Dear Fellow Shareholders:

During 2012 we made significant progress along the path of transforming our organization into a truly multi-media company, focusing on our primary strategic objectives, including growing our digital product portfolio, audience and revenues, stabilizing the core business, driving permanent expense reduction and redeploying some of those expenses toward growth initiatives that leverage our key assets and strengths. We experienced strong growth in digital revenues this year with an increase of 28.0% on a same store basis, and we saw some improvement in circulation revenues. While we continued to make progress on reducing core operating expenses, some of these cost savings were invested in new growth initiatives, particularly new digital service offerings. The year was not, however, without its challenges.

Total revenues were \$491.0 million for the full year, a decrease of 5.0% over the prior year and 4.2% on a same store basis. Local print advertising, which was down \$16.4 million, accounted for the majority of the decline in revenues along with print classified revenue. Continued secular pressures, a slow to recover economic environment for small businesses, foreclosure revenue delays and weak employment advertising all weighed heavily on our print advertising trends.

Despite some of the weak print advertising trends we experienced in 2012, we were able to mitigate a large portion of the print declines. Our digital advertising revenue grew 22.9% and our total digital revenues grew 28.0% during the year. Improving circulation trends, especially on Sunday, and strategic pricing initiatives resulted in growth in our circulation revenues for the full year for the first time since 2008. Lastly on revenue, commercial printing and other revenues stabilized during year and in fact, grew over the second half of the year.

Since the recession of 2008, we have been aggressively rightsizing the cost structure of the organization to offset revenue declines and this continued in 2012. After adjusting for one-time and non-cash items, our operating expenses declined 3.1% for the year on a same store basis. We continued to make progress on reducing core operating expenses, which were down about \$20 million for the year. However, as I mentioned earlier, some of these cost savings were invested in new growth initiatives, particularly new digital service offerings. These new digital services extend our product offerings with the goal of capturing a greater portion of our advertising customers' marketing spend and reaching new customers. We believe these investments were sound and that the new digital products and services present growth opportunities in the years ahead.

As Adjusted EBITDA for the year was \$81.0 million, a decrease of 9.1% on a same store basis, with a margin of 16.4%. Excluding the investments in new growth initiatives, As Adjusted EBITDA decreased only 2.1%. The Company's operating cash flow remains strong and our current liquidity position is healthy as we ended the year with over \$34 million in cash and cash equivalents. However, we do have long-term debt that comes due in August of 2014 and we plan to explore alternatives to strengthen our capital structure.

While we obviously need to be highly focused on revenue growth and expense controls, we can't lose sight of the most important part of our business, our foundation, and that's our local content, which still plays an extremely important role in communities. We are the leading, and in many cases, the only, provider of comprehensive local content in print and online in the communities we serve and we will focus on providing even stronger local news in 2013. We understand the importance of our traditional business and the need to put in place measures that will help to stabilize our print advertising revenues while remaining diligent in our efforts to reduce the overall cost structure. Lastly, we will continue to focus on our key transformative objectives. Growing in the digital space will remain a primary objective and we expect to continue to invest in new digital products and the scaling of our digital offerings as we leverage our core assets.

Forward-Looking Statements

We have included in this report and in our Annual Report on Form 10-K filed with the SEC forward-looking statements within the meaning of Section 27A of the Securities Act of 1935, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, relating to our operations and results of operations that are based on our current expectations, estimates and projections. Words such as anticipates, expects, intends, plans, projects, believe(s), will, aim, would, seek(s), estimates and similar expressions are used to identify these forward-looking statements. These statements are not guarantees of future performance and involve risks, uncertainties and assumptions that are difficult to predict. Forward-looking statements are based upon assumptions as to future events that may not prove to be accurate. Actual outcomes and results may differ materially from what is expressed or forecast in these forward-looking statements. We are not responsible for updating or revising any forward-looking statements, whether the result of new information, future events or otherwise, except as required by law.

Potential risks and uncertainties which could adversely affect our results include, without limitation, the following factors: (a) increased consolidation among advertisers or other events which may adversely affect business operations of major customers and depress the level of advertising; (b) a further economic downturn or a delayed economic recovery in some or all our principal markets leading to decreased circulation or advertising; (c) a decline or slowed growth in general newspaper readership and/or advertiser revenues as a result of competitive alternative media or other factors; (d) an increase in newsprint costs over the levels anticipated or any shortage in the availability of newsprint; (e) labor disputes which may cause revenue declines or increased labor costs, including the cost of benefits; (f) acquisitions of new businesses, and associated integration risks, or dispositions of existing businesses; (g) rapid technological changes and frequent new product introductions in electronic publishing and other areas of our business; (h) the levels of our borrowings; (i) our ability to successfully implement cost reduction and cash preservation plans; (j) an increase in interest rates; (k) our ability to maintain adequate liquidity and financing sources; (l) our ability to compete effectively in the local media industry; (m) the success or failure of our digital business and related initiatives and strategic realignments and undertakings; (n) increasing health care costs and (o) general economic, political and business conditions.

Non-GAAP Measures

As Adjusted EBITDA is a non-GAAP measure used by our senior management and Board of Directors to evaluate operating performance, cash flows and liquidity and are not calculated in accordance with U.S. generally accepted accounting principles (GAAP). We define As Adjusted EBITDA as net income (loss) before interest, income tax expense (benefit), depreciation and amortization and other non-recurring or non-cash items such as non-cash compensation and non-recurring integration and reorganization costs. The non-GAAP measure referred to in this annual report should not be considered in isolation or as alternatives to income from operations, net income (loss), cash flow from continuing operating activities or any other measure of performance or liquidity derived in accordance with GAAP. For more detailed explanations of the assumptions, methodologies and a reconciliation to net income, please visit www.gatehousemedia.com/investors.

Same Store Results

Comparisons to the prior year were influenced by the number of days in the 2011 reporting period and by the sale of a group of weekly publications in suburban Chicago on October 1, 2012. Effective January 1, 2011, the Company's fiscal year changed to a 52 week (5-4-4 quarterly) operating year ending on the Sunday closest to December 31. In fiscal 2011, there was a 53rd week, falling in the fourth quarter, for approximately 60% of the business which was already on a 52 week reporting cycle. The Company estimated the impact of this change for better comparability year over year in reporting same store results. Also for same store reporting purposes the 2011 results only include nine months of the suburban Chicago weekly publications that were sold on October 1, 2012.

CAUTIONARY NOTE REGARDING FORWARD LOOKING INFORMATION

The following discussion of our financial condition and results of operations should be read in conjunction with our historical consolidated financial statements and notes to those statements appearing in this report. The discussion and analysis below includes certain forward-looking statements that are subject to risks, uncertainties and other factors described in this report, including under the heading "Risk Factors" in Item 1A of this report, that could cause actual future growth, results of operations, performance and business prospects and opportunities to differ materially from those expressed in, or implied by, such forward looking information.

Certain statements in this report on Form 10-K may constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 that reflect our current views regarding, among other things, our future growth, results of operations, performance and business prospects and opportunities, as well as other statements that are other than historical fact. Words such as "anticipate(s)", "expect(s)", "intend(s)", "plan(s)", "target(s)", "project(s)", "believe(s)", "will", "aim", "would", "seek(s)", "estimate(s)" and similar expressions are intended to forward-looking statements.

Forward-looking statements are based on management's current expectations and beliefs and are subject to a number of known and unknown risks, uncertainties and other factors that could lead to actual results materially different from those described in the forward-looking statements. We can give no assurance that our expectations will be attained. Factors that could cause actual results to differ materially from our expectations include, but are not limited, to the risks identified by us under the heading "Risk Factors" in Item 1A of this report. Such forward-looking statements speak only as of the date on which they are made. Except to the extent required by law, we expressly disclaim any obligation to release publicly any updates or revisions to any forward-looking statements contained herein to reflect any change in our expectations with regard thereto or change in events, conditions or circumstances on which any statement is based.

Table of Contents

PART I

Item 1. Business
General Overview

We are one of the largest publishers of locally based print and online media in the United States as measured by number of daily publications. We were incorporated in Delaware in 1997 for purposes of acquiring a portion of the daily and weekly newspapers owned by American Publishing Company. Our business model is to be the preeminent provider of local content, advertising and digital marketing services to the small and midsize markets we serve. Our portfolio of products, which includes 406 community publications, 342 related websites, 339 mobile sites and six yellow page directories, serves over 128,000 business advertising accounts and reaches approximately 10 million people on a weekly basis. All data contained in this report regarding the number of our products, circulation, facilities or employees is as of December 30, 2012, unless otherwise indicated.

Our core products include:

78 daily newspapers with total paid circulation of approximately 597,000;

237 weekly newspapers (published up to three times per week) with total paid circulation of approximately 307,000 and total free circulation of approximately 684,000;

91 shoppers (generally advertising-only publications) with total circulation of approximately 1.5 million;

342 locally focused websites and 339 mobile sites, which extend our franchises onto the internet and mobile devices with approximately 97 million page views per month; and

six yellow page directories, with a distribution of approximately 488,000, that covers a population of approximately 1.2 million people.

In addition to our core products, we also opportunistically produce niche publications that address specific local market interests such as recreation, sports, healthcare and real estate. During the last twelve months, we created approximately 42 niche publications.

Our print and online products focus on the local community from both a content and advertising standpoint. As a result of our focus on small and midsize markets, we are usually the primary, and sometimes, the sole provider of comprehensive and in-depth local market news and information in the communities we serve. Our content is primarily devoted to topics that we believe are highly relevant and of interest to our audience such as local news and politics, community and regional events, youth sports, opinion and editorial pages, and local schools.

More than 86% of our daily newspapers have been published for more than 100 years and 100% have been published for more than 50 years. We believe that the longevity of our publications demonstrates the value and relevance of the local information that we provide and has created a strong foundation of reader loyalty and a highly recognized media brand name in each community we serve. As a result of these factors, we believe that our publications have high local audience penetration rates in our markets, thereby providing advertisers with strong local market reach.

We have a history of growth through acquisitions and new product launches. Since our inception, we have acquired 420 daily and weekly newspapers, shoppers and directories. Due to the weak economic backdrop over the past several years and tough financing market we have not done an acquisition since 2009 and instead have focused on transforming our business to a multi-media content and advertising business while maintaining our local orientation and pursuing cost reductions and de-levering opportunities. As part of our cost reduction efforts, we have engaged in a series of individual restructuring programs, designed primarily to right size our employee base, consolidate facilities and improve

operations.

Table of Contents

We operate in 330 markets across 21 states. A key element of our business strategy is geographic clustering of publications to realize operating efficiencies and provide consistent management practices. We share best practices across our organization, giving each publication the benefit of proven and executable revenue producing and cost saving initiatives. We regionally cluster functions such as ad composition, accounting and production and give each publication in a cluster access to top quality production equipment, which we believe enables us to cost-efficiently provide superior products and service to our customers. We are also centralizing certain functions across the entire company, particularly in the ad production and content areas in an effort to become more efficient and better serve our publications and customers. In addition, we believe that our size allows us to achieve economies of scale.

We believe that below average industry advertising revenue volatility is a result of our geographic diversity combined with our concentration of small markets. We have revenues coming from markets across 21 states, the large number of products we publish and our fragmented, diversified local advertising customer base. We also believe that local advertising tends to be less sensitive to economic cycles than national advertising because local businesses generally have fewer advertising channels in which to reach the local audience. We believe we are also less reliant than large metropolitan newspapers upon classified advertising, particularly the recruiting and real estate categories, which are generally more sensitive to economic conditions.

Industry Overview

We operate in what is sometimes referred to as the hyper-local or community market within the media industry. Media companies that serve this segment provide highly focused local content and advertising that is generally unique to each market they serve and is not readily obtainable from other sources. Local publications include community newspapers, websites, shoppers, traders, real estate guides, special interest magazines and directories. Due to the unique nature of their content, community publications compete for advertising customers with other forms of traditional media, including: direct mail, directories, radio, television, and outdoor advertising. We also compete with new digital and social media businesses for advertising customers. We believe that local print and online publications are the most effective medium for local retail advertising, which emphasizes the price of goods in an effort to move inventory on a regular basis, in contrast to radio, broadcast and cable, television, and the internet, which are generally used for image or branding advertising. In addition, we believe local print and online publications generally have the highest local audience penetration rates, which allows local advertisers to get their message to a large portion of the local audience.

Locally focused media in small and midsize communities is distinct from national and urban media delivered through outlets such as television, radio, metropolitan and national newspapers and the internet. Larger media outlets tend to offer broad based information to a geographically scattered audience, which tends to be more of a commodity. In contrast, locally focused media delivers a highly focused product that is often the only source of local news and information in the market it serves. Our segment of the media industry is also characterized by high barriers to entry, both economic and social. Small and midsize communities can generally only sustain one newspaper. Moreover, the brand value associated with long-term reader and advertiser loyalty, and the high start-up costs associated with developing and distributing content and selling advertisements, help to limit competition.

Advertising Market

The primary sources of advertising revenue for local publications are small businesses, corporations, government agencies and individuals who reside in the market that a publication serves. By combining paid circulation publications with total market coverage publications such as shoppers and other specialty publications (tailored to the specific attributes of a local community), local publications are able to reach nearly 100% of the households in a distribution area. As macroeconomic conditions in advertising change due to increasing internet and mobile usage and the wide array of available information sources, we have seen advertisers shift their focus to have a digital component to their local advertising strategy. To that end, in addition to printed products, the majority of our local publications have an online presence that further leverages the local brand, ensures higher penetration into the market, and provides a digital alternative for local advertisers.

Table of Contents

Digital Media

The time spent online and on mobile devices each day by media consumers continues to grow and newspaper web and mobile sites offer a wide variety of content providing comprehensive, in-depth and up to the minute coverage of news and current events. The ability to generate, publish and archive more news and information than most other sources has allowed newspapers to produce some of the most visited sites on the internet. Newspaper websites have shown to be some of the most visited websites by online media news consumers.

We believe that our local publications are well positioned to capitalize on their existing market franchises and grow their total audience base by publishing proprietary local content digitally; via the internet, mobile websites and mobile applications. Local digital media include traditional classifieds, directories of business information, local advertising, databases, audience-contributed content and mobile applications. We believe this additional community-specific content will further extend and expand both the reach and the brand of our publications with readers and advertisers. We believe that building a strong local digital business extends the core audience of a local publication.

The opportunity created by the digital extension of the core audience makes local digital advertising an attractive complement for existing print advertisers, while opening up opportunities to attract new local advertisers that have never advertised with local publications. In addition, we believe that national advertisers have an interest in reaching buyers on a hyper-local level and, although they historically have not been significant advertisers in community publications, we believe the digital media offers them a powerful medium to reach local audiences. This opportunity is further enhanced by our behavioral targeting products which allow advertisers to reach specific demographics of our audience. We also plan to hire a new digital only sales force to focus on digital growth in key market DMAs.

Circulation

Overall daily newspaper print circulation, including national and urban newspapers, has been declining steadily over the past several years. Small and midsize local market newspapers have generally had smaller declines and more stability in their paid print circulation volumes due to the relevant and unique hyper-local news they produce. In addition, this unique and valuable hyper-local content allows smaller market newspapers to continue to raise prices, leading to stable circulation revenues.

Our Strategy

We plan to maximize our revenue and cash flow potential in the existing economic and industry climate through a combination of (i) organic growth in our existing portfolio, especially in our digital based products, (ii) taking advantage of cost reductions and de-leveraging opportunities, and (iii) the realization of economies of scale and operating efficiencies. Our goal is to transform from print centric to a truly multi-media business. The key elements of our strategy are:

Maintain Our Dominance in the Delivery of Proprietary Content in Our Communities. We seek to maintain our position as a leading provider of local content in the markets we serve and to leverage this position to strengthen our relationships with both readers and advertisers, thereby increasing penetration rates and market share. A critical aspect of this approach is to continue to provide local content that is not readily obtainable elsewhere and to be able to deliver that content to our customers across multiple print and digital platforms. We believe it is very important for us to protect the content from unauthorized users who use it for their own commercial purposes. We also believe it is important for us to develop subscription revenue streams from our digital content.

Strengthening our Balance Sheet and Managing our Operations. Our focus continues to be on strengthening our balance sheet and managing our operations. From an operations standpoint, we intend to continue to stabilize our core business, grow our digital business, and leverage our key assets and strengths to find new opportunities to grow. We will continue to invest in recruitment and training of our sales executives in order to train them to become multi-media sales staff as well as capture new or additional revenues and market

Table of Contents

share. With our revolving credit facility balance at zero and no amortization on our long term credit facility that matures in 2014, we believe that we have increased flexibility to use available cash generated from operations to invest in growing our business organically, strengthening our balance sheet and building liquidity.

In addition, we intend to continue to pursue permanent cost reductions on our controllable expenses and look for ways to manage inflationary pressures and to become more efficient.

Leverage Benefits of Scale and Clustering to Increase Cash Flows and Operating Profit Margins. Last year we changed our organizational structure to be more vertical by functional area in order to create greater focus and accountability. We intend to continue to take advantage of geographic clustering and company wide centralization of key functions to realize operating and economic efficiencies in areas such as labor, production, overhead, raw materials and distribution costs. We believe we will be able to increase our cash flows and expand our operating profit margins as we streamline and further centralize ad production and content purchasing, copy editing and other newsroom functions as well as administrative functions, and other duplicative functions completed in the field.

Increase Sales Force Productivity. We aim to continue to increase the productivity of our sales force and, in turn, help maximize advertising revenues. We also aim to create a multi-media sales culture and feel that is critical to our long term success. Our approach includes ongoing company-wide training of sales representatives and sales managers that focuses on strengthening their ability to gather relevant demographic information, to understand multi-media and product portfolio sales, to design effective customer presentations, price and package our product mixes appropriately, more effectively utilize time and improve close ratio on sales calls. Our training includes sharing best practices of our most successful account representatives. We regularly evaluate the performance of our sales representatives and sales management and implement contests and other incentive compensation programs. Our sales compensation structure emphasizes key digital growth areas and new customer generation. We also regularly evaluate our advertising rates to ensure we are maximizing revenue opportunities. We believe better accountability and measurement of our sales force, when combined with training and access to better demographic and marketing information, will lead to greater productivity and revenue from our sales force.

Introduce New Products or Modify Our Products to Enhance the Value Proposition for Our Advertisers. We believe that our established positions in local markets, combined with our publishing and distribution capabilities, allow us to develop and customize new products to address the evolving interests and needs of our readers and advertisers. These products are often specialty publications, print and digital, that address specific interests such as employment, healthcare, hobbies and real estate. In addition, we intend to capitalize upon our unique position in local markets to introduce other marketing oriented products such as directories, magazines, shoppers and other niche publications in both online and print to further enhance our value to advertisers. We are actively developing web and mobile products, including deal platforms, digital service offerings, mobile websites and applications, and continue to expand the number of locations offering behavioral targeted advertising. We are also looking at developing new businesses by leveraging our core strengths that have the potential to grow beyond our existing markets.

Pursue a Content-Driven Digital Strategy. We believe that we are well-positioned to increase our digital penetration and generate additional online audience and revenues due to both our ability to deliver unique local content and our relationships with readers and advertisers. We believe this presents an opportunity to increase our overall audience penetration rates and drive additional subscription revenues in each of the communities we serve. We expect that centralizing our technology and building a network of websites will allow us to aggregate classified advertisements and build online classified products in areas such as real estate, automotive and recruitment. We also have the ability to sell online display advertising and online video advertising locally and nationally. Finally, we intend to share resources across our organization in order to give each of our publications access to technology, online management expertise, content and advertisers that they may not have been able to obtain or afford if they were operating independently.

Table of Contents

Products

Our product mix consists of four publication types: (i) daily newspapers, (ii) weekly newspapers, (iii) shoppers and (iv) niche publications. Most of these publications have a digital presence as discussed in the following table. Some of the key characteristics of each of these types of publications are also summarized in the table below.

	Daily Newspapers	Weekly Newspapers	Shoppers	Niche Publications
Cost:	Paid	Paid and free	Paid and free	Paid and free
Distribution:	Distributed four to seven days per week	Distributed one to three days per week	Distributed weekly	Distributed weekly, monthly or on annual basis
Format:	Printed on newsprint, folded	Printed on newsprint, folded	Printed on newsprint, folded or booklet	Printed on newsprint or glossy, folded, booklet, magazine or book
Content:	50% editorial (local news and coverage of community events, some national headlines) and 50% ads (including classifieds)	50% editorial (local news and coverage of community events, some national headlines for smaller markets which cannot support a daily newspaper) and 50% ads (including classifieds)	Almost 100% ads, primarily classifieds, display and inserts	Niche content and targeted ads (e.g., Chamber of Commerce city guides, tourism guides and special interest publications such as, seniors, golf, real estate, calendars and directories)
Income:	Revenue from advertisers, subscribers, rack/box sales	<i>Paid:</i> Revenue from advertising, subscribers, rack/box sales <i>Free:</i> Advertising revenue only, provide 100% market coverage.	<i>Paid:</i> Revenue from advertising, rack/box sales <i>Free:</i> Advertising revenue only, provide 100% market coverage	<i>Paid:</i> Revenue from advertising, rack/box sales <i>Free:</i> Advertising revenue only
Internet Availability:	Maintain locally oriented websites, mobile sites and mobile apps, for select locations	Major publications maintain locally oriented websites and mobile sites for select locations	Major publications maintain locally oriented websites	Selectively available online

Overview of Operations

We operate in three publication groups: Small Community Newspapers, Metros and Large Daily Newspapers. A list of our dailies, weeklies, shoppers and websites in each of our publication groups is included under List of Our Dailies, Weeklies, Shoppers, Websites and Directories in this report. We also operate over 342 related websites and 339 mobile sites.

Table of Contents

The following table sets forth information regarding our publications.

Operating Group	Number of Publications			Circulation ⁽¹⁾		Total Circulation
	Dailies	Weeklies	Shoppers	Paid	Free	
Small Community Newspapers	59	106	72	342,771	1,193,197	1,535,968
Metro Newspapers	7	127	7	284,921	493,720	778,641
Large Daily Newspapers	12	4	12	276,668	501,782	778,450
Total	78	237	91	904,360	2,188,699	3,093,059

(1) Circulation statistics are estimated by our management as of December 30, 2012, except that audited circulation statistics, to the extent available, are utilized as of the audit date.

Small Community Newspaper Group. Our Small Community Newspaper group encompasses publications typically located in communities have a population less than 35,000 people, in the states of Illinois, Missouri, Kansas, Michigan, California, Minnesota, Arkansas, New York, Louisiana, Pennsylvania, West Virginia, Colorado, Nebraska, Oklahoma, North Dakota, Tennessee, and Iowa. There are a total of 59 daily newspapers, 106 weekly newspapers and 72 shoppers. In addition to a good geographic mix, we benefit from a diverse economic and employment base across this group.

From the western shore of Lake Michigan to the eastern shore of the Mississippi River and running over 400 miles north to south, Illinois is a picture of manufacturing, agricultural and recreational diversity. Coupled with major daily newspapers from our Large Daily Newspaper Group in Rockford, Peoria, and the state capital of Springfield, we are the largest publishing company in Illinois. 20 paid daily newspapers, 31 paid weekly newspapers, and 20 shoppers provide inclusive coverage across the state which are further supported by four print production facilities.

La Junta in the southeastern part of the state represents the Colorado properties. Along with La Junta we also serve Bent County and Fowler and produce the weekly agricultural newspaper, *The Ag Journal*.

We are represented in California by two daily newspapers in Ridgecrest and Yreka, five paid weekly papers in Dunsmuir, Mt. Shasta, Weed, Gridley and Taft, and five shoppers in Gridley, Mt. Shasta, Ridgecrest and Yreka. These publications reach from northern California through the southern desert and China Lake naval base in Ridgecrest.

The greatest concentration of circulation and market presence in Missouri is in the northern part of the state where we operate seven daily newspapers and four weekly newspapers and five shoppers. We serve the 22,000 square mile area from Hannibal, on the state's eastern border, to the western border and from Columbia in the south to the Iowa border in the north. Local employers include the University of Missouri and other colleges, local and federal governments, State Farm Insurance and 3M.

Our southern Missouri operations are clustered around Lake of the Ozarks and Joplin. Located midway between Kansas City and St. Louis and approximately 90 miles from Springfield, Missouri, our three daily newspapers, seven weekly newspapers and three shoppers that serve the Lake of the Ozarks area reach approximately 165,000 people.

Located in southwest Missouri and southeast Kansas is our Joplin cluster with three daily and four weekly newspapers and four shoppers, serving a population of approximately 170,000. There are several colleges and universities in the area, a National Guard Fort, several large medical centers and a diverse mix of retail businesses, including the 120-store Northpark Mall.

This group also includes our Kansas City cluster with six publications (two daily and two weekly newspapers and two shoppers) located in the eastern Kansas cities of Leavenworth and Lansing and on the

Table of Contents

Missouri side, Independence and Blue Springs. The *Leavenworth Times* was one of our original daily newspapers and the balance of the cluster was acquired afterward. In addition, we secured the military publication, *The Fort Leavenworth Lamp*, in Fort Leavenworth. The Kansas City cluster is home to several prominent companies, including Hallmark, H&R Block, Interstate Bakeries, and the University of Kansas.

The Wichita cluster consists of three dailies, six weeklies and three shoppers in the towns of Andover, Augusta, El Dorado, Pratt, Wellington, Newton and McPherson near Wichita, Kansas. The clustering of the small dailies in this area allows the group to sell advertisers a package providing access to multiple communities. Major aircraft manufacturers Boeing, Bombardier, Cessna and Raytheon have facilities nearby and McConnell Air Force Base is a major component of the local economy.

We also have clusters in and around Grand Forks, North Dakota (home to the Grand Forks Air Force Base and the University of North Dakota) and near Mason City, Iowa, where Cargill, ConAgra, Kraft, Winnebago and Fort Dodge Animal Health, a division of Wyeth, each maintain significant operations.

We are represented in southwestern Minnesota through seven paid weekly newspapers and four shoppers. St. James, Redwood Falls, Sleepy Eye, Granite Falls, Cottonwood, Wabasso, and Montevideo are all communities with populations of 10,000 and under. These papers represent the primary local news and information source for these communities.

In Louisiana, we have an operating cluster in the southwestern part of the state, located between Lake Charles and Alexandria. This cluster consists of five publications located in the cities of Leesville, Sulpher, DeRidder and Vinton. Local employers include major manufacturers such as Alcoa, Firestone, International Paper and Proctor & Gamble.

Our Baton Rouge cluster consists of four weeklies and three shoppers in the southeastern Louisiana cities of Donaldsville, Gonzales, and Plaquemine. Numerous petrochemical companies such as BASF, Exxon Mobil and Dow Chemical, plus universities including Louisiana State, support the local economies.

In southwestern New York, our operations are centered around five publications based in Steuben County. In Corning, *The Leader*, a 7,709 circulation daily newspaper, dominates the eastern half of the county and shares its hometown namesake with Corning Incorporated. The *Hornell Evening Tribune* circulates daily throughout the western half of the county. Situated directly between these two dailies in the county seat of Bath is the 10,850 circulation *Steuben Courier*, a free-distribution weekly. The *Pennysaver Plus*, a standalone shopper, solidifies this flagship group.

We also have a strong presence in the print advertising markets in three other New York counties that surround Steuben. In Allegany County to the west, the *Wellsville Daily Reporter* and its shopper, the *Pennysaver Plus*, cover most households. In Livingston County to the north, the *Pennysaver Plus* and the *Genesee Country Express* complement one another with combined circulation of 11,814. In Yates County to the north and east, *The Chronicle-Express* and *Chronicle Ad-Visor* shopper distribute weekly to over 15,000 households centered around the county seat of Penn Yan.

In nearby Chemung County, the 20,000 circulation *Horseheads Shopper* anchors our presence in this area. The majority of the southwestern New York cluster parallels Interstate 86 across the central southern tier of New York State, which is benefiting from continued improvement and expansion under an omnibus federal highway appropriations bill. Moreover, the cluster has several colleges and universities nearby, including Cornell University, Ithaca College, Elmira College and Houghton College.

Our Honesdale cluster, approximately 30 miles from Scranton, Pennsylvania, consists of seven publications in the cities of Carbondale, Honesdale and Hawley, Pennsylvania, along with Liberty, New York, located just across the Delaware River to the east. The cluster was created from our daily and shopper operations in

Table of Contents

Honesdale and later supplemented by our acquisition of weeklies and shoppers in Carbondale and Liberty. Local employers include General Dynamics, Blue Cross/Blue Shield, Commonwealth Telephone and various colleges and universities, medical centers and governmental agencies.

Our Pennsylvania/West Virginia cluster includes dailies in Waynesboro, Pennsylvania, Keyser and Ripley, West Virginia. We also have two weeklies throughout the group and a commercial printing operation in Ravenswood, West Virginia.

We have a strong presence in southern Michigan where five of our dailies, Adrian, Coldwater, Holland, Hillsdale and Sturgis, along with two weeklies and seven shoppers blanket the southern tier of the state and into Indiana. The 14,237 circulation *Holland Sentinel* is the flagship publication of the group. This area has several large employers, including Delphi, ConAgra, Tecumseh Products, Kellogg, JCI, Herman Miller, Hayworth, Gentex, Jackson State Prison, and a number of colleges and universities.

The communities we serve in the Small Community Newspaper group are largely rural but also support educational institutions, government agencies (including prisons and military bases), tourism, veterinary medicine and ethanol and agricultural chemical manufacturing. The area also maintains automotive (including recreational vehicles), boat, home construction products and furniture manufacturing sectors.

The following table sets forth information regarding the number of publications and production facilities in the Small Community Newspaper Group:

State of Operations	Publications			Production Facilities
	Dailies	Weeklies	Shoppers	
Illinois	15	31	13	2
Missouri	13	15	12	5
Kansas	5	10	7	1
Michigan	8	2	10	4

Total	59	106	72	24

Metro Newspaper Group. Our Metro Newspaper Group includes publications that are typically within 50 miles of a metropolitan area with total population greater than 1.0 million people in the states of Massachusetts, New York, and Delaware. We are one of the largest community newspaper publishers in Massachusetts by number of daily publications and quite a large concentration of weekly newspapers, serving 113 communities in markets across eastern Massachusetts. The three largest daily newspapers in this region are: *The Patriot Ledger* (founded in 1837 with circulation of 33,903), the *Enterprise* (founded in 1880 with circulation of 19,942) and the *MetroWest Daily News* (founded in 1897 with circulation of 16,022). We also have over 160 web sites, with more than 3.5 million average combined monthly unique visitors in Massachusetts.

Table of Contents

Many of the towns within our Massachusetts were founded in the 1600s and our daily and weekly newspapers in the region have long been institutions within these communities. In fact, our Massachusetts publications have 31 daily and weekly newspapers that are over 100 years old. The Boston DMA is the seventh largest market in the United States with 2.4 million households and 6.2 million people, and ranks first nationally in concentration of colleges and universities. Massachusetts has more than one million households in the region earning greater than \$75,000, and a substantial homeownership rate. We reach 1.7 million readers in the eastern Massachusetts market. Eastern Massachusetts is also an employment center for technology, biotechnology, healthcare and higher education.

In New York we maintain a combination of 16 publications in Suburban Rochester that span four counties and have a combined circulation of 121,533. This market has a tourism industry and is known for boutique wineries and recreational activities. The flagship of Messenger Post Media is the 6,878 circulation *Daily Messenger* in Canandaigua.

The Delaware cluster publishes six weekly newspapers, one shopper, and various specialty papers that cover most of the state of Delaware, and range from suburban Wilmington in the north to Georgetown, Delaware at the south end of the state. The weekly *Express* shopper serves nearly all of lower Delaware and a good portion of the Eastern Shore of Maryland. Circulation for the cluster is primarily free, and totals approximately 80,645 weekly.

The following table sets forth information regarding the number of publications and production facilities in the Metro Newspaper Group:

State of Operations	Publications			Production Facilities
	Dailies	Weeklies	Shoppers	
Massachusetts	6	110	2	2
New York	1	11	4	1
Delaware	0	6	1	1
Total	7	127	7	4

Large Daily Newspaper Group. Our Large Daily Newspaper Group includes publication clusters in communities that typically have more than 35,000 people and are greater than 50 miles from a major metropolitan area. These publications are in Illinois, New York, Ohio, and Connecticut with a total of 12 daily newspapers, 4 weekly newspapers and 12 shoppers. In addition to a good geographic mix, we benefit from a diverse economic and employment base across this group.

Approximately 85 miles to the west of Chicago, Illinois is the *Rockford Register Star* supported by its 41,532 daily paid circulation base and its TMC product *The Weekly*, with six zoned editions. The *Rockford Register Star* operates successful web sites that have more than 747,000 average monthly unique visitors.

The Journal (Freeport, IL) Standard is published Tuesdays through Sundays. The newspaper's coverage area includes Carroll, Jo Daviess, Ogle and Stephenson counties. The newspaper has a daily circulation of 7,713 and a Sunday circulation of 9,177. The Journal Standard also publishes a website *journalstandard.com* and receives a monthly average of 1.1 million page views and monthly unique visitors over 105,000.

The *Peoria Journal Star* with its daily paid circulation of 58,319 is the dominant newspaper in Peoria, Tazewell and Woodford Counties and is also distributed in an additional 17 surrounding counties. There are two shoppers *JS Shopper* and *Pekin Extra* which have a combined weekly circulation of 64,973. The Peoria facility provides print services to our neighboring GateHouse Media publications and commercial printing for Lee Enterprises *The Pantagraph*. The market includes manufacturing facilities for Caterpillar and Komatsu, and higher education at Bradley University, Illinois Central College and Midstate College. Peoria has a large medical community including OSF Healthcare, Methodist Medical Center, Proctor Hospital, University Of Illinois

Table of Contents

College Of Medicine and St. Jude Children’s Hospital Midwest Affiliate. It has agricultural facilities Archer Daniels Midland, LG Seeds and the USDA Ag Lab. The *Journal Star* has pjstar.com and pjstar.mobi with combined page views of over 9.1 million per month. The combined average monthly unique visitors are over 705,000.

The Springfield *State Journal-Register* with a daily paid circulation of 43,093 and a Sunday paid circulation of 35,861 covers the state capital of Illinois. The daily paid circulation includes a branded edition of 3,343 of the Lincoln Courier. *The State Journal-Register* also has successful web sites with monthly unique visitors of more than 1.1 million.

The Ohio cluster is anchored in Canton, Ohio and covers Stark and Tuscarawas Counties. It is comprised of three daily newspapers, one weekly publication and two shoppers. *The Repository* is a 53,338 daily newspaper that covers the entire area of Stark County. *The Dover New Philadelphia Times Reporter* is a 17,271 daily publication located 40 miles south of Canton in Tuscarawas County. *The Massillon Independent* is an 8,849 circulation daily that circulates in western Stark County. *The Suburbanite* is a 32,600 weekly publication that circulates in the affluent northern Stark County area. The Ohio cluster has very successful web sites with more than 1.4 million combined monthly unique visitors. Together the newspapers and web sites dominate their local markets.

The Central New York cluster is anchored by the *Observer-Dispatch* in Utica New York which has circulation of 29,883 Daily and 34,887 Sunday subscribers. The Utica operations include one daily and two shoppers and a weekly newspaper in Hamilton. Utica also has web sites with combined monthly unique visitors of more than 454,000. Other dailies in this group are located in Herkimer and Little Falls. The Utica and Herkimer County operations take advantage of numerous synergies in printing, circulation, and advertising.

Our Norwich, Connecticut publication diversifies the Large Daily Newspapers as the eastern Connecticut economy differs from the nation and New England markedly. Primary economic drivers include casinos, military submarine manufacture and pharmaceutical research. Major industrial employers in the region include General Dynamics, Pfizer, Dow Chemical, Dominion Resources and the United States Navy.

The following table sets forth information regarding the number of publications and production facilities in the Large Daily Newspaper Group:

State of Operations	Publications			Production Facilities
	Dailies	Weeklies	Shoppers	
Illinois	5	0	7	2
New York	3	2	2	0
Ohio	3	1	2	2
Connecticut	1	1	1	0
Total	12	4	12	4

Directories

The core of our directory portfolio is comprised of the three yellow page directories, which are located in and around the Sacramento, California area, primarily in Roseville, California. The three directories have an aggregate circulation of approximately 408,000 and service Roseville, Auburn/Grass Valley/Nevada City and Folsom/El Dorado/Placerville, reaching four counties within the Sacramento region.

Our SureWest portfolio is highlighted by the Roseville directory. The Roseville directory is the incumbent (with a circulation of approximately 250,000) and has served the local Roseville community for over 95 years and has achieved more than 50% market share.

Table of Contents

We also own three additional directories including two Michigan and Indiana phone guides servicing St. Joseph County, Michigan and LaGrange County, Indiana, and Branch County, Michigan and Steuben County, Indiana, respectively, and a yellow page directory based in Mt. Shasta, California.

Revenue

Our operations generate three primary types of revenue: (i) advertising, (ii) circulation (including home delivery subscriptions, single copy sales and digital subscriptions) and (iii) other (primarily commercial printing). In 2012, these revenue streams accounted for approximately 68%, 27% and 5%, respectively, of our total revenue. The contribution of advertising, circulation and other revenue to our total revenue in 2012, 2011 and 2010 was as follows:

	Year Ended December 30, 2012	Year Ended January 1, 2012 (In thousands)	Year Ended December 31, 2010
Revenue:			
Advertising	\$ 331,419	\$ 357,629	\$ 386,069
Circulation	133,358	133,571	135,691
Commercial printing and other	26,187	25,763	26,057
Total revenue	\$ 490,964	\$ 516,963	\$ 547,817

Advertising

Advertising revenue, which includes revenue generated from online and mobile products, is the largest component of our revenue, accounting for approximately 68%, 69% and 70% of our total revenue in 2012, 2011 and 2010, respectively. We categorize advertising as follows:

Local Retail local retailers, local stores for national retailers, grocers, drug stores, department and furniture stores, local financial institutions, niche shops, restaurants and other consumer related businesses.

Local Classified local employment, automotive, real estate, legal, obituaries and other advertising.

Online banner, display, classified, behavioral targeting, audience extension, search and other advertising on websites or mobile devices.

National national and major accounts such as wireless communications companies, airlines and hotels.

We believe that our advertising revenue tends to be less volatile than the advertising revenue of large metropolitan and national print media because we rely primarily on local, rather than national, advertising and we have less exposure to classified revenue than others within our industry. We generally derive 95% or more of our advertising revenue from local advertising (local retail, local classified and online) and less than 5% from national advertising. We believe that local advertising tends to be less sensitive to economic cycles than national advertising because local businesses generally have fewer effective advertising channels through which they may reach their customers. We are also less reliant than large metropolitan newspapers upon classified advertising, particularly the recruiting and real estate categories, which are generally more sensitive to economic conditions.

Our advertising rate structures vary among our publications and are a function of various factors, including local market conditions, competition, circulation, readership and demographics. Our corporate management works with our local newspaper management to approve advertising rates and a portion of our publishers' incentive compensation is based upon growing advertising revenue. Our sales compensation program emphasizes digital and new business growth. We share advertising concepts throughout our network of publishers and advertising directors including periodic special section programs, enabling them to utilize advertising products and sales strategies that are successful in other markets we serve.

Table of Contents

Substantially all of our advertising revenue is derived from a diverse group of local retailers and local classified advertisers, resulting in very limited customer concentration. No single advertiser accounted for more than 1% of our total revenue in 2010, 2011 or 2012 and our 20 largest advertisers account for less than 5% of total revenue.

Our advertising revenue tends to follow a seasonal pattern, with higher advertising revenue in months containing significant events or holidays. Accordingly, our first quarter, followed by our third quarter, historically are our weakest quarters of the year in terms of revenue. Correspondingly, our second fiscal quarter, and fourth fiscal quarter, historically are our strongest quarters. We expect that this seasonality will continue to affect our advertising revenue in future periods.

We have experienced declines in advertising revenue over the past few years, due primarily to a combination of the economic recession and secular pressures on the business. We continue to search for organic growth opportunities, specifically in our digital advertising and ways to stabilize print revenue declines through new product launches and pricing.

Circulation

Our circulation revenue is derived from home delivery sales to subscribers, single copy sales at retail stores and vending racks and boxes, and digital subscriptions. We own 78 paid daily publications that range in circulation from approximately 500 to over 61,000 and 188 paid weekly publications that range in circulation from approximately 100 to 19,000. Circulation revenue accounted for approximately 27%, 26% and 25% of our total revenue in 2012, 2011 and 2010, respectively.

Subscriptions are typically sold for three to twelve-month terms and often include promotions to extend the average subscription period or convert someone to become a subscriber. We also provide bundled print and digital subscriptions and employ pay meters at most of our daily publications. We implement marketing programs to increase readership through subscription and single copy sales, including company-wide and local circulation contests, direct mail programs, door-to-door sales and strategic alliances with local schools in the form of Newspapers in Education programs. In addition, since the adoption of the Telemarketing Sales Rule by the Federal Trade Commission in 2003, which created a national do not call registry, we have increased our use of EZ Pay programs, direct mail campaigns, door to door sales, kiosks, sampling programs, in-paper promotions and online promotions to increase our circulation.

We encourage subscriber use of EZ Pay, a monthly credit card charge or direct bank debit payment program, which has led to higher retention rates for subscribers. We also use an active stop-loss program for all expiring subscribers. Additionally, in order to improve our circulation revenue and circulation trends, we periodically review the need for quality enhancements, such as:

Increasing the amount of unique hyper-local content;

Increasing the use of color and color photographs;

Improving graphic design, including complete redesigns;

Developing creative and interactive promotional campaigns; and

Improving customer service and company wide customer retention efforts.

Better use of demographic data to specifically target pricing and customer acquisition opportunities.

We believe that our unique and valuable hyper-local content allows us to continue to produce products of great relevance to our local market audiences. This allows us to be able to periodically raise prices, both for home delivery and on a single copy basis, resulting in increased circulation revenues. We also believe this hyper-local unique content will allow us to find ways to grow circulation revenues from our wide array of digital products.

Table of Contents

Other

We provide commercial printing services to third parties on a competitive bid basis as a means to generate incremental revenue and utilize excess printing capacity. These customers consist primarily of other publishers that do not have their own printing presses and do not compete with our publications. We also print other commercial materials, including flyers, business cards and invitations. Other sources of revenue, including commercial printing, accounted for approximately 5%, 5% and 5% of our total revenue in 2012, 2011 and 2010, respectively.

Printing and Distribution

We own and operate 32 print facilities. Our print facilities produce 10 publications on average and are generally located within 60 miles of the communities served. By clustering our production resources or outsourcing where cost beneficial, we are able to reduce the operating costs of our publications while increasing the quality of our small and midsize market publications that would typically not otherwise have access to high quality production facilities. We also believe that we are able to reduce future capital expenditure needs by having fewer overall pressrooms and buildings. We believe our superior production quality is critical to maintaining and enhancing our position as the leading provider of local news coverage in the markets we serve.

The distribution of our daily newspapers is typically outsourced to independent, locally based, third-party distributors that also distribute a majority of our weekly newspapers and non-newspaper publications. We continuously evaluate lower cost options for newspaper delivery. In addition, certain of our shopper and weekly publications are delivered via the U.S. Postal Service.

Newsprint

We are a member of a consortium which enables our local publishers to obtain favorable pricing when investing in newsprint by going to local mills at reduced rates negotiated by the consortium. As a result, we have generally been able to purchase newsprint at a price of \$10 to \$12 per metric ton below the market price. In addition we have an agreement with a newsprint vendor to supply certain of our properties with all their newsprint requirements at a fixed price. We generally maintain a 45 to 55 day inventory of newsprint. Newsprint is a readily available commodity.

Historically, the market price of newsprint has been volatile, reaching a high of approximately \$823 per metric ton in 2008 and a low of \$410 per metric ton in 2002. The average market price of newsprint during 2012 was approximately \$667 per metric ton.

In 2012 we consumed approximately 41,400 metric tons of newsprint (inclusive of commercial printing) and the cost of our newsprint consumption totaled approximately \$27.7 million. Our newsprint expense typically averages less than 10% of total revenue, which we believe generally compares favorably to larger, metropolitan newspapers.

For our 2011 and 2012 purchases of newsprint we negotiated a fixed price for approximately 75% of our newsprint tons which allowed us to eliminate some of the volatility of the market price.

Competition

Each of our publications competes for advertising revenue to varying degrees with traditional media outlets such as direct mail, yellow pages, radio, outdoor advertising, broadcast and cable television, magazines, local, regional and national newspapers, shoppers and other print and online media sources, including local blogs. We also increasingly compete with new digital and social media companies for advertising revenue. However, we believe that barriers to entry remain high in many of the markets we serve in terms of being the preeminent source for local news and information therein, because our markets are generally not large enough to support a

Table of Contents

second newspaper and because our local news gathering infrastructures, sales networks and relationships would be time consuming and costly to replicate. We also have highly recognized local brand names and long histories in the towns we serve.

We also provide our readers with community-specific content, which is generally not available from other media sources. We believe that our direct and focused coverage of the market and our cost effective advertising rates relative to more broadly circulated metropolitan newspapers allow us to tailor an approach for our advertisers. As a result, our publications generally capture a large share of local advertising in the markets they serve.

The level of competition and the primary competitors we face vary from market to market. Competition tends to be based on market penetration, demographic and quality factors, as opposed to price factors. The competitive environment in each of our operating regions is discussed in greater detail below.

Small Community Newspaper Group. The Small Community Newspaper Group operates in 165 markets and we believe our publications are the dominant print advertising media in the vast majority of these markets. There are radio stations in or within 20 miles of every market in which we operate, but we do not believe that any of these radio station operators pose a significant competitive threat to our publications. Yellow page advertising is prevalent in all of our markets with either a local phone book or a regional phone book. We believe that, in most cases, yellow page advertising is geared more towards the professional services advertisers such as attorneys and doctors and not the local retail advertisers, as is the focus with our non-directory publications. Lee Enterprises has the *Southern Illinoisan* that is located in Carbondale. This is a regional newspaper that competes with our dailies in Marion, Benton, West Frankfort and DuQuoin. In all four of these cases, we believe our publications are the dominant local daily, but do compete on a regional basis with the larger dailies. We also compete with shoppers or weekly newspapers. This competition comes from small independent operators and is not significant. We have very little television competition in this group because of our geographic location in relation to major markets. There are no local television affiliates in our markets.

In the southern regions of this group we believe our publications are generally the dominant media in those markets. Our major competition comes from regional daily newspapers, specifically: *The Advocate* in Baton Rouge, Louisiana; *The American Press* in Lake Charles, Louisiana; *The Joplin Globe*; and the *Wichita Eagle*. We also face competition from numerous other daily and weekly papers, local radio stations, shopping guides, directories and niche publications.

In the Northeast market we believe our publications are generally the dominant media. The competition we face in this region are from major newspaper companies: daily newspapers owned by Gannett Company, Inc. (*The Star-Gazette* in Elmira, NY and the *Chambersburg (PA) Public-Opinion*); Times-Shamrock Company's Scranton (PA) *The Times-Tribune* and Towanda *Daily/Sunday Review*; Community Newspaper Holdings, Inc.'s (CNHI) *Sunbury Daily Item*; and Ogden-Nutting's *Williamsport Sun-Gazette*. We believe our publications tend to be the dominant local publication in those markets.

In our Great Lakes markets we believe our publications are generally the dominant media in those markets. Our only significant competition comes from regional television stations in Adrian, Michigan. We also face competition from dozens of other competitors such as other local daily and weekly papers and niche publications, as well as radio and television stations, directories, direct mail and non-local internet websites, but none of these have proven to be significant.

Metro Newspaper Group. In the Metro Newspaper Group, the *Boston Globe* and *boston.com*, a metropolitan daily and website, respectively, owned by the New York Times Company, compete with us throughout eastern Massachusetts. In addition, we compete in Massachusetts with more than 30 other weekly or daily newspaper companies (that publish a combined total of approximately 16 dailies and 50 weeklies), three major radio station operators, five local network television broadcasters, one cable company and numerous niche publications for advertising revenues. We believe that our publications generally deliver the highest household coverage in their respective markets.

Table of Contents

Large Daily Newspaper Group. In our Large Daily Newspaper Group we believe our publications are generally the dominant media in those markets. Daily newspapers owned by Gannett Company, Inc. (*Daily Sentinel* in Rome, NY and *The Dispatch* in Oneida, NY) compete with in the New York market. We also face competition from other major newspaper companies in other regional markets such as Newhouse Newspaper's *Syracuse Post-Standard*. Our competitors also include numerous other daily and weekly newspapers, local radio stations, shopping guides, directories and niche publications. We believe our publications, many of which have an extensive history in the market, tend to be the dominant local publication.

Management and Employees

The 14 members of our executive management team have an average of 17 years of industry experience and a long history of identifying, acquiring and improving the operations of acquired publications. Our executive management team has managed community newspapers in various economic cycles. We also have a seasoned team of managers at the local level, where our 40 publishers have an average of approximately 28 years of industry experience.

As of December 30, 2012, we had approximately 4,131 full time equivalent employees, consisting of hourly and salaried employees. We employ union personnel at a number of our core publications representing approximately 612 full-time equivalent employees. As of December 30, 2012 there were 23 collective bargaining agreements covering union personnel. Three of these agreements, representing employees in Massachusetts, Ohio and Illinois, expire in 2013. We believe that relations with our employees are generally good and we have had no work stoppages at any of our publications.

Environmental Matters

We believe that we are substantially in compliance with all applicable laws and regulations for the protection of the environment and the health and safety of our employees based upon existing facts presently known to us. Compliance with federal, state, and local environmental laws and regulations relating to the discharge of substances into the environment, the disposal of hazardous wastes and other related activities has had, and will continue to have, an impact on our operations, but has, since our incorporation in 1997, been accomplished without having a material adverse effect on our operations. While it is difficult to estimate the timing and ultimate costs to be incurred due to uncertainties about the status of laws, regulations and technology, based on information currently known to us and insurance procured with respect to certain environmental matters, we do not expect environmental costs or contingencies to be material or to have a material adverse effect on our financial performance. Our operations involve risks in these areas, however, and we cannot assure you that we will not incur material costs or liabilities in the future which could adversely affect us.

Corporate Governance and Public Information

The address of our website is www.gatehousemedia.com. Stockholders can access a wide variety of information on our website, including news releases, Securities and Exchange Commission (SEC) filings, information we are required to post online pursuant to applicable SEC rules, newspaper profiles and online links. We make available via our website, all filings we make under the Securities Exchange Act of 1934, including Forms 10-K, 10-Q and 8-K, and related amendments, as soon as reasonably practicable after they are filed with, or furnished to, the SEC. All such filings are available free of charge. Neither the content of our corporate website nor any other website referred to in this report are incorporated by reference into this report unless expressly noted. The public may read and copy any information we file with the SEC at the SEC's public reference room at 100 F Street, NE, Washington, DC 20549. The public may obtain information on the operation of the public reference room by calling the SEC at 1-800-SEC-0330. The SEC also maintains a website (<http://www.sec.gov>) where our filings filed with the SEC are available free of charge.

Item 1A. Risk Factors

Our business and operations are subject to numerous risks. Such risks, to the extent material, are described below.

Risks Related to Our Business

We depend to a great extent on the economies and the demographics of the local communities that we serve and we are also susceptible to general economic downturns, like the one currently being experienced, which has had, and could continue to have, a material and adverse impact on our advertising and circulation revenues and on our profitability.

Our advertising revenues and, to a lesser extent, circulation revenues, depend upon a variety of factors specific to the communities that our publications serve. These factors include, among others, the size and demographic characteristics of the local population, local economic conditions in general and the economic condition of the retail segments of the communities that our publications serve. If the local economy, population or prevailing retail environment of a community we serve experiences a downturn, our publications, revenues and profitability in that market could be adversely affected. Our advertising revenues are also susceptible to negative trends in the general economy, like the one currently being experienced, that affect consumer spending. The advertisers in our newspapers and other publications and related websites are primarily retail businesses, which can be significantly affected by regional or national economic downturns and other developments. Continuing or deepening softness in the U.S. economy could also significantly affect key advertising revenue categories, such as help wanted, real estate and automotive.

Uncertainty and adverse changes in the general economic conditions of markets in which we participate may negatively affect our business.

Current and future conditions in the economy have an inherent degree of uncertainty. As a result, it is difficult to estimate the level of growth or contraction for the economy as a whole. It is even more difficult to estimate growth or contraction in various parts, sectors and regions of the economy, including the markets in which we participate. Adverse changes may occur as a result of soft global economic conditions, rising oil prices, wavering consumer confidence, unemployment, declines in stock markets, contraction of credit availability, declines in real estate values, or other factors affecting economic conditions in general. These changes may negatively affect the sales of our products, increase exposure to losses from bad debts, increase the cost and decrease the availability of financing, or increase costs associated with publishing and distributing our publications.

Our indebtedness could adversely affect our financial health and reduce the funds available to us for corporate purposes.

We have a significant amount of indebtedness. At December 30, 2012, we had total indebtedness of approximately \$1.2 billion under our 2007 Credit Facility. Our interest expense for the year ended December 30, 2012 was \$57.9 million.

Our substantial indebtedness could adversely affect our financial health in the following ways:

a substantial portion of our cash flow from operations must be dedicated to the payment of interest on our outstanding indebtedness, thereby reducing the funds available to us for other purposes;

our flexibility to react to further deterioration in our industry and economic conditions generally may be limited because of the covenants and other restrictions in the 2007 Credit Facility and our inability to incur additional indebtedness;

our substantial degree of leverage could make us more vulnerable in the event of additional deterioration in general economic conditions or other adverse events in our business or the geographic

Table of Contents

markets that we serve because further reductions in our revenue may make it difficult for us to fulfill our obligation under the 2007 Credit Facility;

our ability to obtain additional financing for working capital, capital expenditures, acquisitions or general corporate purposes may be impaired, limiting our ability to maintain the value of our assets and operations; and

there would be a material and adverse effect on our business and financial condition if we are unable to continue to service our indebtedness (including any payments on maturity) or obtain additional financing, as needed.

In addition, our 2007 Credit Facility contains financial and other restrictive covenants, ratios and tests that limit our ability to incur additional debt and engage in other activities that we believe may be in our long-term best interests. Our ability to comply with the covenants, ratios or tests contained in our 2007 Credit Facility may be affected by events beyond our control, including prevailing economic, financial and industry conditions. In addition, events of default, if not waived or cured, could result in the acceleration of the maturity of our indebtedness under our 2007 Credit Facility. If we are unable to repay those amounts, the lenders under our 2007 Credit Facility could proceed against the security granted to them to secure that indebtedness. If the lenders accelerate the payment of our indebtedness under our 2007 Credit Facility, our assets may not be sufficient to repay in full such indebtedness.

In addition, a portion of our 2007 Credit Facility is unhedged, which means we are subject to the risk of interest rate fluctuations on such portion of our long-term debt. If the interest rate on such portion of the 2007 Credit Facility increases, it may have a material adverse effect on our business and financial condition.

We may not generate a sufficient amount of cash or generate sufficient funds from operations to fund our operations or repay our indebtedness at maturity or otherwise.

Our ability to make payments on our indebtedness as required depends on our ability to generate cash flow from operations in the future. This ability, to a certain extent, is subject to general economic, financial, competitive, legislative, regulatory and other factors that are beyond our control.

There can be no assurance that our business will generate cash flow from operations or that future borrowings will be available to us in amounts sufficient to enable us to pay our indebtedness or to fund our other liquidity needs. Currently we do not have the ability to draw upon our revolving credit facility which limits our immediate and short-term access to funds. If we are unable to repay our indebtedness at maturity we may be forced to liquidate or reorganize our operations and business under the federal bankruptcy laws.

The collectability of accounts receivable under current adverse economic conditions could deteriorate to a greater extent than provided for in our financial statements and in our projections of future results.

Adverse economic conditions in the United States have increased our exposure to losses resulting from financial distress, insolvency and the potential bankruptcy of our advertising customers. Our accounts receivable are stated at net estimated realizable value and our allowance for doubtful accounts has been determined based on several factors, including receivable agings, significant individual credit risk accounts and historical experience. If such collectability estimates prove inaccurate, adjustments to future operating results could occur.

Further declines in our credit ratings significantly impact our ability to obtain new financing to fund our operations and strategic initiatives or to refinance our existing debt at reasonable rates as it matures.

Our long-term debt is rated by Standard & Poor's and Moody's Investors Service. We are currently rated below-investment grade by both rating agencies, and any future long-term borrowing or the extension of our short-term borrowing will reflect the negative impact of these ratings, increasing our borrowing costs, limiting

Table of Contents

our financing options and subjecting us to more restrictive covenants than our existing debt arrangements. Additional down grades in our credit ratings could further increase our borrowing costs, subject us to more onerous terms and reduce or eliminate our borrowing flexibility in the future. Such limitations on our financing options may affect our ability to refinance existing debt when it becomes due.

If there is a significant increase in the price of newsprint or a reduction in the availability of newsprint, our results of operations and financial condition may suffer.

The basic raw material for our publications is newsprint. We generally maintain only a 45 to 55-day inventory of newsprint, although our participation in a newsprint-buying consortium has helped ensure adequate supply. In addition we have an agreement with a newsprint vendor to supply certain of our properties, representing approximately 95% of our newsprint, with all their newsprint requirements for calendar year 2013 at a fixed price. An inability to obtain an adequate supply of newsprint at a favorable price or at all in the future could have a material adverse effect on our ability to produce our publications. Historically, the price of newsprint has been volatile, reaching a high of approximately \$823 per metric ton in 2008 and dropping to a low of almost \$410 per metric ton in 2002. The average price of newsprint for 2012 was approximately \$667 per metric ton. Recent and future consolidation of major newsprint suppliers may adversely affect price competition among suppliers. Significant increases in newsprint costs for properties and periods not covered by our newsprint vendor agreement could have a material adverse effect on our financial condition and results of operations.

We compete with a large number of companies in the local media industry; if we are unable to compete effectively, our advertising and circulation revenues may decline.

Our business is concentrated in newspapers and other print publications located primarily in small and midsize markets in the United States. Our revenues primarily consist of advertising and paid circulation. Competition for advertising revenues and paid circulation comes from direct mail, directories, radio, television, outdoor advertising, other newspaper publications, the internet and other media. For example, as the use of the internet and mobile devices has increased, we have lost some classified advertising and subscribers to online advertising businesses and our free internet sites that contain abbreviated versions of our publications. Competition for advertising revenues is based largely upon advertiser results, advertising rates, readership, demographics and circulation levels. Competition for circulation is based largely upon the content of the publication and its price and editorial quality. Our local and regional competitors vary from market to market and many of our competitors for advertising revenues are larger and have greater financial and distribution resources than us. We may incur increased costs competing for advertising expenditures and paid circulation. We may also experience a decline of circulation or print advertising revenue due to alternative media, such as the internet. If we are not able to compete effectively for advertising expenditures and paid circulation, our revenues may decline.

We are undertaking a strategic re-alignment of our business that could have a material adverse financial impact if unsuccessful.

We are undertaking a strategic re-alignment of our business. Among other things we are implementing the standardization and centralization of systems and process, the outsourcing of certain financial processes and the use of new software for our circulation, advertising and editorial systems. As a result of ongoing strategic evaluation and analysis, we have made and will continue to make changes that, if unsuccessful, could have a material adverse financial impact.

We have invested in growing our digital business, but such investments may not be as successful as expected which could adversely affect our results of operations.

We continue to evaluate our business and how we intend to grow our digital business. Internal resources and effort are put towards this business and key partnerships have been entered into to assist with our digital business. There can be no assurances that the partnerships we have entered into or the internal strategy being employed will result in generating or increasing digital revenues.

Table of Contents

If we are unable to retain and grow our digital audience and advertiser base, our digital businesses will be adversely affected.

Given the ever-growing and rapidly changing number of digital media options available on the internet, we may not be able to increase our online traffic sufficiently and retain or grow a base of frequent visitors to our websites and applications on mobile devices.

Accordingly, we may not be able to create sufficient advertiser interest in our digital businesses and to maintain or increase the advertising rates of the inventory on our websites.

Technological developments and any changes we make to our business model may require significant capital investments. Due to restrictions in our 2007 Credit Facility, we are limited in our ability to invest funds and resources in digital opportunities and our ability to undertake research and development in building and maintain the necessary and continually evolving technology infrastructure.

Our business is subject to seasonal and other fluctuations, which affects our revenues and operating results.

Our business is subject to seasonal fluctuations that we expect to continue to be reflected in our operating results in future periods. Our first fiscal quarter of the year tends to be our weakest quarter because advertising volume is at its lowest levels following the December holiday season. Correspondingly, our second and fourth fiscal quarters tend to be our strongest because they include heavy holiday and seasonal advertising. Other factors that affect our quarterly revenues and operating results may be beyond our control, including changes in the pricing policies of our competitors, the hiring and retention of key personnel, wage and cost pressures, distribution costs, changes in newsprint prices and general economic factors.

We could be adversely affected by continued declining circulation.

Overall daily newspaper circulation, including national and urban newspapers, has declined in recent years. There can be no assurance that our circulation will not continue to decline in the future. We have been able to maintain our annual circulation revenue from existing operations in recent years through, among other things, increases in our per copy prices. However, there can be no assurance that we will be able to continue to increase prices to offset any declines in circulation. Further declines in circulation could impair our ability to maintain or increase our advertising prices, cause purchasers of advertising in our publications to reduce or discontinue those purchases and discourage potential new advertising customers, all of which could have a material adverse effect on our business, financial condition, results of operations or cash flows.

The increasing popularity of digital media could also adversely affect circulation of our newspapers, which may decrease circulation revenue and cause more marked declines in print advertising. If we are not successful in offsetting such declines in revenues from our print products, our business, financial condition and prospects will be adversely affected.

We have a history of losses and may not be able to achieve or maintain profitable operations in the future.

We experienced losses from continuing operations of approximately \$28.7 million, \$22.5 million and \$27.4 million in 2012, 2011 and 2010, respectively. Our results of operations in the future will depend on many factors, including our ability to execute our business strategy and realize efficiencies through our clustering strategy. Our failure to achieve profitability in the future could adversely affect the trading price of our common stock and our ability to raise additional capital and, accordingly, our ability to grow or maintain our business.

The value of our intangible assets may become impaired, depending upon future operating results.

As of December 30, 2012, goodwill and other intangible assets were approximately \$232.7 million, or 49.5% of our total assets. To determine whether all or a portion of the carrying values of our goodwill and other intangible assets are no longer recoverable, which may require a charge to our earnings, we periodically evaluate

Table of Contents

such assets. During the first quarter of 2012, the Company reorganized its management structure to align with its publication types. The fair value of goodwill was allocated to each of the new reporting units: Small Community Newspapers, Large Daily Newspapers and Metro Newspapers. The Company determined that impairment indicators were present for the Metro Newspaper reporting unit, which had a goodwill balance of \$0.2. As of April 1, 2012 the Company performed a Step 1 analysis for this reporting unit and determined that its carrying value exceeded fair value. As a result of the Step 2 analysis, the entire \$0.2 of goodwill was impaired and this amount was subsequently reclassified to discontinued operations. The Company performed further analysis of this reporting unit's intangible assets and determined that additional impairments were not present. A review of impairment indicators was performed for the Company's other reporting units and it was determined that financial results and forecast had not changed materially since the June 26, 2011 impairment test and it was determined that indicators of impairment were not present.

We are subject to environmental and employee safety and health laws and regulations that could cause us to incur significant compliance expenditures and liabilities.

Our operations are subject to federal, state and local laws and regulations pertaining to the environment, storage tanks and the management and disposal of wastes at our facilities. Under various environmental laws, a current or previous owner or operator of real property may be liable for contamination resulting from the release or threatened release of hazardous or toxic substances or petroleum at that property. Such laws often impose liability on the owner or operator without regard to fault and the costs of any required investigation or cleanup can be substantial. Although in connection with certain of our acquisitions we have rights to indemnification for certain environmental liabilities, these rights may not be sufficient to reimburse us for all losses that we might incur if a property acquired by us has environmental contamination.

Our operations are also subject to various employee safety and health laws and regulations, including those pertaining to occupational injury and illness, employee exposure to hazardous materials and employee complaints. Environmental and employee safety and health laws tend to be complex, comprehensive and frequently changing. As a result, we may be involved from time to time in administrative and judicial proceedings and investigations related to environmental and employee safety and health issues. These proceedings and investigations could result in substantial costs to us, divert our management's attention and adversely affect our ability to sell, lease or develop our real property. Furthermore, if it is determined that we are not in compliance with applicable laws and regulations, or if our properties are contaminated, it could result in significant liabilities, fines or the suspension or interruption of the operations of specific printing facilities.

Future events, such as changes in existing laws and regulations, new laws or regulations or the discovery of conditions not currently known to us, may give rise to additional compliance or remedial costs that could be material.

Sustained increases in costs of employee health and welfare benefits may reduce our profitability. Moreover, our pension plan obligations are currently unfunded, and we may have to make significant cash contributions to our plans, which could reduce the cash available for our business.

In recent years, we have experienced significant increases in the cost of employee medical benefits because of economic factors beyond our control, including increases in health care costs. At least some of these factors may continue to put upward pressure on the cost of providing medical benefits. Although we have actively sought to control increases in these costs, there can be no assurance that we will succeed in limiting cost increases, and continued upward pressure could reduce the profitability of our businesses.

Our pension and post retirement plans were underfunded (accumulated benefit obligation) by \$15.5 million at December 30, 2012. Our pension plan invests in a variety of equity and debt securities, many of which were affected by the recent disruptions in the credit and capital markets in 2009 and 2010. Future volatility and disruption in the stock markets could cause further declines in the asset values of our pension plans. In addition, a

Table of Contents

decrease in the discount rate used to determine minimum funding requirements could result in increased future contributions. If either occurs, we may need to make additional pension contributions above what is currently estimated, which could reduce the cash available for our businesses.

We may not be able to protect intellectual property rights upon which our business relies and, if we lose intellectual property protection, our assets may lose value.

Our business depends on our intellectual property, including, but not limited to, our content and services, which we attempt to protect through patents, copyrights, trade laws and contractual restrictions, such as confidentiality agreements. We believe our proprietary and other intellectual property rights are important to our continued success and our competitive position.

Despite our efforts to protect our proprietary rights, unauthorized third parties may attempt to copy or otherwise obtain and use our content, services and other intellectual property, and we cannot be certain that the steps we have taken will prevent any misappropriation or confusion among consumers and merchants, or unauthorized use of these rights. If we are unable to procure, protect and enforce our intellectual property rights, we may not realize the full value of these assets, and our business may suffer. If we must litigate to enforce our intellectual property rights or determine the validity and scope of the proprietary rights of third parties, such litigation may be costly and divert the attention of our management from day-to-day operations.

We depend on key personnel and we may not be able to operate or grow our business effectively if we lose the services of any of our key personnel or are unable to attract qualified personnel in the future.

The success of our business is heavily dependent on our ability to retain our current management and other key personnel and to attract and retain qualified personnel in the future. Competition for senior management personnel is intense and we may not be able to retain our personnel. Although we have entered into employment agreements with certain of our key personnel, these agreements do not ensure that our key personnel will continue in their present capacity with us for any particular period of time. We do not have key man insurance for any of our current management or other key personnel. The loss of any key personnel would require our remaining key personnel to divert immediate and substantial attention to seeking a replacement. An inability to find a suitable replacement for any departing executive officer on a timely basis could adversely affect our ability to operate or grow our business.

A shortage of skilled or experienced employees in the media industry, or our inability to retain such employees, could pose a risk to achieving improved productivity and reducing costs, which could adversely affect our profitability.

Production and distribution of our various publications requires skilled and experienced employees. A shortage of such employees, or our inability to retain such employees, could have an adverse impact on our productivity and costs, our ability to expand, develop and distribute new products and our entry into new markets. The cost of retaining or hiring such employees could exceed our expectations which could adversely affect our results of operations.

A number of our employees are unionized, and our business and results of operations could be adversely affected if labor negotiations or contracts were to further restrict our ability to maximize the efficiency of our operations.

As of December 30, 2012, we employed approximately 4,565 employees, of whom approximately 691 (or approximately 15%) were represented by 23 unions. 95% of the unionized employees are represented by three of the 23 unions. These three unions are located in our Massachusetts, Illinois and Ohio locations and represent 27%, 38% and 30% of all employees in each of the locations, respectively. Most of our unionized employees work under collective bargaining agreements that expire in 2014.

Table of Contents

Although our newspapers have not experienced a union strike in the recent past nor do we anticipate a union strike occurring, we cannot preclude the possibility that a strike may occur at one or more of our newspapers at some point in the future. We believe that, in the event of a newspaper strike, we would be able to continue to publish and deliver to subscribers, which is critical to retaining advertising and circulation revenues, although there can be no assurance of this.

Our potential inability to successfully execute cost control measures could result in greater than expected total operating costs.

We have implemented general cost control measures, and expect to continue such cost control efforts in the future. If we do not achieve expected savings as a result of such measures or if our operating costs increase as a result of our growth strategy, our total operating costs may be greater than expected. In addition, reductions in staff and employee benefits could affect our ability to attract and retain key employees.

Our common stock trades in the over-the-counter market, which makes it less liquid, more volatile and harder for us to raise capital.

Our common stock is currently quoted on the OTC Bulletin Board under the trading symbol `GHSE`. No assurance can be given that our common stock will continue to be traded on any stock market, that any broker will make a market in our common stock, or that any active trading market in our common stock will exist. Broker-dealers often decline to trade in `pink sheet` stocks given that (i) the market for such securities is often limited, (ii) such securities are generally more volatile, and (iii) the risk to investors is generally greater. Moreover, additional requirements pertaining to broker-dealers generally makes it more difficult for such broker-dealers to recommend that their customers buy securities traded on the `pink sheets`. Consequently, selling our common stock can be difficult because smaller quantities of shares can be bought and sold, transactions can be delayed and securities analyst and media coverage of our Company is reduced. These factors could result in lower prices and larger spreads in the bid and ask prices for shares of our common stock as well as lower trading volume. We cannot provide any assurance that, even if our common stock continues to be listed or quoted on the `pink sheets` or another market or system, the market for our common stock will be as liquid. This lack of liquidity also could make it even more difficult for us to raise capital in the future, which in turn could have an adverse effect on our business.

Companies that are quoted on the pink sheets are not subject to corporate governance requirements in order for their shares to be quoted. As a result, our stockholders have less protection from conflicts of interest, related party transactions and similar matters.

Our common stock currently trades as an over-the-counter security on the `pink sheets`. Corporate governance requirements are not imposed on companies quoted on the `pink sheets`. As a result of our delisting from the NYSE, we are not required to comply with any, and our stockholders no longer have the protection of, various NYSE corporate governance requirements, including among others:

the requirement that a majority of our board of directors consist of independent directors;

the requirement that a minimum of three members of our board of directors consist of independent directors;

the requirement that we have an audit committee, a nominating committee and a compensation committee, in each case that is composed entirely of independent directors with a written charter addressing the committee's purpose and responsibilities;

the requirement for an annual performance evaluation of the audit, nominating and compensation committees; and

the requirement that our stockholders must be given the opportunity to vote on equity-compensation plans and material revisions thereto.

Table of Contents

We do not anticipate paying any dividends for the foreseeable future.

We suspended the payment of quarterly cash dividends commencing with the second quarter of 2008 and do not anticipate paying any cash dividends on, or making repurchases of, our common stock in the foreseeable future. We intend to retain future earnings, if any, to reduce leverage and increase liquidity, finance the expansion of our operations and for general corporate purposes. In addition, covenants in our 2007 Credit Facility restrict our ability to pay dividends and make certain other payments.

Risks Related to Our Organization and Structure

If the ownership of our common stock continues to be highly concentrated, it may prevent stockholders from influencing significant corporate decisions. Moreover, the interests of our principal stockholder may conflict with interests of our other stockholders.

As of December 30, 2012, Fortress beneficially owned approximately 39.6% of our outstanding common stock. As a result, Fortress will continue to have effective control over fundamental and significant corporate matters and transactions, including but not limited to: the election of directors; mergers, consolidations or acquisitions; the sale of all or substantially all of our assets (or any portion thereof) and other decisions affecting our capital structure; the amendment of our amended and restated certificate of incorporation and our amended and restated by-laws; and our dissolution. The interests of Fortress may not always coincide with our interests or the interest of our other stockholders. For example, Fortress could delay, deter or prevent acts that may be favored by our other stockholders such as hostile takeovers, changes in control and changes in management. As a result of such actions, the market price of our common stock could decline or stockholders might not receive a premium for their shares in connection with a change of control transaction.

Fortress has the right to, and has no duty to abstain from exercising such right to, engage or invest in the same or similar business as us.

Fortress, together with its affiliates, has other business activities in addition to their ownership of us. Under our amended and restated certificate of incorporation, Fortress has the right to, and has no duty to abstain from exercising such right to, engage or invest in the same or similar business as us, do business with any of our clients, customers or vendors or employ or otherwise engage any of our officers, directors or employees. If Fortress or any of its affiliates or any of their respective officers, directors or employees acquire knowledge of a potential transaction that could be a corporate opportunity, they have no duty to offer such corporate opportunity to us, our stockholders or our affiliates.

In the event that any of our directors and officers who is also a director, officer or employee of Fortress acquires knowledge of a corporate opportunity or is offered a corporate opportunity, provided that this knowledge was not acquired solely in such person's capacity as our director or officer and such person acted in good faith, such person is deemed to have fully satisfied such person's fiduciary duty and is not liable to us if Fortress pursues or acquires such corporate opportunity or if such person did not present the corporate opportunity to us.

Anti-takeover provisions in our amended and restated certificate of incorporation and our amended and restated by-laws may discourage, delay or prevent a merger or acquisition that stockholders may consider favorable or prevent the removal of our current board of directors and management.

Certain provisions of our amended and restated certificate of incorporation and our amended and restated by-laws may discourage, delay or prevent a merger or acquisition that stockholders may consider favorable or prevent the removal of our current board of directors and management. We have a number of anti-takeover devices in place that can hinder takeover attempts, including:

a staggered board of directors consisting of three classes of directors, each of whom serves a three-year term;

Table of Contents

removal of directors only for cause and only with the affirmative vote of at least 80% of the voting interest of stockholders entitled to vote;

blank-check preferred stock;

provisions in our amended and restated certificate of incorporation and amended and restated by-laws preventing stockholders from calling special meetings or acting by written consent in lieu of a meeting (with the exception of Fortress, so long as Fortress beneficially owns at least 50% of our issued and outstanding common stock);

advance notice requirements for stockholders with respect to director nominations and actions to be taken at annual meetings; and

no provision in our amended and restated certificate of incorporation for cumulative voting in the election of directors, which means that the holders of a majority of the outstanding shares of our common stock can elect all the directors standing for election.

Our 2007 Credit Facility currently limits our ability to enter into certain change of control transactions, the occurrence of which would constitute an event of default. However, our amended and restated certificate of incorporation provides that Section 203 of the Delaware General Corporation Law, which restricts certain business combinations with interested stockholders in certain situations, will not apply to us. This may make it easier for a third party to acquire an interest in some or all of our Company with Fortress approval, even though our other stockholders may not deem such an acquisition beneficial to their interests.

We are a holding company and our access to the cash flow of our subsidiaries is subject to restrictions imposed by our indebtedness.

We are a holding company with no material direct operations. Our principal assets are the equity interests we own in our direct subsidiary, GateHouse Media Holdco, Inc. (Holdco), through which we indirectly own equity interests in our operating subsidiaries. As a result, we are dependent on loans, dividends and other payments from our subsidiaries to generate the funds necessary to meet our financial obligations. Our subsidiaries are legally distinct from us and have no obligation to make funds available to us. Holdco and certain of its subsidiaries are parties to our 2007 Credit Facility, which imposes restrictions on their ability to make loans, dividend payments or other payments to us. Any payments of dividends to us are subject to the satisfaction of certain financial conditions set forth in our 2007 Credit Facility. Our ability to comply with these conditions may be affected by events that are beyond our control. We expect future borrowings by our subsidiaries to contain restrictions or prohibitions on the payment of dividends to us.

Item 1B. Unresolved Staff Comments

None.

Item 2. Properties

We own and operate 32 print facilities across the United States. Our print facilities range in size from approximately 500 to 55,000 square feet. Our executive offices are located in Fairport, New York, where we lease approximately 15,000 square feet under a lease terminating in June 2014.

We maintain our properties in good condition and believe that our current facilities are adequate to meet the present needs of our business. We do not believe any individual property is material to our financial condition or results of operations.

Item 3. Legal Proceedings

We become involved from time to time in claims and lawsuits incidental to the ordinary course of our business, including such matters as libel, invasion of privacy, intellectual property infringement, wrongful

Table of Contents

termination actions, and complaints alleging discrimination. In addition, we are involved from time to time in governmental and administrative proceedings concerning employment, labor, environmental and other claims. Insurance coverage mitigates potential loss for certain of these matters. Historically, such claims and proceedings have not had a material adverse effect upon our consolidated results of operations or financial condition. While we are unable to predict the ultimate outcome of any currently outstanding legal actions, we believe that it is not a likely possibility that the disposition of these matters would have a material adverse effect upon our consolidated results of operations, financial condition or cash flow.

Item 4. Mine Safety Disclosures

Not applicable.

Table of Contents**PART II****Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities**
Market Information

Our common stock is currently quoted on the OTC Bulletin Board (OTCBB) under the trading symbol GHSE. The following table shows the high and low sale bid information of our common stock as reported on the OTCBB for the periods indicated. Reported prices from the OTCBB reflect inter-dealer prices, without retail mark-up, mark-down or commission and may not necessarily represent actual transactions.

	High	Low
Year Ended December 30, 2012		
Fourth Quarter	\$ 0.10	\$ 0.03
Third Quarter	\$ 0.09	\$ 0.05
Second Quarter	\$ 0.06	\$ 0.04
First Quarter	\$ 0.10	\$ 0.03
Year Ended January 1, 2012		
Fourth Quarter	\$ 0.10	\$ 0.03
Third Quarter	\$ 0.14	\$ 0.04
Second Quarter	\$ 0.20	\$ 0.10
First Quarter	\$ 0.19	\$ 0.08

The closing sale price for our common stock as reported on the over-the-counter market on March 4, 2013 was \$0.06 per share. From the most recent available Company information, there were approximately 22 holders of record and approximately 3,390 beneficial owners registered in nominee and street name.

Dividends

We suspended the payment of quarterly dividends commencing with the second quarter of 2008 and we do not anticipate paying any cash dividends on our common stock in the foreseeable future. In addition, covenants in our 2007 Credit Facility and other credit facilities restrict our ability to pay dividends or make certain other payments.

Table of Contents**Item 6. Selected Financial Data**

The following table presents our selected historical financial data as of and for each of the years in the five year period ended December 30, 2012. The information in this table should be read in conjunction with the information under Management's Discussion and Analysis of Financial Condition and Results of Operations, Business and our historical consolidated financial statements and the related notes thereto included elsewhere in this report.

--------------------	-----------	-----------	-----------	-----------	-----------

- (1) We define Adjusted EBITDA as net income (loss) from continuing operations before income tax expense (benefit), interest/financing expense, depreciation and amortization and non-cash impairments. Adjusted EBITDA is not a measurement of financial performance under GAAP and should not be considered in isolation or as an alternative to income from operations, net income (loss), cash flow from continuing

Table of Contents

operating activities or any other measure of performance or liquidity derived in accordance with GAAP. We believe this non-GAAP measure, as we have defined it, is helpful in identifying trends in our day-to-day performance because the items excluded have little or no significance in our day-to-day operations. This measure provides an assessment of controllable expenses and affords management the ability to make decisions which are expected to facilitate meeting current financial goals as well as achieve optimal financial performance.

Adjusted EBITDA provides an indicator for management to determine if adjustments to current spending decisions are needed.

Adjusted EBITDA provides us with a measure of financial performance, independent of items that are beyond the control of management in the short-term, such as depreciation and amortization, taxation and interest expense associated with our capital structure. This metric measures our financial performance based on operational factors that management can impact in the short-term, namely our cost structure or expenses of the organization. Adjusted EBITDA is one of the metrics used by senior management and the board of directors to review the financial performance of our business on a monthly basis.

Not all companies calculate Adjusted EBITDA using the same methods; therefore, the Adjusted EBITDA figures set forth herein may not be comparable to Adjusted EBITDA reported by other companies. A substantial portion of our Adjusted EBITDA must be dedicated to the payment of interest on our outstanding indebtedness and to service other commitments, thereby reducing the funds available to us for other purposes. Accordingly, Adjusted EBITDA does not represent an amount of funds that is available for management's discretionary use. See Management's Discussion and Analysis of Financial Condition and Results of Operations in Item 7 of this report.

(2) The year ended January 1, 2012 included a 53rd week of operations for approximately 60% of the business.

Table of Contents

The table below shows the reconciliation of income (loss) from continuing operations to Adjusted EBITDA for the periods presented:

	Year Ended December 30, 2012	Year Ended January 1, 2012 ⁽³⁾	Year Ended December 31, 2010 (In Thousands)	Year Ended December 31, 2009	Year Ended December 31, 2008
Loss from continuing operations	\$ (28,747)	\$ (22,511)	\$ (27,383)	\$ (513,099)	\$ (659,486)
Income tax expense (benefit)	(207)	(1,803)	(155)	342	(21,139)
(Gain) loss on derivative instruments ⁽¹⁾	(1,635)	(913)	8,277	12,672	10,119
Gain on early extinguishment of debt ⁽²⁾				(7,538)	
Amortization of deferred financing costs	1,255	1,360	1,360	1,360	1,845
Write-off of financing costs				743	
Interest expense	57,928	58,316	60,034	64,631	88,630
Impairment of long-lived assets		1,733	430	193,503	123,717
Depreciation and amortization	40,033	42,583	45,137	54,294	69,923
Goodwill and mastheads impairment		385		274,138	488,543
Adjusted EBITDA from continuing operations	\$ 68,627 ^(a)	\$ 79,150 ^(b)	\$ 87,700 ^(c)	\$ 81,046 ^(d)	\$ 102,152 ^(e)

(a) Adjusted EBITDA for the year ended December 30, 2012 included net expenses of \$11,017, which are one time in nature or non-cash compensation. Included in these net expenses of \$11,017 are non-cash compensation and other expenses of \$6,274, non-cash portion of post-retirement benefits expense of \$(896), integration and reorganization costs of \$4,401 and a \$1,238 loss on the sale of assets. Adjusted EBITDA also does not include \$1,386 of EBITDA generated from our discontinued operations.

(b) Adjusted EBITDA for the year ended January 1, 2012 included net expenses of \$9,461, which are one time in nature or non-cash compensation. Included in these net expenses of \$9,461 are non-cash compensation and other expenses of \$4,226, non-cash portion of post-retirement benefits expense of \$(1,104), integration and reorganization costs of \$5,884 and an \$455 loss on the sale of assets. Adjusted EBITDA also does not include \$1,829 of EBITDA generated from our discontinued operations.

(c) Adjusted EBITDA for the year ended December 31, 2010 included net expenses of \$8,231, which are one time in nature or non-cash compensation. Included in these net expenses of \$8,231 are non-cash compensation and other expenses of \$5,005, non-cash portion of post-retirement benefits expense of \$(649), integration and reorganization costs of \$2,324 and a \$1,551 loss on the sale of assets. Adjusted EBITDA also does not include \$2,274 of EBITDA generated from our discontinued operations.

(d) Adjusted EBITDA for the year ended December 31, 2009 included net expenses of \$9,291, which are one time in nature or non-cash compensation. Included in these net expenses of \$9,291 are non-cash compensation and other expenses of \$8,634, non-cash portion of post-retirement benefits expense of \$(782), integration and reorganization costs of \$1,857 and a \$418 gain on the sale of assets. Adjusted EBITDA also does not include \$668 of EBITDA generated from our discontinued operations.

(e) Adjusted EBITDA for the year ended December 31, 2008 included net expenses of \$24,047, which are one time in nature or non-cash compensation. Included in these net expenses of \$24,047 are non-cash compensation and other expenses of \$18,198, non-cash portion of

Edgar Filing: GateHouse Media, Inc. - Form ARS

post-retirement benefits expense of \$(1,499), integration and reorganization costs of \$7,011 and \$337 loss on the sale of assets. Adjusted EBITDA also does not include \$5,175 of EBITDA generated from our discontinued operations.

Table of Contents

- (1) Non-cash (gain) loss on derivative instruments is related to interest rate swap agreements which are financing related and are excluded from Adjusted EBITDA.
- (2) Non-cash write-off of deferred financing costs are similar to interest expense and amortization of financing fees and are excluded from Adjusted EBITDA.
- (3) The year ended January 1, 2012 included a 53rd week of operations for approximately 60% of the business.

	December 30, 2012	January 1, 2012	As of December 31, 2010 (In Thousands)	December 31, 2009	December 31, 2008

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion of our financial condition and results of operations should be read in conjunction with our historical consolidated financial statements and notes to those statements and pro forma results of operations appearing in this report. The discussion and analysis below includes certain forward-looking statements that are subject to risks, uncertainties and other factors under the heading "Risk Factors" and elsewhere in this report that could cause our actual future growth, results of operations, performance and business prospects and opportunities to differ materially from those expressed in, or implied by, such forward-looking statements. See "Cautionary Note Regarding Forward-Looking Information" at the beginning of this report.

Overview

We are one of the largest publishers of locally based print and digital media in the United States as measured by number of daily publications. Our business model is to be the preeminent provider of local content and advertising in the small and midsize markets that we serve. Our portfolio of products, which includes 406 community publications, 342 related websites, 339 mobile sites and six yellow page directories, serves over 128,000 business advertising accounts and reaches approximately 10 million people on a weekly basis.

Our core products include:

78 daily newspapers with total paid circulation of approximately 597,000;

237 weekly newspapers (published up to three times per week) with total paid circulation of approximately 307,000 and total free circulation of approximately 684,000;

91 shoppers (generally advertising-only publications) with total circulation of approximately 1.5 million;

342 locally focused websites and 339 mobile sites, which extend our franchises onto the internet and mobile devices with approximately 97 million page views per month; and

six yellow page directories, with a distribution of approximately 488,000, that covers a population of approximately 1.2 million people.

In addition to our core products, we also opportunistically produce niche publications that address specific local market interests such as recreation, sports, healthcare and real estate. Over the last twelve months, we created approximately 42 niche publications. We are also focused on developing online and mobile products, including digital marketing services, deal platforms, mobile websites and applications.

We were incorporated in Delaware in 1997 for purposes of acquiring a portion of the daily and weekly newspapers owned by American Publishing Company. On May 9, 2005, FIF III Liberty Holdings LLC, an affiliate of Fortress, entered into an Agreement and Plan of Merger with us pursuant to which a wholly-owned subsidiary of FIF III Liberty Holdings LLC merged with and into us (the "Merger"). The Merger was effective on June 6, 2005, thus making FIF III Liberty Holdings LLC our principal and controlling stockholder. As of December 30, 2012, Fortress beneficially owned approximately 39.6% of our outstanding common stock.

Since 1998, we have launched numerous new products and acquired 416 daily and weekly newspapers and shoppers, including 17 dailies, 120 weeklies and 22 shoppers acquired in the acquisitions of CP Media and Enterprise NewsMedia, LLC, the Copley Press, Inc. newspapers and the Gannett Co., Inc. newspapers. Due to the economic environment and our lack of available financing, we discontinued our acquisition strategy in 2009.

We generate revenues from advertising, circulation and commercial printing. Advertising revenue is recognized upon publication of the advertisements. Circulation revenue from subscribers, which is typically billed to customers at the beginning of the subscription period, is recognized on a straight-line basis over the term of the related subscription. The revenue for commercial printing is recognized upon delivery of the printed product to our customers. Directory revenue is recognized on a straight-line basis over the period in which the corresponding directory is distributed and in use in the market.

Table of Contents

Our advertising revenue tends to follow a seasonal pattern, with higher advertising revenue in months containing significant events or holidays. Accordingly, our first quarter, followed by our third quarter, historically are our weakest quarters of the year in terms of revenue. Correspondingly, our second and fourth fiscal quarters, historically, are our strongest quarters. We expect that this seasonality will continue to affect our advertising revenue in future periods.

We have experienced declines in print advertising revenue streams from continuing operations, despite our geographic diversity, well-balanced portfolio of products, strong local franchises, broad customer base and reliance on smaller markets. We believe the declines in print advertising revenue we have experienced are primarily the result of general economic weakness, fewer local businesses that were traditional newspaper advertisers, as a result of being acquired or closing due to the national big box retailer expansion, and the secular pressure which has resulted in a shift of advertising dollars from print media to digital media. We believe our local advertising tends to be less sensitive to economic cycles than national advertising because local businesses generally have fewer advertising channels through which to reach their target audience. We also believe some of the decline is due to a secular shift from print media to digital media. The Company continues to invest in digital platforms, such as online, mobile and applications, to support its print publications in order to lessen the impact of this shift.

Our operating costs consist primarily of labor, newsprint, and delivery costs. Our selling, general and administrative expenses consist primarily of labor costs.

Labor represents just over 50% of our operating expenses. Beginning in 2008 we initiated an effort to drive efficiencies and centralization of work throughout the organization.

Newsprint prices rose from the later part of 2009 through 2010 and remained flat from the latter part of 2010 through 2012. We expect 2013 prices to decline about 5%. We have taken steps to mitigate risk of potential price increases through a fixed price agreement for approximately 95% of our 2013 purchases combined with consumption control. In addition, we are a member of a newsprint-buying consortium which enables our local publishers to obtain favorable pricing as compared to the general market. Additionally, we have taken steps to cluster our operations thereby increasing the usage of facilities and equipment while increasing the productivity of our labor force. We expect to continue to employ these steps as part of our business and clustering strategy.

Recent Developments

The newspaper industry and our Company have experienced declining same store revenue and profitability over the past several years. These trends have eliminated the availability to us of additional borrowings under our 2007 Credit Facility. As a result, we previously implemented plans to reduce costs, preserve cash flow and strengthen liquidity. This includes the suspension of the payment of cash dividends, the continued implementation of cost reduction programs, and the sale of non-core assets. We believe these initiatives will provide the financial resources necessary to invest in the business and ensure our future success and provide sufficient cash flow to enable us to meet our commitments for the next year.

General economic conditions, including declines in consumer confidence, continued high unemployment levels, declines in real estate values, and other trends, have also impacted the markets in which we operate. Additionally, media companies continue to be impacted by the migration of consumers and businesses to an internet and mobile-based, digital medium. These conditions may continue to negatively impact print advertising and other revenue sources as well as increase operating costs in the future. Management believes that we have adequate capital resources and liquidity to meet our working capital needs, borrowing obligations and all required capital expenditures for at least the next twelve months.

We periodically perform testing for impairment of goodwill and newspaper mastheads in which the fair value of our reporting units for goodwill impairment testing and individual newspaper mastheads were estimated using the expected present value of future cash flows and recent industry transaction multiples, using estimates,

Table of Contents

judgments and assumptions, that we believe were appropriate in the circumstances. Should general economic, market or business conditions decline, and have a negative impact on estimates of future cash flow and market transaction multiples, we may be required to record additional impairment charges in the future.

During 2008, our credit rating was downgraded to be rated below-investment grade by both Standard & Poor's and Moody's Investors Service and was further downgraded in 2009 and 2010. Any future long-term borrowing or the extension or replacement of our short-term borrowing will reflect the negative impact of these ratings, increase our borrowing costs, limit our financing options and subject us to more restrictive covenants than our existing debt arrangements. Additional downgrades in our credit ratings could further increase our borrowing cost, subject us to more onerous borrowing terms and reduce or eliminate our borrowing flexibility in the future.

The current economic environment in our industry and its resulting impact on us has limited our ability to grow further through acquisitions in the near-term. We are highly focused on our business transformational strategy which includes; a) driving permanent cost reduction and cost realignment towards growth opportunities, b) accelerate digital growth in terms of both revenue and audience, c) grow consumer revenues, including circulation, in both print and digital, largely through new products, services, and pricing initiatives, d) preserve the power of print by improving the quality of our content and stabilize our advertising revenues, and e) develop and grow new businesses through GateHouse Ventures by leveraging our core strengths and assets and expanding beyond our existing geographical footprints.

During the first quarter of 2012, we reorganized our management structure to align with our publication types. The resulting operating segments are: Large Community Newspapers, Small Community Newspapers, and Directories. These operating segments are aggregated into one reportable business segment.

In February 2013, the US Postal Service announced that it will end Saturday delivery beginning in August 2013. The Company is evaluating the impact of this change, but does not expect it to be material.

Critical Accounting Policy Disclosure

The preparation of financial statements in conformity with GAAP requires management to make estimates and judgments that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of revenue and expenses during the reporting period. We base our estimates and judgments on historical experience and other assumptions that we find reasonable under the circumstances. Actual results may differ from such estimates under different conditions. The following accounting policies require significant estimates and judgments.

Goodwill and Long-Lived Assets

We assess the potential impairment of goodwill and intangible assets with indefinite lives on an annual basis in accordance with the provisions of the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 350 *Intangibles Goodwill and Other* (ASC 350). We perform our impairment analysis on each of our reporting units, represented by our six regions. The regions have discrete financial information and are regularly reviewed by management. The fair value of the applicable reporting unit is compared to its carrying value. Calculating the fair value of a reporting unit requires us to make significant estimates and assumptions. We estimate fair value by applying third-party market value indicators to projected cash flows and/or projected earnings before interest, taxes, depreciation, and amortization. In applying this methodology, we rely on a number of factors, including current operating results and cash flows, expected future operating results and cash flows, future business plans, and market data. If the carrying value of the reporting unit exceeds the estimate of fair value, we calculate the impairment as the excess of the carrying value of goodwill over its implied fair value.

We account for long-lived assets in accordance with the provisions of FASB ASC Topic 360, *Property, Plant and Equipment* (ASC 360). We assess the recoverability of our long-lived assets, including property,

Table of Contents

plant and equipment and definite lived intangible assets, whenever events or changes in business circumstances indicate the carrying amount of the assets, or related group of assets, may not be fully recoverable. Factors leading to impairment include significant under-performance relative to historical or projected results, significant changes in the manner of use of the acquired assets or the strategy for our overall business and significant negative industry or economic trends. The assessment of recoverability is based on management's estimates. If undiscounted projected future operating cash flows do not exceed the net book value of the long-lived assets, then a permanent impairment has occurred. We would record the difference between the net book value of the long-lived asset and the fair value of such asset as a charge against income in our consolidated statements of operations if such a difference arose.

The fair values of our reporting units for goodwill impairment testing and individual newspaper mastheads are estimated using the expected present value of future cash flows, recent industry transaction multiples and using estimates, judgments and assumptions that management believes are appropriate in the circumstances.

The sum of the fair values of the reporting units are reconciled to our current market capitalization (based upon the stock market price) plus an estimated control premium.

Significant judgment is required in determining the fair value of our goodwill and long-lived assets to measure impairment, including the determination of multiples of revenue and Adjusted EBITDA and future earnings projections. The estimates and judgments that most significantly affect the future cash flow estimates are assumptions related to revenue, and in particular, potential changes in future advertising (including the impact of economic trends and the speed of conversion of advertising and readership to online products from traditional print products); trends in newsprint prices; and other operating expense items.

We performed annual impairment testing of goodwill and indefinite lived intangible assets during the second quarter of 2012, 2011 and 2010. Additionally, we performed impairment testing of goodwill and indefinite lived intangibles during the first quarter of 2012 and the fourth quarter of 2011 due to operational management changes. As a result, impairment charges related to goodwill were recorded in fiscal 2012 and 2011, see additional information in Note 5 to the Consolidated Financial Statements.

Newspaper mastheads (newspaper titles and website domain names) are not subject to amortization and are tested for impairment annually, or more frequently if events or changes in circumstances indicate that the asset might be impaired. The impairment test consists of a comparison of the fair value of each group of mastheads with their carrying amount. We used a relief from royalty approach which utilizes a discounted cash flow model to determine the fair value of each newspaper masthead. Our judgments and estimates of future operating results in determining the reporting unit fair values are consistently in determining the fair value of mastheads. We performed impairment tests on newspaper mastheads as of July 1, 2012, April 1, 2012, January 1, 2012, June 26, 2011 and June 30, 2010. See Note 5 to the Consolidated Financial Statements for a discussion of the impairment charges taken.

Intangible assets subject to amortization (primarily advertiser and subscriber lists) are tested for recoverability whenever events or change in circumstances indicate that their carrying amounts may not be recoverable. The carrying amount of each asset group is not recoverable if it exceeds the sum of the undiscounted cash flows expected to result from the use of such asset group. We performed impairment tests on long lived assets (including intangible assets subject to amortization) as of July 1, 2012, June 26, 2011 and June 30, 2010. See Note 5 to the Consolidated Financial Statements for a discussion of the impairment charges taken.

The newspaper industry and our Company have experienced declining same store revenue and profitability over the past several years. Should general economic, market or business conditions decline, and have a negative impact on estimates of future cash flow and market transaction multiples, we may be required to record additional impairment charges in the future.

Table of Contents

Derivative Instruments

We record all of our derivative instruments on our balance sheet at fair value pursuant to FASB ASC Topic 815, *Derivatives and Hedging* (ASC 815) and FASB ASC Topic 820 *Fair Value Measurements and Disclosures* (ASC 820). Fair value is based on counterparty quotations adjusted for our credit related risk. Our derivative instruments are measured using significant unobservable inputs and they represent all liabilities measured at fair value. To the extent a derivative qualifies as a cash flow hedge under ASC 815, unrealized changes in the fair value of the derivative are recognized in accumulated other comprehensive income. However, any ineffective portion of a derivative's change in fair value is recognized immediately in earnings. Fair values of derivatives are subject to significant variability based on market conditions, such as future levels of interest rates. This variability could result in a significant increase or decrease in our accumulated other comprehensive income and/or earnings but will generally have no effect on cash flows, provided the derivative is carried through to full term. We also assess the capabilities of our counterparties to perform under the terms of the contracts. A change in the assessment could have an impact on the accounting and economics of our derivatives.

Revenue Recognition

Advertising revenue is recognized upon publication of the advertisement. Circulation revenue from subscribers is billed to customers at the beginning of the subscription period and is recognized on a straight-line basis over the term of the related subscription. Circulation revenue from single copy sales is recognized at the time of sale. Revenue for commercial printing is recognized upon delivery. Directory revenue is recognized on a straight-line basis over the period in which the corresponding directory is distributed.

Income Taxes

We account for income taxes under the provisions of FASB ASC Topic 740, *Income Taxes* (ASC 740). Under this method, deferred tax assets and liabilities are determined based on the difference between the financial statement and tax bases of assets and liabilities using tax rates in effect for the year in which the differences are expected to affect taxable income. The assessment of the realizability of deferred tax assets involves a high degree of judgment and complexity. Valuation allowances are established when necessary to reduce deferred tax assets to the amounts that are expected to be realized. When we determine that it is more likely than not that we will be able to realize our deferred tax assets in the future in excess of our net recorded amount, an adjustment to the deferred tax asset would be made and reflected either in income or as an adjustment to goodwill. This determination will be made by considering various factors, including our expected future results, that in our judgment will make it more likely than not that these deferred tax assets will be realized.

Financial Accounting Standards Board (FASB) issued Interpretation No. 48, *Accounting for Uncertainty in Income Taxes, an interpretation of SFAS No. 109* (FIN 48) and now codified as ASC 740. ASC 740 prescribes a comprehensive model for how a company should recognize, measure, present and disclose in its financial statements uncertain tax positions that a company has taken or expects to take on a tax return. Under ASC 740, the financial statements will reflect expected future tax consequences of such positions presuming the taxing authorities' full knowledge of the position and all relevant facts, but without considering time values.

Pension and Postretirement Liabilities

FASB ASC Topic 715, *Compensation Retirement Benefits* (ASC 715) requires recognition of an asset or liability in the consolidated balance sheet reflecting the funded status of pension and other postretirement benefit plans such as retiree health and life, with current-year changes in the funded status recognized in the statement of stockholders' equity.

The determination of pension plan obligations and expense is based on a number of actuarial assumptions. Two critical assumptions are the expected long-term rate of return on plan assets and the discount rate applied to pension plan obligations. For other postretirement benefit plans, which provide for certain health care and life insurance benefits for qualifying retired employees and which are not funded, critical assumptions in determining other postretirement benefit obligations and expense are the discount rate and the assumed health care cost-trend rates.

Table of Contents

Our only pension plan has assets valued at \$18.2 million and the plans benefit obligation is \$27.1 million resulting in the plan being 67% funded.

To determine the expected long-term rate of return on pension plan assets, we consider the current and expected asset allocations, as well as historical and expected returns on various categories of plan assets, input from the actuaries and investment consultants, and long-term inflation assumptions. We used an assumption of 7.75% for its expected return on pension plan assets for 2012. If we were to reduce its rate of return by 50 basis points then the expense for 2012 would have increased approximately \$0.1 million.

We developed our discount rate for our other postretirement benefit plans using the same methodology as that described for the pension. The assumed health care cost-trend rate also affects other postretirement benefit liabilities and expense. A 100 basis point increase in the health care cost trend rate would result in an increase of approximately \$0.4 million in the December 30, 2012 postretirement benefit obligation and a 100 basis point decrease in the health care cost trend rate would result in a decrease of approximately \$0.4 million in the December 30, 2012 postretirement benefit obligation.

Self-Insurance Liability Accruals

We maintain self-insured medical and workers compensation programs. We purchase stop loss coverage from third parties which limits our exposure to large claims. We record a liability for healthcare and workers compensation costs during the period in which they occur as well as an estimate of incurred but not reported claims.

Results of Operations

The following table summarizes our historical results of operations for the years ended December 30, 2012, January 1, 2012 and December 31, 2010.

	Year Ended December 30, 2012	Year Ended January 1, 2012 (In Thousands)	Year Ended December 31, 2010
Revenues:			
Advertising	\$ 331,419	\$ 357,629	\$ 386,069
Circulation	133,358	133,571	135,691
Commercial printing and other	26,187	25,763	26,057
Total revenues	490,964	516,963	547,817
Operating costs and expenses:			
Operating costs	270,749	284,864	300,127
Selling, general and administrative	145,997	147,459	156,253
Depreciation and amortization	40,033	42,583	45,137
Integration and reorganization costs	4,401	5,884	2,324
Impairment of long-lived assets		1,733	430
Loss on sale of assets	1,238	455	1,551
Goodwill and mastheads impairment		385	
Operating income	28,546	33,600	41,995
Interest expense	57,928	58,316	60,034
Amortization of deferred financing costs	1,255	1,360	1,360
(Gain) loss on derivative instruments	(1,635)	(913)	8,277
Other income	(48)	(849)	(138)
Loss from continuing operations before income taxes	(28,954)	(24,314)	(27,538)
Income tax benefit	(207)	(1,803)	(155)
Loss from continuing operations	\$ (28,747)	\$ (22,511)	\$ (27,383)

Table of Contents***Year Ended December 30, 2012 Compared To Year Ended January 1, 2012***

Comparisons to the prior year were impacted by two factors around the number of days in the reporting period. First, there was a 53rd week in 2011 for approximately 60% of the business already on a 52 week (5-4-4 quarterly) reporting cycle. Also in 2011, the remaining 40% of the Company changed its reporting cycle from a calendar year to a 52 week reporting cycle in order to be consistent with the rest of the Company. We estimate the 53rd week in 2011 resulted in \$4.8 million of revenue and \$3.8 million of operating and selling, general and administrative expense. Comparisons below have not been adjusted for this calendar change.

Revenue. Total revenue for the year ended December 30, 2012 decreased by \$26.0 million, or 5.0%, to \$491.0 million from \$517.0 million for the year ended January 1, 2012. The difference between same store revenue and GAAP revenue for the current period is immaterial, therefore, further revenue discussions will be limited to GAAP results. The decrease in total revenue was comprised of a \$26.2 million, or 7.3%, decrease in advertising revenue and a \$0.2 million, or 0.2%, decrease in circulation revenue which was partially offset by a \$0.4 million, or 1.6%, increase in commercial printing and other revenue. Advertising revenue declines were primarily driven by declines on the print side of our business in the local retail and classified categories, which were partially offset by growth in digital advertising. The local retail print declines reflect both secular pressures and an uncertain and weak economic environment. These secular trends and economic conditions have also led to a decline in our print circulation volumes which have been offset by price increases in select locations. Our circulation revenue was also impacted by approximately \$1.5 million for a net to gross accounting change due to a change from a carrier to a distributor model at one of our largest locations. The \$0.4 million increase in commercial printing and other revenue is primarily the result of the launch of our small business marketing services and the stabilizing of our commercial printing operations during 2012.

Operating Costs. Operating costs for the year ended December 30, 2012 decreased by \$14.1 million, or 5.0%, to \$270.7 million from \$284.8 million for the year ended January 1, 2012. The decrease in operating costs was primarily due to a decrease in compensation expenses, newsprint and ink, delivery and utility expenses of \$12.6 million, \$6.5 million, \$3.4 million and \$0.8 million, respectively, which were partially offset by an increase in outside services of \$9.0 million. This decrease is the result of permanent cost reductions as we continue to work to consolidate operations and improve the productivity of our labor force.

Selling, General and Administrative. Selling, general and administrative expenses for the year ended December 30, 2012 decreased by \$1.5 million, or 1.0%, to \$146.0 million from \$147.5 million for the year ended January 1, 2012. The decrease in selling, general and administrative expenses was primarily due to a decrease in compensation of \$1.7 million. We expect that the majority of these reductions will be permanent in nature.

Depreciation and Amortization. Depreciation and amortization expense for the year ended December 30, 2012 decreased by \$2.6 million to \$40.0 million from \$42.6 million for the year ended January 1, 2012. The decrease in depreciation and amortization expense was primarily due to the sale and disposal of assets in 2011 and 2012, which reduced depreciation expense.

Integration and Reorganization Costs. During the years ended December 30, 2012 and January 1, 2012, we recorded integration and reorganization costs of \$4.4 million and \$5.9 million, respectively, primarily resulting from severance costs related to the consolidation of certain print and other operations.

Impairment of Long-Lived Assets. During the year ended January 1, 2012 we incurred an impairment charge of \$1.7 million related to the consolidation of our print operations and property, plant and equipment which were classified as held for sale. There were no such charges during the year ended December 30, 2012.

Goodwill and Mastheads Impairment. During the year ended January 1, 2012, we recorded a \$0.4 million impairment on our goodwill due to an operational management change in the fourth quarter of 2011 which transferred a goodwill balance of \$0.4 million to a reporting unit that previously did not have a goodwill balance. A similar operational change occurred in the first quarter of 2012 and resulted in a \$0.2 million impairment that was subsequently reclassified to discontinued operations.

Table of Contents

Interest Expense. Total interest expense for the year ended December 30, 2012 decreased by \$0.4 million, or 0.7%, to \$57.9 million from \$58.3 million for the year ended January 1, 2012. The decrease was due to declines in interest rates and their related impact on the unhedged position or our debt and a slight decrease in our total outstanding debt.

(Gain) Loss on Derivative Instruments. During the years ended December 30, 2012 and January 1, 2012, we recorded a net gain of \$1.6 million and \$0.9 million, respectively, which was comprised of reclassifications of accumulated other comprehensive income amortization related to swaps terminated in 2008 that were partially offset by the impact of the ineffectiveness of our remaining swap agreements.

Income Tax Benefit. During the year ended December 30, 2012, we recorded an income tax benefit of \$0.2 million due to a reduction in uncertain tax positions which was partially offset by a tax expense due to the elimination of the tax effect related to the expiration of a previously terminated swap that could be fully recognized for tax purposes in the current year. During the year ended January 1, 2012, we recorded an income tax benefit of \$1.8 million primarily due to the elimination of the tax effect related to the expiration of a previously terminated swap that could be fully recognized for tax purposes in the current year.

Net Loss from Continuing Operations. Net loss from continuing operations for the year ended December 30, 2012 was \$28.7 million. Net loss from continuing operations for the year ended January 1, 2012 was \$22.5 million. Our net loss from continuing operations increased due to the factors noted above.

Year Ended January 1, 2012 Compared To Year Ended December 31, 2010

Comparisons to the prior year were impacted by two factors around the number of days in the reporting period. First, there was a 53rd week in 2011 for approximately 60% of the business already on a 52 week (5-4-4 quarterly) reporting cycle. Also in 2011, the remaining 40% of the Company changed its reporting cycle from a calendar year to a 52 week reporting cycle in order to be consistent with the rest of the Company, which resulted in a one additional day for the year. The discussion of our results of operations that follows is based upon our historical results of operations for the years ended January 1, 2012 and December 31, 2010.

Revenue. Total revenue for the year ended January 1, 2012 decreased by \$30.8 million, or 5.6%, to \$517.0 million from \$547.8 million for the year ended December 31, 2010. The difference between same store revenue and GAAP revenue for the current period is immaterial, therefore, further revenue discussions will be limited to GAAP results. We estimate the impact of the 53rd week to be \$4.8 million on total revenue, comparisons below have not been adjusted for this impact. The decrease in total revenue was comprised of a \$28.4 million, or 7.4%, decrease in advertising revenue, a \$2.1 million, or 1.6%, decrease in circulation revenue and a \$0.3 million, or 1.1%, decrease in commercial printing and other revenue. Advertising revenue declines were primarily driven by declines on the print side of our business in the local retail and classified categories which were partially offset by growth in digital. The print declines reflect an uncertain economic environment, which continued to put pressure on our local advertisers. These economic conditions have also led to a decline in our circulation volumes which have been partially offset by price increases in select locations. Our circulation revenue was also impacted by approximately \$0.5 million for a net to gross accounting change implemented at the beginning of the fourth quarter of 2011 at one of our largest locations which puts it more in line with the Company as a whole. The decrease in commercial printing and other revenue was due to declines in printing projects as a result of continued weak economic conditions as well as the strategic closure of certain of our print facilities.

Operating Costs. Operating costs for the year ended January 1, 2012 decreased by \$15.3 million, or 5.1%, to \$284.8 million from \$300.1 million for the year ended December 31, 2010. The decrease in operating costs was primarily due to a decrease in compensation, newsprint and ink, delivery and postage expenses of \$9.5 million, \$2.6 million, \$2.0 million and \$0.9 million, respectively. The majority of these decreases were the result of permanent cost reductions and were implemented as we continue to work to consolidate operations and improve the productivity of our labor force. We estimate the impact of the 53rd week to be \$3.8 million on operating costs and selling, general and administrative expenses.

Table of Contents

Selling, General and Administrative. Selling, general and administrative expenses for the year ended January 1, 2012 decreased by \$8.8 million, or 5.6%, to \$147.5 million from \$156.3 million for the year ended December 31, 2010. The decrease in selling, general and administrative expenses was primarily due to a decrease in compensation of \$10.4 million offset by an increase in professional and consulting fees of \$2.0 million. We believe the majority of these reductions are also permanent in nature.

Depreciation and Amortization. Depreciation and amortization expense for the year ended January 1, 2012 decreased by \$2.5 million to \$42.6 million from \$45.1 million for the year ended December 31, 2010. The decrease in depreciation and amortization expense was primarily due to the sale and disposal of assets in 2010 and 2011, which reduced depreciation expense.

Integration and Reorganization Costs. During the years ended January 1, 2012 and December 31, 2010, we recorded integration and reorganization costs of \$5.9 million and \$2.3 million, respectively, primarily resulting from severance costs related to the consolidation of certain print operations.

Impairment of Long-Lived Assets. During the year ended January 1, 2012 we incurred an impairment charge of \$1.7 million related to the consolidation of certain print operations and property, plant and equipment which were classified as held for sale. There was a \$0.4 million of long-lived asset impairment charge during the year ended December 31, 2010.

Goodwill and Mastheads Impairment. During the year ended January 1, 2012, we recorded a \$0.4 million impairment on our goodwill due to an operational management change in the fourth quarter of 2011 which transferred a goodwill balance of \$0.4 million to a reporting unit that previously did not have a goodwill balance. There were no such charges during the year ended December 31, 2010.

Interest Expense. Total interest expense for the year ended January 1, 2012 decreased by \$1.7 million, or 2.9%, to \$58.3 million from \$60.0 million for the year ended December 31, 2010. The decrease was due to declines in interest rates and their related impact on the unhedged position or our debt and a slight decrease in our total outstanding debt.

(Gain) Loss on Derivative Instruments. During the years ended January 1, 2012 and December 31, 2010, we recorded a net gain of \$0.9 million and a net loss of \$8.3 million, respectively, comprised of accumulated other comprehensive income amortization related to swaps terminated in 2008 partially offset by the impact of the ineffectiveness of our remaining swap agreements.

Income Tax Benefit. Income tax benefit for the year ended January 1, 2012 was \$1.8 million compared to \$0.2 million for the year ended December 31, 2010. The change of \$1.6 million was primarily due to the elimination of the tax effect related to the expiration of a previously terminated swap that could be fully recognized for tax purposes in the current year.

Net Loss from Continuing Operations. Net loss from continuing operations for the year ended January 1, 2012 was \$22.5 million. Net loss from continuing operations for the year ended December 31, 2010 was \$27.4 million. Our net loss from continuing operations decreased due to the factors noted above.

Liquidity and Capital Resources

Our primary cash requirements are for working capital, debt obligations and capital expenditures. We have no material outstanding commitments for capital expenditures. Our principal sources of funds have historically been, and will be, cash provided by operating activities.

As a holding company, we have no operations of our own and accordingly we have no independent means of generating revenue, and our internal sources of funds to meet our cash needs, including payment of expenses,

Table of Contents

are dividends and other permitted payments from our subsidiaries. Our 2007 Credit Facility imposes upon us certain financial and operating covenants, including, among others, requirements that we satisfy certain financial tests, including a total leverage ratio if there are outstanding extensions of credit under the revolving facility, a minimum fixed charge ratio, and restrictions on our ability to incur debt, pay dividends or take certain other corporate actions. As of December 30, 2012 we were in compliance with all applicable covenants.

On February 27, 2007, we entered into the 2007 Credit Facility with a syndicate of financial institutions with Wells Fargo Bank as administrative agent, referred to as the 2007 Credit Facility. The 2007 Credit Facility provides for a \$670.0 million term loan facility which matures in August, 2014, a delayed draw term loan of up to \$250.0 million which matures in August 2014 and a revolving credit agreement with a \$40.0 million aggregate loan commitment available, including a \$15.0 million sub-facility for letters of credit and a \$10.0 million swingline facility, which matures in February 2014.

On April 11, 2007, we entered into the Bridge Agreement with a syndicate of financial institutions with Wachovia Investment Holdings LLC as administrative agent. The Bridge Agreement provided a \$300.0 million term loan facility which matures on April 11, 2015.

On May 7, 2007, we amended our 2007 Credit Facility and increased our borrowing by \$275.0 million. This incremental borrowing has an interest rate of LIBOR + 2.25% or the Alternate Base Rate + 1.25%, depending upon the designation of the borrowing.

In accordance with the First Amendment, the rate on the previously existing borrowings of \$920.0 million was changed to bear interest at LIBOR + 2.00% or the Alternate Base Rate + 1.00% depending upon the designation of the borrowing. The terms of the previously outstanding borrowings were also modified to include a 1.00% premium if the debt is called within one year and an interest feature that grants the previously outstanding debt an interest rate of 0.25% below the highest rate of any borrowing under the 2007 Credit Facility.

On February 15, 2008, we entered into our 2008 Bridge Facility with Barclays, as syndication agent, sole arranger and book runner. The 2008 Bridge Facility provided for a \$20.6 million term loan facility. The 2008 Bridge Facility was paid in full on June 7, 2010.

On August 21, 2008, FIF III Liberty Holdings LLC (FIF III) purchased an aggregate of \$11.5 million in 10% cumulative preferred stock of GateHouse Media Macomb Holdings, Inc. (Maccomb), an operating subsidiary of ours. Maccomb, an Unrestricted Subsidiary under the terms of the 2007 Credit Facility, used the proceeds from such sale of preferred stock to make an \$11.5 million cash investment in Holdco non-voting 10% cumulative preferred stock. On December 7, 2010, FIF III exercised its right to require us to purchase its Maccomb preferred stock. During the five-year period following the full repayment by us of the 2008 Bridge Facility, which repayment occurred in the second quarter of 2010, FIF III had the right to require us to purchase the preferred stock. We paid the purchase price of \$14.1 million on December 8, 2010, which represented the sum of original purchase price of \$11.5 million paid by FIF III for the Maccomb preferred stock and accrued but unpaid dividends of \$2.6 million. FIF III is an affiliate of Fortress Investment Group, LLC, the owner of approximately 39.6% of our outstanding common stock.

On February 3, 2009, we again amended our 2007 Credit Facility and reduced the amounts available under the credit agreement, as follows: (i) for revolving loans, from \$40.0 million to \$20.0 million; (ii) for the letter of credit subfacility, from \$15.0 million to \$5.0 million; and (iii) for the swingline loan subfacility, from \$10.0 million to \$5.0 million.

As required by the 2007 Credit Facility, as amended, on March 15, 2012 and March 2, 2011, we made a principal payment of \$4.6 million and \$11.2 million, respectively, which represented 50% of our Excess Cash Flow (as defined under the 2007 Credit Facility) related to the fiscal years ended January 1, 2012 and December 31, 2010, respectively.

Table of Contents

Effective March 30, 2011 we further amended our 2007 Credit Facility to appoint Gleacher as the successor Agent and to provide that the lenders holding a majority of the outstanding term loans and loan commitments under the 2007 Credit Facility may remove the Agent and may make certain decisions and exercise certain powers previously within the discretion of the Agent.

Although we are currently in compliance with all of our covenants and obligations under the 2007 Credit Facility, due to restrictive covenants and conditions within each of this facility, we currently do not have the ability to draw upon the revolving credit facility portion of the 2007 Credit Facility for any immediate short-term funding needs or to incur additional long-term debt.

Future compliance with our financial and operating covenants will depend on the future performance of the business and our ability to curtail the negative revenue trend experience and our ability to address other risks and challenges set forth herein. We believe that we have adequate capital resources and liquidity to meet our working capital needs, borrowing obligations and all required capital expenditures for at least the next twelve months.

Our leverage may adversely affect our business and financial performance and may restrict our operating flexibility. The level of our indebtedness and our on-going cash flow requirements may expose us to a risk that a substantial decrease in operating cash flows due to, among other things, continued or additional adverse economic developments or adverse developments in our business, could make it difficult for us to meet the financial and operating covenants contained in our credit facilities. In addition, our leverage may limit cash flow available for general corporate purposes such as capital expenditures and our flexibility to react to competitive, technological and other changes in our industry and economic conditions generally.

Cash Flows

The following table summarizes our historical cash flows.

	Year Ended December 30, 2012	Year Ended January 1, 2012 (in thousands)	Year Ended December 31, 2010
Cash provided by operating activities	\$ 23,499	\$ 22,439	\$ 26,453
Cash used in investing activities	(1,044)	(731)	(624)
Cash used in financing activities	(7,140)	(11,249)	(22,010)

Cash Flows from Operating Activities. Net cash provided by operating activities for the year ended December 30, 2012 was \$23.5 million. The net cash provided by operating activities resulted from a depreciation and amortization of \$40.6 million, a net increase in cash provided by working capital of \$10.8 million, an impairment of long-lived assets of \$2.1 million, a \$1.3 million loss on the sale of assets, amortization of deferred financing costs of \$1.2 million, a goodwill impairment charge of \$0.2 million, and non-cash compensation of \$0.1 million, partially offset by a net loss of \$30.3 million, a gain of \$1.6 million on derivative instruments, and an increase funding of pension and other post-retirement obligations of \$0.9 million. The increase in cash provided by working capital primarily resulted from a decrease in prepaid expenses related to a newsprint pricing agreement that required a prepayment of \$10 million in fiscal 2011. No such prepayment was required in fiscal 2012.

Net cash provided by operating activities for the year ended January 1, 2012 was \$22.4 million. The net cash provided by operating activities resulted from a depreciation and amortization of \$43.4 million, an impairment of long-lived assets of \$2.1 million, amortization of deferred financing costs of \$1.4 million, a \$0.8 million loss on the sale of assets, non-cash compensation of \$0.5 million, a goodwill impairment charge of \$0.4 million, partially offset by a net loss of \$22.2 million, an increase funding of pension and other post-retirement obligations of \$1.9 million, a net decrease in cash provided by working capital of \$1.0 million, and a gain of \$0.9 million on derivative instruments. The decrease in cash provided by working capital primarily resulted from a decrease in

Table of Contents

accrued expenses and an increase in prepaid expenses related to a newsprint pricing agreement that allowed for fixed pricing in 2012 below market rates from December 31, 2010 to January 1, 2012 offset by a decrease in accounts receivable and an increase in accounts payable.

Net cash provided by operating activities for the year ended December 31, 2010 was \$26.5 million. The net cash provided by operating activities resulted from a depreciation and amortization of \$46.1 million, a loss of \$8.3 million on derivative instruments, non-cash compensation of \$1.7 million, a \$1.5 million loss on the sale of assets, amortization of deferred financing costs of \$1.4 million, an impairment of long-lived assets of \$0.8 million, partially offset by a net loss of \$26.6 million, a net decrease in cash provided by working capital of \$5.4 million, an increase funding of pension and other post-retirement obligations of \$1.4 million. The decrease in cash provided by working capital primarily resulted from an increase in prepaid expenses related to a newsprint pricing agreement that allowed for fixed pricing in 2011 below market rates from December 31, 2009 to December 31, 2010.

Cash Flows from Investing Activities. Net cash used in investing activities for the year ended December 30, 2012 was \$1.0 million. During the year ended December 30, 2012, we used \$4.6 million for capital expenditures, which was offset by \$3.6 million received from the sale of publications, other assets and insurance proceeds.

Net cash used in investing activities for the year ended January 1, 2012 was \$0.7 million. During the year ended January 1, 2012, we used \$3.3 million for capital expenditures, which was offset by \$2.6 million received from the sale of publications, other assets and insurance proceeds.

Net cash used in investing activities for the year ended December 31, 2010 was \$0.6 million. During the year ended December 31, 2010, we used \$4.8 million for capital expenditures, which was offset by \$4.2 million received from the collection of a receivable due from a previous real estate sale and the sale of other real property.

Cash Flows from Financing Activities. Net cash used in financing activities for the year ended December 30, 2012 was \$7.1 million due to repayments under the 2007 Credit Facility.

Net cash used in financing activities for the year ended January 1, 2012 was \$11.2 million due to a repayment under the 2007 Credit Facility.

Net cash used in financing activities for the year ended December 31, 2010 was \$22.0 million, which primarily resulted from a \$2.5 million repayment under the 2007 Credit Facility, the repurchase of subsidiary preferred stock of \$11.5 million and an \$8.0 million repayment under the 2008 Bridge Facility.

Changes in Financial Position

The discussion that follows highlights significant changes in our financial position and working capital from December 30, 2012 to January 1, 2012.

Accounts Receivable. Accounts receivable decreased \$4.5 million from January 1, 2012 to December 30, 2012, which relates to the timing of cash collections and lower revenue recognized in 2012 compared to 2011. An additional \$1.4 million relates to assets sold during the current year.

Prepaid Expenses. Prepaid expenses decreased \$9.7 million from January 1, 2012 to December 30, 2012, due to a \$10.0 million prepayment during the year ended January 1, 2012 which related to a newsprint pricing agreement that allowed for fixed pricing in 2012 at below market rates. The pricing agreement for fiscal 2013 did not require a prepayment at December 30, 2012.

Property, Plant, and Equipment. Property, plant, and equipment decreased \$14.4 million during the period from January 1, 2012 to December 30, 2012, of which \$16.6 million relates to depreciation and \$2.3 million relates to assets sold and held for sale, which was partially offset by \$4.6 million that was used for capital expenditures.

Table of Contents

Goodwill. Goodwill decreased \$0.2 million from January 1, 2012 to December 30, 2012, due to an impairment charge included in income (loss) from discontinued operations.

Intangible Assets. Intangible assets decreased \$27.7 million from January 1, 2012 to December 30, 2012, due to amortization of \$24.0 million, \$1.9 million due to an impairment of assets sold during the current year, which is included in income (loss) from discontinued operations, and \$1.8 million which was sold during the current year.

Others Assets. Other assets increased \$0.7 million from January 1, 2012 to December 30, 2012, due to an investment in joint ventures where our ownership is less than 10%.

Long-term Assets Held for Sale. Long-term assets held for sale decreased \$0.5 million from January 1, 2012 to December 30, 2012, due to proceeds of \$0.3 million and a \$0.2 million impairment of assets classified as held for sale as of January 1, 2012. Assets held for sale as of December 30, 2012 consist of real estate in Winter Haven, FL.

Current Portion of Long-term Debt. Current portion of long-term debt increased \$2.0 million from January 1, 2012 to December 30, 2012 due to an increase in the estimated payment as required by the 2007 Credit Facility, which represented 50% of the Excess Cash Flow related to the year ended December 30, 2012. This amount increased from \$4.6 million at January 1, 2012 to \$6.6 million at December 30, 2012.

Accounts Payable. Accounts payable increased \$1.2 million from January 1, 2012 to December 30, 2012, which was primarily attributable to the timing of vendor payments.

Accrued Interest. Accrued interest increased \$1.8 million from January 1, 2012 to December 30, 2012, which was primarily attributable to the timing of interest payments.

Long-term Debt. Long-term debt decreased \$9.2 million from January 1, 2012 to December 30, 2012 due to a \$6.6 million reclassification to current portion of long-term debt of a principal payment due in 2013 as required by the 2007 Credit Facility, which represented 50% of the Excess Cash Flow related to the year ended December 30, 2012 and a \$2.5 million repayment under the 2007 Credit Facility from the proceeds of the sale of our Suburban Chicago publications.

Derivative Instruments. Derivative instrument liability decreased \$5.9 million from January 1, 2012 to December 30, 2012, due to changes in the fair value measurement of our interest rate swaps.

Accumulated Other Comprehensive Loss. Accumulated other comprehensive loss decreased \$1.7 million from January 1, 2012 to December 30, 2012, which resulted from the change in fair value of the interest rate swaps of \$5.9 million, which was offset by a \$2.6 million change to the Company's pension and post retirement plans, a gain on derivative instruments due to amortization of \$1.6 million, and a \$0.1 million reclassification of income tax benefit from accumulated other comprehensive loss.

Accumulated Deficit. Accumulated deficit increased \$30.3 million from January 1, 2012 to December 30, 2012, due to a net loss of \$30.3 million.

Indebtedness

As of December 30, 2012, a total of \$1.2 billion was outstanding under the 2007 Credit Facility; consisting of \$658.3 million under the term loan facility, \$245.6 million under the delayed draw term loan facility, \$270.2 million under the incremental term loan facility. No amounts were outstanding under the revolving credit facility. Refer to Note 8 to the Consolidated Financial Statements for a discussion on our indebtedness.

Summary Disclosure About Contractual Obligations and Commercial Commitments

Table of Contents

The following table reflects a summary of our contractual cash obligations, including estimated interest payments where applicable, as of December 30, 2012:

	2013	2014	2015	2016	2017	Thereafter	Total
	(In Thousands)						
2007 Credit Facility	\$ 63,324	\$ 1,204,780	\$	\$	\$	\$	\$ 1,268,104
Noncompete payments	421	286	250	200	200	200	1,557
Operating lease obligations	4,640	4,616	3,447	2,523	2,203	2,551	19,980
Letters of credit	5,182						5,182
Total	\$ 73,567	\$ 1,209,682	\$ 3,697	\$ 2,723	\$ 2,403	\$ 2,751	\$ 1,294,823

The table above excludes future cash requirements for pension and postretirement obligations. The periods in which these obligations will be settled in cash are not readily determinable and are subject to numerous future events and assumptions. We estimate cash requirements for these obligations in 2013 totaling approximately \$1,577. See Note 13 of the Notes to Consolidated Financial Statements, included herein.

On February 27, 2007, we entered into the 2007 Credit Facility with a syndicate of financial institutions with Wells Fargo Bank as administrative agent. The 2007 Credit Facility provides for a \$670.0 million term loan facility which matures in August 2014, a delayed draw term loan of up to \$250.0 million available until August 2007 which matures in August, 2014 and a revolving credit agreement with a \$40.0 million aggregate loan commitment available, including a \$15.0 million sub-facility for letters of credit and a \$10.0 million swingline facility, which matures in February 2014.

On May 7, 2007, we amended our 2007 Credit Facility and increased our borrowings by \$275.0 million.

On February 3, 2009, we again amended our 2007 Credit Facility and reduced the amounts available under the credit agreement, as follows: (i) for revolving loans, from \$40,000,000 to \$20,000,000; (ii) for the letter of credit subfacility, from \$15,000,000 to \$5,000,000; and (iii) for the swingline loan subfacility, from \$10,000,000 to \$5,000,000.

We do not have any off-balance sheet arrangements reasonably likely to have a current or future effect on our financial statements.

Recently Issued Accounting Pronouncements

In July 2012, the Financial Accounting Standards Board (FASB) Accounting Standard Update (ASU) 2012-02, Intangibles- Goodwill and Other (Topic 350): Testing Indefinite-Lived Intangible Assets for Impairment. The amendments in this update allow companies the option to perform a qualitative assessment to determine whether it is more likely than not that an indefinite-lived intangible asset is impaired. An entity is not required to calculate the fair value of an indefinite-lived intangible asset and perform the quantitative impairment test unless the entity determines that it is more likely than not the asset is impaired. The changes to the ASC as a result of this update are effective for annual and interim impairment test performed for fiscal years beginning after September 15, 2012. The adoption of ASU No. 2012-02 will not have a material effect on the Company s Consolidated Financial Statements.

In February 2013, the FASB issued ASC Update No. 2013-02 Comprehensive Income Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income (Topic 220) , which amends ASC Topic 220. The amendments require an entity to provide information about the amounts reclassified out of accumulated other comprehensive income (AOCI) by component. In addition an entity is required to present either on the face of the Statement of Income or in the Notes to the Consolidated Financial Statements significant amounts reclassified out of AOCI and should be provided by the respective line items of net income but only if the amount reclassified is required under GAAP to be reclassified in its entirety to net income in the same reporting period. For other amounts that are not required under GAAP to be reclassified in their entirety to net income, an entity is required to cross-reference to other disclosures require under GAAP that provide additional

Table of Contents

detail about these amounts. The changes to the ASC as a result of this updated guidance are effective for annual and interim reporting periods beginning after December 15, 2012. The adoption of ASU No. 2013-02 will not have a material effect on the Company's Consolidated Financial Statements.

Non-GAAP Financial Measures

A non-GAAP financial measure is generally defined as one that purports to measure historical or future financial performance, financial position or cash flows, but excludes or includes amounts that would not be so adjusted in the most comparable GAAP measure. In this report, we define and use Adjusted EBITDA, a non-GAAP financial measure, as set forth below.

Adjusted EBITDA

We define Adjusted EBITDA as follows:

Income (loss) from continuing operations *before*:

Income tax expense (benefit);

interest/financing expense;

depreciation and amortization; and

non-cash impairments.

Management's Use of Adjusted EBITDA

Adjusted EBITDA is not a measurement of financial performance under GAAP and should not be considered in isolation or as an alternative to income from operations, net income (loss), cash flow from continuing operating activities or any other measure of performance or liquidity derived in accordance with GAAP. We believe this non-GAAP measure, as we have defined it, is helpful in identifying trends in our day-to-day performance because the items excluded have little or no significance on our day-to-day operations. This measure provides an assessment of controllable expenses and affords management the ability to make decisions which are expected to facilitate meeting current financial goals as well as achieve optimal financial performance. We believe that it also provides an indicator for management to determine if adjustments to current spending decisions are needed.

Adjusted EBITDA provides us with a measure of financial performance, independent of items that are beyond the control of management in the short-term, such as depreciation and amortization, taxation and interest expense associated with our capital structure. This metric measures our financial performance based on operational factors that management can impact in the short-term, namely the cost structure or expenses of the organization. Adjusted EBITDA is one of the metrics used by senior management and the board of directors to review the financial performance of the business on a monthly basis.

Limitations of Adjusted EBITDA

Adjusted EBITDA has limitations as an analytical tool. It should not be viewed in isolation or as a substitute for GAAP measures of earnings or cash flows. Material limitations in making the adjustments to our earnings to calculate Adjusted EBITDA and using this non-GAAP financial measure as compared to GAAP net income (loss), include: the cash portion of interest/financing expense, income tax (benefit) provision and charges related to gain (loss) on sale of facilities represent charges (gains), which may significantly affect our financial results.

Readers of our financial statements may find this item important in evaluating our performance, results of operations and financial position. We use non-GAAP financial measures to supplement our GAAP results in order to provide a more complete understanding of the factors and trends affecting our business.

Table of Contents

Adjusted EBITDA is not an alternative to net income, income from operations or cash flows provided by or used in operations as calculated and presented in accordance with GAAP. Readers of our financial statements should not rely on Adjusted EBITDA as a substitute for any such GAAP financial measure. We strongly urge readers of our financial statements to review the reconciliation of income (loss) from continuing operations to Adjusted EBITDA, along with our consolidated financial statements included elsewhere in this report. We also strongly urge readers of our financial statements to not rely on any single financial measure to evaluate our business. In addition, because Adjusted EBITDA is not a measure of financial performance under GAAP and is susceptible to varying calculations, the Adjusted EBITDA measure, as presented in this report, may differ from and may not be comparable to similarly titled measures used by other companies.

We use Adjusted EBITDA as a measure of our core operating performance, which is evidenced by the publishing and delivery of news and other media and excludes certain expenses that may not be indicative of our core business operating results. We consider the unrealized (gain) loss on derivative instruments and the (gain) loss on early extinguishment of debt to be financing related costs associated with interest expense or amortization of financing fees. Accordingly, we exclude financing related costs such as the early extinguishment of debt because they represent the write-off of deferred financing costs and we believe these non-cash write-offs are similar to interest expense and amortization of financing fees, which by definition are excluded from Adjusted EBITDA. Additionally, the non-cash gains (losses) on derivative contracts, which are related to interest rate swap agreements to manage interest rate risk, are financing costs associated with interest expense. Such charges are incidental to, but not reflective of, our core operating performance and it is appropriate to exclude charges related to financing activities such as the early extinguishment of debt and the unrealized (gain) loss on derivative instruments which, depending on the nature of the financing arrangement, would have otherwise been amortized over the period of the related agreement and does not require a current cash settlement.

The table below shows the reconciliation of income (loss) from continuing operations to Adjusted EBITDA for the periods presented:

	Year Ended December 30, 2012	Year Ended January 1, 2012 ⁽³⁾	Year Ended December 31, 2010 (In Thousands)	Year Ended December 31, 2009	Year Ended December 31, 2008
Loss from continuing operations	\$ (28,747)	\$ (22,511)	\$ (27,383)	\$ (513,099)	\$ (659,486)
Income tax expense (benefit)	(207)	(1,803)	(155)	342	(21,139)
(Gain) loss on derivative instruments ⁽¹⁾	(1,635)	(913)	8,277	12,672	10,119
Gain on early extinguishment of debt ⁽²⁾				(7,538)	
Amortization of deferred financing costs	1,255	1,360	1,360	1,360	1,845
Write-off of financing costs				743	
Interest expense	57,928	58,316	60,034	64,631	88,630
Impairment of long-lived assets		1,733	430	193,503	123,717
Depreciation and amortization	40,033	42,583	45,137	54,294	69,923
Goodwill and mastheads impairment		385		274,138	488,543
Adjusted EBITDA from continuing operations	\$ 68,627^(a)	\$ 79,150^(b)	\$ 87,700^(c)	\$ 81,046^(d)	\$ 102,15^(e)

(a) Adjusted EBITDA for the year ended December 30, 2012 included net expenses of \$11,017, which are one time in nature or non-cash compensation. Included in these net expenses of \$11,017 are non-cash compensation and other expenses of \$6,274, non-cash portion of post-retirement benefits expense of \$(896), integration and reorganization costs of \$4,401 and a \$1,238 loss on the sale of assets. Adjusted EBITDA also does not include \$1,386 of EBITDA generated from our discontinued operations.

(b) Adjusted EBITDA for the year ended January 1, 2012 included net expenses of \$9,461, which are one time in nature or non-cash compensation. Included in these net expenses of \$9,461 are non-cash compensation

Table of Contents

and other expenses of \$4,226, non-cash portion of post-retirement benefits expense of \$(1,104), integration and reorganization costs of \$5,884 and an \$455 loss on the sale of assets.

Adjusted EBITDA also does not include \$1,829 of EBITDA generated from our discontinued operations.

(c) Adjusted EBITDA for the year ended December 31, 2010 included net expenses of \$8,231, which are one time in nature or non-cash compensation. Included in these net expenses of \$8,231 are non-cash compensation and other expenses of \$5,005, non-cash portion of post-retirement benefits expense of \$(649), integration and reorganization costs of \$2,324 and a \$1,551 loss on the sale of assets.

Adjusted EBITDA also does not include \$2,274 of EBITDA generated from our discontinued operations.

(d) Adjusted EBITDA for the year ended December 31, 2009 included net expenses of \$9,291, which are one time in nature or non-cash compensation. Included in these net expenses of \$9,291 are non-cash compensation and other expenses of \$8,634, non-cash portion of post-retirement benefits expense of \$(782), integration and reorganization costs of \$1,857 and a \$418 gain on the sale of assets.

Adjusted EBITDA also does not include \$668 of EBITDA generated from our discontinued operations.

(e) Adjusted EBITDA for the year ended December 31, 2008 included net expenses of \$24,047, which are one time in nature or non-cash compensation. Included in these net expenses of \$24,047 are non-cash compensation and other expenses of \$18,198, non-cash portion of post-retirement benefits expense of \$(1,499), integration and reorganization costs of \$7,011 and \$337 loss on the sale of assets.

Adjusted EBITDA also does not include \$5,175 of EBITDA generated from our discontinued operations.

(1) Non-cash (gain) loss on derivative instruments is related to interest rate swap agreements which are financing related and are excluded from Adjusted EBITDA.

(2) Non-cash write-off of deferred financing costs are similar to interest expense and amortization of financing fees and are excluded from Adjusted EBITDA.

(3) The year ended January 1, 2012 included a 53rd week of operations for approximately 60% of the business.

Item 7A. Quantitative and Qualitative Disclosures About Market Risk

We are exposed to market risk from changes in interest rates and commodity prices. Changes in these factors could cause fluctuations in earnings and cash flow. In the normal course of business, exposure to certain of these market risks is managed as described below.

Interest Rates

On August 18, 2008, we terminated interest rate swaps with a total notional amount of \$570.0 million. At December 30, 2012, after consideration of the interest rate swaps described below, \$570.0 million of the remaining principal amount of our term loans are subject to floating interest rates.

Our debt structure and interest rate risks are managed through the use of floating rate debt and interest rate swaps. Our primary exposure is to LIBOR. A 100 basis point change in LIBOR would change our income from continuing operations before income taxes on an annualized basis by approximately \$5.6 million, based on average pro forma floating rate debt outstanding during 2012, after consideration of the interest rate swaps of \$625.0 million described below, and average amounts outstanding under the revolving credit facility during 2012.

Edgar Filing: GateHouse Media, Inc. - Form ARS

On February 27, 2007, we executed an interest rate swap in the notional amount of \$100.0 million with a forward starting date of February 28, 2007. The interest rate swap has a term of seven years. Under this swap, we pay an amount to the swap counterparty representing interest on a notional amount at a rate of 5.14% and receive an amount from the swap counterparty representing, interest on the notional amount at a rate equal to the one month LIBOR.

Table of Contents

On April 4, 2007, we executed an additional interest rate swap in the notional amount of \$250.0 million with a forward starting date of April 13, 2007. The interest rate swap has a term of seven years. Under this swap, we pay an amount to the swap counterparty representing interest on a notional amount at a rate of 4.971% and receive an amount from the swap counterparty representing interest on the notional amount at a rate equal to one month LIBOR.

On April 13, 2007, we executed an additional interest rate swap in the notional amount of \$200.0 million with a forward starting date of April 30, 2007. The interest rate swap has a term of seven years. Under this swap, we pay an amount to the swap counterparty representing interest on a notional amount at a rate of 5.079% and receive an amount from the swap counterparty representing interest on the notional amount at a rate equal to one month LIBOR.

On September 18, 2007, we executed an additional interest rate swap based on a notional amount of \$75.0 million with a forward starting date of September 18, 2007. The interest rate swap has a term of seven years. Under the swap, we pay an amount to the swap counterparty representing interest on a notional amount at a rate of 4.941% and receive an amount from the swap counterparty representing interest on the notional amount at a rate equal to one month LIBOR.

Commodities

Certain materials we use are subject to commodity price changes. We manage this risk through instruments such as purchase orders, membership in a buying consortium, fixed pricing agreements for certain newsprint purchases and continuing programs to mitigate the impact of cost increases through identification of sourcing and operating efficiencies. Primary commodity price exposures are newsprint, energy costs and, to a lesser extent, ink.

A \$10 per metric ton newsprint price change would result in a corresponding annualized change in our income from continuing operations before income taxes of \$0.4 million based on newsprint usage for the year ended December 30, 2012 of approximately 41,400 metric tons. In 2013, 95% of the companies' newsprint is fixed through a pricing agreement, therefore only 5% of the usage would be impacted by a price increase.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Stockholders of

GateHouse Media, Inc.

We have audited the accompanying consolidated balance sheets of GateHouse Media, Inc. and subsidiaries as of December 30, 2012 and January 1, 2012, and the related consolidated statements of operations and comprehensive income (loss), stockholders' equity (deficit), and cash flows for each of the three years in the period ended December 30, 2012. Our audits also included the financial statement schedule listed in the Index at Item 15(a). These financial statements and schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements and schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Company's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of GateHouse Media, Inc. and subsidiaries at December 30, 2012 and January 1, 2012, and the consolidated results of their operations and their cash flows for each of the three years in the period ended December 30, 2012, in conformity with U.S. generally accepted accounting principles. Also, in our opinion, the related financial statement schedule, when considered in relation to the basic financial statements taken as a whole, presents fairly in all material respects the information set forth therein.

GATEHOUSE MEDIA, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(In thousands, except share data)

(1) Description of Business, Basis of Presentation and Summary of Significant Accounting Policies

(a) Description of Business

GateHouse Media, Inc. (GateHouse), formerly Liberty Group Publishing, Inc. (LGP), and its subsidiaries is a leading U.S. publisher of local newspapers and related publications that are generally the dominant source of local news and print advertising in their markets. As of December 30, 2012, the Company (as defined below) owned and operated 406 publications located in 21 states. The majority of the Company's paid daily newspapers have been published for more than 100 years and are typically the only paid daily newspapers of general circulation in their respective nonmetropolitan markets. The Company's publications generally face limited competition as a result of operating in small and mid-sized markets that can typically support only one newspaper. The Company has strategically clustered its publications in geographically diverse, nonmetropolitan markets in the Midwest and Northeast United States, which limits its exposure to economic conditions in any single market or region.

Unlike large metropolitan newspapers, the Company derives a majority of its revenues from local advertising, rather than national advertising which the Company believes is generally more sensitive to economic conditions.

During the first quarter of 2012, the Company reorganized its management structure to align with its publication types. The resulting operating segments are Large Community Newspapers, Small Community Newspapers and Directories. These operating segments are aggregated into one reportable business segment.

(b) Basis of Presentation

GateHouse was formed in 1997 for purposes of acquiring 166 daily and weekly newspapers. GateHouse is a holding company for its wholly owned subsidiary, GateHouse Media Operating, Inc. (Operating Company). The consolidated financial statements include the accounts of GateHouse and Operating Company and its consolidated subsidiaries (the Company). All significant intercompany accounts and transactions have been eliminated.

(c) Recent Developments

The newspaper industry and the Company have experienced declining same store revenue and profitability over the past several years. These trends have eliminated the availability to the Company of additional borrowings under its 2007 Credit Facility, see Note 8. As a result, the Company previously implemented and continues to implement plans to reduce costs and preserve cash flow. This includes the suspension of the payment of cash dividends, cost reduction programs, and the sale of non-core assets. The Company believes these initiatives will provide it with the financial resources necessary to invest in the business and provide sufficient cash flow to enable the Company to meet its commitments for the next year.

In February 2013, the US Postal Service announced that it will end Saturday delivery beginning in August 2013. The Company is evaluating the impact of this change, but does not expect it to be material.

(d) Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets

Table of Contents

and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

(e) Fiscal Year

Prior to 2011, the Company's fiscal year ended on December 31. Effective January 1, 2011, the Company's fiscal year changed to a 52 week operating year ending on the Sunday closest to December 31. For 2012 a portion of the business had 364 days of operations compared to 366 days in 2011. The 2012 fiscal year ended on December 30, 2012. The year ended January 1, 2012 encompassed a 53-week period for approximately 60% of the Company.

(f) Accounts Receivable

Accounts receivable are stated at amounts due from customers, net of an allowance for doubtful accounts. The Company's allowance for doubtful accounts is based upon several factors including the length of time the receivables are past due, historical payment trends and current economic factors. The Company generally does not require collateral.

(g) Inventory

Inventory consists principally of newsprint, which is valued at the lower of cost or market. Cost is determined using the first-in, first-out (FIFO) method. In 2011 and 2012 the Company purchased approximately 75% of its newsprint from one vendor. In 2013 the Company expects to purchase approximately 95% of newsprint from the same vendor.

(h) Property, Plant, and Equipment

Property, plant, and equipment is recorded at cost. Routine maintenance and repairs are expensed as incurred.

Depreciation is calculated under the straight-line method over the estimated useful lives, principally 25 years for buildings and improvements, 3 to 10 years for machinery and equipment, and 3 to 10 years for furniture, fixtures, and computer software. Leasehold improvements are amortized under the straight-line method over the shorter of the lease term or estimated useful life of the asset.

(i) Goodwill and Intangible Assets

Intangible assets consist of advertiser, subscriber and customer relationships, mastheads, non-compete agreements with former owners of acquired newspapers, trade names and publication rights. The excess of acquisition costs over the estimated fair value of tangible and identifiable intangible net assets acquired is recorded as goodwill.

Goodwill and mastheads are not amortized pursuant to the Financial Accounting Standards Board (FASB) Accounting Standard Update (ASU) Topic 350 *Intangibles - Goodwill and Other* (ASC 350). Mastheads are not amortized because it has been determined that the useful lives of such mastheads are indefinite.

In accordance with ASC 350, goodwill and intangible assets with indefinite lives are tested for impairment annually or when events indicate that an impairment could exist which may include an economic downturn in a market, a change in the assessment of future operations or a decline in the Company's stock price. The Company performs an annual impairment assessment on the last day of its fiscal second quarter. As required by ASC 350, the Company performs its impairment analysis on each of its reporting units. The reporting units have discrete financial information which are regularly reviewed by management. The fair value of the applicable reporting unit is compared to its carrying value. Calculating the fair value of a reporting unit requires significant estimates

Table of Contents

and assumptions by the Company. The Company estimates fair value by applying third-party market value indicators to projected cash flows and/or projected earnings before interest, taxes, depreciation, and amortization. In applying this methodology, the Company relies on a number of factors, including current operating results and cash flows, expected future operating results and cash flows, future business plans, and market data. If the carrying value of the reporting unit exceeds the estimate of fair value, the Company calculates the impairment as the excess of the carrying value of goodwill over its implied fair value.

During the first quarter of 2012, the Company reorganized its management structure to align with its publication types. The fair value of goodwill was allocated to each of the new reporting units: Small Community Newspapers, Large Daily Newspapers and Metro Newspapers. The Company determined that impairment indicators were present for the Metro Newspaper reporting unit, which had a goodwill balance of \$216. As of April 1, 2012 the Company performed a Step 1 analysis for this reporting unit and determined that its carrying value exceeded fair value. As a result of the Step 2 analysis, the entire \$216 of goodwill was impaired and this amount was subsequently reclassified to discontinued operations, see Note 19. The fair value of this reporting unit for impairment testing purposes was estimated using the expected present value of future cash flows, recent industry transaction multiples and using estimates, judgments and assumptions that management believes were appropriate in the circumstances. The estimates and judgments used in the assessment included multiples for revenue and EBITDA, the weighted average cost of capital and the terminal growth rate. Given the current market conditions, the Company determined that recent transactions provided the best estimate of the fair value of this reporting unit. The Company performed further analysis of this reporting unit's intangible and long-lived assets and determined that impairments of these assets were not present.

Due to an operational management change in the fourth quarter of 2011, certain properties having a goodwill balance of \$385 were transferred to a reporting unit that previously did not have a goodwill balance. The Company performed an impairment assessment for this reporting unit and as a result an impairment charge related to goodwill of \$385 was recorded as of January 1, 2012. The Company performed further analysis of this reporting unit's intangible assets and determined that additional impairments were not present as of year-end. A review of impairment indicators was performed for the Company's other reporting units and it was determined that financial results and forecast had not changed materially since the June 26, 2011 impairment test and it was determined that no indicators of impairment were present.

Refer to Note 5 for additional information on the impairment testing of goodwill and indefinite lived intangible assets.

The Company accounts for long-lived assets in accordance with the provisions of FASB ASC Topic 360, *Property, Plant and Equipment* (ASC 360). The Company assesses the recoverability of its long-lived assets, including property, plant, and equipment and definite lived intangible assets, whenever events or changes in business circumstances indicate the carrying amount of the assets, or related group of assets, may not be fully recoverable. Impairment indicators include significant under performance relative to historical or projected future operating losses, significant changes in the manner of use of the acquired assets or the strategy for the Company's overall business, and significant negative industry or economic trends. The assessment of recoverability is based on management's estimates. If the carrying value of the assets exceeds the undiscounted cash flows, the asset would be deemed to be impaired. Impairment would be measured as the difference between the fair value of the asset and its carrying value.

(j) Revenue Recognition

Circulation revenue from subscribers is billed to customers at the beginning of the subscription period and is recognized on a straight-line basis over the term of the related subscription. Circulation revenue from single copy sales is recognized at the time of sale. Advertising revenue is recognized upon publication of the advertisement. Revenue for commercial printing is recognized upon delivery. Directory revenue is recognized on a straight-line basis over the period in which the corresponding directory is distributed.

Table of Contents

(k) Income Taxes

Income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

The Company has determined that more likely than not its existing deferred tax assets will not be realized, and accordingly has provided a valuation allowance. Any changes in the scheduled reversals of deferred taxes may require an additional valuation allowance against the remaining deferred tax assets. Any increase or decrease in the valuation allowance could result in an increase or decrease in income tax expense in the period of adjustment.

The Company accounts for uncertain tax positions under the provisions of FASB ASC Topic 740 *Income Taxes*. The Company does not anticipate significant increases or decreases in our uncertain tax positions within the next twelve months. The Company recognizes penalties and interest relating to uncertain tax positions in tax expense.

(l) Fair Value of Financial Instruments

The carrying value of the Company's cash equivalents, accounts receivable, accounts payable, and accrued expenses approximate fair value due to the short maturity of these instruments. An estimate of the fair value of the Company's debt is disclosed in Note 8.

The Company accounts for derivative instruments in accordance with FASB ASC Topic 815, *Derivatives and Hedging* (ASC 815) and FASB ASC Topic 820 *Fair Value Measurements and Disclosures* (ASC 820). These standards require an entity to recognize all derivatives as either assets or liabilities in the consolidated balance sheet and measure those instruments at fair value. Additionally, the fair value adjustments will affect either accumulated other comprehensive loss or net loss depending on whether the derivative instrument qualifies as an effective hedge for accounting purposes and, if so, the nature of the hedging activity. The fair value of the Company's derivative financial instruments is disclosed in Note 9.

(m) Cash Equivalents

Cash equivalents represent highly liquid certificates of deposit which have original maturities of three months or less.

(n) Deferred Financing Costs

Deferred financing costs consist of costs incurred in connection with debt financings. Such costs are amortized on a straight-line basis over the estimated remaining term of the related debt.

(o) Advertising

Advertising costs are expensed in the period incurred. The Company incurred total advertising expenses of \$3,419, \$2,620 and \$3,549 during the years ended December 30, 2012, January 1, 2012 and December 31, 2010, respectively.

(p) Earnings (loss) per share

Basic earnings (loss) per share is computed as net income (loss) available to common stockholders divided by the weighted average number of common shares outstanding for the period. Diluted earnings per share reflects the potential dilution that could occur from common shares issued through common stock equivalents.

Table of Contents

(q) Stock-based Employee Compensation

FASB ASC Topic 718, *Compensation - Stock Compensation* (ASC 718) requires that all share-based payments to employees, including grants of employee stock options, be recognized in the consolidated financial statements over the service period (generally the vesting period) based on fair values measured on grant dates.

(r) Pension and Postretirement Liabilities

FASB ASC Topic 715, *Compensation - Retirement Benefits* (ASC 715) requires recognition of an asset or liability in the consolidated balance sheet reflecting the funded status of pension and other postretirement benefit plans such as retiree health and life, with current-year changes in the funded status recognized in accumulated other comprehensive loss. During the years ended December 30, 2012, January 1, 2012 and December 31, 2010 a total of \$(2,647), \$(2,797) and \$(1,007) net of taxes of \$0, \$0 and \$0, respectively, was recognized in other comprehensive loss (see Note 13).

(s) Self-Insurance Liability Accruals

The Company maintains self-insured medical and workers' compensation programs. The Company purchases stop loss coverage from third parties which limits our exposure to large claims. The Company records a liability for healthcare and workers' compensation costs during the period in which they occur as well as an estimate of incurred but not reported claims.

(t) Reclassifications

Certain amounts in the prior periods consolidated financial statements have been reclassified to conform to the current year presentation.

(u) Recently Issued Accounting Pronouncements

In July 2012, the FASB Accounting Standard Update (ASU) 2012-02, *Intangibles- Goodwill and Other (Topic 350): Testing Indefinite-Lived Intangible Assets for Impairment*. The amendments in this update allow companies the option to perform a qualitative assessment to determine whether it is more likely than not that an indefinite-lived intangible asset is impaired. An entity is not required to calculate the fair value of an indefinite-lived intangible asset and perform the quantitative impairment test unless the entity determines that it is more likely than not the asset is impaired. The changes to the ASC as a result of this update are effective for annual and interim impairment test performed for fiscal years beginning after September 15, 2012. The adoption of ASU No. 2012-02 will not have a material effect on the Company's Consolidated Financial Statements.

In February 2013, the FASB issued ASC Update No. 2013-02 *Comprehensive Income Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income (Topic 220)*, which amends ASC Topic 220. The amendments require an entity to provide information about the amounts reclassified out of accumulated other comprehensive income (AOCI) by component. In addition an entity is required to present either on the face of the Statement of Income or in the Notes to the Consolidated Financial Statements significant amounts reclassified out of AOCI and should be provided by the respective line items of net income but only if the amount reclassified is required under GAAP to be reclassified in its entirety to net income in the same reporting period. For other amounts that are not required under GAAP to be reclassified in their entirety to net income, an entity is required to cross-reference to other disclosures required under GAAP that provide additional detail about these amounts. The changes to the ASC as a result of this updated guidance are effective for annual and interim reporting periods beginning after December 15, 2012. The adoption of ASU No. 2013-02 will not have a material effect on the Company's Consolidated Financial Statements.

Table of Contents**(2) Share-Based Compensation**

The Company recognized compensation expense for share-based payments of \$95, \$462 and \$1,715, during the years ended December 30, 2012, January 1, 2012 and December 31, 2010, respectively. The total compensation cost not yet recognized related to non-vested awards as of December 30, 2012 was \$23, which is expected to be recognized over a weighted-average period of 0.3 years through April 2013.

(a) Restricted Share Grants (RSGs)

Prior to the Company's IPO in 2006, the Company had issued 792,500 RSGs to certain management investors pursuant to each investor's management stockholder agreement (each, a Management Stockholder Agreement). Under the Management Stockholder Agreements, RSGs vest by one-third on each of the third, fourth and fifth anniversaries from the grant date. Following the adoption of the GateHouse Media, Inc. Omnibus Stock Incentive Plan (the Plan) in October 2006, an additional 268,680 RSGs were granted during the year ended December 31, 2006 to Company directors, management, and employees. During the year ended December 31, 2007 an additional 198,846 RSGs were granted to Company directors, management and employees, 105,453 of which were both granted and forfeited. During the year ended December 31, 2008 an additional 266,795 RSGs were granted to Company directors, management and employees, 42,535 of which were both granted and forfeited. During the year ended December 31, 2009 an additional 100,000 RSGs were granted to Company management. The majority of the RSGs issued under the Plan vest in increments of one-third on each of the first, second and third anniversaries of the grant date. In the event a grantee of an RSG is terminated by the Company without cause, a number of unvested RSGs immediately vest that would have vested under the normal vesting period on the next succeeding anniversary date following such termination. In the event an RSG grantee's employment with the Company is terminated without cause within twelve months after a change in control as defined in the applicable award agreement, all unvested RSGs become immediately vested at the termination date. During the period prior to the lapse and removal of the vesting restrictions, a grantee of an RSG will have all of the rights of a stockholder, including without limitation, the right to vote and the right to receive all dividends or other distributions. As a result, the RSGs are reflected as outstanding common stock and the unvested RSGs have been excluded from the calculation of basic earnings per share. With respect to Company employees, the value of the RSGs on the date of issuance is recognized as employee compensation expense over the vesting period or through the grantee's eligible retirement date, if shorter, with an increase to additional paid-in-capital. During the years ended December 30, 2012, January 1, 2012 and December 31, 2010 the Company recognized \$95, \$462 and \$1,715 respectively in share-based compensation expense related to RSGs and is recognized in the Consolidated Statement of Operations and Comprehensive Income (Loss).

As of December 30, 2012 and January 1, 2012, there were 25,424 and 84,181 RSGs, respectively, issued and outstanding with a weighted average grant date fair value of \$6.04 and \$3.67, respectively. As of December 30, 2012, the aggregate intrinsic value of unvested RSGs was \$2. As of December 30, 2012, the aggregate fair value of vested RSGs was \$4.

RSG activity was as follows:

	Year Ended December 30, 2012		Year Ended January 1, 2012		Year Ended December 31, 2010	
	Number of RSGs	Weighted-Average Grant Date Fair Value	Number of RSGs	Weighted-Average Grant Date Fair Value	Number of RSGs	Weighted-Average Grant Date Fair Value
Unvested at beginning of year	84,181	\$ 3.67	299,560	\$ 8.89	570,696	\$ 10.01
Granted						
Vested	(58,757)	2.65	(215,379)	10.93	(264,403)	11.29
Forfeited					(6,733)	9.75
Unvested at end of year	25,424	\$ 6.04	84,181	\$ 3.67	299,560	\$ 8.89

Table of Contents

ASC 718 requires the recognition of share-based compensation for the number of awards that are ultimately expected to vest. The Company's estimated forfeitures are based on forfeiture rates of comparable plans. Estimated forfeitures will be reassessed in subsequent periods and the estimate may change based on new facts and circumstances.

(b) Valuation of Equity Securities Issued as Compensation

The Company values equity securities issued as compensation using the fair value of the securities as of the grant date.

Prior to January 1, 2006, the Company recorded deferred share-based compensation, which consisted of the amounts by which the estimated fair value of the instrument underlying the grant exceeded the grant or exercise price, at the date of grant or other measurement date, if applicable and recognized the expense over the related service period. In determining the fair value of the Company's common stock at the dates of grant prior to the IPO on October 25, 2006, the Company's stock was not publicly traded and, therefore, the Company was unable to rely on a public trading market for its stock prior to October 25, 2006.

As the Company began the process of preparing for its IPO, it developed a preliminary valuation using a discounted cash flow approach as of July 2006. The Company estimated that the fair value of its common stock was \$15.01 per share based on a valuation using a discounted cash flow approach as of July 2006.

The Company retrospectively applied the valuation to share-based compensation relating to RSGs and common stock sales which occurred from January 2006 to May 2006. Therefore, the financial statements reflect this valuation for grants made prior to the Company's IPO.

(3) Restructuring

Over the past several years, and in furtherance of the Company's cost reduction and cash preservation plans outlined in Note 1, the Company has engaged in a series of individual restructuring programs, designed primarily to right size the Company's employee base, consolidate facilities and improve operations. These initiatives impact all of the Company's geographic regions and are often influenced by the terms of union contracts within the region. All costs related to these programs, which primarily reflect involuntary severance expense, are accrued at the time of announcement.

Information related to restructuring program activity during the years ended December 30, 2012 and January 1, 2012 is outlined below.

	Severance and Related Costs	Other Costs ⁽¹⁾	Total
Balance at December 31, 2010	\$ 253	\$ 1	\$ 254
Restructuring provision included in Integration and Reorganization ⁽²⁾	3,724	2,226	5,950
Cash payments	(3,077)	(1,801)	(4,878)
Balance at January 1, 2012	\$ 900	\$ 426	\$ 1,326
Restructuring provision included in Integration and Reorganization ⁽²⁾	3,610	800	4,410
Cash payments	(3,826)	(1,062)	(4,888)
Balance at December 30, 2012	\$ 684	\$ 164	\$ 848

⁽¹⁾ Other costs primarily included costs to consolidate operations.

⁽²⁾ Included above are amounts that were initially recognized in integration and reorganization and were subsequently reclassified to discontinued operations expense at the time the operations ceased.

The restructuring reserve balance as of December 30, 2012, for all programs was \$848, which is expected to be paid out over the next twelve months.

Table of Contents

The following table summarizes the costs incurred and cash paid in connection with these restructuring programs for the years ended December 30, 2012 and January 1, 2012.

	Years Ended	
	December 30, 2012	January 1, 2012
Severance and related costs ⁽²⁾	\$ 3,610	\$ 3,724
Other costs ^{(1) (2)}	800	2,226
Cash payments	(4,888)	(4,878)

⁽¹⁾ Other costs primarily included costs to consolidate operations.

⁽²⁾ Included above are amounts that were initially recognized in integration and reorganization and were subsequently reclassified to discontinued operations expense at the time the operations ceased.

Additionally, during the year ended January 1, 2012, the Company recognized an impairment charge of \$1,696 related to the consolidation of its print operations. Refer to Note 16 for fair value measurement discussion.

(4) Property, Plant, and Equipment

Property, plant, and equipment consisted of the following:

	December 30, 2012	January 1, 2012
Land	\$ 19,384	\$ 19,627
Buildings and improvements	84,028	86,786
Machinery and equipment	118,907	120,554
Furniture, fixtures, and computer software	20,673	20,225
Construction in progress and other non-depreciating assets	1,726	525
	244,718	247,717
Less: accumulated depreciation and amortization	(128,208)	(116,780)
Total	\$ 116,510	\$ 130,937

Depreciation expense during the years ended December 30, 2012, January 1, 2012 and December 31, 2010 was \$16,435, \$18,669 and \$21,099, respectively.

(5) Goodwill and Intangible Assets

Goodwill and intangible assets consisted of the following:

	December 30, 2012		
	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount
Amortized intangible assets:			
Noncompete agreements	\$ 4,970	\$ 4,839	\$ 131
Advertiser relationships	278,543	145,878	132,665
Customer relationships	8,940	3,597	5,343
Subscriber relationships	82,280	39,226	43,054

Edgar Filing: GateHouse Media, Inc. - Form ARS

Trade name	5,493	3,204	2,289
Publication rights	345	134	211
Total	\$ 380,571	\$ 196,878	\$ 183,693
Nonamortized intangible assets:			
Goodwill	\$ 13,742		
Mastheads	35,288		
Total	\$ 49,030		

Table of Contents

	Gross Carrying Amount	January 1, 2012 Accumulated Amortization	Net Carrying Amount
Amortized intangible assets:			
Noncompete agreements	\$ 4,970	\$ 4,479	\$ 491
Advertiser relationships	286,478	134,228	152,250
Customer relationships	8,940	2,946	5,994
Subscriber relationships	83,158	34,908	48,250
Trade name	5,493	2,655	2,838
Publication rights	345	111	234
 Total	 \$ 389,384	 \$ 179,327	 \$ 210,057
Nonamortized intangible assets:			
Goodwill	\$ 13,958		
Mastheads	36,604		
 Total	 \$ 50,562		

The weighted average amortization periods for amortizable intangible assets are 4.4 years for noncompete agreements, 16.7 years for advertiser relationships, 13.8 years for customer relationships, 17.2 years for subscriber relationships, 10.0 years for trade names and 15.0 years for publication rights.

Amortization expense for the years ended December 30, 2012, January 1, 2012 and December 31, 2010 was \$23,598, \$23,914 and \$24,037, respectively. Estimated future amortization expense as of January 1, 2012, is as follows:

For the years ending the Sunday closest to December 31:	
2013	\$ 23,323
2014	23,277
2015	23,243
2016	21,316
2017	20,242
Thereafter	72,292
 Total	 \$ 183,693

Table of Contents

The changes in the carrying amount of goodwill for the years ended December 30, 2012 and January 1, 2012 are as follows:

Gross balance at December 31, 2010	\$ 886,843
Accumulated impairment losses	(872,500)
Net balance at December 31, 2010	\$ 14,343
Goodwill impairment	(385)
Balance at January 1, 2012	\$ 13,958
Gross balance at January 1, 2012	\$ 886,843
Accumulated impairment losses	(872,885)
Net balance at January 1, 2012	\$ 13,958
Goodwill impairment from divestitures ⁽¹⁾	(216)
Balance at December 30, 2012	\$ 13,742
Gross balance at December 30, 2012	\$ 886,843
Accumulated impairment losses	(873,101)
Net balance at December 30, 2012	\$ 13,742

⁽¹⁾ Goodwill impairment was initially recognized in continuing operations and was subsequently reclassified to discontinued operations expense at the time the operations were classified as held for sale.

As of December 30, 2012 and January 1, 2012, goodwill in the amount \$606,013 was deductible for income tax purposes.

The Company's annual impairment assessment is made on the last day of its fiscal second quarter.

As of March 31, 2010 a review of impairment indicators was performed with the Company noting that its financial results and forecast had not changed materially since the June 30, 2009 impairment test and its market capitalization exceeded its consolidated carrying value. It was determined that an impairment analysis was not required.

As part of the annual impairment assessment, as of June 30, 2010, the fair values of the Company's reporting units for goodwill impairment testing and individual newspaper mastheads were estimated using the expected present value of future cash flows, recent industry transaction multiples and using estimates, judgments and assumptions that management believed were appropriate in the circumstances. The estimates and judgments used in the assessment included multiples for revenue and EBITDA, the weighted average cost of capital and the terminal growth rate. Given the current market conditions, the Company determined that current transactions provided the best estimate of the fair value of its reporting units. Given the stabilization of operating results for the only reporting unit having a goodwill balance at the time, no impairment indicators were identified. Additionally, the estimated fair value exceeded carrying value for all mastheads. The total Company's estimate of fair value was reconciled to its then market capitalization (based upon the stock market price and fair value of debt) plus an estimated control premium.

As of September 30, 2010, December 31, 2010, and March 27, 2011 a review of impairment indicators was performed with the Company noting that its financial results and forecast had not changed materially since the June 30, 2010 impairment test and its market capitalization exceeded its consolidated carrying value. It was determined that an impairment analysis was not required.

Edgar Filing: GateHouse Media, Inc. - Form ARS

As part of the annual impairment assessment, as of June 26, 2011, the fair values of the Company's reporting units for goodwill impairment testing and newspaper mastheads were estimated using the expected

Table of Contents

present value of future cash flows, recent industry transaction multiples and using estimates, judgments and assumptions that management believed were appropriate in the circumstances. The estimates and judgments used in the assessment included multiples for revenue and EBITDA, the weighted average cost of capital and the terminal growth rate. Given the current market conditions, the Company determined that recent transactions provided the best estimate of the fair value of its reporting units. Given the stabilization of operating results for the only reporting unit having a goodwill balance at the time, no impairment indicators were identified. Additionally, the estimated fair value exceeded carrying value for all mastheads. The total Company's estimate of fair value was reconciled to its then market capitalization (based upon the stock market price and fair value of debt) plus an estimated control premium.

As of September 25, 2011 a review of impairment indicators was performed with the Company noting that its financial results and forecast had not changed materially since the June 26, 2011 impairment test and its market capitalization exceeded its consolidated carrying value. It was determined that an impairment analysis was not required.

Due to an operational management change in the fourth quarter of 2011, certain properties having a goodwill balance of \$385 were transferred to a reporting unit that previously did not have a goodwill balance. The Company performed a Step 1 analysis for this reporting unit and determined that its carrying value exceeded fair value. As a result of the Step 2 analysis, the entire \$385 of goodwill was impaired. The fair value of this reporting unit for impairment testing purposes was estimated using the expected present value of future cash flows, recent industry transaction multiples and using estimates, judgments and assumptions that management believed were appropriate in the circumstances. The estimates and judgments used in the assessment included multiples for revenue and EBITDA, the weighted average cost of capital and the terminal growth rate. Given the current market conditions, the Company determined that recent transactions provided the best estimate of the fair value of this reporting unit. The Company performed further analysis of this reporting unit's intangible and long-lived assets and determined that impairments of these assets were not present as of year-end.

As of January 1, 2012, a review of impairment indicators was performed for the Company's other reporting units and it was determined that financial results and forecast had not changed materially since the June 26, 2011 impairment test and it was determined no indicators of impairment were present.

During the first quarter of 2012, the Company reorganized its management structure to align with its publication types. The fair value of goodwill was allocated to each of the new reporting units: Small Community Newspapers, Large Daily Newspapers and Metro Newspapers. The Company determined that impairment indicators were present for the Metro Newspaper reporting unit, which had a goodwill balance of \$216. As of April 1, 2012 the Company performed a Step 1 analysis for this reporting unit and determined that its carrying value exceeded fair value. As a result of the Step 2 analysis, the entire \$216 of goodwill was impaired and this amount was subsequently reclassified to discontinued operations, see Note 19. The fair value of this reporting unit for impairment testing purposes was estimated using the expected present value of future cash flows, recent industry transaction multiples and using estimates, judgments and assumptions that management believed were appropriate in the circumstances. The estimates and judgments used in the assessment included multiples for revenue and EBITDA, the weighted average cost of capital and the terminal growth rate. Given the current market conditions, the Company determined that recent transactions provided the best estimate of the fair value of this reporting unit. The Company performed further analysis of this reporting unit's intangible and long-lived assets and determined that impairments of these assets were not present.

As of April 1, 2012, a review of impairment indicators was performed for the Company's other reporting units and it was determined that financial results and forecast had not changed materially since the June 26, 2011 impairment test and it was determined no indicators of impairment were present.

As part of the annual impairment assessment, as of July 1, 2012, the fair values of the Company's reporting units for goodwill impairment testing and newspaper mastheads were estimated using the expected present value of future cash flows, recent industry transaction multiples and using estimates, judgments and assumptions that

Table of Contents

management believed were appropriate in the circumstances. The estimates and judgments used in the assessment included multiples for revenue and EBITDA, the weighted average cost of capital and the terminal growth rate. Given the current market conditions, the Company determined that recent transactions provided the best estimate of the fair value of its reporting units. Given the stabilization of operating results for the two reporting units that had a goodwill balance as of the annual impairment assessment date, no impairment indicators were identified. Additionally, the estimated fair value exceeded carrying value for all mastheads. The total Company's estimate of fair value was reconciled to its then market capitalization (based upon the stock market price and fair value of debt) plus an estimated control premium.

As of September 30, 2012 and December 30, 2012, a review of impairment indicators was performed with the Company noting that its financial results and forecast had not changed materially since the July 1, 2012 impairment test and its market capitalization exceeded its consolidated carrying value. It was determined no indicators of impairment were present.

The newspaper industry and our Company have experienced declining same store revenue and profitability over the past several years. Should general economic, market or business conditions decline, and have a negative impact on estimates of future cash flow and market transaction multiples, we may be required to record additional impairment charges in the future.

(6) Accrued Expenses

Accrued expenses consisted of the following:

	December 30, 2012	January 1, 2012
Accrued payroll	\$ 4,305	\$ 3,790
Accrued bonus	2,219	4,465
Accrued vacation	959	1,396
Accrued insurance	6,903	6,488
Accrued newsprint		45
Accrued other	11,872	11,441
	\$ 26,258	\$ 27,625

(7) Lease Commitments

The future minimum lease payments related to the Company's non-cancelable operating lease commitments as of December 30, 2012 are as follows:

For the years ending the Sunday closest to December 31:	
2013	\$ 4,640
2014	4,616
2015	3,447
2016	2,523
2017	2,203
Thereafter	2,551
Total minimum lease payments	\$ 19,980

Rental expense under operating leases for the years ended December 30, 2012, January 1, 2012 and December 31, 2010 was \$5,009, \$5,382 and \$5,297, respectively.

Table of Contents**(8) Indebtedness*****2007 Credit Facility***

GateHouse Media Operating, Inc. (*Operating*), an indirectly wholly owned subsidiary of GateHouse Media, GateHouse Media Holdco, Inc. (*Holdco*), an indirectly wholly-owned subsidiary of GateHouse Media, and certain of their subsidiaries entered into an Amended and Restated Credit Agreement, dated as of February 27, 2007, with a syndicate of financial institutions with Wells Fargo Bank as administrative agent.

The 2007 Credit Facility, prior to execution of the Second Amendment (defined below), provided for a: (a) \$670,000 term loan facility that matures on August 28, 2014; (b) a delayed draw term loan facility of up to \$250,000 that matures on August 28, 2014 and (c) a revolving credit facility with a \$40,000 aggregate loan commitment amount available, including a \$15,000 sub-facility for letters of credit and a \$10,000 swingline facility, that matures on February 28, 2014. The borrowers used the proceeds of the 2007 Credit Facility to refinance existing indebtedness and for working capital and other general corporate purposes, including, without limitation, financing acquisitions permitted under the 2007 Credit Facility. The 2007 Credit Facility is secured by a first priority security interest in: (a) all present and future capital stock or other membership, equity, ownership or profits interest of Operating and all of its direct and indirect domestic restricted subsidiaries, (b) 65% of the voting stock (and 100% of the nonvoting stock) of all present and future first-tier foreign subsidiaries and (c) substantially all of the tangible and intangible assets of Holdco, Operating and their present and future direct and indirect domestic restricted subsidiaries. In addition, the loans and other obligations of the borrowers under the 2007 Credit Facility are guaranteed, subject to specified limitations, by Holdco, Operating and their present and future direct and indirect domestic restricted subsidiaries.

Borrowings under the 2007 Credit Facility bear interest, at the borrower's option, equal to the LIBOR Rate for a LIBOR Rate Loan (as defined in the 2007 Credit Facility), or the Alternate Base Rate for an Alternate Base Rate Loan (as defined in the 2007 Credit Facility), plus an applicable margin. The applicable margin for the LIBOR Rate term loans and Alternate Base Rate term loans, as amended by the First Amendment (defined below), is 2.00% and 1.00%, respectively. The applicable margin for revolving loans is adjusted quarterly based upon Holdco's Total Leverage Ratio (as defined in the 2007 Credit Facility) (*i.e.*, the ratio of Holdco's Consolidated Indebtedness (as defined in the 2007 Credit Facility) on the last day of the preceding quarter to Consolidated EBITDA (as defined in the 2007 Credit Facility) for the four fiscal quarters ending on the date of determination). The applicable margin ranges from 1.50% to 2.00%, in the case of LIBOR Rate Loans, and 0.50% to 1.00% in the case of Alternate Base Rate Loans. Under the revolving credit facility, GateHouse Media will also pay a quarterly commitment fee on the unused portion of the revolving credit facility ranging from 0.25% to 0.5% based on the same total leverage ratio (as described above), and a quarterly fee equal to the applicable margin for LIBOR Rate Loans on the aggregate amount of outstanding letters of credit. In addition, GateHouse Media will be required to pay a ticking fee at the rate of 0.50% of the aggregate unfunded amount available to be borrowed under the delayed draw term facility.

No principal payments are due on the term loan facilities or the revolving credit facility until the applicable maturity date. The borrowers are required to prepay borrowings under the term loan facilities in an amount equal to 50.0% of Holdco's Excess Cash Flow (as defined in the 2007 Credit Facility) earned during the previous fiscal year, except that no prepayments are required if the Total Leverage Ratio (as defined in the 2007 Credit Facility) is less than or equal to 6.0 to 1.0 at the end of such fiscal year. In addition, the borrowers are required to prepay borrowings under the term loan facilities with asset disposition proceeds in excess of specified amounts to the extent necessary to cause Holdco's Total Leverage Ratio to be less than or equal to 6.25 to 1.00, and with cash insurance proceeds and condemnation or expropriation awards, in excess of specified amounts, subject, in each case, to reinvestment rights. The borrowers are required to prepay borrowings under the term loan facilities with the net proceeds of equity issuances by GateHouse Media in an amount equal to the lesser of (a) the amount by which 50.0% of the net cash proceeds exceeds the amount (if any) required to repay any credit facilities of GateHouse Media or (b) the amount of proceeds required to reduce Holdco's Total Leverage Ratio to 6.0 to 1.0. The borrowers are also required to prepay borrowings under the term loan facilities with 100% of the proceeds of debt issuances (with specified exceptions), except that no prepayment is required if Holdco's Total Leverage

Table of Contents

Ratio is less than 6.0 to 1.0. If the term loan facilities have been paid in full, mandatory prepayments are applied to the repayment of borrowings under the swingline facility and revolving credit facilities and the cash collateralization of letters of credit.

The 2007 Credit Facility contains a financial covenant that requires Holdco to maintain a Total Leverage Ratio of less than or equal to 6.5 to 1.0 at any time an extension of credit is outstanding under the revolving credit facility. The 2007 Credit Facility contains affirmative and negative covenants applicable to Holdco, Operating and their restricted subsidiaries customarily found in loan agreements for similar transactions, including restrictions on their ability to incur indebtedness (which GateHouse Media is generally permitted to incur so long as it satisfies an incurrence test that requires it to maintain a pro forma Total Leverage Ratio of less than 6.5 to 1.0), create liens on assets, engage in certain lines of business, engage in mergers or consolidations, dispose of assets, make investments or acquisitions, engage in transactions with affiliates, enter into sale leaseback transactions, enter into negative pledges or pay dividends or make other restricted payments (except that Holdco is permitted to (a) make restricted payments (including quarterly dividends) so long as, after giving effect to any such restricted payment, Holdco and its subsidiaries have a Fixed Charge Coverage Ratio (as defined in the 2007 Credit Facility) equal to or greater than 1.0 to 1.0 and would be able to incur an additional \$1.00 of debt under the incurrence test referred to above and (b) make restricted payments of proceeds of asset dispositions to GateHouse Media to the extent such proceeds are not required to prepay loans under the 2007 Credit Facility and/or cash collateralize letter of credit obligations and such proceeds are used to prepay borrowings under acquisition credit facilities of GateHouse Media. The 2007 Credit Facility also permits the borrowers, in certain limited circumstances, to designate subsidiaries as unrestricted subsidiaries which are not subject to the covenant restrictions in the 2007 Credit Facility. The 2007 Credit Facility contains customary events of default, including defaults based on a failure to pay principal, reimbursement obligations, interest, fees or other obligations, subject to specified grace periods; a material inaccuracy of representations and warranties; breach of covenants; failure to pay other indebtedness and cross-accelerations; a Change of Control (as defined in the 2007 Credit Facility); events of bankruptcy and insolvency; material judgments; failure to meet certain requirements with respect to ERISA; and impairment of collateral. There were no extensions of credit outstanding under the revolving credit portion of the facility at December 30, 2012 and, therefore, the Company was not required to be in compliance with the Total Leverage Ratio covenant.

First Amendment to 2007 Credit Facility

On May 7, 2007, the borrowers entered into the First Amendment to amend the 2007 Credit Facility (the First Amendment). The First Amendment provided an incremental term loan facility under the 2007 Credit Facility in the amount of \$275,000. As amended by the First Amendment, the 2007 Credit Facility includes \$1,195,000 of term loan facilities and \$40,000 of a revolving credit facility. The incremental term loan facility amortizes at the same rate and matures on the same date as the existing term loan facilities under the 2007 Credit Facility. Interest on the incremental term loan facility accrues at a rate per annum equal to, at the option of the borrowers, (a) adjusted LIBOR plus a margin equal to (i) 2.00%, if the corporate family ratings and corporate credit ratings of Operating by Moody's Investors Service Inc. and Standard & Poor's Rating Services, are at least B1, and B+, respectively, in each case with stable outlook or (ii) 2.25%, otherwise, as was the case as of December 30, 2012, or (b) the greater of the prime rate set by Wells Fargo Bank, or the federal funds effective rate plus 0.50%, plus a margin 1.00% lower than that applicable to adjusted LIBOR-based loans. Any voluntary or mandatory repayment of the First Amendment term loans made with the proceeds of a new term loan entered into for the primary purpose of benefiting from a margin that is less than the margin applicable as a result of the First Amendment will be subject to a 1.00% prepayment premium. The First Amendment term loans are subject to a most favored nation interest provision that grants the First Amendment term loans an interest rate margin that is 0.25% less than the highest margin of any future term loan borrowings under the 2007 Credit Facility.

As previously noted, the First Amendment also modified the interest rates applicable to the term loans under the 2007 Credit Facility. Term loans thereunder accrue interest at a rate per annum equal to, at the option of the Borrower, (a) adjusted LIBOR plus a margin equal to 2.00% or (b) the greater of the prime rate set by Wells Fargo Bank, or the federal funds effective rate plus 0.50%, plus a margin equal to 1.00%. The terms of the

Table of Contents

previously outstanding borrowings were also modified to include a 1.00% prepayment premium corresponding to the prepayment premium applicable to the First Amendment term loans and a corresponding most favored nation interest provision.

Second Amendment to 2007 Credit Facility

On February 3, 2009, the Company entered into a Second Amendment to the 2007 Credit Facility (the Second Amendment).

The Second Amendment, among other things, permits the borrowers to repurchase term loans outstanding under the 2007 Credit Facility at prices below par through one or more Modified Dutch Auctions (as defined in the Second Amendment) through December 31, 2011, provided that: (a) no Default or Event of Default (each as described in the 2007 Credit Facility) under the 2007 Credit Agreement has occurred and is continuing or would result from such repurchases; (b) the sum of Unrestricted Cash and Accessible Borrowing Availability (as defined in the Second Amendment) under the 2007 Credit Facility is greater than or equal to \$20,000; and (c) no Extension of Credit (as defined in the Second Amendment) is outstanding under the revolving credit facility before or after giving effect to such repurchases. The Second Amendment further provides that such repurchases may result in the prepayment of term loans on a non-pro rata basis. No debt repurchases were required to be made pursuant to the Second Amendment and no repurchases were made.

The Second Amendment also reduced the aggregate principal amounts available under the 2007 Credit Facility, as follows: (a) for revolving loans, from \$40,000 to \$20,000; (b) for the letter of credit subfacility, from \$15,000 to \$5,000; and (c) for the swingline loan subfacility, from \$10,000 to \$5,000.

In addition, the Second Amendment provides that Holdco may not incur additional term debt under the 2007 Credit Facility unless the Senior Secured Incurrence Test (as defined in the Second Amendment) is less than 4.00 to 1 and the current Incurrence Test (as defined in the Second Amendment) is satisfied. At December 30, 2012, Holdco was not able to incur additional debt under the 2007 Credit Facility.

In conjunction with the Second Amendment, the Company incurred and expensed approximately \$550 of fees. The existing unamortized deferred financing fees that should be written off, in accordance with FASB ASC Topic 855, *Debt*, as a result of the decrease in borrowing capacity were not significant. The Company determined that the approximate net impact of \$400 was immaterial and as a result the Company expensed the \$550 of new fees and continues to amortize the existing deferred financing fees.

Agency Amendment to 2007 Credit Facility

On April 1, 2011, the borrowers entered into an Agency Succession and Amendment Agreement, dated as of March 30, 2011, to the 2007 Credit Facility (the Agency Amendment).

Pursuant to the Agency Amendment, among other things, (a) Wells Fargo Bank resigned as Agent and (b) Gleacher was appointed as Agent. In addition, the Agency Amendment effected certain amendments to the 2007 Credit Facility that provide that (x) the Agent need not be a lender under the 2007 Credit Facility and (y) the lenders holding a majority of the outstanding term loans and loan commitments under the 2007 Credit Facility have (i) the right, in their discretion, to remove the Agent and (ii) the right to make certain decisions and exercise certain powers under the 2007 Credit Facility that had previously been within the discretion of the Agent.

2007 Credit Facility Excess Cash Flow Payment and Outstanding Balance

As required by the 2007 Credit Facility, as amended, on March 15, 2012 and March 2, 2011, the Company made principal payments of \$4,600 and \$11,249, respectively, which represented 50% of the Excess Cash Flow related to the fiscal years ended January 1, 2012 and December 31, 2010, respectively. As of December 30, 2012, a total of \$1,174,098 was outstanding under the 2007 Credit Facility; consisting of \$658,281 under the term loan

Table of Contents

facility, \$245,627 under the delayed draw term loan facility, and \$270,190 under the incremental term loan facility. No amounts were outstanding under the revolving credit facility. Following the filing of this Annual Report (Form 10-K) on March 7, 2013 the Company expects to make a principal payment of \$6,648, which represents 50% of the Excess Cash Flow related to the fiscal year ended December 30, 2012, as required by the 2007 Credit Facility, as amended. This amount has been classified as current portion of long-term debt in the accompanying Consolidated Balance Sheet at December 30, 2012.

Compliance with Covenants

The Company currently is in compliance with all of the covenants and obligations under the 2007 Credit Facility, as amended. However, due to restrictive covenants and conditions within the facility, the Company currently does not have the ability to draw upon the revolving credit facility portion of the 2007 Credit Facility for any immediate short-term funding needs or to incur additional long-term debt and do not expect to be able to do so in the foreseeable future.

2008 Bridge Facility

On February 15, 2008, GateHouse Media Intermediate Holdco, Inc., a subsidiary of the Company, and the Company entered into the 2008 Bridge Facility with Barclays Capital (Barclays), as subsequently modified and amended. The 2008 Bridge Facility originally provided for a \$20,600 secured term loan facility. On June 7, 2010, the Company paid off in full the remaining balance under the 2008 Bridge Facility.

Preferred Stock Agreement with Subsidiary

On August 21, 2008, FIF III Liberty Holdings LLC (FIF III) purchased an aggregate of \$11,500 in 10% cumulative preferred stock of GateHouse Media Macomb Holdings, Inc. (Macomb), an operating subsidiary of the Company. Macomb, an Unrestricted Subsidiary under the terms of the 2007 Credit Facility, used the proceeds from such sale of preferred stock to make an \$11,500 cash investment in Holdco non-voting 10% cumulative preferred stock. On December 7, 2010, FIF III exercised its right to require the Company to purchase its Macomb preferred stock. During the five-year period following the full repayment by the Company of its 2008 Bridge Facility, which repayment occurred in the second quarter of 2010, FIF III had the right to require the Company to purchase the preferred stock. The Company paid the purchase price of \$14,144 on December 8, 2010, which represented the sum of original purchase price of \$11,500 paid by FIF III for the Macomb preferred stock and accrued but unpaid dividends of \$2,644. FIF III is an affiliate of Fortress Investment Group, LLC, the owner of approximately 39.6% of the Company's outstanding Common Stock.

Fair Value

The fair value of the Company's total long-term debt, determined based on the average yield to maturity of publicly traded debt with similar ratings and consistent maturities and terms, Level 2 inputs (see Note 16), was approximately \$715,000. The average yield to maturity of such publicly traded debt used in valuing the Company's debt ranged from 6.9% to 52.0% with an average of 19.7%. The fair value is an estimate based on publicly available information and may not necessarily represent the fair market value in an arm's length transaction.

Payment Schedule

As of December 30, 2012, scheduled principal payments of outstanding debt are as follows:

2013	6,648
2014	1,167,450
	\$ 1,174,098
Less: Short-Term Debt	6,648
Long-Term Debt	\$ 1,167,450

Table of Contents

(9) Derivative Instruments

The Company uses certain derivative financial instruments to hedge the aggregate risk of interest rate fluctuations with respect to its long-term debt, which requires payments based on a variable interest rate index. These risks include: increases in debt rates above the earnings of the encumbered assets, increases in debt rates resulting in the failure of certain debt ratio covenants, increases in debt rates such that assets can no longer be refinanced, and earnings volatility.

In order to reduce such risks, the Company primarily uses interest rate swap agreements to change floating-rate long term debt to fixed-rate long-term debt. This type of hedge is intended to qualify as a cash-flow hedge under ASC 815. For these instruments, the effective portion of the change in the fair value of the derivative is recorded in accumulated other comprehensive loss in the Consolidated Statement of Stockholders Equity (Deficit) and recognized in the Consolidated Statement of Operations and Comprehensive Income (Loss) in the same period in which the hedged transaction impacts earnings. The ineffective portion of the change in the fair value of the derivative is immediately recognized in earnings.

On June 23, 2005, the Company entered into and designated an interest rate swap based on a notional amount of \$300,000 maturing June 2012 as a cash flow hedge. Under the swap agreement, the Company received interest equivalent to one month LIBOR and pays a fixed rate of 4.135%, with settlements occurring monthly. On February 20, 2006, the Company redesignated the same interest rate swap as a cash flow hedge for accounting purposes. At December 31, 2006, the swap no longer qualified as an effective hedge. Therefore, the balance in accumulated other comprehensive income has been reclassified into earnings over the life of the hedged item. On

Table of Contents

January 1, 2007, the Company redesignated the same interest rate swap as a cash flow hedge for accounting purposes. On August 18, 2008, the Company terminated the swap and entered into a settlement agreement with Goldman Sachs in the aggregate amount of \$18,947, which also includes the termination of the swap having a notional value of \$270,000. The balance in accumulated other comprehensive income is reclassified into earnings over the remaining life of the item previously hedged. During the twelve months ended December 30, 2012, (\$1,615) was amortized and recognized through earnings relating to balances in accumulated other comprehensive income and the associated deferred income taxes of \$148 were recognized in income tax expense. As of December 30, 2012, all amounts in accumulated other comprehensive income have been reclassified into earnings.

In connection with financing obtained in 2006, the Company entered into and designated an interest rate swap based on a notional amount of \$270,000 maturing July 2011 as a cash flow hedge. Under the swap agreement, the Company received interest equivalent to one month LIBOR and pays a fixed rate of 5.359%, with settlements occurring monthly. On January 1, 2007, the swap was redesignated. Therefore, the balance in accumulated other comprehensive income has been reclassified into earnings over the life of the hedged item. On August 18, 2008, the Company terminated the swap and entered into a settlement agreement with Goldman Sachs in the aggregate amount of \$18,947 which also includes the termination of the swap having a notional value of \$300,000. The balance in accumulated other comprehensive income is reclassified into earnings over the remaining life of the item previously hedged. As of December 30, 2012, all amounts in accumulated other comprehensive income have been reclassified into earnings.

In connection with the 2007 Credit Facility, the Company entered into and designated an interest rate swap based on a notional amount of \$100,000 maturing September 2014, as a cash flow hedge. Under the swap agreement, the Company receives interest equivalent to one-month LIBOR and pays a fixed rate of 5.14%, with settlements occurring monthly. During the year ended December 30, 2012, the fair value of the swap increased by \$969, net, of which \$0 was recognized through earnings and \$969 was recognized through accumulated other comprehensive income.

In connection with the 2007 Credit Facility, the Company entered into and designated an interest rate swap based on a notional amount of \$250,000 maturing September 2014, as a cash flow hedge. Under the swap agreement, the Company receives interest equivalent to one-month LIBOR and pays a fixed rate of 4.971%, with settlements occurring monthly. During the year ended December 30, 2012, the fair value of the swap increased by \$2,293, net, of which \$3 was recognized through earnings and \$2,290 was recognized through accumulated other comprehensive income.

In connection with the First Amendment to the 2007 Credit Facility, the Company entered into and designated an interest rate swap based on a notional amount of \$200,000 maturing September 2014, as a cash flow hedge. Under the swap agreement, the Company receives interest equivalent to one-month LIBOR and pays a fixed rate of 5.079% with settlements occurring monthly. During the year ended December 30, 2012, the fair value of the swap increased by \$1,900, net, of which a decrease of \$20 was recognized through earnings and an increase of \$1,920 was recognized through accumulated other comprehensive income.

During September, 2007, the Company entered into and designated an interest rate swap based on a notional amount of \$75,000 maturing September 2014, as a cash flow hedge. Under the swap agreement, the Company receives interest equivalent to one-month LIBOR and pays a fixed rate of 4.941% with settlements occurring monthly. During the year ended December 30, 2012, the fair value of the swap increased by \$690, net, of which \$37 was recognized through earnings and \$653 was recognized through accumulated other comprehensive income.

Upon the maturity of a redesignated hedge the Company reviewed all amounts in accumulated other comprehensive income and determined \$240 should be reclassified from the derivative to the pension balance during the twelve months ended January 1, 2012.

Table of Contents

The aggregate amount of unrealized loss related to derivative instruments recognized in other comprehensive loss as of December 30, 2012 and January 1, 2012 was \$45,651 and \$50,017, respectively.

(10) Income Taxes

Income tax expense (benefit) on loss from continuing operations for the periods shown below consisted of:

	Current	Deferred	Total
Year ended December 30, 2012:			
U.S. Federal	\$ 149	\$	\$ 149
State and local	(356)		(356)
	\$ (207)		\$ (207)
Year ended January 1, 2012:			
U.S. Federal	\$ (1,368)	\$	\$ (1,368)
State and local	(435)		(435)
	\$ (1,803)		\$ (1,803)
Year ended December 31, 2010:			
U.S. Federal	\$	\$	\$
State and local	(155)		(155)
	\$ (155)		\$ (155)

Income tax expense (benefit) differed from the amounts computed by applying the U.S. federal income tax rate of 34% to income (loss) from continuing operations before income taxes as a result of the following:

	Year Ended December 30, 2012	Year Ended January 1, 2012	Year Ended December 31, 2010
Computed expected tax benefit	\$ (9,303)	\$ (8,171)	\$ (8,755)
Increase (decrease) in income tax benefit resulting from:			
State and local income taxes, net of federal benefit	20	(367)	
Nondeductible meals, entertainment, and other expenses	393	358	82
Return to provision adjustment	288	6	(60)
Impairment of Non-Deductible Goodwill		51	
Change in valuation allowance	8,462	6,183	7,755
Increase (decrease) to provision for unrecognized tax benefits	(356)	120	(155)
Preferred stock dividend			899
Other	289	17	79
	\$ (207)	\$ (1,803)	\$ (155)

During the year ended December 30, 2012, the income tax benefit, net of income tax valuation allowance, was \$207.

Table of Contents

The tax effects of temporary differences that give rise to significant portions of the deferred tax assets as of December 30, 2012 and January 1, 2012 are presented below:

	December 30, 2012	January 1, 2012
Current deferred tax assets:		
Accounts receivable, principally due to allowance for doubtful accounts	\$ 962	\$ 1,165
Accrued expenses	12,077	12,976
Inventory capitalization	2,356	2,356
Gross current deferred tax assets	15,395	16,497
Less valuation allowance	(15,395)	(16,497)
Net current deferred tax assets		
Non-current deferred tax assets:		
Derivative instruments	17,870	20,219
Pension and other postretirement benefit obligation	8,922	7,489
Long-lived and intangible assets, principally due to differences in depreciation and amortization	160,131	183,794
Net operating losses	242,272	204,955
Gross non-current deferred tax assets	429,195	416,457
Less valuation allowance	(429,195)	(416,457)
Net non-current deferred tax assets		

In assessing the realizability of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences become deductible.

During the year ended December 31, 2010, the valuation allowance increased by \$10,980, of which \$5,617 was charged to earnings and \$5,363 was recorded through accumulated other comprehensive income. During the year ended January 1, 2012, the valuation allowance increased by \$2,707 of which \$6,551 was charged to earnings and \$3,844 was recorded as a reduction through accumulated other comprehensive income. During the year ended December 30, 2012, the valuation allowance increased by \$11,636 of which \$11,795 was charged to earnings, \$513 was charged to discontinued operations, and \$672 was recorded as a reduction through accumulated other comprehensive income.

At December 30, 2012, the Company had net operating loss carryforwards for Federal and state income tax purposes of approximately \$632,120, which are available to offset future taxable income, if any. These Federal and state net operating loss carryforwards begin to expire on various dates from 2018 through 2031. A portion of these net operating losses are subject to the limitations of Internal Revenue Code (the Code) Section 382. This section provides limitations on the availability of net operating losses to offset current taxable income if significant ownership changes have occurred for Federal tax purposes.

At December 30, 2012, the Company had uncertain tax positions of \$4,677 which, if recognized, would impact the effective tax rate. The Company did not record significant amounts of interest and penalties related to uncertain tax positions for the year ended December 30, 2012. Certain amounts were recognized in 2012 due to expiration of the statute of limitations.

Table of Contents

A reconciliation of the beginning and ending amount of uncertain tax positions for the years ended December 30, 2012 and January 1, 2012 are as follows:

Balance as of January 1, 2011	\$ 4,913
Increases based on tax positions prior to 2011	120
Uncertain tax positions as of January 1, 2012	\$ 5,033
Decreases based on tax positions prior to 2012	(399)
Increases based on tax positions prior to 2012	43
Uncertain tax positions as of December 30, 2012	\$ 4,677

The Company does not anticipate significant increases or decreases in our uncertain tax positions within the next twelve months. The Company recognizes penalties and interest relating to uncertain tax positions in the provision for income taxes.

The Company files a U.S. federal consolidated income tax return for which the statute of limitations remains open for the 2009 tax year and beyond. U.S. state jurisdictions have statute of limitations generally ranging from 3 to 6 years.

(11) Earnings (Loss) Per Share

The following table sets forth the computation of basic and diluted earnings (loss) per share (EPS):

	Year Ended December 30, 2012	Year Ended January 1, 2012	Year Ended December 31, 2010
Numerator for earnings per share calculation:			
Loss from continuing operations attributable to GateHouse Media	\$ (28,211)	\$ (21,932)	\$ (26,787)
Loss from discontinued operations, attributable to GateHouse Media, net of income taxes	(1,592)	283	743
Net loss attributable to GateHouse Media	\$ (29,803)	\$ (21,649)	\$ (26,044)
Denominator for earnings per share calculation:			
Basic weighted average shares outstanding	58,041,907	57,949,815	57,723,353
Dilutive securities, including restricted share grants			
Diluted weighted average shares outstanding	58,041,907	57,949,815	57,723,353
Loss per share basic and diluted:			
Loss from continuing operations attributable to GateHouse Media	\$ (0.49)	\$ (0.38)	\$ (0.46)
Income (loss) from discontinued operations, attributable to GateHouse Media, net of taxes	(0.02)	0.01	0.01
Net loss attributable to GateHouse Media	\$ (0.51)	\$ (0.37)	\$ (0.45)

During the years ended December 30, 2012, January 1, 2012 and December 31, 2010, 25,424, 84,181 and 299,560 RSGs, respectively, were excluded from the computation of diluted loss per share because their effect would have been antidilutive.

(12) Employee Benefit Plans

The Company maintains a GateHouse Media, Inc. defined contribution plan (the Defined Plan) designed to conform to IRS rules for 401(k) plans for all of its employees satisfying minimum service requirements as set forth under the plan. The plan allows for a matching contribution at the discretion of the Company. Employees can

Table of Contents

contribute amounts up to 100% of their eligible gross wages to the plan, subject to IRS limitations. The Company implemented a Companywide matching contribution on January 1, 2008 and discontinued offering such matching contribution across the Company on January 1, 2009. Effective January 2, 2012 the Company reinstated the matching contribution across the Company. During fiscal 2010 and 2011 the Company only offered a matching contribution to certain groups of the Company's employees. The Company's current match ranges from 50% to 100% of a specified portion of employee contribution, which specified portion ranges from 1% to 6% of eligible gross wages. During the year ended December 30, 2012, when the Company offered a matching contribution across the entire Company, the Company's matching contribution to the plan was \$1,033. During the years ended January 1, 2012 and December 31, 2010, when the Company did not offer a matching contribution across the entire Company, the Company's matching contributions to the plan were \$117 and \$102, respectively.

The Company maintains three nonqualified deferred compensation plans, as described below, for certain of its employees.

The Company maintains the GateHouse Media, Inc. Publishers' Deferred Compensation Plan (Publishers' Plan), a nonqualified deferred compensation plan for the benefit of certain designated publishers of the Company's newspapers. Under the Publishers' Plan, the Company credits an amount to a bookkeeping account established for each participating publisher pursuant to a pre-determined formula, which is based upon the gross operating profits of each such publisher's newspaper. The bookkeeping account is credited with earnings and losses based upon the investment choices selected by the participant. The amounts credited to the bookkeeping account on behalf of each participating publisher vest on an installment basis over a period of 15 years. A participating publisher forfeits all amounts under the Publishers' Plan in the event that the publisher's employment with the Company is terminated for cause, as defined in the Publishers' Plan. Amounts credited to a participating publisher's bookkeeping account are distributable upon termination of the publisher's employment with the Company and will be made in a lump sum or installments as elected by the publisher. The Publishers' Plan was frozen effective as of December 31, 2006, and all accrued benefits of participants under the terms of the Publishers' Plan became 100% vested. The Company recorded \$0, \$0 and \$0 of compensation expense related to the Publishers' Plan for the years ended December 30, 2012, January 1, 2012 and December 31, 2010, respectively.

The Company maintains the GateHouse Media, Inc. Executive Benefit Plan (Executive Benefit Plan), a nonqualified deferred compensation plan for the benefit of certain key employees of the Company. Under the Executive Benefit Plan, the Company credits an amount, determined at the Company's sole discretion, to a bookkeeping account established for each participating key employee. The bookkeeping account is credited with earnings and losses based upon the investment choices selected by the participant. The amounts credited to the bookkeeping account on behalf of each participating key employee vest on an installment basis over a period of 5 years. A participating key employee forfeits all amounts under the Executive Benefit Plan in the event that the key employee's employment with the Company is terminated for cause, as defined in the Executive Benefit Plan. Amounts credited to a participating key employee's bookkeeping account are distributable upon termination of the key employee's employment with the Company, and will be made in a lump sum or installments as elected by the key employee. The Executive Benefit Plan was frozen effective as of December 31, 2006, and all accrued benefits of participants under the terms of the Executive Benefit Plan became 100% vested. The Company recorded \$0, \$0 and \$0 of compensation expense related to the Executive Benefit Plan for the years ended December 30, 2012, January 1, 2012 and December 31, 2010, respectively.

The Company maintains the GateHouse Media, Inc. Executive Deferral Plan (Executive Deferral Plan), a nonqualified deferred compensation plan for the benefit of certain key employees of the Company. Under the Executive Deferral Plan, eligible key employees may elect to defer a portion of their compensation for payment at a later date. Currently, the Executive Deferral Plan allows a participating key employee to defer up to 100% of his or her annual compensation until termination of employment or such earlier period as elected by the participating key employee. Amounts deferred are credited to a bookkeeping account established by the Company for this purpose. The bookkeeping account is credited with earnings and losses based upon the

Table of Contents

investment choices selected by the participant. Amounts deferred under the Executive Deferral Plan are fully vested and non-forfeitable. The amounts in the bookkeeping account are payable to the key employee at the time and in the manner elected by the key employee.

(13) Pension and Postretirement Benefits

As a result of the Enterprise News Media, LLC and Copley Press, Inc. acquisitions, the Company maintains a pension plan and postretirement medical and life insurance plans which cover certain employees. The Company uses the accrued benefit actuarial method and best estimate assumptions to determine pension costs, liabilities and other pension information for defined benefit plans.

The Enterprise News Media, LLC pension plan was amended to freeze all future benefit accruals as of December 31, 2008, except for a select group of union employees whose benefits were frozen during 2009. Also, during 2008 the medical and life insurance benefits were frozen and the plan was amended to limit future benefits to a select group of active employees under the Enterprise News Media, LLC postretirement medical and life insurance plan.

The following provides information on the pension plan and postretirement medical and life insurance plan as of December 30, 2012 and January 1, 2012, for the years ended December 30, 2012 and January 1, 2012.

	Pension Year Ended December 30, 2012	Postretirement Year Ended December 30, 2012	Pension Year Ended January 1, 2012	Postretirement Year Ended January 1, 2012
Change in projected benefit obligation:				
Benefit obligation at beginning of period	\$ 23,926	\$ 6,461	\$ 23,142	\$ 6,413
Service cost	300	40	200	42
Interest cost	1,203	273	1,238	303
Actuarial loss	3,422	187	946	23
Benefits and expenses paid	(1,725)	(282)	(1,600)	(321)
Participant contributions		14		18
Employer implicit subsidy fulfilled		(27)		(17)
Projected benefit obligation at end of period	\$ 27,126	\$ 6,666	\$ 23,926	\$ 6,461
Change in plan assets:				
Fair value of plan assets at beginning of period	\$ 16,498	\$	\$ 17,101	\$
Actual return on plan assets	2,353		(372)	
Employer contributions	1,115	268	1,369	303
Employer implicit subsidy contribution		27		17
Participant contributions		14		18

Benefits paid	(1,402)	(282)	(1,295)	(321)
Expenses paid	(323)		(305)	
Fair value of plan assets at end of period	\$ 18,241	\$	\$ 16,498	\$
Reconciliation of funded status:				
Benefit obligation at end of period	\$ (27,126)	\$ (6,666)	\$ (23,926)	\$ (6,461)
Fair value of assets at end of period	18,241		16,498	
Funded status	(8,885)	(6,666)	(7,428)	(6,461)
Unrecognized prior service cost		(1,525)		(2,155)
Unrecognized actuarial (gain) loss	8,294	220	6,289	206
Net accrued benefit cost	\$ (591)	\$ (7,971)	\$ (1,139)	\$ (8,410)

Table of Contents

	Pension Year Ended December 30, 2012	Postretirement Year Ended December 30, 2012	Pension Year Ended January 1, 2012	Postretirement Year Ended January 1, 2012
Balance sheet presentation:				
Accrued liabilities	\$	\$ 423	\$	\$ 393
Pension and other postretirement benefit obligations	8,885	6,243	7,428	6,068
Accumulated other comprehensive income	(8,294)	1,305	(6,289)	1,949
Net accrued benefit cost	\$ 591	\$ 7,971	\$ 1,139	\$ 8,410

Components of net periodic benefit cost:

Service cost	\$ 300	\$ 40	\$ 200	\$ 42
Interest cost	1,203	273	1,238	303
Expected return on plan assets	(1,275)		(1,324)	
Amortization of prior service cost		(457)		(457)
Amortization of unrecognized (gain) loss	382		82	
Net periodic benefit cost	\$ 610	\$ (144)	\$ 196	\$ (112)

Other changes in plan assets and benefit obligations recognized in other comprehensive income:

Net actuarial loss	\$ 2,343	\$ 187	\$ 2,640	\$ 23
Amortization of net actuarial loss	(383)		(83)	
Amortization of prior service credit		457		457
Other adjustment	43		(240)	
Total recognized in other comprehensive income	\$ 2,003	\$ 644	\$ 2,317	\$ 480

Comparison of obligations to plan assets:

Projected benefit obligation	\$ 27,126	\$ 6,666	\$ 23,926	\$ 6,461
Accumulated benefit obligation	27,126	6,666	23,926	6,461
Fair value of plan assets	18,241		16,498	

The following assumptions were used in connection with the Company's actuarial valuation of its defined benefit pension and postretirement plans:

	Pension Year Ended December 30, 2012	Postretirement Year Ended December 30, 2012	Pension Year Ended January 1, 2012	Postretirement Year Ended January 1, 2012
Weighted average discount rate	4.1%	3.6%	5.1%	4.4%
Rate of increase in future compensation levels				
Expected return on assets	7.75%		7.75%	
Current year trend		7.7%		8.1%
Ultimate year trend		4.8%		4.8%
Year of ultimate trend		2022		2021

Table of Contents

The following assumptions were used to calculate the net periodic benefit cost for the Company's defined benefit pension and post retirement plans:

	Pension	Postretirement	Pension	Postretirement
	Year Ended	Year Ended	Year Ended	Year Ended
	December 30, 2012	December 30, 2012	January 1, 2012	January 1, 2012
Weighted average discount rate	5.1%	4.4%	5.7%	5.3%
Rate of increase in future compensation levels				
Expected return on assets	7.75%		7.75%	
Current year trend		8.1%		8.5%
Ultimate year trend		4.8%		4.8%
Year of ultimate trend		2022		2021

To determine the expected long-term rate of return on pension plan assets, the Company considers the current and expected asset allocations, as well as historical and expected returns on various categories of plan assets, input from the actuaries and investment consultants, and long-term inflation assumptions. The expected allocation of pension plan assets is based on a diversified portfolio consisting of domestic and international equity securities and fixed income securities. This expected return is then applied to the fair value of plan assets. The Company amortizes experience gains and losses, including the effects of changes in actuarial assumptions and plan provisions over a period equal to the average future service of plan participants.

Amortization of prior service costs was calculated using the straight-line method over the average remaining service periods of the employees expected to receive benefits under the plan.

	Postretirement
	Year Ended
	December 30,
	2012
Effect of 1% increase in health care cost trend rates	
APBO	\$ 7,092
Dollar change	\$ 426
Percent change	6.4%
Effect of 1% decrease in health care cost trend rates	
APBO	\$ 6,308
Dollar change	\$ (358)
Percent change	(5.4)%

Fair Value of plan assets are measured on a recurring basis using quoted market prices in active markets for identical assets, Level 1 input. The pension plan's assets by asset category are as follows:

	December 30, 2012		January 1, 2012	
	Dollar	Percent	Dollar	Percent
Equity mutual funds	\$ 12,299	67%	\$ 10,105	61%
Fixed income mutual funds	5,320	29%	5,353	33%
Cash and cash equivalents	575	3%	346	2%
Other	47	1%	694	4%
Total	\$ 18,241	100%	\$ 16,498	100%

Plan fiduciaries of the George W. Prescott Publishing Company LLC Pension Plan set investment policies and strategies for the pension trust. Objectives include preserving the funded status of the plan and balancing risk

Table of Contents

against return. The general target allocation is 70% in equity funds and 30% in fixed income funds for the plan's investments. To accomplish this goal, each plan's assets are actively managed by outside investment managers with the objective of optimizing long-term return while maintaining a high standard of portfolio quality and proper diversification. The Company monitors the maturities of fixed income securities so that there is sufficient liquidity to meet current benefit payment obligations.

The following benefit payments, which reflect expected future services, as appropriate, are expected to be paid as follows:

	Pension	Postretirement
2013	\$ 1,451	\$ 430
2014	1,451	428
2015	1,498	433
2016	1,528	428
2017	1,536	393
2018-2022	7,942	1,743
Employer contribution expected to be paid during the year ending December 31, 2013	\$ 1,147	\$ 430

The postretirement plans are not funded.

The aggregate amount of net actuarial loss and prior service cost related to the Company's pension and post retirement plans recognized in other comprehensive income as of December 30, 2012 was \$6,991.

Multiemployer Plans

The Company is a participant in three multi-employer pension plans covering certain employees with Collective Bargaining Agreements (CBAs) in Ohio, Massachusetts and Illinois. The risks of participating in these multi-employer plans are different from single-employer plans in the following aspects:

The Company plays no part in the management of plan investments or any other aspect of plan administration.

Assets contributed to the multi-employer plan by one employer may be used to provide benefits to employees of other participating employers.

If a participating employer stops contributing to the plan, the unfunded obligations of the plan may be borne by the remaining participating employers.

If the Company chooses to stop participating in some of its multi-employer plans, the Company may be required to pay those plans an amount based on the unfunded status of the plan, referred to as withdrawal liability.

The Company's participation in these plans for the year ended December 30, 2012, is outlined in the table below. The EIN/Pension Plan Number column provides the Employee Identification Number (EIN) and the three-digit plan number. Unless otherwise noted, the two most recent Pension Protection Act (PPA) zone statuses available are for the plan's for the years ended December 30, 2012 and January 1, 2012, respectively. The zone status is based on information that the company received from the plan and is certified by the plan's actuary. Among other factors, plans in the red zone are generally less than 65% funded; plans in the orange zone are both a) less than 80% funded and b) have an accumulated/expected funding deficiency in any of the next six plan years, net of any amortization extensions; plans in the yellow zone meet either one of the criteria mentioned in the orange zone; and plans in the green zone are at least 80% funded. The FIP/RP Status Pending/Implemented column indicates plans for which a financial improvement plan (FIP) or a rehabilitation plan (RP) is either pending or has been implemented. The last column lists the expiration date(s) of the collective-bargaining agreement(s) to which the plans are subject.

Table of Contents

The Company makes all required contributions to these plans as determined under the respective CBAs. For each of the plans listed below, the Company's contribution represented less than 5% of total contributions to the plan.

Pension Plan Name	EIN Number/ Plan Number	Zone Status		FIP/RP Status	Contributions (in thousands)			Surcharge Imposed	Expiration Dates of CBAs
		2012	2011	Pending/ Implemented	2012	2011	2010		
CWA/ITU Negotiated Pension Plan	13-6212879/001	Red	Red	Implemented	\$ 13	\$ 9	\$ 8	No	Under negotiation
GCIU Employer Retirement Benefit Plan ^{(a)(b)}	91-6024903/001	Red	Red	Implemented	89	87	89	No	11/14/2014
The Newspaper Guild International Pension Plan ^(a)	52-1082662/001	Red	Red	Implemented	49	130	146	No	09/30/2014
Total					\$ 151	\$ 226	\$ 243		

(a) This plan has elected to utilize special amortization provisions provided under the Preservation of Access to Care for Medicare Beneficiaries and Pension Relief Act of 2010.

(b) During the fiscal year 2012 the Company accrued \$1,185 related to this plan due to the discontinuance of press operations at its Suburban Chicago location.

(14) Stock Compensation Plans**Omnibus Stock Incentive Plan**

On October 5, 2006, the Company adopted a new equity incentive plan for its employees, the GateHouse Media, Inc. Omnibus Stock Incentive Plan (the Plan) and presented the Plan to the Company's stockholders for approval, which was received on October 6, 2006. The Plan provides for the issuance of stock options, stock appreciation rights, restricted shares, deferred shares, performance shares, unrestricted shares and other stock-based awards. A total of 2,000,000 shares of the Company's common stock were initially reserved for issuance under the Plan, provided however, that commencing on the first day of each fiscal year beginning in calendar year 2007, the number of shares reserved and available for issuance is increased by an amount equal to 100,000. All such shares of the Company's common stock that are available for the grant of awards under the Plan may be granted as incentive stock options. Section 162(m) of the Internal Revenue Code (the Code) states that the maximum aggregate number of shares that is subject to stock options or stock appreciation rights that may be granted to any individual during any fiscal year is 400,000 and the maximum aggregate number of shares that is subject to awards of restricted stock, deferred shares, unrestricted shares or other stock-based awards that may be granted to any individual during any fiscal year is 400,000.

The Plan is administered by the Company's board of directors, although it may be administered by either the board of directors or any committee of the board of directors including a committee that complies with the applicable requirements of Section 162(m) of the Code, Section 16 of the Exchange Act and any other applicable legal or stock exchange listing requirements.

Except as otherwise provided by the Plan administrator, on the first business day after the Company's annual meeting of stockholders and each such annual meeting thereafter during the term of the Plan, each of the Company's independent directors who is serving following such annual meeting will automatically be granted under the Plan a number of unrestricted shares of common stock having a fair market value of \$15 as of the date of grant; however, those of the Company's independent directors who were granted restricted common stock upon the consummation of the IPO will not be eligible to receive these automatic annual grants.

Table of Contents

The terms of the Plan provide that the board of directors may amend, alter or discontinue the Plan, but no such action may impair the rights of any participant with respect to outstanding awards without the participant's consent. The Plan administrator, however, reserves the right to amend, modify, or supplement an award to either bring it into compliance with Section 409A of the Code, or to cause the award to not be subject to such section. The Plan will terminate on October 5, 2016.

As of December 30, 2012 and January 1, 2012, a total of 25,424 and 84,181 RSGs were outstanding under the Plan, respectively.

(15) Assets Held for Sale

As of December 30, 2012 and January 1, 2012, the Company intended to dispose of various assets which are classified as held for sale on the consolidated balance sheet in accordance with ASC 360. The following table summarizes the major classes of assets and liabilities held for sale at December 30, 2012 and January 1, 2012:

	December 30, 2012	January 1, 2012
Long-term assets held for sale:		
Property, plant and equipment, net	\$ 474	\$ 934
Total long-term assets held for sale	\$ 474	\$ 934

These assets are real property and no publication related assets are included.

During the years ended December 30, 2012 and January 1, 2012 the Company recorded an impairment charge in the amount of \$2,128 and \$355, respectively, related to property, plant and equipment which were classified as held for sale, refer to Note 16 for fair value measurement discussion.

(16) Fair Value Measurement

The Company measures and records in the accompanying consolidated financial statements certain assets and liabilities at fair value on a recurring basis. ASC 820 establishes a fair value hierarchy for those instruments measured at fair value that distinguishes between assumptions based on market data (observable inputs) and the Company's own assumptions (unobservable inputs).

These inputs are prioritized as follows:

Level 1: Observable inputs such as quoted prices in active markets for identical assets or liabilities;

Level 2: Inputs other than quoted prices included within Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities or market corroborated inputs; and

Level 3: Unobservable inputs for which there is little or no market data and which require us to develop our own assumptions about how market participants price the asset or liability.

The valuation techniques that may be used to measure fair value are as follows:

Market approach Uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities;

Edgar Filing: GateHouse Media, Inc. - Form ARS

Income approach Uses valuation techniques to convert future amounts to a single present amount based on current market expectation about those future amounts;

Cost approach Based on the amount that currently would be required to replace the service capacity of an asset (replacement cost).

Table of Contents

The following table provides information for the Company's major categories of financial assets and liabilities measured or disclosed at fair value on a recurring basis:

	Fair Value Measurements at Reporting Date Using				
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total Fair Value Measurements	Valuation Technique
As of January 1, 2012					
Assets					
Cash and cash equivalents	\$ 19,212	\$	\$	\$ 19,212	Income
Restricted cash	6,167			6,167	Income
Liabilities					
Derivatives ⁽¹⁾	\$	\$	\$ 51,576	\$ 51,576	Income
As of December 30, 2012					
Assets					
Cash and cash equivalents	\$ 34,527	\$	\$	\$ 34,527	Income
Restricted cash	6,467			6,467	Income
Liabilities					
Derivatives ⁽¹⁾	\$	\$	\$ 45,724	\$ 45,724	Income

(1) Derivative assets and liabilities include interest rate swaps which are measured using the Company's estimates of the assumptions a market participant would use in pricing the derivative. The fair value of the interest rate derivative is determined based on the upper notional band using cash flows discounted at the relevant market interest rates in effect at the period close and incorporates an assessment of the risk of non-performance by the interest rate derivative counterparty in valuing derivative assets and an evaluation of the Company's credit risk in valuing derivative liabilities.

The following tables reflect the activity of our derivative liabilities measured at fair value using significant unobservable inputs (Level 3) for year ended December 30, 2012:

	Derivative Liabilities
Balance as of January 1, 2012	\$ 51,576
Total (gains) losses, net:	
Included in earnings	(20)
Included in other comprehensive income	(5,832)
Balance as of December 30, 2012	\$ 45,724

Certain assets are measured at fair value on a nonrecurring basis; that is, the instruments are not measured at fair value on an ongoing basis but are subject to fair value adjustments only in certain circumstances (for example, when there is evidence of impairment). During the quarters ended April 1, 2012 and January 1, 2012, goodwill was written down to implied fair value using Level 3 inputs. The valuation techniques utilized to measure fair value are discussed in Note 5.

Refer to Note 8 for the discussion on the fair value of the Company's total long-term debt.

Refer to Note 13 for the discussion on the fair value of the Company's pension plan.

During the years ended December 30, 2012 and January 1, 2012, the Company recorded an impairment charge in the amount of \$2,128 and \$355, respectively, related to property, plant and equipment which were classified as held for sale. The Company used assessed values and current market data, Level 2 inputs, to determine the fair value. Additionally, during the three months ended June 26, 2011, the Company

Edgar Filing: GateHouse Media, Inc. - Form ARS

wrote-off presses having a net book value of \$1,696 related to the consolidation of its print operations, utilizing recent sale activity, Level 2 inputs.

Table of Contents

(17) Commitments and Contingencies

The Company becomes involved from time to time in claims and lawsuits incidental to the ordinary course of its business, including with respect to such matters as libel, invasion of privacy, intellectual property infringement, wrongful termination actions, and complaints alleging employment discrimination. In addition, the Company is involved from time to time in governmental and administrative proceedings concerning employment, labor, environmental and other claims. Insurance coverage maintained by the Company mitigates potential loss for certain of these matters. Historically, such claims and proceedings have not had a material effect upon the Company's consolidated results of operations or financial condition. While the Company is unable to predict the ultimate outcome of any currently outstanding legal actions, it is the opinion of the Company's management that it is a remote possibility that the disposition of these matters would have a material adverse effect upon the Company's consolidated results of operations, financial condition or cash flow.

Restricted cash at December 30, 2012 and January 1, 2012, in the aggregate amount of \$6,467 and \$6,167, respectively, is used to collateralize standby letters of credit in the name of the Company's insurers in accordance with certain insurance policies and as cash collateral for certain business operations.

(18) Related-Party Transactions

Fortress Investment Group, LLC

On May 9, 2005, FIF III, FIF III Liberty Acquisitions, LLC, a wholly-owned subsidiary of FIF III (Merger Subsidiary), and the Company entered into an agreement that provided for the merger of Merger Subsidiary with and into the Company, with the Company continuing as a wholly-owned subsidiary of FIF III (the Merger). The Merger was completed on June 6, 2005. FIF III is an affiliate of Fortress Investment Group LLC.

As of December 30, 2012, Fortress Investment Group LLC and its affiliates (Fortress) beneficially owned approximately 39.6% of the Company's outstanding common stock.

In addition, the Company's Chairman, Wesley Edens, is also the Co-Chairman of the board of directors of Fortress Investment Group LLC. The Company does not pay Mr. Edens a salary or any other form of compensation.

Affiliates of Fortress own \$410,862 of the \$1,174,098 outstanding under the 2007 Credit Facility, as amended as of March 7, 2013, of which \$49,085 is still waiting to be settled. These amounts were purchased on arms length terms in secondary market transactions.

On August 21, 2008, FIF III purchased an aggregate of \$11,500 in 10% cumulative preferred stock of GateHouse Media Macomb. The preferred stock was issued on August 21, 2008. Macomb, an Unrestricted Subsidiary under the terms of the 2007 Credit Facility, used the proceeds from such sale of preferred stock to make an \$11,500 cash investment in Holdco non-voting 10% cumulative preferred stock. On December 7, 2010, FIF III exercised its right to require the Company to purchase its Macomb preferred stock. The Company paid the purchase price of \$14,144 on December 8, 2010, which represented the sum of original purchase price of \$11,500 paid by FIF III for the Macomb preferred stock and accrued but unpaid dividends of \$2,644.

On October 24, 2006, the Company entered into an Investor Rights Agreement with FIF III. The Investor Rights Agreement provides FIF III with certain rights with respect to the nomination of directors to the Company's board of directors as well as registration rights for securities of the Company owned by Fortress.

The Investor Rights Agreement requires the Company to take all necessary or desirable action within its control to elect to its board of directors so long as Fortress beneficially owns (i) more than 50% of the voting power of the Company, four directors nominated by FIG Advisors LLC, an affiliate of Fortress (FIG

Table of Contents

Advisors), or such other party nominated by Fortress; (ii) between 25% and 50% of the voting power of the Company, three directors nominated by FIG Advisors; (iii) between 10% and 25% of the voting power of the Company, two directors nominated by FIG Advisors; and (iv) between 5% and 10% of the voting power of the Company, one director nominated by FIG Advisors. In the event that any designee of FIG Advisors shall for any reason cease to serve as a member of the board of directors during his term of office, FIG Advisors will be entitled to nominate an individual to fill the resulting vacancy on the board of directors. The Company is also to take all necessary or desirable action to limit the overall size of the Company's board of directors to not more than seven directors.

Pursuant to the Investor Rights Agreement, the Company has granted FIF III, for so long as it or its permitted transferees beneficially own an amount of the Company's common stock at least equal to 5% or more of the Company's common stock issued and outstanding immediately after the consummation of its IPO (a Registrable Amount), demand registration rights that allow FIF III at any time to request that the Company register under the Securities Act of 1933, as amended, an amount equal to or greater than a Registrable Amount (as defined in the Investor Rights Agreement). Parent is entitled to an aggregate of four demand registrations. The Company is not required to maintain the effectiveness of the registration statement for more than 60 days. The Company is also not required to effect any demand registration within nine months of a firm commitment underwritten offering to which the requestor held piggyback rights and which included at least half of the securities requested by the requestor to be included. The Company is not obligated to grant a request for a demand registration within four months of any other demand registration and may refuse a request for demand registration if, in the Company's reasonable judgment, it is not feasible for the Company to proceed with the registration because of the unavailability of audited financial statements.

FIF III also has piggyback registration rights that allow FIF III to include the shares of common stock that FIF III and its permitted transferees own in any public offering of equity securities initiated by the Company (other than those public offerings pursuant to registration statements on Forms S-4 or S-8) or by any of the Company's other stockholders that may have registration rights in the future. The piggyback registration rights of FIF III are subject to proportional cutbacks based on the manner of the offering and the identity of the party initiating such offering.

The Company has additionally granted FIF III and its permitted transferees for as long as Fortress beneficially owns a Registrable Amount, the right to request shelf registrations on Form S-3, providing for an offering to be made on a continuous basis, subject to a time limit on the Company's efforts to keep the shelf registration statement continuously effective and the Company's right to suspend the use of a shelf registration prospectus for a reasonable period of time (not exceeding 60 days in succession or 90 days in the aggregate in any 12-month period) if the Company determines that certain disclosures required by the shelf registration statement would be detrimental to the Company or the Company's stockholders.

The Company has agreed to indemnify FIF III and its permitted transferees against any losses or damages resulting from any untrue statement or omission of material fact in any registration statement or prospectus pursuant to which FIF III and its permitted transferees sells shares of the Company's common stock, unless such liability arose from FIF III misstatement or omission, and Parent has agreed to indemnify the Company against all losses caused by its misstatements or omissions. The Company will pay all expenses incident to registration and Fortress will pay its respective portions of all underwriting discounts, commissions and transfer taxes relating to the sale of its shares under such a registration statement.

(19) Discontinued Operations

During the year ended December 31, 2010, the Company discontinued a publication in New York. An impairment loss of \$404 is included in discontinued operations on the Consolidated Statement of Operations and Comprehensive Income (Loss) for this period for the aforementioned discontinued operation and previously sold and discontinued operations.

Table of Contents

During the year ended December 30, 2012, the Company sold 22 publications in Suburban Chicago, Illinois for an aggregate purchase price of approximately \$2,800. As a result, an impairment loss of \$1,922 is included in loss from discontinued operations on the Consolidated Statement of Operations and Comprehensive Income (Loss) for this period. Additionally, an impairment loss of \$206 is included in loss from discontinued operations net of income taxes on the Consolidated Statement of Operations and Comprehensive Income (Loss) for this period related to previously discontinued operations. The financial position and results of operations of the publications in Suburban Chicago, Illinois are reflected as discontinued operations for all periods presented.

The net revenue during the years ended December 30, 2012, January 1, 2012 and December 31, 2010 for the aforementioned discontinued operations was \$6,312, \$8,830 and \$10,862, respectively. Income (loss), net of income taxes of \$0, during the years ended December 30, 2012, January 1, 2012 and December 31, 2010 for the aforementioned discontinued operations was \$(1,592), \$283 and \$743, respectively.

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

Not applicable.

Item 9A. Controls and Procedures

Conclusion Regarding the Effectiveness of Disclosure Controls and Procedures

Our management, with the participation of our Chief Executive Officer (principal executive officer) and Chief Financial Officer (principal financial officer), has evaluated the effectiveness of our disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act), as of the end of the period covered by this report. Based on such evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, as of December 30, 2012, our disclosure controls and procedures were effective.

Changes in Internal Controls Over Financial Reporting

There have not been any changes in our internal control over financial reporting (as such term is defined in Rule 13a-15(f) under the Exchange Act) during the fourth quarter of the fiscal year covered by this report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Management's Annual Report on Internal Control Over Financial Reporting

Our management is responsible for establishing and maintaining effective internal control over financial reporting, as such term is defined in Exchange Act Rule 13a-15(f). Our internal control system was designed under the supervision of our Chief Executive Officer and our Chief Financial Officer and with the participation of management in order to provide reasonable assurance regarding the reliability of our financial reporting and our preparation of financial statements for external purposes in accordance with GAAP.

All internal control systems, no matter how well designed and tested, have inherent limitations, including, among other things, the possibility of human error, circumvention or disregard. Therefore, even those systems of internal control that have been determined to be effective can provide only reasonable assurance that the objectives of the control system are met and may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Under the supervision of our Chief Executive Officer and our Chief Financial Officer and with the participation of management, we conducted an assessment of the effectiveness of our internal control over financial reporting based on the criteria set forth in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on an assessment of such criteria, management concluded that, as of December 30, 2012, we maintained effective internal control over financial reporting.

This annual report does not include an attestation report of our independent registered public accounting firm regarding internal control over financial reporting as one is not required pursuant to the provisions of the Dodd - Frank Wall Street Reform and Consumer Protection Act.

Item 9B. Other Information

Not applicable.

Table of Contents**PART III****Item 10. Directors, Executive Officers and Corporate Governance**

Except as set forth below, the information required by this Item 10 is incorporated into this report by reference to our proxy statement to be issued in connection with our 2012 Annual Meeting of Stockholders under the headings Election of Directors, Executive Officers, Corporate Governance Principles and Board Matters and Section 16(a) Beneficial Ownership Reporting Compliance, which proxy statement will be filed within 120 days after the year ended December 30, 2012.

We have adopted a Code of Business Conduct and Ethics that applies to our principal executive officer, principal financial officer, principal accounting officer or controller or persons performing similar functions. Our Code of Business Conduct and Ethics also applies to all of our other employees and, as set forth therein, to our directors. Our Code of Business Conduct and Ethics is posted on our website at www.gatehousemedia.com under Investors/Governance Documents. We intend to satisfy any disclosure requirements pursuant to Item 5.05 of Form 8-K regarding any amendment to, or a waiver from, certain provisions of our Code of Business Conduct and Ethics by posting such information on our website under Investors/Governance Documents.

Item 11. Executive Compensation

The information required by this Item 11 is incorporated into this report by reference to our proxy statement to be issued in connection with our 2012 Annual Meeting of Stockholders, under the headings Compensation Discussion and Analysis, Compensation Committee Report and Compensation of Executive Officers, which proxy statement will be filed within 120 days after the year ended December 30, 2012.

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters

Except as set forth below, the information required by this Item 12 is incorporated into this report by reference to our proxy statement to be issued in connection with our 2012 Annual Meeting of Stockholders, under the heading Common Stock Ownership of Certain Beneficial Owners and Management, which proxy statement will be filed within 120 days after the year ended December 30, 2012.

The following graph compares the cumulative total return for our common stock (stock price change plus reinvested dividends) with the comparable return of two indices: the Russell 2000 Index and the Peer Group. Representative companies in the Peer Group include Gannett Co., Inc., Lee Enterprises, Incorporated, The McClatchy Company, The New York Times Company, The E.W. Scripps Company, Media General, Inc. and Journal Communications, Inc. The graph assumes an investment of \$100 in the Company's common stock and in each of the indices on December 31, 2007, when our common stock was first publicly traded, and that all dividends were reinvested. The past performance of our common stock is not an indication of future performance.
