to ratify the appointment of our auditors is considered a routine matter and, therefore, broker non-votes are not expected to exist on this proposal.

Abstentions and, unless a broker's authority to vote on a particular matter is limited, broker non-votes are counted in determining the votes present at the meeting. A broker has limited authority to vote on the election of directors but is not limited as to the proposal relating to the ratification of auditors. With respect to the election of Directors, abstentions, broker non-votes and instructions on the enclosed form of proxy to withhold authority to vote for one or more of the nominees will result in the nominee receiving fewer votes, but will not affect the outcome of the election. With respect to the ratification of auditors, abstentions and broker non-votes have the same effect as a vote against the proposal.

How do I designate my proxy?

If you wish to give your proxy to someone other than the proxies identified on the proxy card, you may do so by crossing out all the names of the proxy members appearing on the proxy card and inserting the name of another person. The signed card must be presented at the Annual Meeting by the person you have designated on the proxy card.

Who will pay for the costs involved in the solicitation of proxies?

The Company will pay all costs of preparing, assembling, printing and distributing the proxy materials. In addition to solicitations by mail, Directors and Officers of the Company and its subsidiaries may solicit proxies personally, by telephone, telefax, electronic mail or in person, but such persons will not be specially compensated for their services.

We will, upon request, reimburse brokerage firms and others for their reasonable expenses incurred for forwarding solicitation material to beneficial owners of stock.

Other Matters Related to the Meeting

Only matters brought before the Annual Meeting in accordance with the Company's By-Laws will be considered. Aside from the items listed above in the Notice of Annual Meeting, the Company does not know of any other matters that will be presented at the Annual Meeting. However, if any other matters properly come before the Annual Meeting or any adjournment, the proxy holders will vote them in accordance with their best judgment.

Should any nominee for Director become unable or unwilling to accept nomination or election, the persons acting under the proxy intend to vote for the election of another person recommended by the Corporate Governance and Nominating Committee and nominated by the Board. The Company has no reason to believe that any of the nominees will be unable or unwilling to serve if elected to office.

Table of Contents

Report of the Corporate Governance and Nominating Committee and Other Board Matters

The Corporate Governance and Nominating Committee is primarily responsible for corporate governance matters affecting the Company and its subsidiaries. The Corporate Governance and Nominating Committee operates under a written charter which conforms to the requirements of the SEC and the New York Stock Exchange (NYSE).

Board Leadership Structure and Function

The Board, which is elected by the shareholders, selects the Executive Leadership Group (ELG), which is the executive management team charged with the conduct of the Company's business. Having selected the ELG, the Board acts as an advisor and counselor to management and ultimately monitors its performance. The Board has the responsibility for overseeing the affairs of the Company and, thus, an obligation to keep informed about the Company's business. This involvement enables the Board to provide guidance to management in formulating and developing plans and to exercise its decision-making authority on appropriate matters of importance to the Company. Acting as a full Board and through the Board's seven standing committees, the Board oversees and approves the Company's strategic plan. The Board regularly reviews the Company's progress against its strategic plan and exercises oversight and decision-making authority regarding strategic areas of importance to the Company.

The Company's Corporate Governance Guidelines provide for a non-executive Chairman (currently Larry E. Dunigan), who acts as chair of meetings of the Board; leads executive sessions of the Board; consults and meets with any or all outside Directors as required and represents such Directors in discussions with management of the Company on corporate governance issues and other matters; ensures that the Board, committees of the Board, individual Directors and management of the Company understand and discharge their duties and obligations under the Company's system of corporate governance; mentors and counsels new members of the Board to assist them in becoming active and effective Directors; leads the Board in the annual evaluation of the Chief Executive Officer's (CEO) performance; acts in an advisory capacity to the president and CEO in all matters concerning the interests of the Board and relationships between management and the Board; and performs such other duties and responsibilities as may be delegated to the non-executive Chairman by the Board from time to time.

Mr. Dunigan has served as non-executive Chairman of the Board since 2004. The Board believes that separating the Chairman role from the Chief Executive Officer role allows the Chief Executive Officer to focus on the management and leadership of the business, while permitting the non-executive Chairman to focus on board and governance issues. The Board annually reviews the effectiveness of the arrangement and believes this structure is in the best interest of shareholders and serves the Company well.

Executive sessions, or meetings of outside Directors without management present, are held at regular intervals for both the Board and the Committees. Mr. Dunigan, as the non-executive Chairman of the Company, serves as the presiding Director of the executive session meetings of the non-management Directors of the Board. The Board meets in executive session a minimum of four times each year.

The Board met eight times during 2012. Each Director attended 87% or more of Board meetings and meetings of Committees on which they served in 2012. Directors as a group attended an average of 97.4% of the Board meetings and meetings of Committees on which they served in 2012.

Corporate Governance and Nominating Committee Scope of Responsibilities

The Corporate Governance and Nominating Committee has responsibility for recruiting and nominating new Directors, assessing the independence of non-management Directors, leading the Board in its annual performance evaluation, reviewing and assessing the adequacy of the Corporate Governance Guidelines and

Table of Contents

retaining outside advisors as needed to assist and advise the Board with respect to legal and other accounting matters. The Corporate Governance and Nominating Committee is also responsible for reviewing with the full Board, on an annual basis, the requisite skills and characteristics of Board members as well as the composition of the Board as a whole.

CEO Succession Planning

Among the Corporate Governance and Nominating Committee's responsibilities as described in its charter is to oversee CEO succession planning and leadership development for potential CEO candidates. The Board plans for succession of the CEO and annually reviews the succession strategy for an unplanned and planned event. As part of this process, the independent directors annually review the Corporate Governance and Nominating Committee's recommended candidates for consideration as the CEO under either a planned or unplanned scenario. The criteria used when assessing the qualifications of potential CEO successors include certain leadership, management and personal behaviors. The leadership behaviors include the ability to attract and develop talent, drive and execution, empowering others, shaping strategy and leading change. The management behaviors include communication and climate setting, establishing plans and priorities, managing and improving processes and performance monitoring and management. The personal behaviors important to the Corporate Governance and Nominating Committee in evaluating potential CEO candidates include the following: embodies the values that make the Company's culture distinctive, acts with honor and character, makes and maintains personal relationships with associates, clients and shareholders, demonstrates courage and serves as a champion of the Company's culture. The individual must also possess the skill and talent to lead the organization in a positive manner with wisdom, enthusiasm and humility.

Attendance at Annual Meetings

The Company has not established a formal policy regarding Director attendance at its Annual Meeting, but it encourages all Directors to attend these meetings and reimburses expenses associated with attendance. The non-executive Chairman presides at the Annual Meeting. All the Directors attended the Annual Meeting in 2012.

Code of Conduct and Code of Ethics

The Board has adopted a Code of Business Conduct and Ethics that sets forth important Company policies and procedures in conducting our business in a legal, ethical and responsible manner. These standards are applicable to all of our Directors and employees, including the Company's Chief Executive Officer, Chief Financial Officer and Controller. In addition, the Board has adopted the Code of Ethics for CEO and Senior Financial Officers that supplements the Code of Business Conduct and Ethics by providing more specific requirements and guidance on certain topics. The Code of Ethics for CEO and Senior Financial Officers applies to the Company's Chief Executive Officer, Chief Financial Officer and Controller. The Code of Business Conduct and Ethics and the Code of Ethics for CEO and Senior Financial Officers are available on our website at www.oldnational.com. We will post any material amendments to, or waivers from, our Code of Business Conduct and Ethics and Code of Ethics for Senior Financial Officers on our website within two days following the date of such amendment or waiver.

Employees are required to report any conduct they believe in good faith to be an actual or apparent violation of our Codes of Conduct. In addition, as required under the Sarbanes-Oxley Act of 2002, the Audit Committee has established confidential procedures to receive, retain and treat complaints received regarding accounting, internal accounting controls, or auditing matters and the confidential, anonymous submission by Company employees of concerns regarding questionable accounting or auditing matters.

The Code of Business Conduct and Ethics addresses, among other things, the following topics: working with integrity; personal conduct; honesty and fair dealing; compliance with laws, rules and regulations (including federal securities laws); conflicts of interest; corporate opportunities; protection and proper use of Company assets; protecting confidential information; and the reporting of any illegal or unethical behavior.

Table of Contents

Corporate Governance Guidelines

The Board has adopted the Corporate Governance Guidelines that, along with the Company's corporate charter, By-Laws and charters of the various committees of the Board, provide the foundation for the Company's governance. Among other things, our Corporate Governance Guidelines set forth the: (i) minimum qualifications for Directors; (ii) independence standards for Directors; (iii) responsibilities of Directors; (iv) a majority voting policy applicable to Director elections; (v) committees of the Board; (vi) access of Directors to the officers and employees of the Company; (vii) Directors' compensation; (viii) procedures for Director orientation and development; (ix) procedures for an annual review of the CEO and management succession planning; (x) stock ownership guidelines for executives and Directors; (xi) bonus recoupment or clawback policy; (xii) procedures for an annual self-evaluation of the Board; and (xiii) content of the Company's Code of Business Conduct and Ethics.

Communications from Shareholders to Directors

The Board believes that it is important that a direct and open line of communication exist between the Board and the Company's shareholders and other interested parties. As a consequence, the Board has adopted the procedures described in the following paragraph for communications to Directors.

Any shareholder or other interested party who desires to contact Old National's Chairman or the other members of the Board may do so by writing to: Board of Directors, c/o Corporate Secretary, Old National Bancorp, P.O. Box 718, Evansville, IN 47705-0718. Communications received are distributed to the non-executive Chairman or other members of the Board, as appropriate, depending on the facts and circumstances outlined in the communication received. For example, if any complaints regarding accounting, internal accounting controls and auditing matters are received, then the Corporate Secretary will forward them to the Chairman of the Audit Committee for review.

Policy Regarding Consideration of Director Candidates Recommended by Shareholders

The Company's nomination procedures for Directors are governed by its By-Laws. Each year the Corporate Governance and Nominating Committee makes a recommendation to the entire Board regarding nominees for election as Directors. The Corporate Governance and Nominating Committee will review suggestions from shareholders regarding nominees for election as Directors. All such suggestions from shareholders must be submitted in writing to the Corporate Governance and Nominating Committee at the Company's principal executive office not less than 120 days in advance of the date of the annual or special meeting of shareholders at which Directors are to be elected. All written suggestions of shareholders must set forth: (i) the name and address of the shareholder making the suggestion; (ii) the number and class of shares owned by such shareholder; (iii) the name, address and age of the suggested nominee for election as Director; (iv) the nominee's principal occupation during the five years preceding the date of suggestion; (v) all other information concerning the nominee as would be required to be included in the proxy statement used to solicit proxies for the election of the suggested nominee; and (vi) such other information as the Corporate Governance and Nominating Committee may reasonably request. Consent of the suggested nominee to serve as a Director of the Company, if elected, must also be included with the written suggestion.

In seeking individuals to serve as Directors, the Corporate Governance and Nominating Committee seeks members from diverse professional backgrounds who combine a broad spectrum of experience and expertise. Directors should have an active interest in the business of the Company, possess a willingness to represent the best interests of all shareholders, be able to objectively appraise management performance, possess the highest personal and professional ethics, integrity and values, and be able to comprehend and advise management on complicated issues that face the Company and Board.

Directors should also demonstrate achievement in one or more fields of business or professional, governmental, communal, scientific or educational endeavors. Directors are expected to have sound judgment, borne of management or policy making experience that demonstrates an ability to function effectively in an

oversight role. In addition, Directors should have a general appreciation regarding major issues facing public companies of a size and operational scope similar to that of the Company. These issues include contemporary governance concerns, regulatory obligations of an SEC reporting financial holding company, strategic business planning and basic concepts of corporate finance.

The Company does not currently have a formal diversity policy. However, the Corporate Governance Guidelines state that the Board seeks members with diverse professional backgrounds. The Board also annually reviews the requisite skills and characteristics of Board members as well as the composition of the Board as a whole. The annual assessment includes a review of the skills, experience and diversity of the Board in the context of the needs of the Board.

Determination with Respect to the Independence of Directors

It is the policy of the Board that a majority of its members be independent from management, and the Board has adopted Director Independence Standards that meet the listing standards of the NYSE. These Independence Standards are included in our Corporate Governance Guidelines which can be viewed under the Investor Relations/Corporate Governance link on the Company's website at www.oldnational.com.

In accordance with our Corporate Governance Guidelines, the Board undertook its annual review of Director independence. During this review, the Board considered any and all commercial and charitable relationships of Directors, including transactions and relationships between each Director or any member of his or her immediate family and the Company and its subsidiaries. Following the review, the Board affirmatively determined, by applying the Director Independence Standards contained in the Corporate Governance Guidelines, that each of our Directors nominated for election at this Annual Meeting is independent of the Company and its management in that none has a direct or indirect material relationship with the Company, with the exception of Robert G. Jones.

The independent Directors of the Company are Alan W. Braun, Larry E. Dunigan, Niel C. Ellerbrook, Andrew E. Goebel, Phelps L. Lambert, Arthur H. McElwee, Jr., James T. Morris, Randall T. Shepard, Kelly N. Stanley and Linda E. White. Both Joseph D. Barnette, Jr., who served on the Board until his retirement on May 10, 2012, and Marjorie Z. Soyugenc, who served on the Board until her death in November 2012, were also independent Directors. The only non-independent Director is President and CEO, Robert G. Jones. Mr. Jones is considered an inside Director because of his employment as President and CEO of the Company.

In addition, all members of the Audit Committee, the Compensation and Management Development Committee and the Corporate Governance and Nominating Committee satisfy the standards of independence applicable to members of such committees established under applicable law, the listing requirements of the NYSE and the Director Independence Standards set forth in the Company's Corporate Governance Guidelines.

Determination with respect to Director Qualifications

Members of the Board must possess certain basic personal and professional qualities in order to properly discharge their fiduciary duties to shareholders, provide effective oversight of the management of the Company and monitor the Company's adherence to principles of sound corporate governance. In seeking individuals to serve as Directors, the Corporate Governance & Nominating Committee seeks members from diverse professional backgrounds who combine a broad spectrum of experience and expertise. The Directors of the Company have an active interest in the business of the Company and possess a willingness to represent the best interests of all shareholders without favoring or advancing any particular shareholder or other constituency of the Company. The Directors are able to objectively appraise management performance, and they possess the highest personal and professional ethics, integrity and values, and are able to comprehend and advise management on complicated issues that face the Company and Board.

In addition to the general skills stated above, the Directors do not have any interests that would materially impair their ability to exercise independent judgment, or otherwise discharge the fiduciary duties owed

as a Director to the Company and its shareholders. As stated on pages 16 through 21, our Directors have demonstrated significant achievement and generally have significant management experience in one or more fields of business, professional, governmental, communal, and educational endeavors. We believe that our Directors' extensive management or policy-making experience provides them with the skills and judgment necessary to function effectively in an oversight role. Given the tenure of most of the Directors on our Board, they have a general appreciation regarding major issues facing public companies.

Committees of our Board

The following table lists the current membership of the Company's standing Board Committees.

The current members of the Risk and Credit Policy Committee are Linda E. White (Chairperson), Alan W. Braun, Larry E. Dunigan and Andrew E. Goebel. The Risk and Credit Policy Committee met four times in 2012. The function of the Risk and Credit Policy Committee is to oversee the Company's policies, procedures and practices relating to credit, operation and compliance risk. The Risk and Credit Policy Committee has adopted a written charter which has been approved by the Board.

The current members of the Community and Social Responsibility Committee are Kelly N. Stanley (Chairman), James T. Morris, Randall T. Shepard and Linda E. White. The Community and Social Responsibility Committee met three times in 2012. The Community and Social Responsibility Committee has the responsibility to review the Company's compliance with the Community Reinvestment Act, Fair Lending Practices, associate commitment and diversity, supplier diversity and the Company's Affirmative Action Plan. The Community and Social Responsibility Committee also monitors the activities of the Old National Bank Foundation through which major charitable gifts from the Company are funded. The Community and Social Responsibility Committee has adopted a written charter which has been approved by the Board.

The current members of the Funds Management Committee are Phelps L. Lambert (Chairman), Alan W. Braun, Andrew E. Goebel and Arthur H. McElwee, Jr. The Funds Management Committee met four times during 2012. The function of the Funds Management Committee is to monitor the balance sheet risk profile of the Company, including credit, interest rate, liquidity and leverage risks. The Funds Management Committee is also responsible for reviewing and approving the investment policy for the Company. The Funds Management Committee has adopted a written charter which has been approved by the Board.

The current members of the Finance and Corporate Development Committee are Alan W. Braun (Chairman), Larry E. Dunigan, Niel C. Ellerbrook, Andrew E. Goebel, Phelps L. Lambert and Linda E. White. The Committee was previously organized as the Finance Committee and met seven times in 2012. The Finance Committee had the responsibility to review management's financial forecasts, goals and budget and to monitor and provide appropriate feedback concerning the financial performance of the Company. The newly constituted committee maintains the same functions but with the additional responsibility of overseeing the mergers and acquisition activity as well as other strategic corporate development opportunities of the Company. The Finance and Corporate Development Committee has adopted a written charter which has been approved by the Board.

2012 Work of the Corporate Governance and Nominating Committee

During the year, the Governance Committee evaluated each Board member's committee assignments in light of the applicable qualification requirements, including additional independence requirements of certain committees. Based upon this evaluation, the Governance Committee recommended changes to the composition and leadership of each committee to the full Board at its October 25, 2012 meeting. Thereafter, those recommendations were adopted by the full Board at its December 6, 2012 meeting.

Given the acquisition and merger activity of the Company since January 2011 and the expected continued expansion activity of the Company, the Corporate Governance Committee reorganized the Finance Committee of the Board to include corporate development and acquisition activities under the purview of the committee. At the December 6, 2012 meeting of the Board, the Board approved the membership of the newly constituted committee. The Committee is now known as the Finance and Corporate Development Committee.

As required by the Governance Committee's Charter, which is posted on the Company's website at www.oldnational.com, the Governance Committee conducted an annual review of the Corporate Governance Guidelines applicable to the full Board. Based upon that review, the Governance Committee concluded that minor modifications were advisable. The current Corporate Governance Guidelines are posted on the Company's website at www.oldnational.com.

The Governance Committee is responsible for recommending to the Board any changes to the compensation and benefits of outside non-employee directors as deemed appropriate. The Governance

Committee commissioned a study of director compensation in early 2012 and the results of that study and the subsequent action of the Governance Committee and Board are discussed on page 12 of this Proxy Statement under the heading Changes to Director Compensation in 2013.

At its January 16, 2012 meeting, the Chair of the Governance Committee and Board administered the annual Board performance evaluation process pursuant to which the Board reviews its performance. The Board also reviewed the independence of Board members and determined that all the members of the Board were independent, with the exception of Robert Jones, who serves as President and CEO of the Company.

Availability of Corporate Governance Documents

The Company's Corporate Governance Guidelines (including the Director Independence Standards), Board committee charters for the Audit Committee, Corporate Governance and Nominating Committee, and the Compensation and Management Development Committee, as well as the Code of Business Conduct and Ethics, and the Code of Ethics for CEO and Senior Financial Officers can be viewed under the Investor Relations/Corporate Governance link on the Company's website at www.oldnational.com. These documents, as well as charters for all of the Company's Board committees, are available in print to any interested party who requests them by writing to: Corporate Secretary, Old National Bancorp, P.O. Box 718, Evansville, IN 47705-0718.

Risk Oversight

The entire Board is involved in overseeing risk associated with the Company. The charters of certain committees of the Board assign oversight responsibility for particular areas of risk. The Board and its committees monitor risks associated with their respective principal areas of focus through regular meetings with management and representatives of outside advisors.

The following is a summary of oversight responsibility for particular areas of risk:

Audit Committee. Risks and exposures associated with accounting, financial reporting, tax and maintaining effective internal controls for financial reporting.

Risk and Credit Policy Committee. Credit, regulatory, operational, enterprise and reputational risks, as well as litigation that may present material risk to the Company.

Corporate Governance and Nominating Committee. Risks associated with CEO succession planning. Risks with respect to corporate governance, including compliance with listing standards, committee assignments, conflicts of interest and director succession planning.

Funds Management Committee. Liquidity, capital and interest rate risks.

Compensation and Management Development Committee. Risks associated with the Company's compensation programs and arrangements, including cash and equity incentive plans.

Community and Social Responsibility Committee. Risks associated with associate and customer commitment, the Community Reinvestment Act, fair lending, associate and supplier diversity and the Company's Affirmative Action Plan.

Finance and Corporate Development Committee. Budgeting and forecasting oversight, management of budget risks and oversight of strategic acquisition opportunities of the Company.

Director Compensation

The Corporate Governance and Nominating Committee annually reviews and recommends the compensation for our non-employee Directors. No fees are paid to Directors who are also employees. As a starting point for its recommendations, the Corporate Governance and Nominating Committee uses the peer group compensation data prepared for the Compensation Committee by the Compensation Consultant. The Committee seeks to establish Board compensation that is competitive with the market practices within the Company's Peer Group and geographic footprint.

For 2012, we paid all outside Directors an annual retainer of \$35,000 for serving as Directors. Of this amount, we paid \$20,000 in cash and \$15,000 in the form of our stock. We paid this fee in two equal installments in May and November. In addition, outside Directors received \$1,500 for each Board meeting they attended. We paid Board committee members (other than Audit Committee members) \$1,000 for each committee meeting attended, and we paid Audit Committee members \$1,500 for each Audit Committee meeting attended. We pay meeting fees quarterly in the month following the end of the quarter, except fees for the last quarter of the year, which we pay in December. Robert G. Jones, President and CEO of the Company, is the only inside Director on the Board and receives no compensation for his Directorship.

For 2012, we paid the Non-Executive Chairman of the Board an additional retainer of \$25,000. We paid the Audit Committee Chairman an additional retainer of \$7,500 and other committee chairmen an additional retainer of \$2,500. We paid these additional retainers in May.

We maintain a nonqualified deferred compensation plan, known as the Directors' Deferred Compensation Plan, for our non-employee Directors. A Director may defer 25%, 50%, 75%, or 100% of his or her cash compensation pursuant to the plan. We credit a Director's plan account with earnings based on the hypothetical earnings of an investment fund consisting of Company stock, the return on a recognized market index selected by the Compensation Committee, or a combination of the two, as elected by the Director. For the market index fund, we use a Bloomberg index, which approximates the risk and return associated with a diversified high quality corporate bond fund.

All amounts paid under the plan are paid from our general assets and are subject to the claims of our creditors. In most circumstances, deferred amounts are not distributed to the Director until after termination of his or her service. In general, the Director may elect to receive his or her plan benefits in a lump sum or in annual installments over two to ten years.

Changes to Director Compensation in 2013

As previously noted, the Governance Committee is charged with oversight of compensation for the non-employee members of the Board. Although no change in director pay has occurred in eight years, the Governance Committee has periodically directed the preparation of an analysis of the continuing market competitiveness of director compensation. In early 2012 the Governance Committee had such an analysis prepared by

Pearl Meyer & Partners, which is the independent compensation consultant employed by the Compensation and Management Development Committee. The analysis included a review of the annual board retainer, board meeting attendance fees, committee retainers, committee meeting attendance fees, and equity grants. The analysis primarily relied upon a review of comparative data from the group of companies within the bank peer group that has been used by the Company to measure its performance and used by the Compensation and Management Development Committee when establishing executive compensation. The analysis also included comparative data from the Company's Back-to-Basics Peer Group, which is a peer group comprised of the five most high-performing banks within the Company's Bank Peer Group, and a secondary peer group which is comprised of general industry companies located in the Company's geographic footprint.

Following the initial review of market data at its January 2012 meeting, the Committee directed the independent compensation consultant to analyze the board compensation data from the bank peer group

Table of Contents

following the 2012 Proxy Season and to provide the Committee with an updated report at its October 2012 meeting. Based upon the analysis and review of the updated 2012 market data, it was the conclusion of the independent consultant that although the compensation to outside directors was in general competitive, the Company's annual equity award component of pay was below the median of the peer banks. Additionally, the compensation consultant determined that the competitiveness of the Company's director compensation was also impacted by the fact the Company's Board has more standing committees (7) than its peer banks (which typically have only 3 to 5 committees), and that there is a greater meeting burden that results. As a result of the increased meeting burden on Company directors and the below market payment of annual equity awards, the compensation consultant provided the committee with various alternatives to address the disparity in director pay to ensure directors were adequately compensated for their time and effort and to ensure that the Company can attract and retain directors with the skills necessary to lead the Company and increase shareholder value.

In addition to addressing and analyzing the amount of pay, the Governance Committee also asked the independent consultant to review emerging trends in director compensation. The Governance Committee requested that the consultant recommend various alternatives for the Committee to consider as part of its review, including the elimination of per-meeting fees and the adoption of a retainer only approach to director compensation.

The Governance Committee determined, based upon the results of the analysis and market data provided by its compensation consultant, that the existing level of director compensation should be changed to make it more market competitive. In January of 2013, the Governance Committee took action in response to the information and analysis provided by the compensation consultant, and recommended the following changes to the Board:

Eliminate meeting fees for board and committee meetings

Increase annual board cash retainer to \$35,000 from \$20,000

Increase annual equity retainer to \$35,000 from \$15,000

Increase Committee retainers as follows:

Committee	Chair	Member
Audit	\$ 12,000	\$ 6,000
Compensation	\$ 10,000	\$ 5,000
Other	\$ 8,000	\$ 4,000

The increases to the cash and equity retainers for board and committee service shown above will be partially offset by the elimination of cash meeting fees for board and committee meetings. Total board compensation will increase somewhat, but the Governance Committee concluded an increase in Director compensation would be appropriate for several reasons, including the fact that no adjustments have been made to Director compensation for 8 years, and the consultant's analysis revealed that Old National's board has more standing committees than many of its peers, and, accordingly, a greater meeting burden. In addition, by eliminating meeting fees and converting to a retainer-based compensation program, the Director compensation program will be simpler and easier to administer. Use of a retainer-based approach also will contribute to the Company's expense control initiatives as there will be no incremental expense associated with additional board or committee meetings that may be required during the year, e.g., to consider a potential acquisition. These recommended changes were adopted by the Board at its January 16, 2013 meeting, and the changes will become effective following the Annual Meeting of Shareholders.

Item 1: Election of Directors

The first item to be acted upon at the Annual Meeting is the election of eleven Directors to the Board of the Company. Each of the persons elected will serve a term of one year and until the election and qualification of his or her successor.

If any Director nominee named in this proxy statement shall become unable or decline to serve (an event which the Board does not anticipate), the persons named as proxies will have discretionary authority to vote for a substitute nominee named by the Board, if the Board determines to fill such nominee's position. Unless authorization is withheld, the proxy, when properly validated, will be voted **FOR** the election as Directors of all of the nominees listed in this proxy statement.

The By-Laws of the Company currently provide for the Board to be comprised of 12 Directors. The Board currently contemplates taking action to either reduce the size of the Board to 11 persons or to fill the vacancy. The proxies may not be voted for a greater number of persons than are presently nominated as Directors.

Pages 16 through 23 contain the following information with respect to each Director nominee of the Company: name; principal occupation or business experience for the last five years; skills and other qualifications to serve on the Board; age; the year in which the nominee or incumbent Director first became a Director of the Company; the number of shares of common stock of the Company beneficially owned by the nominee or incumbent Director as of March 4, 2013; and the percentage that the shares beneficially owned represent of the total outstanding shares of the Company as of March 4, 2013. The number of shares of common stock of the Company shown as being beneficially owned by each Director nominee or incumbent Director includes those over which he or she has either sole or shared voting or investment power.

Compensation and Management Development Committee Matters

The Board appoints the members of the Compensation and Management Development Committee (Compensation Committee). The Compensation Committee is currently composed of four non-employee Directors, each of whom is independent from management and the Company (as independence is currently defined in the NYSE's listing requirements and in the Company's Corporate Governance Guidelines). No member is eligible to participate in any management compensation program.

Compensation and Management Development Committee Charter

The Compensation Committee operates pursuant to a written charter. A copy of the Compensation Committee's charter is available on our web site, www.oldnational.com, under the Investor Relations/Corporate Governance link. As required by the charter, in early 2012 the Compensation Committee reviewed the charter and conducted an annual performance evaluation, the results of which have been discussed with the Compensation Committee members and shared with the Company's Corporate Governance and Nominating Committee.

Compensation Consultant

The Compensation Committee retained Pearl Meyer & Partners to provide information, analyses and advice regarding executive and Director compensation, as described further in this report. The Pearl Meyer & Partners consultant who performs these services reports directly to the Committee Chairman. With consent of the Committee Chairman, Pearl Meyer & Partners may, from time to time, contact the Company's executive officers for information necessary to fulfill its assignments and may make reports and presentations to and on behalf of the Committee that the executive officers also receive. All of the decisions with respect to determining the amount or form of executive and Director compensation under the Company's executive and Director compensation programs are made by the Committee and may reflect factors and considerations other than the information and advice provided by Pearl Meyer & Partners. To the extent that the outside consultant's work involves Director compensation, that work is shared with the Corporate Governance and Nominating Committee, which is responsible for reviewing and making recommendations to the Board regarding Director compensation and benefits.

Scope of Responsibilities

The Compensation Committee is responsible for approving and evaluating the Company's employee compensation and benefit programs, ensuring the competitiveness of those programs, and advising the Board regarding the talent development and succession management of key executives of the Company. The Compensation Committee is responsible for annually reviewing, approving, and recommending to the Board for its approval all elements of the compensation of the Chief Executive Officer and other executive officers who report directly to the Chief Executive Officer. The Compensation Committee is also responsible for determining awards to employees of stock or stock options pursuant to the Company's Amended and Restated 2008 Incentive Compensation Plan.

Compensation and Management Development Committee Interlocks and Insider Participation

No member of the Compensation Committee is or was formerly an officer or employee of the Company. No executive officer of the Company currently serves or in the past year has served as a member of the compensation committee or board of Directors of another company of which an executive officer serves on the Compensation Committee. Nor does any executive officer of the Company serve or has in the past year served as a member of the compensation committee of another company of which an executive officer serves as a Director of the Company.

Assessing Risk in Compensation

Our compensation programs do not use highly leveraged incentives that drive risky short-term behavior. Our compensation programs are designed to reward our executives for the achievement of short-term and long-term strategic and operational goals and the achievement of increased total shareholder return, while at the same time avoiding the encouragement of unnecessary or excessive risk-taking. With the adoption of stock ownership requirements that require Company management to maintain a significant ownership level of stock, there is a strong incentive to ensure the Company is managed with a long-term view, and this helps to ensure that Company management avoids excessive risk taking in the short term. With the balance of compensation among annual salary, short-term incentive and long-term equity awards, no particular element of compensation is excessively weighted versus other elements. In addition, the use of multiple performance measures in the short-term and long-term incentive plans ensures that executives must excel in a number of areas rather than simply maximizing performance on a single performance measure in order to earn incentives.

In 2010, the Board adopted a Bonus Recoupment or Clawback Policy that provides the Board with authority to recover a bonus or other incentive paid to any Named Executive Officer or executive officer in appropriate circumstances where there has been a material restatement of the Company's financial results. The Board believes that this Policy, along with a requirement that executive officers maintain a significant level of stock ownership in the Company while they are employees, provides significant incentives to help ensure the Company is managed with a long-term view.

Our Compensation Committee reviewed the relationship between our risk management policies and practices and the incentive compensation provided to the Named Executive Officers at its April 26, 2012 meeting. After review with the Company's Chief Risk Officer and representatives of Pearl Meyer & Partners, the Committee determined that our incentive compensation programs do not encourage unnecessary and excessive risk taking.

Compensation Discussion and Analysis

Overview

This Compensation Discussion and Analysis describes the key principles and approaches used to determine the compensation of our Chief Executive Officer, Chief Financial Officer, and our other three most highly compensated executive officers. Detailed information regarding the compensation of these executive officers, who are referred to as **Named Executive Officers** or **NEOs**, appears in the tables following this Compensation Discussion and Analysis. This discussion should be read in conjunction with those tables.

This Compensation Discussion and Analysis consists of the following parts:

Executive Summary
Review of 2012 Advisory Vote on Executive Compensation
Responsibility for Executive Compensation Decisions
Compensation Philosophy and Objectives
Role of Executive Officers in Compensation Decisions
Compensation Committee Procedures
Setting Executive Compensation for 2012
Changes in Executive Compensation in 2013

Executive Summary

We seek to closely align the interests of our Named Executive Officers with the interests of our shareholders. Our compensation programs are designed to reward our Named Executive Officers for the achievement of short-term and long-term strategic and operational goals and the achievement of increased total shareholder return, while at the same time avoiding the encouragement of unnecessary or excessive risk-taking. Our Named Executive Officers' total compensation is comprised of a mix of base salary, annual cash incentive awards and long-term incentive awards paid in equity. These compensation components, combined with our stock ownership guidelines and recoupment policy, extend the time horizon beyond the vesting period and represent a balanced approach.

In an improving but still challenging economic environment, we significantly improved our operating performance during the last completed fiscal year. As more fully described in *Management's Discussion and Analysis of Financial Conditions and Results of Operations* in our Annual Report on Form 10-K, our fiscal 2012 financial results were significantly improved over our fiscal 2011 results. Full year net income for 2012 increased 26% over 2011 net income and full year EPS increased 25% over 2011 EPS. Net interest income was \$308.8 million in 2012, a 13.2% increase from the \$272.9 million reported in 2011. Taxable equivalent net interest income was \$321.9 million in 2012, a 13.1% increase from the \$284.7 million reported in 2011. The net interest margin on a fully taxable equivalent basis was 4.23% for 2012, a 36 basis point increase compared to the 3.87% reported in 2011. The increase in both net interest income and net interest margin is primarily due to the acquisitions the Company completed in 2011 and 2012, combined with a change in the mix of interest earning assets and interest-bearing liabilities. With respect to stock price performance, the Company's total shareholder return for 2012 exceeded the median of our peer group.

The key factors in determining compensation for 2012 included the following:

Due to the significant improvement in the financial performance of the Company in 2011 over 2010, the Compensation Committee determined to make base salary changes for certain Named Executive Officers in fiscal 2012.

Table of Contents

Net income continued to be used as the key metric for our Named Executive Officers' annual cash incentive awards in 2012. This metric provided a method of measuring our short-term growth and financial performance that was both reliable and aligned with how shareholders generally assess short-term performance. The Short-Term Incentive Compensation Plan for 2012 provided a maximum incentive opportunity equal to 200% of full-year target. Each of the Named Executive Officers, including the CEO, received a payout under the Short-Term Incentive Compensation Plan for 2012 as discussed more fully on pages 35 and 36.

Long-term incentive compensation continues to make up a significant portion of the compensation for each of our Named Executive Officers, comprised of equity awards which have value that is closely linked to the Company's shareholder returns and EPS growth. We believe that our compensation program builds upon the Company's compensation governance framework and our overall pay-for-performance philosophy, which are demonstrated by the following:

We amended all employment agreements in early 2011 to:

Eliminate tax gross-ups on severance benefits;

Eliminate tax gross-ups on perquisites;

Eliminate the ability of executives to voluntarily terminate, without good reason, their employment within 12 months of a change in control and be entitled to severance benefits; and

Provide only pro-rata acceleration of performance-based equity awards upon a change in control contingent on actual company performance.

We award a significant portion of our long-term incentive compensation in the form of performance-based restricted stock units, which vest over a three-year period only upon the achievement of specific goals for EPS and total shareholder return. With a three-year vesting period, we hope to more closely align our Named Executive Officers' incentives with the long-term interests of shareholders.

We have a Bonus Recoupment or Clawback Policy which provides our Board with authority to recover a bonus or other incentive payout paid to any executive officer, including the Named Executive Officers, in the event there is a material restatement of the Company's financial results.

For those Named Executive Officers covered under the Defined Benefit Pension Plan, we provide supplemental benefits only to the extent that there have been reductions in benefits due to limitations under the Internal Revenue Code.

We maintain rigorous stock ownership guidelines which are set forth on page 41 of this proxy statement.

We maintain a policy that prohibits our Directors, Named Executive Officers, and other key executive officers from hedging the economic interest in the Company securities that they hold.

Edgar Filing: OLD NATIONAL BANCORP /IN/ - Form DEF 14A

We have a policy relating to our Company stock that prohibits Company personnel, including the Named Executive Officers, from engaging in any short-term, speculative securities transactions, including purchasing securities on margin, engaging in short sales, buying or selling put or call options, and trading in options (other than those granted by the Company).

We consider internal pay equity analyses when making compensation determinations with regard to the Named Executive Officers.

The Compensation Committee uses tally sheets that provide information as to all compensation that is potentially available to our Named Executive Officers.

Table of Contents

The Compensation Committee engages an independent compensation consultant that does not provide any services to management.

We have a strong risk management program, which includes our Compensation Committee's oversight of the ongoing evaluation of the relationship between our compensation programs and risk.

We encourage you to read this Compensation Discussion and Analysis for a detailed discussion and analysis of our executive compensation program, including information about the fiscal 2012 compensation of the Named Executive Officers.

Review of 2012 Advisory Vote on Executive Compensation

At our 2012 Annual Meeting, our shareholders had the opportunity to provide an advisory vote on the compensation paid to our Named Executive Officers, or a "say-on-pay" vote. Over 94% of the votes cast by our shareholders were in favor of the compensation provided to our Named Executive Officers. Accordingly, the Compensation Committee generally believes that such results affirmed shareholder support of our approach to executive compensation and did not believe it was necessary to, and therefore did not make, any significant changes to our executive officer compensation program or pay for performance philosophy solely in response to the vote. In addition, in recognition of the shareholders' majority preference expressed at the 2011 meeting, the Compensation Committee recommended and the Board approved an annual non-binding "say-on-pay" vote to occur at the meeting (see page 58), so that any shareholder concerns about executive pay can be acknowledged and considered in the timeliest manner. The Compensation Committee will continue to consider the results from this year and future advisory votes on executive compensation.

Responsibility for Executive Compensation Program

Subject to full Board approval, the Compensation Committee of our Board is responsible for establishing and implementing our general executive compensation philosophy and determining the compensation for all of our executive officers reporting directly to the Chief Executive Officer, including our Named Executive Officers. The Compensation Committee's charter permits the Compensation Committee to delegate authority to subcommittees. In 2012, the Compensation Committee made no delegation of its authority over compensation matters relating to our Named Executive Officers.

Compensation Philosophy and Objectives

Through our compensation program for executive officers, we strive to attract and retain superior executives in a highly competitive environment and provide financial incentives that align our executive officers' interests with those of our shareholders. The Compensation Committee believes that the primary components of each executive officer's compensation should be a competitive base salary and incentive compensation that rewards the achievement of annual and long-term objective performance goals. The Compensation Committee also believes stock ownership is important because it aligns our executives' interests with the interests of our shareholders. Thus, equity compensation represents a significant element of each executive officer's potential compensation.

The Company believes that it is important to maintain consistency in our compensation philosophy and objectives, although it is sometimes necessary to adjust certain programs as economic and business conditions change. Even though value creating performance by the executive officers of the Company does not always translate into an immediate appreciation in the Company's stock price or net income performance, the Board believes that executive management made substantial progress in 2012 in managing the Company, compared to other companies in the financial services industry. In 2012, full year net income increased 26% over 2011 net income, and the Company also experienced a significant improvement in net interest income increasing 13.2% over 2011. Net interest income is the most significant component of the Company's earnings, comprising over 61% of 2012 revenues. The improvement in net interest income was primarily driven by the Company

Table of Contents

completing several acquisitions in 2011 and 2012. The Board intends to continue to reward management performance with cash and equity compensation based on a philosophy and belief that the strong operating fundamentals in the Company will be reflected in earnings growth and eventual stock price appreciation. It is in this context that certain actions were taken by the Board to reward executive management for 2012 performance and to establish incentive goals for 2013.

Role of Executive Officers in Compensation Decisions

The Compensation Committee reviews, approves, and recommends to our full Board each element of compensation for each executive officer reporting directly to the Chief Executive Officer, including all Named Executive Officers. The Compensation Committee considers the recommendations of the Chief Executive Officer in determining the base salary, annual incentive compensation and long-term incentive awards for each of the executive officers of the Company other than the Chief Executive Officer, but ultimately the Committee makes all determinations in its discretion as to final pay outcomes. Together with the Compensation Committee, our Chief Executive Officer annually reviews the performance of each of our other executive officers, the compensation of each executive officer, including base salary, annual incentive compensation and long-term incentive awards and makes recommendations to the Compensation Committee regarding the compensation of those officers for the following year. The Compensation Committee Chairman annually reviews our Chief Executive Officer's compensation with representatives from Pearl Meyer & Partners (in conjunction with an annual performance review lead by the Company's non-executive Chairman) and makes recommendations to the Compensation Committee regarding the Chief Executive Officer's compensation for the following year. The Chief Executive Officer is not involved in the final determination regarding his own compensation, and all decisions with respect to the Chief Executive Officer's compensation are made in executive session of the Compensation Committee, without the Chief Executive Officer present.

Committee Procedures

In 2012, the Compensation Committee engaged Pearl Meyer & Partners (PM&P), a nationally recognized compensation consulting firm, to assist it in evaluating our executive compensation structure and expenses. During the year ending December 31, 2012, PM&P's services to the Company were limited to those provided to the Compensation Committee in connection with its decisions concerning executive compensation, and those provided to the Governance Committee in connection with its decisions concerning outside Director compensation. The Compensation Committee reviewed its relationship with PM&P and concluded that PM&P was independent and free of any conflicts of interest in regard to the advice it provided the Compensation and Governance Committees.

The following is a description of the services PM&P provided to the Compensation Committee as it established compensation for the Named Executive Officers and other members of management for 2012:

assessed the competitiveness of our compensation packages for executive officers;

analyzed our business performance over one-year and three-year periods; and

evaluated the relationship between executive officer pay and our performance.

In examining our business performance, PM&P focused on:

growth in fully-diluted earnings per share (EPS)

In evaluating the competitiveness of our compensation levels for Named Executive Officers and other members of management, PM&P gathers pay and performance data from a peer group of publicly-traded financial services companies that includes a broad representation of regional banks within the Company's region of operation and which are similar in asset size to the Company. PM&P selects the peer group with input from the Compensation Committee. The Compensation Committee considers the peer group data when evaluating the compensation for all of the Named Executive Officers. The composition of the peer group may be amended from year to year to take account of mergers, acquisitions, and other changes that make a company more or less appropriate for inclusion. The Compensation Committee has at times in the past removed companies from the peer group because the companies' asset sizes were deemed by the Compensation Committee to not be representative of the other companies in the group and in excess of the Company's asset size.

For 2012, PM&P recommended that Hancock Holding Company be removed from the peer group because its asset size became too large after the acquisition of Whitney Holding Corporation, which was also removed due to the acquisition. Fulton Financial Corporation and Renasant Corporation were added to the peer group for 2012 because their asset sizes were more representative of other companies within the group. Under SEC disclosure rules, companies generally limit executive compensation disclosure to their most highly compensated executive officers. To determine competitive pay for these positions, PM&P uses data from publicly-filed documents as well as data from its proprietary market surveys. For the remaining executives, PM&P uses data from its proprietary market surveys only. The market surveys include a broader range of companies and do not provide company-specific information. The survey data is used as a general reference and is one of a number of factors considered in determining where pay is actually set.

For 2012 compensation decisions, our publicly-traded peer group consisted of the following 32 companies which have asset sizes ranging from \$4 billion to \$20 billion, with a median asset size of \$8.5 billion:

1 st Source Corporation	First Merchants Corporation	Renasant Corporation
BancFirst Corporation	First Midwest Bancorp, Inc.	S&T Bancorp, Inc.
BancorpSouth, Inc.	FirstMerit Corporation	Susquehanna Bancshares, Inc
Bank of Hawaii Corporation	Fulton Financial Corporation	Sterling Bancshares
Chemical Financial Corporation	Glacier Bancorp, Inc.	Trustmark Corporation
Commerce Bancshares, Inc.	Heartland Financial USA, Inc.	UMB Financial Corporation
Cullen/Frost Bankers, Inc.	IBERIABANK Corporation	United Bankshares, Inc.
F.N.B. Corp.	MB Financial, Inc.	Valley National Bancorp
First Commonwealth Financial Corp.	Park National Corp.	WesBanco, Inc.
First Financial Bancorp	Pinnacle Financial Partners, Inc.	Wintrust Financial Corporation
First Interstate BancSystem, Inc.	Prosperity Bancshares, Inc.	

Other than excluding Sterling Bancshares which was acquired by a non-peer group company, PM&P has agreed that this peer group continued to be appropriate for the Company's pay and performance benchmarking for 2013.

In making its recommendation to the Compensation Committee regarding executive officer compensation, PM&P reviews the compensation practices and performance of the peer companies and discusses our performance and strategic objectives with our Chief Executive Officer, Chief Financial Officer, Chief Human Resources Officer and Chief Risk Officer. Before the beginning of each fiscal year, PM&P provides the Compensation Committee with a detailed written report regarding our executive compensation structure, its competitiveness relative to the peer group companies, and the alignment of our executive pay with the Company's performance.

In preparation for the evaluation of 2012 compensation and development of the written report, PM&P reviewed the business performance of the Company and the peer companies over one-year and three-year periods through the end of 2010, as well as projected results for 2011 and evaluated the alignment of pay and performance.

Table of Contents

In a report delivered to the Committee in January 2012, PM&P noted that Old National's 2010 business performance was just below the peer group median while 2011 third quarter year-to-date results were significantly above the median of the group. Using an unweighted average of the performance measures, 2010 business performance was at the 49th percentile and 2011 performance was at the 62nd percentile by the end of the third quarter as compared to peers. PM&P reviewed the same performance measures for the three year periods through 2010 and through the third quarter of 2011. Performance for the three-year period compared to peers was at the 32nd percentile and the 37th percentile, respectively.

As part of its written report, PM&P reported that the Company's targeted compensation levels were slightly below the relevant market benchmarks, primarily due to low salaries for certain executives. Incentive opportunities (both annual and long-term) were below the market due to the fact there was a small (50% of target) annual incentive payout for 2011 to the Named Executive Officers, including the CEO. PM&P noted that actual base compensation levels approximated median market values. Actual total cash compensation was well below the market median at 73% of the market 50th percentile, and long-term incentives (based on expected values of awards when granted) were well below the market median at 74% of the market 50th percentile. Total direct compensation was also well below the median at 73% of the market 50th percentile.

PM&P's review evaluates overall compensation as well as each significant component of compensation. It evaluates whether the compensation structure continues to provide the appropriate incentives and alignment of executive officers' interests with those of our shareholders. PM&P meets with the Compensation Committee to discuss its written report, answer questions, and discuss issues that require further study.

The Compensation Committee considers the information provided by PM&P, including compensation reports and PM&P's recommended best practices as a baseline for establishing targeted total compensation, principal compensation components, and determining the allocation of total potential compensation components for each Named Executive Officer and other executives in the Company. In general, we seek to establish total compensation, base salaries, annual incentive compensation, and long-term equity incentive compensation for each position at or near the median for the peer group, if targeted performance is achieved and at or near the 75% percentile of the peer group, if exceptional performance is achieved. The Compensation Committee also seeks to allocate potential total compensation among base salary, annual incentive compensation, and longer-term incentive compensation in proportions that reflect peer group averages.

Executive Compensation for 2012

Components of Compensation. In establishing the 2012 compensation for our executive officers, the Compensation Committee:

- analyzed the compensation levels of comparable executive officers in the peer group;
- determined a mix of base salary and cash incentive opportunity, along with an equity position to align our executive officers' compensation with our performance and leadership accomplishments;
- assessed our executive officers' performance; and
- assessed our financial and business results relative to other companies within the banking industry as well as to our own past performance and financial goals.

The principal components of each executive officer's compensation used by the Compensation Committee to reward, align and retain our named executives are:

- base salary;
- annual incentive compensation; and
- long-term equity incentive compensation.

In general, we strive to target the percentage that each of these components bears to the total compensation for our executive officer group as a whole, assuming the achievement of targeted performance, to approximately the corresponding percentages for the peer group.

Table of Contents

In structuring our long-term incentive awards to our CEO and the other Named Executive Officers, we emphasize the use of performance-based equity awards. For 2012, performance-based equity awards represented a significantly greater percentage of our executives' long-term incentive compensation than was the case for our peer group as a whole. According to PM&P's report, the following chart represents each element of compensation and the corresponding percentage of total compensation represented by each element for our peer group for the Named Executive Officers' compensation for 2012:

The Company's allocation for 2012 for the Chief Executive Officer and the other Named Executive Officers was:

The actual mix of these components for each individual executive officer varies, depending on our evaluation of the executive officer's responsibilities, the percentage of the executive officer's compensation that should be at risk, and the reasonable potential compensation in light of that risk. Additionally, the pay mix data set forth in the above chart for the Named Executive Officers other than the Chief Executive Officer is represented in the aggregate as each Named Executive Officer does not have the same pay mix.

Table of Contents

The only elements of our executive officers' compensation that we pay in cash are base salary and annual incentive compensation. For 2012, we paid the following cash compensation to our Named Executive Officers:

Names	Year	Base Salary (\$)	Annual Incentive Compensation(1)	Total Cash Compensation

(1) The Annual Incentive Compensation was earned in 2012 but paid on March 1, 2013.

Base Salary. Base salary is the only component of compensation that is not subject to the achievement of performance or vesting criteria. Base salary is designed to provide a fixed level of cash compensation for performing the responsibilities associated with an executive's position. We establish base salary ranges for each position based on the ranges for similar positions at other peer group companies. In general, we target base salary ranges near the median for the peer group. We review base salaries annually and we adjust them in April of each year to take into account such factors as market changes, changes in duties, individual performance, and experience.

In assessing Mr. Jones' performance for 2012 compensation decisions, the Compensation Committee considered the role Mr. Jones played in selecting and leading the management team in its 2011 strategic, operational, and financial performance. The Compensation Committee determined that Mr. Jones' leadership skills both within the Company and as a leader in the banking industry were significant contributors to the Company's success during the year. However, Mr. Jones proposed, and the Compensation Committee agreed, that he would not receive a salary increase for 2012.

In assessing the performance of the other Named Executive Officers, Mr. Jones subjectively evaluated their contributions to the strategic, operational and financial performance of the Company in 2011. Each of the Named Executive Officers, including Mr. Moore, met or exceeded

Mr. Jones' subjective performance expectations in 2011 and based on his recommendations, the Compensation Committee increased the base salary of each of the Named Executive Officers whose salaries were below the target percentile in the range of comparable positions in the Company's peer group. Mr. Moore declined a salary increase due to the fact his salary was already within the targeted range for comparable positions within the Company's peer group.

Annual Incentive Compensation. Our practice is to award cash incentive awards based on our achievement of pre-established objective performance goals. The objective of awarding annual incentive compensation is to reward short-term financial and operational performance. The Amended and Restated 2008

Table of Contents

Incentive Compensation Plan, which includes the Short Term Incentive Compensation Plan or STIP, and which was approved by shareholders in 2012, is intended to be our primary vehicle for awarding such incentives. The STIP does not preclude us from making discretionary bonus payments or special awards to STIP participants outside of the STIP.

The amount of cash incentive payments under the STIP is based entirely on the achievement of the established performance goals. These payout levels are determined by the Compensation Committee after reviewing peer and survey data provided by PM&P. The percentage payout levels are consistent with the payout levels paid to similarly situated executives within the Company's peer group.

The Compensation Committee agreed with management's recommendation to reinstate the STIP for 2012 since the banking and general economic environment were normalizing. The 2012 STIP contains targeted annual incentives and provides an opportunity for participants, including the Named Executive Officers, to earn between 50% and 200% of their target opportunities provided certain performance thresholds are met. The Compensation Committee believes having a payout range helps to ensure pay for performance, and paying at 50% for threshold performance increases the competitiveness of the plan and aligns it with market. No payouts will be made for performance below minimum required performance. If 80% of the targeted profitability measure is achieved, an incentive payout equal to 50% of targeted incentive level for each of the Named Executive Officers will be paid. If the targeted profitability measure is achieved, each of the Named Executive Officers will receive a 100% of the target incentive payout.

In practice, the Compensation Committee makes recommendations that the Board then approves or adjusts. The performance measures, as well as the weighting given to the measures, for the 2012 STIP for Messrs. Jones, Wolking and Knight included the following:

Corporate Net Income 70% weighting

Net Charge-off Ratio 15% weighting

Efficiency Ratio 15% weighting

The performance measures for Ms. Murphy and Mr. Moore included:

Corporate Net Income 20% weighting

Banking Budgeted Margin 50% weighting

Net Charge-off Ratio 15% weighting

Efficiency Ratio 15% weighting

The Compensation Committee chose the performance measures of corporate net income and banking budgeted margin because it believes those performance measures properly focus executive management on continuing to drive improvements in the financial results of the Company. The Compensation Committee chose to structure an aggregate of 30% of the performance measures in the net charge-off ratio and the efficiency ratio categories in order to ensure executive management is focused on continuing to improve the Company's credit quality and to ensure executive management focuses on managing expenses within the Company.

The Compensation Committee established the potential payouts to each Named Executive Officer by reference to the target incentive payouts that it had used in prior years under the STIP. Under that plan, the target incentive payout for the Chief Executive Officer historically has been 75% of base salary. The target incentive payout for the Chief Financial Officer and Chief Banking Officer historically has been 45% of base salary, and the target incentive payout for the other Named Executive Officers historically has been 40% of base salary. The maximum payout under the STIP is 200% of the target incentive payout.

Percentage amounts under the caption Performance Factor in the tables above reflect the overall percentage of annual incentive compensation earned with respect to each metric after giving effect to the weighting factor applied to the metric and the performance level achieved for that metric. The Total Performance Earned is the sum of the Performance Factors for all metrics. The results for 2012 in the tables above also exclude the financial impact for the acquisition of Indiana Community Bancorp which closed on September 15, 2012.

Long-Term Incentive Compensation. We believe that stock ownership by our executive officers is an important tool for aligning their interests with those of our shareholders over the long-term. Therefore, our long-term incentive compensation consists entirely of equity compensation awards. The Amended and Restated 2008 Incentive Compensation Plan, which was approved by shareholders in 2012, is our primary vehicle for

providing equity compensation.

In 2012, the award mix for the Chief Executive Officer under the Amended and Restated 2008 Incentive Compensation Plan consisted of 100% performance-based restricted stock units.

The awards for the Named Executive Officers (other than the Chief Executive Officer) under the Amended and Restated 2008 Incentive Compensation Plan consisted of a combination of:

75% performance-based restricted stock units; and
25% service-based restricted stock.

Table of Contents

Each of these forms of award encourages executives to use their best efforts to increase the value of our stock, since the value of the awards increases with the value of our stock. In addition, because an executive officer's right to an award generally vests over time, such awards provide a valuable retention tool.

Our practice is to determine the dollar amount of equity compensation that we want to provide, based on consultation with the compensation consultant who advises the Compensation Committee concerning current market practices. In general, we seek to pay equity incentive compensation that approximates the median for our peer group, if targeted performance is achieved and the 75th percentile for our peer group, if maximum performance is achieved. In recommending equity compensation awards for an executive, the Compensation Committee considers previously granted but non-vested awards, but it does not generally consider equity ownership or previously vested awards. The Compensation Committee typically makes recommendations regarding equity compensation awards at its first meeting in January, depending upon the availability of the financial results for the preceding year. Typically, these awards are then approved or adjusted by the Board at its next meeting. We make the awards as early as practicable in the year and communicate them to executive officers so that the incentives will be known as early as practicable, thereby maximizing their potential impact. We make equity awards after financial data for the preceding year is available, because this information enables us to refine our expectations for the current year. The proximity of any awards to earnings announcements or other market events is coincidental. Under special circumstances, such as the employment of a new executive or substantial promotion of an existing executive, the Compensation Committee may award equity compensation at other times during the year. The Compensation Committee did not make any special grants of equity incentive compensation to any Named Executive Officer in 2012.

On January 26, 2012, we granted performance-based restricted stock units and service-based restricted stock to the Named Executive Officers (with the exception of the Chief Executive Officer who only received performance-based restricted stock units) pursuant to our Amended and Restated 2008 Incentive Compensation Plan. These awards are reflected on the Table on page 46 entitled "Grants of Plan-Based Awards During 2012." The Compensation Committee and Board, in order to align the Chief Executive Officer's incentive compensation directly with shareholder interests and to place 100% of his equity compensation at risk, determined that his equity compensation should consist of performance-based restricted stock units with no service-based component.

The allocations of equity awards granted by the Company included significantly more performance equity awards when compared to the Company's peers as reported on the charts on pages 47 and 48. The Compensation Committee awarded the right to earn shares to the Named Executive Officers and certain other executives based on the performance of the Company in 2011. The awards differed for each of the Named Executive Officers and they were determined by the Compensation Committee, according to each officer's salary level and based on competitive survey data provided by PM&P. The awards were not based on individual performance.

Performance-Based Restricted Stock Units. The Compensation Committee continued the use of restricted stock units in 2012 because the use of restricted stock units simplifies the administration of the performance awards, as shares are not actually granted until the end of the performance period and dividends are not paid on the units until the units vest into earned shares. In general, our executive officers will not earn performance-based restricted stock units unless we meet pre-established objective performance criteria for the performance period, and the executive officer remains employed throughout the required service period.

The CEO only receives performance-based restricted stock unit awards. In 2012, the CEO's performance-based restricted stock unit awards were allocated as follows:

25% of the award was based on the internal measure of earnings per share measured over a three-year performance period ending December 31, 2014;

75% of the award was based on an external measure of total shareholder return measured over a three-year performance period ending December 31, 2014.

The Committee allocated 75% of the award based on a measure of total shareholder return to ensure the CEO's interests were closely aligned with shareholders. With respect to allocating 25% of the award based on the internal measure of EPS, the Committee took note of the fact that even though the economic environment was

Table of Contents

improving and earnings growth was a high priority, it continued to be a challenge for management to forecast growth for earnings per share over a three-year period with any degree of certainty, given the difficulty in the general economy and the financial services industry in particular.

In 2012, the Named Executive Officers (except for the CEO) received 75% of their equity award in the form of performance-based restricted stock unit awards and 25% of their equity award in service-based restricted stock. With respect to the performance-based restricted stock unit awards for the officers, the 2012 award was allocated as follows:

33 $\frac{1}{3}$ % of the restricted stock unit award was based on internal measure of earnings per share measured over a three-year performance period ending December 31, 2014;

66 $\frac{2}{3}$ % of the restricted stock unit award was based on an external measure of total shareholder return measured over a three-year performance period ending December 31, 2014;

The above allocation was selected for the other Named Executive Officers at the recommendation of PM&P. The percentage allocation was not the same as that of the CEO because the other Named Executive Officers received 25% of their total equity award in the form of service-based restricted stock. The Committee determined to weight 66 $\frac{2}{3}$ % of the performance-based restricted stock unit award to the internal measure of total shareholder return to ensure their interests were closely aligned with the interests of shareholders.

The Named Executive Officers must be employed by the Company through the distribution date, which would be after December 31, 2014 and before March 31, 2015, in order to be entitled to receive a distribution of any earned 2012 internal or external measure awards.

For each restricted stock unit award, we have established minimum, target and maximum performance levels. The performance level will determine the percentage of shares for which restrictions will lapse. If target is achieved, restrictions will lapse on all of the shares awarded. If maximum performance is achieved, the number of shares awarded will double.

The financial performance measurement factor for the internal measure award is the earnings per share Compounded Annual Growth Rate (or CAGR) measured against internal goals over a three-year performance period. This measure was chosen because the Committee believes that earnings growth is a high priority and that sustained growth in earnings will result in the creation of value for shareholders. For a minimum (25%) payout to occur under the earnings per share internal measure award, 4% growth must occur over the three-year performance period. For targeted (100%) payout to occur, earnings per share must grow 6% over the three-year performance period, and for maximum (200%) payout to occur, earnings per share must grow by 10% over the three-year measurement period.

Total shareholder return is our only external relative measure for determining performance-based units earned. For purposes of the 2012 award, we define total shareholder return which is measured against the peer group for the three-year measurement period as the three-month average stock price for the period ending December 31, 2011 compared to the three-month average stock price for the period ending December 31, 2014 for the Company and the Peer Group. The three-month average stock price will be determined by averaging the closing stock price of each trading day during the three months ending on the applicable December 31, including adjustments for cash and stock dividends. This measure was chosen because the Committee believes it is the best means of linking executive compensation to shareholder value creation over time.

Shares received from any earned performance-based restricted stock units must be held until the stock ownership guidelines are met. Dividends earned on vested shares accumulate during the performance period, are paid in stock after the end of the performance period and are subject to the holding requirement.

If an executive officer's employment is terminated on account of death, the target performance criteria will be deemed satisfied, and restrictions on the shares will lapse. If the executive officer terminates employment on account of disability or retirement, the executive officer will be treated the same as if he or she had continued.

Table of Contents

employment. If there is a change in control, then performance-based restricted stock awarded to the Named Executive Officers will vest upon the closing date on a pro-rated basis as determined by the performance of the Company on the closing date.

Service-Based Restricted Stock. We grant service-based restricted stock for two reasons: it creates ownership, which aligns the executive's interests with those of other shareholders, and it contributes to the retention of key employees, whose future service is deemed essential to the ongoing success of the Company. However, because service-based restricted stock is not contingent on our business performance, the value of the service-based restricted stock award is substantially less than the value of the performance-based portion of the award. In general, with the exception of dividends, an executive officer will not realize value for service-based restricted stock, unless he or she remains employed during the required service period. If an executive officer terminates employment on account of death, or terminates without cause or good reason following a change in control of the Company, restrictions on the stock will lapse. If the executive officer terminates employment on account of disability or retirement, he or she will be treated the same as if he or she had continued employment. The service-based restricted stock granted in 2012 will vest in three approximately equal annual installments over a three-year period ending on February 1, 2015. We pay cash dividends on service-based restricted stock to our executive officers during the restricted period. The service-based restricted stock must be held by the Named Executive Officer until the stock ownership guidelines are met even if the restrictions have lapsed.

In 2012, the Compensation Committee granted service-based restricted stock to NEOs other than the Chief Executive Officer in order to align the Company with Peer Group practices and to ensure the retention of key executive officers in the Company. Twenty-five percent of the total equity award for the Named Executive Officers other than the CEO was in the form of service-based stock in 2012. As noted previously, the CEO's long-term incentive awards are entirely performance-based and do not include any service-based restricted stock.

Retirement Plans. Until December 31, 2005, we maintained a traditional qualified defined benefit pension plan, known as the Old National Bancorp Employees Retirement Plan (Retirement Plan). We froze the Retirement Plan as of December 31, 2001, except for employees who were at least age 50 or who had 20 years of credited service as of December 31, 2001. As of December 31, 2005, we froze the Retirement Plan for all remaining employees. We also maintained a nonqualified retirement plan to replace any reduction in benefits under the Retirement Plan due to limitations on benefits under the Internal Revenue Code (Supplemental Plan). We also froze the Supplemental Plan as of December 31, 2005. No executive officer will earn further benefits under the Retirement Plan or the Supplemental Plan after 2005, although benefits as of December 31, 2005, are preserved.

We continue to maintain a tax-qualified defined contribution plan, known as the Old National Bancorp Employee Stock Ownership and Savings Plan (Savings Plan), for eligible employees. The Savings Plan allows employees to make pre-tax 401(k) contributions. Subject to the conditions and limitations of the Plan, an employee will be eligible to become a participant of the plan on the first day of the month after completing one month of service. All active participants will be eligible to receive a match of fifty cents on the dollar up to the first 6% of eligible compensation that is contributed to the plan. We may also make profit sharing contributions, in our discretion. To receive profit sharing contributions for a year, an employee must have (i) completed at least 1,000 hours of service during the year and (ii) been employed on the last day of the year or retired on or after age 65, died, or became disabled during the year.

We also maintain a nonqualified deferred compensation plan, known as the Executive Deferred Compensation Plan, for a select group of management employees designated by the Compensation Committee, including our executive officers. All executive officers are eligible to participate in the plan. An executive officer may elect to defer up to 25% of his or her regular compensation, and up to 75% of his or her annual bonus under the STIP, in which case the deferral amount will be credited to his or her plan account. The Executive Deferred Compensation Plan applies the same matching formula that is used for the Savings Plan. We provide matching contribution credits under the plan, reduced by any matching contributions under the Savings Plan. In addition, we may provide discretionary contribution credits to make up for any reduction in discretionary profit sharing contributions under the Savings Plan due to Internal Revenue Code contribution limits applicable to tax-qualified retirement plans. We did not provide discretionary credits for 2012.

Table of Contents

We credit an executive officer's plan account with earnings based on the hypothetical earnings of an investment fund consisting of Company stock, the return on a recognized market index selected by the Compensation Committee, or a combination of the two, as elected by the executive officer. For the market index fund, we use a Bloomberg index, which approximates the risk and return associated with a diversified high quality corporate bond fund. The earnings credit under the Executive Deferred Compensation Plan could be in excess of earnings that would have been credited using the applicable federal long-term rate. Any excess earnings are reported in column (h) of the Summary Compensation Table on page 44.

All amounts paid under the nonqualified deferred compensation plan are paid from our general assets and are subject to the claims of our creditors. Except in the case of financial emergency, an executive officer's benefits under the plan may not be distributed until after termination of employment. In general, an executive officer may elect to receive his plan benefits in a lump sum or in annual installments over two to ten years.

Employment Arrangements We have entered into employment agreements with each of the Named Executive Officers with the exception of Jeffrey L. Knight, who has an Amended Severance and Change of Control Agreement (referred to collectively as employment agreement(s) or agreements). The employment agreements were amended effective January 1, 2011 to provide for:

No Gross-up on Severance Benefits The Company has adopted a best after-tax provision whereby the executive receives the full 280G payment and has the responsibility for any excise tax, or the payment is reduced to the safe harbor amount, whichever will put the executive in the best after-tax position with the most compensation and income.

No Gross-up on Perquisites There will be a continuation of benefit coverage to be provided by the Company for the requisite number of months. However, any tax resulting from these payments will be the executive's responsibility.

No Walk Away Provision The Company has eliminated the ability of the executive to voluntarily terminate his or her employment within 12 months of a Change in Control without good reason. The executive will continue to have the right to terminate employment within 24 months of a Change in Control with good reason and receive severance and other benefits.

Acceleration of Equity Awards All grants of performance-based restricted stock and restricted stock units will vest upon the closing of a Change in Control on a pro-rated basis as determined by the performance of the Company on the closing date as specified by the agreement. Grants of stock options and service-based awards will vest immediately upon an involuntary or good reason termination of the executive following a Change in Control. Otherwise, the shares will vest according to their original terms and conditions.

The changes to these agreements were adopted after reviewing prevailing market and developing executive compensation best practices. Under each of their respective employment and severance agreements, the Named Executive Officers are entitled to a base salary, incentive compensation (both cash and equity) and other employee benefits as determined by the Board. Based on information provided by the Compensation Committee's compensation consultant, the Committee determined that the benefits, including the various multiples of components of compensation, were within the market range for such payouts and benefits. The Committee regularly reviews the Company's employment and severance agreement arrangements and uses peer data to determine whether these arrangements are consistent with prevailing market practices.

Pursuant to the employment agreements, we are generally obligated to pay certain non-change of control severance benefits to the Named Executive Officer, if we terminate his or her employment without cause, or the executive resigns within 90 days after we have taken certain actions that adversely affect him or her. A Named Executive Officer must satisfy the terms of the agreement, including its non-solicitation and non-compete provisions, to receive his or her severance benefits.

Table of Contents

The employment agreements also provide for change of control severance benefits for each Named Executive Officer. The Company is required to pay change of control severance benefits if, within two years following a change of control (as defined in the agreements), we terminate the Named Executive Officer's employment for a reason other than Cause or the Named Executive Officer's disability, or if the executive resigns within two years after a change of control after we have taken certain actions detrimental to the Named Executive Officer.

The Compensation Committee believes that the employment agreements, which include change of control severance benefits, assure the fair treatment of the Named Executive Officers in relation to their professional careers with the Company by assuring them of some financial security in the event of a change of control. The change of control provision also protects the shareholders of the Company by encouraging the Named Executive Officers to continue to devote their full attention to the Company without being distracted by the need to seek other employment following the change of control. The Compensation Committee established the change of control payouts to each of the Named Executive Officers after reviewing peer data and consulting with the Compensation Committee consultant.

In the Committee's view, severance benefits, including in the event of a change-in-control, are contingent and operate as a form of insurance rather than a principal component of compensation strategy. In that regard, the Committee does not reduce or otherwise modify compensation elements on the basis of eligibility for severance benefits. The Potential Payments on Termination or Change-in-Control tables on pages 53 through 57 and the discussion of the employment agreements beginning on page 50 set forth the estimated values and details of the termination benefits under various scenarios for each of the Named Executive Officers.

Perquisites and Other Compensation. Detailed information regarding other compensation is provided in notes 5 and 6 to the Summary Compensation Table on page 45. In general, we believe that perquisites should not constitute a consequential portion of any executive officer's compensation. The Company makes available to the Named Executive Officers financial counseling services to assist them in obtaining financial planning advice. This benefit is provided to the executives but the executives pay tax on the benefit.

No executive received perquisites in excess of \$10,000 in 2012. Moreover, certain of the perquisites provided to executive officers also provide a benefit to us. For example, executive physicals, which we require annually for the CEO and every other year for the other Named Executive Officers, help us to assure that our executive officers do not postpone addressing health issues that could result in great cost to us in lost productivity and covered treatment costs.

Stock Ownership Guidelines. In 2010, the Compensation Committee and Board amended the previously established stock ownership guidelines for the Company's executive officers, including the Named Executive Officers, to make the guidelines more consistent with market practices, and to ensure executives retain a specified percentage of stock of the Company until the target ownership level is achieved and to reduce the risk that stock price volatility could impact the achievement of the target ownership requirement. Under the guidelines, the Named Executive Officers are required to hold shares of our stock with a value which is the lesser of the following:

Position or Salary	Target Ownership Guideline
Chief Executive Officer	5x salary in stock or 200,000 shares
Chief Operating Officer	4x salary in stock or 100,000 shares
Salary equal to or greater than \$250,000	3x salary in stock or 50,000 shares
Salary below \$250,000	2x salary in stock or 25,000 shares
Salary equal to or less than \$150,000	1x salary in stock or 15,000 shares

As of December 31, 2012, each of the Named Executive Officers has met the stock ownership guideline requirement for ownership.

Table of Contents

For purposes of the guidelines, vested in-the-money options, unearned performance-based restricted stock units, unvested service-based restricted stock and phantom shares in the Nonqualified Deferred Compensation Plan are taken into account. The Named Executive Officers have a significant number of outstanding stock options that are not currently exercisable and based on results to date, it is possible that not all of the performance-contingent awards will be earned.

Changes in Executive Compensation in 2013

In January 2013, based on results of a review by executive management of the compensation program, the Compensation Committee approved certain changes to the program which will be effective in 2013. In this review, the Compensation Committee considered the balance between short and long-term incentives, cash versus stock, revenue and risk metrics and absolute and relative performance measures and considered the time horizon of payments versus risks.

The Compensation Committee and Board first recognized the significant improvement in financial results in 2012 over 2011, compared to peers. Performance of the Company for the three-year period through 2011 and through the third quarter of 2012, compared to peers, was at the 72nd percentile and the 68th percentile, respectively.

In 2013, the Compensation Committee agreed with management's recommendation to continue the approach toward long-term equity incentive awards adopted in 2012.

The Chief Executive Officer's long-term equity award in 2013 consists solely of performance-based restricted stock units. The purpose of awarding 100% of the Chief Executive Officer's stock award in performance-based restricted stock units is to ensure his interests are totally aligned with the interests of shareholders. Twenty-five percent of the CEO's award will be based on earnings per share growth and 75% will be based on total shareholder return relative to peers, both measured over a three-year performance period.

In 2013, our long-term equity awards for the Named Executive Officers (other than the Chief Executive Officer) will be allocated as follows:

25% performance-based restricted stock units (internal measure of earnings per share),

50% performance-based restricted stock units (external measure of total shareholder return); and

25% service-based restricted stock.

The performance measure for the internal measure (25% of the total award) will be the Company's compounded annual growth rate in earnings per share measured against internal goals over a three-year performance period. The performance measure for the external measure (50% of the total award) will be total shareholder return compared to peers over a three-year performance period.

The Chief Executive Officer proposed, and the Compensation Committee and Board agreed, to not increase his salary for 2013, despite the significantly improved financial performance of the Company in 2012. The other Named Executive Officers, including Mr. Moore, exceeded Mr. Jones' performance expectations for 2012, and based on his recommendations, the Compensation Committee increased the base salary of each of the Named Executive Officers, with the exception of Mr. Moore, who declined a salary increase due to the fact his salary was already within the targeted range for comparable positions with the Company's peer group.

Management recommended, and the Compensation Committee and Board agreed, to make certain best practice changes to both the equity and cash incentive plans of the Company for 2013 in order to reflect their view of emerging best practices. Specifically, the Compensation Committee approved a reduction of the maximum payout of the plans to 150% of the target value from the previous maximum payout percentage of 200% of the target value. Management recommended, and the Compensation Committee and Board agreed, to change the measurement period for the efficiency ratio performance measurement for the Company's STIP from

Table of Contents

a full-year measure to a fourth-quarter measurement only. The reason the Committee changed the measurement period to a fourth-quarter measurement only was to maintain management's focus on expense reduction and revenue growth with incremental, expected improvements each quarter during the year. In addition, the Compensation Committee and Board made changes to the performance-based restricted stock internal measure (earnings per share) award to exclude the impact of any merger and integration charges associated with transactions completed during the third year of the performance period. The reason for this change is to ensure that management continues to focus on creating shareholder value through pursuing a successful acquisition strategy.

In addition to the changes summarized above, the Company is maintaining its existing compensation practices that represent strong corporate governance including the following:

An independent compensation consultant and independent counsel who report directly to the Compensation Committee and provide no services to the Company other than those relating to the Compensation and Governance Committee's decisions concerning executive and outside Director compensation;

Significant stock ownership guidelines that align executives' interests with those of our shareholders;

A clawback policy that permits the Board to recover bonuses from senior executives whose fraud or misconduct resulted in a significant restatement of financial results;

An annual risk assessment of the Company's pay practices;

Compensation policies and practices designed to discourage excessive risk-taking, including the assessment of performance across multiple dimensions and metrics, the use of multi-year performance periods and, as discussed above, the adoption of stock ownership guidelines and a clawback policy; and

An annual shareholder advisory vote on executive compensation.

(1) Base salary increases for Named Executive Officers are effective in the first pay of April during the calendar year.

(2) Stock awards included in Column (e) consist entirely of service-based restricted stock and performance-based restricted stock units granted under our Amended and Restated 2008 Incentive Plan. The grant date value of the awards is as determined under FASB ASC Topic 718. For performance-based restricted stock units, the grant date value is based on the number of units that would be earned at target levels of performance. The value of the award assuming that the highest level of performance conditions are achieved for the 2010, 2011 and 2012 awards would be: Robert Jones (\$642,798, \$1,011,150 and \$1,302,950);

Edgar Filing: OLD NATIONAL BANCORP /IN/ - Form DEF 14A

Christopher Wolking (\$284,775, \$321,390 and \$371,070); Barbara Murphy (\$284,755, \$321,390 and \$371,070); Daryl Moore (\$174,662, \$178,550 and \$206,150); and Jeffrey Knight (\$216,429, \$178,550 and \$206,150). For the number of shares of service-based and performance-based restricted stock units awarded in 2012, see the Grants of Plan-Based Awards Table.

(3) These amounts represent incentives that were earned under the Company's STIP. 2012 incentive amounts are for 2012 performance, but were not approved or paid until 2013.

(4) This amount is the increase of the actuarial present value of the executive's benefit under our frozen defined benefit plans, plus the amount of the executive's earnings credit under our Executive Deferred Compensation Plan in excess of the earnings that would have been credited using the applicable federal long-term rate, with compounding (as described by Section 1274(d) of the Internal Revenue Code). The 2012 Change in Pension Values and Non-Qualified Deferred Compensation excess earnings were: Robert Jones (\$0 and \$4,454); Christopher Wolking (\$8,628 and \$3,572); Barbara Murphy (\$0 and \$563); Daryl Moore (\$195,604 and \$16,271); and Jeffrey Knight (\$20,530 and \$152).

The 2011 Change in Pension Values and Non-Qualified Deferred Compensation excess earnings were: Robert Jones (\$0 and -\$7,506); Christopher Wolking (\$7,299 and \$678); Barbara Murphy (\$0 and \$352); Daryl Moore (\$132,212 and \$11,810); and Jeffrey Knight (\$17,363 and \$98).

The 2010 Change in Pension Values and Non-Qualified Deferred Compensation excess earnings were: Robert Jones (\$0 and -\$14,623); Christopher Wolking (\$2,215 and \$99); Barbara Murphy (\$0 and \$288); Daryl Moore (\$53,283 and \$11,397); and Jeffrey Knight (\$5,590 and \$94).

(1) All non-equity incentive plan awards are made pursuant to our Amended and Restated 2008 Incentive Plan.

(2) The shares in Columns (f), (g), and (h) are performance-based restricted stock units granted under our Amended and Restated 2008 Incentive Compensation Plan. The performance period for 100% of the performance-based awards is the three-year period ending December 31, 2014. The restriction period for 100% of the performance-based grant ends on March 15, 2015. For the CEO the financial factor used for 25% of the award is earnings per share growth. For the remaining 75% of the award, the financial factor used is total shareholder return as compared to the company's peer group. For all other executives, the financial factor used for one-third of the award is earnings per share growth. For the remaining two-thirds, the financial factor used is total shareholder return as compared to the company's peer group. Dividends accumulate on earned shares and are paid in the form of shares.

(3) The shares in Column (i) are service-based restricted shares granted under our Amended and Restated 2008 Incentive Compensation Plan that vest in three substantially equal installments on February 1 of 2013, 2014 and 2015. Vesting is contingent upon the Executive Officers remaining employed during the required service period. Executive Officers are entitled to dividends during the vesting period on the number of outstanding shares.

(4) No stock options were granted in 2012.

(5) The fair market value of the service-based restricted stock and performance-based restricted stock units reported in Column (l) is the grant date value of the awards as determined under FASB ASC Topic 718.

(1B) This award consists entirely of performance-based restricted stock units granted in 2011 with a one-year performance period and a subsequent two-year service requirement. The number of units earned due to achievement of the performance goals were 182% of target. The units remain subject to the service-based requirement as of December 31, 2012. The executive officer's interest in the units will vest on the distribution date which will be after December 31, 2013 and before March 31, 2014.

(1C) Service-based restricted shares granted in 2010 that will become vested on February 1, 2013.

(1D) Service-based restricted shares granted in 2011 that will become vested in two substantially equal installments on February 1 of 2013 and 2014.

(1E) Service-based restricted shares granted in 2012 that will become vested in three substantially equal installments on February 1 of 2013, 2014 and 2015.

(2) This award represents performance-based restricted stock units granted in 2010. The number of units assumes that target performance has been achieved. The executive officers' interest in any earned shares will vest on the distribution date which will be after December 31, 2012 and before March 31, 2013.

Edgar Filing: OLD NATIONAL BANCORP /IN/ - Form DEF 14A

(3) This award represents performance-based restricted stock units granted in 2011. The number of units assumes that maximum performance has been achieved. The executive officers' interest in the shares will vest on the distribution date which will be after December 31, 2013 and before March 31, 2014.

(4) This award represents performance-based restricted stock units granted in 2012. The number of units assumes that target performance has been achieved. The executive officers' interest in the shares will vest on the distribution date which will be after December 31, 2014 and before March 15, 2015.

(1) Benefits under both the Retirement Plan and the Supplemental Plan were frozen, effective December 31, 2005. The Retirement Plan is a tax-qualified defined benefit plan, and the Supplemental Plan is a defined benefit nonqualified deferred compensation plan established to make up for benefit reductions under the Retirement Plan on account of Internal Revenue Code benefit limitations.

(2) The calculation of present value of accumulated benefit assumes a discount rate of 4% until age 65. It further assumes that the executive officer will receive the present value of his or her retirement benefit at age 65 in the form of a lump sum payment, calculated using 2013 IRS Prescribed Mortality-Static Annuitant/Non-annuitant, male and female. 100% of active participants are assumed to receive benefits as a single lump sum payment immediately for retirement and withdrawal benefits. The assumed lump sum basis is 4% interest and 2013 IRS Lump Sum

Mortality.

(3) Under the Old National Bancorp Employees Retirement Plan participants are eligible for early retirement benefits when they reach 55 years of age with 5 years of service. The plan defines normal retirement as the first day of the month coincident with or immediately following a participant's 65th birthday. The formula for calculating early retirement benefits considers the number of years prior to a participant's normal retirement date and applies a payment reduction that gradually tapers off the closer an individual gets to achieving normal retirement. As of December 31, 2012, Daryl Moore is eligible for early retirement benefits under Old National Bancorp Employees Retirement Plan at a reduced rate of 48.61% of his accrued benefit.

Potential Payments on Termination or Change in Control.

Employment Agreements. We have entered into employment agreements with each Named Executive Officer with the exception of Jeffrey L. Knight, who has entered into an Amended Severance and Change of Control Agreement (collectively referred to as employment agreement(s) or agreements). The amended agreements effective January 1, 2011, are summarized below. The summary is qualified in its entirety by reference to the agreements themselves, copies of which are available from the Company itself or from the Company's public filings with the SEC.

The initial term of the employment agreements entered into with the Chief Executive Officer, Chief Financial Officer and Chief Banking Officer ended on December 31, 2010. The agreements contain automatic one-year extensions, unless the Named Executive Officer or the Company provides 60 days' notice before the end of the year of intent not to renew the agreement. The initial terms of the agreements for Messrs. Moore and Knight expired on December 31, 2009, but were automatically renewed pursuant to the automatic one-year extensions set forth in the agreements. Messrs. Moore and Knight or the Company must provide 60 days' notice before the end of the renewal term of intent not to renew the agreement.

Under each of their respective employment agreements, the Named Executive Officers are entitled to a base salary, incentive compensation (both cash and equity) and other employee benefits as determined by the Board. Based on information provided by the Compensation Committee's compensation consultant, the

Committee determined that the benefits, including the various multiples of components of compensation, were within the market range for such payouts and benefits. The Committee regularly reviews the Company's employment and severance agreement arrangements and uses peer data to determine whether these arrangements are consistent with prevailing market practices.

Pursuant to the employment agreements, we are generally obligated to pay certain non-change of control severance benefits to the Named Executive Officer if we terminate his or her employment without cause, or the executive resigns within 90 days after we have taken certain actions that adversely affect him or her. The agreements also obligate the Company to pay certain severance benefits if there is a change of control of the Company as defined within the agreement. A Named Executive Officer must satisfy the terms of the agreement, including its non-solicitation and non-compete provisions, in order to receive his or her benefits.

For purposes of the employment agreements, "Cause" includes (i) the Named Executive Officer's act or failure to act constituting willful misconduct or gross negligence that is materially injurious to the Employer or its reputation; (ii) the Named Executive Officer's willful and material failure to perform the duties of his employment (except in the case of a termination of Employment for Good Reason or on account of the Executive's physical or mental inability to perform such duties) and the failure to correct such failure within five (5) days after receiving notice from the Board specifying such failure in detail; (iii) the Named Executive Officer's willful and material violation of the Company's code of ethics or written harassment policies; (iv) the requirement or direction of a federal or state regulatory agency having jurisdiction over the Company that the Named Executive Officer's employment be terminated; (v) the Named Executive Officer's arrest or indictment for a felony or a lesser criminal offense involving dishonesty, breach of trust, or moral turpitude; or (vi) the Named Executive Officer's intentional breach of a material term, condition, or covenant of the Agreement and the failure to correct such violation within five (5) days after receipt of written notice from the Board specifying such breach in detail.

We are generally required to pay non-change of control benefits under the employment agreements if the Named Executive Officer terminates his or her employment for "Good Reason" within 90 days after we have taken specified actions and we have failed to correct the event within 30 days following the Named Executive Officer's notice of termination. These actions include (i) a material reduction in the Named Executive Officer's duties, responsibilities, or status with the Company; (ii) a reduction in the Named Executive Officer's base compensation or failure to include the Named Executive Officer with other similarly situated employees in any incentive, bonus, or benefit plans as may be offered by the Company from time to time; (iii) a change in the primary location at which the Named Executive Officer is required to perform the duties of his or her employment to a location that is more than fifty (50) miles from the location at which his or her office is located on the effective date of the agreement; or (iv) the Company's material breach of the agreement.

The non-change of control severance benefits payable under the employment agreements include a lump sum payment equal to the Named Executive Officer's Weekly Pay rate multiplied by the greater of (i) 52 or (ii) two times his or her years of service. The non-change of control severance benefits for our Chief Executive Officer, Chief Financial Officer and Chief Banking Officer provide for a severance payment of 104 weeks, however. For purposes of this payment, the Named Executive Officer's Weekly Pay rate is the sum of his or her annual base salary then in effect and also includes payment of the Named Executive Officer's target bonus for the year the severance is paid divided by 52. Each of the employment agreements contain non-solicitation and non-compete provisions, which remain in effect for two years after termination of employment.

The employment agreements also provide for change of control severance benefits for each Named Executive Officer. The Company is required to pay change of control severance benefits if, within two years following a change of control (as defined in the agreements), we terminate the Named Executive Officer's employment for a reason other than "Cause" or the Named Executive Officer's disability. The Board believes that the employment agreements, which include change of control severance benefits, assure the fair treatment of the Named Executive Officers in relation to their professional careers with the Company by providing them some measure of financial security in the event of a change of control. The change of control provision also protects the shareholders of the Company by encouraging the Named Executive Officers to continue to devote their full

attention to the Company without being distracted by the need to seek other employment following the change of control. The Compensation Committee established the change of control payouts to each of the Named Executive Officers after reviewing peer data and consulting with PM&P.

Under the employment agreements, we are obligated to make the change of control severance payment, if the Named Executive Officer resigns for "Good Reason" within two years after a change of control after we have taken certain actions detrimental to the Named Executive Officer. These
